Workers whose benefits were computed using wage indexing will be able to have their basic benefit recomputed if earnings after entitlement will result in a higher benefit, although the additional earnings will not be indexed.

#### ISSUANCE OF REGULATIONS

The provisions for computing benefits under the Social Security Amend-

ments of 1977 are effective January 1, 1979. Therefore, we are publishing these regulations with interim effect, because a delay in implementation would be impractical.

These rules are required by the statute. In the one area where regulations are specified—the definition of the average for the total wages for all workers for each year—our issuance of regulations at this time has enabled us to determine the best available data and the most feasible administrative methods. We are issuing a separate notice giving the average of the total wages for calendar years 1951 through 1977 based on these data and methods. These figures will be used in wage indexing for workers who after 1978 first become eligible for retirement or disability benefits or die before becoming eligible. While the rules will have interim effect, we shall consider public comments before issuing final rules.

(Sections 205, 215, and 1102 of the Social Security Act, as amended; 53 Stat. 1368, as amended, 64 Stat. 506, as amended, 49 Stat. 647; 42 U.S.C. 405, 415, and 1302.)

(Catalog of Federal Domestic Assistance Program Nos. 13.802 Social Security-Disability Insurance; 13.803 Social Security-Retirement Insurance; 13.805 Social Security-Survivors Insurance.)

Dated: December 14, 1978.

STANFORD G. ROSS,  
Commissioner of  
Social Security.

Approved: December 16, 1978.

Part 404 of Chapter III of Title 20 of the Code of Federal Regulations is amended as follows:

1. Section 404.203 is amended as follows: In paragraph (a), "or average indexed monthly earnings," is added after "average monthly wage"; in paragraphs (d) and (f), the period is deleted after "average monthly wage" and "or average indexed monthly earnings," is added; and paragraphs (m), (n), and (o) are added to read as follows:

#### § 404.203 Definition of terms.

(m) *The average of the total wages.* As used in this subpart, "the average of the total wages" (the average wage) means:

(1) for years after 1977, all remuneration reported as wages on Form W-2 to the Internal Revenue Service for all employees for income tax purposes, divided by the number of wage earners. The term includes remuneration for services not covered by social security and remuneration for covered employment in excess of that which is subject to FICA contributions.

(2) for the years 1951 through 1977, four times the amount of average taxable wages that were reported to the Social Security Administration for the first calendar quarter of each year for social security tax purposes. For years prior to 1973, these average wages will be determined from a sampling of these reports. The average wage amounts for 1951-1977 will then be adjusted to make the amounts comparable to those computed by using W-2 data reported to IRS for income tax purposes.

(n) *Average indexed monthly earnings (AIME).* The "average indexed monthly earnings" (AIME) are the average of the insured individual's monthly creditable earnings in the benefit computation years, as adjusted or "indexed." The adjustment is intended to reflect increases in the average wages of all wage earners from 1951 through the second year before the year the worker dies or becomes eligible for benefits.

(o) *Eligibility.* For purposes of this subpart, an individual is considered to be eligible:

(1) for old-age insurance benefits, beginning with the month in which the individual attains age 62; and

(2) for disability insurance benefits, beginning with the month in which the individual's period of disability begins (see § 404.311)

If fewer than 12 months have passed from the end of an earlier period of entitlement to disability benefits to the beginning of the current period of eligibility to retirement or disability benefits or death, then current eligibility is considered to begin the same month the earlier period of disability began.

#### § 404.205 [Amended]

2. Section 404.205 is amended by deleting "and the Amendments of 1972 (Pub. L. 92-603)," and inserting "the Amendments of 1972 (Pub. L. 92-603); and the amendments of 1977 (Pub. L. 95-216)." in the first sentence; and by inserting after "Act," in the third sentence "from the individual's average indexed monthly earnings (§ 404.212), from the individual's primary insurance benefit if the individual had earnings in years before 1951 (§ 404.213)."

#### § 404.207 [Amended]

3. Section 404.207 is amended by inserting after "higher" in the first sentence of paragraph (a) "or unless the wage indexing method in the Amendments of 1977 applies."

4. Following § 404.211, new §§ 404.212, 404.212a, 404.212b, and 404.212c are added to read as follows:

§ 404.212 Computing an individual's primary insurance amount (PIA) under the 1977 Amendments.

(a) *PIA based on the average indexed monthly earnings (AIME).* The PIA is the sum of three separate percentages of portions of the AIME. (See § 404.212a for an explanation of the AIME.)

(1) For individuals who either become eligible for benefits in 1979 or die in 1979 before becoming eligible, the PIA is computed by adding the following:

(i) 90 percent of the first \$180 of the AIME;

(ii) 32 percent of the AIME over \$180 and through \$1,085;

(iii) 15 percent of the AIME over \$1,085.

(2) If the sum is not a multiple of \$.10, it is rounded to the next higher multiple of \$.10.

(3) For eligibility or death before eligibility after 1979, the same formula is used except that \$180 and \$1,085 are adjusted as explained in paragraph (b) of this section.

(4) If, after adjustment for the cost-of-living increase, the PIA computed under the 1977 Amendments is less than \$122 (as adjusted for the cost of living), which is the minimum amount in column IV of the benefit table that was in effect in December 1978, rounded to the next higher dollar, or is less than the special minimum PIA computed for the individual (as adjusted for the cost of living), then the PIA to be used in determining that individual's benefits is the larger of these two minimum amounts.

(b) *Adjusting \$180 and \$1,085 in the PIA formula after 1979.* For an individual who after 1979 either first becomes eligible for benefits (§ 404.203(o)) or dies before becoming eligible, the \$180 and the \$1,085 are adjusted. The adjustment updates the amounts to reflect the change in average wages of all wage earners which has occurred between 1977 and the second year before the year of first eligibility or death. This is done first by dividing the average of the total wages for the second year before the year in which the insured individual dies or first becomes eligible for benefits, by the average of the total wages for 1977 (the second year before 1979). The answer is multiplied by \$180 and by \$1,085 to obtain the revised figures for purposes of computing the PIA. The revised figures are rounded to the nearer dollar. For example, the amount of \$210.49 is rounded to \$210.00; and \$210.50 is rounded to \$211.00.

*Example.* An insured worker becomes eligible for benefits in 1981. The estimated average of the total wages for 1979, the second year before the worker became eligible, is \$11,311.72

and the average of the total wages for 1977 is \$9,779.44. Thus, \$180 and \$1,085 are adjusted as follows:

$$\$11,311.72/\$9,779.44 \times \$180 = \$208.$$

$$\$11,311.72/$$

$$\$9,779.44 \times \$1,085 = \$1,255.$$

(c) *Prior entitlement to disability insurance benefits (DIB).* The PIA is computed or recomputed as indicated in paragraph (a) of this section for any individual who after 1978 becomes age 62, becomes disabled, or dies before becoming age 62 or disabled, except where the individual was previously entitled to DIB.

(1) *Prior entitlement to DIB before 1979.* The PIA will be computed or recomputed under the pre-1977 Amendments average monthly wage method if the individual was entitled to DIB before 1979 and fewer than 12 months have passed between the prior entitlement to DIB and current eligibility for retirement (RIB) or disability insurance benefits or death. Also, if fewer than 12 months have passed between the prior entitlement to DIB and either current entitlement to RIB or DIB, or death, then the individual's PIA will be the amount computed under paragraph (c)(2) of this section.

(2) *Prior entitlement within past 12 months.* If the individual has been entitled to DIB either before or after 1979 but within 12 months of the first month of current entitlement to retirement or disability benefits or death, the current PIA is the largest of the following:

(i) the PIA (including one computed under a pre-1977 Amendments provision) which was used in figuring the individual's previous DIB, increased by:

(a) any general benefit increase which has occurred since the individual was last entitled; and

(b) any cost-of-living increase (see § 404.221) which has occurred since the individual was last entitled;

(ii) \$122, which is the minimum amount in column IV of the benefit table that is in effect in December 1978, rounded to the next higher dollar, plus any cost-of-living increases which have occurred since the individual was last entitled to disability benefits;

(iii) the special minimum PIA (see § 404.219); or

(iv) a recomputation of the former PIA to take into account earnings after the DIB entitlement ended.

(3) *Prior entitlement to DIB more than 12 months ago.* If the individual's entitlement to DIB ended more than 12 months before the first month of his current entitlement to benefits or death, a new PIA will be computed. The individual's new PIA will be the higher of this newly computed PIA or the PIA that was in effect for the last month of the individual's former entitlement to disability insurance benefits without regard to any interim cost-of-living increases.

#### § 404.212a Computing an individual's average indexed monthly earnings (AIME).

(a) *General.* Earnings up to the annual wage limitation (§ 404.1027) which are recorded in the Social Security Administration's records for an individual will be the basis for computing the AIME. The amounts recorded for each year after 1950 and through the second year before the earlier of the year of first eligibility or death will be adjusted or "indexed" to reflect increases in average wages for all wage earners between the year in which the amounts were earned and the second year before the year of the individual's eligibility for benefits or death.

(b) *Computing the AIME.* (1) To compute the AIME:

(i) Divide the average of the total wages for the second year (1977 or later) before the earlier of the year of

the insured individual's death or first eligibility to benefits, by the average of the total wages for the first computation base year. Multiply the answer by the wages and self-employment income credited to the individual (up to the annual wage limitation) for this first computation base year to obtain the adjusted earnings for that year;

(ii) Repeat this process for each computation base year which is subject to adjustment (see paragraph (b)(2) of this section) to determine the adjusted earnings for each such year;

(iii) Select the highest earnings (adjusted and those which could not be adjusted) for the number of years equal in number to the benefit computation years;

(iv) Total these highest earnings and divide by the total number of months in the benefit computation years. The answer is the average indexed monthly earnings;

(v) If the AIME as computed is not a multiple of \$1, reduce it to the next lower multiple of \$1.

(2) Earnings recorded beginning with the year before death or first eligibility and for each year thereafter may be used in computing the AIME, but the individual's earnings for these years are not adjusted.

*Example.* An individual retires at age 62 in 1979. He earned \$3,000 in 1956. The average annual wages were \$3,532.36 for 1956 and \$9,779.44 for 1977. The individual's indexed earnings for 1956 are computed as follows:

| Indexed Earnings = | Individual's earnings<br>for year to be indexed | Average wage for<br>second year before eligibility<br>or death | Average wage for year<br>being adjusted |
|--------------------|-------------------------------------------------|----------------------------------------------------------------|-----------------------------------------|
|                    | $\times$                                        |                                                                |                                         |
| Indexed Earnings = | $\$3,000 \times \$9,779.44$                     |                                                                |                                         |
|                    |                                                 |                                                                | $= \$8,305.59$                          |
|                    |                                                 |                                                                | $\$3,532.36$                            |

(c) *Determining the computation base years.* For purposes of the AIME, computation base years are determined the same as for the average monthly wage. (See § 404.211(b).)

(d) *Determining the elapsed years.* Elapsed years are determined the same as for the average monthly wage (see § 404.211(c)).

#### § 404.212b Selecting the proper computation method.

(a) *When an individual's benefits are computed under the 1977 Amendments.*

(1) Benefits are computed under the provisions of the Social Security Amendments of 1977 for an individual who after 1978: (i) attains age 62, (ii) becomes disabled, or (iii) dies before age 62. (2) If, however, the individual had been entitled to a disability benefit for any of the 12 months preceding his current eligibility or death, the year in which his former disability eligibility began determines the method of computing the current PIA (see § 404.212(c)(1)).

(b) *When modified pre-1977 Amendments computations are to be used*

*after 1978 for computing a Retirement Insurance Benefit (RIB) or a survivor's benefit.* (1) RIB and dependents' benefits are based on an average monthly wage and a PIA as computed under the pre-1977 amendment provisions if certain conditions are met. (See subparagraph (2) of this paragraph.) In computing the PIA, the benefit table in effect for December 1978 is used without regard to any later benefit increases which might have affected the table, and without using the individual's earnings in the year of eligibility or death or any later years. If a deceased worker met the conditions of this provision, benefits for the survivors are based on the PIA as computed under the pre-amendment average monthly wage provisions, even if the worker had not applied for an RIB.

(2) The conditions for using the pre-1977 Amendments computations are:

(i) The individual had wages or self-employment income credited before 1979;

(ii) The individual did not attain age 62, become disabled, or die before 1979;

(iii) The individual becomes age 62 before 1984; and

(iv) The PIA computed under the pre-1977 amendment average monthly wage provision is higher than the PIA computed under the 1977 Amendments, including the special minimum benefit and pre-1951 earnings provisions, after adding any applicable cost-of-living increases to the computations.

#### § 404.212c Publication of formula for computing AIME and PIA.

Before November 2 of each year, the Secretary of Health, Education, and Welfare will publish in the *FEDERAL REGISTER* the formula for computing benefits for the next year, the formula for adjusting wages and self-employment income when computing the AIME, and the average of the total wages needed for these computations. The first publication includes the average of the total wages for each calendar year after 1950 through 1977.

5. In section 404.219 paragraphs (a) and (b)(2) are amended and paragraph (d) is added to read as follows:

#### § 404.219 Special minimum primary insurance amounts.

(a) *General.* The 1972 amendments provided for a special computation of primary insurance amounts as an alternative to the method described in § 404.209 and § 404.213. Under that provision, for monthly benefits payable after December 1972 and for lump-sum payments for deaths occurring after that month, an insured individual's primary insurance amount is equal to \$8.50 multiplied by the

number of the individual's "years of coverage" (see paragraph (b) of this section) in excess of 10 but not more than 30. The 1973 amendments modified this provision so that for monthly benefits payable after February 1974 and for lump-sum payments for deaths occurring after that month, an insured individual's primary insurance amount is equal to \$9.00 multiplied by the number of the individual's "years of coverage" (see paragraph (b) of this section) in excess of 10 but not more than 30. The maximum primary insurance amount under this special minimum computation is \$180 for months after February 1974 (\$170 for January 1973 through February 1974). These amendments did not provide any additional increase or change in this provision for months after February 1974. The 1977 amendments further modified this provision so that beginning January 1979, the PIA's are computed or recomputed by multiplying \$11.50 times the number of the individual's years of coverage in excess of 10 but not more than 30, and the special minimum PIA is now subject to cost-of-living increases which are applicable to both current and future beneficiaries. The special minimum PIA provision applies only when it produces a PIA which is greater than the PIA determined under the average monthly wage method (§ 404.209), the indexing method (§ 404.212), and the pre-1951 earnings method (§ 404.213), whichever applies.

(b) *Years of coverage.* In computing an insured individual's primary insurance amount under the special minimum provision described in paragraph (a) of this section, the number of the individual's "years of coverage" is equal in number to the sum of the following, up to a maximum of 30: . . .

(2) The number of "computation base years" after 1950 (see § 404.211(b)) in which the individual's creditable earnings for the year were not less than 25 percent of the maximum creditable amount for that year (see § 404.1027 and § 404.1068) as determined under the provisions of section 230 of the Act as in effect before the 1977 Amendments.

(d) *Recomputing the special minimum primary insurance amount.* Under the 1977 Amendments the Secretary recomputes the special minimum PIA's for all current beneficiaries by using \$11.50 as the base figure by which the number of years of coverage is multiplied. The recomputed amount is effective January 1979 and is then subject to cost-of-living increases.

6. Section 404.221 is amended by changing the cross-reference in the second sentence of paragraph (a) from

"(see § 404.231)" to "before January 1979 (see § 404.219)"; and by adding paragraphs (c), (d), and (e) to read as follows:

#### § 404.221 Cost-of-living benefit increases.

(c) *Determining cost-of-living increases after 1978.* (1) Beginning in 1979, cost-of-living increases are also applicable; (i) to the special minimum benefit (see § 404.219), (ii) to all primary insurance amounts initially computed under the 1977 Amendments (including a PIA computed under a pre-1977 Amendments computation under § 404.212b(b)) beginning with the year in which the individual becomes eligible for benefits or dies, and (iii) to the maximum family benefit. (2) The \$122 minimum benefit, which is the smallest amount in column IV in the table of benefits for December 1978 rounded to the next higher dollar, is increased, but subject to the following provisions:

(i) If an individual is entitled to an old-age benefit, the minimum PIA is increased beginning with the earlier of the year in which the individual's earnings are such that benefits are first payable after any deductions because of work (§ 404.415), or the year in which the individual attains age 65.

(ii) If an individual is entitled to a widow's or a widower's benefit, the minimum primary insurance amount on which that benefit is based is increased beginning with the earlier of the year in which the individual's earnings are such that benefits are first payable after any deductions because of work (§ 404.415), or the year in which the individual attains age 65. However, cost-of-living increases will apply for any year before these events if one or more individuals are entitled to a child's, mother's, or parent's benefit for any month in that year.

(iii) A cost-of-living increase is not applied to a minimum PIA for any year in which no one is entitled to a benefit on the worker's earnings record for any month of that year.

(iv) If no cost-of-living increase applies to the minimum PIA in any year because of the provisions of this section, the next cost-of-living increase after that year that can apply will apply to the PIA as it may have been previously increased for the cost of living.

(v) Despite the restrictions in clauses (i) through (iv) of this paragraph, no PIA can be less than the one that would be computed, after adjustment for the cost of living, under the indexing method (§ 404.212), the special minimum benefit (§ 404.219), or the pre-1951 earnings method (§ 404.213), whichever is highest.

(d) *Effective date of increase.* The cost-of-living increase goes into effect

in June of the year in which the cost-of-living computation quarter occurs, regardless of when during that year the individual becomes entitled or reentitled to benefits.

(c) *Publishing cost-of-living increases after 1978.* When the Secretary determines that a cost-of-living increase is due, he publishes the following information in the *FEDERAL REGISTER* within 45 days after the close of the latest cost-of-living computation quarter:

- (1) The fact that an increase is due;
- (2) The percentage of the increase;
- (3) A revised range of the special minimum primary insurance amounts possible after the latest cost-of-living increase;
- (4) A revised range of the maximum family benefits possible after the latest cost-of-living increase; and
- (5) A revised table which will be deemed to appear in section 215(a) of the Act (see § 404.223) for the purpose of computing benefits under the pre-1977 Amendments provisions.

7. Section 404.244 is amended by adding paragraph (b)(3) to read as follows:

§ 404.244 "Automatic" recomputation.

- (b) *Method of recomputation.* . . . .
- (3) The 1977 Social Security Amendments provide that the new indexing computation method described in § 404.212 must be used to recompute the PIA for an individual who has wages or self-employment income after 1978 if the PIA was originally computed or could have been computed under the new method. The actual dollar amounts (not to be adjusted) in the Social Security Administration's records for the year of entitlement and each later year will annually be compared with the earnings in the base years that were used in the last computation. Higher earnings in any year that were not used in the last computation will be substituted for one or more years of lower earnings that were used, and the PIA will be recomputed. The \$180 and the \$1,085 as adjusted in the initial computation (see § 404.212(b)) are used, without any further adjustment, each time the PIA is recomputed. The recomputation must increase the PIA by at least \$1 and is effective beginning with the month of death, or, for a living individual, January following the last year of higher earnings used in the recomputation. (See § 404.219 for recomputing the special minimum benefit.)

## Title 21—Food and Drugs

### CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

#### SUBCHAPTER E—ANIMAL DRUGS, FEEDS, AND RELATED PRODUCTS

#### PART 520—ORAL DOSAGE FORM NEW ANIMAL DRUGS NOT SUBJECT TO CERTIFICATION

##### Febantel Paste

AGENCY: Food and Drug Administration.

ACTION: Final Rule.

SUMMARY: The animal drug regulations are amended to reflect approval of a supplemental new animal drug application (NADA) filed by Bayvet Division of Cutter Laboratories, Inc., to delete the restriction on the use of febantel paste in treating pregnant mares. The paste is used as an anthelmintic paste in treating horses for intestinal worms.

EFFECTIVE DATE: December 29, 1979.

FOR FURTHER INFORMATION CONTACT:

Donald A. Gable, Bureau of Veterinary Medicine (HFV-114), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, MD 20857, 301-443-3420.

SUPPLEMENTARY INFORMATION: Bayvet Division of Cutter Laboratories, Inc., P.O. Box 390, Shawnee Mission, KS 66201, filed a supplement to NADA 107-345V to delete the present restriction against use of febantel paste in pregnant mares. The product is presently regulated for use orally or in the feed of horses, foals, and ponies (except pregnant mares) for the removal of large strongyles, sexually mature and immature ascarids, pinworms, and the various small strongyles.

In accordance with the freedom of information regulations and § 514.11(e)(2)(ii) of the animal drug regulations (21 CFR 514.11(e)(2)(ii)), a summary of safety and effectiveness data and information submitted to support the approval of this application is released publicly. The summary is available for public examination at the office of the Hearing Clerk (HFA-305), Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20857, from 9 a.m. to 4 p.m., Monday through Friday.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82

Stat. 347 (21 U.S.C. 360b(i))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.1), and redelegated to the Director of the Bureau of Veterinary Medicine (21 CFR 5.83), Part 520 is amended in § 520.903 *Febantel paste* by deleting paragraph (d)(3)(ii) and marking it reserved.

Effective date. This regulation shall be effective December 29, 1979.

(Sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i))).

Dated: December 19, 1978.

LESTER M. CRAWFORD,  
Director, Bureau of  
Veterinary Medicine.

[FR Doc. 78-35900 Filed 12-28-78; 8:45 am]

[4110-03-M]

#### PART 520—ORAL DOSAGE FORM NEW ANIMAL DRUGS NOT SUBJECT TO CERTIFICATION

#### PART 522—IMPLANTATION OR INJECTABLE DOSAGE FORM NEW ANIMAL DRUGS NOT SUBJECT TO CERTIFICATION

##### Lenperone Tablets and Lenperone Hydrochloride Injection; Revocation of Certain Regulations.

AGENCY: Food and Drug Administration.

ACTION: Final Rule.

SUMMARY: This document revokes certain animal drug regulations to reflect withdrawal of approval of two new animal drug applications (NADA's) providing for use of lenperone hydrochloride injection and tablets. This action was requested by A. H. Robins Co., the sponsor.

EFFECTIVE DATE: December 29, 1978.

FOR FURTHER INFORMATION CONTACT:

Louis L. Nangeroni, Bureau of Veterinary Medicine (HFV-216), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, MD 20857, 301-443-4093

SUPPLEMENTARY INFORMATION: In a separate document published elsewhere in this issue of the *FEDERAL REGISTER*, the agency is withdrawing approval of NADA's 96-508 and 97-901 for lenperone hydrochloride injection and tablets, respectively. The applications are held by A. H. Robins Co., Research Laboratories, 1211 Sherwood Ave., Richmond, VA 23220. Accordingly, the regulations in Parts 520 and

522, reflecting approval of these applications, are revoked.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.1) and redelegated to the Director of the Bureau of Veterinary Medicine (21 CFR 5.84), Parts 520 and 522 are amended as follows:

§ 520.1235 [Revoked]

1. In Part 520, by revoking § 520.1235 *Lenperone tablets*.

§ 522.1235 [Revoked]

2. In Part 522, by revoking § 522.1235 *Lenperone hydrochloride injection*.

Effective date. This regulation is effective December 29, 1978.

(Sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i))).

Dated: December 19, 1978.

LESTER M. CRAWFORD,  
Director, Bureau of  
Veterinary Medicine.

#### PART 522—IMPLANTATION OR INJECTABLE DOSAGE FORM NEW ANIMAL DRUGS NOT SUBJECT TO CERTIFICATION

##### Butamisol Hydrochloride

AGENCY: Food and Drug Administration.

ACTION: Final Rule.

SUMMARY: This document amends the animal drug regulations to reflect the redesignation of the section number assigned to butamisol hydrochloride. An incorrect section number was inadvertently assigned when the section was added to the regulations in an earlier amendment.

EFFECTIVE DATE: December 29, 1978.

FOR FURTHER INFORMATION CONTACT:

John A. Richards, Federal Register Writer (HFC-11), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, MD 20857, 301-443-2994.

SUPPLEMENTARY INFORMATION: In the *FEDERAL REGISTER* of April 14, 1978 (43 FR 15625), the Food and Drug Administration (FDA) amended the animal drug regulations to reflect approval of a new animal drug application (NADA) filed by American Cyanamid Co., providing for the use of butamisol hydrochloride for treatment of

whipworms and hookworms in dogs. The new provisions were inadvertently assigned to § 522.264 (21 CFR 522.264). The provisions should have been assigned to § 522.234 (21 CFR 522.234); the agency is now redesignating the section to reflect the proper placement of butamisol hydrochloride.

§ 522.234 [Redesignated]; § 522.264 [Redesignated].

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i))) and under the authority delegated to the Commissioner of Food and Drugs (21 CFR 5.1), Part 522 is amended by redesignating § 522.264 *Butamisol hydrochloride* as § 522.234 *Butamisol hydrochloride*.

Effective date. This amendment is effective December 29, 1978.

(Sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i))).

Dated: December 15, 1978.

TERENCE HARVEY,  
Acting Director, Bureau  
of Veterinary Medicine.

[Docket No. 77N-0404]

#### PART 101—FOOD LABELING

##### Protein Supplements, Warning Labeling

AGENCY: Food and Drug Administration.

ACTION: Tentative Final Rule.

SUMMARY: This tentative final rule will establish label warning requirements for products prepared in whole or in part from protein, protein hydrolysates, amino acid mixtures or combinations of these that may be used to reduce weight. The agency is establishing these requirements on the basis of evidence that very low calorie diets consisting primarily of protein may cause serious medical problems, or death. The warning requirements are to ensure that consumers are alerted to the potential health hazards associated with consumption of protein supplements and products prepared in whole or in part from protein, protein hydrolysates, amino acid mixtures, or a combination of these for extended periods of time as the sole or primary source of calories in order to lose weight.

DATES: Written comments by February 27, 1979; the proposed effective date of a final rule based on this tentative final rule is 60 days after publication of the final rule in the *FEDERAL REGISTER*.

ADDRESS: Written comments to the Hearing Clerk (HFA-305), Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT:

Victor P. Frattali, Bureau of Foods (HFF-200), Food and Drug Administration, Department of Health, Education, and Welfare, 200 C St. SW., Washington, DC 20204, 202-245-1561.

SUPPLEMENTARY INFORMATION:

#### I. INTRODUCTION

In the *FEDERAL REGISTER* of December 2, 1977 (42 FR 61285), the Commissioner of Food and Drugs proposed to require warnings on the label of protein supplements that may be used for weight reduction or weight maintenance. The proposal was issued after the agency received numerous reports of illness and death among persons using these protein products for weight reduction or maintenance. Additional reports of illness and death have been received in response to the proposal.

In addition to the proposal, the agency has distributed to health professionals a special issue of the *FDA Drug Bulletin* (January-February 1978, Vol. 8, No. 1) requesting information on illness or death associated with the use of the so-called "predigested liquid protein" products, other protein supplements or adherence to a very low calorie diet.

On December 6, 1977, the Assistant Secretary for Health of the Department of Health, Education, and Welfare established the U.S. Public Health Service (USPHS) Protein Diet Task Force consisting of representatives from the Food and Drug Administration (FDA), the Center for Disease Control (CDC), the National Institutes of Health (NIH), and the National Center for Health Statistics (NCHS), to explore the public health problem of deaths and injuries associated with the use of protein products as the sole or primary source of calories to achieve weight reduction. The USPHS Task Force has engaged in a number of activities designed to increase our knowledge of, and understanding about, the medical consequences of adherence to these protein diets. These activities and the results obtained thus far are described below.

In addition to the activities of the USPHS Task Force, FDA has been working closely with the Federal Trade Commission (FTC) on this matter. In particular, the FTC has been assessing the advertising for these protein products.

## II. SUMMARY OF DATA AND INFORMATION-GATHERING ACTIVITIES

To date, 60 deaths associated with the use of protein or related products as the principal or sole source of calories for rapid weight loss have been brought to the attention of FDA. These cases, which involve women and men, and blacks and whites, continue to be investigated by FDA and CDC.

Most of the persons who died were consuming solutions of partially hydrolyzed protein of low biological quality derived from gelatin, the so-called "predigested liquid protein" products. In evaluating these deaths, FDA and CDC have used strict criteria to determine whether the deaths can unequivocally be attributed to the use of a protein product in the manner described above. The primary criterion used is that the decedent's death was a cardiac one without evidence of any previous disease other than obesity.

To date, 16 of the 60 cases have been found to meet this criterion. All of the 16 decedents were white women between 23 and 51 years of age who were on some type of low calorie protein diet for a prolonged period of time (2 to 8 months) and who had achieved major weight loss (20 to 139 pounds). Eleven of these 16 decedents were women between the ages of 25 and 44. These 11 deaths are being used to estimate the death rate among persons in the United States in this age range who adhered to a very low calorie protein diet.

The following activities are underway to increase the body of information, and hence our understanding of these deaths:

1. Beginning in late December 1977, FDA and CDC jointly developed a telephone interview probability survey to determine the extent of use of protein products as the principal or sole source of nourishment for purposes of rapid weight reduction among 25- to 44-year-old females. The survey was conducted under contract and obtained information on the type(s) of product(s) used, the manner and duration of use, and other related facts from females in the age range of interest who were on a diet to lose weight in 1977. Out of 19,260 households screened, a total of 6,616 eligible respondents were interviewed between March 9 and April 15, 1978 regarding their use of protein products from January 1977 to the date of the interview. The completion rate for the survey was 87.3%.

Use rates were determined for the different forms of protein commonly found on the market. Based on the use rates for "predigested liquid protein" products, statistical projections were made of the numbers of liquid protein users in the U.S. among 25- to 44-year-old females during 1977. These projec-

tions were developed for the liquid form of protein products in order to establish a death rate by combining such information with data on deaths among liquid protein dieters from the same population group. Out of a total of 60 cases, FDA and CDC have compiled information on 11 deaths among obese women who had been using liquid protein products for 2 months or longer and who were free of a serious underlying illness. All 11 were white women between 25 and 44 years of age who died between the beginning of July and the end of December in 1977.

The statistical projections of the liquid protein survey data produced an upper estimate (.95 confidence limit) of 98,000 white females in the U.S. who used a liquid protein product as the principal or sole source of nourishment for 1 month or longer during 1977. Among this group of users, a smaller group, estimated to be 37,000 (.95 confidence limit), used liquid protein for 2 months or longer. The projected number of users for 2 months or longer was subsequently taken as the appropriate denominator for purposes of calculating the death rate. Relating the 11 deaths over a 6-month period, or a projection of 22 deaths per year, to the estimated 37,000 users produces an estimated adjusted annual death rate of 59 per 100,000 associated with the particular syndrome observed among strict dieters.

The telephone survey also identified a number of users of the various forms of protein products among black females in the 25- to 44-age range and among females in other racial groups. The survey also gathered additional information about the manner in which respondents learned about, and decided to use, protein products, how they perceived product effectiveness as an aid to weight loss, and how they conceived intentions about future use of the products. The full report of the telephone survey has been placed on file with the FDA Hearing Clerk (RPT 300 and RPT 301).

2. From national statistics compiled by NCHS, the annual death rate over the past few years among premenopausal white females attributable to acute myocarditis, intractable cardiac arrhythmias, and related cardiac abnormalities has been slightly less than 2 per 100,000. In order to derive a better estimate of the rate for obese females from this population subgroup whose deaths are not associated with antecedent serious illness, the USPHS Task Force recommended, and CDC and NCHS are currently conducting, a study on information from death certificates for 1975-1977. In appropriate cases, CDC will contact the physicians who signed the certificates and examine past medical records. The norma-

tive death rate for obese, but otherwise healthy, females is required for a more precise estimate of the increase in mortality among dieters whose deaths are associated with use of a protein product.

3. To explore the basic mechanisms for the cause of death, FDA initiated experimental protocols using the laboratory rat as a model. These tests are intended to examine the pathophysiology under severe conditions of calorie restriction on diets formulated primarily from commercial protein supplements. The studies were designed to assess the correlations of myocardial arrhythmias and death with various aberrant states of nutrition health and rate of weight loss. These studies are a prelude to a more definitive analysis of the problems associated with very low calorie protein diets. As discrete parts of the study are completed, the results will be subject to peer review in the normal course of events for publication in the scientific literature.

4. FDA has made inspections of manufacturers, repackers, and reformulators of "predigested liquid protein" and other types of protein products promoted for weight control. Neither information obtained regarding manufacturing methods nor analyses of products obtained during establishment inspections have yet provided insight into the cause of death.

5. More than 165 reports of adverse reactions and effects attributed to consumption of protein products by consumers attempting to lose weight have been reported to FDA. Practically all of these reports resulted from consumer complaints directed to FDA district and regional offices located throughout the country. In addition, approximately 60 drug experience reports have been received on the use of protein products for weight reduction purposes. These reports were submitted in response to a request for such reports directed to the medical profession through an article on the subject and a report form included in the January-February 1978 issue of the *FDA Drug Bulletin*. A synopsis of most of these reports from consumers and health professionals is on file with the FDA Hearing Clerk (RPT 273 and RPT 274).

The complaints and adverse reactions reported were very diverse. Complaints included nausea, vomiting, diarrhea, constipation, tachycardia (rapid heart rate or palpitations), breathlessness, tinnitus (ringing in the ears), pain in the chest or abdomen, muscle cramps, headache, weakness, nervousness, amenorrhea (cessation of menstruation), decreased sex drive, skin rash, hair loss, blurring of vision, and impairment of mental concentration abilities. Adverse reactions includ-

ed electrolyte imbalances (irregularities of heart beat), myocardial infarction ("heart attack"), hypertension (high blood pressure), hemorrhage, protein-calorie malnutrition, anaphylaxis (severe allergic reaction), convulsions, unconsciousness, renal calculi (kidney stones), renal failure, gout, and hepatitis.

Review of these reports by FDA revealed no consistent pattern of complaints or reactions. Nausea, vomiting, diarrhea and headache were among the most frequently recorded complaints. The details provided in these reports were insufficient to indicate a cause-and-effect relationship between specific products or the products generally and the reported complaints and reactions. Hence, a cause-and-effect relationship can neither be affirmed nor rejected on the basis of the existing information from these reports.

There were sufficient details among the reported adverse reactions, however, to warrant concern. The most noteworthy were reports of electrolyte imbalance, i.e., hypokalemia (low blood potassium levels), and hyperkalemia (high blood potassium levels), which can lead to irregularities of heart rhythm and function. The question of reduced resistance to infection arose because of both reported symptoms commonly associated with infections and the observation of evidence of myocarditis in some individuals who succumbed (described in the issues of the *Morbidity and Mortality Weekly Report* for November 18, and December 30, 1977, Vol. 28, Nos. 46 and 52, respectively; and July 7, 1978, Vol. 27, No. 27). The possibility of allergic reaction emerged on the basis of such reports as gastrointestinal disorders, tachycardia, and skin rashes. Several reports also raised the possibility of adverse interactions with drugs. The frequency of reports of complaints and adverse reactions is sufficient to suggest that, in addition to precipitous cardiac arrhythmias and death, use of protein products for weight reduction purposes may be associated with a wide variety of symptoms and adverse signs in some individuals. Nevertheless, the primary adverse effect associated with the use of very low calorie protein diets for weight reduction purposes is the sudden onset of heart irregularities and death in previously well individuals.

6. Finally, the Nutrition Coordinating Committee of NIH has concluded that research on very low calorie diets is appropriate for inclusion within the framework of their total obesity research program. In addition, the USPHS Task Force suggested that medical and scientific opinion be obtained from a select group of experts

on the immediate and long-term research needs and priorities on the public health problem at issue.

The USPHS Task Force has continuously monitored the death and injury information and related activities, and has concluded that the total body of existing knowledge on the subject continues to support the hypothesis that a cause-and-effect relationship exists between cardiac deaths and prolonged use of protein products as the principal or sole source of nourishment for purposes of rapid weight reduction, i.e., when the daily caloric intake is significantly below 800 Calories (i.e., below 800 kilocalories). This hypothesis rests primarily on the fact that cardiac deaths in the absence of clear cause are rare in premenopausal women, and that the number of deaths observed among women on very low calorie protein diets appears to far exceed the expected number.

To make a quantitative assessment of the difference in death rates, several bodies of information are required.

National mortality data indicate that the death rate due to a number of cardiac abnormalities among premenopausal women is less than 2 per 100,000 population per year. As mentioned previously, an effort is underway to further refine this information to arrive at the death rate due to cardiac abnormalities unassociated with antecedent disease among obese premenopausal women.

The occurrence of such deaths is so rare that no extensive epidemiological data analyses are known to exist. In any event, current estimates indicate that the normative death rate among obese, but otherwise healthy, females is unlikely to be significantly different from that for the general female population. Combining information on reported deaths among premenopausal female dieters with the telephone survey data on protein diet use rates yields an estimated annual death rate for dieters of 59 per 100,000. Comparing the expected mortality rate of less than 2 per 100,000 for all white females in the age range of interest with the estimated rate for dieters supports the initial indication that the observed death rate due to cardiac abnormalities among females on low calorie protein diets is much greater than the death rate for similar cause among nondieters. These developments continue to support the need for warning labeling on protein products.

Apart from the pursuit of epidemiological evidence regarding deaths, unequivocal establishment of cause-and-effect depends on a thorough understanding of basic mechanisms; such thorough understanding of the basic mechanisms in this particular instance does not exist. Several research activities are underway to provide addition-

al understanding of the basic mechanisms involved, but there are some limitations on additional research. Because of the decline in use of this extreme approach to weight reduction and because ethical constraints prevent any deliberate trials in humans, it may ultimately prove impossible to establish a cause-and-effect relationship unequivocally in humans.

That it is potentially impossible to establish the cause-and-effect relationship unequivocally (i.e., that a thorough understanding of the basic mechanism at work may not be obtained) should not divert attention from the rather clear evidence described above that reliance on very low calorie protein diets to lose weight is dangerous.

The standards used by public health officials, physicians, and others to conclude, to a scientific certainty, that a cause-and-effect relationship exists are appropriately rigorous. Those same standards do not apply, however, when the question is whether an agency such as FDA, charged with the responsibility of protecting the public health—a responsibility that includes ensuring that consumers are fully apprised of risks inherent in various products—should adopt a rule that requires that warnings about the products be provided on their labels. This is not to say that an agency is free to act in the absence of competent scientific evidence. Rather, it is appropriate and responsible for an agency to mandate that consumers be provided with information or warnings about the use of products when, as is the case here, the evidence strongly suggests a definite relationship between the use of a product and death.

Imposition of a warning on the labeling of these protein products—even with the gaps in our understanding of the basic mechanism—is particularly appropriate because the consequences of indiscriminate use of these protein products is death. It is the Commissioner's belief that the label warning requirements that will be imposed when this tentative final order takes effect will maintain an adequate level of awareness of the possible health risks of a very low calorie protein diet. It is hoped that this heightened awareness will convince interested consumers of the need for extreme care in undertaking a very low calorie diet as well as the need to obtain the advice of a physician skilled in obesity therapy before doing so.

Further, it is hoped that this latter action will generate a candid dialogue between the doctor and the patient concerning the risks of this diet therapy as well as the benefits provided by weight reduction.

### III. AVAILABILITY OF INFORMATION

FDA has obtained an extensive body of information about protein products and the risk to public health that they present when used in very low calorie diet regimens. This information includes reports about, and analyses of, the 60 deaths, adverse reaction and complaint/injury reports, articles from the medical and scientific literature, a report on the telephone survey described above, minutes of the USPHS Task Force meetings and related documents, copies of the comments filed on the proposals, and other material. All of these materials have been placed on display with the FDA Hearing Clerk and have been made available to the public upon request.

The Commissioner encourages persons who intend to comment on this tentative final rule and who wish first to examine the materials that are on file with the FDA Hearing Clerk, to seek copies expeditiously. FDA will expedite the processing of requests under the Freedom of Information Act for these materials. Clearly stated requests for specific records will facilitate prompt disposition of FOI requests. Persons are encouraged to review, to the extent possible, the materials in the FDA Hearing Clerk's office and to request copies of those documents based on their need for them in connection with the filing of comments, and not on a desire to possess a copy of each document that is on file. Although each document is in fact available to the public, the materials are quite voluminous; unlimited requests for copies of all of the documents will, understandably, take more time to process, and thereby delay the date on which the records will be made available.

The Commissioner will be most reluctant to extend the comment period on this tentative final rule. The cooperation of interested persons in filing timely and appropriately restrained FOI requests will enable them to comment intelligently on this tentative final rule without unnecessarily delaying the issuance date of a final rule.

### IV. SUMMARY OF DIFFERENCES BETWEEN THE PROPOSAL AND THE TENTATIVE FINAL RULE

The provisions of this tentative final rule differ in several respects from those proposed on December 2, 1977. The following differences are the most significant ones:

1. In the proposal the warning requirement in §101.17(d)(1) applied to "products composed essentially of protein or protein hydrolysates." In the tentative final rule, the warning requirement applies to "food products that derive over 50 percent of their total caloric value from protein, pro-

tein hydrolysates, amino acid mixtures or combinations of these."

2. In §101.17(d)(1), the warning about use of these protein products by persons taking medication has been reworded. The pertinent sentence now states: "Use with particular care if you are taking medication."

3. In §101.17(d)(2), the tentative final rule establishes different labeling requirements for protein supplements that are promoted as part of a nutritionally balanced diet plan providing 800 Calories or more per day when the diet plan is specified in detail on the label or in labeling that accompanies each package of the product. Labels and labeling of products in this category will be required to bear the following warning statement:

Warning.—Use only as directed in the diet plan described herewith (the name and specific location in labeling of the diet plan may be included in this statement in place of "diet plan described herewith"). Do not use as the sole or primary source of calories for weight reduction.

4. All references to "weight maintenance" have been deleted from the tentative final rule.

5. The label warning proposed in §101.17(d)(2) has been revised to read:

Warning.—Use this product as a food supplement only. Do not use for weight reduction.

This warning as now set forth in §101.17(d)(3) of this tentative final rule would be required on the label and labeling of protein supplements that "derive more than 50 percent of their total caloric value from either whole protein, protein hydrolysates, amino acid mixtures, or a combination of these and that are specifically promoted for purposes other than weight reduction."

### V. SUMMARY OF THE COMMENTS AND THE COMMISSIONER'S RESPONSES

A total of 250 comments were received in response to the December 2, 1977 proposal. A summary of the points raised in the comments and the Commissioner's responses to them follow:

#### A. ALTERNATIVE COURSES OF ACTION

In the proposal, the Commissioner invited comment on alternative courses of action available in the event that it was concluded that these protein products present a risk to public health that cannot be controlled adequately by the use of label warning requirements. Most of these alternatives involved a partial or total ban of some of the protein products.

1. Several comments simply favored, or opposed, banning liquid protein products. The comments did not generally support their positions with data or information; some of the com-

ments provided testimonial statements to support their positions. For example, several persons stated that they had used these products without harm or side effects with considerable benefit as food supplements. Others urged banning liquid protein products because they or members of their family had become seriously ill or died, and they attributed these consequences to consumption of liquid protein products. None of these comments, however, could be considered as providing clinical or other scientific evidence to support its respective positions.

The Commissioner advises that the provisions of the tentative final rule are based on the scientific and medical evidence on file with the Hearing Clerk; testimonial statements without clinical or other scientific evidence were considered only to the extent that they reflected consumer opinion.

This tentative final rule does not include any provisions to ban any of the protein products mentioned in the proposal. The Commissioner has concluded that the appropriate regulatory response at this time—given the available scientific evidence and the regulatory options under the law—is to require warning label statements on these protein products to ensure that consumers are informed of the health risks associated with extremely low calorie diets, including those consisting primarily of protein. The reasons for this decision are explained below in response to other comments. The Commissioner fully expects that the warnings will control the risk to public health presented by use of protein products as the principal component of very low calorie diets.

2. A number of comments opposed a ban of liquid protein products on the basis that FDA lacked scientific evidence that liquid protein products were the causative agent involved in the reported deaths mentioned in the proposal. Some comments also pointed out that no toxic or poisonous substances have been found in protein supplements, in general, or in liquid protein products in particular.

As explained above, available data strongly suggest that the protein products used by the decedents in the reported cases were responsible for their deaths. The agency is continuing to explore this likelihood. The evidence to date, however, does not suggest that protein supplements or hydrolysates of collagen or other low quality proteins are poisonous or toxic *per se*.

When these products are used as the sole or primary source of calories for extended periods of time in a very low calorie diet (less than 800 Calories per day), serious illness or death may result. Many of these protein products are promoted for use to reduce weight. From popular books on the subject

and from other sources, consumers readily infer that the products can be used safely in very low calorie diets, and there is ample evidence that consumers use them in this manner. Thus, it is apparent that the products have been widely promoted without adequate attention to the risks inherent in their use.

Certain of these products may, under careful medical supervision, ultimately prove to be beneficial in the dietary management of carefully selected cases of obesity. A ban on the sale of these products could prevent further exploration of the value of these products. A requirement for label warnings on the other hand, will, it is expected, alleviate indiscriminate use of these products by persons without medical need and without the expertise to use them safely.

3. In the preamble to the proposal, the Commissioner solicited comments on several alternative legal theories to regulate these protein products under the Federal Food, Drug, and Cosmetic Act. Specifically, comments were sought on deeming protein products to be: (1) "unfit for food" and thus adulterated within the meaning of section 402(a)(3) of the act (21 U.S.C. 342(a)(3)); (2) "unapproved food additives" under sections 201(s) and 409 of the act (21 U.S.C. 321(s) and 348) and thus adulterated within the meaning of section 402(a)(2)(c) of the act (21 U.S.C. 342(a)(2)(c)); and (3) "new drugs" within the meaning of section 505 of the act (21 U.S.C. 355).

These three alternative legal theories were all opposed in the comments. A number of comments contended that the phrase "unfit for food" in section 402(a)(3) of the act applies only to the intrinsic qualities of food, such as odor, texture, and taste, and not to extrinsic qualities such as the intended use of the product. Several comments on the "food additive" alternative pointed out that protein is recognized as safe for use in the human diet for its nutritional value and that it was extensively used before September 6, 1958 (this latter point was presumably an argument that protein is generally recognized as safe (GRAS) based on common use in food before September 6, 1958. (See section 201(s) of the act and 21 CFR 170.30)). Other comments contended that protein supplements are safe under the conditions of their intended use and that improper use by consumers is not an appropriate basis on which to reclassify protein as an "unapproved food additive." Finally, comments on the "new drug" option asserted that protein supplements do not cause weight loss or cure obesity and are not represented for a therapeutic use. The comments argued that

these protein products are therefore not properly classified as new drugs.

As stated above, the Commissioner has decided not to ban the sale or impose other direct limits on the availability of these protein products at this time. Consideration of the validity of the three alternative legal theories, each of which is intended to support a ban on the sale of the protein products, is thus unnecessary.

4. One comment suggested that the act be amended to establish a new class of "medical foods" that would restrict these products to controlled use similar to that for prescription drugs without also subjecting the products to the expensive and time-consuming new drug application process.

The suggestion that there be a category of "medical foods" is worthy of consideration. The public health problem concerning protein products used for weight reduction cannot, however, await enactment of new legislation authorizing such a category of products, but rather must be dealt with using the regulatory authority currently available to FDA.

5. A few comments asked why products that pose health hazards are permitted to be sold, and suggested that the safety of those products be reviewed by FDA before they are marketed.

These protein products are not inherently dangerous; rather, the risks to the health of consumers that the products present arise from the purposes for which they are used and the manner of use. The label warning that would be required under this tentative final rule is directed at the "misuse" problem. If consumers abide by the warning, the risks of using these protein products will be alleviated. Because the products may be helpful and safe when used in carefully selected cases and under rigid medical supervision, a ban would be inappropriate.

Moreover, FDA does not have the authority to require premarket clearance of foods other than those regulated as food or color additives.

6. One comment suggested that instead of banning liquid protein altogether, FDA should require label directions or instructions that advise users to use the product so that only about a pound of weight is lost each week.

It would be neither feasible nor appropriate for FDA to attempt to develop directions for the use of the many protein products that are covered by this tentative final rule. The label warning informs consumers that there are substantial risks associated with these products when used to achieve rapid weight loss and directs consumers to consult a physician.

7. One comment pointed out that very low calorie protein diets were not

designed or intended for use without close medical supervision or for patients with relatively modest degrees of obesity. This comment urged that very low calorie protein diets be restricted to ethical promotion by the medical profession only.

The Commissioner agrees that very low calorie protein diets should not be used without close medical supervision. This tentative final rule would require that the label of protein products inform the consumer of this fact. As discussed above, restriction of these products to use only by the medical profession would require classification of these products as drugs, an approach that is very difficult under the act, and in the judgment of the Commissioner, unnecessary at this time.

8. One comment requested that the "clubs" or groups sponsoring liquid protein weight reduction programs be banned.

The Food and Drug Administration does not have the authority to ban such "clubs" or groups.

9. One comment recommended that protein products be made under quality control standards supervised by FDA.

The Commissioner is not convinced that such a procedure would alleviate the public health problems with which this rulemaking is concerned. There is no evidence to date that poor manufacturing practices caused the deaths associated with protein supplements used for weight reduction. The problem appears to be related to the use of these products in very low calorie diets for extended periods of time; a label warning requirement is a more appropriate solution to the problem.

10. A few comments requested that the problems associated with the use of protein supplements be dealt with by educating consumers about proper nutrition and diet.

The Commissioner agrees that informing consumers about proper nutrition and diet is an important function for FDA. FDA and other agencies have conducted, and will continue to conduct, nutrition information programs. Consumer education programs alone, however, cannot solve the immediate problems associated with the use of protein supplements as the sole or primary source of calories in a very low calorie diet. The effects of education programs are often seen only over relatively long periods; a label warning, which is a form of education, however, will have a more immediate impact on consumer behavior. It is, therefore, the preferable regulatory response to the evidence of risks associated with the use of these protein products.

11. Several comments questioned FDA's authority to promulgate the proposal. These comments asserted that the proposal was arbitrary and capricious and in excess of FDA's statutory authority. One comment asserted that none of the sections of the act cited in the proposal, e.g., sections 201(n), 402(a), 403, 505, and 701(a), provides substantive legal authority for the Commissioner to require the proposed warning statements. One comment asserted that section 402(a) does not specifically grant authority to require a warning statement.

The Commissioner disagrees with the comments. Section 701(a) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 371(a)) provides broad authority to FDA to issue regulations "for the efficient enforcement" of the act. *National Nutritional Food Association v. Weinberger*, 512 F. 2d 688, 695-701 (2d Cir. 1975). Section 403(a) of the act provides that a food is misbranded if "its labeling is false or misleading in any particular"; and section 201(n) of the act provides that in determining whether the label or labeling of a product is false or misleading, it is appropriate to consider both the information contained in, and that which is omitted from, the label and labeling. In light of the evidence of the risks to health associated with the use of protein supplements in very low calorie diets, failure to warn consumers of those risks on the label of protein supplements constitutes omission of a material fact about the products. Omission of that fact renders the label for the products "false or misleading" and the products, therefore, misbranded. The authority of the Commissioner under sections 201(n), 403(a), and 701(a) of the act to issue regulations to impose a warning requirement to prevent the products from being misbranded is well-established. Indeed, these three sections have been the basis for many labeling regulations issued by FDA in recent years. See, for example, 21 CFR 101.9 and Parts 102 and 104.

12. Several comments requested that public hearings be held to gather information about the potential health hazards and benefits derived from use of protein supplements. These comments argued that protein supplements are properly categorized as foods for special dietary use and the sole authority for promulgating regulations for these products is derived from sections 403(j) and 701(e) of the act. Under the formal rulemaking procedures embodied in section 701(e), promulgation of a final regulation would be followed by the opportunity to file objections and requests for a formal evidentiary hearing.

The Commissioner rejects the suggestion that a public hearing be held to gather additional information about the risks and benefits of protein supplements. While public legislative style hearings are often a useful tool to gather information during the administrative process, and, in fact, have been frequently used by FDA for that purpose, such a hearing in this case is not necessary. FDA has obtained extensive information about the protein supplements through the comments on the proposal, the telephone survey, the investigative work of FDA and CDC scientists, and the efforts of the USPHS Task Force. Additional information will, no doubt, be supplied in comments on this tentative final rule. A public hearing to gather additional information would not, therefore, be likely to yield substantial new information that would justify a further delay in issuing a final rule.

The Commissioner also rejects the contention that the warnings that would be required under this tentative final rule must be issued under authority of section 403(j) of the act (21 U.S.C. 343(j)) and, therefore, in accordance with the procedures in section 701(e), which, as the comment noted, would provide for the opportunity for a formal evidentiary hearing before a warning could be required.

Unlike section 403(a) of the act, which embodies a broad prohibition on false or misleading labeling for all food, section 403(j) is narrow: it addresses only the authority of FDA to require a particular type of information on the labels of a category of foods (foods for special dietary use), i.e., information concerning their "vitamin, mineral, and other dietary properties as the Secretary determines to be . . . necessary in order to fully inform purchasers as to" their value for dietary use. Thus, section 403(j) is subject to two limitations: (1) it applies only to foods for special dietary use; and (2) even then only to certain types of information about those foods.

Although there is clearly some overlap between the coverage of section 403(a) and section 403(j), it is also clear that they are not coextensive. Foods for special dietary use are subject to both sections, and compliance with FDA regulations issued under section 403(j) does not obviate the need for the product to comply with regulations issued under other sections of the law, including section 403(a). *National Nutrition Foods Association v. FDA*, 504 F. 2d 761, 775 (2d Cir. 1974); *United States v. An Article of Food . . . Labeled in Part . . . Nutriomin, etc.*, 482 F. 2d 581 (8th Cir. 1973) and *United States v. An Article of Food, etc.*, 377 F. Supp. 746 (E.D.N.Y. 1974).

Contrary to the assertion in the comments, FDA is not restricted to the authority in section 403(j) in issuing regulations that apply to the labels of foods for special dietary use. Instead, FDA may opt to proceed under either section, depending on the particular circumstances and the type of regulation that the agency intends to issue. In this instance, the agency has elected to proceed under sections 201(n), 403(a), and 701(a) of the act. Those sections do not require, as does section 701(e), that a formal evidentiary hearing be held, and unless comments on this tentative final rule persuade the Commissioner that he is required to convene one, no hearing will be held.

13. A few comments opposed the proposal on procedural grounds, asserting that not all of the material relied on by the Commissioner in promulgating the proposed rule was placed on file with the Hearing Clerk as required by § 10.40 (b)(1)(iii) (21 CFR 10.40(b)(1)(iii)). In addition these comments argued that pertinent background information was not readily available in response to requests under the Freedom of Information Act and, thus, could not be properly reviewed within the comment period on the proposal. The comments also stated that because the proposal was issued during a holiday season, the 30-day comment period was unreasonably short.

The Commissioner acknowledges that, through oversight, some of the data and information FDA relied on in issuing the proposal were not on file with the FDA Hearing Clerk when the proposal was published in the *FEDERAL REGISTER*, or otherwise readily available to the public. This oversight, was corrected promptly after it was brought to the Commissioner's attention. Since then, all information on the use of protein supplements in very low calorie diets has been placed on file with the FDA Hearing Clerk upon receipt. In addition, much of this information has been made available to the interested persons in response to requests under the Freedom of Information Act. In light of the additional opportunity for comment on this tentative final rule, the issues raised by the comments on the brevity of the initial comment period and the unavailability of the underlying data are moot.

14. Some comments objected to the proposal on the grounds that a meeting held on October 20, 1977 between five clinicians specializing in the treatment of obesity and several FDA employees was convened in violation of the Federal Advisory Committee Act (5 U.S.C. App. I) because the meeting was not open to participation by interested persons and because minutes of

the meeting and other pertinent documents were not readily available to the public. The comments also argued that any information received at this meeting of an ad hoc "advisory group" could not be relied upon as a basis for the proposed action until such time as the meeting was properly convened.

The arguments raised by these comments have also been made in a lawsuit filed against FDA. *National Nutritional Foods Association, et al. v. Califano, et al.*, 77 Civ. 6083 (LPG) (S.D.N.Y., December 15, 1977). Contrary to the comments and the arguments made by the plaintiffs in the lawsuit, the October 20 meeting of the experts to share their views with FDA on a then rapidly developing public health problem was not an advisory committee meeting governed by the Federal Advisory Committee Act (FACA). Rather, the meeting was a one-time session that was able to be convened only because of the coincidental presence of the experts in the Washington, D.C. area at the time when reports of illness and injury from the protein products were beginning to reach FDA.

The group of five independent clinicians was not an "advisory committee" as that term is used in the FACA. The term connotes some type of formally structured group with a fixed membership and a defined purpose that meets on a periodic basis. In contrast, the group assembled on October 20 had no formal structure or future function as an organized group. It was convened on 2 days' notice for an informal one-time meeting to discuss the hazards of the use of protein supplements in weight reduction programs. Courts have recognized that the term "advisory committee" as used in the FACA is not all-inclusive. *Nader v. Baroody*, 396 F. Supp. 1231 (D.D.C. 1975), *vacated on appeal for mootness*, App. No. 74-1675 (D.C. Cir. 1977). Other cases in which courts have found groups to be advisory committees within the meaning of the FACA also support the view that the October 20 meeting was not an advisory committee meeting. See, *Center for Auto Safety v. Tieman*, 414 F. Supp. 215 (D.D.C. 1976); *Wolfe v. Weinberger*, 403 F. Supp. 238 (D.D.C. 1975); *Gates v. Schlesinger*, 336 F. Supp. 797 (D.D.C. 1973).

The Commissioner advises that all documents made available to, or prepared for or by, the group of five clinicians who attended the October 20 meeting have been placed on file with the FDA Hearing Clerk. Thus, in addition to the other data on file, interested persons may review, assess, and comment on the advice provided by the five experts.

As noted above, the contentions made in the comments have also been made in a lawsuit against FDA. The

court in *National Nutritional Foods Association* has declined to grant any relief against FDA on the basis of the allegations concerning the plaintiff's claims (Opinion No. 47567, filed August 29, 1978). In light of the disposition of that lawsuit, the Commissioner considers this matter to be moot.

# C. SCIENTIFIC ISSUES

15. Several comments expressed the opinion that no particular protein is responsible for the reported deaths because protein is a necessary nutrient to sustain life. The comments argued that any food, which is used as the major source of calories in a diet where calorie consumption is reduced to 200 to 400 calories per day, would most likely lead to the same results. The comments objected to the proposed warning statement for protein supplements unless warning statements were required for other foods promoted for weight reduction, because such action is discriminatory and misleading.

The Commissioner rejects these arguments. Neither the proposed warning nor the warning labeling required by this tentative final rule states that protein itself is harmful or causes death. The warning labeling is directed at correcting an existing public health problem associated with the use of protein products for weight reduction.

In addition, there is no evidence to indicate that any other foods promoted for weight reduction have created a similar public health problem. All of the reports of illness and death summarized above have been associated with one or more of the protein products identified in this tentative final rule.

Many of these protein products are explicitly promoted for use to reduce weight; their use is also encouraged by popular books and other material from which consumers may reasonably infer that these protein products can be safely used in very low calorie diets. Because the evidence suggests that the dietary regimen should be used only under close medical supervision, consumers must be informed of this fact; the proposed label warning statements will so inform consumers.

16. A number of comments objected to the breadth of the proposed warning on the basis that not all protein products were implicated in the reported deaths. The comments argued that a warning statement should not be required for high quality protein products because there is no evidence that these products are harmful. Many comments were accompanied by reports and copies of scientific papers or studies in an effort to support assertions that particular products were safe when used as directed and there-

fore should not be subject to the proposed label warning requirements.

The Commissioner recognizes that many of the high quality protein products on the market can be safely used for a limited period of time when consumed as part of a nutritionally balanced diet plan that provides 800 calories or more per day. The Commissioner is also mindful that without proper guidance these same products may be used by consumers as the sole or primary source of calories in a very low calorie diet (e.g., less than 800 calories per day).

On the basis of the evidence currently available, the Commissioner concludes that there are significant health risks associated with any diet that severely reduces caloric intake or that creates a large negative calorie balance. It also seems likely that the greater the calorie deficit is, the greater the health risk becomes.

The metabolism of the body changes when the diet provides fewer calories per day than the body uses. The kinds of metabolic changes and the degree to which these changes occur depend upon the actual calorie deficit, the rate at which the calorie deficit is achieved, and the composition of the diet providing the calories. It can be shown, for example, that a significant calorie deficit can increase the risk of infection (Jonxis, J. H. P., *Nutrition Reviews*, 4:97, 1946). In patients who are extremely obese, these risks must be taken into consideration when assessing the potential increase in health benefits to be derived from successful loss of weight.

If a negative calorie balance is permitted to continue for too long in an unsupervised manner, death is certain to result (Brozek, J., et al., *American Review of Soviet Medicine*, 4:70, 1946). The rate at which the overall caloric deficit is achieved can also alter the risk of serious harm or death. That is to say, a drastic caloric deficit achieved in a short period of time may present a serious health hazard without causing a significant change in body fat or protein stores (Garnett, E. S., et al., *Lancet*, 1:914, 1969; and Duncan, G. G., et al., *Annals of the New York Academy of Sciences*, 131:632, 1965). In contrast, there is evidence that prisoners of war interred in concentration camps (Pollack, H., *Nutrition Reviews*, 4:63, 1946; and unpublished data) and civilians in Western Holland during the winter of 1944 (*Nutrition Reviews*, 4:28, 1946; and Jonxis, J. H. P., *Nutrition Reviews*, 4:97, 1946) were able to subsist on approximately 800 to 1,200 calories per day for extensive periods of time while catabolizing virtually all body fat and significant amounts of body protein before dying from starvation and the rigors of war.

On the other hand, it has been shown that total starvation can result in death while significant body fat remains unmetabolized. It is unknown whether this difference is due to the magnitude of the caloric deficit *per se* or whether deprivation of other essential nutrients is a critical contributing factor in causation of death. Common experience from clinical research (*Nutrition Reviews*, 24:6, 1966; and Blondheim, S., et al., *Lancet*, 1:250, 1965) and from the general practice of consumers indicates that a wide variety of nutritionally balanced diets providing on the order of 800 to 1,000 calories per day for limited periods of time can be used for weight reduction without the need for close medical supervision. It is advisable, however, for those wishing to lose weight to consult with a physician before undertaking any weight reducing program. When the daily calorie intake is reduced to 200 to 400 calories, however, such as in the protein-sparing modified fast (PSMF), the health risk is significant enough to require the close medical supervision of a professional knowledgeable of fasting metabolism and skilled in the clinical management of obesity.

The Commissioner finds it significant that most of the comments from the scientific community, including those promoting the use of a PSMF program, were in agreement that a low calorie diet (less than 800 calories) should not be used in the treatment of obesity without proper medical supervision. Furthermore, most scientists agreed that a diet composed only of protein or protein-derived products supplying only a small portion of daily caloric needs would be contraindicated for infants, children, pregnant or nursing women, and most individuals with renal, hepatic, or serious vascular disorders.

Consumers, therefore, need to be informed of the serious health risk of undertaking such a diet without proper medical supervision. The tentative final rule does, however, distinguish between those protein products that are promoted generally for weight control and those promoted as part of a nutritionally balanced diet providing 800 Calories or more per day. The Commissioner agrees that for the latter products the warning should be limited to a caution against possible abuse.

The tentative final rule does not distinguish between the protein products on the basis of the biological quality of the proteins. One of the 16 women whose deaths were unassociated with antecedent disease was utilizing a powdered product containing milk-derived proteins that are widely recognized for their high biological quality. These high quality proteins contributed about 200 of a total intake of 380 Calo-

ries per day for approximately the last half of the individual's 24-week weight reduction diet. The remaining 180 Calories per day came from carbohydrate and a second, gelatin-derived powdered protein product. During the first half of the 24-week diet, a typical gelatin-derived "predigested liquid protein" product was consumed in an amount sufficient to provide approximately 360 Calories per day. In a second case from among the 16 "cardiac" deaths without antecedent disease, the individual had followed for the major part of her dieting period a weight loss regimen which consisted of a daily intake of four cooked egg whites, the equivalent of 15 grams of protein from a gelatin-derived powdered protein product and a small amount of a fluid, hydrolyzed, plant protein concentrate product. Details of both of these deaths are on file with the FDA Hearing Clerk as Cases 37 and 29, respectively.

Hence, there is direct evidence to suggest that neither the physical form (i.e., aqueous solution or dehydrated solid) nor the biological quality of these protein products or dietary supplements is a major factor for consideration relative to causation of death. In addition, there remains the uncertainty of the relative importance of protein-derived calories as contrasted with very low caloric intakes, regardless of the source of calories. For these reasons, the thrust of this tentative final rule is directed at adherence to very low caloric protein diets and not the use of liquid or powdered, high- or low-quality protein products *per se*. The Commissioner recognizes that gaps exist in the scientific understanding of the biological effects of long-term use of protein products for rapid weight loss, and adherence to very low caloric diets generally. Nevertheless, the knowledge that does exist indicates an association between death and prolonged adherence to a very low caloric protein diet and is ample justification for this aspect of the tentative final rule.

To fully inform consumers of the risk associated with use of protein products in very low caloric diets, the requirement for a warning label would extend to all protein products that are promoted for weight reduction and that derive over 50 percent of their total caloric value from protein, protein hydrolysates, amino acid mixtures, or combination of these. The extension of the warning to these products is justified because the products appear to pose similar risk regardless of protein quality.

There are several traditional foods such as cottage cheese and ordinary gelatin that derive over 50 percent of their calories from protein. The warning will not be required on foods that

derive over 50 percent of their total caloric value from proteins but are not promoted or represented for use to reduce weight. Thus ordinary gelatin, similar in composition to the "predigested liquid protein" products would not be required to bear the warning unless the gelatin was promoted for use to reduce weight. Some of these foods, however, may be offered for sale as "reduced calorie" or "low calorie" foods in accordance with the provisions of § 105.66 (21 CFR 105.66) published in the *FEDERAL REGISTER* of September 22, 1978 (43 FR 43248).

For purposes of this regulation, foods labeled in accordance with the provisions of § 105.66 with representations of "low calorie" or "reduced calorie" are exempt from the label warning requirements provided no other representations are made with respect to the usefulness of the food in reducing caloric intake or body weight.

17. Several comments asserted that the reported illnesses and deaths were caused by acts of omission or commission in the administration of the protein-sparing modified fast (PSMF) program. These comments argued that the protein products currently available are not inherently unsafe, not even when used as part of adult obesity therapy, if proper supervision by professionals knowledgeable of fasting metabolism and trained in obesity therapy is obtained. One comment pointed out that the PSMF diet is accepted therapy by leading physicians in the field of "bariatrics" (study of the treatment of obesity).

The Commissioner has reviewed the data and comments on this issue and concludes that some diet plans, such as the PSMF diet, may have potential benefits when used as part of a multidisciplinary approach in the treatment of severe obesity if used under controlled circumstances and with proper medical supervision. Those potential benefits, however, do not negate the fact that there are health risks associated with such therapy.

The fact remains that products used for this type of controlled therapy are sold directly to consumers who may not be under proper medical supervision. The evidence of record shows that for some protein products, as defined in this tentative final rule, there are health risks associated with these products when used to lose weight. These risks should be made known to consumers.

18. Most comments from the scientific community, including those health professionals using the PSMF program in the treatment of obesity, agreed that a low caloric (less than 800 Calories) protein diet should not be used without proper medical supervision, and that such a diet would be contraindicated for infants, children,

pregnant or nursing women, and individuals with renal, hepatic, or serious vascular disorders. There was considerable difference of opinion, however, concerning an appropriate regulatory response that would achieve the objective of ensuring that consumers are informed of the health risks associated with the use of protein products in low caloric dietary regimens.

Most of the alternative courses of action have been discussed above. The Commissioner's tentative conclusion is that the warning label requirements set forth below will be sufficient to ensure that consumers are informed of the risks associated with the use of protein products as the sole or primary source of calories in a low caloric diet and will minimize the use of these products to achieve rapid weight reduction without proper medical supervision.

19. Several comments offered possible explanations for the reported illnesses or deaths. One comment suggested that the illnesses and deaths were caused by an amino acid imbalance; the comment included references to scientific papers that discussed the effects of amino acid imbalance in man. Other possible direct causes of death or illness mentioned in comments are electrolyte imbalances involving potassium, calcium, or magnesium deficiency or a complex combination of electrolytes. Also mentioned as a possible cause was release of toxic substances from the fat depots of the body after weight loss.

A comment from a physician stated that he had observed several cases of alopecia of the telogen effluvium type (a sudden onset of hair loss in a generalized pattern). The comment asserted that this hair loss was caused by an amino acid deficiency or essential trace metal deficiency as a result of recent weight loss through use of hydrolyzed protein products.

The Commissioner advises that FDA is continuing to investigate all of the possible causes of illnesses and deaths mentioned above. The evidence available now, however, suggests that rapid weight loss in and of itself presents serious risks to individuals. The Commissioner is convinced that very low caloric protein diets can present serious health risks to individuals. The Commissioner is also aware that obesity itself presents certain health risks. The proposal has generated many comments which assert that a protein-sparing modified fast dietary regimen used as part of a multidisciplinary approach to obesity therapy has proved beneficial to many obese individuals. None of these comments, however, suggests that the weight loss benefits were gained without some risk.

The warning label requirements in this tentative final rule are not meant

to imply that risk can be avoided by consultation with a physician. A physician can only reduce these risks by effective supervision and monitoring of the patient.

The Commissioner believes that the label warning requirements and the associated publicity concerning the possible health risks of a very low caloric protein diet will result in a heightened awareness by individual patients of the need for extreme care in undertaking a diet regimen as well as the need to consult a physician before doing so. This awareness is expected to generate a candid dialogue between doctors and patients concerning the risks of any diet therapy as well as the benefits provided by weight reduction.

#### D. SCOPE OF THE REGULATION

A majority of the comments supported FDA's efforts to require label warnings on protein products for which there is sound evidence that their use is associated with illness or death. Many of the comments, however, objected to the scope of the proposed regulation and opposed several aspects of the proposed warning language that describes the kinds of products that would be required to bear a warning label.

20. Several comments were opposed to proposed § 101.17(d)(1) which would have required "any product composed essentially of protein or protein hydrolysates which is intended for use in a weight reduction or maintenance dietary regimen" to bear the warning label. The comments stated that this language was both vague and overly broad because it could be interpreted to apply to a variety of products which pose no health risks. Many of the comments listed specific examples of protein products that they argued should not be required to bear the proposed warning statement because of the absence of evidence that their use presents any risks to health.

The tentative final rule has been revised to define more clearly the products that are required to bear a label warning statement. The primary group of products affected are those protein products that derive 50 percent or more of their total caloric value from protein, protein hydrolysates, amino acid mixtures, or a combination of these. The three warnings that would be required are tailored to categories of products depending on the representations made about their use and the manner of use intended for them by their manufacturer or promoter.

21. Several comments stated that the warning label requirement should apply only to "liquid protein products" that are derived from whole protein sources or are hydrolysates of

proteins which are of low nutritional value, such as collagen or gelatin, because these are the products associated with the reported deaths and were clearly the products of concern in discussions between FDA and the ad hoc advisory group. These comments argued that the protein quality of these products differs markedly from the "powdered protein" products available on the market that have a high protein quality and are safe and nutritious protein foods when used in the traditional manner as a food supplement. Several comments provided specific examples of dietary programs that they argued were recognized as safe by the nutrition and medical community.

The Commissioner acknowledges that these comments have some merit. When used as part of a structured, nutritionally balanced diet providing 800 or more Calories per day, protein products of good biological quality are considered to be safe when used for a limited period; however, the Commissioner has decided that no distinction should be made on the basis of protein quality. The course of action described by this tentative final rule distinguishes between those protein products that are generally promoted for weight control and those that are promoted as part of a structured nutritionally balanced diet providing 800 Calories or more per day when this diet plan is specified in detail on the label or in the labeling.

The warnings are directed at the concern that protein products not be used by consumers as the sole or primary source of calories in the diet to achieve rapid weight loss without close medical supervision.

22. Several comments were opposed to the language of proposed § 101.17(d)(2), which states, "Special dietary food products which are composed essentially of protein or protein hydrolysates, or which use the word 'protein' in their statement of identity, or otherwise emphasize the word 'protein' in their label or labeling, shall bear the following warning if they are not intended for use in a weight reduction or maintenance dietary regimen."

The comments argued that the language of this section was vague and overly broad and included products that were never intended to be used for weight reduction. Many more comments strongly objected to the inclusion of a provision for a warning statement requirement solely because the word "protein" is emphasized in labeling. These comments argued that many regulations promulgated by FDA permit or require the term "protein" in the statement of identity for that food, and that these products should not be required to bear a warning label.

The Commissioner has amended the tentative final rule to define more clearly the products that are required to bear a label warning statement. Under the tentative final rule, protein supplements that are promoted for purposes other than weight reduction, but which derive over 50 percent of their total caloric value from protein, protein hydrolysates, amino acid mixtures, or a combination of these, would be required to bear the following warning:

Warning.—Use this product as a food supplement only. Do not use for weight reduction.

#### E. TEXT OF THE WARNING STATEMENT

Several comments suggested alternative or modified statements that they argued would clarify or reduce the severity of the warning.

23. One comment asserted that the wording sequence of the warning in proposed § 101.17(d)(1) insinuates that protein substances are hazardous and leaves the impression that protein is a toxic or poisonous substance. The comment suggested modifying the wording of the warning to clarify that it is the manner in which protein substances are used, rather than the protein itself, which is the basis for the warning. The comment suggested the following alternative warning statement:

Warning.—Very low calorie protein diets may cause serious injury or death WHEN USED WITHOUT MEDICAL SUPERVISION FOR WEIGHT REDUCTION OR MAINTENANCE. Do not use for any purpose without medical advice if you are taking medication. Not for use by infants, children or pregnant or nursing women.

The commissioner does not agree with that comment. The text of the warning statement in proposed § 101.17(d)(1) of the December 1977 FEDERAL REGISTER document does not state that protein is a toxic or poisonous substance but rather that "very low calorie protein diets" may cause serious illness. In view of the fact that some of the reported deaths were of individuals under the supervision of a doctor, it would be misleading to permit a warning, such as the one suggested by the comment, which implies that there are no risks involved when very low calorie protein diets are undertaken with medical supervision. These health risks still exist. Although medical professionals trained in the treatment of obesity may be able to reduce these risks through monitoring the patient carefully, most physicians will agree that there will still be risks associated with such treatment.

24. One comment argued that the hazard of death implied by the proposed warning statement was unjustified. In addition, this comment argued

that the reference to specific medical conditions in the proposed warning should be omitted because this would dilute the overall impact of the warning by implying that only consumers with specific medical problems need to be concerned. Accordingly, the comment suggested that the warning statement be revised to read as follows:

Warning.—Do not use for rapid weight loss without continual supervision by a physician knowledgeable with such therapy.

The Commissioner rejects this alternative text for the warning statement. There is no doubt that consumers who adhere to a very low calorie protein diet (less than 800 Calories per day) without proper supplementation and monitoring by a physician risk serious illness that may be fatal. In addition there are medical conditions, identified by those physicians commenting on the proposal, for which a protein-sparing modified fast is contraindicated. The warning proposed by the comment would not adequately inform consumers of those facts.

25. Several comments suggested much more general warning statements such as: "Formula products used for rapid weight loss require obligatory supervision of this therapy by a physician knowledgeable with such therapy" and "Warning: very low calorie diets containing 400 Calories or less per day must be used under the direct supervision of a physician."

The Commissioner does not find any of these suggested alternatives satisfactory because they do not adequately address the health risks involved. The reasons for this conclusion have already been stated in this preamble.

26. One comment objected to the lack of proper definition of the phrase "very low calorie protein diet" and suggested that the warning be amended to read as follows: "Not to be used for weight reduction nor as a sole diet without proper medical supervision. Do not use for any purpose without medical advice if you are taking medication. Not for use by infants, children or pregnant or nursing women."

The Commissioner rejects this suggested alternative because it does not properly identify the health risk and goes no further in clarifying what is meant by a "very low calorie protein diet." The approach established by this tentative final rule does distinguish between those products promoted generally for weight reduction and those products promoted for use as part of a nutritionally balanced diet that contributes 800 or more Calories per day. Any lower caloric intake would be considered a very low calorie diet.

27. Other comments suggested that powdered protein products were distinct from the "predigested liquid pro-

tein" products, were not harmful to health, and did not present the same problems of misuse. These comments argued, therefore, that these products should not be required to bear a warning statement but suggested instead a label statement that could be placed on the label as part of the directions for use. One comment suggested the following statement: "Anyone considering a weight reduction program should first obtain competent medical advice. Use this product as part of a well balanced diet."

One other comment suggested that powdered proteins bear the following:

Warning.—If you are under medical care and/or if you plan to lose twenty-five pounds, please consult with your doctor before beginning this or any other dietary program.

The Commissioner does not agree. Many of the powdered protein products are used in the same manner as the protein hydrolysates and the evidence indicates that the health risks are similar for liquid or powdered protein products used as the sole or primary source of calories in a very low calorie diet. Because there is no substantial difference between a liquid protein hydrolysate and the same product after dehydration, the physical form in which the protein product is sold is not important in assessing the health risks associated with use of the product. The provisions of this tentative final rule do, however, distinguish between those products promoted in a general way for weight reduction and those promoted for use in a nutritionally balanced diet plan providing 800 or more Calories per day.

28. A few comments suggested that protein products be divided into categories on the basis of nutritional quality. Several recommended that protein products with a protein efficiency ratio (PER) of 50 percent that of casein be treated differently from low quality protein products and suggested alternative warning statements for the two types of protein products. For products composed essentially of protein of poor nutritional quality that are labeled for use in weight reduction, the following warning was suggested:

Warning: The protein in this product is of poor nutritional quality. Low calorie diets provided primarily by protein of this quality may cause serious side effects such as \_\_\_\_\_ and even illness and death.

DO NOT USE THIS PRODUCT AS THE SOLE OR PRIMARY SOURCE OF CALORIES FOR WEIGHT REDUCTION WITHOUT PRIOR MEDICAL EXAMINATION AND CONTINUED MEDICAL SUPERVISION. Do not use for any purpose without medical advice, especially if you are taking medication. Not for use by infants, children, or pregnant or nursing women.

For products composed essentially of protein of good nutritional quality that are labeled for use in weight reduction, the comment suggested the following warning:

Warning: Low calorie diets provided primarily by protein may cause side effects such as \_\_\_\_\_

Do not use this product as the sole or primary source of calories for weight reduction without prior medical examination and continued medical supervision.

For products composed essentially of protein of poor nutritional quality that are not labeled for use in weight reduction, the comment suggested the following warning:

Warning: The protein in this product is of very poor nutritional quality. DO NOT USE THIS PRODUCT AS THE SOLE OR PRIMARY SOURCE OF CALORIES FOR WEIGHT REDUCTION. Low calorie diets provided primarily by protein of this quality may cause side effects such as \_\_\_\_\_ and even illness and death.

For products composed essentially of protein of good nutritional quality that are not labeled for use in weight reduction, the comment suggested the label statement:

Do not use as the sole or major source of calories without medical supervision.

There is evidence to suggest that even high quality protein products pose a health risk when used as the sole or primary source of calories in a very low calorie dietary regimen (e.g., less than 800 Calories per day). The range of warnings suggested by the comment would not adequately take this fact into account.

29. A few comments recommended that the proposed warning apply only to protein products or special dietary foods which derive 60% (some suggested 50%) of their caloric value from protein or protein hydrolysates.

The Commissioner has adopted this approach in the tentative final rule in an attempt to define more clearly the phrase "composed essentially of protein" used in the proposal. The FTC has issued a proposed trade regulation on advertising and labeling of protein supplements. One proposed provision of the FTC rule would require a strong warning for "any protein supplement which derives 50 percent or more of its calories from the protein content of the food." Although the FTC proceedings in large measure antedated the current public health problem, the Commissioner concludes that the "50 percent of calories" definition is appropriate here also. This definition of protein products covers all of the products currently being used under the protein-sparing modified fast and other very low calorie dietary regimens.

#### F. MISCELLANEOUS COMMENTS

30. One comment requested that the proposed regulation be clarified to exempt bulk protein ingredients used as components of other foods from the label warning requirements.

The Commissioner advises that, under the provisions of the tentative final rule, bulk protein products sold only for use as components of other foods are not subject to the label warning requirements. Therefore, no specific exemption from these label warning requirements is needed.

31. Several comments suggested that in light of the FTC proceedings relative to protein supplement labeling, the FDA should either coordinate its proposed regulation with that of the FTC or defer its proposal until the FTC proceeding is completed. Additionally, the Federal Trade Commission submitted comments on the proposal, requesting that the proposed regulation specifically state that the warning label requirements promulgated by the FDA are separate from and in addition to labeling requirements established by the FTC for protein supplements.

The Commissioner advises that FDA has worked closely with the FTC throughout the investigation of health problems associated with protein supplements. This tentative final rule includes a provision which specifically states that the warning label requirements promulgated by FDA are in addition to, and separate from, any labeling requirements established by the FTC for protein supplements.

Tentative effective date: The Commissioner is proposing that the label and labeling of foods introduced or delivered for introduction initially into interstate commerce on or after the 60th day following publication of a final regulation governing the labeling of protein products shall bear the warning statement appropriate for that food.

The Commissioner has carefully considered the environmental effects of the tentative final rule and because the proposed action will not significantly affect the quality of the human environment has concluded that an environmental impact statement is not required. A copy of the Environmental Impact Analysis Report has been filed with the FDA Hearing Clerk.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 201(n), 403(a), 701(a), 52 Stat. 1041 as amended, 1047 as amended, 1055 (21 U.S.C. 321(n), 343(a) 371(a)) and under authority delegated to him (21 CFR 5.1), the Commissioner proposes that Part 101 be amended in § 101.17 by adding new paragraph (d) to read as follows:

#### § 101.17 Food labeling warning statements.

(d) *Protein products.* (1) The label and labeling of any food product that derives more than 50 percent of its total caloric value from either whole protein, protein hydrolysates, amino acid mixtures or a combination of these and that is represented on the label or in labeling or is otherwise promoted for use to reduce weight shall bear the following warning:

Warning.—Very low calorie protein diets may cause serious illness or death. DO NOT USE FOR WEIGHT REDUCTION WITHOUT MEDICAL SUPERVISION. Use with particular care if you are taking medication. Not for use by infants, children, or pregnant or nursing women.

Food labeled in accordance with the provisions of § 105.66 of this chapter and bearing representations of "low calorie" or "reduced calorie" are exempt from the label warning requirements of this paragraph if no other representations are made with respect to the usefulness of the food in reducing caloric intake or body weight.

(2) Products described in paragraph (d)(1) of this section are exempt from the labeling requirements of that paragraph if the protein products are promoted as part of a nutritionally balanced diet plan providing 800 or more calories (kilocalories) per day and the label or labeling of the product specifies the diet plan in detail and the label and labeling bear the following warning statement:

Warning.—Use only as directed in the diet plan described herewith (the name and specific location in labeling of the diet plan may be included in this statement in place of "diet plan described herewith"). Do not use as the sole or primary source of calories for weight reduction.

(3) The label and labeling of protein supplements that derive more than 50 percent of their total caloric value from either whole protein, protein hydrolysates, amino acid mixtures, or a combination of these and that are specifically promoted for purposes other than weight reduction shall bear the following warning:

Warning.—Use this product as a food supplement only. Do not use for weight reduction.

(4) The provisions of this paragraph are separate from and in addition to any labeling requirements promulgated by the Federal Trade Commission for protein supplements.

(5) The warning statements required by paragraph (d) (1), (2), and (3) of this section shall appear prominently and conspicuously on the principal display panel of the package label and on any other labeling. The warning state-

ments shall be printed in bold letters and shall be enclosed by lines forming a rectangle in an area separated from other written, printed, or graphic matter. The capitalized sentences in paragraph (d)(1) of this section shall be so capitalized on all labels and labeling. The height of the printed letters comprising the warning statement required by paragraph (d)(1) of this section shall not be less than one-half of the height of the largest type appearing on the label of the product. In no case shall the warning statement be printed in letters less than 1/16 of an inch. The warning statements required by paragraph (d) (2) and (3) of this section shall be printed in letters no less than 1/16 of an inch.

Interested persons may, on or before February 27, 1979, submit to the Hearing Clerk (HFA-305), Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20857, written comments regarding this tentative final rule. Four copies of all comments shall be submitted, except that individuals may submit single copies of comments, and shall be identified with the Hearing Clerk docket number found in brackets in the heading of this document. Received comments may be seen in the above office between the hours of 9 a.m. and 4 p.m., Monday through Friday.

Dated: December 19, 1978.

DONALD KENNEDY,  
Commissioner of Food and Drugs.  
(FR Doc. 78-36219 Filed 12-28-78; 8:45 am)

#### [4110-03-M]

(Docket No. 75N-0318)

#### PART 105—FOODS FOR SPECIAL DIETARY USE

##### Label Statements

AGENCY: Food and Drug Administration.

ACTION: Extension of Effective Date of Final Rule.

SUMMARY: This notice extends the period of time for compliance with the labeling requirements for special dietary foods used in reducing or maintaining body weight or caloric intake and in the diet of diabetics.

DATE: All products initially introduced into interstate commerce after July 1, 1980, shall comply with the labeling requirements set forth in §§ 105.66 and 105.67.

FOR FURTHER INFORMATION CONTACT:

Taylor M. Quinn, Bureau of Foods (HFF-300), Food and Drug Administration, Department of Health, Education, and Welfare, 200 C St. SW., Washington, D.C. 20204, 202-245-1243.

**SUPPLEMENTARY INFORMATION:** In the FEDERAL REGISTER of September 22, 1978 (43 FR 43248), the Food and Drug Administration (FDA) issued a final order setting forth regulations concerning label statements on foods used in reducing or maintaining body weight or in the diet of diabetics and related misleading label statements on other foods.

The final order established a compliance date of July 1, 1979, for the initial introduction into interstate commerce of such foods.

The Commissioner of Food and Drugs has received a petition from the National Food Processors Association (NFPA) requesting a delay of the effective date of the regulation from July 1, 1979, to July 1, 1981. The Commissioner also has received similar requests from CFS Continental and International Dairy Queen, Inc., (IDQ) concerning the effective date of the regulation.

The NFPA and IDQ petitions and the CFS request state that the effective date of July 1, 1979, would not allow enough lead time to reduce current label inventories substantially or to obtain new labels in time to comply with the effective date.

Further, the NFPA petition states that most producers of dietary canned foods have just completed their seasonal canning and have substantial inventory of shelf-stable products, all of which cannot be shipped before July 1, 1979.

The NFPA and IDQ petitions and the CFS Continental letter are on file in the office of the Hearing Clerk (HFA-305), Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, Md. 20857.

The Commissioner has reviewed the petitions and the letter of request and has determined that there are grounds for extending the effective date of compliance with §§ 105.66 and 105.67 (21 CFR 105.66 and 105.67). However, the Commissioner does not agree that compliance should be delayed as requested until July 1, 1981.

As pointed out in the NFPA petition, the September 22, 1978, publication of the special dietary foods labeling regulation was the culmination of over 15 years of rulemaking. The labeling requirements promulgated had been the subject of a public hearing and a tentative final order. The publication of the final order resolved those questions and comments raised by the publication of the tentative final order. In the Commissioner's opinion, all interested parties have had adequate time to be heard, and, with the publication of the final order, the regulations should be implemented as soon as it is practical to do so.

The Commissioner believes it is not in the best interest of consumers to

delay the required labeling of these special dietary foods any longer than is necessary to allow adequate time for the purchase of new labels and sale of any currently labeled foods.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 201(n), 403 (a) and (j), 701 (a) and (e), 52 Stat. 1041 as amended, 1047-1048 as amended, 1055, 70 Stat. 919 as amended (21 U.S.C. 321(n), 343 (a) and (j), 371 (a) and (e))), and under authority delegated to the Commissioner (21 CFR 5.1), the effective date for compliance with the regulations set forth in 21 CFR 105.66 and 105.67 in the FEDERAL REGISTER of September 22, 1978 (43 FR 43248) is hereby extended from July 1, 1979, to July 1, 1980, at which time all products initially introduced into interstate commerce shall comply.

Dated: December 21, 1978.

JOSEPH P. HILL,  
Associate Commissioner  
for Regulatory Affairs.

#### SUBCHAPTER E—ANIMAL DRUGS, FEEDS, AND RELATED PRODUCTS

#### PART 520—ORAL DOSAGE FORM NEW ANIMAL DRUGS NOT SUBJECT TO CERTIFICATION

##### Sulfisoxazole Tablets

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The animal drug regulations are amended to reflect a previously approved new animal drug application (NADA) held by Fort Dodge Laboratories. The NADA provides for safe and effective use of sulfisoxazole tablets as an antibacterial in dogs and cats. The product was the subject of an evaluation by the National Academy of Sciences—National Research Council, Drug Efficacy Study Group (NAS/NRC). The application was subsequently supplemented in accordance with the conclusions of the NAS/NRC evaluation.

EFFECTIVE DATE: December 29, 1978.

FOR FURTHER INFORMATION CONTACT:

Donald A. Gable, Bureau of Veterinary Medicine (HFV-100), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, MD 20857, 301-443-4313.

**SUPPLEMENTARY INFORMATION:** Fort Dodge Laboratories, Fort Dodge, IA 50501, is sponsor of an NADA (7-981V), which was originally approved

May 7, 1951. The product was the subject of an NAS/NRC evaluation published in the FEDERAL REGISTER of February 19, 1969 (34 FR 2366).

The NAS/NRC concluded that: (1) These products are probably effective in the treatment of bacterial infections caused by organisms sensitive to sulfisoxazole; (2) label changes are needed to properly qualify each disease claim as "appropriate for use in (name of disease) caused by pathogens sensitive to (name of drug)"; if the disease cannot be so qualified, the claim must be dropped; (3) frequency of administration is inadequate; and (4) data should be provided to show that the tablets will disintegrate in the gastro-intestinal tract of the medicated species to provide the recommended therapeutic dose.

The Food and Drug Administration concurred with the conclusions of the NAS/NRC evaluation.

Fort Dodge Laboratories responded by submitting a supplemental application which provided revised labeling and bioavailability data in accordance with the conclusions of the NAS/NRC evaluation. Accordingly, the application has been upgraded from probably effective to effective status.

For similar products having the same conditions of use, applications need not include efficacy data as specified by §§ 514.1(b)(8)(ii) or 514.111(a)(5)(vi) of the animal drug regulations (21 CFR 514.1(b)(8)(ii) or 514.111(a)(5)(vi)), but approval may require bioequivalency or similar data as suggested in the guideline for submitting NADA's for NAS/NRC-reviewed generic drugs, on file in the office of the Hearing Clerk (HFA-305), Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20857.

This action, reflecting an approved NADA, does not constitute reaffirmation of the safety and effectiveness data supporting this approval. Since the NADA was approved before July 1, 1975, a summary of safety and effectiveness data and information submitted in accordance with § 514.11(e)(2)(ii) (21 CFR 514.11(e)(2)(ii)) to support this approval is not required.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.1) and redelegated to the Director of the Bureau of Veterinary Medicine (21 CFR 5.83), Part 520 is amended by adding new § 520.2330, to read as follows:

##### § 520.2330 Sulfisoxazole tablets.

(a) *Specifications.* Each tablet contains 260 milligrams (4 grains) of sulfisoxazole.

(b) *Sponsor.* See No. 000856 in § 510.600(c) of this chapter.

(c) *Conditions of use—(1) Amount.* Administer one tablet orally per 4 pounds of body weight.<sup>1</sup>

(2) *Indications for use.* Use in dogs and cats as an aid in treatment of bacterial pneumonia and bacterial enteritis when caused by organisms sensitive to sulfisoxazole.<sup>1</sup>

(3) *Limitations.* Repeat dosage at 24-hour intervals until 2 to 3 days after disappearance of clinical symptoms. (Administration of one-half daily dosage at 12-hour intervals or one-third daily dosage at 8-hour intervals will provide a more constant blood level.) Provide adequate supply of drinking water. If symptoms persist after using this preparation for 2 or 3 days, consult a veterinarian.<sup>1</sup>

*Effective date.* This regulation is effective December 29, 1978.

(Sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i))).

Dated: December 13, 1978,

LESTER M. CRAWFORD,  
Director, Bureau of  
Veterinary Medicine.

(FR Doc. 78-36221 Filed 12-28-78; 8:45 am)

#### [4110-03-M]

#### PART 522—IMPLANTATION OR INJECTABLE DOSAGE FORM NEW ANIMAL DRUGS NOT SUBJECT TO CERTIFICATION

##### Levamisole Phosphate Injection

AGENCY: Food and Drug Administration.

ACTION: Final Rule.

SUMMARY: The animal drug regulations are amended to reflect approval of a supplemental new animal drug application (NADA) filed by American Cyanamid Co. for Cyanamid Agricultural de Puerto Rico, Inc., providing for subcutaneous use of a 13.65 percent levamisole phosphate injection for the treatment of *Trichostrongylus axei* infections in cattle in addition to other approved anthelmintic uses.

EFFECTIVE DATE: December 29, 1978.

FOR FURTHER INFORMATION CONTRACT:

William D. Price, Bureau of Veterinary Medicine (HFV-123), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, MD 20857, 301-443-3442.

<sup>1</sup>These conditions are NAS/NRC reviewed and deemed effective. Applications for these uses need not include effectiveness data as specified by § 514.111 of this chapter, but may require bioequivalency and safety information.

**SUPPLEMENTARY INFORMATION:** The American Cyanamid Co. filed a supplemental new animal drug application (102-437V) for Cyanamid Agricultural de Puerto Rico, Inc., P.O. Box 243, Manati, P.R. 00701 providing for subcutaneous use of a levamisole phosphate injection containing the equivalent of 13.65 percent levamisole hydrochloride for the treatment of cattle for *T. axei* infections in addition to other approved anthelmintic uses. The drug was originally approved by publication in the FEDERAL REGISTER of May 12, 1978 (43 FR 20489). Approval of this supplement does not constitute reaffirmation of the safety of residues resulting from use of the drug.

In accordance with the freedom of information regulations and § 514.11(e)(2)(ii) of the animal drug regulations (21 CFR 514.11(e)(2)(ii)), a summary of safety and effectiveness data and information submitted to support approval of this application is released publicly. The summary is available for public examination at the office of the Hearing Clerk (HFA-305), Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20857, from 9 a.m. to 4 p.m., Monday through Friday.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.1) and redelegated to the Director of the Bureau of Veterinary Medicine (21 CFR 5.83), § 522.1244 *Levamisole phosphate injection* is amended in paragraph (c)(2)(i) by revising the phrase "stomach worms (*Haemonchus*, *Ostertagia*)" to read "stomach worms (*Haemonchus*, *Trichostrongylus*, *Ostertagia*)."

*Effective date.* This regulation is effective December 29, 1978.

(Sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i))).

Dated: December 21, 1978.

TERENCE HARVEY,  
Acting Director, Bureau of  
Veterinary Medicine.

#### Title 24—Housing and Urban Development

#### CHAPTER III—GOVERNMENT NATIONAL MORTGAGE ASSOCIATION

**SUBCHAPTER C—MANAGEMENT AND  
LIQUIDATING FUNCTIONS**

[Docket No. R-78-552]

**PART 390—GUARANTY OF  
MORTGAGE-BACKED SECURITIES**

**Amendments to Increase Net Worth  
Requirements in the Mortgage-  
Backed Securities Program**

**AGENCY:** Government National  
Mortgage Association, HUD.

**ACTION:** Final Rule.

**SUMMARY:** The amendments provide for increases in minimum net worth required of mortgage lenders which are issuers of GNMA Guaranteed Mortgage-Backed Securities. The change is intended to raise minimum net worth of such issuers in amounts commensurate with the amounts of securities they have outstanding.

**EFFECTIVE DATE:** January 29, 1979.

**FOR FURTHER INFORMATION  
CONTACT:**

Paul Yates, Government National  
Mortgage Association, 451 Seventh  
Street, S.W., Room 6224, Washing-  
ton, D.C. 20410, Telephone Number:  
(202) 755-5550.

**SUPPLEMENTARY INFORMATION:**  
In the *FEDERAL REGISTER* of June 23, 1978, beginning on page 27486 there was published a notice of proposed rulemaking which provided for increases in the amounts of net worth that issuers of Government National Mortgage Association guaranteed securities are required to have. All interested persons were given until July 24, 1978, to submit written comments, suggestions, or objections regarding the proposed regulations.

The following responses are provided to the comments received: Three commentators indicated that the proposed net worth requirement for issuers of project mortgage securities (§ 390.3(c)(4)(ii)) is unduly burdensome for small firms. One of these commentators expressed the belief that the requirements will adversely affect the Mortgage-Backed Securities Program by reducing competition in the issuance of project securities. GNMA has conducted an extensive analysis of the present financial status of issuers of project mortgage securities. This anal-

One commentator expressed a belief that the term "assets acceptable to GNMA" as used in § 390.3(c) should be more fully defined. GNMA agrees that its requirements for acceptable assets should be made generally known. Therefore, details of GNMA's requirements with respect to acceptable assets have been distributed to all issuers, with a request for their views and suggestions. GNMA's requirements based on the resulting comments will be published shortly in the program handbook, which is The Mortgage-Backed Securities Guide (Handbook GNMA 5500.1).

One commentator noted an apparent ambiguity that could lead to a conclusion that the new net worth requirements are in addition to those presently applicable. This is not the intent; rather the new requirements are a substitute for the present requirements. Because only one commentator considered the proposed wording unclear, and because a careful review of the wording indicated it to state the intended meaning clearly, no revision has been made.

One commentator indicated a belief that the new requirements should only be applicable in connection with commitments that are issued on and after April 1, 1979. As proposed, the new requirements would be applicable for all active securities issuers wishing to issue securities on and after April 1, 1979. The same commentator suggested as another approach that the new net worth requirements be made applicable with respect to commitments made after these regulations are published in final form. Another commentator proposed that the requirements not become applicable until at least one year after the date of final publication of the regulations. GNMA recognizes that there have been delays in placing the new requirements into effect, and that possibly not enough time now exists for issuers where necessary to increase their capital by April 1, 1979. Therefore, the applicable date of the new net worth requirements has been revised to October 1, 1979. Consequently, any lender wishing to issue securities on or after October 1, 1979, must satisfy the new requirements, which are computed based on securities outstanding at the time of the issuance. Also, wording has been added to make clear that, with

respect to the income from which is exempt from Federal income taxes could be interpreted in such a way as to prohibit tax exempt entities from investing in GNMA guaranteed securities. The indicated provision has been deleted entirely from the final rule.

One commentator indicated a belief that the higher net worth requirements represent a unilateral amendment to existing contracts between the issuer and GNMA. This is not a correct understanding of the proposal. If an issuer issues no new securities, the prior requirements, as provided for in guaranty agreements between the issuer and GNMA, continue to be applicable.

One commentator noted that the definition of "securities outstanding" in § 390.3(d)(1) would result in a double counting of commitments to issue project securities where commitments also have been issued for construction loan securities on the same project. This result was not intended, and revisions have been made to the final regulations to make the computational procedure clear.

Two commentators stated that GNMA has not demonstrated through an analysis of the risks of loss to issuers and to GNMA that there is a need for an increase in the net worth of issuers of project securities. GNMA has, in fact, analyzed the implications of being a securities issuer and has related these implications to the need for net worth. The principal need for working capital arises for an issuer when a pooled mortgage is delinquent, and if it goes into foreclosure. During the time a loan is delinquent, the issuer must continue making payments to security holders, using its own resources, until the delinquency is cured or an insurance claim payment is received. Close analysis shows that the cash requirements for such advances can amount to five or more times the required amount of net worth, even under the new levels. If a loan is foreclosed, the issuer is responsible for covering, out of its own resources, a portion of the losses not covered by the FHA claim settlement. Such losses can approach an amount equal to issuers' net worth, even with the new levels, in some circumstances. Furthermore, GNMA wishes issuers, where appropriate, to provide forbear-

their responsibilities in the Mortgage-Backed Securities Program.

A new provision has been included in § 390.3(e)(2) to provide that to be an eligible issuer a lender must be in compliance with Executive Order 11246, Equal Employment Opportunity, issued on September 24, 1965 and amended on October 13, 1967.

In addition to the above changes made to the amendment as proposed, the following changes are made to the GNMA Mortgage-Backed Securities Program regulations:

Paragraph (a) of § 390.3 prescribes the basic requirements which a mortgage lender must meet in order to qualify as an "eligible issuer" of mortgage-backed securities guaranteed by GNMA. In order to so qualify, a mortgage lender must—

1. Be in good standing as a mortgagee approved by the FHA;
2. Have adequate experience, management capability, and facilities to issue and service mortgage-backed securities as determined by GNMA;
3. Be in good standing as a FNMA or GNMA approved mortgage servicer;
4. Maintain the applicable minimum net worth prescribed by paragraph (c) of revised § 390.3; and
5. Meet the requirements, conditions, and limitations prescribed by GNMA in § 390.3 or in the Mortgage-Backed Securities Guide (GNMA 5500.1).

Paragraph (b) of § 390.3 makes it clear that GNMA will not make a commitment to guarantee mortgage-backed securities, or guarantee any securities, if the mortgage lender requesting the commitment or guaranty does not then qualify as an eligible issuer. This is an expansion of language presently found in § 390.3(a), which provides the GNMA will not guarantee any securities unless the issuer meets the prescribed net worth requirements.

Paragraph (c) of § 390.3 contains the revised net worth requirements for issuers of the various categories of mortgage-backed securities. The present provision deals with four such categories: Straight pass-through securities, modified pass-through securities backed by mortgages on the one- to four-family residences, modified pass-through securities backed by mobile home mortgages, and other modified pass-through securities. The new paragraph (c) replaces the category of

applications for straight pass-through securities will be accepted.

The net worth requirement for issuance of modified pass-through securities backed by home mortgages (paragraph (c)(2)) is increased with respect to securities issued on or after October 1, 1979. The present provision has a limit of \$250,000 on the net worth requirement. The new provision has no such limit, and it has a minimum requirement of \$100,000. For issuers with more than \$20 million of securities outstanding, the new requirement is \$250,000, plus 0.2 percent of securities outstanding in excess of \$20 million.

The net worth requirement for issuance of modified mobile home pass-through securities on or after October 1, 1979, is increased for large-volume issuers (paragraph (c)(3)). There is presently a \$500,000 net worth requirement for all issuers of this type of security. The new requirement is \$500,000, plus 0.2 percent of securities outstanding in excess of \$35 million (as adjusted based on the rule, described below, for internal reserve pools).

The net worth requirement for issuance of modified multifamily project pass-through securities on or after October 1, 1979, is similarly increased for large-volume issuers (paragraph (c)(4)). Under the present regulations, the \$500,000 limit for issuance of "other" securities is applicable to this category. The same formula is retained for multifamily project securities issued prior to October 1, 1979. For securities issued on or after that date, there is no \$500,000 limit, and an issuer with securities outstanding in excess of \$35 million needs a net worth of \$500,000, plus 0.2 percent of securities outstanding in excess of \$35 million.

The net worth requirement for issuance of more than one type of security on or after October 1, 1979 (paragraph (c)(5)) is \$500,000, plus 0.2 percent of securities outstanding in excess of \$35 million.

Paragraph (d) provides that, in calculating required net worth, any securities outstanding that are based on internal reserve pools will be reduced by one-half in the making of such calculations. It also provides that the term "securities outstanding" means the sum of the unpaid principal balances outstanding, plus commitments out-

mortgage banking practices, ethics, and standards, as determined by GNMA.

Paragraph (g) permits GNMA to withhold the issuance of further commitments to issuers that fail to meet GNMA issuer eligibility requirements.

Section 390.5, governing issuance of mortgage-backed securities, is amended by deleting the provision now contained in paragraph (e) of that section. This provision now requires the issuer to report to GNMA certain information as to the cost of acquisition of pooled mortgages. The amendment eliminates such reports and the need for Form HUD 1713.

Section 390.7, setting forth the requirements for mortgages that may be included in pools backing GNMA-guaranteed securities, is amended by revising paragraph (b). The present language excludes from a pool mortgages which have been insured or guaranteed longer than 12 months prior to the date of the GNMA commitment to guarantee the securities to be backed by such pool. The new language measures the age of the mortgages by the first scheduled monthly payment of principal and interest or the date of purchase at a GNMA-approved auction. This amendment, first, eliminates the need for the date of FHA insurance of VA or FmHA guaranty to be reported on Form HUD 1706 and, second, permits Government-held mortgages over a year old to be put in mortgage-backed securities pools if purchased by the issuer at a GNMA-approved auction.

Section 390.11, which now requires either maintenance of "excess collateral" or the furnishing of a fidelity bond by issuers of mortgage-backed securities, is amended by deleting the "excess collateral" option. Under the revised language, all issuers are required to maintain fidelity bond coverage acceptable to GNMA.

Finally, § 390.13, governing GNMA guarantees of mortgage-backed securities, is amended by revising the last sentence of the section to delete the present provision for GNMA to make claim against an issuer's "excess collateral" in the event of default.

A finding of inapplicability of § 102(2)(c) of the National Environmental Policy Act of 1969 has been

# AMENDMENTS TO GNMA MBS REGULATIONS

1. Section 390.3 is amended by revising it to read as follows:

## § 390.3 Eligible issuers of securities.

(a) A mortgage lender, including an instrumentality of a State or local government, shall be eligible to issue and service mortgage-backed securities guaranteed by the Association if such mortgage lender qualifies as an eligible issuer. In order to qualify as an eligible issuer, a mortgage lender must—

(1) Be in good standing as a mortgagee approved by the Federal Housing Administration;

(2) Be in good standing as a mortgage servicer approved by the Federal National Mortgage Association (FNMA) or the Association;

(3) Have adequate experience, management capability, and facilities to issue and service mortgage-backed securities, as determined by the Association;

(4) Maintain the applicable minimum net worth prescribed in paragraph (c) of this section; and

(5) Meet the requirements, conditions, and limitations prescribed by the Association in this section or in the Association's Mortgage-Backed Securities Guide (GNMA 5500.1).

(b) The Association shall not make a commitment to guarantee, or guarantee (pursuant to a commitment or otherwise) any issue of mortgage-backed securities unless the mortgage lender requesting such commitment or guaranty then qualifies as an eligible issuer.

(c) Each eligible issuer shall maintain at all times a net worth in assets acceptable to GNMA of not less than the applicable minimum amount set forth in this paragraph, as follows:

(1) For the issuance of straight pass-through securities, \$100,000;

(2) For the issuance of modified pass-through securities based on and backed by mortgages on one-to-four family residences—

(i) With respect to securities issued or to be issued prior to October 1, 1979, an amount equal to the lesser of:

(a) \$250,000; or

(b) \$100,000, plus 1 percent of securities outstanding in excess of \$5 million.

(ii) With respect to securities issued or to be issued on or after October 1,

(i) With respect to securities issued or to be issued prior to October 1, 1979, \$500,000.

(ii) With respect to securities issued or to be issued on or after October 1, 1979, an amount equal to the sum of:

(a) \$500,000; plus

(b) 0.2 percent of securities outstanding in excess of \$35 million;

(4) For the issuance of modified pass-through securities based on and backed by mortgages on multifamily projects (both construction and permanent mortgages)—

(i) With respect to securities for which the first issue within any pool or project is issued or to be issued prior to October 1, 1979, an amount equal to the lesser of:

(a) \$500,000; or

(b) The sum of 3 percent of the first \$5 million of securities outstanding, plus 2 percent of the next \$5 million of securities outstanding, plus 1 percent of securities outstanding in excess of \$10 million, but in no event shall such net worth be less than \$100,000.

(ii) With respect to securities for which the first issue within any pool or project is issued or to be issued on or after October 1, 1979, an amount equal to the sum of:

(a) \$500,000; plus

(b) 0.2 percent of securities outstanding in excess of \$35 million;

(5) For the issuance of more than one type of security on or after October 1, 1979, an amount equal to the sum of:

(a) \$500,000; plus

(b) 0.2 percent of all mortgage-backed securities outstanding in excess of \$35 million.

(d)(1) In computing the required amount of net worth for purposes of this section, the term "securities outstanding" means the sum of:

(i) The unpaid principal balances of securities currently in the name of the issuer; plus

(ii) The amount of any outstanding commitments for guaranty issued by the Association, excluding the amount of project security commitments outstanding in cases where there are any construction security commitments outstanding for the same project; plus

(iii) The amount of any commitments to guaranty currently being requested from the Association, excluding the amount of project security commitments requested in cases where

(1) The lending policies of the issuer permit any discrimination based on race, religion, color, national origin, age, or sex of a borrower; or

(2) The issuer is not in compliance with any rules, regulations, or orders issued under Title VI of the Civil Rights Act of 1964; Executive Order 11063, Equal Opportunity in Housing, November 20, 1962; Executive Order 11246, Equal Employment Opportunity, issued on September 24, 1965 and amended on October 13, 1967; or Title VII of the Civil Rights Act of 1968; or issued by the FHA or VA.

(f) A mortgage lender shall qualify as an eligible issuer only so long as it conducts its business operations in accordance with accepted mortgage banking practices, ethics, and standards, as determined by the Association, and shall maintain its books and records in accordance with generally accepted accounting principles.

(g) In the event that a mortgage lender which has qualified as an eligible issuer should subsequently fail to comply with any of the requirements prescribed in this section, the Association may withhold further commitments to guarantee securities until such time as the Association is satisfied that the mortgage lender has resumed business operations in compliance with such requirements.

(h) If any issuer, subsequent to the issuance of securities guaranteed by the Association, should fail in a material way to be in compliance with any of the requirements prescribed in this section or of the guaranty agreement, the Association may bring proceedings to default such issuer, in accordance with the following procedure: The Association shall serve the issuer, by hand delivery or by certified or registered mail, with a written notice stating the facts incident to such failure and setting forth such affirmative requirements as the Association may consider necessary to correct such failure to be in compliance. Steps to correct or otherwise remedy such failure shall be carried out in accordance with such procedures as may be set forth in the guaranty agreement.

## § 390.5 [Amended]

2. Section 390.5 is amended by deleting therefrom existing paragraph (e).

3. Section 390.7 is amended by revising paragraph (b) thereof to read as follows:

An Association-approved auction, that is no more than 12 months prior to the date on which the Association makes its commitment to guarantee the issue of securities;

4. Section 390.11 is amended by revising it to read as follows:

## § 390.11 Fidelity bond coverage.

The issuer shall maintain, for the benefit of the Association, fidelity bond coverage, acceptable to the Association, that assures the faithful performance of the fiduciary responsibilities of the issuer.

5. Section 390.13 is amended by revising it to read as follows:

## § 390.13 Guaranty.

(a) With respect to straight pass-through securities, the Association guarantees the timely payment to the security holder of the proceeds of principal and interest, as collected, as undertaken in the Association's guaranty appearing on the face of the security. With respect to modified pass-through securities, the Association guarantees the timely payment, whether or not collected, of the fixed rate of interest on the outstanding balance and the specified principal installments, as undertaken in the Association's guaranty appearing on the face of the security. As to straight pass-through securities, any failure or inability of the issuer to make payment as due to the holders of the securities from the proceeds from the pool of mortgages which have been collected, or because of failure to make collections under reasonable and accepted standards of mortgage servicing, shall constitute a default of the issuer. As to modified pass-through securities, any failure or inability of the issuer to make fixed or other payments as due as well as such other failures as may be identified by the Association and included in the guaranty agreement, shall be deemed such a default.

(b) Upon any default by the issuer and payment under its guaranty by the Association, or any failure of the issuer to comply with the terms of the guaranty agreement, the Association may institute a claim against the issuer's fidelity bond, or may, pursuant to Section 306(g) of the National Housing Act, extinguish all the right, title, or other interest of the issuer in the

In accordance with Section 7(o)(4) of the Department of HUD Act, Section 324 of the Housing and Community Amendments of 1978, Pub. L. 95-557, 92 Stat. 2080, this rule has been granted waiver of Congressional review requirements in order to permit it to take effect on the date indicated.

Issued at Washington, D.C., October 26, 1978.

JOHN H. DALTON,  
President, Government  
National Mortgage Association.

## Title 25—Indians

## CHAPTER I—BUREAU OF INDIAN AFFAIRS, DEPARTMENT OF THE INTERIOR

### PART 231—COLORADO RIVER IRRIGATION PROJECT, ARIZONA

#### Final Revision of Rates and Procedures

AGENCY: Bureau of Indian Affairs, Department of the Interior.

ACTION: Final Revision of Rates and Procedures.

SUMMARY: The purpose of the final revision is to increase the four power rate schedules (§ 231.51 Rate Schedule No. 1—Residential Rate, § 231.52 Rate Schedule No. 2—Commercial Rate, § 231.53 Rate Schedule No. 3—Irrigation Pumping Rate, and § 231.54 Rate Schedule No. 4—Street and Area Lighting), and to modify the procedure for adjusting power rates.

A rate increase is necessary because the Arizona Public Service Company, a power supplier of the Colorado River Irrigation Project, has increased the cost of wholesale power by 33.5 percent. The increased cost, when averaged with power purchased from the Department of Energy, will be 9 percent. A study has determined that the various classes of customers within the Project contribute revenue in proportion to the cost of serving them; therefore, an approximate 9 percent general increase is proposed to the existing rates. This increase is the minimum required to offset the additional cost of power purchased from Arizona

adjusting Project power rates is through the rulemaking process which is somewhat time consuming. The time delays associated with the rulemaking process have prevented the Project from adjusting its power rates in a timely manner, thus causing economic instability in the operation and maintenance of the power system. A provision (§ 231.55) has been added to Part 231 of the CFR which will provide for the Area Director to automatically adjust Project power rates through unilateral action in order to avoid delays associated with the rulemaking process. Rates adjustments due to increased costs of labor, materials and equipment will continue to be initiated through the rulemaking process.

DATE: These revisions shall become effective January 1, 1979.

FOR FURTHER INFORMATION CONTACT:

Harold Roberson, Bureau of Indian Affairs, Phoenix Area Office, Phoenix, Arizona 85011, telephone number 602-261-4184.

SUPPLEMENTARY INFORMATION: Beginning on Page 51806 of the November 7, 1978, FEDERAL REGISTER, Vol. 43, No. 216, there was published a proposed revision of rates and procedures. All interested persons were given until November 27, 1978, to submit comments regarding the proposed revision. No written comments were received; however, a public meeting was held in the Blake School Cafeteria, Parker, Arizona, November 21, 1978, to discuss the proposed rate increase and to answer any questions from concerned individuals. The comments from the public were generally complaints about the high cost of power and the financial impact this would have on their business. Questions asked related to the definition of demand charge and if these charges could be printed on the bills. All comments heard have been considered and it has been determined that the additional cost of purchased power can only be offset by increasing the rates as proposed. The principal author of this document is Harold Roberson, Bureau of Indian Affairs, Phoenix Area Office, Phoenix, Arizona 85011, telephone number 602-261-4184.

(Sec. 3.1, 10 BIAM; Section 2, 49 Stat. 1039; 54 Stat. 422; (5 U.S.C. 301).)

Accordingly, Title 25 CFR Part 231

through one meter to a customer at one premise either urban or rural, for domestic use only. The electrical service is to be used on the consumer's own premises only and must not be resold.

(b) *Type of Service.* Single phase, 60 cycle, 120/240 volts.

(c) *Monthly Rate.* (1) \$6.65 for the first 100 kilowatt-hours or less.

(2) 5.2 cents per kilowatt-hour for the next 300 kilowatt-hours.

(3) 4.4 cents per kilowatt-hour for the next 800 kilowatt-hours.

(4) 3.3 cents per kilowatt-hour for all additional kilowatt-hours.

(d) *Fuel Cost Adjustment.* An adjustment shall be added to each kilowatt-hour used equal to the estimated average purchased power adjustment (rounded to the nearest \$.0001) paid by the Project to the Project's power supplier.

2. Section 231.52 is revised to read as follows:

**§ 231.52 Rate Schedule No. 2—Commercial Rate.**

(a) *Application of Schedule.* This schedule applies to electrical service required by commercial, industrial and off-reservation irrigation pumping for all uses when such service is supplied at one point of delivery and measured through one meter. The electrical service is to be used on the consumer's own premises only and must not be resold.

(b) *Type of Service.* Single or three phase, 60 cycle, at one standard voltage (120/240, 120/208, 270/480, or 480 volts).

(c) *Monthly Rate.* (1) \$6.65 for the first 100 kilowatt-hours or less.

(2) 5.1 cents per kilowatt-hour for the next 900 kilowatt-hours.

(3) 4.1 cents per kilowatt-hour for the next 4000 kilowatt-hours.

(4) 3.1 cents per kilowatt-hour for all additional kilowatt-hours.

(d) *Demand Charge.* (1) None for the first 5 kilowatts.

(2) \$2.77 per kilowatt for all billing demand over 5 kilowatts.

(e) *Minimum Charge.* (1) \$8.50 or \$2.77 per kilowatt of billing demand for billing demands over 5 kilowatts, or the amount specified in the contract whichever is greater, except where the Officer in Charge determines that the customer's requirements are of a distinctly recurring seasonal nature. Then the minimum monthly bill shall not be more than an amount sufficient to make the total charges for the twelve (12) months ending with the current month equal to twelve (12) times the highest monthly minimum computed for the same 12-month period.

(f) *Billing Demand.* The highest 15-minute integrated demand in kilowatts occurring during the month or the

demand specified in a contract, whichever is greater.

(g) *Fuel Cost Adjustment.* An adjustment shall be added to each kilowatt-hour used equal to the estimated average purchased power adjustment (rounded to the nearest \$.0001) paid by the Project to the Project's power suppliers.

3. Section 231.53 is revised to read as follows:

**§ 231.53 Rate Schedule No. 3—Irrigation Pumping Rate.**

(a) *Application of Schedule.* This schedule applies to electrical service required for pumping of irrigation water for irrigation systems located on the reservation, when such service is supplied at one point of delivery and consumption is measured through one meter and is approved by the Officer in Charge. Use must be limited to the customer's premises and must not be resold.

(b) *Type of Service.* Single or three phase, 60 cycle at one standard voltage (120/240, 120/208, 270/480 or 480 volts).

(c) *Monthly Rate.* (1) Energy Charge 1.9 cents per kilowatt-hour.

(2) Demand Charge \$1.65 per kilowatt of billing demand.

(3) Minimum Charge \$1.65 per kilowatt of billing demand.

4. Section 231.54 is revised to read as follows:

**§ 231.54 Rate Schedule No. 4—Street and Area Lighting.**

(a) *Application of Schedule.* This rate schedule applies to service for lighting public streets, alleys, thoroughfares, public parks, school yards, industrial areas, parking lots and similar areas where dusk-to-dawn service is desired. The Project will own, operate and maintain the lighting system including normal lamp and globe replacement.

(b) *Monthly Rate.*

| Lamps                                                     | Per Lamp |           |
|-----------------------------------------------------------|----------|-----------|
|                                                           | Metered  | Unmetered |
| (1) 175 watts, mercury vapor (approx. 6,500 lumens).....  | \$5.55   | \$6.65    |
| (2) 250 watts, mercury vapor (approx. 10,000 lumens)..... | 7.00     | 8.50      |
| (3) 400 watts, mercury vapor (approx. 18,000 lumens)..... | 9.50     | 12.10     |

(c) *Minimum Term of Service.* The minimum term of service will be twelve months, payable in advance. This advance payment may be waived by the Officer in Charge.

(d) *Installation Charge.* The customer will be required to pay the total installation costs including labor and materials as determined by the Officer in Charge. Ownership of all facilities

will remain with the Project including lamp and globe replacement.

5. By adding § 231.55 to read as follows:

**§ 231.55 Adjustments due to Purchased Power Cost Changes.**

The rate schedules given in §§ 231.51, 231.52, 231.53 and 231.54 shall be adjusted as necessary and appropriate to offset changes in costs of power and energy purchased from the power supplier(s) of the Project. Rate adjustments pursuant to this provision shall become effective upon unilateral action of the Area Director; however, when a rate adjustment is determined to be necessary, the Area Director shall give sufficient notice to customers and other interested parties.

**NOTE.**—It is hereby certified that the economic and inflationary impacts of this proposed action have been carefully evaluated in accordance with the Executive Order 11821.

HAROLD D. ROBERSON,  
Acting Assistant  
Area Director.

**Title 29—Labor**

**CHAPTER XIV—EQUAL EMPLOYMENT OPPORTUNITY COMMISSION**

**PART 1613—EQUAL EMPLOYMENT OPPORTUNITY IN THE FEDERAL GOVERNMENT**

AGENCY: Equal Employment Opportunity Commission.

ACTION: Final regulation.

**SUMMARY:** The Equal Employment Opportunity Commission has adopted certain of the current regulations of the Civil Service Commission at 5 CFR Part 713 with respect to equal employment opportunity in the federal government and moved the regulations to Title 29, Part 1613, of the Code of Federal Regulations. In addition, certain technical changes have been made in the regulations in order to reflect the transfer of authority with respect to federal EEO from the Civil Service Commission to the Equal Employment Opportunity Commission. The regulations have also been amended to conform to the 1978 amendments to the Age Discrimination in Employment Act (Pub. L. 95-256).

**EFFECTIVE DATE:** January 1, 1979.

**FOR FURTHER INFORMATION CONTACT:**

Barry Strejcek, Office of Field Services, Equal Employment Opportunity

Commission, 2401 E Street, NW., Washington, D.C. 20506, (tel.) 202-634-6855.

**SUPPLEMENTARY INFORMATION:** Pursuant to Reorganization Plan No. 1 of 1978, effective January 1, 1979, all equal opportunity in Federal employment enforcement and related functions vested in the Civil Service Commission pursuant to Section 717 (b) and (c) of the Civil Rights Act of 1964, as amended, 42 U.S.C. 2000e-16 (b) and (c), will be transferred to the Equal Employment Opportunity Commission. Effective January 1, 1979, with respect to Federal employment of handicapped individuals, all enforcement and related functions vested in the Civil Service Commission pursuant to Section 501 of the Rehabilitation Act of 1973, 29 U.S.C. 791, will also be transferred to the Equal Employment Opportunity Commission and all functions relating to the administration and enforcement of the Equal Pay and Age Discrimination in Employment Acts vested in the Civil Service Commission under the Fair Labor Standards Act, as amended, 29 U.S.C. 204 *et seq.*, the Portal-to-Portal Act of 1947 as amended, 29 U.S.C. 259 and the Age Discrimination in Employment Act of 1967, as amended, 29 U.S.C. 621 *et seq.*, will be transferred to the Equal Employment Opportunity Commission.

Accordingly, the EEOC has voted to continue in effect on January 1, 1979 and until further notice the following sections of the current regulations of the Civil Service Commission with respect to federal equal employment opportunity:

5 CFR 713.201 thru 713.235 (1978)  
5 CFR 713.241 thru 713.262 (1978)  
5 CFR 713.271 (as amended, November 14, 1978, at 43 FR 52694)  
5 CFR 713.281 thru 713.302 (1978)  
5 CFR 713.501 thru 713.643 (1978) (except as noted below)  
5 CFR 713.701 thru 713.710 (March 24, 1978, 43 FR 12293)

The above-cited regulations will be codified at 29 CFR 1613.201 *et seq.*, effective January 1, 1979. The numbering of the sections will be preserved. All references to the "Commission" will be to the Equal Employment Opportunity Commission. The "Office of Appeals and Review" is substituted for all present references to the "Appeals Review Board."

To reflect the transfer of function § 713.232 has been amended (new § 1613.232) as follows:

§ 1613.232 Where to appeal.

The complainant shall file his appeal in writing, either personally or by mail, with the Director, Office of Appeals and Review, Equal Employment Opportunity Commission, 2401 E Street, N.W., Washington, D.C. 20056.

In addition, the EEOC has voted to continue in effect the substance of the following Federal Personnel Manual (FPM) Letters and Bulletins with respect to federal equal employment opportunity:

FPM Letter 713-19  
FPM Letter 713-21  
FPM Letter 713-30  
FPM Letter 713-40  
FPM Letter 713-32  
FPM Letter 713-36  
FPM Letter 713-38  
FPM Letter 713-42  
FPM Letter 713-44  
FPM Letter 551-9  
CSC Bulletin 713-50  
CSC Bulletin 713-43

These regulations and the FPM sections dealing with the complaint process will be applicable to the processing of all EEO Complaints except those raising an issue which is appealable to the Merit Systems Protection Board. Regulations relating to complaints involving both allegations of discrimination and issues appealable to the MSPB will be announced at a later date.

In addition, effective September 30, 1978, the Age Discrimination in Employment Act of 1967, as amended, was further amended to remove the upper age limit for protection for federal employees under the Act (the age limit had been age 70 for employees and age 65 for applicants).

Accordingly, in order to conform the regulations to the Age Discrimination in Employment Act Amendments of 1978 (Pub. L. 95-256), §§ 713.501(b)(4), 713.512, and 713.601(d) (new §§ 1613.501(b)(4), 1613.512, and 1613.601(d)) are revised as follow:

§ 1613.501 [Amended]

• • • • •  
(b) \* \* \* (4) This subpart applies to employees and applicants for employment who are at least 40 years of age.

§ 1613.512 Coverage.

The agency shall provide in its regulations for the acceptance of a complaint from any aggrieved employee or applicant for employment with the agency who believes that he or she has been discriminated against on account of age and who, at the time of the action complained of, was an employee or applicant for employment at least 40 years of age. A complaint may also be filed by an organization for the person with his or her consent.

§ 1613.601 [Amended]

• • • • •  
(d) "Age" is an inclusive term which means the age of at least 40 years. Interested persons should also refer to the Notices section in today's Fed-

ERAL REGISTER for the offices and addresses at the Equal Employment Opportunity Commission designated to receive particular documents required by the regulations.

Signed this fifteenth day of December, 1978.

ELEANOR HOLMES NORTON,  
Chair, Equal Employment  
Opportunity Commission.

The U.S. Civil Service Commission has no objection to the transfer of authority reflected herein.

ALAN K. CAMPBELL,  
Chairman.

[7630-01-M]

**Title 36—Parks, Forests and Public Property**

**CHAPTER IX — PENNSYLVANIA AVENUE DEVELOPMENT CORPORATION**

**PART 905—STANDARDS OF CONDUCT**

AGENCY: Pennsylvania Avenue Development Corporation.

ACTION: Final Rule.

**SUMMARY:** On October 19, 1978, the Pennsylvania Avenue Development Corporation published at 43 FR 48633 an interim rule establishing Standards of Conduct governing the conduct of its employees and special government employees. Interested parties were given an opportunity to comment on the rule and to submit their comments by November 7, 1978. The interim rule was approved by the Board of Directors of the Corporation at its meeting of September 20, 1978. No written comments were received on the interim rule. An oral comment was received.

After reviewing the interim rule as published, several editorial changes have been made in this final rule. These changes include the capitalization of certain letters, correction of misspellings, and correction of the Corporation's mailing address by the addition of its suite number.

A single substantive change has been made in the text as a result of the comment received. The definition of "employee," appearing in § 905.735-103(f), has been modified to reflect that a determination must be made as to whether certain Board Members are officers of employees or other governmental entities. If a Board Member is considered an officer or an employee by that entity, then the Member will be treated as such by the Corporation under this Part.

DATE: Effective date of final rule: December 18, 1978.

**FOR FURTHER INFORMATION CONTACT:**

David W. Briggs, Attorney, Office of the General Counsel [(202) 566-1078], Pennsylvania Avenue Development Corporation, 425 13th Street, N.W., Suite 1148, Washington, D.C., 20004.

Dated: December 19, 1978.

JOSEPH B. DANZANSKY,  
Chairman.

Accordingly, 36 CFR is amended by adding Part 905 to read as follows:

**PART 905—STANDARDS OF CONDUCT**

**Subpart A—General Provisions**

Sec.

- 905.735-101 Principles and purpose.
- 905.735-102 Adoption of regulations.
- 905.735-103 Definitions.
- 905.735-104 Applicability.
- 905.735-105 Designation of counselor.
- 905.735-106 Notification to employees and special Government employees.
- 905.735-107 Review of statements of employment and financial interests.
- 905.735-108 Remedial and disciplinary action.

**Subpart B—Conduct and Responsibilities of Employees**

- 905.735-201 General standards of conduct.
- 905.735-202 Gifts, entertainment, and favors.
- 905.735-203 Outside employment and other activity.
- 905.735-204 Disclosure of information.
- 905.735-205 Purchase of Government-owned property.

**Subpart C—Conduct and Responsibilities of Special Government Employees**

- 905.735-301 General standards of conduct.

**Subpart D—Special Standards Applicable to Certain Board Members**

- 905.735-401 Standards.
- 905.735-402 Advice and determination.

**Subpart E—Statements of Employment and Financial Interests**

- 905.735-501 Form and content of statements.
- 905.735-502 Statements of employment and financial interests by employees.
- 905.735-503 Statements of employment and financial interests by special Government employees.
- 905.735-504 Procedures for obtaining statements.
- 905.735-505 Confidentiality of statements.

AUTHORITY: E.O. 11222, 3 CFR, 1964-1965 Comp., p. 306; 5 CFR 735; section 6(5), Pub. L. 92-578, 86 Stat. 1270 (40 U.S.C. 875).

**Subpart A—General Provisions**

**§ 905.735-101 Principles and purpose.**

In order to assure that the business of the Pennsylvania Avenue Development Corporation is conducted effectively, objectively, and without improper influence or appearance thereof, all employees and special Government employees must observe unquestionable standards of integrity and conduct. Employees and special Government employees shall not engage in criminal, infamous, dishonest, immoral, or disgraceful conduct or other conduct prejudicial to the Government. All employees and special Government employees must avoid conflicts of private interest with their public duties and responsibilities. They must consider the propriety of any action in relation to general ethical standards of the highest order, so that public confidence in the integrity of the Government will not be impaired. Certain standards are set by law. Others are set by regulation and by policy. This part incorporates by reference applicable general standards of conduct and prescribes additional necessary elements. Taken together, this part constitutes the Corporation's regulations on this subject. Failure to observe any of the regulations in this part is cause for remedial action.

**§ 905.735-102 Adoption of regulations.**

Under the authority of 5 CFR 735.104(f), the Corporation adopts the following sections of the Civil Service Commission regulations on "Employee Responsibilities and Conduct" found in Part 735 of Title 5, Code of Federal Regulations: § 735.202(a), (d), (e), (f) through 735.210; 735.302; 735.303(a); 735.304; 735.305(a); 735.306; 735.404 through 735.411; and, 735.412(b) and (d). These sections are incorporated by reference in this part and are modified and supplemented as set forth herein.

**§ 905.735-103 Definitions.**

As used in this part:

- (a) "Board Member" means any member of the Board of Directors of the Pennsylvania Avenue Development Corporation, appointed or serving under section 3, Pub. L. 92-578, 86 Stat. 1267 (40 U.S.C. 872).
- (b) "Chairman" means the Chairman of the Board of Directors and President of the Corporation.
- (c) "Conflict" means the subordination of public responsibilities to private interests, and includes the appearance of such subordination.
- (d) "Consultant" means an individual who serves as an advisor to an officer or division of the Corporation, as distinguished from an officer or employee who carries out the agency's duties and responsibilities. He gives his views or opinions on problems or

questions presented him by the Corporation, but he neither performs nor supervises performance of operating functions. Ordinarily, he is expert in the field in which he advises, but he need not be a specialist. His expertness may lie in his possession of a high order of broad administrative, professional, or technical experience indicating that his ability and knowledge make his advice distinctively valuable to the agency. (Chapter 304, Federal Personnel Manual).

(e) "Corporation" means the Pennsylvania Avenue Development Corporation, created by the Pennsylvania Avenue Development Corporation Act of 1972, Pub. L. 92-578, 86 Stat. 1266 (40 U.S.C. 871).

(f) "Employee" means an officer or employee of the Corporation, but does not include a special Government employee as defined herein. The term includes those Board Members who are determined to be officers or employees of the executive or legislative branches of the United States or of the District of Columbia. The term does not include elected officials.

(g) "Executive Order" means Executive Order 11222 of May 8, 1965.

(h) "Expert" means a person with excellent qualifications and a high degree of attainment in a professional, scientific, technical, or other field. His knowledge and mastery of the principles, practices, problems, methods, and techniques of his field of activity, or of a specialized area in the field, are clearly superior to those usually possessed by ordinarily competent individuals in that activity. His attainment is such that he usually is regarded as an authority or as a practitioner of unusual competence and skill by other persons in the profession, occupation, or activity. (Chapter 304, Federal Personnel Manual.)

(i) "Head of the agency" means the Chairman.

(j) "Person" means an individual, a corporation, a company, an association, a firm, a partnership, a society, a joint stock company, or any other institution or organization.

(k) "Special Government Employee" means an officer or employee of the Corporation who is retained, designated, appointed or employed to perform, with or without compensation, for not more than 130 days during any period of 365 consecutive days, temporary duties either on a full time or intermittent basis (18 U.S.C. 202(a)). The term includes those Board Members who are appointed from private life and required to file a statement of financial interests with the Chairman of the Civil Service Commission pursuant to Part IV of the Executive Order, or who are determined to be special government employees of the executive or

legislative branches of the United States or the District of Columbia.

**§ 905.735-104 Applicability.**

This part applies to each employee and to each special Government employee of the Corporation as defined herein and supplements the Executive Order and Part 735 of Title 5, Code of Federal Regulations, promulgated by the Civil Service Commission on employee responsibilities and conduct.

**§ 905.735-105 Designation of counselor.**

In accordance with 5 CFR 735.105(a), the General Counsel of the Corporation is designated to be Ethics Counselor and shall serve as the Corporation's liaison with the Civil Service Commission for matters covered in this part.

**§ 905.735-106 Notification to employees and special Government employees.**

(a) At the time these regulations are published, or amended, and not less often than once annually thereafter, the Corporation shall furnish each employee and special Government employees with a copy of the regulations. The Administrative Officer shall insure that each newly hired employee and special Government employee is given a copy of these regulations prior to or at the time of entry on duty.

(b) All employees and special Government employees will be advised by the Corporation of the availability of counseling regarding the provisions of this part.

**§ 905.735-107 Review of statements of employment and financial interests.**

The Ethics Counselor of the Corporation shall review each statement of employment and financial interests submitted under §§ 905.735-402 or 905.735-403, except his own and those statements of special Government employees who file with the Chairman of the Civil Service Commission. When review discloses a conflict between the interests of an employee or special Government employee of the Corporation and the performance of his services for the Corporation, the Ethics Counselor shall bring the conflict to the attention of the employee or special Government employee, grant the individual an opportunity to explain the conflict, and attempt to resolve it. If the conflict cannot be resolved, the Ethics Counselor shall forward a written report on the conflict to the Chairman, recommending appropriate action. The Chairman shall review the report, solicit an explanation from the individual, and seek resolution of the conflict.

**§ 905.735-108 Remedial and disciplinary action.**

(a) In addition to any penalties prescribed by law, the Chairman, after review and consideration of any explanation given by an employee or special Government employee concerning a conflict of interest, may institute appropriate remedial action to resolve or otherwise eliminate the conflict. Appropriate remedial action may include, but is not limited to:

- (1) Divestment by the employee or the special Government employee of the conflicting interest;
  - (2) Disqualification of the individual from a particular assignment;
  - (3) Changes in the assigned duties of the individual; or
  - (4) Disciplinary action.
- (b) Where the situation warrants some form of disciplinary action, the Chairman may choose from a wide range including a warning or reprimand, suspension, reduction in grade or pay, or termination of employment. The disciplinary action selected should reflect the character and degree of the offense which demands such action and should be reasonable in light of that offense.
- (c) Remedial action, whether disciplinary or otherwise, shall be effected in accordance with applicable laws, Executive Orders, and regulations.

**Subpart B—Conduct and Responsibilities of Employees**

**§ 905.735-201 General standards of conduct.**

- (a) All employees shall conduct themselves on the job so as to efficiently discharge the work of the Corporation. Courtesy, consideration, and promptness are to be observed in dealing with the public, Congress, and other governmental agencies.
- (b) All employees shall conduct themselves off the job so as not to reflect adversely upon the Corporation or the Federal service.
- (c) Employee conduct shall exemplify the highest standards of integrity. Employees shall avoid any action, whether or not specifically prohibited by this part, which might result in, or create the appearance of:
  - (1) Using public office for private gain;
  - (2) Giving preferential treatment to any person;
  - (3) Impeding Government efficiency or economy;
  - (4) Losing complete independence or impartiality;
  - (5) Making a Government decision outside official channels; or
  - (6) Affecting adversely the confidence of the public in the integrity of the Government.

**§ 905.735-202 Gifts, entertainment, and favors.**

Pursuant to paragraph (b) of 5 CFR 735.202, the following exceptions to the restriction of paragraph (a) of that section are authorized. Employees may:

- (a) Accept gifts and other things of value under circumstances which arise from an obvious family or personal relationship(s) (such as between the parents, children, or spouse of the employee and the employee), when the circumstances make it clear that it is those relationships rather than the business of the persons concerned which are the motivating factors;
- (b) Accept food and refreshments of nominal value on infrequent occasions in the ordinary course of a luncheon, dinner, or other meeting, or on an inspection tour where an employee may properly be in attendance;
- (c) Accept loans from banks or other financial institutions on customary terms to finance proper and usual activities of employees, such as home purchase;
- (d) Accept unsolicited advertising or promotional materials, such as pens, pencils, note pads, calendars and other items of nominal intrinsic value;
- (e) Participating without payment in privately funded activities in the Washington metropolitan area if: (1) An invitation is addressed to the Chairman or Executive Director of the Corporation and approved by either of them; (2) no provision for individual payment is readily available; and (3) the activities are limited to ceremonies of interest to both the local community and the Corporation (such as ground breakings or openings), or are sponsored or encouraged by the Federal or District Government as a matter of policy; and,
- (f) Participate in widely attended lunches, dinners, and similar gatherings sponsored by industrial, commercial, technical and professional associations, or groups, for discussion of matters of interest both to the Corporation and the public. Participation by an employee at the host's expense is appropriate if the host is an association or group and not an individual.

**§ 905.735-203 Outside employment and other activity.**

As provided in 5 CFR 735.203, an employee of the Corporation may engage in outside employment or other outside activity not incompatible with the full and proper discharge of the duties and responsibilities of his Government employment. An employee who proposes to engage in outside employment shall report that fact in writing to his supervisor prior to undertaking such employment.

**§ 905.735-204 Disclosure of information.**

(a) Every employee who is involved in the development, maintenance or use of Corporation records containing information about individuals shall familiarize himself with the requirements and penalties of the Privacy Act of 1974 (5 U.S.C. 552a) and Corporation regulations (36 CFR Part 903) promulgated thereunder concerning the utilization of and access to such records.

(b) Every employee is directed to cooperate to the fullest extent possible in discharging the requirement of the Freedom of Information Act (5 U.S.C. 522) and Corporation regulations promulgated thereunder (36 CFR Part 902). Every effort should be made to furnish service with reasonable promptness to persons who seek access to Corporation records and information.

**§ 905.735-205 Purchase of Government-owned property.**

Employees of the Corporation and members of their immediate families may purchase Government-owned personal property when it is offered for sale by the General Services Administration or any Federal agency other than the Corporation (41 CFR 101-45.302).

**Subpart C—Conduct and Responsibilities of Special Government Employees****§ 905.735-301 General standards of conduct.**

(a) Special Government employees of the Corporation shall adhere to applicable regulations adopted under § 904.735-102, except 5 CFR 735.203(b). In addition, the standards of conduct set forth in §§ 905.735-201, 204, and 205 shall apply to special Government employees.

(b) Special Government employees of the Corporation may teach, lecture, or write consistent with the provisions of 5 CFR 735.203(c).

(c) Pursuant to 5 CFR 735.305(b), the provisions concerning gifts, entertainment, and favors set forth in § 905.735-202 are hereby made applicable to special Government employees.

**Subpart D—Special Standards Applicable to Certain Board Members****§ 905.735-401 Standards.**

Section 3(c)(8) of the Pennsylvania Avenue Development Corporation Act of 1972, Pub. L. 92-578, 86 Stat. 1287 (40 U.S.C. 872(c)(8)) specifies that the eight members appointed to the Board by the President from private life, at least four of whom shall be residents of the District of Columbia, "shall have knowledge and experience in one

or more fields of history, architecture, city planning, retailing, real estate, construction or government." As a result of these prerequisites for appointment of a private member to the Board of Directors, conflicts could arise for these Board Members as the Corporation proceeds with various development activities. Accordingly, Board Members should perform their responsibilities for the operation and management of the Corporation consistent with these regulations, and other applicable Federal laws and regulations, and consistent with the highest level of fiduciary responsibility.

**§ 905.735-402 Advice and determination.**

The Corporation's Ethics Counselor is readily available for consultation when a Board Member seeks advice as to the appropriateness of his actions in light of this part, the Executive Order, or Title 18, United States Code, Chapter 11. A Board Member has an affirmative duty to advise the Ethics Counselor of any potential conflict of interest which may arise with the individual's participation in any particular matter before the Corporation. If advised to do so, the Board Member should submit to the Chairman for determination the question of whether or not the conflict will disqualify the Board Member from participating in the action to be taken by the Corporation. Under the authority delegated to the Chairman pursuant to 18 U.S.C. 208(b), the Chairman may find that the Board Member need not be disqualified from participating in the particular matter, if: (a) The Board Member makes a full disclosure of the financial interest; and (b) the Chairman furnishes him with a written determination in advance of the action that the interest is not so substantial as to be deemed likely to affect the integrity of the services which the Government may expect from the Board Member. Requests for similar determinations for conflicts posed by the financial interests of the Chairman himself shall be submitted to the Chairman of the Civil Service Commission.

**Subpart E—Statements of Employment and Financial Interests****§ 905.735-501 Form and content of statements.**

Statements of employment and financial interests required to be submitted under this subpart by employees and special Government employees shall contain the information required in the formats prescribed by the Civil Service Commission in the Federal Personnel Manual.

**§ 905.735-502 Statements of employment and financial interests by employees.**

(a) Employees of the Corporation in the following named positions shall prepare and submit statements of employment and financial interests:

- (1) Executive Director;
- (2) Assistant Director Legal—General Counsel;
- (3) Assistant Director/Finance;
- (4) Development Director;
- (5) Secretary of the Corporation Administrative Officer;
- (6) Construction Manager;
- (7) Senior Architect/Planner;
- (8) Chief, Real Estate Operations;
- (9) Any Contracting Officer of the Corporation; and
- (10) Any employee classified as a GS-13 or above whose duties and responsibilities are such that the ethics counselor determines a statement should be filed.

(b) Each statement of employment and financial interests required by this section, except that of the General Counsel, shall be submitted to the Ethics Counselor, Office of the General Counsel, Pennsylvania Avenue Development Corporation, 425 13th Street NW., Suite 1148, Washington, D.C. 20004. The General Counsel, as Ethics Counselor, shall submit his statement directly to the Chairman for review.

(c) An employee who believes that his position has been improperly included in this section as one requiring the submission of a statement of employment and financial interests may obtain a review of this determination upon a written request to the Chairman.

**§ 905.735-503 Statements of employment and financial interests by special Government employees.**

All special Government employees shall submit a statement of employment and financial interest prior to beginning employment or service with the Corporation. Each statement shall be submitted to the Ethics Counselor, Office of the General Counsel, Pennsylvania Avenue Development Corporation, 425 13th Street, NW., Suite 1148, Washington, D.C. 20004, except that the statements of Board Members appointed from private life shall be filed with the U.S. Civil Service Commission.

**§ 905.735-504 Procedures for obtaining statements.**

(a) Upon the adopting of the regulations of this part, the Ethics Counselor shall deliver to the incumbent of each position named in § 905.735-402 and to each special Government employee, two copies of the appropriate form for filing a statement of employment and financial interests. An enclosure with the forms shall advise that:

(1) The original of the completed form must be returned in a sealed envelope, marked "Personal—In Confidence," to the Ethics Counselor within the time specified by the Ethics Counselor;

(2) The services of the ethics counselor are available to advise and assist in preparation of the statement;

(3) Any additions or deletions to the information furnished must be reported in a supplementary statement at the end of the calendar quarter in which the change occurs; or in the case of a special Government employee, at the time the change occurs; and

(4) No later than June 30 of each year, all special Government employees and employees required to file under § 905.735-402(a) shall file an annual supplementary statement to update the information previously filed.

(b) The Administrative Officer shall be responsible for assuring that a completed statement of employment and financial interests is obtained from each special Government employee prior to the beginning of employment or service with the Corporation. The Administrative Officer shall promptly forward the statements to the Ethics Counselor for review.

**§ 905.735-505 Confidentiality of statements.**

The Ethics Counselor shall hold in confidence each statement of employment and financial interests, and each

supplementary statement within his control. Access to or disclosure of information contained in these statements shall not be allowed, except as the Commission or the Ethics Counselor determine for good cause shown, consistent with the Privacy Act of 1974 (5 U.S.C. 552a), and the regulations and pertinent notices of systems of records prepared by the Civil Service Commission and the Corporation in accordance with that Act.

**Title 39—Postal Service****CHAPTER I—UNITED STATES POSTAL SERVICE****SUBCHAPTER B—INTERNATIONAL MAIL****PART 10—INTERNATIONAL EXPRESS MAIL RATES****Rates**

AGENCY: Postal Service.

ACTION: Final International Express Mail Rates.

SUMMARY: The Postal Service is beginning International Express Mail Service with the Republic of China (Taiwan), Singapore, and the Federal Republic of Germany (West Germany) at rates indicated in the tables below. Rates to the Federal Republic of Ger-

many are the same as those charged to other European countries. Rates for the Republic of China (Taiwan) and Singapore are new.

EFFECTIVE DATE: The International Express Mail Service rates for the Republic of China (Taiwan) are effective December 27, 1978. The International Express Mail Service rates for Singapore and the Federal Republic of Germany (West Germany) are effective January 1, 1979.

**FOR FURTHER INFORMATION CONTACT:**

Patricia M. Gibert, (202) 245-5624.

SUPPLEMENTARY INFORMATION: On December 5, 1978, the Postal Service published for comment in the Federal Register proposed rates of postage for International Express Mail. 43 FR 56959. Interested persons were invited to submit written data, views, or arguments concerning these rates. However, no comments were received. Accordingly, the Postal Service adopts without change the rates of postage for International Express Mail set out in the following tables (designated Tables 8-3, 8-11, 8-12, 8-13, and 8-14) for inclusion in publication 42, International Mail, incorporated by reference, 39 CFR 10.1.

(39 U.S.C. 401, 403, 404(a)(2), 407, 410(a); Universal Postal Convention, Lausanne, 1974, T.I.A.S. No. 8231, Art. 6.)

W. ALLEN SANDERS,  
Assistant General Counsel.

## Title 46—Shipping

### CHAPTER II—MARITIME ADMINISTRATION DEPARTMENT OF COMMERCE

#### SUBCHAPTER D—VESSEL FINANCING ASSISTANCE

#### PART 298—OBLIGATION GUARANTEES

#### Revision of Part

AGENCY: Maritime Administration, Commerce.

ACTION: Final Rule.

**SUMMARY:** The rule hereby adopted is a revision of the regulations relating to the operation of the program of Obligation Guarantees (Title XI program) authorized by Title XI of the Merchant Marine Act, 1936, as amended (the Act), 46 U.S.C. 1271-1279. The revision conforms the regulations to reflect and implement the extensive technical changes in the program effected by the Federal Ship Financing Act of 1972, P.L. 92-507, amending Title XI of the Act. While Title XI of the Act is applicable to financing assistance for all types of Vessel construction, that part of the Title XI program related to fishing Vessels is administered by the National Oceanic and Atmospheric Administration of the Department of Commerce, (NOAA), pursuant to NOAA regulations, which appear at 50 CFR Part 255.

**EFFECTIVE DATE:** December 29, 1978.

**FOR FURTHER INFORMATION CONTACT:**

Gerard E. Neumann, Director,  
Office of Ship Financing Guarantees,  
Telephone 202-377-3773.

**SUPPLEMENTARY INFORMATION:** On October 8, 1976, the Maritime Administration (MarAd) published in the FEDERAL REGISTER a proposed rule (41 FR 44408) to revise 46 CFR Part 298. The purpose is to provide comprehensive regulations relating to eligibility and other requirements for vessel financing assistance in the form of Obligation Guarantees, authorized by Title XI of the Act, as amended by the Federal Ship Financing Act of 1972.

#### DISCUSSION OF COMMENTS— MODIFICATIONS

MarAd received 24 written comments. All of these comments were considered in adopting the final revision of Part 298.

Nine of the comments recommended the inclusion of a "general waiver" or "general modification" provision, which would allow MarAd greater flexibility in approving Title XI guarantees for a project that does not meet one or more specific requirements in the regulations, but otherwise meets the statutory requirements. This recommendation has not been adopted. The principal purpose for the revision of these regulations has been to inform interested potential participants in the Title XI program of specific requirements and standards that will be applied to determine initial eligibility for Title XI Guarantees and conditions that will be imposed thereafter on participants for continuing the Guarantees. The regulations specifically grant discretion to the Secretary in numerous provisions where MarAd has anticipated the need for greater flexibility.

Some changes have been made in the definitions for purposes of clarification (§ 298.2). "Actual Cost" is now defined exactly as in § 1101(f) of the Act. "Depreciated Actual Cost" has been included in the definitions rather than in § 298.21. The functions of an "Indenture Trustee" have been set forth in more detail.

With respect to the filing of applications (§ 298.3), examples of required information have been included and provision has been made for amendment of an application. A guideline of 120 days has been substituted for the specific time requirement for the filing of a completed application, "in order to afford the Secretary sufficient time for adequate review of the application," and a similar guideline (at least six weeks prior to the anticipated Closing) has been included with respect to timely submission of the Documentation to the Secretary for review. The requirement for compliance with the "guidelines for Documentation" has been deleted.

Establishing citizenship (§ 298.10) has been made applicable only to bareboat charters and charters other than bareboat charters exceeding the time set forth in Part 221, and has been withdrawn as a requirement for shipbuilders unless the shipbuilder becomes the shipowner upon delivery of the Vessel.

Under Vessel requirements (§ 298.11), paragraph (b) has been given a new caption to reflect its emphasis—"Actual Cost"—whether accomplished through solicitation of competitive bids or through negotiation. The Secretary may require the applicant to submit additional technical data, backup cost details and other evidence where considered necessary to make a determination of the estimated actual cost. The requirement for Vessel inspection and certification

by the Coast Guard has been limited to Vessels carrying passengers or freight, in accordance with the applicable Coast Guard regulations, if any. The requirement that reconstruction or reconditioning of a Vessel must increase the Vessel's useful life by at least five years has been eliminated.

Financial requirements (§ 298.13) contain financial definitions only for purposes of that section and §§ 298.35 and 298.42. The definitions of "Working Capital" has been modified as it relates to current liabilities, which shall be increased by "one-half of the annual payment of all charter hire and other lease obligations (having a term of more than six months)", rather than by the amount of "Rentals", and shall be reduced by "any excess of untermated voyage expense over untermated voyage revenue." The definition of "Deferred Lease Hire" has been substituted for the definition of "Rentals". The authority of the Secretary to waive or modify requirements has been extended to encompass the financial "terms" (definitions), upon determining that there is "adequate security for the Guarantees", in lieu of the requirement that the Secretary make a specific determination that there is "substantial security in addition to that usually required in the Security Agreement".

Obligations secured by multiple Vessels may have a maturity date not later than twenty-five years from the delivery date of the last Vessel, and the condition imposed on the applicant to reduce the amount of Obligations below the maximum allowed under the Act has been deleted from the proposed language (§ 298.20). The required redemption provision will be invoked to maintain adequate security for the Guarantees where the Secretary considers such action to be necessary. No procedural rules or expansion of criteria have been adopted as guidelines for the Secretary's required determination that the interest rate is reasonable, as has been recommended by five of those submitting comments. In this regard, incorporating the language of § 1104(b)(5) of the Act in the regulations was intended to allow the Secretary to exercise broad discretion in considering all relevant factors, not only those specifically required to be considered. No provision has been made to allow a variable interest rate.

A provision has been added to state that where eligibility for Guarantees up to 87½ percent of Actual Cost is dependent upon satisfaction of a minimum horsepower for the main engine, the standard shall be continuous rated horsepower (§ 298.21). Eight of the comments received contained recommendations that consideration be given to expanding the items that are

includible in Actual Cost, upon which the limit for the Guarantees is based, e.g., legal and accounting fees, amounts paid for arranging financing, underwriting or trustee fees, the cost of shoreside spare parts and payments for early delivery. The cost of shoreside spare parts has been specifically included as an Actual Cost item. The exclusion of any amount payable to the shipyard for early delivery has been qualified by use of the word "generally", thus allowing the Secretary some discretion to allow this item where considered appropriate. After careful consideration of the merits of removing or qualifying the exclusion of other items, the decision has been made to reject the recommendations, principally because the determination that the amounts result from arms length transactions of business, poses a considerable administrative burden. With respect to escalation as part of Actual Cost, the examples of indices to be used have been deleted, in deference to comments that they are of little value.

The section on Refinancing (§ 298.23) has been substantially rewritten to clarify the circumstances under which debt incurred more than one year after the delivery or redelivery of a related Vessel may be refinanced. The provisions requiring that the refinancing result in a reduced average annual interest payment of at least 20 percent provoked critical responses from 12 of those submitting comments. In view of the compelling arguments showing the economic advantages of refinancing, aside from significant reduction in the annual average interest payment, this requirement has been eliminated.

MarAd has given careful consideration to comments stating that our interpretation of "facilities and equipment related to marine operations", that may be financed with the proceeds from Obligations, is unduly restrictive and contrary to clear legislative intent. (§ 298.24). MarAd rejects as unreasonable an expansive interpretation of the term "port facilities" that would include permanent or semipermanent structures and real estate.

The prohibition against the payment of excess interest or other consideration has been redrafted more precisely, consistent with a recommendation in the submitted comments (§ 298.26). It applies only to the payment of any consideration, in the nature of interest, which is in excess of the rate approved by the Secretary, as well as to the grant of any security other than the Guarantees. The requirement that the Secretary approve any lease payments has been restricted to lease or charter hire payment for a Vessel that is security for the Obligations, if payment of principal and

interest on the Obligations would in any way be dependent upon the proceeds from such lease or charter hire (§ 298.27). This is a specific part of the analysis made by the Secretary in determining an economic soundness, described in § 298.14.

The section relating to conditions of the Mortgage (§ 298.31) had been made more flexible with respect to provision in the Fleet Mortgage for payment of the Obligations in the event of constructive total loss, requisition of title or sale of any Vessel covered by the Fleet Mortgage. The Secretary is given discretion to discharge the vessel from the Mortgage lien, without requiring payment of the related Obligations, upon determining that adequate security remains for the Guarantees.

The Escrow Fund section (§ 298.33) has been restructured with respect to principal deposit requirements. The rules for allocating Obligations proceeds on an individual vessel basis, where multiple vessels are security for the Guarantees, has been liberalized by allowing allocation to specific vessels. This modification is in response to critical comments that the required allocation to all vessels is inconsistent with the intent of § 1108(a) of the Act and would unfairly restrict withdrawals from the Escrow Fund under some circumstances. The provision for interest deposit has been clarified to state that the basis for calculation shall reflect the principal and interest, if any, remaining on deposit in the Escrow Fund. With respect to disbursements to the Obligor from the fund, the request must be made "no later", rather than "no earlier", than 30 days after the interest payment due date.

The Reserve Fund and Financial Agreement provisions have been modified slightly (§ 298.35). The test of whether a Company no longer meets the alternative financial requirements, so as to become subject to additional covenants, is made after including the "annual financial liability related to the Obligations as a current liability in computing Working Capital," a general description of such liability applicable to any participant in the project subject to financial requirements. Whenever a Company's financial condition improves so that it meets the primary financial requirements the Company may elect to be subject to the covenants applicable to a Company that had satisfied these requirements at Closing, with the consent of the Secretary, rather than be required to promptly inform the Secretary of the change in condition. Title XI Reserve Fund Net Income of a Company required for Reserve Fund deposits shall be computed within 105 days after the end of the accounting year, a change from a 90 day requirement. In

making the computation, the numerator of the ratio shall be the total original capitalized cost of all Company Vessels "(whether leased or owned)."

The rules for determining the variable rate of Guarantee Fee (§ 298.36) after Vessel delivery have been redrafted to be consistent with the structure of the rules relating to the determination of the variable rate prior to delivery. In response to criticisms that the Examination and Audit authority of the Secretary was too broad in its application, it has been restricted to books and records "which pertain directly to the project, of the Obligor, bareboat charterer, time charterer or any other Person who has control of or a financial interest in a Vessel, as well as records of Affiliates and domestic agents connected with such Persons."

Periodic reporting requirement with respect to auditing (§ 298.42) has been modified to specify that the auditors must be independent certified public accountants or licensed public accountants "Licensed to practice by the regulatory authority of a state or other political subdivision of the United States". The required annual financial report shall be due within 105 days after the close of each fiscal year of the company, rather than 90 days.

This revision of Part 298 has been reviewed in accordance with Executive Order 12044, "Improving Government Regulations" (43 FR 12661, March 24, 1978), Department of Commerce Administrative Order 218-7, "Issuing Government Regulations" and the Maritime Administration implementing procedures, and a determination has been made that a regulatory analysis is not required.

Accordingly, Part 298 of Title 46, Code of Federal Regulations is revised to read as follows:

## PART 298—OBLIGATION GUARANTEES

### Subpart A—Introduction

- Sec.  
298.1 Purpose.  
298.2 Definitions.  
298.3 Applications.

### Subpart B—Eligibility

- 298.10 Citizenship.  
298.11 Vessel requirements.  
298.12 Operator's qualifications.  
298.13 Financial requirements.  
298.14 Economic soundness.  
298.15 Investigation Fee.  
298.16 Substitution of participants.

### Subpart C—Guarantees

- 298.20 Term, redemptions and interest rate.  
298.21 Limits.  
298.22 Amortization of Obligations.  
298.23 Refinancing.

- 298.24 Financing facilities and equipment related to marine operations.  
298.25 Financing repayment of construction-differential subsidy.  
298.26 Excess interest or other consideration.  
298.27 Lease payments.  
298.28 Advance of principal payments on the Obligations.

### Subpart D—Documentation

- 298.30 Nature and content of Obligations.  
298.31 Mortgage.  
298.32 Required provisions in Documentation.  
298.33 Escrow Fund.  
298.34 Construction Fund.  
298.35 Reserve Fund and Financial Agreement.  
298.36 Annual Guarantee Fee.  
298.37 Examination and audit.

### Subpart E—Defaults and Remedies, Reporting Requirements, Applicability of Regulations

- 298.40 Defaults.  
298.41 Remedies after default.  
298.42 Reporting requirements—financial statement.  
298.43 Applicability of regulations.

### Subpart F—Administration [Reserved]

**AUTHORITY:** Part 298 is issued pursuant to §§ 204(b) and 1109, Merchant Marine Act, 1936, as amended (46 U.S.C. 1114(b), 1279(b)), Reorganization Plans No. 21 of 1950 (64 Stat. 1273), and No. 7 of 1961 (75 Stat. 840), as amended by P.L. 91-469 (84 Stat. 1036), and Department of Commerce Organization Order 10-9 (36 FR 19707, July 23, 1973).

### Subpart A—Introduction

#### § 298.1 Purpose.

This part prescribes regulations implementing the provisions of Title XI of the Merchant Marine Act, 1936, as amended by P.L. 92-507 (46 U.S.C. 1271-1279), governing Federal ship financing assistance.

#### § 298.2 Definitions.

For the purpose of this part—

(a) "Act" means the Merchant Marine Act, 1936, as amended (46 U.S.C. 1101-1294).

(b) "Actual Cost" of a Vessel means, as of any specified date, the aggregate, as determined by the Secretary, of all amounts paid by or for the account of the Obligor on or before that date and all amounts which the Obligor is then obligated to pay from time to time thereafter, for the construction, reconstruction or reconditioning of such Vessel (described in § 298.21(b)).

(c) "Affiliate" or "Affiliated" means, any Person directly or indirectly controlling, controlled by or under common control with another Person.

(d) "Closing" means a meeting of various participants or their representatives in a Title XI financing, at which a commitment to issue Guarantees is executed, or at which all or part of the Obligations are authenticated

and issued and the proceeds are made available for a purpose set forth in section 1104(a) of the Act, or at which a Vessel is delivered and a Preferred Mortgage is executed as security to the Secretary.

(e) "Depository" means a bank or other financial institution organized and doing business under the laws of the United States, any State or territory thereof or the District of Columbia, which is authorized under such laws to exercise corporate trust powers, is a member of the Federal Deposit Insurance Corporation and accepts deposits for purposes of implementing the program authorized by Title XI of the Act.

(f) "Depreciated Actual Cost" of a Vessel means the Actual Cost of the Vessel, as defined in subsection (b) of this section (less a residual value of 2½ percent of United States shipyard construction cost), depreciated on a straightline basis over the useful life of the Vessel as determined by the Secretary, not to exceed twenty-five years from the date the Vessel was delivered by the shipbuilder or, if the Vessel has been reconstructed or reconditioned, the Actual Cost of the Vessel depreciated on a straightline basis from the date the Vessel was delivered by the shipbuilder to the date of such reconstruction or reconditioning, on the basis of the original useful life of the Vessel, and from the date of said reconstruction or reconditioning on a straightline basis and on the basis of a useful life of the Vessel determined by the Secretary, plus all amounts paid or obligated to be paid for the reconstruction or reconditioning, depreciated on a straightline basis and on the basis of a useful life of the Vessel determined by the Secretary.

(g) "Documentation" means all or part of the agreements relating to an entire Title XI financing which must be furnished to the Secretary, irrespective of whether the Secretary is a party to each agreement.

(h) "Guarantee" means the contractual commitment of the United States of America, represented by the Secretary, endorsed on each Obligation, to make payment to the Obligor or an agent, upon demand, of the unpaid interest on, and the unpaid balance of the principal of such Obligation, including interest accruing between the date of default (described in § 298.40 of this part) and the date of payment.

(i) "Guarantee Fee" means the annual fee payable to the Secretary in consideration for the continuing Guarantees.

(j) "Indenture Trustee" means a bank with corporate trust powers or a trust company with a combined capital and surplus of at least \$3,000,000, which has duties under the terms of a Trust Indenture, entered into with the

Obligor, providing for the issuance and registration of the ownership and transfer of Obligations, the disbursement of funds held in trust by the Indenture Trustee for the redemption and payment of interest and principal with respect to Obligations, demands by the Indenture Trustee for payment under the Guarantees in the event of default and the remittance of payments received to the Obligor. Pursuant to a specific authorization of the Secretary, the Indenture Trustee may also authenticate the Guarantees.

(k) "Letter Commitment" means a letter from the Secretary to an applicant for Guarantees, setting forth specific determinations made by the Secretary with respect to the applicant's proposed project, as required by the Act and regulations of this part, and stating the Secretary's commitment to execute Guarantees, subject to compliance by the applicant with any conditions specified therein.

(l) "Maritime Administration" means that agency created within the Department of Commerce by Reorganization Plan No. 21 of 1950 (64 Stat. 1273), amended by Reorganization Plan No. 7 of 1961 (75 Stat. 840), as amended by P.L. 91-469 (84 Stat. 1036).

(m) "Mortgage" includes a Preferred Mortgage as defined in the Ship Mortgage Act, 1920, as amended, on any vessel of the United States (other than a towboat, barge, scow, lighter, car float, canal boat, or tank vessel of less than twenty-five gross tons), and a mortgage on such a vessel which will become a Preferred Mortgage when recorded and endorsed as required by the Ship Mortgage Act, 1920, as amended.

(n) "Obligation" means any note, bond, debenture, or other evidence of indebtedness, as defined in section 1101(c) of the Act, issued for one of the purposes specified in section 1104(a) of the Act.

(o) "Obligor" means the holder of an Obligation.

(p) "Obligor" means any party primarily liable for payment of principal of or interest on any Obligation.

(q) "Paying Agent" means any Person appointed by the Obligor to pay the principal of or interest on the Obligations on behalf of the Obligor.

(r) "Person" means any individual, estate, foundation, corporation, partnership, limited partnership, joint venture, association, joint-stock company, trust, unincorporated organization, government, or any agency or political subdivision thereof.

(s) "Preferred Mortgage" means a Mortgage which is recorded, endorsed and otherwise in compliance with the requirements of the Ship Mortgage Act, 1920, as amended (46 U.S.C. 911-984).

(t) "Secretary" means the Secretary of Commerce, acting by and through the Assistant Secretary of Commerce for Maritime Affairs, the Maritime Administrator or any official of the Maritime Administration to whom is duly delegated the authority, from time to time, to perform the functions of the Secretary of Commerce or the Assistant Secretary of Commerce for Maritime Affairs.

(u) "Secretary's Note" means a promissory note from the Obligor to the Secretary in an amount equal to the aggregate amount of the Obligations, which is issued simultaneously with the Guarantees.

(v) "Security Agreement" means the primary contract between the Obligor and the Secretary, providing for the transfer to the Secretary by the Obligor of all right, title and interest of the Obligor in certain described property (including rights under contracts in existence or to be entered into), and containing other provisions relating to representations and responsibilities of the obligor to the Secretary as security for the issuance of Guarantees.

(w) "Vessel" means all types of vessels, whether in existence or under construction, including passenger-cargo and combination passenger-cargo carrying vessels, tankers, towboats, barges and dredges which are or will be documented under the laws of the United States, floating drydocks which have a capacity of at least thirty-five thousand or more lifting tons and a beam of one hundred and twenty-five feet or more between the wing walls and oceanographic research or instruction or pollution treatment, abatement or control vessels, which are owned by citizens of the United States.

#### § 298.3 Applications.

(a) *Content and Amendment.* Each application for a commitment to execute Guarantees shall be made on Form MA 163 to the Secretary, Maritime Administration, United States Department of Commerce, Washington, D.C. 20230, and be certified in the manner prescribed on said form. All required information, including copies of any demise charters, time charters in excess of six months, contracts of affreightment, drilling contracts or other contractual arrangements with respect to the Vessel or Vessels, shall be presented on the form or in exhibits and schedules submitted with the application. Each exhibit and schedule shall contain a statement, on the first page thereof, clearly identifying the document as an attachment to an application for Obligation Guarantees, stating the name of the applicant and the date of the application. Any amendment of data contained in the application filed shall be marked

"Amendment," and shall contain a statement on the first page thereof, clearly identifying the document as an amendment to an application for Obligation Guarantees, stating the name of the applicant and the date of application. The certification required on Form MA 163 shall be affixed to each amendment. The Secretary will not process the application until the applicant has submitted substantially all required information.

(b) *Time requirements.* Each application should be submitted to the Maritime Administration sufficiently prior to the anticipated date by which the applicant requires a Letter Commitment, in order to afford the Secretary sufficient time for adequate review of the application. It usually takes the Secretary at least 120 days to process an application and issue a Letter Commitment. An applicant to whom a Letter Commitment has been issued shall submit four sets of the Documentation to the Secretary for review. The Documentation should be submitted to the Secretary for review sufficiently prior to the anticipated Closing to afford the Secretary time to complete an adequate review of the Documentation. In most instances, at least six weeks should be allotted for the review of the Documentation. The applicant should utilize the standard form of Documentation which will be provided by the Secretary when, in the opinion of the Secretary, there is a reasonable degree of certainty that a Letter Commitment will be issued.

(c) *Filing Fee.* Each application must be accompanied by a filing fee in the amount of \$1,000, which will be non-refundable, irrespective of whether the Secretary subsequently issues a Letter Commitment.

(d) *Confidential Information.* If the application, including attachments thereto, contains information which the applicant considers to be trade secrets or commercial or financial information and privileged or confidential, or otherwise exempt from disclosure under the Freedom of Information Act (5 U.S.C. 552), the applicant shall assert a claim of exemption at the time of application. The same requirement shall apply to any amendment to the application. If no claim of exemption is made when the application or amendment is filed, the Maritime Administration shall not oppose any request subsequently made for disclosure, pursuant to the Freedom of Information Act (FOIA), of any information contained in the application. The following procedures shall apply with respect to the assertion and review of FOIA exemption claims:

(1) *Form and bases for claim.* Any claim of exemption shall be made in a memorandum or letter contained in a sealed envelope marked "Confidential

Information," addressed to the Secretary, Maritime Administration, and shall be subscribed by the applicant, or with respect to a corporate applicant, by a responsible corporate officer of the applicant. The applicant shall specifically and separately designate each part of the application, including attachments or amendments thereto, to which exemption from disclosure is claimed by noting "Confidential Information" thereon, and shall place each page in the sealed envelope. The applicant shall state in the memorandum or letter the bases, in detail, for each assertion of exemption, including but not limited to statutory and decisional authority.

(2) *Determination and advice.* The Secretary, Maritime Administration, shall make a determination as to any claim of exemption made by the applicant, pursuant to the preceding paragraph. If the Secretary, Maritime Administration, makes a determination unfavorable to the applicant as to any item of information in the application or amendment, the applicant will be advised that the Maritime Administration will not honor the request for confidentiality in the event of any request for production of such information made pursuant to the Freedom of Information Act.

(3) *Return of information.* If a determination unfavorable to the applicant is made as to any item of information in the application or amendment, the applicant will be advised that unless a request for return of such information is made by registered mail to the Secretary, Maritime Administration, postmarked within 30 days of the date of the letter advising the applicant of the unfavorable determination, the information shall be associated with the balance of the application for processing, and shall be subject to disclosure by the Maritime Administration upon receipt of any request for disclosure under the Freedom of Information Act. If a request for return of information is made, the Maritime Administration will retain no copies of such information, and will process the application based only on the information that has not been returned.

#### Subpart B—Eligibility

##### § 298.10 Citizenship.

(a) *Applicability.* Prior to acquiring a legal or beneficial interest in a Vessel financed under Title XI of the Act, the applicant and any other Person, (including, but not limited to settlers, owner trustees, owner participants, bareboat charterers and such charterers other than bareboat charterers whose charter exceeds the blanket approval period provided for in Part 221 of this Title 46), shall establish its United States citizenship, within the meaning of section 2 of the

Shipping Act, 1916, (1916 Act), as amended, (46 U.S.C. 801-852), sections 37 and 38 of the Merchant Marine Act, 1920, as amended, (46 U.S.C. 861-889), and, as applicable, section 905(c) of the Act, unless the Secretary approves a non-citizen participation under the authority of sections 9 and 41 and Section 37, as applicable, of the 1916 Act. The Secretary will not approve an application providing for ownership of such Vessel by, or bareboat chartering of such Vessel to, a non-U.S. citizen. See also Part 221 of this Title 46 concerning the documentation, transfer or charter of vessels to non-U.S. citizens. Citizenship may also be required of any Person who does not have a legal or beneficial ownership in the Vessel if such Person is the operator or has authority to direct the operation of the Vessel on behalf of the Shipowner.

(b) *Prior to Letter Commitment.* The applicant and any Person identified in paragraph (a) of this section, who is required to establish United States citizenship shall, prior to the issuance of the Letter Commitment, establish United States citizenship in form and manner prescribed in 46 CFR Part 355.

(c) *After Letter Commitment.* Any Person who has become identified with the project, for a reason indicated in paragraph (a) of this section, and who has not previously established United States citizenship within the prior twelve calendar months, promptly shall establish its United States citizenship in the form and manner prescribed in 46 CFR Part 355.

(d) *Supplemental proof.* Unless otherwise waived by the Secretary for good cause, at least 10 days prior to every Closing, all Persons identified with the project who have previously established United States citizenship in accordance with paragraphs (a) and (c) of this section shall submit pro forma Supplemental Affidavits of Citizenship which have previously been approved as to form and substance by the Secretary, and on the date of such Closing such Persons shall submit to the Secretary three executed copies of such Supplemental Affidavits of Citizenship evidencing the continuing United States citizenship of such Persons bearing the date of such Closing.

##### § 298.11 Vessel requirements.

Each Vessel to be constructed, reconstructed or reconditioned and financed by issuance of Guarantees shall meet the following criteria:

(a) *United States construction.* The Vessel shall be constructed, reconstructed or reconditioned entirely in a shipyard or shipyards of the United States, within the meaning of section 505 of the Act, and, where practicable, only from articles, materials and supplies of the growth, production or

manufacture of the United States, as defined in section 1401(h) of the Tariff Act of 1930 (10 U.S.C. 1401(h)). If an applicant for Guarantees elects to use foreign-source materials or components in the Vessel, the cost thereof shall not be included in the Actual Cost of the Vessel used as the basis for determining the amount of Guarantees, as set forth in § 298.21, except if the Secretary shall approve an application for waiver upon determining that:

(1) The article, material or supply is not customarily grown, produced or manufactured in the United States; or

(2) With respect to other than major components of the hull or superstructure, and any material used in the construction thereof, compliance with the United States origin requirement of this section would unreasonably delay completion of a Vessel beyond its contract delivery date, provided that the applicant submits evidence satisfactory to the Secretary that due diligence was employed to obtain materials of United States origin.

(b) *Actual Cost.* The applicant's estimated actual cost as described in § 298.21(b), must be approved by the Secretary for the construction, reconstruction, reconditioning of a vessel as a condition for issuance of the Letter Commitment. The Secretary may require the applicant to have the shipyard with whom he has contracted to build the vessel to submit additional technical data, backup cost details, and other evidence if the Secretary has insufficient data. The estimated cost of the vessel may include escalation for the anticipated construction period of the vessel, as described in § 298.21(e).

(c) *Class, condition and operation.* The Vessel shall be constructed, maintained and operated so as to meet the highest classification, certification, rating and inspection standards for vessels of the same age and type imposed by the American Bureau of Shipping (ABS), or such other standards as may be approved by the Secretary, and comply with all applicable laws, rules and regulations as to condition and operation, including, but not limited to, those administered by the United States Coast Guard, Environmental Protection Agency, Federal Communications Commission, Public Health Service, or their respective successors, and all applicable treaties and conventions to which the United States is signatory, including, but not limited to the International Convention for Safety of Life at Sea. All Vessels carrying passengers or freight shall be deemed to be carrying such passengers or freight for hire, and shall be inspected and certificated in accordance with the applicable United States Coast Guard regulations, if any,

at the earlier of the delivery of such Vessel or Vessels and the initial Closing.

(d) *Reconstruction or reconditioning.* Repairs necessary for the Vessel to meet the classification standards approved by the Secretary, or any regulatory body, or because of previous inadequate maintenance and repair, shall not constitute reconstruction or reconditioning within the meaning of this paragraph. An applicant for Guarantees secured by a Vessel to be reconstructed or reconditioned shall make the Vessel available at a time and place acceptable to the Secretary for a condition survey to be conducted by representatives of the Secretary. The applicant shall pay the cost of the condition survey. The scope and extent of the condition survey shall not be less effective than that required by the last ABS special survey completed (if the Vessel is classified), next due or overdue, whichever date is nearest in accordance with the Vessel's age. The Vessel shall meet the standard of the survey necessary for retention of class (if the Vessel is classified), and the operating records of the Vessel shall reflect normal operation of the Vessel's main propulsion and other machinery and equipment, consistent with accepted commercial experience and practice.

##### § 298.12 Operator's qualifications.

No Letter Commitment shall be issued by the Secretary without a prior determination that the applicant, bareboat charterer, or other Person identified in the application as the operator of the Vessel, possesses the necessary experience, ability and other qualifications to properly operate and maintain the Vessel or Vessels which serve as security for the Guarantees, and otherwise to comply with all requirements of this part.

##### § 298.13 Financial requirements.

(a) *In general.* To be eligible for Guarantees, the applicant and other participants in the project must submit at the time of application, and as subsequently required by the Secretary, financial information satisfactory to the Secretary that financial resources are or will be available to support the project which is the subject of the Title XI application.

(b) *Financial definitions.* For the purpose of this section 298.13 and sections 298.35 and 298.42 of this part—

(1) "Company" means any Person subject to financial requirements imposed under paragraphs (d) and (e) of this section and paragraphs (b) and (c) of § 298.35, as well as the reporting requirements imposed by § 298.42.

(2) "Working Capital" means the difference between current assets and current liabilities, both determined in

accordance with generally accepted accounting principles, adjusted as follows:

(i) Current assets shall be reduced with respect to:

(A) Amounts in or required to be set aside in any Title XI Reserve Fund, pursuant to § 298.35(e) or CCF Security Amount prescribed by § 298.35(f), (excluding that portion of such fund which is available for the payment of current liabilities) that is being maintained pursuant to an agreement covering a Vessel owned or leased by the Company, or in another similar fund required under any other mortgage, indenture or other agreement to which the Company is a party;

(B) Any securities, obligations or evidences of indebtedness of an Affiliate of the Company or of any stockholder, director, officer or employee (or any member of the family of the Company or of such Affiliate) except reasonable advances to agents required for the normal current operation of the Company's Vessels and receivables outstanding for not more than 60 days, arising out of the ordinary course of business; and

(C) An amount equal to any excess of untermi-nated voyage revenue over untermi-nated voyage expense, except where the Secretary determines such reduction to be inappropriate.

(ii) Current liabilities shall be increased by one-half of the annual payment of all charter hire and other lease obligations (having a term of more than six months), other than charter hire and other lease obligations already included and reported as a current liability on the Company's balance sheet. Further, in determining current liabilities there shall be deducted any excess of untermi-nated voyage revenue over untermi-nated voyage expense, except where the Secretary determines such reduction to be inappropriate.

(3) "Equity" (net worth) means, as of any date, the total of paid-in-capital stock, paid-in-capital, retained earnings and all other amounts that would be included in Equity in accordance with generally accepted accounting principles, but exclusive of (i) any receivables from an Affiliate of the Company or any stockholder, director, officer, or employee (or any member of the employee's family) of the Company (other than current receivables arising out of the ordinary course of business and not outstanding for more than 60 days) and (ii) any increment resulting from the reappraisal of assets.

(4) "Long Term Debt" means, as of any date, the total notes, bonds, debentures, equipment obligations and other evidence of indebtedness that would be included in Long Term Debt in accordance with generally accepted

accounting principles, less the balance of Escrow Fund deposits attributable to the principal of Obligations sold, where deposits are required in accordance with § 298.33. There shall also be included Deferred Lease Hire, any guarantee or other liability for the debt of any other Person (except fees and expenses of an Indenture Trustee and endorsements for deposits of checks and other negotiable instruments acquired in the ordinary course of business). Deferred income taxes shall not be included in Long Term Debt.

(5) "Capitalizable Cost" means the aggregate of the Actual Cost of the Vessel and those other items which customarily would be capitalized as Vessel costs under generally accepted accounting principles.

(6) "Depreciated Capitalizable Cost" means the Capitalizable Cost of a Vessel, depreciated on a straight line basis over the same useful life of the Vessel as determined by the Secretary for Actual Cost, and depreciated as required by § 298.21(g).

(7) "Deferred Lease Hire" means as of any date, the outstanding long term portion of lease or charter hire (other than lease or charter hire already included and reported as a liability on the Company's balance sheet) relating to vessels, major equipment or facilities leased or chartered by the Company. The Secretary shall determine:

(i) Which leases or charters are to be included in the computation of Deferred Lease Hire; and

(ii) The computation of the outstanding long term portion of such lease or charter hire, which computation will not exceed the greater of:

(A) The amount of the Obligations relating to the leased or chartered asset;

(B) One-half the aggregate of all lease or charter hire (excluding operating components) over the term of the lease or character; and

(C) The amount determined in accordance with generally accepted accounting principles.

(c) *Applicability.* The financial resources shall be adequate to meet the Equity requirements in the project and existing Working Capital requirements, as set forth in paragraphs (d) and (e) of this section.

(1) The various financial requirements shall be met by the owner of the Vessel or Vessels to be security to the Secretary for the Guarantees, except that if the owner is not the operator, the overall financial requirements shall be allocated among the owner, the operator and other parties as determined by the Secretary.

(2) The Company shall satisfy the applicable financial requirements, in addition to any other financial requirements already imposed or which

may be imposed upon it in connection with other Vessels financed under the Title XI program.

(3) A determination as to whether the Company has satisfied all financial requirements shall be based on the assumption that the projected financing has been completed. Accordingly, a pro forma balance sheet shall be submitted at the time of the application, reflecting any adjustment made pursuant to paragraph (d)(1)(i) of this section, and a revised pro forma balance sheet, reflecting the completion of the projected financing, shall be submitted at least five business days before the first Closing at which the Obligations are issued.

(d) *Primary financial requirements at Closing.* Where the primary minimum financing requirements at Closing are satisfied, the financial convenants in § 298.35(b) are applicable. Primary financial requirements can apply to one or more Companies, and are determined as follows:

(1) *Owner as operator.* Where the owner is to be the Vessel operator, minimum requirements at Closing usually are as follows:

(i) *Working Capital.* The Company's Working Capital shall not be less than one dollar. This Working Capital requirement is based on the premise that the Company engages in a service-type activity with only normal Vessel inventory. If Working Capital includes other inventory, in addition to such normal Vessel inventory, the Secretary may adjust the requirement as considered appropriate. Also, if the Secretary determines that the Company's Working Capital includes amounts receivable that it reasonably could not expect to collect within one year, the Secretary may make adjustments to the Working Capital requirements.

(ii) *Equity (net worth).* The Company's Equity shall be the greater of (A) 50 percent of its Long Term Debt or (B) 90 percent of its Equity as shown on the last audited balance sheet, dated not earlier than six months before the date of issuance of the Letter Commitment.

(2) *Lessee or charterer as operator.* Where a lessee or charterer is to be the Vessel operator, minimum requirements at Closing usually are as follows:

(i) *Working Capital.* The operator's Working Capital requirement shall be the same as that which would have otherwise been imposed on the owner as operator under subparagraph (1) (i) of this paragraph (d) and based on the same premise stated therein.

(ii) *Long Term Debt.* The operator's Long Term Debt shall not be greater than twice its Equity.

(iii) *Equity (net worth).* Different Equity requirements shall be imposed

on the owner and operator of the Vessel, respectively, as follows:

(A) The owner's Equity shall at least be equal to the difference between the Capitalizable Cost or Depreciated Capitalizable Cost of the Vessel (whichever is applicable) and the total amount of the Guarantees.

(B) The operator's Equity shall be the same as that which would have otherwise been required of the owner as operator under subparagraph (1)(ii) of this paragraph (d).

(e) *Alternative financial requirements at Closing.* If the applicant is unable to demonstrate to the satisfaction of the Secretary that there is or will be compliance with the primary financial requirements at Closing set forth in paragraph (d) of this section, eligibility for Guarantees shall be based upon satisfaction of alternative minimum financial requirements, in which the financial covenants imposed and the requirements for maintenance of a Title XI Reserve Fund shall be as provided for in § 298.35(c) of this part. Alternative financial requirements are as follows:

(1) *Owner as operator.* Where the owner is to be the Vessel operator, the alternative requirements at Closing usually are as follows:

(i) *Working Capital.* The Company's Working Capital, which may be adjusted by the Secretary in accordance with the provisions set forth in paragraph (d)(1)(i) of this section, shall be an amount at least equal to the sum of the following (less the annual financing liability related to the Obligations):

(A) Eight percent of the estimated Capitalizable Cost of a Vessel to be financed upon delivery (redelivery in the case of a reconstructed or reconditioned Vessel), or eight percent of the estimated Depreciated Capitalizable Cost of a Vessel to be financed or refinanced after delivery. With respect to a reconstructed or reconditioned Vessel, the estimated Capitalizable Cost or Depreciated Capitalizable Cost, whichever is applicable (depending upon when financing occurs), shall be that related only to the cost of work performed in the reconstruction or reconditioning;

(B) One year's premium for vessel insurance including Hull, Machinery, Protection and Indemnity, and War Risk coverage; and

(C) One year's Guarantee Fee.

(ii) *Equity (net worth).* The Company's Equity shall be at least equal to 90 percent of the Equity as shown on the last audited balance sheet dated not earlier than six months before the issuance of the Letter Commitment, but not less than the sum of the following:

(A) The difference between (1) the estimated Capitalizable Cost of a new

Vessel to be financed upon delivery, the estimated Capitalizable Cost of the work to be performed in reconstructing or reconditioning a Vessel, the Depreciated Capitalizable Cost of an existing Vessel to be refinanced or the Depreciated Capitalizable Cost of a new Vessel to be financed after delivery, and (2) the amount of the Guarantees; and

(B) The amount of Working Capital as determined in accordance with the provisions of subdivision (1)(i) of this paragraph.

(2) *Lessee or charterer as operator.* Where the lessee or charterer is the Vessel operator, the alternative financial requirements at Closing usually are as follows:

(i) *Working Capital.* The Company shall have Working Capital in an amount determined in accordance with the provisions of subdivision (1)(i) of this paragraph (e), applicable if the owner were the operator.

(ii) *Equity (net worth).* Different Equity requirements shall be imposed on the operator and the owner, respectively as follows:

(A) The operator shall have Equity at least equal to 90 percent of the Equity shown on the last audited balance sheet dated not earlier than six months before the issuance of the Letter Commitment, but no less than its Working Capital requirement.

(B) The owner shall have Equity in an amount determined in accordance with the provisions of subdivision (1)(ii)(A) of this paragraph (e).

(f) *Adjustments to financial requirements at Closing.* If the owner, although not operating a Vessel, assumes any of the operating responsibilities, the Secretary may adjust the respective Working Capital and Equity requirements of the owner and operator, otherwise applicable under paragraphs (d) and (e) of this section, by increasing the requirements of the owner and decreasing those of the operator by the same amount.

(g) *Subordinated debt considered to be Equity.* With the consent of the Secretary, part of the Equity requirements applicable under paragraphs (d) and (e) of this section may be satisfied by debt, fully subordinated as to the payment of principal and interest on the Secretary's Note and any claims secured as provided for in the Security Agreement or the Mortgage. Repayment of subordinated debt may be made only from funds available for payment of dividends or for other distributions, in accordance with requirements of the Reserve Fund and Financial Agreement (described in § 298.35 of this part). Such subordinated debt shall not be secured by any interest in property that is security for Guarantees or mortgage insurance under Title XI, unless the Obligor and the lender

enter into a written agreement, satisfactory to the Secretary, providing, among other things, that if any Title XI financing or advance by the Secretary to the Obligor shall occur in the future, such security interest of the lender shall become subordinated to any indebtedness incurred by the Obligor and to any security interest obtained by the Secretary in that property or other property, with respect to the subsequent indebtedness.

(h) *Modified requirements.* The Secretary may waive or modify the financial terms or requirements otherwise applicable under §§ 298.13, 298.35 and 298.42, upon determining that there is adequate security for the Guarantees. The Secretary may impose similar financial requirements on any Person providing other security for the Guarantees.

#### § 298.14 Economic soundness.

No Letter Commitment for Guarantees shall be given by the Secretary without finding that the proposed project, with respect to which the Vessel or Vessels are to be financed under Title XI, will be economically sound. In making the economic soundness finding, the Secretary shall consider, together with other factors, the market potential for the employment of the Vessel or Vessels over the life of the Guarantees, projected revenues and expenses of the operation, the length of the Guarantee period and any charters, contracts of affreightment, transportation agreements or similar agreements which will assure the employment of the Vessel or Vessels.

#### § 298.15 Investigation Fee.

(a) *In general.* Prior to the issuance of the Letter Commitment the applicant shall pay an Investigation Fee, computed as hereinafter provided, to the Secretary in the amount stated in the Letter Commitment.

This fee is imposed to pay for the investigation of the project described in the application and the participants in the project, the appraisal of properties offered as security, Vessel inspection during construction, reconstruction or reconditioning (where applicable) and other administrative expenses. If, for any reason, the Secretary shall subsequently disapprove the application, one-half of the Investigation Fees shall be due and payable.

(b) *Maximum.* The Investigation Fee, including any amount imposed pursuant to paragraph (d) of this section, shall not exceed one-half of one percent of the aggregate amount of Obligations to be issued. The \$1,000 filing fee previously paid upon filing the original application (described in § 298.3) shall be credited against the Investigation Fee.

(c) *Base fee.* The base fee shall be as follows:

(1) *After Vessel completion.* If Guarantees are issued after construction, reconstruction or reconditioning of the Vessel or Vessels that serve as security for the Guarantees, the fee shall be \$1,000 for the first \$300,000 of Obligations plus one-eighth of one percent of the balance of the Obligations.

(2) *Before Vessel completion.* If Guarantees are issued before completion of the project, the base fee shall be 110 percent of that charged with respect to a completed project; however, if all the proceeds from the sale of the Obligations relating to a Vessel are deposited into the Escrow Fund until the delivery of such Vessel, the base fee shall not exceed \$1,000 above the base fee calculated in accordance with Section 298.15(c)(1).

(d) *Amendment of application.* In the event an amendment to an application is filed with the Secretary, additions to the base fee shall be imposed under the following circumstances:

(1) *Before Documentation reviewed.* There shall be an additional charge of \$3,000 to pay the cost of processing an amendment made after the Letter Commitment has been issued, but before review of the Documentation by the Maritime Administration, if the Secretary determines that the amendment represents a substantial change in the application. A substantial change would include, but not be limited to, a change from the ownership to a sale and leaseback arrangement, drastic alteration of the Vessel design, large cost increases or other changes that affect the basic economics of the project.

(2) *After Documentation reviewed.* If an amendment is made after review of the Documentation and prior to the sale of any Obligation, and the Secretary determines that the amendment represents a substantial change in the Documentation, there shall be an additional charge of one-half of the Investigation Fee charged pursuant to paragraph (c) of this section, but not more than \$50,000. A substantial change would include, but not necessarily be limited to, a basic change in the structure of the financing, such as a change from an ownership to a sale and leaseback arrangement, or a substitution of parties resulting in a basic change affecting the credit risk of the financing. Ordinary changes in the Documentation such as cost changes, assignments, simple substitutions of parties, not affecting the basic credit or structure of the transaction, and other similar changes shall not be construed to be a substantial change.

#### § 298.16 Substitution of participants.

Application may be made to the Maritime Administration for permission to substitute participants to a Mortgage and/or Security Agreement in a financing that is receiving assistance authorized by Title XI of the Act, both prior and subsequent to amendment by P.L. 92-507. A non-refundable fee shall be imposed, payable at the time of application. This fee shall be in addition to the Annual Guarantee Fee or annual premium charge for Mortgage insurance, whichever is applicable, as follows:

(a) *Mortgage assignment.* A mortgagee applying for permission to assign an insured mortgage to another Person shall pay a fee of \$1,500 to defray the costs of processing and reviewing the application.

(b) *Mortgage assumption.* Payment of \$3,000 fee shall be required to defray all costs of processing and reviewing a joint application by a mortgagor and/or Obligor and a proposed transferee of a Vessel, which is security for Title XI debt, if the proposed transferee is to assume the Mortgage and/or the Security Agreement.

#### Subpart C—Guarantees

#### § 298.20 Term, redemptions and interest rate.

(a) *In general.* To be eligible for Guarantees, Obligations shall have a maturity date satisfactory to the Secretary, not exceeding the anticipated physical and economic life of the Vessel or Vessels. Such maturity date may be less than but in no event more than:

(1) Twenty-five years from the date of delivery from the shipbuilder of a single new Vessel which is to be security for Guarantees;

(2) Twenty-five years from the date of delivery from the shipyard of the last of multiple Vessels which are to be security for the Guarantees; and

(3) The later of twenty-five years from the date of original delivery of a reconstructed or reconditioned Vessel which is to be security for the Guarantees, or at the expiration of the remaining useful life of the Vessel, as determined by the Secretary.

(b) *Required redemptions.* Where multiple Vessels are to be used as security for the Guarantees, as set forth in paragraph (a) of this section, the Secretary may require payments of principal prior to maturity (redemptions) with respect to all related Obligations, as may be deemed necessary to maintain adequate security for the Guarantees.

(c) *Interest rate.* The interest rate of each Obligation of a stated maturity must be determined by the Secretary to be reasonable, taking into account the range of interest prevailing in the

private market for similar loans and the risks assumed by the Secretary.

#### § 298.21 Limits.

(a) *Actual Cost basis.* The amount of Obligations to be issued shall be satisfactory to the Secretary based upon the economic soundness of the transaction. Such amount may be less than but in no event more than 75 percent or 87½ percent, whichever is applicable under the provisions of section 1104(b)(2) of the Act, of the Actual Cost of the Vessel or Vessels. If minimum horsepower of the main engine is a requirement for Guarantees up to 87½ percent of the Actual Cost, the standard with respect to such horsepower shall be continuous rated horsepower. Where existing debt is being refinanced, pursuant to section 1104(a)(4) of the Act, the amount of new Obligations issued in respect to such existing debt may not exceed the lesser of:

(1) The amount of outstanding debt being refinanced (whether or not receiving assistance under Title XI); or

(2) Seventy-five or 87½ percent whichever is applicable, of the Depreciated Actual Cost of the Vessel with respect to which the new Obligations are being issued.

(b) *Actual Cost items.* Actual Cost is comprised essentially of those items which would customarily be capitalized as Vessel construction costs such as designing, engineering, constructing (including performance bond premiums approved the Secretary), inspecting, outfitting and equipping. There shall be included those cost items usually specified in Vessel construction contracts, e.g., changes and extras, cost of owner furnished equipment, shoreside spare parts and commitment fees and interest on the Obligations or other borrowings during the construction period (excluding interest paid on subordinated debt considered to be Equity, and incurred during the construction period), and less income realized from investment of Escrow Fund deposits during the construction period. In approving Actual Cost the Secretary will consider all pertinent factors.

(c) *Items excludible from Actual Cost.* Actual Cost shall not include any other costs such as the following:

- (1) Legal fees or expenses;
- (2) Accounting fees or expenses;
- (3) Commitment fees or interest other than those specifically allowed;
- (4) Fees, commissions or charges for granting or arranging for financing;
- (5) Fees or charges for preparing, printing and filing an application for Title XI Guarantees and supporting documents, for services rendered to obtain approval of the application and for preparing, printing and processing

documents relating to the application for Guarantees;

(6) Underwriting or trustee's fees;

(7) Federal documentary tax stamps;

(8) Investigation Fee determined in accordance with section 1104(f) of the Act and § 298.15 of this part;

(9) Guarantee Fees determined in accordance with the provisions of section 1104(e) of the Act and § 298.36 of this part;

(10) Predelivery Vessel operating expenses, Vessel insurance premiums and other items which may not be properly capitalized by the owner as costs of the Vessel under generally accepted accounting principles;

(11) The cost of the condition survey required by § 298.11(d) of this part and all work necessary to meet the standards set forth therein;

(12) The cost of all items of material installed in the Vessel which are of foreign origin unless the Secretary has granted a waiver, as provided for in § 298.11(a) of this part;

(13) The cost to the Shipowner of a Vessel which is to be reconstructed or reconditioned, e.g., cost of acquisition or repair work; and

(14) Generally not include any amount payable to the shipyard for early delivery of the Vessel.

(d) *Substantiation of Actual Cost.* Prior to payment from the Escrow Fund or Construction Fund (described in § 298.33 and § 298.34 of this part), and prior to the final Actual Cost determination for each Vessel, the applicant shall submit to the Secretary documents substantiating all claimed costs eligible under § 298.21(b). These documents may include but need not be limited to copies of invoices, change orders, subcontracts and, where required by the Secretary, statements from independent certified or independent licensed public accountants that the costs for which payment or reimbursement is sought were actually paid or are payable with respect to the construction of a Vessel. These documents must be summarized, indexed and arranged according to cost categories, pursuant to directions contained in forms prescribed by the Secretary.

(e) *Escalation as part of Actual Cost.* Escalation clauses in construction contracts shall be subject to approval by the Secretary. After a review of the base contract price and the escalation clauses, the Secretary shall, in order to estimate the Actual Cost amount to be stated in the Letter Commitment, add to the approved base contract price the amount of estimated escalation as approved by the Secretary. The Secretary must subsequently approve the amount of escalation claimed by the applicant as Actual Cost.

(f) *Moneys received in respect of construction of the Vessels.* If the Obligor

or any Person acting in behalf of the Obligor shall from time to time receive moneys due in respect to construction of a Vessel (described in the Security Agreement) from the shipbuilder, guarantors, sureties or other Persons, the Obligor shall give written notice of such fact to the Secretary. So long as the Guarantees have not been paid by the Secretary, the Obligor or other recipient shall promptly make deposit of these moneys in a Depository with a written notice that the Depository shall hold such moneys on deposit until it receives written instructions from the Secretary as to their disposition. The Secretary shall determine the extent to which Actual Cost is to be reduced with respect to these moneys. In no event shall Actual Cost be reduced with respect to payments by the shipyard to a Vessel owner of liquidated damages for late delivery of the Vessel. If the Secretary shall have paid the Guarantees, the Obligor or other recipient shall promptly pay these moneys including any liquidated damages to the Secretary for deposit into the Federal Ship Financing Fund.

(g) *Depreciated Actual Cost.* After a Vessel has been delivered or redelivered (in the case of reconstruction or reconditioning), the limitation on the amount of Guarantees shall be 75 or 87½ percent, whichever is applicable, of the Depreciated Actual Cost of the Vessel.

#### § 298.22 Amortization of Obligations.

Generally after Vessel delivery, and until maturity of the Obligations, the Obligor shall be required by provision of the Trust Indenture or other part of the Documentation to make periodic payment of interest on and principal of the Obligations. Usually, the payment of principal (amortization) shall be made semi-annually, but in no event, less frequently than on an annual basis, and in either case shall be in equal parts (straightline basis), unless the Secretary consents to the periodic payment of a constant aggregate amount, comprised of both interest and principal components which are variable in amount (level debt basis). No other proposed method of amortization will be allowed which would reduce the amount of periodic amortization below that determined under the straightline or level debt basis at any time prior to maturity of the Obligations, except where:

(1) The Obligor can demonstrate to the satisfaction of the Secretary that there will be adequate funds to discharge the Obligations at maturity; or

(2) The Obligor establishes a fund acceptable to the Secretary in which the Obligor deposits an equal annual amount necessary to redeem the outstanding Obligations at maturity.

#### § 298.23 Refinancing.

The Secretary may approve Guarantees with respect to Obligations to be secured by one or more Vessels and issued to refinance existing debt, whether or not covered by mortgage insurance or Guarantees, so long as the existing debt had been issued for one of the purposes set forth in section 1104(a)(1)–(3) of the Act. If the existing debt was incurred more than one year after the delivery or redelivery of the related Vessel, the proceeds of such Obligations must be applied to the construction, reconstruction or reconditioning of other Vessels or for facilities or equipment pertaining to marine operation (described in § 298.24 of this part). Further, the refinancing of existing debt will be permitted only if any security lien on the Vessel or Vessels is discharged immediately prior to the placing of a Mortgage on the Vessel or Vessels by the Secretary. The applicant must satisfy all the eligibility requirements set forth in Subpart B of this part.

#### § 298.24 Financing facilities and equipment related to marine operations.

The Secretary may approve Guarantees secured by one or more Vessels and issued to finance the construction, reconstruction, or reconditioning of facilities or equipment pertaining to marine operations. Such facilities or equipment shall be of a specialized nature, used principally for servicing vessels and in handling waterborne cargo in the close proximity of the berthing area, excluding over-the-road equipment (other than chassis and containers), permanent or semipermanent structures and real estate.

#### § 298.25 Financing repayment of construction-differential subsidy.

The Secretary may approve Guarantees with respect to Obligations secured by one or more Vessels and issued to finance the repayment to the United States of the whole or any part of construction-differential subsidy (CDS) which has been paid under the provisions of Title V of the Act. The repayment of CDS may be related to Vessel operation in domestic trade, within the meaning of section 506 of the Act, or any other purpose authorized by the Secretary.

#### § 298.26 Excess interest or other consideration.

The Secretary shall not execute Guarantees if any agreement in the Documentation directly or indirectly provides for:

(a) The payment to an Obligor of interest, or other compensation for services which have not been performed, in a manner that such compensation or payment is being provided as inter-

est in excess of the rate approved by the Secretary; or

(b) Grants of security to an Obligor in addition to the Guarantees.

#### § 298.27 Lease payments.

If payment of principal and interest on Obligations would in any way be dependent upon the lease or charter hire payments for a Vessel that is security for the Obligations, the amount and conditions of lease or charter payments shall be subject to the Secretary's approval.

#### § 298.28 Advance of principal payments on the Obligations.

The Secretary, shall have the discretion to make or commit to make an advance or advances of principal on the Obligations, based on the determination that the Company has insufficient cash flow or other access to capital to make such payment or payments and there is a reasonable expectation that such advances will be repaid. The terms of an advance shall be satisfactory to the Secretary and shall include but not necessarily be limited to:

(a) The interest rate shall be equal to the greater of: (1) the sum of the effective interest rate borne by the Obligations and a guarantee fee computed in accordance with § 298.36; or (2) the sum of the interest rate Treasury would charge the Federal Ship Financing Fund for a similar borrowing of like maturity and a guarantee fee computed in accordance with § 298.36.

(b) The advance may have a maturity date no later than that of the Obligations;

(c) The advance shall have periodic payments of principal and interest payable, to the extent practicable, on the same dates as that of the Obligations with the right of prepayment at any time without premium.

(d) As long as any advance is outstanding, no dividends can be paid without prior written consent of the Secretary provided, however, that if the Obligations and such advance or advances are assumed by a non-affiliated company which was approved by the Secretary, this dividend restriction shall not apply unless it is expressly required by the Secretary.

(e) The advance, both as to principal and interest relating to the advance of principal shall be secured by the Mortgage.

#### Subpart D—Documentation

##### § 298.30 Nature and content of Obligations.

An Obligation, whether issued in the form of a note, bond of any type, or other debt instrument, when engraved, printed or lithographed on a single sheet of paper shall include on

its face the name of the Obligor, the principal sum, the rate of interest, the date of maturity, and the Guarantee of the United States, authenticated by the Indenture Trustee. If the Obligation is typewritten, printed or reproduced by other means on several pages of paper, the Guarantee of the United States and the authentication certificate of the Indenture Trustee may appear at the end of the typewritten Obligation. The instrument which is evidence of indebtedness shall also contain all information necessary to apprise the Obligees of their rights and responsibilities with respect thereto, including, but not limited to, time and manner for payment of principal and interest, redemptions, default procedure and notification (in case of registered Obligations) of sale or other transfer of the instruments.

##### § 298.31 Mortgage.

(a) *In general.* Under normal circumstances, a Guarantee shall not be endorsed on any Obligation until the Secretary receives satisfactory evidence of security interest in one or more Vessels, in favor of the Secretary. During construction of a new Vessel, the security interest may be perfected by a filing under the Uniform Commercial Code or by the recording of any form of mortgage in a jurisdiction where the Uniform Commercial Code has not been enacted. The Security Agreement shall provide that upon delivery of the new Vessel, or at the time Guarantees are issued with respect to an existing Vessel, a Preferred Mortgage shall be executed in favor of the Secretary. The Preferred Mortgage shall be recorded with the United States Coast Guard at the Vessel's home port, endorsed upon the Vessel's document (or provision made for said endorsement within 21 days of recordation) and delivered to the Secretary.

(b) *Mortgage secured by multiple Vessels.* When two or more Vessels are to be security for Guarantees, the Security Agreement may provide that one Mortgage relating to all the Vessels (Fleet Mortgage) shall be executed, perfected and delivered to the Secretary by the Obligor. If the Fleet Mortgage relates to undelivered Vessels, the Fleet Mortgage shall be executed upon delivery of the first vessel. At the time of each subsequent Vessel delivery, the Obligor shall execute a supplement to the Fleet Mortgage which makes that Vessel subject to the Secretary's Mortgage lien. The Fleet Mortgage shall provide that payment by the Obligor of the entire amount of Obligations covered or to be covered by Guarantees shall be required to discharge the Fleet Mortgage, regardless of the amount of the Secretary's Note or Notes issued and

outstanding at the time of execution and delivery of the Fleet Mortgage or the number of Vessels covered by the Fleet Mortgage. The discharge date of the Fleet Mortgage shall be the maturity date of the Secretary's Note. The Secretary may require, as authorized by section 1104(c)(2) of the Act, such payments of principal prior to maturity (redemptions), with respect to all related Obligations, as deemed necessary to maintain adequate security for the Guarantees. Each Fleet Mortgage shall provide that in the event of constructive total loss, requisition of title or sale of any Vessel covered by the Fleet Mortgage, indebtedness represented by the Obligations shall be paid, unless the Secretary shall otherwise determine that there remains adequate security for the Guarantees, and the Vessel shall be discharged from the Mortgage lien.

##### § 298.32 Required provisions in Documentation.

(a) *Performance under shipyard and related contracts.* Generally, shipyard and related contracts shall contain provisions for:

(1) Furnishing by the shipyard of satisfactory insurance and a satisfactory performance bond where Obligations are issued during the construction period, except that if the shipyard demonstrates to the satisfaction of the Secretary that it has sufficient financial resources and operational capacity to complete the project, posting of a bond will not be required;

(2) Allowing access to the Vessel, as well as all related work projects being performed by the contractor and subcontractors, to a representative of the Secretary, at all reasonable times, to inspect performance of the work and to observe trials and other tests for the purpose of determining that the Vessel is being constructed, reconstructed or reconditioned in accordance with contract plans and specifications approved by the Secretary;

(3) Submitting to the Secretary, upon request, one set of selected microfilm of shipyard plans for the Vessel as built;

(4) Making periodic payments for the work in accordance with an agreed schedule, submitted by the shipyard in a form acceptable to the Secretary, based on percentage of completion, after such percentage and satisfactory performance are certified by the Obligor, shipyard and a representative of the Secretary as to each payment;

(5) Prohibiting the use of proceeds from the sale of Obligations for the payment of work performed outside the shipyard, unless the Secretary consents in writing to such use; and

(6) Requiring the use in Vessel construction of only articles, materials and supplies of the growth, production

or manufacture of the United States, as described in detail in section 298.11(a) of this part. If Obligations will not be issued during the period of construction of a Vessel, shipyard and related contracts should generally include the provisions specified in paragraph (a) (2), (3) and (6) of this section.

(b) *Assignments and general covenants from Obligor to Secretary.* The Obligor shall assign rights and shall covenant with the Secretary, as required by the Secretary, including, but not limited to, the following:

(1) Assignment of all or part of the right, title and interest under the construction contract and related contracts, except those rights expressly reserved therein by the Obligor relating to such things as patent infringement and liquidated damages;

(2) Assignment of rights to receive all moneys which from time to time become due with respect to Vessel construction;

(3) Assignment, where applicable, of all or a part of the bareboat charter, time charter, contracts of affreightment or other agreements relating to the use of the Vessel and all hire payable to the Obligor, and delivery to the Secretary of required consents by appropriate parties to any such assignments;

(4) Covenants relating to the annual filing of satisfactory evidence of continuing United States citizenship, in accordance with 46 CFR 355; warranty of Vessel title free from all liens other than those specifically excepted; maintaining United States registry of the Vessel; compliance with the provisions of the Ship Mortgage Act of 1920; Notice of Mortgage, payment of all taxes (except if being contested in good faith); annual financial statements audited by independent certified or independent licensed public accountants;

(5) Covenants to keep records of construction costs paid by or for the Obligor's account and to furnish to the Secretary a detailed statement of those costs, distinguishing between:

(i) Items paid or obligated to be paid, attested to by independent certified or independent licensed public accountants unless otherwise verified by the Secretary; and

(ii) Costs of American and foreign materials (including services);

(6) Covenants to maintain Marine and War Risk Hull and Machinery insurance on the Vessel in an amount equal to 110% of the outstanding Obligations or up to the full commercial value of the Vessel, whichever is greater; Marine and War Risk Protection and Indemnity insurance; Interim War Risk Binders for Hull and Machinery, and Protection and Indemnity coverages underwritten by the Maritime

Administration as authorized by Title XII of the Act; and such additional insurance as may be required by the Secretary. All insurance required to be maintained shall be placed with the United States Government and American and/or British (and/or other foreign, if permitted by the Secretary by prior written notice) insurance companies, underwriters' associations or underwriting funds approved by the Secretary through marine insurance brokers and/or underwriting agents approved by the Secretary. All insurance required to be maintained shall be placed under the latest (at the time of issue) forms of American Institute of Marine Underwriters policies approved by the Secretary and/or under such other forms of policies which the Secretary may approve in writing and/or policies issued by or for the Maritime Administration insuring the Vessel against the usual risks provided for under such forms, including such amounts of increase value other forms of "total loss only" insurance permitted by the Hull and Machinery insurance policies; and

(7) Collateralize other debt due to the Secretary under other Title XI financings.

##### § 298.33 Escrow Fund.

(a) *Circumstances requiring deposits.* The Obligor may be required to establish a fund with the Secretary (Escrow Fund) in accordance with section 1108(a) of the Act and the Security Agreement. The deposit with the Secretary shall be in cash or Federal Reserve Bank funds.

(b) *Principal Deposit—Single Vessel.* If a single Vessel is security for the Guarantees, the deposit of principal shall be calculated by subtracting from the aggregate principal amount of the Obligations sold, 75 or 87½ percent (whichever is applicable under section 1104(b)(2) of the Act) of the amount of Actual Cost or Depreciated Actual Cost determined by the Secretary to have been paid, as of the date of the deposit, by or for the account of the Obligor for construction, reconstruction or reconditioning of the Vessel. In the event that Obligations are issued and sold on a date subsequent to the initial issuance and sale of Obligations, a deposit shall be calculated in the same manner as for the first sale of Obligations.

(c) *Principal deposit—multiple Vessels.* If multiple Vessels are security for the Guarantees, with the Secretary's approval, the Obligor may calculate the aggregate deposit of principal amount in the Escrow Fund (i) by computing on an individual Vessel basis by prorating the proceeds of the sale of Obligations, within the meaning of the proviso in section 1108(a) of the Act, based on the ratio of the Vessel's

Actual Cost or Depreciated Actual Cost, to the total Actual Cost and Depreciated Actual Cost of all Vessels which are security for the Guarantees less 75 or 87½ percent (whichever is applicable under section 1104(b)(2) of the Act) of the amount of Actual Cost or Depreciated Actual Cost determined by the Secretary to have been paid, as of the date of deposit, by or for the account of the Obligor for the construction, reconstruction or reconditioning of the Vessel for which the deposit is being computed or (ii) by allocating portions of the proceeds (up to 75 or 87½ percent, whichever is applicable under section 1104(b) of the Act) from the sale of the Obligations to specific Vessels and computing the deposit based on the Actual Cost or Depreciated Actual Cost of such Vessels paid, as of the date of deposit, by or for the account of the Obligor. In the event that Obligations are issued and sold on a date subsequent to the initial issuance and sale of Obligations, a deposit shall be calculated in the same manner as for the first sale of Obligations. The foregoing allocations are for the purpose of calculating the deposits only and are not applicable or controlling with respect to disbursements from the Escrow Fund.

(d) *Interest deposit.* Interest on the aggregate principal amount deposited pursuant to paragraphs (b) and (c) hereof, shall be computed at the same rate borne by the Obligations, for one interest payment period, unless the Secretary shall find the existence of adequate consideration or accept other consideration in lieu of the interest deposit. If the Obligations issued and sold bear more than one rate of interest, the amount of interest required to be deposited shall be based upon the weighted average of such interest rates. The calculation of the amount of interest to be deposited shall take into account the principal and interest, if any, remaining on deposit in the Escrow Fund.

(e) *Disbursements prior to Termination Date.* Unless the Guarantees shall become payable prior to the Termination Date (described in paragraph (h) of this section) of the Escrow Fund, the Secretary shall, subject to the satisfaction of any applicable conditions contained in the Security Agreement, and within a reasonable time after written request from the Obligor, make disbursements from the fund directly to the Indenture Trustee or any Paying Agent for the payment of interest on the Obligations, for periods prior to Vessel delivery or redelivery, and to the shipbuilder, the Obligor or to any other Person entitled thereto, with respect to costs included in Actual Cost. Also, the Secretary may disburse to the Obligor, upon request

made at least 10 business days prior to, and no later than 30 days after the date on which the payment of interest on the Obligations is due, any excess, as determined by the Secretary, of required interest on deposit in the Escrow Fund on the date of disbursement. However, no payment or reimbursement shall be made from the Escrow Fund to any Person until:

(1) The Construction Fund (described in § 298.34 of this part), where provided for in the Security Agreement, has been exhausted;

(2) At least 12½ or 25 percent (whichever is applicable) of the Actual Cost or Depreciated Actual Cost of the Vessel for which the disbursement is requested has been paid by or for the account of the Obligor from sources other than the proceeds of the Obligations, except that where the Obligor is required to pay in 25 percent of the Actual Cost or Depreciated Actual Cost, and demonstrates to the Secretary's satisfaction the ability to pay in such 25 percent, after the Obligor has paid the first 12½ percent of the Actual Cost or Depreciated Actual Cost, the Obligor may be permitted to withdraw moneys from the Escrow Fund, for payment of the next 37½ percent of such Actual Cost or Depreciated Actual Cost, and withdraw the remainder of the Escrow Fund moneys after paying in the next 12½ percent of Actual Cost or Depreciated Actual Cost; and

(3) The Secretary has approved the Actual Cost items and has determined that the amounts for which reimbursement is requested have been paid and that there has been satisfactory certification as to the percentage of completion of the Vessel or Vessels, at least equal to that amount of Actual Cost paid, except where the Secretary has specifically consented to an alternative procedure.

(f) *Where Guarantees become payable.* If, prior to the Termination Date of the Escrow Fund, the Guarantees shall become payable by the Secretary, all amounts in the Escrow Fund at such time (including interest and realized income which have not yet been paid to the Obligor) shall be paid into the Federal Ship Financing Fund, created by section 1102 of the Act, and be credited against any amounts due or to become due to the Secretary from the Obligor with respect to all Guarantees, and to the extent not so required, be paid to the Obligor.

(g) *Requisition of title, termination of construction contract or total loss of Vessel.* In the event of requisition of title to or seizure or forfeiture of the Vessel, termination of the construction contract (unless the Obligor and the Secretary elect to have the Vessel completed) or the construction-differential subsidy contract (where

applicable), or the actual or constructive total loss of the Vessel, all moneys remaining on deposit in the Escrow Fund may be disbursed by the Secretary for any of the following purposes:

(1) Redemption or payment of Obligations and accrued interest thereon to the date of redemption or payment, in accordance with the applicable provisions of the Documentation relating to such redemption or payment, where there is no existing default;

(2) Payment to the Obligor, if all outstanding Obligations are retired and paid other than by payment of the Guarantees, and all amounts payable to the Secretary and secured by the Mortgage have been paid; and

(3) Payment in accordance with the priorities set forth in § 298.41 of this part, if a default has occurred and if the Secretary shall have paid the Guarantees.

(h) *Disbursement upon Termination Date.* The Escrow Fund shall terminate on a date agreed upon by the Obligor and the Secretary as set forth in the Security Agreement (Termination Date). If on such Termination Date the full amount of Actual Cost of the Vessel has not been paid by or for the account of the Obligor, or is not then due and payable, the Obligor and the Secretary may extend the Termination Date by agreement. When the Secretary makes a final determination of Actual Cost at the written request of the Obligor, or at the instance of the Secretary if the Termination Date has occurred without such a request, the Termination Date shall be deemed to be the date of such final determination of Actual Cost. If payments under the Guarantees have not become due prior to the Termination Date, then on or immediately after said Termination Date, any balance in the Escrow Fund shall be disbursed by the Secretary in the following manner:

(1) Where the principal amount of the Obligations issued less the principal amount of Obligations which have been retired or paid on or before such Termination Date, and not availed of as a credit against any mandatory redemptions otherwise required to be made on or before such Termination Date, shall be in excess of 75 or 87½ percent (whichever is applicable) of the Actual Cost or Depreciated Actual Cost of the Vessel as finally determined by the Secretary as of the Termination Date, the Secretary shall pay such excess to the Indenture Trustee in accordance with the provisions of the Documentation relating to such payment. A written notice from the Secretary and the Obligor shall accompany such payment, stating the Termination Date and directing the Indenture Trustee to redeem an equal amount of Obligations;

(2) From the balance remaining after the deduction of the principal amount of the Obligations to be redeemed, an amount equal to interest accrued to the date fixed for redemption of the principal amount of Obligations to be redeemed shall be simultaneously paid from the Escrow Fund by the Secretary to the Indenture Trustee to be applied to the payment of interest to the date to be fixed for redemption. In the event the balance remaining in the Escrow Fund after giving effect to paragraph (1) is insufficient to pay the interest accrued to the date fixed for redemption, such balance shall be paid from the Escrow Fund to the Indenture Trustee and the Obligor shall simultaneously deposit with the Indenture Trustee an amount equal to the difference between the balance being paid to the Indenture Trustee from the Escrow Fund and the total amount required for the payment of accrued interest; and

(3) Any balance of the Escrow Fund shall be paid to the Obligor.

(i) *Investment and liquidation of the Escrow Fund.* The Secretary may invest and reinvest deposits to the Escrow Fund in securities which are obligations of the United States and with maturities such that sufficient cash will be reasonably available to the Escrow Fund as required to make periodic authorized disbursements. The Secretary shall deposit the Escrow Fund into a special Treasury Department account with instructions, pursuant to an agreement with the Obligor, for the investment, reinvestment and liquidation of the Escrow Fund.

(j) *Income on the Escrow Fund.* If the Guarantees shall not have become due, after receiving notice that the Treasury Department has deposited income earned on the Escrow Fund into the special account, the Secretary shall direct the payment of such income to the Obligor. Income shall include the excess of the cash received from the sale of securities or the payment of securities at maturity (less any losses from the sale of securities not made up by payments by the Obligor pursuant to provisions of the Security Agreement) over the cost thereof, and interest received with respect to the securities.

(k) *Redeposit.* If, at any time, the Secretary shall have determined that there has been an improper disbursement from the Escrow Fund, the Secretary shall give written notice to the Obligor of the amount improperly disbursed, the amount to be redeposited into the Escrow Fund on account thereof and the reasons for such determination. The Obligor shall thereafter promptly redeposit such amount into the Escrow Fund.

#### § 298.34 Construction Fund.

(a) *Deposit.* Where the Security Agreement provides for an Escrow Fund deposit, usually a provision shall also be included therein for establishing Construction Fund deposits. Under the terms of this provision, at the time of each sale of Obligations the Obligor shall deposit with a Depository, in a special account subject to the joint control of the Obligor and the Secretary, cash equal to the principal amount of the Obligations issued at such time less the sum of (1) the aggregate principal amount then required to be in the Escrow Fund and (2) the amount in excess of 12½ or 25 percent of Actual Cost or Depreciated Actual Cost, as applicable (whichever is payable under § 298.33(e) of this part) which the Secretary determines has been paid by or for the account of the Obligor. The balance of the proceeds from the sale of the Obligations, after depositing the amounts required to be deposited in the Escrow Fund and/or the Construction Fund, shall be retained by the Obligor.

(b) *Withdrawals.* The Secretary shall, subject to the satisfaction of any applicable conditions contained in the Security Agreement, periodically approve disbursements from the Construction Fund directly to the Indenture Trustee or any Paying Agent for the payment of interest on the Obligations, for periods prior to Vessel delivery, and to the shipbuilder, the Obligor, or to any other Person entitled thereto with respect to costs included in Actual Cost. The Secretary shall not authorize any disbursement from the Construction Fund unless payments have been made by or for the account of the Obligor from sources other than the Obligations, in accordance with the requirements of subdivisions (2) and (3) of § 298.33(e).

(c) *Redeposit.* If, at any time, the Secretary shall have determined that there has been an improper disbursement from the Construction Fund, the Secretary shall give written notice to the Obligor of the amount improperly disbursed, the amount to be redeposited into the Construction Fund on account thereof and the reasons for such determination. The Obligor shall thereafter promptly redeposit such amount into the Construction Fund.

#### § 298.35 Reserve Fund and Financial Agreement.

(a) *Purpose.* In order to provide further security to the Secretary and to insure payment of the interest and principal due on the Obligations, the Company shall be required to enter into a Title XI Reserve Fund and Financial Agreement (Agreement) at the first Closing at which Obligations are issued. The Secretary may waive or modify provisions of the Agreement

based on an evaluation of the aggregate security for the Guarantees.

(b) *Financial Covenants for Companies meeting primary financial requirements.* Covenants shall be imposed on the Company which is subject to compliance with the primary financial requirements at Closing, set forth in § 298.13(d), as follows:

(1) *Continuous covenants.* So long as Guarantees are in effect the Company shall not, without the prior written consent of the Secretary, undertake any actions prohibited by the Documentation, which actions include but are not limited to those of the following nature:

(i) Enter into a service, management or operating agreement with respect to a Vessel financed with the assistance of Title XI Guarantees;

(ii) Sell, transfer or demise charter the Vessel or transfer the Vessel to an Affiliate under any form of charter or contract,

(iii) Sell or transfer a substantial part of its assets, enter into a merger or consolidation, engage in new business activities not directly connected with marine operations or guarantee (or otherwise be liable for) debts of other Persons.

(iv) Pay any dividend except as may be permitted by (A) or (B) below. If the Company is party to an operating-differential subsidy contract, the payment of dividends is subject to the provisions of § 298.35(g).

(A) From retained earnings in an amount specified in (C) below providing that the year in which the dividend is paid there is no operating loss in the current fiscal year to the date of the payment of the dividend and (1) there was no operating loss in the immediate preceding three fiscal years, or (2) there was a one year operating loss during the immediate preceding three fiscal years and (i) such loss was not in the immediate preceding fiscal year, and (ii) there was positive net income for the three year period.

(B) If dividends are not payable under (A) above, a dividend can be paid in an amount equal to the total operating net income for the immediate preceding three fiscal year period provided that (1) there were no two successive years of losses, (2) in the year in which the dividend is paid there is no operating loss in such fiscal year to the date of payment of the dividend, and (3) the dividend paid would not exceed an amount specified in (C) below.

(C) Dividends may be paid from earnings of prior years in an aggregate amount equal to (1) 40 percent of the Company's total net income after tax for each of the prior years, less any dividends that were paid in such years; or (2) the aggregate of the Company's total net income after tax for such

prior years, providing that after the payment of such dividend, the Company's long term debt does not exceed its net worth. In computing net income extraordinary gains, such as gains from the sale of assets, etc., shall be excluded.

(2) *Additional Covenants which may become applicable.* If the Company shall at any time no longer satisfy the primary financial requirements, or such condition would occur after giving effect to any of the proposed transactions set forth below, the Company shall not, without the prior written consent of the Secretary, undertake any actions prohibited by the Documentation, which actions include but are not limited to those of the following nature:

(i) Withdraw or redeem capital, covert capital into debt, make distributions, or pay any dividends, provided, however, if the Company is subject to an operating-differential subsidy contract, the dividend restriction shall be governed by Section 298.35(g);

(ii) Make loans, advances, investments in or repayments of existing debts to Affiliates, stockholders, officers or directors;

(iii) Incur indebtedness or become subject to any liens (except if necessary in the ordinary course of existing business); acquire fixed assets or become liable (directly or indirectly) under charters or leases (having a term of six months or more) for the payment of charter hire or rent on all such charters or leases which have annual payments aggregating in excess of an amount specified by the Secretary in the Agreement;

(iv) Pay salaries in excess of amounts specified in the Agreement, pay subordinated indebtedness or make loans; or

(v) Invest in securities other than those that qualify as eligible investments under the Agreement.

(c) *Financial Covenants for Companies meeting the alternative financial requirements.* Covenants shall be imposed on the Company which is subject to the alternative financial requirements at Closing, set forth in § 298.13(e), as follows:

(1) *Continuous covenants.* So long as the Guarantees are in effect the Company shall not, without the prior written consent of the Secretary, undertake any actions, prohibited by the Documentation, which actions include but are not limited to those of the following nature.

(i) Enter into a service, management or operating agreement for a Vessel financed with the assistance of Title XI Guarantees;

(ii) Sell, transfer or demise charter the Vessel or transfer the Vessel to an Affiliate under any form of Charter or Contract.

(iii) Sell or transfer a substantial part of its assets, enter into a merger or consolidation, engage in any new business activities not directly connected with marine operations or guarantee (or otherwise become liable for) debts of other Persons;

(iv) Incur indebtedness or become subject to any liens (except if necessary in the ordinary course of existing business); acquire fixed assets or become liable (directly or indirectly) under charters or leases (having a term of six months or more) for the payment of charter hire or rent on all such charters or leases which have annual payments aggregating in excess of an amount specified for the Secretary in the Agreement;

(v) Make any loans or invest in any securities other than Eligible Investments for Title XI Reserve Fund; or

(vi) Pay any subordinated indebtedness other than in accordance with a subordination agreement approved by the Secretary.

(2) *Additional covenants which may become applicable.* If the Company shall at any time no longer satisfy the alternative financial requirement (after including the annual financial liability relating to the Obligations as a current liability in computing Working Capital), or such condition would occur after giving effect to any proposed transaction set forth below, the Company shall not, without the prior written consent of the Secretary, undertake any actions prohibited by the Documentation, which actions include but are not limited to those of the following nature:

(i) Withdraw or redeem capital, convert capital into debt, make distributions, or pay any dividend, provided however, if the Company is subject to an operating-differential subsidy contract, the dividend restriction shall be governed by Section 298.35(g);

(ii) Make loans, advances, investments or prepayments of existing debts to Affiliates, stockholders, officers or directors, or invest in the securities of any Affiliate; or

(iii) Pay salaries in excess of amounts specified in the Agreement.

(3) *Covenants where Company's financial condition improves to meet primary financial requirements.* Whenever the Company, based on a review of its financial position, determines that it meets the primary financial requirements set forth in § 298.13(d), it may inform the Secretary of this fact, and submit such financial statements and all additional information which the Secretary shall consider necessary to verify compliance with such financial requirements. With the consent of the Secretary, the Company may elect thereafter to be subject to covenants applicable to a Company which had satisfied the pri-

mary financial requirements at Closing.

(d) *Title XI Reserve Fund Net Income.* The Agreement shall provide that within 105 days after the end of its accounting year, the Company shall compute its net income attributable to the operation of one or more Vessels that were constructed, reconstructed, reconditioned or refinanced with Title XI financing assistance (Title XI Reserve Fund Net Income). The computation utilizes a ratio expressed as a percentage, and applies this percentage to the Company's total net income after taxes. The numerator of the ratio shall be the total original capitalized cost of all Company Vessels (whether leased or owned) which were constructed, reconstructed, reconditioned or refinanced with the assistance of Guarantees. The denominator shall be the total original capitalized cost of all the Company's fixed assets. The net income after taxes, computed in accordance with generally accepted accounting principles, shall be adjusted as follows:

(1) The depreciation expense applicable to the accounting year shall be added back.

(2) There shall be subtracted:

(i) An amount equal to the principal amount of debt required to be paid or redeemed, and actually paid or redeemed by the Company (other than from the Title XI Reserve Fund) during the year; and

(ii) The principal amount of Obligations retired or paid (as defined in the Security Agreement), prepaid or redeemed, in excess of the required redemptions or payments which may be used by the Company as a credit against future required redemptions or other required payments with respect to the Obligations.

(e) *Deposits.* Unless the Company, as of the close of its accounting year, was subject to and in compliance with the primary financial requirements set forth in § 298.13(d), the Company shall make one or more deposits to a special joint depository account with the Secretary (the Title XI Reserve Fund) to be established pursuant to an agreement in writing (Depository Agreement) at the time the first deposit is required to be made. The amount of deposit as to any year, or period less than a full year, where applicable, shall be determined as follows:

(1) If the Company is the owner of the Vessel, an amount (pro rated for a period of less than a full year) that is equal to 10 percent of the Company's aggregate original equity investment in the Vessel or Vessels shall be deducted from Title XI Reserve Fund Net Income.

(2) Fifty percent of the Title XI Reserve Fund Net Income adjusted

where applicable, in accordance with subdivision (1) of this paragraph (e), shall be deposited into the Title XI Reserve Fund.

(3) There shall also be deposited any additional amounts that may be required, pursuant to provisions of the Security Agreement or any other agreement in the documentation to which the Company is a party.

(4) Irrespective of the Company's deposit requirement, as stated in preceding subdivisions (1)-(3) of this paragraph (e), the Company shall not be required to make any deposits into the Title XI Reserve Fund if any of the following events shall have occurred:

(i) The Company shall have discharged the Obligations and related Secretary's Note and shall have paid other sums secured under the Security Agreement and Preferred Mortgage;

(ii) All Guarantees with respect to outstanding Obligations shall have terminated pursuant to the provisions of the Security Agreements, other than by reason of payment of the Guarantees; or

(iii) The amount in the Title XI Reserve Fund, (including any securities at market value), is equal to, or in excess of 50 percent of the principal amount of outstanding Obligations.

(f) *Fund in lieu of Title XI Reserve Fund.* If the Company has established a Capital Construction Fund (CCF), pursuant to section 607 of the Act, whether interim or permanent, at any time when a deposit would otherwise be required to be made into the Title XI Reserve Fund, and the Company elects to make such deposits to the CCF, the Company shall enter into an agreement, satisfactory to the Secretary, providing that all such deposits of assets therein shall be security (CCF Security Amount) to the United States in lieu of the Title XI Reserve Fund. The deposit requirements of the Title XI Reserve Fund and Financial Agreement shall be deemed satisfied by deposits of equal amounts in the CCF, and withdrawal of the CCF Security Amount shall be subject to the Secretary's prior written consent. If, for any reason, the CCF terminates prior to the payment of the Obligations, the Secretary's Note and all other amounts due under or secured by the Security Agreement or Mortgage, the CCF Security Amount shall be deposited or redeposited in the Title XI Reserve Fund.

(g) Dividend restrictions applicable to companies who are parties to an operating-differential subsidy contract. (Reserved)

#### § 298.36 Annual Guarantee Fee.

(a) *Rates in general.* For annual periods, beginning with the date of the Security Agreement and prior to the delivery date of a Vessel, the Secretary

shall charge the Obligor an annual fee (Guarantee Fee) at a rate of not less than ¼ of 1 percent and not more than ½ of 1 percent of the excess of the average principal amount of the Obligations estimated to be outstanding during the annual period covered by said Guarantee Fee over the average principal amount, if any, on deposit in the Escrow Fund during said annual period (Average Principal Amount of Obligations Outstanding). For annual periods beginning with the delivery date of a Vessel, the Guarantee Fee shall be imposed at an annual rate of not less than ¼ of 1 percent and not more than 1 percent of the Average Principal Amount of Obligations Outstanding during the annual period covered by the Guarantee Fee. The Obligor shall be responsible for payment of the Guarantee Fee.

(b) *Rate calculation.* The Guarantee Fee rate generally shall vary inversely with the ratio of Equity to Long Term Debt of the Person considered by the Secretary to be the primary source of credit in the transaction (Credit Source), e.g., the long term time charterer (where the charter hire represents the source of payment of interest and principal with respect to the Obligations), the guarantor of the Obligations, Obligor or the bareboat charterer. Where the ratio of Equity to Long Term Debt (Variable Rate) is used, the Secretary may make such adjustments to the computation of Equity and Long Term Debt considered necessary to reflect more accurately the financial condition of the Credit Source. The Guarantee Fee rate shall be subject to annual redetermination by the Secretary in accordance with the tests set forth in paragraphs (c) and (d) of this section, and the Secretary shall promptly give notice to the Obligor of a rate change for such annual period. The determination of Equity and Long Term Debt shall be based on information contained in forms or statements on file with the Secretary prior to the date on which the Guarantee Fee is to be paid. With the consent of the Secretary, there shall be included in equity, but excluded from Long Term Debt, any subordinated indebtedness representing loans to the credit source, evidence of which has been delivered to the Secretary. The Secretary may establish a fixed rate or other method of calculation of the Guarantee Fee, upon an evaluation of the aggregate security for the Guarantees.

(c) *Variable Rate prior to Vessel delivery.* For annual periods beginning prior to the delivery date of a Vessel being constructed, reconstructed, or reconditioned, the Guarantee Fee shall be determined as follows:

(1) If the Equity is less than 15 percent of the Long Term Debt, the

annual Guarantee Fee rate shall be ½ of 1 percent of the Average Principal Amount of Obligations Outstanding during the annual period covered by the Guarantee Fee.

(2) If the Equity is at least 15 percent of the Long Term Debt, but less than the Long Term Debt, the annual Guarantee Fee rate shall be ¼ of 1 percent of the Average Principal Amount of Obligations Outstanding during the annual period covered by the Guarantee Fee.

(3) If the Equity is equal to or exceeds the Long Term Debt, the annual Guarantee Fee rate shall be ¼ of 1 percent of the Average Principal Amount of Obligations Outstanding during the annual period covered by the Guarantee Fee.

(d) *Variable Rate after Vessel delivery.* For annual periods beginning on or after the Vessel delivery date, the Guarantee Fee shall be determined as follows:

(1) If the Equity is less than 15 percent of the Long Term Debt, the annual Guarantee Fee rate shall be 1 percent of the Average Principal Amount of Obligations Outstanding during the annual period covered by the Guarantee Fee.

(2) If the Equity is at least 15 percent of the Long Term Debt but less than 60 percent of the Long Term Debt, the annual Guarantee Fee rate shall be ¼ of 1 percent of the Average Principal Amount of Obligations Outstanding during the annual period covered by the Guarantee Fee.

(3) If the Equity is at least 60 percent of the Long Term Debt, but less than the Long Term Debt, the annual Guarantee Fee rate shall be ¼ of 1 percent of the Average Principal Amount of Obligations Outstanding during the annual period covered by the Guarantee Fee.

(4) If the Equity shall equal or exceed the Long Term Debt, the Guarantee Fee rate shall be ¼ of 1 percent of the Average Principal Amount of Obligations Outstanding during the annual period covered by the Guarantee Fee.

(e) *Payment of Guarantee Fee.* The Initial Guarantee Fee covering the 12-month period commencing with the date of the Security Agreement shall be paid to the Secretary concurrently with the execution and delivery of said Agreement. The Guarantee Fee for each subsequent annual period must be paid to the Secretary at least 65 days prior to each anniversary of said payment. The Secretary shall refund the prepaid Guarantee Fee if the Guarantees shall have terminated, other than by reason of default, prior to the anniversary date.

(f) *Adjustment of Guarantee Fee.* If the Secretary at any time determines that the amount of any Guarantee

Fee should be adjusted for any reason, the Secretary shall promptly give written notice thereof, specifying the correct amount, the basis for computation thereof and the amount of the deficiency or excess. With respect to any deficiency, payment shall be made to the Secretary within 30 days after receipt of such notice. Any excess payment shall, except if any default has occurred and has not been cured, be refunded by the Secretary. If such refund is \$100 or less, it shall be applied as a credit against future payments unless a specific request for such refund is made to the Secretary.

(g) *Increase in Guarantee Fee due to Security Default.* If a Security Default, as described in § 298.40(c) of this part, shall have occurred and be continuing, the Secretary, after giving written notice to the Obligor of such Security Default, may increase the existing Guarantee Fee rate, if less than the maximum allowed under paragraph (a) of this section, to the maximum rate at the expiration of 60 days after receipt of notice by the Obligor, except if the Obligor shall have cured such Security Default or the Secretary shall have waived the Security Default during the 60-day period.

(h) *Proration of Guarantee Fee.* The Guarantee Fee shall be prorated where a Vessel delivery is scheduled to occur during the annual period with respect to which payment of said Guarantee Fee is being made, as follows:

(1) *Undelivered Vessel.* If the Guarantee Fee relates to an undelivered Vessel, the predelivery rate is applicable to the Average Principal Amount of Obligations Outstanding for the period from the date of the Security Agreement to the delivery date, and the delivered Vessel rate is applicable for the balance of the annual period in which the delivery occurs.

(2) *Multiple Vessels.* If the Guarantee Fee relates to more than one Vessel, the amount of outstanding Obligations shall be allocated to each Vessel in the manner prescribed in § 298.33(d), and an amount shall be determined for each Vessel by using the rate that is applicable under paragraph (c) or (d) of this section and the proration as set forth above. The Guarantee Fee shall be the aggregate of the amounts calculated for each Vessel.

(i) *Interest on late payment of Guarantee Fees.* The Secretary shall charge the Obligor interest computed at a rate equal to the prevailing rate on one-year Treasury Obligations as of December 31 of the preceding year (computed on the basis of a 365 day calendar year) with respect to the annual guarantee fee for each day following the 55th day specified in § 298.36(e) during which payment of

such fee has not been received by the Secretary.

#### § 298.37 Examination and audit.

The Secretary shall have the right to examine and audit the books, records (including original logs, cargo manifests and similar records) and books of account, which pertain directly to the project, of the Obligor, bareboat charterer, time charterer or any other Person who has control of or a financial interest in a Vessel, as well as records of Affiliates and domestic agents connected with such Persons, and shall have full, free and complete access thereto at all reasonable times. Also, the Secretary shall have full, free and complete access at all reasonable times to each Vessel with respect to which Guarantees or an insurance contract is in force. When a Vessel is in port or undergoing repairs, the Secretary may make photostatic or other copies of any books, records and other relevant documents or papers being examined or audited. Adequate office space and other facilities reasonably required by any representatives of the Secretary engaged in an examination, audit or inspection shall be furnished without charge by the Person in control of the premises where the examination or audit is being conducted.

#### Subpart E—Defaults and Remedies, Reporting Requirements, Applicability of Regulations

##### § 298.40 Defaults.

(a) *In General.* Provisions concerning the existence and declaration of a default and demand for payment of the Obligations (described in paragraphs (b) and (c) of this section) shall be included in the Security Agreement and in other parts of the Documentation.

(b) *Payment Default.* In the case of any default in the payment of principal or interest with respect to the Obligations, the following procedures shall be applicable:

(1) No demand shall be made for payment under the Guarantees unless the default shall have continued for 30 days (Payment Default).

(2) After the expiration of said 30-day period, demand for payment of all amounts due under the Guarantees must be made no later than 60 days thereafter.

(3) After demand for payment is made by or on behalf of the Obligees, the Secretary shall make payment under the Guarantees, except if the Secretary determines that a Payment Default has not occurred or that such Payment Default has been remedied prior to demand being made.

(c) *Security Default.* If a default occurs under the Security Agreement

which is other than a Payment Default (Security Default), the Secretary, as provided in section 1105(b) of the Act, shall have the sole discretion to declare such default a Security Default and may notify the Obligor or agent of the Obligor of such Security Default, stating that demand for payment under the Guarantees must be made no later than 60 days after the date of such notification.

(d) *Payment of Guarantees.* If demand for payment of the Guarantees is made, the Secretary shall, no later than 30 days after the date of such demand, make payment to the Obligees, Indenture Trustee or any other agent of the unpaid principal amount of Obligations and unpaid interest accrued and accruing thereon up to, but not including, the date of payment.

##### § 298.41 Remedies after default.

(a) *In General.* Provisions governing remedies after a default, which relate to rights and duties of the Obligor, the Secretary and other Persons (where appropriate), shall be included in the Security Agreement or in other parts of the Documentation.

(b) *Action by Secretary.* After a default has occurred and is continuing and before making payment required under the Guarantees, the Secretary may take the Vessel and hold, lease, charter, operate or use the Vessel, accounting only for the net profits to the Obligor. After making payment required under the Guarantees, the Secretary may initiate or otherwise participate in legal proceedings of every type; or take any other action considered appropriate, to protect rights and interests granted to the Secretary by sections 1105(c), 1105(e) and 1108(b) of the Act, the Security Agreement or other applicable provisions of law and of the Documentation.

(c) *Security Proceeds to Secretary.* The Secretary's interest in proceeds realized from the disposition of or collection with respect to security granted to the Secretary in consideration for the Guarantees (except all proceeds from the sale, requisition, charter or other disposition of property purchased by the Secretary at a foreclosure or other public sale, which proceeds shall belong to and vest exclusively in the Secretary), shall be an amount equal to, but not in excess of, the sum of (in order of priority of application of the proceeds):

(1) Guarantee Fees, if any, due the Secretary under the Security Agreements;

(2) All moneys due and unpaid and secured by the Mortgage or Security Agreement;

(3) All advances, including interest thereon, by the Secretary, pursuant to the Security Agreement and all rea-

sonable charges and expenses of the Secretary;

(4) The accrued and unpaid interest on the Secretary's Note;

(5) The accrued and unpaid balance of the principal of the Secretary's Note; and

(6) To the extent of any collateralization by the Obligor of other debt due to the Secretary from the Obligor under other Title XI financings, such other Title XI debt.

(d) *Security proceeds to Obligor.* The Obligor shall be entitled to the proceeds from the sale or other disposition of security, described in paragraph (c) of this section, if and to the extent that the proceeds realized are in excess of:

(1) The aggregate of payments made pursuant to the Guarantees; and

(2) The actual expenses of collection of security proceeds, or a specific amount provided for in the Documentation.

##### § 298.42 Reporting requirements—financial statements.

The accounts of the Company shall be audited at least annually, in accordance with generally accepted auditing standards, by independent certified public accountants licensed to practice by the regulatory authority of a State or other political subdivision of the United States or, licensed public accountants licensed to practice by the regulatory authority or other political subdivision of the United States on or before December 31, 1970. The accountants performing such audits may be the regular auditors of the Company.

(a) *Reports of Company and other Persons.* Except as otherwise required by the Secretary, the Company shall file a semiannual financial report and an annual financial report, prepared in accordance with generally accepted accounting principles, with the Maritime Administration as specified in the Documentation. Included shall be the balance sheet and a statement of paid-in-capital and retained earnings at the close of the required reporting period, a statement of income for the period and any other statement that the Secretary shall consider necessary to accurately reflect the Company's financial condition and the results of its operations. By letter to the Company, the Secretary shall specify the form required for reporting and the number of copies to be submitted. The Secretary may, by notice to the Company, also require the Company to submit financial statements of any other Person, directly or indirectly participating in the project, if the financial condition of that Person affects the Secretary's security for the Guarantees. The required financial report for the annual period shall be due within

105 days after the close of each fiscal year of the Company, commencing with the first fiscal year ending after the date of the Security Agreement. The required semiannual report shall be due within 105 days after each semiannual period, commencing with the first semiannual period ending after the date of the Security Agreement. The annual and semiannual reports, respectively shall be in the form prescribed or approved by the Secretary. The annual report shall be certified by the public accountants after audit. Certification of the semiannual report by the accountants may be required by the Secretary. Where independent certification is not required, a responsible corporate officer shall attach a certification that such report is based on the accounting records and, to the best of that officer's knowledge and belief, is accurate and complete.

(b) *Leveraged lease financing.* If the method of financing involved is a leveraged lease financing, or a trust is the owner of the Vessels, the requirements for annual and semiannual accounting reports of the Obligor may be modified accordingly by the Secretary.

##### § 298.43 Applicability of the Regulations.

The regulations in this part shall be in effect as to all applications for commitments for Guarantees, commitments to guarantee Obligations and Guarantees of Obligations made, issued or entered into after the effective date hereof pursuant to section 1104(a) of the Act, and all mortgages and loans covered thereby. These regulations supersede those issued under Part 298 of this title (23 F.R. 384) as of the effective date hereof, but shall not affect any commitment for Guarantees, Guarantees or contracts of insurance in existence on the effective date of these regulations. The regulations in this part may be amended, but said amendments shall have no effect upon any existing Guarantees, insurance contracts, commitment for Guarantees or Documentation.

#### Subpart F—Administration (Reserved)

(Section 304(b), 1109, Merchant Marine Act, 1936, as amended ((46) U.S.C. 1114(b), 1279(b)), Reorganization Plans No. 21 of 1950 (64 Stat. 1273), and No. 7 of 1961 (75 Stat. 840), as amended by P.L. 91-469 (84 Stat. 1036); and Department of Commerce Organization Order 10-8 (38 F.R. 19707, July 23, 1973).)

Dated: December 22, 1978.

By Order of the Assistant Secretary for Maritime Affairs, Maritime Administration.

JAMES S. DAWSON, JR.,  
Secretary,  
Maritime Administration.

#### Title 47—Telecommunication

### CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

(FCC 78-854)

#### PART I—PRACTICE AND PROCEDURE

#### Combining FCC Forms 701 and 321 and Amending Section 1.534 of the Rules

##### PREAMBLE

AGENCY: Federal Communications Commission.

ACTION: Order.

SUMMARY: In an effort to reduce paperwork, the FCC combines two application forms into one. FCC Form 701, "Application for Additional Time to Construct Radio Station;" and FCC Form 321, "Application for Construction Permit to Replace Expired Construction Permit," are combined into a new Form 701, "Application for Extension of Construction Permit or to Replace Expired Construction Permit."

DATE: Effective March 23, 1979, unless notice is given of a later effective date.

ADDRESSES: Federal Communications Commission, Washington, D.C. 20554.

#### FOR FURTHER INFORMATION CONTACT:

Lorraine B. Schnaebele, Broadcast Bureau, (202) 632-9660.

#### SUPPLEMENTARY INFORMATION:

In the Matter of combining FCC Forms 701 and 321 and amending § 1.534 of the Rules accordingly; order.

Adopted: December 12, 1978.

Released: December 20, 1978.

By the Commission:

1. In its continuing effort to reduce paperwork, the Commission is combining two of its application forms into one. FCC Forms 701, "Application for Additional Time to Construct Radio Station," and 321, "Application for Construction Permit to Replace Expired Permit," are combined into a single, new FCC Form 701.

2. Section 1.534 of our Rules is being amended accordingly.

3. We conclude that adoption of the form and the amendment of Section 1.534 will serve the public interest, convenience and necessity. The new form and the amendment impose no additional burdens and raise no issue upon which comments would serve any useful purpose. Accordingly, prior notice of rule making, effective date provisions and public procedure thereon are unnecessary pursuant to the Administrative Procedure and Judicial Review Act provisions of 5 U.S.C. 553(b)(3)(B).

4. Therefore, *it is ordered*, That, pursuant to Sections 4(i) and 303(r) of the Communications Act of 1934, as amended, the Commission's Rules and Regulations are amended as set forth in the attached Appendix A; and the new FCC Form 701 as set forth in Attachment B is adopted, subject to approval by the General Accounting Office. The effective date of each is March 23, 1979, unless notice is given of a later effective date.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303.)

FEDERAL COMMUNICATIONS  
COMMISSION.  
WILLIAM J. TRICARICO,  
Secretary.

Attachment: Appendices A and B.

#### APPENDIX A

1. Section 1.534 is amended to read as follows:

Section 1.534 Application for extension of construction permit or for construction permit to replace expired construction permit.

(a) Application for extension of time within which to construct a station shall be filed on FCC Form 701, "Application for Extension of Construction Permit or to Replace Expired Construction Permit." The application shall be filed at least 30 days prior to the expiration date of the construction permit if the facts supporting such application for extension are known to the applicant in time to permit such filing. In other cases, an application will be accepted upon a showing satisfactory to the Commission of sufficient reasons for filing within less than 30 days prior to the expiration date. Such applications will be granted upon a specific and detailed showing that the failure to complete was due to causes not under the control of the grantee, or upon a specific and detailed showing of other matters sufficient to justify the extension. If approved, such extensions will be limited to periods of not more than 6 months.

(b) Application for a construction permit to replace an expired construction permit shall be filed on FCC Form 701. Such applications must be filed within 30 days of the expiration date of the authorization sought to be replaced. If approved, such authorization shall specify a period of not more than 6 months within which construction shall be completed and application for license filed.

| <b>INSTRUCTIONS</b><br>A. This form is to be used in all cases when applying for additional time to construct a station or when applying for construction permit to replace expired permit. (See the following Parts of the Commission's Rules:<br><b>BROADCAST - Part 1</b><br><b>COMMON CARRIER - Parts 21, 23 and 25</b><br>B. Prepare and file two copies if for any class of broadcast service; if for common carrier service prepare and file one copy. File with the Federal Communications Commission, Washington, D.C. 20554 (Sign all copies)<br>C. The name of the applicant must be stated exactly as it appears on the construction permit/expired construction permit.<br>D. This application shall be personally signed by the applicant, if any applicant is an individual, by one of the partners, if the applicant is a partnership; by an officer, if the applicant is a corporation; by a member who is an officer, if the applicant is an unincorporated association; by such duly elected or appointed officials as may be competent to do so under the laws of the applicable jurisdiction, if the applicant is an eligible government entity; or by the applicant's attorney in case of the applicant's physical disability or of his absence from the United States. The attorney shall, in the event he signs for the applicant, separately set forth the reason why the application is not signed by the applicant. In addition, if any matter is stated on the basis of the attorney's belief only (rather than his knowledge), he shall separately set forth his reasons for believing that such statements are true.<br>E. BE SURE ALL NECESSARY INFORMATION IS FURNISHED AND ALL PARAGRAPHS ARE FULLY ANSWERED. IF ANY PORTIONS OF THE APPLICATIONS ARE NOT APPLICABLE SPECIFICALLY SO STATE. DEFECTIVE OR INCOMPLETE APPLICATIONS MAY BE RETURNED WITHOUT CONSIDERATION. | 2. Address (Number, street, city, state, zip code)<br><br>Telephone No. (Include Area Code)                                                                                                                                                                                                                                                                                                                                                                                                      |              |                        |           |                              |                  |  |

7. Are the representations contained in the application for construction permit still true and correct?

☐ YES ☐ NO

If No, give particulars in Exhibit

THE APPLICANT hereby waives any claim to the use of any particular frequency or of ether as against the regulatory power of the United States because of the previous use of the same, whether by license or otherwise, and requests an authorization in accordance with this application (See Section 304 of the Communications Act of 1934).

THE APPLICANT represents that this application is not filed for the purpose of impeding, obstructing, or delaying determination on any other application with which it may be in conflict.

THE APPLICANT acknowledges that all statements made in this application and attached exhibits are considered material representations, and that all the exhibits are a material part hereof and are incorporated herein as if set out in full in the application.

## CERTIFICATION

I certify that the statements in this application are true, complete and correct to the best of my knowledge and belief, and are made in good faith.

Signed and dated this \_\_\_\_\_ day of \_\_\_\_\_, 19\_\_\_\_.

WILLFUL FALSE STATEMENTS MADE ON THIS FORM ARE PUNISHABLE BY FINE AND IMPRISONMENT. U. S. CODE, TITLE 18, SECTION 1001.

## FCC NOTICE TO INDIVIDUALS REQUIRED BY THE PRIVACY ACT

The solicitation of personal information requested in this application is authorized by the Communications Act of 1934, as amended.

The principal purpose(s) for which the information will be used is to determine if the benefit requested is consistent with the public interest.

The staff, consisting variously of attorneys, accountants, engineers, and application examiners, will use the information to determine whether the application should be granted, dismissed, or designated for hearing.

If all the information requested is not provided, the application may be returned without action having been taken upon it or its processing may be delayed while a request is made to provide the missing information. Accordingly, every effort should be made to provide all necessary information.

THE FOREGOING NOTICE IS REQUIRED BY THE PRIVACY ACT OF 1974, P. L. 93-579, DECEMBER 31, 1974, 5 U. S. C. 552a (e) (3).

## Title 50—Wildlife and Fisheries

## CHAPTER VI—FISHERY CONSERVATION AND MANAGEMENT, NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION, DEPARTMENT OF COMMERCE

## PART 611—FOREIGN FISHING

## 1978 Quarterly Reports

AGENCY: National Oceanic and Atmospheric Administration/Commerce.

ACTION: Final regulation.

SUMMARY: This regulation provides instructions for submission of quarterly reports covering fishing operations conducted in 1978 by foreign vessels in the Northwest Atlantic Ocean, under the authority of the Fishery Conservation and Management Act of 1976 (16 U.S.C. 1801 *et seq.*, as amended).

DATES: This regulation is effective immediately. All quarterly reports for 1978 must be submitted by April 1, 1979.

## FOR FURTHER INFORMATION CONTACT:

Dr. Eugene Heyerdahl, Director, Northeast Fisheries Center, National Marine Fisheries Service, Woods Hole, Massachusetts 02543; telephone (617) 548-5123.

SUPPLEMENTARY INFORMATION: The proposed foreign fishing regulations for 1978, which were published September 9, 1977 (42 FR 45551), contained a requirement for the submission of quarterly reports on foreign fishing activities in the Northwest Atlantic Ocean (§ 611.50(f)(4)). That provision was virtually identical to the 1977 requirement (paragraph (f)(3) for sections 611.50-611.54, 42 FR 8811), except that the 1978 data were to be recorded in weekly segments, while the 1977 data had been recorded in bi-weekly segments.

When the final foreign fishing regulations for 1978 were published (42 FR 60681, November 28, 1977), the quarterly report provision, § 611.50(d)(2), was reserved. The National Marine Fisheries Service was developing the more elaborate reporting requirements which will apply to foreign fishing vessels in 1979 (see 1979 foreign fishing regulations, § 611.50(e)(2), 43 FR 59291, December 19, 1978). Because these provisions were not completed until late in 1978, they will not be applied to reports on fishing activities in 1978. Instead, the regulation proposed for 1978 is adopted as final. Reports for all four quarters of 1978 must be

## RULES AND REGULATIONS

submitted by April 1, 1979, to: Director, Northeast Fisheries Center, National Marine Fisheries Service, Woods Hole, Massachusetts 02543.

The Assistant Administrator for Fisheries has determined that this regulation does not constitute a major Federal action requiring the preparation of an environmental impact statement, nor does it require a regulatory impact analysis under Executive Order 12044. Because the regulation must take effect before the end of 1978, the Assistant Administrator has determined that any further comment period is unnecessary and against the public interest.

Signed at Washington, D.C., this 22nd day of December, 1978.

(16 U.S.C. 1801 *et seq.*)

JACK W. GEHRINGER,  
Deputy Assistant Administrator  
for Fisheries, National Marine  
Fisheries Service.

§ 611.50(d)(2). Quarterly report (1978 foreign fishing regulations) is adopted as follows:

- (d) . . . . .
- (2) *Quarterly report.* A quarterly report shall be submitted by the designated representative of each foreign nation. Reports must be submitted no later than April 1, 1979. The quarterly report shall contain catch and effort statistics for all species and gear types for weekly time periods reflecting 0°30' square areas on a vessel by vessel basis. Reports shall be submitted using 0°30' square areas on either Statland 21B Forms, magnetic tape, computer cards, or printouts.

## CHAPTER I—UNITED STATES FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

## PART 33—SPORT FISHING

## Opening of DeSoto National Wildlife Refuge, Iowa and Nebraska, to Sport Fishing

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Special Regulation.

SUMMARY: The Director has determined that the opening to sport fishing of DeSoto National Wildlife Refuge is compatible with the objec-

tives for which the area was established, will utilize a renewable natural resource, and will provide additional recreational opportunity to the public.

DATES: January 1, 1979 through February 28, 1979 and April 15, 1979 through September 30, 1979.

## FOR FURTHER INFORMATION CONTACT:

George E. Gage, Refuge Manager, DeSoto NWR, R-1, Box 114, Missouri Valley, Iowa 51555, telephone AC 712-642-4121.

## SUPPLEMENTARY INFORMATION:

## § 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

Sport fishing is permitted on the DeSoto National Wildlife Refuge, Iowa and Nebraska, only on areas designated by signs and maps as being open to fishing. These areas, comprising 800 acres, are delineated on maps available at the refuge headquarters and from the office of the Area Manager, U.S. Fish and Wildlife Service, Suite 106, Rockcreek Office Building, 2701 Rockcreek Parkway, North Kansas City, Missouri 64116. Sport fishing shall be in accordance with all applicable Iowa or Nebraska regulations, depending upon which state the person is properly licensed for, and subject to the following special regulations:

1. Area open to ice fishing during daylight hours only from January 1, 1979 through February 28, 1979 provided that ice conditions are safe enough to permit this activity.
2. Area open to sport fishing 6:00 a.m. to 10:00 p.m., from April 15, 1979 through September 30, 1979. Entrance not permitted after 9:00 p.m.
3. Trot or throw lines and float lines are not permitted.
4. Archery fishing and spear fishing is permitted from May 1, 1979, through June 15, 1979. Only the following fishes can be taken with bow and arrow or spear: Bigmouth buffalo (*Ictiobus cyprinellus*), Smallmouth buffalo (*Ictiobus bubalus*), Carp (*Cyprinus carpio*), Longnose Gar (*Lepisosteus osseus*), and Shortnose Gar (*Lepisosteus platostomus*).
5. Taking or attempting to take bait by digging or seining is not permitted.
6. Fishing with more than two lines and with more than two hooks on each line is not permitted.
7. Motor or wind driven conveyances are not permitted on the lake from January 1, 1979 through February 28, 1979.
8. The use of boats, with or without motors, is permitted from April 15, 1979 through September 30, 1979.
9. From September 15, 1979 through September 30, 1979, only boats with-

out motors or boats with motors of 25 horsepower or less are permitted.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33. The public is invited to offer suggestions and comments at any time.

Dated: December 12, 1978.

GEORGE E. GAGE,  
Refuge Manager.

# proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

[6325-01-M]

## CIVIL SERVICE COMMISSION

[5 CFR Part 890]

### FEDERAL EMPLOYEES HEALTH BENEFITS PROGRAM

Effective Dates; Birth or Acquisition of a Child

AGENCY: Civil Service Commission.

ACTION: Proposed rulemaking.

**SUMMARY:** An enrollee of the Federal Employees Health Benefits Program who is enrolled for self only and who has a baby, or acquires a child as a new family member in some other manner, may change to a family enrollment and provide coverage for the child after the birth or acquisition occurs. However, under current regulations, the earliest such a change can become effective is the first day of the first pay period which begins after the registration to change enrollment is received in the employing office. As a result, medical expenses of the child incurred between birth or acquisition and the effective date of the change must be borne entirely by the employee or annuitant. The proposed amendment would permit a change to family coverage made in conjunction with the birth or acquisition of a child to become effective on the first day of the pay period in which the child is born or acquired, or, if not in pay status at that time, the first day of the pay period in which the enrollee returns to pay status.

**DATE:** Comments must be received on or before February 27, 1979.

**ADDRESS:** Comments should be directed to Thomas A. Tinsley, Director, Bureau of Retirement, Insurance, and Occupational Health, Civil Service Commission, 1900 E. St., NW., Washington, DC 20415.

#### FOR FURTHER INFORMATION CONTACT:

Edward G. Borchers, Bureau of Retirement, Insurance, and Occupational Health, Office of Policy Development and Technical Services, Room 4334, 1900 E Street NW., Washington, D.C. 20415, 202-632-4684.

It is proposed to amend 5 CFR 890.306 by redesignating the present paragraph (d) as paragraph (e) and

adding a new paragraph (d) as set out below:

§ 890.306 Effective Dates.

(d) *Birth or addition of a child.* The effective date of a change in enrollment under § 890.301(e) made in conjunction with the birth of a child, or the addition of a child as a new family member in some other manner, is the first day of the pay period in which the child is born or becomes an eligible family member. However, if the enrollee is not in a pay or annuity status during that pay period, the enrollment shall not become effective until the first day of the first pay period in which the enrollee returns to pay or annuity status.

(e) *Generally.* . . .

## DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

[9 CFR Part 92]

### IMPORTATION OF CATTLE EXPOSED TO SPLENETIC, SOUTHERN OR TICK FEVER OR FEVER TICKS

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Advance Notice of Proposed Rulemaking.

**SUMMARY:** This document will serve to give advance notice to the Department's intent to consider amending the import regulations which provide for the importation of cattle which have been exposed to splenic, southern or tick fever or have been infested with or exposed to fever ticks within the 60 days preceding their importation into the State of Texas from Mexico. This action is believed to be needed to provide additional protection to livestock of the United States against the introduction and spread of tick fever and cattle fever ticks. The effect of this action is to notify the public of the Department's intent to

review the importation of such cattle from Mexico.

**DATE:** Comments on or before March 29, 1979.

**ADDRESS:** Comments to Deputy Administrator, USDA, APHIS, VS, Federal Building, Room 734, Hyattsville, Maryland 20782.

#### FOR FURTHER INFORMATION CONTACT:

Dr. D. E. Herrick, USDA, APHIS, VS, Federal Building, Room 815, Hyattsville, Maryland 20782, (301) 436-8170.

**SUPPLEMENTARY INFORMATION:** The Act of August 30, 1890, as amended (21 U.S.C. 104), authorizes the Secretary of Agriculture, within his discretion and under such regulations as he may prescribe, to permit the admission from Mexico into the State of Texas of cattle which have been infested with or exposed to ticks upon being freed therefrom.

The regulations (9 CFR 92.35(a)) provide that cattle which have been exposed to splenic, southern or tick fever, or which have been infested with or exposed to fever ticks may be imported into the State of Texas from Mexico, except into areas quarantined because of said disease or tick infestation provided certain specified conditions are met. Such cattle must be freed of ticks before importation and are prohibited importation into any State other than Texas. However, if the cattle were exposed to splenic, southern or tick fever or were infested with or exposed to ticks within 60 days of their importation, there appears to be a significant likelihood that such cattle may be carrying splenic, southern or tick fever. This is believed to impose an undue threat of introduction and spread of disease among livestock of the United States. Further, permitting the importation of such cattle is believed to diminish the incentive for controlling and eradicating ticks in areas of Northern Mexico adjacent to the United States-Mexico international boundary and contributes to the continuing spread of splenic, southern or tick fever into Texas from Mexico. Additionally, it creates a heavy financial burden on the cattle industry of the United States and on State and Federal Governments because of funds required to conduct tick eradication activities.

In view of these facts a determination has been made by the Department that the practice of importing cattle into the State of Texas from Mexico which have been exposed to splenic, southern or tick fever, or which have been infected with or exposed to fever ticks within the 60 days preceding their movement to the port of entry should be reviewed.

Therefore, by means of this document the Department gives advance notice of its intent to propose an amendment to the regulations at a future appropriate date which would delete the provisions contained in the regulations (9 CFR 92.35(a)) which provide for the importation of such cattle from Mexico into the State of Texas.

A target date of January 1, 1980, has been set by the Department for completion of the rulemaking process.

Done at Washington, D.C. this 21st day of December 1978.

PIERRE A. CHALOUX,  
Deputy Administrator,  
Veterinary Services.

## DEPARTMENT OF ENERGY

Economic Regulatory Administration

[10 CFR Parts 211 and 212]

[Docket No. ERA-R-78-18]

### PRODUCTION INCENTIVES FOR MARGINAL PROPERTIES

Changed Hearing

AGENCY: Economic Regulatory Administration, Department of Energy.

ACTION: Change in Hearing Location.

**SUMMARY:** On November 2, 1978 (43 FR 52186, November 8, 1978) the Economic Regulatory Administration (ERA) of the Department of Energy (DOE) issued a notice of proposed rulemaking and public hearing concerning production incentives for marginal properties.

**DATE:** Public hearing—January 9, 1979—Austin, Texas.

**ADDRESS:** The public hearing on this proposal scheduled for Austin, Texas, on January 9, 1979 will take place at the Lone Star Room, Austin Marriott, 6121 I-35 North at U.S. Highway 290. This is a change from the location announced in the notice which was the Federal Building Room 5777, 300 East 8th Street, Austin, Texas.

## FEDERAL RESERVE SYSTEM

[12 CFR Part 205]

[Reg. E; Docket No. R-0193]

### ELECTRONIC FUND TRANSFERS

Scope and Purpose, Exempted Transfers, Issuance of Access Devices, Conditions of Liability of Consumer for Unauthorized Transfers, and Definitions and Rules of Construction

AGENCY: Board of Governors of the Federal System.

ACTION: Proposed rule.

**SUMMARY:** The Board is publishing for comment regulations to implement two sections of the Electronic Fund Transfer Act which become effective on February 8, 1979. Section 911 of the Act relates to issuance of cards or other means of access and § 909 to consumer liability for unauthorized transfers. The Board is also proposing certain model disclosure clauses and is publishing for comment two tentative outlines of the complete regulation. Finally, the Board is also publishing for comment an economic impact analysis, as required by § 904 of the Act.

**DATE:** Comments must be received on or before January 29, 1979.

**ADDRESS:** Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551. All material submitted should refer to docket number R-0193.

#### FOR FURTHER INFORMATION CONTACT:

Regarding the regulation: Dolores S. Smith, Section Chief, Division of Consumer Affairs, Board of Governors of the Federal Reserve System, Washington, D.C. 20551 (202-452-2412). Regarding the economic impact analysis: Cynthia A. Glassman, Economist, Division of Research and Statistics, Board of Governors of the Federal Reserve System, Washington, D.C. 20551 (202-452-2611).

**SUPPLEMENTARY INFORMATION:** (1) *Introduction; General Matters.* The Board is publishing for comment five sections of Regulation E<sup>1</sup> to implement certain provisions of the Electronic Fund Transfer Act (Title XX, Pub. L. 95-630), enacted on November 10, 1978. The Act, which requires the Board to issue implementing regulations, will provide the following rights and responsibilities, among others, to participants in electronic fund transfers: disclosure to consumers of the terms and conditions of EFT services, right to documentation of transfers and to periodic account statements, establishment of error resolution procedures, limits on consumer liability for unauthorized transfers, restrictions on unsolicited issuance of EFT cards, and the liability of financial institutions in certain instances for failure to make transfers or to stop payment of preauthorized transfers.

The effective date of most of the Act is May 10, 1980. Sections 909 and 911, however, will become effective 90 days after enactment, on February 8, 1979. These two sections establish, respectively, limits on consumer liability for unauthorized transfers which occur

<sup>1</sup>Please note that the original Regulation E, Purchase of Warrants, was rescinded as of November 9, 1978 (43 FR 53708, Friday, November 17, 1978).

after loss, theft or unauthorized use of an EFT card, code or other means of access and a partial ban on the unsolicited issuance of EFT access devices.

Section 904(a)(1) of the Act requires the Board, when prescribing regulations, to consult with the other Federal agencies that have enforcement responsibilities under the Act. Members of the Board's staff have met with staff members from the enforcement agencies.

Federal savings and loan associations should note that they will be subject to the provisions of Regulation E and that there may be some inconsistency between this regulation and the Federal Home Loan Bank Board's regulation governing remote service units (12 CFR 545.4-2). The Board of Governors has been advised by the Bank Board that § 545.4-2 will be promptly amended to conform to the Act and Regulation E.

Section 904(a)(2) requires the Board to prepare an analysis of the economic impact of the regulation on the various participants in electronic fund transfer systems, the effects upon competition in the provision of electronic fund services among large and small financial institutions, and the availability of such services to different classes of consumers, particularly low-income consumers. Section 904(a)(3) requires the Board, to the extent practicable, to demonstrate that the consumer protections provided by the proposed regulation outweigh the compliance costs imposed upon consumers and financial institutions. The Board has prepared a preliminary statement on the foregoing issues, which is published in section (4) herein, and solicits comment on the statement. The statement and the proposed regulation have been transmitted to Congress, as required by § 904(a)(4).

The Act (in § 904(b)) requires the Board to issue model disclosures clauses, written in readily understandable language, for optional use by financial institutions to facilitate compliance with the disclosure requirements of § 905 and to aid consumer understanding of the rights and responsibilities provided by the Act. Although § 905 does not take effect until May, 1980, § 911(b)(2) requires disclosures comparable to those required by § 905, and § 911 becomes effective in February, 1979. Thus, it is appropriate for the Board to propose model clauses for these disclosures now, along with the regulations implementing § 911. In addition, § 911(b)(3) requires that the Board provide a clear disclosure for use by issuers to inform consumers that an unsolicited access device is not validated and how the consumer may dispose of the device if it is not wanted. The Board is proposing model

clauses for the disclosures that would be required by the regulation to implement § 911(b)(2) on an interim basis, and for the disclosure required by § 911(b)(3) of the Act and the corresponding provision in the regulation. The model clauses are discussed in detail in section (3) of this material.

Section 904(c) permits the Board to modify the requirements of the Act as they affect small financial institutions upon a determination that such modifications are necessary to alleviate any undue compliance burden upon such institutions. The Board solicits comment on whether any such modifications in the proposed sections are necessary. Comments on this issue should attempt to demonstrate that compliance with the proposed regulation would impose undue cost, administrative or other burdens upon small financial institutions.

Section 904(d) requires the Board to assure that the requirements of the Act are imposed upon persons (other than financial institutions holding a consumer's account) that are offering consumers electronic fund transfer services. The Board solicits information regarding the offering of such services by non-financial institutions, a description of the services, and whether specific provision should be made in the regulation to insure that such persons are subject to the Act's requirements.

The Board also proposes to reassign five Public Information Letters issued under Regulation Z (445, 520, 528, 921 and 1082) because they conflict with the proposed regulation. The Board solicits comment on whether these letters or any other letters should be rescinded.

The Board is publishing two tentative outlines of the entire regulation that reflect somewhat different approaches to the regulation's structure. The Board solicits comment on which of the two outlines represents the more functional structure for the regulation.

(2) *Regulatory Provisions.* Section 205.1—*Scope and Purpose.* This section is an introductory statement of the regulation's requirements and is intended to provide consumers, financial institutions and issuers with general information about the Act and regulation.

Section 205.2—*Exempted Transfers.* The Act does not contain a separate section devoted to exemptions. However, § 903(6), which defines "electronic fund transfer," excludes certain services from the Act's coverage. For clarity, the proposed regulation sets forth these exemptions in this separate, freestanding section.

Briefly, the transfers that would be exempted are: (a) electronic check, draft or similar paper instrument au-

thorization services that do not directly debit or credit a consumer's account, (b) transfers for consumers by Fedwire, Bankwire or similar wire transfer services, (c) purchases or sales of securities or commodities by brokers registered with or regulated by the Securities and Exchange Commission, (d) automatic transfers of funds from savings to demand deposit accounts, as permitted by recent amendment of 12 CFR § 217.5(c)(2) and (3) (Regulation Q) and 12 CFR § 329.5(c)(2) and (3), and (e) transfers initiated by telephone that are not made pursuant to an arrangement between the consumer and the financial institution. The language in which these five types of exemptions are described is virtually identical to the corresponding language in the Act.

The Board solicits the opinions of commenters as to whether other transfers, such as those involving mutual funds or pension accounts, should also be exempted and, if so, for what reasons. Also, in connection with exemption (c) in particular, comments are invited on whether transactions within the jurisdiction of the Commodities Futures Trading Commission should also be exempted. With reference to exemption (d), comment is solicited on whether automatic transfers among other types of accounts within one institution should also be entitled to the exemption.

Section 205.3—*Issuance of Access Devices.* Section 205.3(a) implements § 911(a) of the Act, which prohibits the unsolicited issuance of validated EFT cards. The statutory and regulatory provisions are essentially identical, except that the regulation is structured differently for clarity, the term "access device" has been substituted for "card, code, or other means of access," and the regulation provides that a request or application for an access device may be oral or written, as presently permitted by Regulation Z with respect to credit cards. The Board solicits comment on whether such latitude should be permitted.

The public is asked to address the following alternatives relating to jointly-held accounts: (1) Whether the regulation should permit issuance of a separate access device to each party on the account when only one has applied for a device, or (2) whether the regulation should require that all account holders must request or apply for an access device before one can be issued. As the prohibition on unsolicited issuance of access devices is designed in part to protect against unauthorized transfers initiated without the consumer's knowledge, some restrictions on requests by an account holder without a similar request from other holders may be appropriate, and the Board solicits comments on which of the two

alternatives listed above (or other alternatives) is most beneficial to consumers and issuers.

Section 205.3(b) implements § 911(b) of the Act. It would permit the unsolicited issuance of an access device if four conditions are satisfied. First, the unsolicited device cannot be validated, that is, capable of being used by the consumer to initiate an electronic fund transfer. Second, the issuer must include a written disclosure of the consumer's rights and liabilities which will apply if the device is validated. Third, the issuer must also disclose that the device is not validated and how a consumer not wishing validation can dispose of the device. Fourth, the access device may be validated only upon request of the consumer and after verification of the consumer's identity. Section 205.3(b)(1) sets forth these four conditions and is almost identical to § 911(b), except that the regulation makes clear that validation of an unsolicited device can occur only in response to a request or application for validation, and not, for example, in response to a blanket authorization in an earlier application to open an ordinary checking account; however, the regulation specifies that the request may be oral or written.

Section 205.3(b)(2) specifies methods by which a consumer's identity must be verified before an unsolicited access device can be validated. It should be noted that such verification is required, under § 205.3(b)(1)(iv), only for devices that have been distributed on an unsolicited basis. The Act contains no provision specifying verification methods. However, the Board believes that issuers, in order to protect themselves from liability, should exercise care in verifying a consumer's identity before validation of an access device, and the Senate committee report indicated the committee's expectation that the Board would assure that adequate verification procedures be used by issuers (S. Rep. No. 95-915, 95th Cong., 2nd Sess. 16 (1978)). Therefore, § 205.3(b)(2) would require that the consumer's identity be verified by comparison of the consumer's signature with the issuer's account records or with another signed instrument, or by photograph, fingerprint or personal visit.

The Board solicits comment on whether the proposal on verification would unduly limit the ability of card issuers to issue unsolicited access devices or the ability of consumers to have such devices validated. In particular, since new methods of identification, such as voiceprint, may become feasible, commenters should specify what additional methods should be added, or how the proposal should otherwise be changed, so as to permit continuing innovation in this area.

Comment is also solicited on whether the proposed verification requirements would provide an adequate safeguard to either consumers or issuers.

Section 205.3(b)(3) is drawn from § 911(c); it would provide that an access device is to be considered validated when the issuer takes the necessary steps to permit the consumer to initiate an electronic fund transfer. The statute and the regulation differ in that the latter emphasizes that validation is tied to some affirmative action or actions by the issuer.

The Board is aware that issuers currently use different methods of validation, and is mindful that specifying only certain means of validation may unnecessarily limit development of other methods. The Board therefore solicits comment on the need for specifying means of validation and the benefits that would be gained were the regulation to do so.

To forestall confusion, § 205.3(c) explains what the Board believes was the Congressional intent regarding the relationship between the Truth in Lending Act and the Electronic Fund Transfer Act. Truth in Lending and Regulation Z prohibit the unsolicited issuance of credit cards. Section 205.3(c) provides that the EFT Act governs the issuance of access devices and the addition of an EFT feature to an accepted credit card and that Truth in Lending governs the issuance of credit cards, combined access devices/credit cards and the addition of a credit feature to an accepted access device. There is no comparable provision in the EFT Act itself.

Section 911(b)(2) of the Act requires that any distribution of unsolicited access devices be accompanied by "a complete disclosure, in accordance with section 905, of the consumer's rights and liabilities which will apply if such card, code, or other means of access is validated." Section 905 of the Act does not become effective until May, 1980, and many of the disclosures it mandates relate to substantive rights that consumers will not have until that time (e.g., right to documentation and error resolution procedures). The Board feels a significant consumer protection would be lost if some initial disclosures were not given when unsolicited devices are distributed. For that reason, § 205.3(d) would require issuers, until May 10, 1980, to give the disclosures required by § 905 when distributing unsolicited devices. These disclosures would cover the following areas:

(a) The consumer's liability for unauthorized electronic fund transfers and the address and telephone number of the person to be notified in the event of loss or theft of the access device or possible unauthorized transfer.

(b) The type and nature of transfers which the consumer may initiate, the

charges imposed for such transfers, and any limits on the frequency or amount of the transfers that the consumers may make.

(c) The circumstances under which a financial institution, if one is involved, will disclose account information to third parties.

Model clauses for these disclosures are also proposed.

In addition, the regulation would require that the issuer disclose whether or not the following rights and procedures are available to the consumer:

(a) The consumer's right to stop payment of preauthorized transfers and how to do so.

(b) The consumer's right to receive documentation of transfers.

(c) A summary of the issuer's or institution's error resolution procedures.

(d) The issuer's or institution's liability to the consumer for failure to make transfers.

It should be emphasized that issuers and institutions need not comply with the rights and procedures disclosed under § 205.3(d)(6) through (9) as they are set forth in the Act until May 10, 1980. If they do provide them, they may be structured in any manner.

Model clauses are not proposed for the last four disclosures in § 205.3(d) because there are no uniform requirements that would make such clauses feasible.

Section 205.4—*Liability for Unauthorized Transfers.* This section would implement § 909 of the Act, which determines a consumer's liability for unauthorized transfers. A consumer cannot be held liable for any unauthorized electronic transfer unless the access device used for such transfer was an accepted device (as defined by § 205.12(a)) and the account issuer has provided a means of identifying the authorized user.

The Act specifies the conditions for a consumer's liability for "an unauthorized electronic fund transfer" (emphasis added). The Board believes that the intent of Congress with respect to such liability was identical to that contained in the unauthorized use provision in the Truth in Lending Act (§ 133(a)), that is, the consumer's liability is determined by reference to "unauthorized use" of the credit card, whether or not multiple transactions have occurred. To implement the statutory language without change would result in at least \$50 liability being imposed on a consumer for each unauthorized transfer from a single loss or theft. Therefore, the proposed regulation (§ 205.4(a)) states that a consumer's liability would be determined by reference to any single unauthorized transfer or series of transfers that occur following loss, theft or other unauthorized use. For example, a consumer whose access device was stolen and whose account was accessed six times by the thief (and who notified the financial institution within 2 busi-

ness days after learning of the theft) would be liable for \$50, rather than \$300. The Board solicits comment on this construction of the statute.

A consumer's liability for unauthorized transfers would be determined in the following ways under § 205.4(b):

(a) If notification occurs within 2 business days after the consumer learns of the loss, theft or possible unauthorized use, the consumer's liability would be limited to the lesser of \$50 or the amount of the unauthorized transfers occurring prior to notice.

(b) If notification does not occur within 2 business days after the consumer learns of the loss, theft or possible unauthorized transfer, and the institution establishes that losses which occurred after the close of the 2 business days could have been prevented had the consumer notified it, the consumer's liability would be limited to the sum of (i) the amount of actual losses that occurred before the close of the 2 business days (subject to a limit of \$50), and (ii) the amount of actual losses that occurred after the 2 business-day period and before notice. However, overall liability would be subject to a \$500 limit. If the institution could not establish that subsequent losses could have been prevented by notice, liability would be determined in accordance with (a) above.

(c) If notification does not occur within 60 days of transmittal of a periodic statement that reflects an authorized transfer, the consumer's liability may be unlimited as to any unauthorized transfers that the institution can establish could have been prevented by notice.

The regulation would provide, as does the Act, that these time periods shall be extended in the presence of extenuating circumstances, such as hospitalization or extended travel.

Section 205.4(c) implements a portion of § 909(a)(2) of the Act and provides that notice to the financial institution of loss, theft or possible unauthorized transfer may be given by the consumer by any means that are reasonably necessary to provide the institution with the pertinent information, whether or not any particular employee or agent of the institution receives the information. The Board proposes to modify the statutory provision by stating that notice may be oral or in writing.

The Board invites comment on whether an institution can require that a consumer notify a particular person or office in order to give adequate notice of loss, theft or possible unauthorized transfer or whether any reasonable, necessary steps taken by the consumer to notify the institution constitute adequate notice.

Section 205.4(d) would implement §§ 909 (c) and (d) of the Act. Section 909(c) provides that the consumer's liability for unauthorized transfers is to be determined solely in accordance with the EFT Act (rather than the Truth in Lending Act) when an electronic fund transfer also involves an extension of credit under an overdraft agreement between a consumer and a

financial institution. This provision would be implemented in § 205.4(d)(1)(ii). It would provide that an agreement to extend credit if the consumer's account would otherwise fall below a specified minimum balance would be treated in the same way as an overdraft agreement; that is, an electronic fund transfer also involving an extension of credit under either type of agreement would be covered by the EFT Act. Section 205.4(d)(1)(i) would clarify that liability for an unauthorized electronic fund transfer initiated by means of an access device that is also a credit card, without any accompanying extension of credit (for example, a debit of a checking account), would be determined by the EFT Act.

Section 909(d) permits a consumer and a financial institution to agree to lesser liability for unauthorized transfers than that provided by the Act. This section is implemented by § 205.4(d)(3) of the proposed regulation.

The EFT Act does not specify which law applies (EFT or Truth in Lending) with respect to liability in the case where credit is extended, but no electronic fund transfer occurs, by means of a card or other device that has both EFT and credit card features. For purposes of this proposal, the Board takes the position, in § 205.4(d)(2), that liability in such a case would be determined under Truth in Lending and Regulation Z. The Board solicits comment on the feasibility and desirability of alternatives. For example, if the EFT Act could be said to apply in these circumstances, then uniform liability limits would operate in virtually all transactions on accounts with both EFT and credit features. Less confusing disclosures would be possible, benefiting consumers, creditors and financial institutions; on the other hand, potential consumer liability would be greater in some transactions.

Section 205.12—Definitions and Rules of Construction. The Board proposes to implement, with some modifications, all but three of the statutory definitions contained in the Act. The definition of "preauthorized electronic fund transfer" (§ 903(9) of the Act) will be implemented later. The definitions of "Board" (§ 903(3)) and "State" (§ 903(10)) do not, in the Board's opinion, need to be implemented in the regulation. If commenters believe additional definitions should be provided or proposed definitions changed, they should explain the reasons for such beliefs, and, where appropriate, suggest regulatory language.

(a) "Access device" and "accepted access device." The definition of the first term does not appear in the Act. The words "card" and "code" are not used as defined terms because EFT

systems do not necessarily employ them and use of those terms in the regulation might impede technological innovation. The definition has been developed to permit convenient reference in the regulation to any of a number of different possible means of access to accounts for EFT purposes. The terms used are found elsewhere in the Act. The Board solicits comment on whether other means of electronic access to accounts should be specified in the definition.

The related definition is virtually identical to the corresponding definition in the Act. Minor changes would be made to comport with other definitions. The word "person" in the Act would be changed to "consumer" in the regulation.

(b) "Account." This definition is unchanged from that in the Act, except for deletion of a reference to the Truth in Lending Act made unnecessary by addition of the definition of "open end credit plan." The Board is aware that certain asset accounts, such as mutual funds and profit-sharing and pension accounts, can be accessed by consumers through electronic means, and believes that the definition encompasses such accounts. The Board solicits comment on whether such accounts should be exempted, and, if commenters so believe, is interested in specific reasons why such exemptions should be granted. The definition excludes occasional or incidental credit balances in an open end credit plan; comment is invited on whether all such occasional or incidental balances, whether or not in an open end credit plan, should be excluded.

(c) "Act." This definition does not appear in the Act. It is added to the regulation for purposes of convenient reference.

(d) "Business day." This definition is proposed in virtually the same form as in the Act. However, since the definition relates to both issuers and financial institutions, a day on which the offices of an issuer are open, as well as a day on which the offices of an institution are open, would be a business day. The Board is particularly interested in receiving comment on whether the regulation should provide more detail regarding what constitutes being open to the public for carrying on substantially all of a financial institution's or issuer's business functions. Comment should also address whether the regulation should establish a uniform rule as to what constitutes a business day, analogous to the rule set forth in § 226.9 of Regulation Z for rescission purposes (Monday through Saturday, exclusive of Federal holidays).

(e) "Consumer." This is the same definition as in the Act.

(g) "Electronic fund transfer" and (h) "Electronic terminal." These definitions are proposed as they appear in the Act, except that the exceptions contained in the Act's definition of "electronic fund transfer" are not set forth in the regulation as part of the definition, but instead accorded separate treatment in § 205.2.

The Board is aware of EFT systems that are to some extent paper-based, i.e., transfers are initiated by a debit card, which imprints a paper instrument. That paper instrument (which may later be truncated) is the means by which payment is effected. The Board solicits comment on whether transfers under such systems are included in the definition of "electronic fund transfer."

(j) "Financial institution." The definition is unchanged from the Act, except that it also includes agents of the institutions described. The Board solicits comment on whether other persons that are subject to the definition of "financial institution" should be specified in the definition.

(k) "Issuer." This definition is not found in the Act. It is added in order to refer to all those that issue access devices and their agents and are subject to the provisions regarding issuance of such devices. Note that § 911 of the Act refers to persons that issue cards rather than financial institutions.

(m) "Unauthorized electronic fund transfer." This definition is virtually unchanged from the Act.

A number of definitions that are similar to definitions in the Truth in Lending Act and Regulation Z would be added to the regulation to facilitate reference to these terms. They are the following: (f) "Credit card," (l) "Extension of credit," and (i) "Open end credit plan." The term "extension of credit" is drawn from the definitions of "credit" and "creditor" in Regulation Z.

(3) *Model Clauses.* The Board is required by § 904(b) of the Act to issue model clauses for the disclosures required by § 905. While § 905 does not take effect until May 1980, the § 905 disclosures are required by § 911(b)(2), which becomes effective on February 8, 1979. In addition, § 911(b)(3), which also becomes effective in February, requires the Board to provide by regulation for another disclosure. Section 911(b)(2) is implemented by § 205.3(b)(1)(ii) and, for the interim period between February 1979, and May 1980, by § 205.3(d) of the proposed regulation. Section 911(b)(3) is implemented by § 205.3(b)(1)(iii) of the proposed regulation.

The proposed model clauses for optional use in complying with the disclosure requirements are contained in Appendix A. Use of the clauses that

appropriately reflect the issuer's EFT program, in conjunction with other requirements of the regulation, will protect the issuer from civil and criminal liability under §§ 915 and 916 of the Act. The Board emphasizes, however, that use of these model clauses is optional; issuers are free to design their own disclosures as long as they comply with the requirements of §§ 205.3(b)(1)(iii) and (d).

Issuers may choose appropriate clauses from the alternatives available, may make changes such as deleting inapplicable words, phrases and clauses, and inserting trade names. They may also change the order in which the model clauses appear, and may use some of the model clauses, while drafting others themselves.

Section A(1) sets forth proposed model clauses for use in fulfilling the requirements of § 911(b)(3) of the Act and § 205.3(b)(1)(iii) of the proposed regulation. It provides alternative clauses. Which one an issuer uses would depend on whether the account in question is to be accessed by a card or by a code alone.

Sections A(2) through A(6) contain the proposed clauses that would comply with § 911(b)(2) of the Act and § 205.3(d) of the proposed regulation. Again, in general, alternative clauses are provided. An exception is section A(2), which contains the model disclosure of the consumer's liability for unauthorized transfers. If an issuer chooses to use this model disclosure, it must use it in its entirety and without changes in sequence or wording, except that choices or deletions may be made where brackets so indicate.

The Board solicits comment on whether these clauses are readily understandable to consumers and whether other clauses are needed.

(4) *Economic Impact Analysis of §§ 909 and 911.* Section 904(a)(2) of the Act requires the Board to prepare an analysis of economic impact of the regulation. The analysis must consider the costs and benefits of the regulation to suppliers and users of EFT, the effects upon competition in the provision of electronic banking services among large and small financial institutions, and the availability of such services to different classes of consumers, particularly low-income consumers. The Board is publishing for comment an economic analysis to accompany regulations implementing §§ 911 and 909 of the Act, which become effective on February 8, 1979.

Section 205.3—Issuance of Access Devices. (a) Impact of the regulation on costs and benefits to institutions, consumers and other users. The purpose of prohibiting unsolicited distribution of validated EFT cards<sup>2</sup> is to protect

<sup>2</sup>The term "card" in this economic impact analysis refers to any access device as defined in § 205.12(a) of the regulation.

consumers from unauthorized use of cards intercepted without the consumer's knowledge. The potential risk to the consumer of such a loss varies depending upon whether the consumer had an existing account with the card issuer. If the issuer sent a card to a consumer without an existing account, perhaps as a marketing device to gain new customers, an interception of the card could not result in any potential loss to the consumer since the consumer had not placed funds in the associated account. Thus, an important benefit, particularly to customers of existing accounts, of requiring validation separate from distribution is that it reduces losses which could result from theft of valid cards before they reach the designated customer. Such losses have been experienced both with EFT cards and credit cards. Results of a 1976 survey of 292 institutions issuing EFT cards showed that 40 institutions reported losses related to mail-intercept since first offering EFT services.<sup>3</sup> For these 40 institutions, there were 170 instances of loss, with average dollar loss of \$291 per instance.<sup>4</sup> However, the dollar loss per outstanding card was low since the total number of card-holding customers for the institutions in the survey was several million. For credit cards issued prior to the 1970 prohibition on unsolicited cards, 300,000 per year were estimated to be stolen out of an estimated 200 million credit cards outstanding in the late 1960's; this figure includes mail-intercept as well as other card theft.<sup>5</sup>

The regulation does permit the distribution of unsolicited, but unvalidated cards (§ 205.3(b)). The most general effect of this provision will be seen in the number of accepted cards. Although the impact on the number of accepted cards cannot be quantified, experience of the credit card industry, in the years prior to the prohibition of unsolicited cards under Regulation Z, can give an indication of the bounds of acceptance rates relative to either a more or less restrictive regulation. Unsolicited credit card distribution resulted in a much higher acceptance and usage rate than distribution based on solicitation of consumer requests for cards. The Marine Midland experience in 1966 points out these differences; 33,357 promotional mailings resulted in only 221 applications for credit cards (less than one percent)

<sup>3</sup>Linda Fenner Zimmer, "Cash Dispensers and Automated Tellers: Statistical Data and Analysis with Selected Case Histories," Fourth Status Report (Park Ridge, N.J.: August 1977), p. 222.

<sup>4</sup>Ibid. p. 224.

<sup>5</sup>Sylvia Porter as quoted from *The Washington Star* in U.S. Congress, "Unsolicited Credit Cards," Hearings before the Subcommittee on Financial Institutions of the Committee on Banking and Currency, Senate, 91st Congress, 1st Session, 1969, p. 243.

while 731 direct mailings of cards resulted in 19 percent usage in a short period and 99 percent retention. Based on this experience, it is expected that allowing distribution of unsolicited, but unvalidated, EFT cards will result in a larger card base and more chance of acceptance by proprietors than would the complete prohibition of distribution of unsolicited cards. On the other hand, the card base and acceptance level is expected to be lower than would obtain if there were no prohibition on sending unsolicited, validated cards.<sup>6</sup>

The regulation requires a two-step procedure for distributing and validating cards. This requirement will increase administrative costs to issuers through additional postage and handling.

An additional potential cost to the issuers would result from the paperwork and legal fees connected with the disclosure requirement (§ 205.3(b)(1)(ii)).<sup>7</sup> However, since the Board is providing model clauses, any additional costs can be minimized.

Another potential cost of the regulation is related to the verification procedures (§ 205.3(b)(2)). By limiting identity verification methods to signature or other signed instruments, photograph, fingerprint, or personal visit, the regulation may reduce incentives for innovation in developing or applying new technology in verification techniques. The Board solicits comment on whether there are presently available or being developed identity verification procedures which are not encompassed by § 205.3(b)(2) and whether the regulation would discourage innovation along these lines.

(b) Effects of the regulation upon competition in the provision of electronic transfer services among large and small financial institutions. A critical factor influencing merchant acceptance of EFT cards is the size of the outstanding card base. Thus, card issuers attempt to use marketing strategies that will achieve a high acceptance ratio for the lowest cost. The credit card experience in the late 1960's showed that the institutions' most successful strategy in achieving a large card base was large mailings of unsolicited cards. By allowing the distribution of unsolicited (although unvalidated) cards, the regulation does not restrict entry potential for new firms as severely as was the case in the credit card industry when distribution of unsolicited cards was prohibited. As

a result of this prohibition, companies that had not already entered the industry on a large scale were at a major disadvantage compared to the large-scale participants. Entry into the industry was difficult and competition was restrained. Thus, § 205.3 is expected to have the effect of maintaining the present level of competition because it does not put small institutions at a competitive disadvantage. In addition, competition could increase since the regulation does not contain restrictions on sending cards to consumers other than present customers.

(c) Effects of the regulation on availability of electronic transfer services to different classes of consumers, especially low-income. To the extent that cards are sent only to institutions' present holders of consumer deposit accounts, the effect of § 205.3 on low-income consumers will be that the distribution of the available EFT services will be approximately the same as the distribution of account holders. Table I presents data on financial assets by income class. It can be seen that usage of depository services rises with income. However, lower usage of depository services by lower-income consumers may be for a variety of reasons, one of which may be lack of availability. The Board solicits comment on whether a potential customer of a financial institution must be employed and/or have a minimum income to qualify for any of the following types of accounts: (i) demand deposit, (ii) savings deposit, (iii) time deposit, (iv) ATS (Automatic Transfer Service) account, and (v) EFT (Electronic Fund Transfer) account.

Financial institutions might not send unsolicited cards to all present account holders. To the extent that such cards represent a costly non-price means of attracting or maintaining deposits, institutions may send cards only to high-volume customers, i.e., to reduce the cost per dollar of account balance. In such an event, the distribution of EFT services would evolve away from low-income to higher-income customers. The Board solicits comment on whether institutions plan to limit unsolicited mailings of EFT cards to a subset of their present deposit customers.

**Section 205.4—Conditions of liability of consumer for unauthorized transfers.** It is important to realize that the liability provisions of § 205.4 will have no impact on either consumers or institutions if the provisions are not a constraint on financial institutions. That is, if the financial institutions would normally assume more liability than is required by the regulation, then the regulation will not affect costs, benefits, competition, or availability and will not inhibit the market mechanism. The following analysis of

the regulation is relevant only if the liability provisions are more restrictive than those institutions would otherwise assume.

(a) Impact of the regulations on costs and benefits to institutions, consumers and other users. The total net cost or benefit to society of the regulation is related to the expected dollar loss resulting from fraud or unauthorized use of debit cards. The impact of § 205.4 on the aggregate loss may be felt in three ways, two of which are benefits and the third a cost. First, by building in incentives for consumers to report quickly loss or theft of a card or discovery of unauthorized use, the regulation loss or theft of a card or discovery of unauthorized use, the regulation should reduce the number of unauthorized transactions. Second, the relatively long period which consumers have in which to report unauthorized use before they assume full liability for loss will increase issuers' incentives for tight security systems. Third, however, is the possibility of increased unauthorized use because the regulation does not hold the consumer specifically liable for negligence. For example, a customer's liability for unauthorized use of a card does not increase if the customer leaves the identification number on the card.

Limited data on actual loss experience for unauthorized use of EFT and credit cards indicate that, while not insignificant, these losses have not been inordinately high. For example, an Interbank ATM (Automated Teller Machine) loss survey of 125 banks showed that on transactions volume of 10,486,000 and dollar volume of \$41.0 million, the total annual fraud loss was \$290,000, less than one per cent of dollar volume and represented less than \$.03 per transaction.<sup>8</sup> A Payment Systems, Inc. survey of officials at 45 financial institutions offering card-activated EFT services estimated that annual average fraud loss per active card was about \$.10 compared to an average of about \$.03 per card for the total card base. *Nilson Reports* estimates that total credit card fraud loss for 1978 will be \$62.8 million on total transactions volume of \$44 billion, which is less than two-tenths of a per cent of dollar volume. Additional data would be useful. The Board solicits comment on what per cent, number and dollar volume of EFT type ac-

<sup>6</sup>John A. Colin, *What's New in Money-Matics?* Remarks made at the Bank Administration Institute Eighth National Security Conference (Atlanta, Ga.: n.p.: 1977) quoted in Veronica M. Bennett, "Card Fraud and Security in EFT Systems," (Atlanta: Payment Systems, Inc., White Paper, September 7, 1978), p. 13.

<sup>7</sup>Bennett, p. 17.

<sup>8</sup>Spencer Nilson, editor of *Nilson Reports*, during a telephone interview, November 1978.

counts have experienced unauthorized use. How many of these result from loss of card or theft of card? How many result from computer fraud? What has been the average loss, in dollars, per account? Maximum loss? Similarly, what has been the experience for credit cards? What has been the experience for unauthorized use of checks?

In addition to having an effect on the total cost to society of EFT loss, the regulation affects the distribution of the burden of costs between institutions and their customers. This distribution depends on the timing of reporting; the longer the time the consumer takes to report the loss, the more liability the consumer assumes. In order to assess the impact of the regulation on the distribution of loss, reporting-time experience of loss for EFT and credit cards is necessary. The Board solicits comment on what has been the range of an average time span between customers' learning of theft or loss of EFT cards or unauthorized use of their EFT accounts and their reporting it to the card issuer. Similarly, what has been the range of an average reporting time for credit card and check theft, loss or unauthorized use?

The assessment of the social equity of the distribution of costs and benefits of the regulation between institutions and their customers depends on how the ability to assume the loss is weighted. For example, by virtue of its size, income and tax position, a large bank is probably better able to assume a given loss than a low-income consumer. However, such an assessment is highly subjective. It should be noted that the regulation does not fix the distribution of the costs but rather sets the limits to which the institution can shift the burden to consumers. Relatively high potential liability for consumers may discourage usage which could result in a cost to consumers if EFT is cheaper than alternatives. However, competition could encourage institutions to bear more of the liability than required. (This is discussed further in the next section.)

(b) Effects of the regulation upon competition in the provision of electronic transfer services among large and small financial institutions. The conditions of liability imposed by § 205.4 set a minimum liability standard that must be assumed by all financial institutions offering EFT services. This means that all institutions are treated equally in terms of a floor on requirements. However, competition may lead banks to assume more liability than the regulation requires and thus reduce costs to the consumer and increased consumer acceptance. Results of a 1978 ATM Security Survey by the American Bankers Association

indicate that at present banks do not have standard liability provisions.<sup>9</sup> The respondents to the survey (approximately 135 banks, half of which had deposits greater than \$1.0 billion and only six percent of which had deposits less than \$100 million) established liability as follows: (i) case-by-case basis—55.8 per cent, (ii) bank absorbs all losses—24.3 percent, (iii) set dollar limit—9.9 percent, (iv) customer responsible for all losses until loss reported—8.1 percent.

Additional information on the ability of small and large financial institutions to assume liability and their experience to date on liability provisions would be useful. The Board solicits comment on the impact of unauthorized use of EFT systems on profitability of the system for small and large financial institutions. In addition, the Board solicits comment on the extent to which small and large institutions' present liability requirements are more or less restrictive than the regulation.

A major difficulty in analyzing the impact of the regulation on competition between small and large financial institutions is that the impact depends very much on the nature of the EFT systems involved. Thus, the effects of the regulation depend on such considerations as whether widely-accepted franchise systems develop, whether systems are national or regional, or whether they are on or off-line. For example, systems that are widespread or off-line have a greater chance for unauthorized use. The regulation could have a significant impact on the structure of the industry if small proprietary systems cannot afford the regulation's liability requirements.

Even without making predictions about the manner in which EFT systems will evolve, some general observations on the impact of the regulation can be made. (1) First, the regulation will have the least impact on those institutions and franchise systems that are best able to assume the liability and incur per unit costs related to determining liability according to the regulation. To the extent that large systems and institutions benefit from scale and scope economies, they would be less affected than small institutions. (2) In addition, larger institutions may enjoy economies of scale in purchasing security systems, thereby having a lower loss rate and more consumer confidence in their system than small institutions. (3) On the other hand, to the extent that the regulation shifts the burden to the institutions, small institutions may avoid some of the costs since they are more

<sup>9</sup>American Bankers Association, Payments System Planning Division, "Results of an ATM Security Survey," n.p., June 1978.

likely to have a close relationship with customers and may therefore be better able to prescreen and educate them. (4) Finally, small institutions are less likely to be in large metropolitan areas. Therefore, they would tend to be in areas in which there is less crime and in which there is a greater likelihood that proprietors would recognize customers. The Board solicits comment on these four issues. In addition, the Board solicits comment on what will be the costs related to establishing that the consumer has notified the issuer of loss "2 business days after learning of the loss or theft of the access device or possible unauthorized transfer" (§ 205.4(b)(1)).

(c) Effects of the regulation on availability of electronic transfer services to different classes of consumers, especially low-income. In order to evaluate the effects of § 205.4 availability of EFT services to different classes of consumers, it is useful to look at present usage rates of available EFT systems by income class. Data from the Air Force showing use of automatic payroll deposit by income level of active duty personnel can be seen in Table II. Similar data for employees of the Board of Governors of the Federal Reserve System can be seen in Table III. The data indicate that usage of available systems increases with income level. A 1976 consumer panel survey in South Carolina shows reasons that households have chosen not to use ATMs, by income (see Table IV).<sup>10</sup> The two major reasons for not using ATMs were that the service was not needed or was not available; there is no apparent relationship between either the need for or availability of ATMs and income level. Thus, the two sets of data suggest that even when EFT services are available to all income classes, usage rate varies by income.

The regulation may affect both usage and availability of EFT services to classes of consumers, especially low-income consumers. In this respect, the impact of the regulation will probably be related to the amount of potential liability and the complexity of the liability provisions. The amount of potential liability as a percent of consumer assets is significantly higher for low-income consumers than for higher-income consumers.<sup>11</sup> However, if a customer has no overdraft privilege, liability is generally no greater than the amount of funds in the customer's account. As can be seen in Table V, only a small proportion of lower-income families have more than

<sup>10</sup>The panel surveyed includes urban households with annual income greater than \$6,000.

<sup>11</sup>In contrast, at present, consumers bear no liability for check forgery or fraud and a maximum of \$50 for unauthorized use of a credit card.

\$500 in a checking or savings account. Thus, the dollar value of potential loss through unauthorized use for low-income consumers is relatively low. A final consideration is that clear understanding of EFT, the liability involved, and the information in the periodic statement involves some degree of familiarity with financial data. To the extent that low-income consumers are not financially sophisticated, they would be less likely to understand their liability and their periodic statements, and to discover loss or theft within a given time period and would be more likely to put their identification number on the card than high-income consumers. Therefore, they would have a higher probability of a loss, as a percentage of their assets, and possibly in absolute terms, than higher-income consumers. As a result, low-income consumers may be discouraged from using EFT because of relatively complicated liability requirements. However, since relatively high liability is borne by the consumer, financial institutions may be more willing to offer EFT services to low-income consumers because the institutions are protected to some extent from ignorance on the part of consumers, i.e., the consumer bears total liability if the unauthorized use is not reported within 60 days of transmittal of the periodic statement showing the loss and the issuer can prove that the loss would not have occurred if reporting had been within the 60 days.

(5) Pursuant to the authority granted in Pub. L. 95-630, Title XX, § 904 (November 10, 1978), the Board proposes to adopt Regulation E, 12 CFR Part 205, as follows:

#### PART 205—ELECTRONIC FUND TRANSFERS

Sec.

- 205.1 Scope and purpose.
- 205.2 Exempted transfers.
- 205.3 Issuance of access devices.
- 205.4 Conditions of liability of consumer for unauthorized transfers.
- 205.12 Definitions and rules of construction.

#### APPENDIX A—MODEL DISCLOSURE CLAUSES

AUTHORITY: Pub. L. 95-630, Title XX, Sec. 904 (November 10, 1978).

##### 205.1 Scope and purpose.

In November 1978, Congress enacted the Electronic Fund Transfer Act which establishes the basic rights, liabilities and responsibilities of consumers who use electronic money transfer services and of depository and other financial institutions that offer such services. As directed by Congress, this regulation is intended to carry out the purposes of the Act, including primarily the protection of individual consumers engaging in electronic transfers to or from their accounts at financial institutions. Electronic transfers may be used by consumers for the same purposes as paper checks. The principal difference is that, whether for deposit or payment, checks are physically transported. In electronic fund transfer systems, the payment instructions are transmitted by electronic means and standardized computer techniques common to bank deposit accounting. Electronic systems may be used by consumers to transfer funds to and from their accounts in the following ways:

(a) *Electronic deposit of funds to an account.* Consumers may instruct employers and others making regular payments to them to have funds deposited directly into their accounts. This service may be used for depositing wages, social security benefits, dividends, and other types of income payments. In a direct deposit arrangement, the originator of the payment (employer, Social Security Administration, etc.) directs its financial institution to transfer funds electronically to the consumer's financial institution for deposit in the consumer's account. Direct deposit services are begun when a consumer signs an agreement authorizing the originator to send funds directly to the consumer's account in a bank or other financial institution that offers direct deposit services. Automated teller machines are also used for depositing funds. Consumers may deposit cash or checks in these machines which generally are available for use 24 hours a day. Today most of them are located at financial insti-

tutions, supermarkets and airports. To use these machines, a customer is usually issued a card and a special code, called a "personal identification number," by the financial institution.

(b) *Transferring and withdrawing funds from an account.* Electronic facilities provide consumers with alternative ways to withdraw cash, to pay bills and to make purchases from merchants.

(1) *Cash withdrawals.* Consumers may withdraw funds from their accounts and obtain cash by using automated teller machines. Also, consumers may ordinarily obtain cash in addition to goods and services when using the point-of-sale systems described below.

(2) *Bill payment.* Two types of electronic fund transfer services may be used by a consumer to pay bills. First, the consumer may preauthorize merchants and creditors to draw funds from the consumer's account, or secondly, the consumer may direct the financial institution or a third party to pay bills. Under a preauthorized system, a consumer directs a merchant in writing to debit or draw funds from his or her account on a given date in an amount sufficient to pay a bill. Preauthorized debits usually are used to pay recurring bills of a fixed amount, such as insurance premiums, mortgage payments or rent. A consumer may also authorize payment in this manner for variable amount bills, such as credit card and utility bills. Where variable amount bills are paid by preauthorized debits, consumers usually receive notice from merchants as to the amount of the bill and ordinarily a period of time elapses between the date the bill is sent to the consumer and the date the account is charged. When the financial institution provides a bill-payment service, it usually furnishes the consumer with a personal identification code. This code is used when requesting the financial institution to charge the consumer's account and pay a bill. Instructions to pay the bill may be given in writing, verbally by the consumer, or by some other means, such as through a touch-tone telephone using a prearranged coding scheme.

(3) *Paying for purchases.* Consumers may pay for goods and services at the point of purchase by using electronic fund transfer rather than with a check, cash or credit card. This is usually done through use of a card similar in appearance to a credit card. The card identifies the consumer's financial institution and account number in machine-readable form. At the time of purchase, as the card and the proper dollar amount are entered into a machine, the consumer's account is debited electronically and the merchant's account credited. This is done by an

electronic transmission of messages between the consumer's and the merchant's banks. Systems which provide these capabilities are known as "point-of-sale" systems.

(c) *Protections under the regulation.* The Electronic Fund Transfer Act becomes effective in two parts. The first part, which will become effective on February 8, 1979, limits the liability of a consumer for electronic fund transfers that were not authorized by the consumer. It also places limitations on the distribution of debit cards and other means of access. Certain disclosures must be made if the card or other means of access was not requested by the consumer. On May 10, 1980, the remaining provisions of the law will become effective. Of particular significance among the provisions becoming effective in 1980 are those having to do with the disclosure of terms and conditions upon which a financial institution offers electronic transfer services, and the content of the periodic statement which sets forth the transactions (deposits to and withdrawals from the account). Taken together these disclosures require financial institutions to provide details of electronic service offerings and transfers that are not presently required for check transfers. Various provisions of the regulation set forth the terms and conditions for opening an account for electronic fund transfers. The regulation also will provide requirements concerning deposits to or payments from an account. These requirements are outlined as follows:

(1) *Opening an account:* Disclosures concerning account terms (including fees and privacy rights) are required to be made to consumers.

(2) *Continuing requirements:*

(i) A periodic account statement must be issued that contains information describing the transactions and identifying the parties to whom and from whom funds are paid.

(ii) The consumer's liability for unauthorized transfers is limited, in general, based on the time notice of loss, theft or unauthorized transfer is given to the financial institution.

(iii) Error resolution procedures must be provided by financial institutions.

(3) *Deposits to accounts (credits):*

(i) For deposits that are made directly to an account by a third party, notice of receipt or non-receipt of the deposit must be provided to the consumer.

(ii) Receipts must be made available for all deposits made by consumers at electronic terminals.

(4) *Payments from accounts (debits):*

(i) Preauthorized payments must be authorized by the consumer in writing. For some preauthorized payments that vary in amount, the financial in-

stitution must provide advance notice to the consumer. Also, stop payment rights apply to preauthorized payments.

(ii) Receipts must be made available for all payments, including cash withdrawals, initiated by consumers at electronic terminals.

##### § 205.2 Exempted transfers.

This regulation does not apply to the following:

(a) *Check guarantee or authorization services.* Any service which guarantees payment or authorizes acceptance of a check, draft or similar paper instrument and which does not directly result in a debit or credit to a consumer's account.

(b) *Wire transfers.* Any wire transfer of funds for a consumer through the Federal Reserve Communications System, Bankwire network or similar network that is used predominantly for bank-to-bank or business-to-business transfers.

(c) *Certain securities or commodities transfers.* Any transaction the primary purpose of which is the purchase or sale of securities or commodities through a broker-dealer registered with or regulated by the Securities and Exchange Commission.

(d) *Automatic transfers from savings to demand deposit accounts.* Any automatic transfer from a savings account to a demand deposit (checking) account pursuant to an agreement between a consumer and a financial institution for the purpose of covering an overdraft or maintaining an agreed-upon minimum balance in the consumer's checking account as permitted by 12 CFR Part 217 (Regulation Q) and 12 CFR Part 329.

(e) *Certain telephone-initiated transfers.* Any transfer of funds which (1) is initiated by a telephone conversation between a consumer and an officer or employee of a financial institution and (2) is not pursuant to a prearranged plan under which periodic or recurring transfers are contemplated.

##### § 205.3 Issuance of access devices.

(a) *General rule.* An issuer may issue an access device to a consumer only:

(1) In response to an oral or written request or application therefor;

(2) As a renewal of an accepted access device; or

(3) In substitution for an accepted access device, whether issued by the initial issuer or a successor.

(b) *Exception.* (1) Notwithstanding the provisions of § 205.3(a), an issuer may distribute an access device to a consumer on an unsolicited basis if:

(i) The access device is not validated;

(ii) The distribution is accompanied by a complete disclosure, in accordance with § 205.5, of the consumer's

rights and liabilities which will apply if the access device is validated;

(iii) The distribution is accompanied by a clear explanation that the access device is not validated and how the consumer may dispose of the access device, if validation is not desired; and

(iv) The access device is validated only in response to the consumer's oral or written request or application for validation and after verification of the consumer's identity.

(2) A consumer's identity shall be verified by comparison of the consumer's signature with the issuer's account records or another signed instrument, or by photograph, fingerprint or personal visit.

(3) An access device shall be considered validated when the issuer has performed any procedure necessary to permit the access device to be used by the consumer to initiate an electronic fund transfer.

(c) *Relation to Truth in Lending.* The Act and this regulation govern the issuance of access devices and the addition to an accepted credit card of the capability to initiate electronic fund transfers. The issuance of credit cards, the addition of a credit feature to an accepted access device and the issuance of credit cards which are also access devices are governed by the Truth in Lending Act and 12 CFR Part 226 (Regulation Z), which prohibit their unsolicited issuance.

(d) *Transition provision.* Until May 10, 1980, an issuer may satisfy the disclosure requirements of § 205.3(b) (1)(ii) by disclosing the following terms in writing in readily understandable language:

(1) The consumer's liability under § 205.4 for unauthorized electronic fund transfers and, at the issuer's option, notice of the advisability of prompt reporting of any loss, theft or unauthorized transfer.

(2) The telephone number and address of the person or office to be notified in the event the consumer believes that an unauthorized electronic fund transfer has been or may be effected.

(3) The type and nature of electronic fund transfers which the consumer may initiate, including any limitations on the frequency or dollar amount of such transfers, except that the details of such limitations need not be disclosed if their confidentiality is necessary to maintain the security of the electronic fund transfer system.

(4) Any charges for electronic fund transfers or for the right make such transfers.

(5) The circumstances under which the financial institution, if one is involved, will in the ordinary course of business disclose information concerning the consumer's account to third parties.

(6) Whether or not the consumer has the right to stop payment of a preauthorized electronic fund transfer and, if so, the procedure to initiate such a stop payment order.

(7) Whether or not the consumer has the right to receive documentation of electronic fund transfers.

(8) Whether or not the financial institution or issuer has error resolution procedures and, if so, a summary of those procedures and the consumer's rights under them.

(9) Whether or not the financial institution or issuer will be liable to the consumer for its failure to make transfers.

The procedures and rights which the financial institution or issuer is required to disclose under § 205.3(d)(6) through (9) need not comply with the requirements of the Act until May 10, 1980.

##### § 205.4 Conditions of liability of consumer for unauthorized transfers.

(a) *General rule.* A consumer shall not be liable for any unauthorized electronic fund transfers involving the consumer's account unless the access device utilized for such transfers was an accepted access device and the issuer has provided a means whereby the user can be identified as the person authorized to use it, such as by signature, photograph or fingerprint or by electronic or mechanical confirmation.

(b) *Amount of consumer's liability.* The amount of a consumer's liability for an unauthorized electronic fund transfer or a series of transfers shall be determined as follows:

(1) If the consumer notifies the financial institution within 2 business days after learning of the loss or theft of the access device or possible unauthorized transfer, the consumer's liability shall not exceed the lesser of \$50 or the amount of money or value of property or services obtained in unauthorized electronic fund transfers prior to notice to the financial institution under § 205.4(c).

(2)(i) If the consumer fails to notify the financial institution within 2 business days after learning of the loss or theft of the access device or possible unauthorized transfer, and the institution establishes that the transfers would not have occurred but for the failure of the consumer to notify the institution within that time, the consumer's liability shall be:

(A) The lesser of \$50 or the amount of money or value of property or services obtained in unauthorized electronic fund transfers prior to the close of the 2 business days, and

"Note that the consumer may learn of possible unauthorized electronic fund transfers from examination of a periodic statement."

(B) The amount of money or value of property or services obtained in unauthorized electronic fund transfers which occur following the close of 2 business days after the consumer learns of the loss or theft of the access device or possible unauthorized transfer and prior to notice to the financial institution under § 205.4(c). The consumer's liability under § 205.4(b)(2)(i) shall not exceed \$500.

(ii) If the institution fails to establish that the unauthorized transfers would not have occurred but for the failure of the consumer to notify the institution, the consumer's liability shall be determined in accordance with § 205.4(b)(1).

(3) If the consumer fails to report within 60 days of transmittal of the periodic statement any unauthorized electronic fund transfer which appears on the statement, the consumer may be liable for the amount of any unauthorized transfer which the financial institution establishes would not have occurred but for the failure of the consumer to notify the financial institution.

If the delay in notifying the financial institution was due to extenuating circumstances, such as extended travel or hospitalization, the time periods specified above shall be extended to a reasonable time.

(c) *Notice to financial institution.* For purposes of § 205.4, a consumer notifies a financial institution by taking such steps as may be reasonably necessary to provide the financial institution with the pertinent information, orally or in writing, whether or not any particular officer, employee or agent of the financial institution does in fact receive the information. Notice shall also be considered given when the financial institution becomes aware of circumstances which lead to the reasonable belief that an unauthorized electronic fund transfer involving the consumer's account has been or may be effected.

(d) *Determination of liability in certain transfers.* (1) A consumer's liability for an unauthorized electronic fund transfer shall be determined solely in accordance with § 205.4 if

(i) The transfer was initiated by use of an access device which is also a credit card, or

(ii) The transfer also involves an extension of credit pursuant to an agreement between the consumer and the financial institution to extend such credit to the consumer when the consumer's account is overdrawn or to maintain an agreed-upon minimum balance in the consumer's account.

(2) A consumer's liability for unauthorized use of a credit card that does not involve an electronic fund transfer shall be determined solely in accordance with the Truth in Lending Act and 12 CFR Part 226 (Regulation Z).

(3) A financial institution and a consumer may agree that the consumer's liability for unauthorized electronic fund transfers will be less than would be determined by § 205.4 of the regulation.

#### § 205.12 Definitions and rules of construction.

For the purposes of this regulation, the following definitions and rules of construction apply, unless the context indicates otherwise:

(a) *"Access device"* means a card, code or other means of access to a consumer's account, or any combination thereof, for the purpose of initiating electronic fund transfers.

An *"accepted access device"* means an access device which the consumer to whom such access device was issued (1) has requested and received or (2) has signed or (3) has used or (4) has authorized another to use, for the purpose of transferring money between accounts or of obtaining money, property, labor or services.

(b) *"Account"* means a demand deposit, savings deposit or other consumer asset account (other than an occasional or incidental credit balance in an open end credit plan) held either directly or indirectly by a financial institution and established primarily for personal, family or household purposes. The term does not include an account held by a financial institution pursuant to a bona fide trust agreement.

(c) *"Act"* means the Electronic Fund Transfer Act (Title IX of the Consumer Credit Protection Act).

(d) *"Business day"* means any day on which the offices of the financial institution or the issuer are open to the public for carrying on substantially all business functions.

(e) *"Consumer"* means a natural person.

(f) *"Credit card"* means any card, plate, coupon book or other single credit device existing for the purpose of being used from time to time upon presentation to obtain money, property, labor or services on credit.

(g) *"Electronic fund transfer"* means any transfer of funds, other than a transaction originated by check, draft or similar paper instrument, which is initiated through an electronic terminal, telephone or computer or magnetic tape and which orders, instructs or authorizes a financial institution to debit or credit an account. The term includes, but is not limited to, point-of-sale transfers, automated teller machine transactions, direct deposits or withdrawals of funds, and transfers initiated by telephone.

(h) *"Electronic terminal"* means an electronic device, other than a telephone operated by a consumer,

through which a consumer may initiate an electronic fund transfer. The term includes, but is not limited to, point-of-sale terminals, automated teller machines and cash dispensing machines.

(i) *"Extension of credit"* means the right granted by a creditor to a consumer to defer payment of debt, incur debt and defer its payment, or purchase property or services and defer payment therefor, in which the debt is payable by agreement in more than four installments, or does or may require payment of a finance charge, whether in connection with loans, sales of property or services or otherwise.

(j) *"Financial institution"* means a State or National bank, a State or Federal savings and loan association, a mutual savings bank, a State or Federal credit union, or any other person who, directly or indirectly, holds an account belonging to a consumer. The term also includes the agent of such an institution.

(k) *"Issuer"* means any person who issues an access device, or the agent of such person with respect to such access device.

(l) *"Open end credit plan"* means an extension of credit on an account pursuant to a plan under which (1) the creditor may permit the consumer to make purchases or obtain loans from time to time, directly from the creditor or indirectly by use of a credit card, check or other device, as the plan may provide; (2) the consumer has the privilege of paying the balance in full or in installments; and (3) a finance charge may be computed by the creditor from time to time on an outstanding unpaid balance.

(m) *"Unauthorized electronic fund transfer"* means an electronic fund transfer from a consumer's account initiated by a person other than the consumer without actual authority to initiate the transfer and from which the consumer receives no benefit. The term does not include any electronic fund transfer (1) initiated by a person other than the consumer who was furnished with the access device to the consumer's account by the consumer, unless the consumer has notified the financial institution involved that transfers by that person are no longer authorized, (2) initiated with fraudulent intent by the consumer or any other person acting in concert with the consumer, or (3) which constitutes an error committed by the financial institution.

(n) Captions and catchlines used in this regulation are intended solely as aids to convenient reference, and no inference as to the intent of any provision of this regulation may be drawn from them.

#### APPENDIX A—MODEL DISCLOSURE CLAUSES

This appendix contains model disclosure clauses for optional use by financial institutions and issuers to facilitate compliance with the disclosure requirements of §§ 205.4 (b) and (d) and § 205.5 of the regulation. Section 915(d)(2) of the Act provides that use of these clauses in conjunction with other requirements of the regulation protects financial institutions and issuers from liability under §§ 915 and 916 of the Act to the extent that they accurately reflect their electronic fund transfer services.

Financial institutions and issuers need not use all the provided clauses, but may use clauses of their design in conjunction with the model clauses. Words and phrases in parentheses are alternative in nature and the inapplicable portions of those words or phrases should be deleted. Financial institutions and issuers may make alterations or substitutions of a technical nature (e.g., substitution of a trade name for the word "card," deletion of inapplicable services) in the clauses in order to reflect the services offered.

#### SECTION A(1)—DISCLOSURE THAT ACCESS DEVICE IS NOT VALIDATED AND HOW TO DISPOSE OF DEVICE IF VALIDATION IS NOT DESIRED (§ 205.4(b)(1)(iii))

(a) *Accounts accessed by cards.* You cannot use the enclosed card until we have validated it. If you do not want the card, destroy it at once.

[Issuer may insert validation instructions here.]

(b) *Accounts accessed by codes.* You cannot use the enclosed code until we have validated it. If you do not want the code, destroy this notice at once.

[Issuer may insert validation instructions here.]

#### SECTION A(2)—DISCLOSURE OF CONSUMER'S LIABILITY FOR UNAUTHORIZED TRANSFERS AND OPTIONAL DISCLOSURE OF ADVISABILITY OF PROMPT REPORTING (§ 205.3(d)(1))

(a) *Liability disclosure.* (Contact us AT ONCE if you believe your (card) (code) has been lost or stolen or money is missing from your account. If you contact us within 2 business days, you can lose no more than \$50 if someone used your (card) (code) without your permission.) (If you believe your (card) (code) has been lost or stolen or if you think money is missing from your account, and you contact us within 2 business days after learning of the loss, you can lose no more than \$50 if someone used your (card) (code) without your permission.)

If someone used your (card) (code) without your permission, you could lose as much as \$500 if you do NOT contact us within 2 business days after learning of the loss and we can prove that we could have prevented the losses if you had contacted us.

Also, if your monthly statement shows transfers that you did not make, and you do not contact us within 60 days after the statement was mailed to you, you may not get back any money lost after that time if we can prove that your contacting us would have prevented those losses.

If something prevents your contacting us (such as travel or hospitalization), the time periods may be extended.

#### SECTION A(3)—DISCLOSURE OF TELEPHONE NUMBER AND ADDRESS TO BE NOTIFIED IN EVENT OF UNAUTHORIZED TRANSFER (§ 205.4(d)(2))

(a) *Address and telephone number.* If you believe your (card) (code) has been lost or stolen or that an unauthorized transfer from your account has occurred or may occur, call or write:

[Name of financial institution, issuer or agent]

[Address]

[Telephone number]

#### SECTION A(4)—DISCLOSURE OF TYPES OF AVAILABLE TRANSFERS AND LIMITS ON TRANSFERS (§ 205.3(d)(3))

(a) *Account access.* You may use your (card) (code) to:

(1) Withdraw cash from your (checking) (or) (savings) account.

(2) Deposit money in your (checking) (or) (savings) account.

(3) Make payments from your (checking) (or) (savings) account in the amounts and on the days you request.

(4) Make periodic payments from your (checking) (or) (savings) account, such as your mortgage payment.

(5) Transfer funds between your checking and savings accounts in the amounts you request.

(6) Learn the balance(s) in your (checking) (or) (savings) accounts.

(7) Pay for purchases at merchants that have agreed to accept the (card) (code).

(b) *Limitations on frequency of transfers.*

(1) Automated teller machines. Cash withdrawals from our automated teller machines are limited to [insert number, e.g., 3] each [insert time period, e.g., week].

(2) Telephone bill-payment services. Your telephone bill-payment service can be used to authorize payment for [insert number] bills each [insert time period] (telephone call).

(c) *Limitations on dollar amounts of transfers.*

(1) Automated teller machines. You may withdraw up to [insert dollar amount] from our automated teller machines each [insert time period] (time you use the (card) (code)).

#### SECTION A(5)—DISCLOSURE OF CHARGES FOR TRANSFERS OR RIGHT TO MAKE TRANSFERS (§ 205.3(d)(4))

(a) *Per transfer charge.* There will be a charge of [insert dollar amount] for each transfer you make using our (automated teller machines) (telephone bill-payment service) (point-of-sale transfer service).

(b) *Fixed charge.* There will be a charge of [insert dollar amount] each [insert time period] for our (automated teller machine service) (telephone bill-payment service) (point-of-sale transfer service).

(c) *Minimum balance charge.* There will be no charge for use of our (automated teller machines) (telephone bill-payment service) (point-of-sale transfer service), unless the average monthly balance in your (checking account) (savings account) (accounts) falls below [insert dollar amount]. If it does, the charge will be [insert dollar amount] each (transfer) [insert time period].

#### SECTION A(6)—DISCLOSURE OF ACCOUNT INFORMATION TO THIRD PARTIES (§ 205.3(d)(5))

(a) *Account information disclosure.* We will not disclose information about your account or the transfers you make to third parties, except:

(1) as necessary to complete transfers.

(2) to verify the existence and standing of your account with us upon the request of a third party, such as a credit bureau.

(3) to comply with government agency or court orders.

(4) [insert notice required by the Right to Financial Privacy Act of 1978.]

(5) in accordance with your written permission.

By order of the Board of Governors,  
December 22, 1978.

THEODORE E. ALLISON,  
Secretary of the Board.

The following are tentative outlines of the complete regulations:

#### OUTLINE A—REGULATION E

#### 12 CFR PART 205—ELECTRONIC FUND TRANSFERS

#### Section 205.1—Scope and Purpose

(a) Electronic deposit of funds to an account.

(b) Transferring and withdrawing funds from an account.

(c) Protections under the regulation.

#### Section 205.2—Exempted Transfers

(a) Check guarantee or authorization services.

(b) Wire transfers.

(c) Certain securities or commodities transfers.

(d) Automatic transfers from savings to demand deposit accounts.

(e) Certain telephone-initiated transfers.

#### Section 205.3—Issuance of Access Devices

(a) General rule.

(b) Exception.

(c) Relation to Truth in Lending.

(d) Transition provision.

#### Section 205.4—Conditions of Liability of Consumer for Unauthorized Transfers

(a) General rule.

(b) Amount of consumer's liability.

(c) Notice to financial institution.

(d) Determination of liability in certain transfers.

#### Section 205.5—Initial Disclosures

(a) General rule (§ 905(a)).

(b) Specific disclosure requirements (§§ 905(a)(1)–(9), 906(b), 910).

(c) Preexisting accounts (§ 905(c)).

#### Section 205.6—Subsequent Disclosures

(a) Change in terms (§ 905(b)).

(b) Annual error resolution notice (§ 905(a)(7)).

#### Section 205.7—Documentation of Transfers

(a) Terminal transfers by consumers (§ 906(a)).

(b) Preauthorized transfers (§ 906(b)).

(c) Periodic statements (§ 906(c)).

**Section 205.8—Preauthorized Transfers**  
(§ 907)

(a) Specific requirements.

**Section 205.9—Error Resolution** (§ 908)

- (a) Notification of errors.
- (b) Correction of errors.
- (c) Recrediting of accounts.

**Section 205.10—Relation to State Law**

- (a) Inconsistent State laws (§ 919).
- (b) Preempted State law provisions (§ 920).
- (c) Exemption for State regulated transfers; procedures and criteria (§ 920).

**Section 205.11—Administrative Enforcement**

- (a) Administrative enforcement (§ 917).
- (b) Issuance of interpretations (§ 915(d)).
- (c) Issuance of model clauses (§ 904(b)).
- (d) Preservation and inspection of evidence of compliance.

**Section 205.12—Definitions and Rules of Construction** (§ 903)<sup>12</sup>

- (a) Access device and accepted access device.
  - (b) Account.
  - (c) Act.
  - (d) Business day.
  - (e) Consumer.
  - (f) Credit card.
  - (g) Electronic fund transfer.
  - (h) Electronic terminal.

[6320-01-M]

**CIVIL AERONAUTICS BOARD**

[14 CFR Part 249]

[EDR-365A; Docket 33725;

Dated: December 22, 1978]

**PRESERVATION OF AIR CARRIER ACCOUNTS, RECORDS AND MEMORANDA****Supplemental Notice of Proposed Rulemaking**

AGENCY: Civil Aeronautics Board.

ACTION: Supplemental Notice of Proposed Rulemaking.

SUMMARY: This action extends to January 26, 1979 the filing date for comments in a rulemaking proceeding to revise the rules for the preservation of air carrier records. The extension was requested by Delta Airlines.

DATES: Comments by: January 26, 1979. Comments and other relevant information received after this date will be considered by the Board only to the extent practicable.

ADDRESSES: Twenty copies of comments should be sent to Docket 33725, Docket Section, Civil Aeronautics Board, 1825 Connecticut Avenue, N.W., Washington, D.C. 20428. Individuals may submit their views as consumers without filing multiple copies. Comments may be examined in Room 711, Civil Aeronautics Board, 1825 Connecticut Avenue, N.W., Washington, D.C., as soon as they are received.

FOR FURTHER INFORMATION CONTACT:

Joseph A. Brooks, Office of the General Counsel, Civil Aeronautics Board, 1825 Connecticut Avenue, N.W., Washington, D.C. 20428. 202-673-5442.

SUPPLEMENTARY INFORMATION: By Notice of Proposed Rulemaking EDR-365 (43 FR 50150, October 26, 1978) the Board proposed to amend Part 249 of the Board's Economic Regulations pertaining to the preservation of records by air carriers. The proposed rule would allow records to be maintained in a form other than on the original paper as is presently required. There are also provisions in the proposed rule concerning such matters as the retention of records, designation of supervisory officials to be in charge of the records, and the requirement of the maintenance of a comprehensive index of the records being preserved.

The comment closing date is December 26, 1978.

Delta Airlines has requested an extension to January 26, 1979. Delta based its request on the need for more time to compile adequately the results of its review and analysis of the effect of the proposed rule.

Upon consideration of the above, the undersigned finds good cause to grant the request for an extension of time for the preparation of comments on the proposed rule.

Accordingly, pursuant to authority delegated in § 385.20(d) of the Board's Organization Regulations (14 CFR 385.20(d)), the time for filing comments is extended to January 26, 1979.

(Sec. 204(a) of the Federal Aviation Act of 1958, as amended, 72 Stat. 743, 49 U.S.C. 1324.)

RICHARD B. DYSON,  
Associate General Counsel.

[3510-08-M]

**DEPARTMENT OF COMMERCE****National Oceanic and Atmospheric Administration**

[15 CFR Part 923]

**COASTAL ZONE MANAGEMENT PROGRAM APPROVAL REGULATIONS****Proposed Rule**

AGENCY: National Oceanic and Atmospheric Administration, NOAA, Department of Commerce.

ACTION: Proposed Rule.

SUMMARY: These proposed regulations established revised procedures the Office of Coastal Zone Management (OCZM), National Oceanic and Atmospheric Administration (NOAA) proposes to adopt concerning amendments to approved State coastal management programs. These procedures would replace those presently contained in Subpart I, 15 CFR Part 923, Interim-Final Regulations published in the FEDERAL REGISTER on March 1, 1978 (Vol. 43, No. 41, pages 8425-8429).

DATE COMMENTS DUE: January 29, 1979.

FOR FURTHER INFORMATION, CONTACT:

Carol Sondheimer, Acting Chief, Policy and Program Evaluation, Office of Coastal Zone Management, Page Building 1, 3300 Whitehaven Street, N.W., Washington, D.C. 20235. 202-634-4245.

SUPPLEMENTARY INFORMATION: On March 1, 1978, the National Oceanic and Atmospheric Administration published interim-final regulations dealing with requirements for the development and approval of state coastal management programs pursuant to the Coastal Zone Management Act of 1972, as amended (hereafter referred to as the "Act.") Contained in those regulations is Subpart I which defines changes to approved state programs and contains procedures for incorpo-

rating these changes into a state's program.

On July 6, 1978, the National Oceanic and Atmospheric Administration issued a notice in the FEDERAL REGISTER (Vol. 43, No. 130, pages 29106-29109) extending the comment period on the interim-final regulations to August 31, 1978. This extension notice specifically noted the manner in which Office of Coastal Zone Management intended to revise substantially Subpart I dealing with changes to approved state programs.

Based on comments received during the extended comment period, Office of Coastal Zone Management since has revised Subpart I. Because these revisions are substantially different from those described in the July 6, 1978, extension notice, the Office of Coastal Zone Management now is providing all interested and affected parties a further opportunity to review and comment on this subpart prior to its incorporation into the Coastal Zone Management Program Development and Approval Regulations and their publication in final form.

Until final regulations are published, the interim-final regulations published March 1, 1978, are in effect.

**SUMMARY OF SUBPART I PROVISIONS**

These proposed regulations would eliminate the distinction in the Interim-Final Regulations between amendments and refinements. Instead two classes of actions would be treated as amendments. One class would deal with substantive changes in enforceable policies or authorities related to: (1) boundaries, (2) uses subject to a State's management program, (3) criteria or procedures for designating areas of particular concern or areas for preservation or restoration, and (4) policies or procedures for consideration of the national interest involved in the planning for, and in the siting of, facilities which are necessary to meet requirements which are other than local in nature (See § 923.80(c)). The second class of actions which would be treated as amendments would involve local coastal programs, for States employing the control technique of local implementation authorized by section 306 (e)(1)(A) of the Act. These are local programs which will be approved by a State subsequent to that State's management program receiving full approval by the Assistant Administrator for Coastal Zone Management (hereafter referred to as the Assistant Administrator) (See § 923.80(d)). Other changes to a State's program which are in accordance with procedures contained in a State's approved program will be considered routine program implementation which are not subject to the amendment procedures contained in § 923.82. For rou-

time program implementation, States must notify the Office of Coastal Zone Management and affected parties (including relevant Federal agencies) of such changes so that the consistency provisions of section 307 of the Act can apply (See § 923.84).

Section 923.81 describes the content of amendment requests, the timing of submission and who may request an amendment. Because the Office of Coastal Zone Management wants to coordinate its own review procedures with those occurring at the State level in order to minimize delays and duplication. States are encouraged to submit amendment requests prior to final State action. (See § 923.81(c).)

Upon receipt of an amendment request, the Office of Coastal Zone Management will review it in order to make two determinations: (1) that the program, if changed according to the amendment request, would still constitute an approvable program and (2) that certain procedural requirements of section 306(c) of the Act have been met. (See § 923.82(a) for detailed criteria by which these determinations will be made.)

If a determination is made by the Assistant Administrator as a preliminary matter that the amendment request is approvable, then a determination will be made whether an environmental impact statement (EIS) is required, pursuant to the National Environmental Policy Act of 1969, as amended. (See § 923.82(c).)

Where an EIS is required the Office of Coastal Zone Management will follow the standard procedures provided by the Council on Environmental Quality (CEQ). (See § 923.82(c)(1).)

Where an EIS is not required, the Office of Coastal Zone Management will publish notice in the FEDERAL REGISTER of the content of the proposed amendment and the Assistant Administrator's intent to approve. Where a state has provided opportunity for timely review and comment on its proposed amendment at the State or local level, the Assistant Administrator will normally approve the proposed amendment after the close of the comment period unless the head of a Federal agency raises a serious disagreement with the State about its proposed amendment pursuant to section 307(h) of the Act. (See § 923.82(c)(2).)

Section 923.83 describes mediation procedures available to attempt to resolve serious disagreements between a Federal Agency and a coastal State with respect to proposed amendments.

Section 923.85 contains conditions and procedures by which funding for approved programs may be terminated for programmatic reason. This section is essentially unchanged, except for minor editorial changes, from § 923.83 of the Interim-Final regulations.

## PUBLIC REVIEW AND COMMENT

NOAA invites public review and comment on this proposed rule so it again may be modified, if necessary and where legally permissible, to fully satisfy the requirements of the Act in a manner which addresses the concerns of all parties affected by the regulations. Written comments should be submitted to: Carol Sondheimer, Office of Coastal Zone Management, Page Building 1, 3300 Whitehaven Street NW., Washington D.C. 20235, on or before January 29, 1979. Following the close of the comment period, and after review of comments, this proposed rule may be amended and will be published along with the rest of the Program Development and Approval Regulation as final regulations in the FEDERAL REGISTER.

M. P. SNIDERO,  
Acting Deputy Assistant Administrator for Administration.

## PART 923—COASTAL ZONE MANAGEMENT PROGRAM DEVELOPMENT AND APPROVAL REGULATIONS

## Subpart I—Amendments to Approved Management Programs

- 923.80 General.  
923.81 Request for amendments.  
923.82 Amendment review approval procedures.  
923.83 Mediation of amendments.  
923.84 Routine program implementation.  
923.85 Termination and withdrawal of administrative funding.

## Subpart I—Amendments to Approved Management Programs.

## § 923.80 General

(a) This subpart establishes the criteria and procedures by which amendments to approved management programs may be made. This subpart also establishes the conditions and procedures by which administrative funding may be terminated for programmatic reasons.

(b) Statutory Citations, Subsection 306(g):

Any coastal state may amend or modify the management program which it has submitted and which has been approved by the Secretary under this section, pursuant to the required procedures described in subsection (c). . . . (N)o grant shall be made under this section to any coastal state after the date of such amendment or modification, until the Secretary approves such amendment or modification.

## Subsection 312(b):

The Secretary shall have the authority to terminate any financial assistance extended under section 306 and to withdraw any unexpended portion of such assistance if (1) he determines that the state is failing to adhere to and is not justified in deviating from the program approved by the Secretary, and (2) the state has been given notice

of the proposed termination and withdrawal and given an opportunity to present evidence of adherence or justification for altering its program.

(c) For purposes of this subpart, amendments are defined as substantive changes in enforceable policies or authorities related to:

- (1) Boundaries;
- (2) Uses subject to the management program;

(3) Criteria or procedures for designating areas or particular concern or areas for preservation or restoration; and

(4) Consideration of the national interest involved in the planning for, and in the siting of, facilities which are necessary to meet requirements which are other than local in nature.

(d) For States employing the control technique authorized by section 306(e)(1)(A) of the Act (local implementation pursuant to State criteria and standards), local coastal programs, which will be approved by the State subsequent to the State's management program receiving full approval by the Assistant Administrator, shall be treated as amendments to the State's approved management program. Subsequent changes to local coastal programs will not be treated as amendments to the State's management program if they were adopted in accordance with the following procedures:

(1) Opportunity for the public and governmental entities (including Federal agencies) to participate in the development of changes to local programs;

(2) Opportunity for the public and governmental entities (including Federal agencies) to make their views known (through public hearings or other means) to the State agency prior to its approval of local programs changes; and

(3) Review by the State of the adequacy of local government consideration of facilities identified in a State's management program in which there is a national interest where a local program change may affect such facilities.

## § 923.81 Request for amendments.

(a) **Requirement.** Requests for amendments shall be submitted to the Assistant Administrator by the Governor of a coastal State with an approved management program or by the head of the State agency (designated pursuant to section 306(c)(5)) if the Governor has delegated this responsibility and such delegation is part of the approved management program.

(b) **Requirements.** Amendment requests shall contain the following:

(1) Description of the proposed change, including specific pages and text of the management program that

will be changed if the amendment is approved by the Assistant Administrator;

(2) Explanation of why the change is necessary and appropriate, including a discussion of the following factors, as relevant: changes in coastal zone needs, problems, issues, or priorities. This discussion also shall identify which findings, if any, made by the Assistant Administrator in approving the management program may need to be modified if the amendment is approved;

(3) Copy of public notice(s) announcing the public hearing(s) on the proposed amendment;

(i) At least one public hearing must be held on the proposed amendment, pursuant to sections 306(c)(3) of the Act;

(ii) Pursuant to section 311 of the Act, notice of such public hearing(s) must be announced at least 30 days prior to the hearing date.

(Comment. Where administratively possible, States should endeavor to tie the public hearing(s) on the proposed amendment to existing State hearing procedures, for example, State agency hearings required under State law prior to approval of local coastal programs. Since hearings on amendments to approved management programs are subject to a minimum 30 day notice, States may want to alter or supplement their notice procedures where these presently provide less than 30 days notice.)

(iii) At the time of the announcement, relevant agency materials pertinent to the hearing must be made available to the public;

(4) Summary of the hearing(s) comments;

(i) Where OCZM is providing Federal agency review concurrent with the notice period for the State's public hearing, this summary of hearing(s) comments may be submitted to the Assistant Administrator within 60 days after the hearing;

(Comment. See related discussion in paragraph (c).)

(ii) Where hearing(s) summaries are submitted as a supplement to the amendment request (as in the case described in (1) above), the Assistant Administrator will not take final action to approve or disapprove an amendment request until the hearing(s) summaries have been received and reviewed;

(5) Environmental Impact Assessment;

(6) Documentation of opportunities provided relevant Federal, State, regional and local agencies, port authorities and other interested public and private parties to participate in the development and approval at the State level of the proposed amendment.

(c) Requests for amendments should be submitted to the Assistant Administrator whenever possible prior to final

State action to implement a major program.

(Comment. Where a program change will be effectuated by State administrative action, such as adoption of State agency rules and regulations or State commission approval of mandated local programs, the request for an amendment of the State's approved management program should occur before final State agency action in order that OCZM may coordinate its review period with that occurring at the State level.

Where a program amendment is the result of legislative action, OCZM recognizes it will be more difficult to submit amendment requests as a matter of course prior to final State action. Even in these cases, nonetheless, OCZM encourages States to submit amendment requests prior to final legislative action.)

## § 923.82 Amendment review/approval procedures.

(a) Upon submission by a State of its amendment request, OCZM will review the request to determine preliminarily if:

(1) The management program, if changed according to the amendment request, still would constitute an approvable program. For amendments affecting management program boundaries, this will involve a determination that the program, if changed, will continue to include the following areas (as defined in § 923.31(a)) within the State's coastal zone:

(i) Areas the management of which is necessary to control uses with direct and significant impacts on coastal waters;

(ii) Transitional and intertidal areas;

(iii) Salt marshes and wetlands;

(iv) Islands;

(v) Beaches; and

(vi) Waters under tidal influence.

For amendments affecting uses subject to the management program, this will involve a determination that the program, if changed, will continue to:

(i) Identify which uses are subject to the management program;

(ii) Assure that policies and authorities governing the management of these uses incorporate a sufficient range of considerations to address the findings and policies of sections 302 and 303 of the Act; and

(iii) Assure that policies and authorities related to use management are capable of effective implementation at the time of amendment approval.

For amendments affecting criteria for designating areas of particular concern, this will involve a determination that the management program, if changed, will continue to provide for:

(i) Criteria for marine designations;

(ii) Designation of areas on a generic or site-specific basis;

(iii) Description of how the management program addresses and resolves

the management concerns for which areas are designated; and

(iv) Guidelines regarding priority of uses, including uses of lowest priority.

For amendments affecting criteria for designating areas for preservation or restoration, this will involve a determination that the management program, if changed, will continue to:

(i) Provide for criteria and procedures for designations that are for the purposes of preserving or restoring areas for their conservation, recreational, ecological or esthetic values;

For amendments affecting procedures for considering the national interest in particular facilities, this will involve a determination that the management program, if changed, will continue to provide for:

(i) A description of the national interest in the planning for and siting of the facilities which is taken into account by the consideration procedure;

(ii) The sources relied upon for such consideration;

(iii) A clear and detailed description of the administrative procedures and decisions points where this interest will be considered; and

(iv) In the case of energy facilities, consideration of any applicable interstate energy plan or program developed pursuant to section 309 of the Act.

(2) The procedural requirements of section 306(c) of the Act have been met. These procedural requirements are that:

(i) The State has developed the amendment with the opportunity for full participation by relevant Federal agencies, State agencies, local governments, regional organizations, port authorities, and other interested public and private parties (section 306(c)(1) of the Act);

(ii) The State has coordinated the amendment with local, area-wide and interstate plans applicable to areas within the coastal zone affected by the amendment and existing on January 1 of the year in which the amendment request is submitted (section 306(c)(2));

(iii) Notice has been provided and a public hearing held on the proposed amendment (sections 306(c)(1) and (c)(3)); and

(iv) The Governor or the head of the State agency, designated pursuant to section 306(c)(5), has reviewed and approved the proposed amendment (section 306(c)(4)).

(b) If the Assistant Administrator, as a preliminary matter, determines that the management program, if changed, would no longer constitute an approvable program, or if any of the procedural requirements of section 306(c) of the Act have not been met, the Assistant Administrator shall advise the

State in writing of the reasons why the amendment request cannot be considered.

(1) Where problems exist with respect to the procedural requirements, States may redress these and resubmit its amendment request.

(2) Where problems exist with respect to basic program approvability, States also may modify their amendment request to redress the deficiencies with respect to approvability and thereafter may resubmit their amendment request.

(3) Where a State acts to implement the amendment request despite the Assistant Administrator's notification that such amendment would render the management program unapprovable, that State may be subject to termination of program approval and withdrawal of administrative funding. (See § 923.85.)

(c) If the Assistant Administrator, as a preliminary matter, determines that the management program, if changed, would still constitute an approvable program and that the procedural requirements of section 306(c) of the Act have been met, the Assistant Administrator will then determine, pursuant to the National Environmental Policy Act of 1969, as amended, whether an environmental impact statement (EIS) is required.

(1) If an EIS is appropriate, OCZM will prepare and distribute a DEIS and FEIS consistent with CEQ guidelines and NOAA procedures.

(Comment. Where State management programs contain adequate opportunities for governmental and public review and comment on their proposed amendment request (as discussed in § 923.82(a)(2)(i)), OCZM anticipates that the 45 day review period for its DEIS and the 30 day review period for the FEIS will be strictly adhered to.)

(i) Following review of comments on the FEIS, the Assistant Administrator will take final action to approve or disapprove the amendment request.

(ii) Notice of the Assistant Administrator's decision will be given in the FEDERAL REGISTER. If the Assistant Administrator's decision is to approve the amendment, the notice also shall indicate that Federal consistency applies as of the time of the Assistant Administrator's approval.

(2) If an EIS is not required pursuant to CEQ guidelines and regulations, notice will be published in the FEDERAL REGISTER of the Assistant Administrator's intent to approve the amendment request.

(i) This notice will include the content of the proposed amendment; the basis for determining an EIS is not required; and a specified comment period of not less than 30 days.

(ii) If no serious disagreement is raised by the head of a Federal agency (see § 923.83) during the comment period, the Assistant Administrator

may approve the proposed amendment and issue notice thereof in the FEDERAL REGISTER.

#### § 923.83 Mediation of amendments.

(a) Section 307(h)(2) of the Act provides for mediation of "serious disagreements" between a Federal agency and a coastal State during administration of an approved management program. Accordingly mediation is available to states or federal agencies when a serious disagreement regarding a proposed amendment arises.

(b) Mediation may be requested by a Governor or head of a State agency designated pursuant to section 306(c)(5) or by the head of a relevant Federal agency. Mediation is a voluntary process in which the Secretary of Commerce attempts to mediate between disagreeing parties over major problems.

(c) The specific mediation procedures to be followed when there are serious disagreements over amendments are the same as those utilized

for serious disagreements during program implementation. (See § 923.54).

#### § 923.84 Routine program implementation.

(a) Further detailing of a State's program that is the result of implementing provisions approved as part of a State's approved management program, that does not result in the type of action described in §§ 923.80(c) and (d), will be considered routine program implementation. Such routine implementation is not subject to the amendment procedures contained in §§ 923.81-923.82.

(b) Prior to issuing notice to the general public of new, relevant information about, or requirements of, the program that result from routine program implementation, a State shall advise the Office of Coastal Zone Management of this action in order that OCZM may review the action to insure it does not constitute an amendment.

(1) States have the option of notifying the Office of Coastal Zone Management of routine program imple-

mentation on a case-by-case basis, periodically throughout the year, or annually.

(2) In determining when and how often to notify the Office of Coastal Zone Management of such actions, States should be aware that Federal consistency will apply only after general public notice has been provided. (See paragraph (d)(1) of this section.)

(c) Within 3 weeks of receipt of notice from a State, the Office of Coastal Zone Management shall inform the State whether it concurs that the action constitutes routine program implementation.

(d) Where the Office of Coastal Zone Management concurs, a State then should provide general public notice of the action to affected parties (including relevant Federal agencies).

(1) Federal consistency with the action shall not be required until this notice has been provided.

(e) Where the Office of Coastal Zone Management does not concur, a State will be advised to submit the action as an amendment, subject to the provisions of §§ 923.81-923.82.

[3510-08-C]

## CHART

## AMENDMENT PROCESS

### § 923.5 Termination and withdrawal of administrative funding.

#### (a) Statutory Citation, Subsection 312(b):

The Secretary shall have the authority to terminate any financial assistance extended under section 306 and to withdraw any unexpended portion of such assistance if (1) he determines that the state is failing to adhere to and is not justified in deviating from the program approved by the Secretary; and (2) the state has been given notice of the proposed termination and withdrawal and given an opportunity to present evidence of adherence or justification for altering its program.

(b) In addition to the provisions contained in OMB Circular A-102 relating to termination and withdrawal of funding awarded pursuant to a grant award, the Assistant Administrator may recommend to the NOAA Grants Office that section 306 grant funding be terminated and withdrawn if the Assistant Administrator determines that:

(1) A State has failed or is failing to adhere to and was or is not justified in deviating from its approved management program; and

(2) That State has been provided notice of intent to terminate and withdraw funding; and

(3) That State has been provided an opportunity to demonstrate adherence, or justification for program alteration.

(c) Situations which may lead to notice of intent to terminate and withdraw funding include:

(1) In evaluating a State's performance as part of the continuing review function pursuant to section 312 of the Act, the Assistant Administrator determines that the State has not adhered to its management program approved pursuant to section 306 of the Act, and such lack of adherence is not justified; or

(2) In going through the amendment process, a State acts to implement that amendment prior to approval by the Assistant Administrator.

(d) In the event there is cause for terminating and withdrawing section 306 funding, notice in the form of written documents from the Assistant Administrator and the NOAA Grants Officer to the Governor of the State in question or the head of the designated State agency shall be provided advising of the intent to terminate an approved grant and to withdraw any unexpended portions of funding assistance. Included in this notice will be the reasons for the proposed termination and withdrawal of funds as well as notice of opportunity for the State to present evidence of adherence or justification for alteration of its program. Such opportunity to present evidence is referred to in subsection 312(b) of the Act shall consist of a

thirty day period, commencing on receipt of notice, within which the State may respond by providing written materials demonstrating adherence to or justification for altering its program. Within this thirty day period, a State may request additional time beyond the thirty day period to present evidence of adherence or justification for alteration. Such additional time shall not extend beyond a subsequent thirty days from the termination of the first thirty day period. In total then, a State may have a maximum of sixty days, from receipt of notice, in which to respond. Following receipt and evaluation of a State's evidence with respect to adherence or justification for alteration, a final determination shall be made by NOAA with respect to termination and withdrawal of funding assistance. If termination and withdrawal of funding is deemed appropriate, the NOAA Grants Office shall take appropriate action to terminate or withdraw funds. If funding is terminated and withdrawn pursuant to this section notice shall be placed in the FEDERAL REGISTER. Once funding is terminated and withdrawn pursuant to this section, Federal consistency pursuant to section 307 of the Act shall cease to apply to that State's program.

#### [6750-01-M]

### FEDERAL TRADE COMMISSION

[16 CFR Chapter I]

#### ADVERTISING OF VETERINARY GOODS AND SERVICES

AGENCY: Federal Trade Commission.

ACTION: Notice of intent to forego temporarily proposed rulemaking.

SUMMARY: The Federal Trade Commission on recommendation from its staff has decided to forego temporarily proposed rulemaking regarding certain restrictions on advertising of veterinary goods and services. This notice describes staff's proposed Rule and the reasons for the Commission's action with respect thereto.

ADDRESS: All documents submitted in response to this notice should be sent to F. Kelly Smith, Federal Trade Commission, Denver Regional Office, 1405 Curtis Street, Suite 2900, Denver, Colorado 80202.

FOR FURTHER INFORMATION CONTACT:

Paul K. Trause, Program Advisor for Occupational Regulation, Federal Trade Commission, Washington, D.C. 20580, 202-523-5344; or F. Kelly Smith, Federal Trade Commission, Denver Regional Office, 1405 Curtis Street, Suite 2900, Denver, Colorado 80202, 303-837-2271.

### SECTION A. THE PROPOSED RULE CONCERNING ADVERTISING OF VETERINARY GOODS AND SERVICES

Staff of the Federal Trade Commission was authorized by the Commission on December 19, 1975, to undertake an industrywide, non-public investigation into the regulation of the veterinary profession. Among the various issues of concern in this investigation were the restraints on veterinary advertising. Staff's completed investigation of this issue has resulted in a publicly available document entitled Staff Report on Advertising of Veterinary Goods and Services. The Staff Report may be obtained through the Public Records Branch, Federal Trade Commission, Room 130, 6th and Pennsylvania Avenue, N.W., Washington, D.C. 20580.

The Staff Report discusses facts which suggest that the restraints on veterinary advertising resulting from public and private enactments are widespread and pervasive. Moreover, the Report suggests that these restraints may be unfair and deceptive within the meaning of Section 5 of the Federal Trade Commission Act, requiring appropriate relief.

Because the main body of the Staff Report was drafted prior to the Commission's issuance of the Trade Regulation Rule Concerning Advertising of Ophthalmic Goods and Services (16 CFR Part 456), the Report does not fully reflect the approach set forth in that Rule. In publishing the Staff Report Concerning Advertising of Veterinary Goods and Services, the Commission has not adopted the analysis or conclusions contained therein.

The Staff Report sets out a profile of the veterinary profession (Part I), describes the public and private restraints on veterinary advertising (Part II), discusses the economic effects of such restraints (Part III), and the arguments used to justify these restraints (Part IV). In Part V, the Report recommends a Trade Regulation Rule and in Parts VI and VII, respectively, discusses the legal basis for such Rule and the jurisdictional considerations with respect thereto.

The full text of staff's proposed Trade Regulation Rule may be found at pages 100-102 of the Staff Report. If enacted, the proposed Trade Regulation Rule would:

1. Prohibit members of the veterinary profession from engaging in any activity which burdens, limits or restricts the ability of any other industry member to advertise, in any medium, nondeceptive statements or claims concerning veterinary goods and services;

2. Prohibit veterinary industry members from relying on any non-federal laws or regulations or any private codes of conduct as a reason for not

advertising in any medium, nondeceptive statements or claims concerning veterinary services;

3. Limit the disciplining of veterinary association members who engage in advertising;

4. Prohibit veterinary industry members from complying with any non-federal law or regulation or any private rule which requires unduly burdensome disclosures.

### SECTION B. COMMISSION ACTION WITH RESPECT TO STAFF'S PROPOSED RULE CONCERNING ADVERTISING OF VETERINARY GOODS AND SERVICES

After Staff completed its initial draft of the Report, it was learned that the major national association of veterinarians, the American Veterinary Medical Association (AVMA), was recommending that state veterinary licensing boards substantially relax their restraints on veterinary advertising. In conjunction with this recommendation, the AVMA published a set of proposed Regulations concerning veterinary advertising. These Regulations are analyzed in relation to the proposed Rule in the Preface to the Staff Report.

The AVMA has also revised that section of its Code of Veterinary Medical Ethics which, theretofore, had prohibited virtually all forms of veterinary advertising. Simultaneously, the AVMA announced a study of the annotations to this section of its ethical code which may culminate in revisions of these annotations.

Because the AVMA has taken creditable actions which may result in the voluntary relaxation of the public and private restraints on veterinary advertising, the Commission has decided, in the exercise of its discretion, to forego temporarily rulemaking in this area.

Through the end of June, 1979, Commission staff will monitor the revisions, if any, to the public and private enactments that prohibit or restrict veterinary advertising. Additionally, staff will monitor the effects of such revisions, if any, with particular concern to the actual occurrence of veterinary advertising. If, at the end of this period, staff reports that the restraints on veterinary advertising are no longer prevalent, the Commission may decide to forego permanently rulemaking in this area. On the other hand, if the restraints remain prevalent or the revisions of such restrictions have not been effectively implemented, the Commission may publish a proposed rule or take such other action as may be appropriate under the circumstances.

### SECTION C. INVITATION TO COMMENT

Any interested person may submit data, views, or arguments on any issue

of fact, law or policy which may pertain to the staff's proposed Rule or the Commission's action with respect thereto.

Such written comments will be accepted until March 31, 1979, and should be directed to F. Kelly Smith, Federal Trade Commission, Denver Regional Office, 1405 Curtis Street, Suite 2900, Denver, Colorado 80202. To assure prompt consideration, comments should be identified as "Veterinary Advertising Comment." By direction of the Commission.

CAROL M. THOMAS,  
Secretary.

#### [6355-01-M]

### CONSUMER PRODUCT SAFETY COMMISSION

[16 CFR Part 1205]

#### POWER LAWN MOWERS

Extension of Safety Standard Development Period

AGENCY: Consumer Product Safety Commission.

ACTION: Extension of time.

SUMMARY: The Consumer Product Safety Commission extends until February 15, 1979, the period during which it must either (1) issue a final safety standard addressing blade contact injuries associated with walk-behind power lawn mowers or (2) withdraw the portions of the previously proposed standard that address such injuries. This extension is necessary in order for the staff to analyze comments it has recently received concerning the safety and reliability of brake-clutch mechanisms for power lawn mowers.

FOR FURTHER INFORMATION CONTACT:

Harleigh Ewell, Office of the General Counsel, Consumer Product Safety Commission, Washington, D.C. 20207, telephone (202) 634-7770.

SUPPLEMENTARY INFORMATION: On May 5, 1977 (42 FR 23052), the Commission proposed a safety standard for power lawn mowers (16 CFR Part 1205). Section 9(a)(1) of the Consumer Product Safety Act (15 U.S.C. 2058(a)(1)) requires that within 60 days after the publication of a proposed consumer product safety rule, the Commission shall either (1) promulgate a rule respecting the risk of injury associated with such product or (2) withdraw the applicable notice of proceeding, unless the Commission extends the 60-day period for good cause and publishes its reasons in the FEDERAL REGISTER. The Commission has pre-

viously extended the time for either issuing a final standard or withdrawing the proposal to December 29, 1978, for requirements addressing blade contact with walk-behind mowers and to December 31, 1979, for other risks of injury addressed by the proposed standard, such as those for thrown objects and for riding mowers (May 5, 1977, 42 FR 23052; October 7, 1977, 42 FR 54573; June 7, 1978, 43 FR 24697).

As part of its consideration of potential requirements addressing blade contact injuries, the Commission on November 2, 1978, requested comment on data it had received concerning the reliability and safety of brake-clutch mechanisms for power lawn mowers and also sought comment on several questions concerning this subject (43 FR 51038). The period for response to these requests was set to expire November 22, 1978. However, the Commission received several requests for an extension of this period and for the Commission to allow the presentation of oral comments on this subject. In response to these requests, the Commission extended the comment period until December 15, 1978, and allowed the oral presentation of comments on December 11, 1978 (43 FR 55771).

A public meeting at which the Commission would consider the issuance of a final safety standard addressing the risk of injury from contact with blades of walk-behind power lawn mowers was originally scheduled for December 15, 1978. However, because of the extension of the comment period concerning brake-clutch safety and reliability, discussed above, and because of the additional time that will be required for the staff to analyze the comments that have been received and the transcript of the oral presentation, it is not possible for the Commission to consider and issue a standard by December 29, 1978.

The Commission presently plans to consider the issuance of a standard at its meeting on January 25, 1979. If the Commission votes at that time to issue a final standard, an additional period will be required to make any necessary changes in the FEDERAL REGISTER notice that will issue the standard and to arrange for publication of the standard in the FEDERAL REGISTER.

Accordingly, the Commission hereby extends until February 15, 1979, the period during which it must either issue a final standard addressing blade contact injuries associated with walk-behind power lawn mowers or withdraw the proposal of the requirements addressing such injuries. The period ending December 31, 1979, for other requirements of the proposal is not affected by this extension. However, the Commission may in the future, for good cause shown, extend either of these periods as appropriate.

Dated: December 22, 1978.

SADYE E. DUNN,  
Secretary, Consumer Product  
Safety Commission.

# DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Social Security Administration

[20 CFR Part 404]

(Regulations No. 4)

## FEDERAL OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE

Reduction of Benefits to Maximum

AGENCY: Social Security Administration, HEW.

ACTION: Notice of Proposed Rule Making.

**SUMMARY:** The amendment to the regulations reflects the provision of Section 202 of Pub. L. 95-216 (Social Security Amendments of 1977) which provides a new formula for determining the family maximum for years after 1978.

**DATES:** Your comments will be considered if we receive them no later than February 27, 1979.

**ADDRESSES:** Send your written comments to the Commissioner of Social Security, Department of Health, Education, and Welfare, P.O. Box 1585, Baltimore, Maryland 21203. Copies of all comments received in response to this notice will be available for public inspection during regular business hours at the Washington Inquiries Section, Office of Information, Social Security Administration, Department of Health, Education, and Welfare, North Building, Room 5131, 330 Independence Avenue SW., Washington, D.C. 20201.

**FOR FURTHER INFORMATION CONTACT:**

David B. Smith, Legal Assistant, 6401 Security Boulevard, Baltimore, Maryland 21235, telephone (301) 594-7951.

**SUPPLEMENTARY INFORMATION:** The amendment to the regulations implements that portion of Section 202 of Pub. L. 95-216 which provides for a maximum amount that may be paid on the earnings record of an insured individual for any one month. Prior to the amendment the maximum amounts were specific dollar amounts shown in a table in the law. The amendment substitutes a formula for fixing the maximum. The formula maintains the same approximate relationship between the maximum pay-

able on the worker's account and the worker's primary insurance amount (PIA) as under present law. Where the maximum applies, individual benefits are adjusted so that the total is, in general, not exceeded. For years after 1978, the maximum is computed by applying set percentages to dollar portions of the PIA. The dollar portions will be updated each year as average earnings rise and will be applied to persons becoming eligible within the year for which the dollar portions are effective. The new dollar portions shall be published in the Federal Register on or before November 1 of each year after 1978 and shall be effective with the following year.

The amendment is to be issued under the authority of Sections 203, 205, and 1102 of the Social Security Act, as amended; 49 Stat. 623, as amended; 53 Stat. 1368, as amended; 49 Stat. 647, as amended; 42 U.S.C. 403, 405, and 1302.

(Catalog of Federal Domestic Assistance Program Nos. 13.802 Social Security—Disability Insurance, and 13.803 Social Security—Retirement Insurance.)

Dated: August 15, 1978.

DON WORTMAN,  
Acting Commissioner  
of Social Security.

Approved: September 1, 1978.

HALE CHAMPION,  
Acting Secretary of Health,  
Education, and Welfare.

Part 404 of Chapter III of Title 20 of the Code of Federal Regulations is amended by revising paragraph (a) of § 404.403 to read as follows:

§ 404.403 Reduction where total monthly benefits exceed maximum family benefits payable.

(a) *Determining maximum amounts for months after 1964.* (1) *Eligibility or death after 1978.*

If more than one person is entitled to monthly benefits for the same month on the same earnings record, the amount of the monthly maximum depends on the year the insured individual attained age 62, became eligible for disability benefits or died before reaching age 62 or becoming disabled.

(i) If an insured individual attains age 62 or dies in 1979, the monthly maximum is as follows:

(a) 150 percent of the first \$230 of the individual's primary insurance amount, plus

(b) 272 percent of the primary insurance amount over \$230 but under \$333, plus

(c) 134 percent of the primary insurance amount over \$332 but under \$434, plus

(d) 175 percent of the primary insurance amount over \$433.

(ii) For purposes of determining the monthly maximum, the year of death or attainment of age 62 does not control if the insured individual became entitled to a disability benefit within the preceding 12-month period. Instead the year of eligibility for the disability insurance benefit controls.

(iii) If an insured individual becomes eligible or dies after 1979, the monthly maximum is computed as in paragraph (a)(1)(i) of this section. However, the dollar amounts shown there will be updated by multiplying them by the quotient obtained from applying the formula in § 215(a) of the Social Security Act, as amended (42 U.S.C. 415(a)).

(iv) An amount computed under paragraph (a)(1)(i) of this section that is not a multiple of \$0.10 is rounded to the next higher multiple of \$0.10. An amount computed under paragraph (a)(1)(iii) of this section is rounded to the next higher dollar if the amount is an exact multiple of \$0.50. Otherwise, it is rounded to the nearest \$1.

(v) On or before November 1 of each calendar year after 1978, the Secretary shall publish in the FEDERAL REGISTER the formula to be used for determining the monthly maximum for the following year.

(vi) If any of the persons entitled to benefits on the earnings record of an insured individual would, except for the limitation described in § 404.353(d), be entitled to child's insurance benefits on the earnings record of one or more other insured individuals, the total benefits of all such persons may not be reduced to less than the smaller of: (a) the sum of the maximum amounts of benefits payable on the earnings records of all the insured individuals, or (b) 1.75 times the highest primary insurance amount possible for that month based on the average indexed monthly earnings equal to one-twelfth of the contribution and benefit base determined for that year.

(vii) If benefits are payable on the earnings of more than one individual and the primary insurance amount of one of the insured individuals was computed under the provisions in effect before 1979 and the primary insurance amount of the others was computed under the provisions in effect after 1978, the maximum monthly benefits are computed under paragraph (a)(1)(vi)(b) of this section. The family maximum provisions applicable before 1979 remain in effect for individuals who before 1979 became eligible for old-age benefits or disability benefits or died before becoming eligible.

(2) *Eligibility or death before 1979.* Where more than one person is enti-

tled to monthly benefits for the same month on the same earnings record and the total of the monthly benefits exceeds the amount appearing in column V of the applicable table in section 215(a) of the Act on the line on which appears in column IV the primary insurance amount of the insured individual whose earnings record is the basis for the benefits payable, the total benefits for each month after 1964 are reduced to the amount appearing on the appropriate line in column V; provided that when any of the persons entitled to benefits on the insured individual's earnings would, except for the limitation described in § 404.353(d), be entitled to child's insurance benefits on the basis of the earnings record of one or more other insured individuals, the total benefits payable may not be reduced to less than the smaller of: (i) the sum of the maximum amounts of benefits payable on the basis of the earnings records of all such insured individuals, or (ii) the last figure in column V of the applicable table or deemed to be in section 215(a) of the Act. The "applicable" table or deemed to be in section 215(a) of the Act means that table which is effective for the month the benefit is payable.

## ANTIPERSPIRANT DRUG PRODUCTS FOR OVER-THE-COUNTER USE

Establishment of a Monograph; Notice of  
Proposed Rulemaking

Correction

In FR Doc. 78-28083 appearing at page 46694 in the issue for Tuesday, October 10, 1978, make the following corrections:

(1) On page 46694 change the following: In the middle column, in the third complete paragraph, change the date in the eleventh line from "November 6, 1978" to "November 9, 1978", and change the reference to "(21 U.S.C. 333(j))" in the 17th line to read "(21 U.S.C. 331(j))". Also, in the second line from the bottom of the column, change "effective and misbranded" to read "effective and not misbranded". In the third column, in the last line of the first complete paragraph, change "their further use" to read "their future use".

(2) On page 46698, at the bottom of the center column, the last paragraph (designated footnote 1) should be deleted because it is a duplication of a footnote appearing earlier in the document.

(3) On page 46700, first column, in the second line of the second complete paragraph, the word "accrine" should have read "eccrine".

(4) On page 46704, first column, in the 13th line of the third complete paragraph, "containing research" should have read "continuing research".

(5) On page 46705, center column, in the seventh line of the second complete paragraph, "S. edidermidis" should have read "S. epidermidis".

(6) On page 46706, first column, in the third complete paragraph, beginning in line 15 and ending in line 17,

$$H_0 = P < 0.5$$

$$H_A = P \geq 0.5 \quad (\alpha = 0.05, \text{one sided}),$$

where  $H_0$  is the null hypothesis,  $P$  is the probability,  $H_A$  is the alternative hypothesis, and  $\alpha$  is the predetermined arbitrary level of significance.

(11) On page 46720, center column, under "References", in item number six, "14001" should have read "140001".

(12) In page 46726, first column, after the fifth paragraph the heading "References" should be inserted.

$$H_0 = P < 0.5$$

$$H_A = P \geq 0.5 \quad (\alpha = 0.05, \text{one sided})$$

where  $H_0$  is the null hypothesis,  $P$  is the probability,  $H_A$  is the alternative hypothesis, and  $\alpha$  is the predetermined arbitrary level of significance.

## DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Government National Mortgage Association  
[24 CFR Part 390]

(Docket No. R-78-604)

### GRADUATED PAYMENT MORTGAGES

Proposed Amendments To Establish a New  
Modified Pass-Through Securities Program

AGENCY: Government National  
Mortgage Association, HUD.

ACTION: Proposed rule.

**SUMMARY:** This proposal establishes a new mortgage-backed securities program that provides for the guaranty by GNMA of securities based on and backed by pools of Graduated Payment Mortgages (GPM's). GPM loans are single family mortgages whose

monthly payments increase annually for a fixed number of years. Only GPM's that are insured by the Federal Housing Administration under section 245 of the National Housing Act and that are scheduled to have increased payments for a maximum of five years are eligible for inclusion in GNMA pools. The program is intended to expand the secondary market in GPM's and thereby make available additional mortgage money at reasonable interest rates.

DATE: Comments due: January 29, 1979.

ADDRESS: Comments should be mailed or delivered to the Rules Docket Clerk, Office of General Counsel, Room 5218, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, D.C. 20410.

#### FOR FURTHER INFORMATION CONTACT:

Warren Lasko, Vice President for Mortgage-Backed Securities, Government National Mortgage Association, 451 Seventh Street, SW., Room 6224, Washington, D.C. 20410, (202) 755-8772.

**SUPPLEMENTARY INFORMATION:** The purpose of the proposed amendments is to establish a new program of federally guaranteed mortgage-backed securities which will allow for the inclusion of so-called Graduated Payment Mortgages in the pools which back the securities.

Under section 306(g) of the National Housing Act, as amended, the Government National Mortgage Association (GNMA) guarantees the timely payment of principal and interest on securities issued by approved private lenders, which securities are backed by federally insured or guaranteed mortgage loans. At present, such guaranteed securities programs exist for level payment single family loans, mobile home loans, residential project loans, and project construction loans. The new program will provide for the inclusion of single family mortgages insured under section 245 of the National Housing Act, and known as Graduated Payment Mortgages, in mortgage loan pools backing securities issuances. Graduated Payment Mortgages have amortization schedules that provide for annual increases in the monthly installments in the early years of the mortgage. The eligibility of such loans for the securities issuances will substantially enhance the marketability of such loans. This in turn will increase the availability of loan funds for these innovative mortgages and should help maintain interest rates on such loans at reasonable rates.

It is proposed that Part 390 be amended to redesignate existing Sub-

part C as Subpart D and to add a new Subpart C, which will provide the regulatory authority for the new program. The new program is essentially identical to the existing single family mortgage-backed securities program, except as modifications are required to accommodate the unique provisions of graduated payment loans. The specific provisions of the proposed amendments are as follows:

Section 390.40 provides that GNMA is authorized by section 306(g) of the National Housing Act to establish federally guaranteed mortgage-backed securities programs. It further provides that participants in the programs are subject to the provisions contained in the Mortgage-Backed Securities Guide (GNMA 5500.1), and to any contracts entered into by parties participating in the programs.

Section 390.41 provides that to be an eligible issuer of the new securities, an applicant must satisfy those same requirements which are presently applicable with respect to issuers of level payment single family type securities.

Section 390.42 provides that for a Graduated Payment Mortgage to be eligible for inclusion in a pool as backing for the new security, it must be insured by the Federal Housing Administration pursuant to section 245 of the National Housing Act. The proposed rule limits the eligibility of such loans to those mortgages that have amortization schedules that provide for equal, or level, monthly installments beginning no later than the 61st scheduled monthly installment.

Section 390.43(a) provides that the securities to be issued are to be modified pass-through type securities. Such securities require the pass-through to security holders, whether or not collected by the issuer from the mortgagors, of interest scheduled to be collected on the pooled mortgages, less appropriate amounts for guaranty fees and mortgage servicing, together with scheduled principal installments and any prepayments or other early recoveries of principal on the mortgages. For Graduated Payment Mortgages, the scheduled principal payments may be "negative," in which case the outstanding securities balance will increase.

Section 390.43(b) provides that the minimum amount of each issue of securities may be no less than \$1 million, which amount is the same as in the present single family mortgage-backed securities program. This section also provides that, upon the mutual agreement of GNMA and issuers, arrangements may be made for the consolidation of securities issued under this program. This provision is intended to permit, upon the development of appropriate procedures, the consolidation of paid down pools. Such consoli-

dation has the potential for increasing the efficiency of mortgage pool administration.

Section 390.43(c) provides that the original amount of any individual security may not be less than \$25,000, as is the case under each of the other existing mortgage-backed securities programs.

Section 390.43(d) provides that the securities are freely transferable and assignable in registered form on the books of GNMA and the issuer, as is the case under each of the existing mortgage-backed securities programs.

Section 390.44 provides that the administration of the securities and the pooled mortgages shall be in accordance with the provisions applicable to existing mortgage-backed securities programs.

Section 390.45 provides that the administrator of the securities and the pooled mortgages shall be in accordance with the provisions applicable to existing mortgage-backed securities programs.

Section 390.46 provides that any failure of an issuer of securities to make required payments to securities holders in a timely manner may be deemed by GNMA to be an event of default under the guaranty agreements entered into between GNMA and the issuer. Such other failures or disabilities as GNMA may determine and may include in the guaranty agreements entered into with the issuer similarly may be deemed events of default. This section also provides that upon any declaration of default, GNMA may extinguish any right, title, or other interest of the issuer in the pooled mortgages.

Section 390.47 authorizes GNMA to impose application fees, guaranty fees, transfer fees, and such other fees as may be deemed appropriate. It is GNMA's intention to utilize the same fee structure for the new program that is applicable to the existing single family mortgage-backed securities program.

A finding of inapplicability of section 102(2)(c) of the National Environmental Policy Act of 1969 has been made in accordance with HUD procedures.

1. It is proposed to amend 24 CFR Part 390 as follows:

#### PART 390—GUARANTY OF MORTGAGE-BACKED SECURITIES

Sec.

#### Subpart C—Modified Pass-Through Type Securities—Graduated Payment Mortgage

- 390.40 General.
- 390.41 Eligible issuers of securities.
- 390.42 Eligible mortgages.
- 390.43 Securities.

- Sec.
- 390.44 Pool Administration.
- 390.45 Guaranty.
- 390.46 Default.
- 390.47 Fees.

#### Subpart D—Miscellaneous Provisions

- 390.50 Audits and reports.
- 390.51 Applications.

2. It is proposed that Part 390 be amended to add a new Subpart C, Modified Pass-Through Type Securities—Graduated Payment Mortgages, as follows:

#### Subpart C—Modified Pass-Through Type Securities—Graduated Payment Mortgages

##### § 390.40 General.

This subpart provides for the guaranty by the Association of timely payment of principal and interest on modified pass-through securities based on and backed by eligible mortgages, which mortgages provide for non-level monthly installments. The Association is authorized by section 306(g) of the National Housing Act to make such guaranties. Issuance of securities under this Subpart is subject to the provisions that follow, to the further provisions contained in the Mortgage-Backed Securities Guide (GNMA 5500.1), as it shall exist and be amended or supplemented from time to time, and to the contracts entered into by the participating parties.

##### § 390.41 Eligible issuers of securities.

To be eligible to issue Modified Pass-Through Securities—Graduated Payment Mortgages, an applicant shall satisfy those requirements applicable to the issuance of modified pass-through securities based on and backed by mortgages on one- to four-family residences as provided in § 390.3 (Eligible Issuers of Securities).

##### § 390.42 Eligible mortgages.

Each issue of guaranteed securities shall be based on and backed by a pool of Graduated Payment Mortgages which are insured by the Federal Housing Administration pursuant to section 245 of the National Housing Act: *Provided*, That all such pooled mortgages shall provide for equal (level) monthly installments beginning no later than the 61st scheduled monthly installment.

##### § 390.43 Securities.

(a) *Instruments*. Securities to be issued under this Subpart shall be modified pass-through type securities, which shall provide for the payment, whether or not collected by the issuer from the mortgagors, of interest scheduled to be collected on the pooled mortgages, less appropriate amounts for guaranty fees and mortgage servicing, together with scheduled principal installments and any

prepayments or other early recoveries of principal on the mortgages. The issuer is required to make advances as necessary in connection with delinquent mortgages and mortgages for which foreclosure action has been initiated in order to maintain the required payments of interest and principal to security holders. In addition, the issuer is required to make advances from its own resources to make up in a timely manner any loss arising from the assignment or foreclosure of a mortgage contained in a pool. At any time 90 days or more after default of any pooled mortgage the issuer may, at its option, repurchaser such mortgage from the pool for an amount equal to the unpaid principal balance of the mortgage. The securities shall provide for specific maturity dates and dates upon which payments are to be made to the holders.

(b) *Issue amount*. Each issue of securities shall be in an amount no less than \$1 million. The total original face amount of any issue of securities shall not exceed the aggregate original unpaid principal balances of the mortgages in the pool. Upon mutual agreement of the Association and issuers, arrangements may be made for the consolidation of security issuances backed by similar mortgages, which securities have like interest rates and maturity dates.

(c) *Face amount*. The original face amount of any security shall not be less than \$25,000.

(d) *Transferability*. The securities are freely transferable and assignable, but only on the books and records of the Association and the issuer.

##### § 390.44 Pool Administration.

Administration of the securities and the pooled mortgages shall be in accordance with the provisions of § 390.9 (Pool Administration).

##### § 390.45 Guaranty.

With respect to Modified Pass-Through Securities—Graduated Payment Mortgages, the Association guarantees the timely monthly payment, whether or not collected, of the scheduled interest and principal installments, and any prepayments or other early recoveries of principal on the mortgages, as undertaken in the Association's guaranty appearing on the face of the instruments. The Association's guaranty is backed by the full faith and credit of the United States.

##### § 390.46 Default.

Any failure or inability of an issuer to make fixed or other payments to securities holders when due shall be deemed an event of default under the guaranty agreement entered into between the Association and the issuer. Such other failures or disabilities of

the issuer to perform any function or duty provided for in the guaranty agreement may also be deemed an event of default. Upon any default by an issuer, and payment by the Association under its guaranty, or any failure of the issuer to comply with the terms of the guaranty transaction, the Association may institute a claim against the issuer's fidelity bond, or may extinguish all right, title, or other interest of the issuer in the pooled mortgages, subject only to unsatisfied rights therein of the securities holders, by letter to the issuer making the mortgages the absolute property of the Association, or the Association may do both.

##### § 390.47 Fees.

The Association may impose application fees, guaranty fees, securities transfer fees, and such other fees as it may deem appropriate.

3. It is proposed that the current Subpart C be redesignated as Subpart D as follows:

#### Subpart D—Miscellaneous provisions

##### § 390.50 Audits and reports.

The Association may at any time audit the books and examine the records of any issuer, mortgage servicer, trustee, or agent or other person bearing on its guaranty of mortgage-backed securities, and may require periodic reports from such persons.

##### § 390.51 Applications.

Applications for guaranty should be submitted to the Association's home office located at 451 Seventh Street, SW., Washington, D.C. 20410.

(Sec. 7(d), Department of Housing and Urban Development Act, 42 U.S.C. 3535(d)).

In accordance with Section 7(o)(4) of the Department of HUD Act, Section 324 of the Housing and Community Development Amendments of 1978, Pub. L. 95-557, 92 Stat. 2080, this proposed rule has been granted waiver of Congressional review requirements in order to permit publication at this time for public comment.

Issued at Washington, D.C., October 26, 1978.

JOHN H. DALTON,  
President, Government  
National Mortgage Association.

## DEPARTMENT OF THE TREASURY

Internal Revenue Service

[26 CFR Part 1]

[LR-229-76]

## INDIRECT FOREIGN TAX CREDIT FOR DIVIDENDS FROM LESS DEVELOPED COUNTRY CORPORATIONS

## Notice of Proposed Rulemaking

AGENCY: Internal Revenue Service, Treasury.

ACTION: Notice of proposed rulemaking.

SUMMARY: This document contains proposed regulations relating to the foreign tax credit for domestic corporate shareholders of certain foreign corporations. These regulations would conform the existing regulations to the changes made to the applicable law by the Tax Reform Act of 1976 and would affect all domestic corporations receiving dividends or deemed distributions from corporations which were less developed country corporations.

DATES: Written comments and requests for a public hearing must be delivered by February 27, 1979. The amendments are proposed to be effective for taxable years beginning after December 31, 1975.

ADDRESS: Send comments and requests for a public hearing to: Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224.

## FOR FURTHER INFORMATION CONTACT:

Diane L. Renfro of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224, Attention: CC:LR:T, 202-566-3289, not a toll-free call.

## SUPPLEMENTARY INFORMATION:

## BACKGROUND

This document contains proposed amendments to the Income Tax Regulations (26 CFR Part 1) under sections 78, 902, and 960 of the Internal Revenue Code of 1954. These amendments are proposed to conform the regulations to section 1033 of the Tax Reform Act of 1976 (90 Stat. 1626) and are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

Section 902 provides that a domestic corporation which receives a dividend from a foreign corporation in which it owns at least 10 percent of the voting stock, shall be deemed to have paid a portion of the foreign income taxes paid or deemed paid by the foreign corporation on or with respect to its accumulated profits. Section 960 provides that a domestic corporation which is required to include certain amounts attributable to the earnings and profits of a controlled foreign corporation in its gross income under section 951 (a) shall be deemed to have paid a portion of the foreign taxes paid or deemed paid by such corporation on or with respect to the earnings and profits so included in gross income. Section 78 provides the amount of foreign income taxes deemed paid under sections 902 and 960 shall be included in the gross income of the domestic shareholder.

## CHANGES MADE BY THE TAX REFORM ACT OF 1976

Prior to the Tax Reform Act, sections 902 and 960 contained two formulas for determining the amount of the deemed paid credit, one for less developed country corporations, the other for corporations which were not less developed country corporations. Section 1033 of the Tax Reform Act of 1976 repealed the formula for determining the amount of taxes deemed paid on an actual or deemed distribution from a less developed country corporation. Section 1033 also changed the so called gross-up rule under section 78 so that amounts deemed paid on actual or deemed distributions from less developed country corporations would be included in the gross income of a domestic corporation in a similar manner as amounts deemed paid on these distributions from corporations which were not less developed country corporations. Under prior law only taxes deemed paid on actual or deemed distributions from corporations which were not less developed country corporations were included in gross income. Section 1033 also made conforming amendments to sections 535 and 545 of the Code. The regulations under these sections have been amended accordingly.

## TRANSITIONAL RULE

Section 1033 provided for a transitional period in which certain distributions from first-tier corporations made before January 1, 1978, would have the benefit of the old rules for less developed country corporations. These proposed regulations explain this rule and provide examples of its application.

The principal author of this regulation is Diane L. Renfro of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulation, both on matters of substance and style.

## ADOPTION OF AMENDMENTS TO THE REGULATIONS

The proposed amendments to 26 CFR Part 1 are as follows:

Paragraph 1. Section 1.78-1 is amended by deleting the words "section 902(a)(1) and § 1.902-1(b)(2)" and "section 902(a)(1)" each place they appear and inserting "section 902(a) in accordance with §§ 1.902-1 and 1.902-2" in lieu thereof; and by deleting the words "section 960(a)(1)(C) and the regulations thereunder" and "section 960(a)(1)(C)" each place they appear and inserting in lieu thereof "section 960(a)(1) in accordance with § 1.960-7".

Par. 2. Section 1.535-2(a)(2)(ii) is amended by striking the words "section 902(a)(1) or section 960(a)(1)(C)" and inserting in lieu thereof "section 902(a) in accordance with §§ 1.902-1 and 1.902-2 or section 960(a)(1) in accordance with § 1.960-7".

Par. 3. Section 1.545-2(a)(3)(ii) is amended by striking out the words "section 902(a)(1) or section 960(a)(1)(C)" and inserting in lieu thereof "section 902(a) in accordance with §§ 1.902-1 and 1.902-2 or section 960(a)(1) in accordance with § 1.960-7".

Par. 4. Section 1.902-1 is amended as follows:

1. Paragraph (a) is amended by deleting subparagraph (6) and by redesignating subparagraphs (7) and (8) as subparagraphs (6) and (7) respectively.

2. Paragraph (b) is amended by deleting the words "or (3)" following the words "(b)(2)" in subparagraphs (1)(i) and (1)(iv); by deleting the words "section 902(a)(1)" in subparagraph (1)(iii) and inserting in place thereof "section 902(a)"; by revising subparagraph (2) to read as set forth below; and by deleting subparagraph (3).

3. Paragraph (c) is amended by deleting the words "and (3)" following the words "paragraph (b)(2)" and the words "or (3)" following the words "paragraph (c)(2)" in subparagraph (1); by revising subparagraph (2) to read as set forth below; and by deleting subparagraph (3).

4. Paragraph (d) is amended by deleting the words "and (3)" following the words "(c)(2)" and the words "or (3)" following the words "(d)(2)" in subparagraph (1); by revising subparagraph (2) to read as set forth below; and by deleting subparagraph (3).

5. Paragraph (e) is revised to read as set forth below.

6. Paragraph (f) is revised to read as set forth below.

7. Paragraph (j) is amended by deleting the words "or (3)" which follow the words "paragraph (b)(2)".

8. Paragraph (k) is amended as follows:

a. By deleting the words "a less developed country corporation" which follow the words "foreign corporation A" in examples (1), (3), and (5);

b. By deleting the words "sec. 902(a)(1)" in examples (1), (3), and (5), and inserting in place thereof "sec. 902(a)";

c. By revising example (2) to read as set forth below;

d. By deleting the words "sec. 902(b)(1)(A)" in example (3) and inserting in place thereof the words "sec. 902(b)(1)";

e. By deleting example (4);

f. By redesignating "Example (5)" as "Example (4)";

g. By deleting the words "a less developed country corporation," which follow the words "foreign corporation B" and which follow the words "foreign corporation C" in example (4) as redesignated;

h. By deleting example (6);

i. By deleting each reference to the date "1978" as it appears in examples (1), (3), and (4) (as redesignated) and inserting in place thereof "1978";

j. By deleting each reference to the date "1973" or "1974" as it appears in example (4) as redesignated, and inserting in place thereof the date "1976" or "1977" respectively.

9. Paragraph (l) is amended by deleting the word "This" at the beginning of the first sentence and inserting in place thereof the words "Except as provided in § 1.902-2, this".

The revised provisions read as follows:

§ 1.902-1 Credit for domestic corporate shareholder of a foreign corporation.

(b) Domestic shareholder owning stock in a first-tier corporation. . . .

(2) Amount of foreign taxes deemed paid by a domestic shareholder. To the extent dividends are paid by a first-tier corporation to its domestic shareholder out of accumulated profits, as defined in paragraph (e) of this section, for any taxable year, the domestic shareholder shall be deemed to have paid the same proportion of any foreign income taxes paid, accrued or deemed, in accordance with paragraph (c)(2) of this section to be paid by such first-tier corporation on or with respect to such accumulated profits for such year which the amount of such dividends (determined without regard to the gross-up under section 78) bears to the amount by which such accumu-

lated profits exceed the amount of such taxes (other than those deemed, under paragraph (c)(2) of this section, to be paid). For determining the amount of foreign income taxes paid or accrued by such first-tier corporation on or with respect to the accumulated profits for the taxable year of such first-tier corporation, see paragraph (f) of this section.

(c) First-tier corporation owning stock in a second-tier corporation. . . .

(2) Amount of foreign taxes deemed paid by a first-tier corporation. A first-tier corporation which receives dividends in any taxable year from its second-tier corporation shall be deemed to have paid for such year the same proportion of any foreign income taxes paid, accrued, or deemed, in accordance with paragraph (d)(2) of this section, to be paid by its second-tier corporation on or with respect to the accumulated profits, as defined in paragraph (e) of this section, for the taxable year of the second-tier corporation from which such dividends are paid which the amount of such dividends bears to the amount by which such accumulated profits of the second-tier corporation exceed the taxes so paid or accrued. For determining the amount of the foreign income taxes paid or accrued by such second-tier corporation on or with respect to the accumulated profits for the taxable year of such second-tier corporation, see paragraph (f) of this section.

(d) Second-tier corporation owning stock in a third-tier corporation. . . .

(2) Amount of foreign taxes deemed paid by a second-tier corporation. For purposes of applying paragraph (c)(2) of this section to a first-tier corporation, a second-tier corporation which receives dividends in its taxable year from its third-tier corporation shall be deemed to have paid for such year the same proportion of any foreign income taxes paid or accrued by its third-tier corporation on or with respect to the accumulated profits, as defined in paragraph (e) of this section, for the taxable year of the third-tier corporation from which such dividends are paid which the amount of such dividends bears to the amount by which such accumulated profits of the third-tier corporation exceed the taxes so paid or accrued. For determining the amount of the foreign income taxes paid or accrued by such third-tier corporation on or with respect to the accumulated profits for the taxable year of such third-tier corporation, see paragraph (f) of this section.

(e) Determination of accumulated profits of a foreign corporation. The accumulated profits for any taxable year of a first-tier corporation and the accumulated profits for any taxable year of a second-tier or third-tier cor-

poration, which are taken into account in applying paragraph (c)(2) or (d)(2) of this section with respect to such first-tier corporation, shall be the sum of—

(1) The earnings and profits of such corporation for such year, and

(2) The foreign income taxes imposed on or with respect to the gains, profits, and income to which such earnings and profits are attributable.

(f) Taxes paid on or with respect to accumulated profits of a foreign corporation. For purposes of this section, the amount of foreign income taxes paid or accrued on or with respect to the accumulated profits of a foreign corporation for any taxable year shall be the entire amount of the foreign income taxes paid or accrued for such year on or with respect to such gains, profits, and income. For purposes of this paragraph (f), the gains, profits, and income of a foreign corporation for any taxable year shall be determined after reduction by any income, war profits, or excess profits taxes imposed on or with respect to such gains, profits, and income by the United States.

## (k) Illustrations. . . .

Example (2). The facts are the same as in example (1), except that M Corporation also owns all the one class of stock of foreign corporation B which also uses the calendar year as the taxable year. Corporation B has accumulated profits, pays foreign income taxes, and pays dividends for 1978 as summarized below. For 1978, M Corporation is deemed under paragraph (b)(2) of this section, to have paid \$20 of the foreign income taxes paid by A Corporation for 1978 and to have paid \$50 of the foreign income taxes paid by B Corporation for 1978; and includes \$70 in gross income as a dividend under section 78, determined as follows:

| B CORPORATION                                                                                                |       |
|--------------------------------------------------------------------------------------------------------------|-------|
| Gains, profits and income                                                                                    | \$200 |
| Foreign income taxes imposed on or with respect to gains, profits, and income                                | 100   |
| Accumulated profits                                                                                          | 200   |
| Foreign income taxes paid by B Corp. on or with respect to accumulated profits                               | 100   |
| Accumulated profits in excess of foreign income taxes                                                        | 100   |
| Dividends paid to M Corp.                                                                                    | 50    |
| Foreign income taxes of B Corporation deemed paid by M Corporation under section 902(a) (\$100 - \$50/\$100) | 50    |
| M CORPORATION                                                                                                |       |
| Foreign income taxes deemed paid under sec. 902(a):                                                          |       |
| Taxes of A Corp. (from example (1))                                                                          | \$20  |
| Taxes of B Corp. (as determined above)                                                                       | 50    |
| Total                                                                                                        | 70    |
| Foreign income taxes included in gross income under sec. 78 as a dividend:                                   |       |
| Taxes of A Corp. (from example (1))                                                                          | 20    |
| Taxes of B Corp.                                                                                             | 50    |
| Total                                                                                                        | 70    |

Par. 5. Section 1.902-2 is revised to read as set forth below.

§ 1.902-2 Rules for distributions attributable to accumulated profits for taxable years in which a first-tier corporation was a less developed country corporation.

(a) *In general.* If a domestic shareholder receives a distribution from a first-tier corporation before January 1, 1978, in a taxable year of the domestic shareholder beginning after December 31, 1964, which is attributable to accumulated profits of the first-tier corporation for a taxable year beginning before January 1, 1976, in which the first-tier corporation was a less developed country corporation (as defined in 26 CFR § 1.902-2 rev. as of April 1, 1978), then the amount of the credit deemed paid by the domestic shareholder with respect to such distribution shall be calculated under the rules relating to less developed country corporations contained in (26 CFR § 1.902-1 rev. as of April 1, 1978).

(b) *Combined distributions.* If a domestic shareholder receives a distribution before January 1, 1978, from a first-tier corporation, a portion of which is described in paragraph (a) of this section, and a portion of which is attributable to accumulated profits of the first-tier corporation for a year in which the first-tier corporation was not a less developed country corporation, then the amount of taxes deemed paid by the domestic shareholder shall be computed separately on each portion of the dividend. The taxes deemed paid on that portion of the dividend described in paragraph (a) shall be computed as specified in paragraph (a). The taxes deemed paid on that portion of the dividend described in this paragraph (b), shall be computed as specified in § 1.902-1.

(c) *Distributions of a first-tier corporation attributable to certain distributions from second- or third-tier corporations.* Paragraph (a) shall apply to a distribution received by a domestic shareholder before January 1, 1978, from a first-tier corporation out of accumulated profits for a taxable year beginning after December 31, 1975, if:

(1) The distribution is attributable to a distribution received by the first-tier corporation from a second- or third-tier corporation in a taxable year beginning after December 31, 1975,

(2) The distribution from the second- or third-tier corporation is made out of accumulated profits of the second- or third-tier corporation for a taxable year beginning before January 1, 1976, and

(3) The first-tier corporation would have qualified as a less developed country corporation under section

902(d) (as in effect on December 31, 1975), in the taxable year in which it received the distribution.

(d) *Illustrations.* The application of this section may be illustrated by the following examples:

*Example (1).* M, a domestic corporation owns all of the one class of stock of foreign corporation A. Both corporations use the calendar year as the taxable year. A Corporation pays a dividend to M Corporation on January 1, 1977, partly out of its accumulated profits for calendar year 1976 and partly out of its accumulated profits for calendar year 1975. For 1975 A Corporation qualified as a less developed country corporation under the former section 902(d) (as in effect on December 31, 1975). M Corporation is deemed under paragraphs (a) and (b) of this section to have paid \$63 of foreign income taxes paid by A Corporation on or with respect to its accumulated profits for 1976 and 1975 and M Corporation includes \$36 of that amount in gross income as a dividend under section 78, determined as follows upon the basis of the facts assumed:

| 1976                                                                                                                 |          |
|----------------------------------------------------------------------------------------------------------------------|----------|
| Gains, profits, and income of A Corp. for 1976.....                                                                  | \$120.00 |
| Foreign income taxes imposed on or with respect to such gains, profits, and income.....                              | 36.00    |
| Accumulated profits.....                                                                                             | 120.00   |
| Foreign income taxes paid by A Corp. on or with respect to its accumulated profits (total foreign income taxes)..... | 36.00    |
| Accumulated profits in excess of foreign income taxes.....                                                           | 84.00    |
| Dividend to M Corp. out of 1976 accumulated profits.....                                                             | 84.00    |
| Foreign income taxes of A for 1976 deemed paid by M Corp. (\$84/\$84 × \$36)                                         | 36.00    |
| Foreign income taxes included in gross income of M Corp. under sec. 78 as a dividend from A Corp. ....               | 36.00    |

| 1975                                                                                                               |          |
|--------------------------------------------------------------------------------------------------------------------|----------|
| Gains, profits, and income of A Corp. for 1975.....                                                                | \$257.14 |
| Foreign income taxes imposed on or with respect to such gains, profits, and income.....                            | 77.14    |
| Accumulated profits.....                                                                                           | 180.00   |
| Foreign income taxes paid by A Corp. on or with respect to its accumulated profits (\$77.14 × \$180/\$257.14)..... | 54.00    |
| Dividends paid to M Corp. out of accumulated profits of A Corp. for 1975.....                                      | 90.00    |
| Foreign income taxes of A Corp. for 1975 deemed paid by M Corp. (\$54 × \$90/\$180).....                           | 27.00    |
| Foreign income taxes included in gross income of M Corp. under sec. 78 as a dividend from A Corp. ....             | 0        |

*Example (2).* The facts are the same as in example (1), except that the distribution from A Corporation to M Corporation on January 1, 1977, was from accumulated profits of A Corporation for 1976. A Corporation's accumulated profits for 1976 were made up of income from its trade or business, and a dividend paid by B, a second-tier corporation in 1976. The dividend from B Corporation to A Corporation was from accumulated profits of B Corporation for 1975. A Corporation would have qualified as a less developed country corporation for 1976 under the former section 902(d) (as in effect on December 31, 1975). M Corporation is deemed under paragraphs (b) and (c)

of this section to have paid \$543 of the foreign taxes paid or deemed paid by A Corporation on or with respect to its accumulated profits for 1976, and M Corporation includes \$360 of that amount in gross income as a dividend under section 78, determined as follows upon the basis of the facts assumed:

|                                                                                                                            |         |
|----------------------------------------------------------------------------------------------------------------------------|---------|
| Total gains, profits, and income of A Corp. for 1976.....                                                                  | \$1,500 |
| Gains and profits from business operations.....                                                                            | 1,200   |
| Gains and profits from dividend A Corp. received in 1976 from B Corp. out of accumulated profits of B Corp. for 1975.....  | 300     |
| Foreign taxes imposed on or with respect to such profits and income.....                                                   | 450     |
| Foreign taxes paid by A Corp. attributable to gains and profits from A Corp.'s business operations.....                    | 360     |
| Foreign taxes paid by A Corp. attributable to dividend from B Corp. in 1976.....                                           | 90      |
| Dividends from A Corp. to M Corp. on Jan. 1, 1977.....                                                                     | 1,050   |
| Portion of dividend attributable to gains and profits of A Corp. from business operations (\$1,200/\$1,500 × \$1,050)..... | 840     |
| Portion of dividends attributable to gains on profits of A Corp. from dividend from B Corp. (\$300/\$1,500 × \$1,050)..... | 210     |

(a) *Amount of foreign taxes of A Corp. deemed paid by M Corp. on A Corp.'s gains and profits for 1976 from business operations.*

|                                                                                                                      |         |
|----------------------------------------------------------------------------------------------------------------------|---------|
| Gains, profits, and income of A Corp. from business operations.....                                                  | \$1,200 |
| Foreign income taxes imposed on or with respect to gains, profits, and income.....                                   | 360     |
| Accumulated profits.....                                                                                             | 1,200   |
| Foreign income taxes paid by A Corp. on or with respect to its accumulated profits (total foreign income taxes)..... | 360     |
| Accumulated profits in excess of foreign income taxes.....                                                           | 840     |
| Dividend to M Corp. ....                                                                                             | 840     |
| Foreign taxes of A Corp. deemed paid by M Corp. (\$360 × \$840/\$840).....                                           | 360     |
| Foreign taxes included in gross income of M Corp. under sec. 78 as a dividend.....                                   | 360     |

(b) *Amount of foreign taxes of A Corp. deemed paid by M Corp. on portion of the dividend attributable to B Corp.'s accumulated profits for 1975.*

|                                                                                                             |       |
|-------------------------------------------------------------------------------------------------------------|-------|
| B Corp. (second-tier corporation):                                                                          |       |
| Gains, profits, and income for calendar year 1975.....                                                      | 1,000 |
| Foreign income taxes imposed on or with respect to gains, profits, and income.....                          | 400   |
| Accumulated profits.....                                                                                    | 600   |
| Foreign income taxes paid by B Corp. on or with respect to its accumulated profits (\$400 × 600/1,000)..... | 240   |
| Dividend to A Corp. in 1976.....                                                                            | 300   |
| Foreign taxes of B Corp. for 1975 deemed paid by A Corp. (\$240 × 300/\$600).....                           | 120   |

A Corp. (first-tier corporation):

|                                                                                                               |     |
|---------------------------------------------------------------------------------------------------------------|-----|

Par. 6. Section 1.960-1 is amended as follows:

1. Paragraph (b) is amended by deleting subparagraph (4).

2. Paragraph (c) is amended as follows:

a. By revising subparagraph (2) (i) to read as set forth below;

b. By deleting subparagraph (2) (ii);

c. By deleting the words "not a less developed country corporation" which follows the words "foreign corporation A" in examples (1), (3), (5), and (6) of subparagraph (4);

d. By deleting the words "section 960 (a) (1) (C)" or "sec. 960 (a) (1) (C)" each place they appear in examples (1), (3), (5), and (6) of subparagraph (4) and inserting in place thereof "section 960 (a) (1)" or "sec. 960 (a) (1)";

e. By deleting example (2) and example (4) of subparagraph (4);

f. By redesignating "Example (3)" as "Example (2)", "Example (5)" as "Example (3)", "Example (6)" as "Example (4)"; and

g. By deleting the words "not a less developed country corporation" which follow the words "corporation B" in example (3) as redesignated.

h. By deleting the date "1965" each place it appears in example (1) and examples (2), (3), and (4) as redesignated and inserting in lieu thereof "1978".

3. Paragraph (e) is deleted.

4. Paragraphs (f), (g), and (h) are redesignated as paragraphs (e), (f), and (g) respectively.

5. Paragraph (i) is amended by redesignating it paragraph (h); by deleting the words "section 960 (a) (1) (C)" in subparagraph (1) (ii) and inserting in place thereof "section 960 (a) (1)"; by deleting the words "and A Corporation is not a less developed country corporation for 1965" following the words "taxable year" in the example contained in subparagraph (3); by deleting the words "section 960 (a) (1) (C)" each place they appear in that example and inserting in place thereof "section 960 (a) (1)"; and by deleting the date "1965" each place it appears in that example and inserting in place thereof "1978".

§ 1.960-1 Foreign tax credit with respect to taxes paid on earnings and profits of controlled foreign corporations.

(c) *Amount of foreign income taxes deemed paid by domestic corporation in respect of earnings and profits of foreign corporation attributable to amount included in income under section 951—(1) In general.* \* \* \*

(2) *Taxes paid or accrued on or with respect to earnings and profits of foreign corporation.* For purposes of subparagraph (1) of this paragraph, the foreign income taxes paid or accrued by a first-tier corporation or its second-tier corporation, as the case may be, on or with respect to its earnings and profits for its taxable year shall be the total amount of the foreign income taxes paid or accrued by such foreign corporation for such taxable year.

§ 1.960-2 (Amended).

Par. 7. Paragraph (e) of § 1.960-2 is amended as follows:

1. The words "examples (7) and (8)" in the first sentence are deleted and the words "examples (6) and (7)" are inserted in place thereof.

2. Example (2) is deleted.

3. Examples (3), (4), (5), (6), (7), and (8) are redesignated as examples (2), (3), (4), (5), (6), and (7), respectively.

4. The words "not a less developed country corporation" which follow the words "foreign corporation A" in example (1), and examples (2), (3), (4), (5), (6), and (7) as redesignated are deleted.

5. The words "section 960(a)(1)(C)", or "sec. 960(a)(1)(C)", or "section 902(a)(1)" or "sec. 902(a)(1)" are deleted each place they appear in example (1) and examples (2), (3), (4), (5), (6), and (7) as redesignated and the words "section 960(a)(1)" or "sec. 960(a)(1)" or "section 902(a)" or "sec. 902(a)" are inserted in place thereof respectively.

6. The date "1965" is deleted each place it appears in example (1) and examples (2), (3), (4), (5), (6), and (7) as redesignated and the date "1978" is inserted in place thereof.

§ 1.960-3 (Amended)

Par. 8. Section 1.960-3 is amended by deleting the words "section 960(a)(1)(C)" and "section 902(a)(1)" each place they appear and inserting in place thereof "section 960(a)(1)" or "section 902(a)" respectively; by deleting the words "not a less developed country corporation" following the words "corporation A" in examples (1) and (2) of paragraph (c); and by deleting the date "1965" each place it ap-

pears in examples (1) and (2) of paragraph (c) and inserting in lieu thereof "1978".

§ 1.960-4 (Amended)

Par. 9. Paragraph (f) of § 1.960-4 is amended by deleting example (4); by deleting the words "not a less developed country corporation" which follow the words "corporation A" in examples (1) and (3); by deleting the words "section 960(a)(1)(C)" or "sec. 960(a)(1)(C)" each place they appear in examples (1), (2), and (3), and inserting in place thereof "section 960(a)(1)" or "section 960(a)(1)" respectively; by deleting "section 904(d)" each place it appears in example (2) and inserting in place thereof "section 904(c)"; and by deleting the dates "1962", "1963", "1964", "1965", "1966", and "1967" each place they appear in examples (1), (2), and (3), and inserting in place thereof "1975", "1976", "1977", "1978", "1979", and "1980" respectively.

§ 1.960-5 (Amended)

Par. 10. Paragraph (b) of § 1.960-5 is amended by deleting the words "not a less developed country corporation" following the words "corporation A"; by deleting the words "section 960(a)(1)(C)" and inserting the words "section 960(a)(1)" in place thereof; and by deleting the dates "1965" and "1966" each place they appear and inserting in place thereof "1978" and "1979" respectively.

§ 1.960-6 (Amended)

Par. 11. Paragraph (b) of § 1.960-6 is amended by deleting the words "not a less developed country corporation" following the words "corporation A"; by deleting the words "section 960(a)(1)(C)" or "sec. 960(a)(1)(C)" each place they appear and inserting in place thereof the words "section 960(a)(1)" or "sec. 960(a)(1)" respectively; by deleting the dates "1965" and "1966" each place they appear and inserting in lieu thereof "1978" and "1979" respectively.

Par. 12. Section 1.960-7 is added immediately after § 1.960-6 to read as follows:

§ 1.960-7 Effective dates.

(a) *General rule.* Except as provided in paragraph (b), the rules contained in §§ 1.960-1—1.960-6 shall apply to taxable years of foreign corporations beginning after December 31, 1962, and taxable years of U.S. corporate shareholders within which or with which the taxable year of such foreign corporation ends.

(b) *Exception for less developed country corporations.* If for any taxable year beginning after December 31, 1962, and before January 1, 1976, a first tier foreign corporation qualified

as a less developed country corporation as defined in 26 CFR 1.902-2 revised as of April 1, 1978, the rules pertaining to less developed country corporations contained in 26 CFR 1.960-1-1.960-6 revised as of April 1, 1978, shall apply to any amounts required to be included in gross income under section 951 for such taxable year.

JEROME KURTZ,  
Commissioner of Internal Revenue.

## [4830-01-M]

[26 CFR Part 1]

[LR-207-78]

## BAD DEBT RESERVES OF THRIFT INSTITUTIONS

## Notice of Proposed Rulemaking

AGENCY: Internal Revenue Service, Treasury.

ACTION: Notice of proposed rulemaking.

SUMMARY: This document contains a proposed amendment to regulations relating to additions to reserves for losses on loans of mutual savings banks, domestic building and loan associations, and cooperative banks. Existing regulations were published on May 18, 1978. The amendment would modify a provision of the existing regulations.

DATES: Written comments and requests for a public hearing must be delivered or mailed by February 27, 1979. The amendment is proposed to be effective for net operating losses that arise in taxable years beginning after December 31, 1977.

ADDRESS: Send comments and requests for a public hearing to: Commissioner of Internal Revenue, Attention: CC:LR:T, (LR-207-78), Washington, D.C. 20224.

## FOR FURTHER INFORMATION CONTACT:

Lawrence M. Axelrod of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, NW., Washington, D.C. 20224 (Attention: CC:LR:T) (202-566-3458, not a toll-free number).

## SUPPLEMENTARY INFORMATION:

## BACKGROUND

This document contains proposed amendments to the Income Tax Regulations (26 CFR Part 1) under section 593 of the Internal Revenue Code of 1954. These amendments are proposed to modify existing regulations § 1.593-6A(b)(5)(vi) and are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

Existing regulations under section 593, as amended by section 432(a) of the Tax Reform Act of 1969, were published in the FEDERAL REGISTER on May 18, 1978 (43 FR 21453). Certain provisions of the existing regulations were made effective for taxable years beginning after December 31, 1977, to prevent hardship which could result if taxpayers were required to file amended returns for prior years. However, it was never intended that a net operating loss which arises in taxable years beginning after that date could be carried back to a prior taxable year without an adjustment to the prior year's percentage-of-taxable-income bad debt deduction. To the extent that the existing regulations do not reflect this decision, the proposed amendment would correct the regulations.

## COMMENTS AND REQUESTS FOR A PUBLIC HEARING

Before adopting these proposed regulations, consideration will be given to any written comments that are submitted (preferably six copies) to the Commissioner of Internal Revenue. All comments will be available for public inspection and copying. A public hearing will be held upon written request to the Commissioner by any person who has submitted written comments. If a public hearing is held, notice of the time and place will be published in the FEDERAL REGISTER.

## DRAFTING INFORMATION

The principal author of these proposed regulations is Lawrence M. Axelrod of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulation, both on matters of substance and style.

## PROPOSED AMENDMENTS TO THE REGULATIONS

The proposed amendments to 26 CFR Part 1 are as follows:

§ 1.593-6A [Amended]

Section 1.593-6A(b)(5)(vi) is amended by deleting the words "to such year under section 172" and inserting in their place the words "to such year from a taxable year beginning before January 1, 1978".

JEROME KURTZ,  
Commissioner of  
Internal Revenue.

[FR Doc. 78-36196 Filed 12-26-78; 9:31 am]

## [4830-01-M]

[26 CFR Part 1]

## AMORTIZATION OF EXPERIENCED GAINS BY PENSION PLANS FUNDED BY GROUP DEFERRED ANNUITY CONTRACTS

## Notice of Proposed Rulemaking

AGENCY: Internal Revenue Service, Treasury.

ACTION: Notice of proposed rulemaking.

SUMMARY: This document contains proposed regulations relating to the determination of actuarial cost under the minimum funding standards. The proposed regulations implement provisions of the Employee Retirement Income Security Act of 1974. The regulations would provide the public with guidance needed to comply with that Act and would affect defined benefit pension plans funded by group deferred annuity contracts.

DATES: Written comments and requests for public hearing must be delivered or mailed by February 27, 1979. The amendments are proposed to be effective generally for plan years beginning after 1975, but earlier (or later) in the case of some plans as provided by the Employee Retirement Income Security Act of 1974.

ADDRESS: Send comments and requests for a public hearing to: Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224.

## FOR FURTHER INFORMATION CONTACT:

Thomas F. Rogan of the Employee Plans and Exempt Organizations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue NW., Washington, D.C. 20224 (Attention: CC:LR:T) (202-566-3589).

## SUPPLEMENTARY INFORMATION:

## BACKGROUND

This document contains proposed amendments to the Income Tax Regulations (26 CFR Part 1) under section 412(b)(3) of the Internal Revenue Code of 1954. These amendments are proposed to conform the regulations to section 1013 of the Employee Retirement Income Security Act of 1974 (ERISA) (88 Stat. 914) and are to be issued under the authority of sections 412 and 7805 of the Internal Revenue Code of 1954 (88 Stat. 914 and 68A Stat. 917; 26 U.S.C. 412 and 7805).

The proposed regulations contained in this document will also apply for purposes of section 302 of ERISA (88 Stat. 869).

Section 412 of the Internal Revenue Code of 1954, contained in section 1013

of ERISA, provides minimum funding requirements with respect to certain pension plans. These requirements include the maintenance of a minimum funding standard account. Annually under the account the normal cost of the plan and certain amortization amounts are charged and contributions to the plan and certain other amortization amounts are credited.

In general, this regulation contains specific rules regarding plans funded solely through a group deferred annuity contract. The regulation treats dividends, rate credits, and credits for forfeitures as an actuarial or experienced gain, to be amortized over subsequent plan years through credits to the funding standard account under section 412(b)(3)(B)(ii).

In response to taxpayer inquiries regarding the unique nature of plans funded through a group deferred annuity contract, this regulation is being proposed separately from other regulations that will be proposed relating to the minimum funding standard account.

## COMMENTS AND REQUESTS FOR A PUBLIC HEARING

Before adopting these proposed regulations, consideration will be given to any written comments that are submitted (preferably eight copies) to the Commissioner of Internal Revenue. All comments are available for public inspection and copying. A public hearing will be held upon written request to the Commissioner by any person who has submitted written comments. However, it is anticipated that any public hearing will be deferred until the issuance of further proposed regulations regarding section 412. If a public hearing is held, notice of the time and place will be published in the FEDERAL REGISTER.

## DRAFTING INFORMATION

The principal author of these proposed regulations was Thomas F. Rogan of the Employee Plans and Exempt Organizations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulations, both on matters of substance and style.

## PROPOSED AMENDMENTS TO THE REGULATIONS

The Income Tax Regulations, 26 CFR Part 1, are amended by adding in the appropriate place the following new section:

§ 1.412(b)(3)-1 Amortization of experience gains in connection with group deferred annuity contracts.

(a) *Experience gain treatment.* Dividends, rate credits, and credits for forfeitures arising in a plan described in paragraph (b) of this section are experience gains described in section 412(b)(3)(B)(ii) (relating to amortization of experience gains).

(b) *Plan.* A plan is described in this paragraph (b) if—

(1) The plan is funded solely through a group deferred annuity contract,

(2) The annual single premium required under the contract for the purchase of the benefits accruing during the plan year is treated as the normal cost of the plan for that year, and

(3) The amount necessary to pay in equal annual installments, over the appropriate amortization period, an amount equal to the single premium necessary to provide all past service benefits not initially funded, together with interest thereon, is treated as the annual amortization amount determined under section 412(b)(2)(B)(i), (ii) or (iii).

JEROME KURTZ,  
Commissioner of  
Internal Revenue.

## BAD DEBT RESERVES OF THRIFT INSTITUTIONS

## Public Hearing on Proposed Regulations

AGENCY: Internal Revenue Service, Treasury.

ACTION: Public hearing on proposed regulations.

SUMMARY: This document provides notice of a public hearing on proposed regulations relating to bad debt reserves of thrift institutions. The subject of the public hearing is proposed regulations under section 593 of the Internal Revenue Code of 1954. The proposed regulations appear in this issue of the FEDERAL REGISTER.

DATES: The public hearing will be held on March 6, 1979, beginning at 10:00 a.m. Outlines of oral comments must be delivered or mailed by February 27, 1979.

ADDRESS: The public hearing will be held in the I.R.S. auditorium, Seventh Floor, 7400 Corridor, Internal Revenue Building, 1111 Constitution Avenue, NW., Washington, D.C. The outlines should be submitted to the Commissioner of Internal Revenue, Attn: CC:LR:T (LR-207-78), Washington, D.C. 20224.

## FOR FURTHER INFORMATION CONTACT:

George Bradley or Charles Hayden of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224, 202-566-3935, not a toll-free call.

SUPPLEMENTARY INFORMATION: The subject of the public hearing is proposed regulations under section 593 of the Internal Revenue Code of 1954. The proposed regulations appear in this issue of the FEDERAL REGISTER.

The rules of § 601.601(a)(3) of the "Statement of Procedural Rules" (26 CFR Part 601) shall apply with respect to the public hearing. Persons who have submitted written comments within the time prescribed in the notice of proposed rulemaking and also desire to present oral comments at the hearing on the proposed regulations should submit an outline of the comments to be presented at the hearing and the time they wish to devote to each subject by February 27, 1979. Each speaker will be limited to 10 minutes for an oral presentation exclusive of time consumed by questions from the panel for the Government and answers to these questions.

Because of controlled access restrictions, attendees cannot be admitted beyond the lobby of the Internal Revenue Building until 9:45 a.m. An agenda showing the scheduling of the speakers will be made after outlines are received from the speakers. Copies of the agenda will be available free of charge at the hearing.

This document does not meet the criteria for significant regulations set forth in paragraph 8 of the Treasury Directive appearing in the FEDERAL REGISTER for Wednesday, November 8, 1978.

By direction of the Commissioner of Internal Revenue:

ROBERT A. BLEY,  
Director, Legislation and  
Regulations Division.

[LR-164-74]

## DEDUCTIBILITY OF CERTAIN ATTORNEYS' FEES INCURRED BY BENEFICIARIES

## Notice of Proposed Rulemaking

AGENCY: Internal Revenue Service, Treasury.

ACTION: Notice of proposed rulemaking.

SUMMARY: This document contains a proposed amendment to the Estate

Tax Regulations relating to the deductibility of administration expenses by an estate. The amendment would clarify the regulations relating to the deduction of attorneys' fees incurred by beneficiaries. The regulation will affect certain taxpayers filing estate tax returns.

**DATE:** Written comments and requests for a public hearing must be delivered or mailed by February 27, 1979. The regulations are proposed to be effective from the date of publication of this document in the FEDERAL REGISTER.

**ADDRESS:** Send comments and requests for a public hearing to: Commissioner of Internal Revenue, Attention CC:LR:T (LR-164-74), Washington, D.C. 20224.

**FOR FURTHER INFORMATION CONTACT:**

Robert B. Coplan of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224 (Attention: CC:LR:T) (202-566-3287) (Not a toll-free call).

**SUPPLEMENTARY INFORMATION:**

#### BACKGROUND

This document contains a proposed amendment to the Estate Tax Regulations (26 CFR Part 20) under section 2053 of the Internal Revenue Code of 1954. The amendment is proposed to clarify paragraphs (a) and (c)(3) of § 20.2053-3 of the regulations, and is to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

#### IN GENERAL

The proposed amendment would revise paragraph (c)(3) of § 20.2053-3, which prohibits, in all cases, the deduction of attorneys' fees incurred by beneficiaries incident to litigation as to their respective interests.

The revision of paragraph (c)(3) of § 20.2053-3 reflects the decision of the Treasury Department to test the deductibility of attorneys' fees incurred by beneficiaries under the general principles of § 20.2053-3(a). That section provides that expenditures not essential to the proper settlement of the estate, but incurred for the individual benefit of the heirs, legatees or devisees, may not be deducted as expenses of administration. Thus, like any other expense, an attorney's fee incurred by a beneficiary that is not essential to the proper settlement of the estate will not be deductible, even if it is approved by a probate court as an expense payable or reimbursable by the estate.

#### COMMENTS AND REQUESTS FOR A PUBLIC HEARING

Before adopting these proposed regulations consideration will be given to any written comments that are submitted (preferably six copies) to the Commissioner of Internal Revenue. All comments will be available for public inspection and copying. A public hearing will be held upon written request to the Commissioner by any person who has submitted written comments. If a public hearing is held, notice of the time and place will be published in the FEDERAL REGISTER.

#### DRAFTING INFORMATION

The principal author of these proposed regulations is Robert B. Coplan of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulation, both on matters of substance and style.

#### PROPOSED AMENDMENT TO THE REGULATIONS

The proposed amendment to 26 CFR Part 20 is as follows:

**PARAGRAPH 1.** Paragraph (c)(3) of § 20.2053-3 is revised to read as follows:

§ 20.2053-3 Deduction for expenses of administering estate.

(c) *Attorney's fees.* \* \* \*

(3) Attorneys' fees incurred by beneficiaries incident to litigation as to their respective interests are not deductible if the litigation is not essential to the proper settlement of the estate within the meaning of paragraph (a) of this section.

JEROME KURTZ,  
Commissioner of  
Internal Revenue.

#### DEPARTMENT OF LABOR

[29 CFR Part 2520]

#### PENSION AND WELFARE BENEFIT PROGRAMS

Rules and Regulations for Reporting and Disclosure, Plan Description Requirements, Proposed Elimination of Form EBS-1, Extension of Comment Period

**AGENCY:** Pension and Welfare Benefit Programs, Labor.

**ACTION:** Extension of comment period on proposed rule.

**SUMMARY:** On November 21, 1978, notice was published in the FEDERAL REGISTER (43 FR 54268) of a proposed revision to final regulations relating to the filing of a plan description under the Employee Retirement Income Security Act of 1974. The revision, if adopted, would eliminate the requirement that employee benefit plans file a plan description form EBS-1 with the Department of Labor.

The November 21, 1978 notice provided a 45-day comment period (expiring on January 5, 1979) to permit interested persons to submit comments concerning the proposal. In order to provide additional time for the submission of public comments, the comment period is hereby extended to January 22, 1979.

**DATE:** Comments concerning the proposed revision are due on or before January 22, 1979.

**ADDRESSES:** Written data, views, or arguments concerning any part or all of the proposed revision should be submitted to Proposed Elimination of Form EBS-1, Room C-4528, Office of Regulatory Standards and Exceptions, Pension and Welfare Benefit Programs, U.S. Department of Labor, Washington, D.C. 20218.

All written submissions will be open to public inspection at the Public Documents Room, Pension and Welfare Benefit Programs, Department of Labor, Room N-4677, 200 Constitution Avenue NW., Washington, D.C. 20218.

**FOR FURTHER INFORMATION CONTACT:**

Miriam Freund, Pension and Welfare Benefit Programs, U.S. Department of Labor, Washington, D.C. 20218, 202-523-7901. (This is not a toll-free number.)

Signed at Washington, D.C. this 26th day of December, 1978.

IAN D. LANOFF,  
Administrator, Pension and Welfare Benefit Programs, Labor-Management Services Administration, U.S. Department of Labor.

#### FEDERAL MARITIME COMMISSION

[46 CFR Part 509]

[Docket No. 78-56]

#### ACTIONS TO ADJUST OR MEET CONDITIONS UNFAVORABLE TO SHIPPING IN THE UNITED STATES ATLANTIC AND GULF/EUROPEAN TRADES

Proposed Rulemaking

**AGENCY:** Federal Maritime Commission.

#### ACTION: Proposed Rule.

**SUMMARY:** The Federal Maritime Commission proposes to enact a rule pursuant to section 19(1)(b) of the Merchant Marine Act of 1920 (46 U.S.C. 876(1)(b)) in order to adjust or meet conditions unfavorable to shipping in the foreign trade of the United States which may have arisen from possible illegal acts, rates, and/or practices of the Baltic Shipping Company. This rule proposes to suspend, reject, or cancel tariffs filed with the Commission by Baltic Shipping Company because of the Company's failure to provide certain information and further assurances to the Commission to establish that these possible acts, rates, and/or practices do not exist, and do not constitute conditions unfavorable to the foreign trade of the United States.

**DATES:** Comments (original and 15 copies) January 22, 1979.

**ADDRESS:** Send comments to: Secretary, Federal Maritime Commission, Room 11101, 1100 L Street, N.W., Washington, D.C. 20573.

**FOR FURTHER INFORMATION CONTACT:**

Joseph C. Polking, Assistant Secretary, Room 11101, 1100 L Street, N.W., Washington, D.C. 20573 (202) 523-5725.

**SUPPLEMENTARY INFORMATION:** Pursuant to the authority of section 19(1)(b), Merchant Marine Act, 1920 (46 U.S.C. 876), as implemented by Part 506 of the Commission's rules (46 CFR Part 506), the Federal Maritime Commission is authorized and directed to make rules and regulations affecting shipping in the foreign trade of the United States in order to adjust or meet general or special conditions unfavorable to shipping in the foreign trade of the United States which arise out of, or result from, foreign laws, rules or regulations, or from competitive methods or practices employed by owners, operators, agents or masters of vessels of a foreign country.

The types of conditions which the Commission has found to be unfavorable to shipping in the foreign trade of the United States are generally set forth in 46 CFR 506.3. Among these are conditions which preclude or tend to preclude a vessel in the foreign trade of the United States from competing in the trade on the same basis as any other vessel, those which are discriminatory or unfair as between carriers, and those which are otherwise unfavorable to shipping in the foreign trade of the United States (46 CFR 506.3(a), (c) and (d)).

The Commission has reason to believe that the Baltic Shipping Company may be engaged in a course of conduct in the United States Atlantic and

Gulf/European trades that is violative of sections 15, 16, 17 and 18 of the Shipping Act, 1916. The Commission also has reason to believe that the Baltic Shipping Company may be placing itself beyond effective regulation by its continued failure and refusal to comply fully with investigative orders issued by the Commission.<sup>1</sup>

The Commission has concluded that each of these conditions, i.e., Baltic's possible violations of the Shipping Act, and Baltic's failure to comply with investigative orders, if it exists, constitutes a condition unfavorable to shipping in the foreign trade of the United States.

#### A. POSSIBLE SHIPPING ACT VIOLATIONS

On April 17, 1978, the Commission issued an Order to Baltic to produce certain information pertaining to its rates and practices in the foreign commerce of the United States. This Order was issued pursuant to section 21 of the Shipping Act, 1916, to investigate the following suspected activities of Baltic: (1) Massive misrating in the U.S. Gulf Coast/North Europe trades; (2) entering into unfiled agreements with other ocean carriers subject to section 15 of the Shipping Act, 1916, pertaining to equipment sharing; and (3) non-compliance with its tariff provisions concerning space charters.<sup>2</sup>

The purpose of the section 21 Order was to determine the extent of these activities, if any, and whether they are continuing. If these activities are still occurring, they are not only violative of sections 15, 16, 17 and 18 of the Shipping Act, 1916,<sup>3</sup> but are also unfa-

<sup>1</sup>These investigative orders seek information which is critical to a Commission determination as to whether or not Baltic is engaged in practices violative of the Shipping Act, 1916.

<sup>2</sup>These activities were suspected on the basis of information received by the Commission from various sources, including a staff examination of documents relating to Baltic shipments to U.S. Gulf ports.

<sup>3</sup>Misrating of cargo, especially if it occurs intentionally and on a large scale, can be an effective form of illegal rebating to shippers. If some shippers, cargo, or ports are favored with lower rates through misrating, while other similarly situated shippers, cargo or ports are not, undue preferences or advantages may result, in violation of section 16 of the Shipping Act, and unjust discriminations may result, in violation of section 17 of the Shipping Act. To the extent that misrating results in a different charge than would be applicable if the correct tariff item on file with the Commission were used, section 18 of the Shipping Act is violated. To the extent that Baltic has entered into agreements or cooperative working arrangements with other carriers subject to section 15 of the Shipping Act without first filing such agreements or arrangements for approval by the Commission, Baltic has violated section 15 of the Shipping Act. Non-compliance with tariff provisions is violative of section 18 of the Shipping Act.

favorable to shipping in the foreign trade because they would put Baltic at an unfair competitive advantage over other carriers not engaging in such activities. If these activities are occurring, or have occurred, and if they remain unchecked, other carriers in the foreign trades will be tempted to engage in similar activity on a large scale.

#### B. NONCOMPLIANCE WITH INVESTIGATIVE ORDER

Baltic has failed repeatedly to comply fully with the Commission's April 17, 1978 Investigative Order.<sup>4</sup> In doing so, Baltic is withholding information essential to an adequate investigation of Baltic's activities in the foreign commerce of the United States and available to the Commission only through Baltic. If the Commission is unable to obtain adequate information from Baltic concerning its activities in U.S. foreign commerce, the Commission cannot effectively carry out its statutory mandate to regulate the activities of Baltic as an ocean carrier in U.S. foreign commerce. Baltic's repeated failure to provide information places it at an unfair competitive advantage over other carriers because Baltic can, through non-disclosure of information, more easily avoid the consequences, under the Shipping Act, 1916, and other United States laws, of engaging in lucrative but unlawful competitive or anti-competitive practices. If Baltic is not brought within effective regulation by the Commission, other carriers in the foreign trades will be tempted to place themselves beyond effective regulation by similarly failing or refusing to provide information ordered by the Commission.

#### COMMISSION ACTION

If the conditions described above exist and are allowed to continue unchecked, a severe disruption of the foreign trades of the United States would result.

To ensure that Baltic's practices in the foreign commerce of the United States can be investigated adequately, and to ensure that the Commission can effectively enforce sections 15, 16, 17 and 18 of the Shipping Act, 1916, as they apply to Baltic's activities, Baltic will be required to file certain information with the Commission. If the Commission cannot obtain this information, it will conclude that it cannot effectively regulate the activities of Baltic. If the Commission cannot regulate Baltic, it cannot adequately protect the merchant marine of the United States from unfair and illegal

<sup>4</sup>See *In Re: Baltic Shipping Company—Rates and Practices in the U.S. Gulf Coast/North Europe Trade*, (FMC Docket No. 78-36).

competition, and it cannot safeguard the foreign trade of the United States against instability, except by excluding Baltic from the foreign trade until such time as Baltic can be effectively regulated.

By letter dated November 29, 1978, the Commission notified the Secretary of State of the Commission's findings in this matter and asked the Department of State to seek diplomatic resolution of the problem. To date, the efforts of the State Department have been unavailing in producing the information needed by the Commission.

Therefore, pursuant to section 19(1)(b) of the Merchant Marine Act, 1920 (46 U.S.C. 876(1)(b)) and section 43 of the Shipping Act, 1916 (46 U.S.C. 841a), the Commission proposes to enact Part 509, Title 46 CFR, as follows:

**PART 509—ACTIONS TO ADJUST OR MEET CONDITIONS UNFAVORABLE TO SHIPPING IN THE UNITED STATES ATLANTIC AND GULF/EUROPEAN TRADES**

**Sec.**

509.1 Conditions Unfavorable to shipping in the foreign trade of the United States.

509.2 Production of information.

509.3 Rejection, suspension, or cancellation of tariffs.

**AUTHORITY:** Commission General Order No. 33 (46 CFR Part 506), section 19(1)(b) of the Merchant Marine Act, 1920 (46 U.S.C. 876(1)(b)), section 4 of the Administrative Procedure Act (5 U.S.C. 553), section 43 of the Shipping Act, 1916 (46 U.S.C. 841a), and Reorganization Plan No. 7 of 1961 (75 Stat. 840).

**§ 509.1 Conditions Unfavorable to Shipping in the Foreign Trade of the United States.**

The Federal Maritime Commission has determined that the Baltic Shipping Company, also doing business as Balt-Atlantic Line, Balt-Gulf Line, and Baltic Middle East Line, (hereinafter referred to collectively as Baltic) may have created conditions unfavorable to shipping in the foreign trade of the United States by: (a) Engaging in certain suspected activities in the United States Atlantic and Gulf/European trades (hereinafter also meant to include the United States Atlantic and Gulf/Middle East trades) which may be violative of sections 15, 16, 17 and 18 of the Shipping Act, 1916;<sup>\*</sup> and (b)

<sup>\*</sup>The suspected activities referred to herein are as follows: (1) Intentional and widespread misrating of cargo carried to and from United States Atlantic and Gulf ports in order to provide unlawful inducements or advantages to certain shippers or classes of cargo, in violation of sections 15, 17, and 18 of the Shipping Act, 1916; (2) Entering into an unknown number of unfiled agreements with other ocean carriers concerning the sharing of ocean transport equipment, in violation of section 15 of the Shipping Act; and (3) Habitual non-compliance with tariff

apparently placing itself beyond effective regulation by the Federal Maritime Commission by failing or refusing to provide information demanded by a lawful Commission Order concerning its activities in the foreign commerce of the United States.

**§ 509.2 Production of Information.**

Pursuant to § 506.11 of this Chapter (46 CFR 506.11), the Commission has determined that receipt by the Commission of the following information is necessary in order for the Commission to determine whether either or both of the conditions described in § 509.1 exist in fact or may be developing:

(a) The information sought in paragraphs (A)(3)(e), (B)(1) through (B)(3), (C)(1) and (C)(2) of the Commission's Order of April 17, 1978 concerning Baltic's rates and practices in the U.S. Gulf/North Europe Trade, as modified by its Order of May 26, 1978; (b) Duplicate bills of lading for all cargo carried by Baltic to and from United States Atlantic and Gulf ports for a twelve-month period commencing ninety (90) days from the effective date of this Part. Such bills of lading shall indicate on their face, or on an attached sheet, the tariff and tariff item number used to determine the rate assessed each item of cargo reflected on the bill of lading; and

(c) Any other information or argument Baltic wishes to submit for the Commission's consideration in determining whether the conditions described in § 509.1 exist, and whether such conditions are unfavorable to the foreign trade of the United States.

**§ 509.3 Rejection, suspension, or cancellation of tariffs.**

(a) The Commission has determined that if it does not receive all of the information described in paragraph (a) of § 509.2, and adequate assurances that it will receive, and continue to receive, the information described in paragraph (b) of § 509.2, within 30 days after the effective date of this part, then the conditions described in § 509.1 are found to exist and to be unfavorable to the foreign trade of the United States, pursuant to § 506.12 of the Commission's rules, effective 31 days from the effective date of this part.

(b) On the effective date of the finding made pursuant to paragraph (a) of this § 509.3, the following tariffs and all amendments thereto are suspended in full, until such time as the information specified in § 509.2(a) is provided, and adequate assurances are received by the Commission that the information specified in § 509.2(b) will be provided:

provisions setting forth requirements for space charters, in violation of section 18 of the Shipping Act.

I. *Baltic Shipping Company, FMC Tariff Nos. 32 and 38.*

II. *Baltic Shipping Company dba Balt-Atlantic Line, FMC Tariff Nos. 3, 4, 5, 7, 13, 14, 16, 17, 22, 23, 33, 34, 39, 43, 44, 45, 46, 47, 49, 50 and 51.*

III. *Baltic Shipping Company dba Balt-Gulf Line, FMC Tariff Nos. 36, 37, 40 and 48.*

IV. *Baltic Shipping Company dba Baltic Middle East Line, FMC Tariff No. 31.*

(c) All affected conference or rate agreement tariffs shall be amended to reflect the suspension of Baltic's participation upon the effective date of the finding made pursuant to paragraph (a) of this § 509.3. This section would suspend, as to all sailings commencing on or after the effective date of this section, all tariff rates, charges and rules as they apply to Baltic in the trades between the United States Atlantic and Gulf Coasts and Europe. Until such time as Baltic furnishes the information and assurance sought under § 509.2, any tariffs subsequently submitted by or in behalf of Baltic in the trades between United States Atlantic and Gulf Coasts and Europe are within the scope of this Part and will be rejected or suspended upon filing.

(d) Operation by Baltic under suspended, cancelled, or rejected tariffs, or any other act or omission by Baltic inconsistent with this part, the Shipping Act, 1916, or any other law of the United States or political subdivision thereof, shall subject Baltic to all applicable remedies and penalties provided by law.

By the Commission.

FRANCIS C. HURNEY,  
Secretary.

**FEDERAL COMMUNICATIONS COMMISSION**

[47 CFR Part 73]

[Docket No. 21136]

**NATURE OF EDUCATIONAL BROADCAST STATIONS**

Order Extending Time for Filing Comments and Reply Comments

**AGENCY:** Federal Communications Commission.

**ACTION:** Order.

**SUMMARY:** Action taken herein extends the time for filing comments and reply comments in a proceeding involving the Commission's policy concerning the nature of educational broadcast stations. Petitioner, Public Broadcasting Service, states that the additional time is needed so that it can file more comprehensive and carefully considered comments.

**DATES:** Comments must be filed on or before January 8, 1979, and reply

comments on or before February 8, 1979.

**ADDRESSES:** Federal Communications Commission, Washington, D.C. 20554.

**FOR FURTHER INFORMATION CONTACT:**

Jeffrey Malickson, Broadcast Bureau, 202-632-7551.

**SUPPLEMENTARY INFORMATION:**

Adopted: December 21, 1978.

Released: December 21, 1978.

In the matter of Commission policy concerning Nature of Educational Broadcast Stations, Docket No. 21136.

1. On December 12, 1978, the Commission, by Order,<sup>1</sup> denied a request filed by the Educational Broadcasting Corporation, for an extension of time for filing comments and reply comments in the above-entitled proceeding.

2. On December 15, 1978, Public Broadcasting Service ("PBS") filed a petition for reconsideration of the Commission's Order. It contends that it filed comments in support of EBC's request for additional time but the Commission's Order contained no reference to PBS's reasons which supported EBC's motion. It states that a substantial portion of time has been devoted to the preparation of a questionnaire sent to all PBS members to obtain the information requested by the Commission. PBS asserts that in order to meet the present deadline, members of its staff, its outside counsel and secretarial staff would be required to neglect family obligations during the Christmas and New Year season. It asserts that a thirty-day extension of time will not materially delay the Commission's resolution of the proceeding but would permit PBS to file more comprehensive and carefully considered comments.

3. On the basis of the reasons indicated in PBS's petition for reconsideration, we believe that some additional time is warranted and would help to assure development of a sound and comprehensive record on which to base a decision in this proceeding. However, we believe that an extension of time to and including January 8, 1979, is sufficient for the filing of comments. Since other interested parties may wish additional time to respond to these comments, we shall extend the reply comment date the same amount of time to facilitate their submissions.

4. Accordingly, it is ordered, That the petition for reconsideration filed by Public Broadcasting Service in

<sup>1</sup>Order denying request for extension of time for filing comments and reply comments in Docket No. 21136, was released on December 14, 1978. See 43 FR 36116, August 15, 1978.

Docket No. 21136, is granted to the extent that the dates for filing comments and reply comments are extended to and including January 8, and February 8, 1979, respectively, and is denied in all other respects.

5. This action is taken pursuant to authority contained in Sections 4(i), 5(d)(1), 303(r) and 405 of the Communications Act of 1934, as amended, and §§ 0.281 and 1.106 of the Commission's rules.

FEDERAL COMMUNICATIONS COMMISSION,  
WALLACE E. JOHNSON,  
Chief, Broadcast Bureau.

[47 CFR Part 73]

[BC Docket No. 78-380; RM-3179]

**BROKEN BOW, OKLA.**

Proposed Channel (FM)

**AGENCY:** Federal Communications Commission.

**ACTION:** Notice of Proposed Rule Making.

**SUMMARY:** Action taken herein proposes the assignment of Channel 292A to Broken Bow, Oklahoma, at the request of Chris Daniel. The proposed assignment would provide for a station which could render a first local aural service.

**DATES:** Comments must be received on or before February 12, 1979, and reply comments on or before March 5, 1979.

**ADDRESS:** Federal Communications Commission, Washington, D.C. 20554.

**FOR FURTHER INFORMATION CONTACT:**

Mildred B. Nesterak, Broadcast Bureau (202-632-7792).

**SUPPLEMENTARY INFORMATION:**

In the matter of amendment of § 73.202(b), *Table of Assignments*, FM Broadcast Stations. (Broken Bow, Oklahoma), BC Docket No. 78-380, RM-3179.

Adopted: December 12, 1978.

Released: December 21, 1978.

1. The Commission herein considers a petition for rule making<sup>1</sup> filed by Chris Daniel ("petitioner"), proposing the assignment of FM Channel 292A to Broken Bow, Oklahoma. The channel can be assigned in conformity with the minimum distance separation requirements. No responses were made to the proposal.

<sup>1</sup>Public Notice of the petition was given on August 15, 1978, Report No. 1136.

2. Broken Bow (pop. 2,980), in McCurtain County (pop. 28,642),<sup>2</sup> is located in southeastern Oklahoma, approximately 84 kilometers (52 miles) northwest of Texarkana, Texas. There is no local aural broadcast service in Broken Bow.

3. Petitioner states that Broken Bow is located in a rich timber and agricultural area which provides employment for the majority of its residents. Petitioner has submitted several letters from local businessmen stating their interest and support for the proposed FM assignment to Broken Bow.

4. In light of the above information and the fact that the proposed Channel 292A assignment would provide a first local aural broadcast service to Broken Bow, Oklahoma, the Commission believes it appropriate to propose amending the FM Table of Assignments, § 73.202(b) of the rules, with regard to Broken Bow, as follows:

| City                      | Channel No. |          |
|---------------------------|-------------|----------|
|                           | Present     | Proposed |
| Broken Bow, Oklahoma..... |             | 292A     |

5. Authority to institute rule making proceedings, showings required, cut-off procedures and filing requirements are contained in the attached Appendix and are incorporated by reference herein.

**NOTE.**—A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

6. Interested parties may file comments on or before February 12, 1979, and reply comments on or before March 5, 1979.

7. For further information concerning this proceeding contact Mildred B. Nesterak, Broadcast Bureau, (202) 632-7792. However, members of the public should note that from the time a notice of proposed rule making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making other than comments officially filed at the Commission or oral presentation required by the Commission.

FEDERAL COMMUNICATIONS COMMISSION,  
WALLACE E. JOHNSON,  
Chief, Broadcast Bureau.

**APPENDIX**

1. Pursuant to authority found in Sections 4(i), 5(d)(1), 303(g) and (r), and 307(b) of the

<sup>2</sup>Population figures are taken from the 1970 U.S. Census.

Communications Act of 1934, as amended, and § 0.281(b)(6) of the Commission's rules, it is proposed to amend the FM Table of Assignments, § 73.202(b) of the Commission's rules and regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showings required.* Comments are invited on the proposal(s) discussed in the Notice of Proposed Rule Making to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build the station promptly. Failure to file may lead to denial of the request.

3. *Cut-off procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments (See § 1.420(d) of Commission rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this Notice, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

4. *Comments and reply comments; service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's rules and regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420(a), (b) and (c) of the Commission rules.)

5. *Number of copies.* In accordance with the provisions of § 1.420 of the Commission's rules and regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public inspection of filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, N.W., Washington, D. C.

## [6712-01-M]

[47 CFR—PART 73]

(Docket No. 20954; RM-2684; RM-2772; RM-2982)

## TABLE OF ASSIGNMENTS OF FM BROADCAST STATION IN STAUNTON, VIRGINIA

## Order Extending Time for Filing Reply Comments

AGENCY: Federal Communications Commission.

ACTION: Order.

SUMMARY: Action taken herein extends the time for filing reply comments in a proceeding involving proposed FM channel assignments to Staunton, Virginia. Petitioner, Augusta County Broadcasting Corporation, states that the additional time is needed so that it can undertake substantial engineering review of material filed by another party in the proceeding.

DATE: Reply comments must be received on or before January 22, 1979.

ADDRESSES: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Stanley Wiggins, Broadcast Bureau (202-632-7792).

SUPPLEMENTARY INFORMATION: In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations, (Staunton, Virginia), Docket No. 20954, RM-2684, RM-2772, RM-2982.

Order extending time for filing reply comments.

Adopted: December 21, 1978.

Released: December 21, 1978.

1. On August 17, 1978, the Commission adopted a *Second Further Notice of Proposed Rule Making*, 43 Fed. Reg. 38060, proposing the assignment of Class B FM Channel 259 to Staunton, Virginia. The date for filing comments has expired and the date for filing reply comments is presently December 22, 1978. (43 FR 55428, November 28, 1978)

2. On December 12, 1978, counsel for Augusta County Broadcasting Corporation, licensee of AM Station WTON, Staunton, Virginia, filed a request for an extension of time for filing reply comments to and including January 22, 1979. Counsel states that because of the substantial engineering comments filed by WANV, Inc., a party in the proceeding, it will be necessary for its client to undertake substantial en-

gineering review in order to prepare reply comments.

3. We are of the view that the public interest would be served by this extension so that Augusta County Broadcasting Corporation may file any information which might be helpful to the Commission in reaching a decision in this matter.

4. Accordingly, IT IS ORDERED, that the date for filing reply comments in Docket No. 20954 IS EXTENDED to and including January 22, 1979.

5. This action is taken pursuant to authority found in Sections 4(i), 5(d)(1) and 303(r) of the Communications Act of 1934, as amended, and Section 0.281 of the Commission's Rules.

FEDERAL COMMUNICATIONS COMMISSION,  
WALLACE E. JOHNSON,  
Chief, Broadcast Bureau.

## DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[50 CFR Part 662]

## PROPOSED AMENDMENT TO EIS/FMP FOR NORTHERN ANCHOVY FISHERY MANAGEMENT PLAN

## Public Hearing

AGENCY: National Oceanic and Atmospheric Administration, Commerce.

ACTION: Notice of public hearing.

SUMMARY: The Pacific Fishery Management Council will conduct a public hearing at its January meeting to receive input on a proposed amendment to the Environmental Impact Statement/Fishery Management Plan for Northern Anchovy for the 1979-80 fishing season.

DATES: The public hearing will begin at 7:00 p.m. on January 12, 1979.

ADDRESS: The public hearing will be in the Marina Room of the Shelter Island Inn located at 2051 Shelter Island Drive, San Diego, California.

FOR FURTHER INFORMATION CONTACT:

Mr. Lorry Nakatsu, Executive Director, Pacific Fishery Management Council, 526 SW Mill Street, Second Floor, Portland, Oregon 97201, Telephone: (503) 221-6352.

SUPPLEMENTARY INFORMATION: For the 1978-79 season, the anchovy fishery is being managed by the "Final Environmental Impact Statement and Fishery Management Plan for the Northern Anchovy Fishery" published

in the FEDERAL REGISTER on July 21, 1978 (43 FR 31651). The Council proposes to amend the plan to include a more precise statement of domestic annual harvest. The amendment would:

1. Increase the expected reduction fleet capacity from 486,000 to 891,492 short tons.

2. Establish the expected live-bait fleet capacity at 7,500 short tons.

3. Increase the expected processing capacity from 208,000 to 359,080 short tons.

4. Establish the expected domestic annual harvest at 202,000 short tons.

Copies of the proposed amendment have been mailed by the Pacific Fishery Management Council to all persons on the Council's Anchovy Plan mailing list. Additional copies are available at the Council office.

Written comments on the proposed amendment should be submitted to the Council, prior to January 26, 1979.

Signed in Washington, D.C. this 20th day of December, 1978.

JACK W. GEHRINGER,  
Deputy Assistant Administrator  
for fisheries, National Oceanic  
and Atmospheric Administration.

## **DEPARTMENT OF AGRICULTURE**

Food and Nutrition Service

### **FOOD DISTRIBUTION**

Policy for States' School Year 1979 Commodity Entitlements for School Feeding Programs

The Food and Nutrition Service (FNS) is announcing the dollar value of federally donated food commodities which each State is entitled to receive during the 1979 school year for school lunch and breakfast programs authorized under the National School Lunch Act, as amended, and the Child Nutrition Act of 1966, as amended. Two separate entitlements, based on the legislative authority under which the donated foods are acquired, have been established: (1) Foods acquired by the Commodity Credit Corporation (CCC) through price-support operations and available under section 416 of the Agricultural Act of 1949, as amended; and (2) the combined entitlement for foods purchased under Section 6 of the National School Lunch Act and Section 32 of Pub. L. 74-320, as amended. The policies and considerations upon which the entitlements have been determined are discussed in the following paragraphs.

#### **GENERAL**

Planning of USDA commodity acquisition for school feeding programs is based on overall program entitlements, traditional usage, States' and schools' preferences, anticipated market conditions, and budget appropriations. Proposed purchases are consolidated into a purchase docket, which is approved by the CCC Board of Directors and the Secretary of Agriculture. Commodity purchases and allocations are made in accordance with the plans approved in this docket.

#### **OVERALL ENTITLEMENTS FOR SCHOOLS**

Commodity entitlements are determined on the basis of the estimated number of lunches and breakfasts to be served between July 1 and June 30 of each year in schools participating under regulations for the National School Lunch Program (7 CFR 210) and the School Breakfast Program (7 CFR 220), including those administered by FNS Regional Offices. The entitlements are obtained by multiply-

ing the estimated number of meals by the appropriate value of commodity assistance for each meal. The value per lunch is based on the level specified in Section 6(e) of the National School Lunch Act. The value per breakfast is determined administratively, since Section 8 of the Child Nutrition Act of 1966, which authorizes commodity donations for the School Breakfast Program, does not mandate a specified per-meal level.

Since breakfasts in the School Breakfast Program and lunches served by commodity-only schools (as that term is defined in the regulations for the National School Lunch Program) are eligible for commodity support, foods are allocated for these programs. However, neither USDA, the States, nor schools are required to maintain records to designate the specific program use for each commodity. Therefore, in order to comply with the provisions of Section 6(e), it is assumed that the full entitlement for breakfasts and for lunches served by commodity-only schools is satisfied; any shortfall in entitlement would occur in the National School Lunch Program.

Entitlements are computed early in the school year for the purpose of allocating commodities to States, and they are revised by the following May 15. Revised entitlements are based on the number of lunches and breakfasts actually served and reported to FNS by April 15. For any months not reported, the best data available to FNS at that time will be used. The April 15 cutoff date for receipt of reports permits FNS to process the data on a State by State basis to meet the May 15 deadline, and no information received after that date will be considered. The entitlements are revised in order to comply with the provisions of Section 6(b) of the National School Lunch Act. Section 6(b) of the Act requires the Secretary of Agriculture to make an estimate no later than May 15 of the value of commodities to be delivered for use in school lunch programs during the year; if the national estimated value is less than that required under Section 6(e), cash payments equal to the difference in the total programmed value and the total required value for each State must be made not later than June 15.

The entitlements for all States are totaled to give an overall national entitlement for all commodities and then

separated into (1) the Section 416 category and (2) the combined category of Sections 6 and 32.

#### **SECTION 416 CATEGORY**

The Section 416 portion of the total entitlement varies from year to year, depending on CCC inventories of price-supported commodities and on States' ability to use the types and varieties of foods available. For the 1979 school year, the Section 416 category will comprise approximately 34 percent of the overall commodity entitlement and is expected to include a minimum of 27 different cereal, grain, dairy, peanut, and oil products. Because foods in this category are expected to be available in sufficient supply to meet this portion of entitlements, any State that does not order the full amount of its Section 416 entitlement will lose the value of the unorderd foods.

When Section 416-type commodities are ordered by a State over and above its entitlement in this category, they will be considered as a bonus to that State and will not be counted against its entitlement. The bonus program has been established to assist States which can effectively utilize these types of commodities in greater quantities and help reduce CCC inventories. It is expected to remain in effect as long as large quantities of price-supported foods are available and can be properly utilized.

#### **SECTIONS 6 AND 32 CATEGORY**

Funds available under Sections 6 and 32 are used primarily to purchase nonprice-supported commodities, such as meat, poultry, fruits and vegetables, to safeguard the health and well-being of the Nation's children, to encourage the domestic consumption of nutritious food, and to help stabilize farm prices. In addition, Section 6 mandates that special emphasis be given to high-protein foods, meat, and meat alternates in providing foods for schools. Most of the commodities purchased in this category are allocated to States on a pro rata basis, but some are offered on an as-needed basis. If USDA is able to offer 100 percent of this portion of the overall entitlement on a national basis, any State that does not accept or order all of its share of the entitlement will lose the value of the offered foods. However, if the Department is not able to offer the entire

Sections 6 and 32 entitlement nationally, each State will receive cash payments equal to the difference in value between its share of this portion of the entitlement and the amount of foods in this category actually received.

#### **POLICY**

Announcement of States' commodity entitlements by category for school feeding programs will be published in the FEDERAL REGISTER each year. Publication of cash-in-lieu of commodity payments to States, if any, will also be made in the FEDERAL REGISTER. The policies for determining entitlements shown in the following tables will remain as set forth above until further notice. However, the national percentage for each category will be reevaluated each year on the basis of the types and varieties of commodities available.

*Effective date:* This notice is effective as of July 1, 1978.

*Dated:* December 21, 1978.

CAROL TUCKER FOREMAN,  
Assistant Secretary for  
Food and Consumer Services.

## GILA NATIONAL FOREST GRAZING ADVISORY BOARD

## Meeting

The Gila National Forest Grazing Advisory Board will meet at 10:00 A.M., January 18, 1979 in large Conference Room, Federal Building, 2610 North Silver Street, Silver City, New Mexico. This replaces the meeting scheduled for December 19, 1978 that was cancelled due to emergency involving weather conditions.

The agenda for this meeting is:

1. Election of Officers.
  2. Development of Bylaws.
  3. Responsibilities of the Advisory Board.
  4. Other items of general interest.
- The meeting will be open to the public.

Dated: December 19, 1978.

ROBERT M. WILLIAMSON,  
Forest Supervisor.

## WESTERN SPRUCE BUDWORM SUPPRESSION

Kaibab National Forest, Grand Canyon National Park, Coconino County, Arizona; Intent To Prepare an Environmental Statement

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture will prepare an Environmental Statement for the suppression of a western spruce budworm, *Choristoneura occidentalis* Freeman, epidemic on the Kaibab Plateau. The proposed action involves the entire mixed conifer type on the Kaibab National Forest and adjacent Grand Canyon National Park lands.

A meeting will be held early in the process with interested agencies such as the National Park Service, U.S. Fish and Wildlife Service, Arizona Game and Fish Department, Arizona Department of Highways, and other State and Local Agencies.

16 U.S.C. 594-1 to 594-5 the "Forest Pest Control Act" gives the responsibility for such actions to the Forest Service for all Federal lands. Leonard A. Lindquist, the Forest Supervisor is, therefore, the responsible official, and Cary J. Price, Forest Silviculturalist, will be the team leader for the Environmental Assessment and Statement.

The Draft Environmental Statement is scheduled for completion by February 1, 1979 with a subsequent 60 day

review period and the Final Environmental Statement is scheduled for filing in April 1979. Suppression Activities are scheduled to proceed in June 1979 to take advantage of the development stage of the budworm at that time.

Comments on the Notice of Intent should be sent to Leonard A. Lindquist, Forest Supervisor, Kaibab National Forest, 800 South 6th Street, Williams, Arizona 86046.

LEONARD A. LINDQUIST,  
Forest Supervisor.

## Office of the Secretary

## ADVISORY COMMITTEE ON MEAT AND POULTRY INSPECTION

## Reestablishment

Notice is hereby given that the Advisory Committee on Meat and Poultry Inspection is being renewed under provisions of Public Law 92-463. It was previously established pursuant to the authority of section 301(a)(4) (21 U.S.C. 661(a)(4)) of the Wholesome Meat Act (Pub. L. 90-201) and section 5(a)(4) (21 U.S.C. 454(a)(4)) of the Wholesome Poultry Products Act (Pub. L. 90-492).

It is in the public interest to reestablish the Committee on matters pertaining to meat and poultry inspection conducted by USDA and the States as required under the Federal Meat Inspection Act and the Poultry Products Inspection Act. The Committee is required for the purposes of consulting with the Secretary concerning definitions and standards of identity for meat and poultry products; concerning whether conditions under which meat or poultry products are stored and handled under the laws of a State or Territory are adequate to effectuate the purposes of the Acts; concerning whether a State or Territory has at least equal authority under its laws with respect to recordkeeping, access to facilities, registration, and control of firms handling dead, dying, disabled, or diseased carcasses; concerning whether the State inspection program is maintained in an adequate manner; concerning the development of better coordination and more uniformity among the State and Federal programs; and concerning designation of plants which clearly endanger the public health.

The Committee will be composed of persons from private and public sectors in representing scientific and public health organizations, State pro-

grams, consumers, and public interest groups.

This Committee will terminate October 6, 1980, unless renewed prior to that date.

This notice is given in compliance with OMB Circular A-63, Revised.

Dated: December 18, 1978.

JOAN S. WALLACE,  
Assistant Secretary  
for Administration.

## CIVIL AERONAUTICS BOARD

[Order 78-12-140; Dockets 13962, 23229, 33183]

## BRITISH WEST INDIAN AIRWAYS LTD.

## Statement of Tentative Findings and Conclusions and Order To Show Cause

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 21st day of December, 1978.

British West Indian Airways Limited (BWIA) holds a foreign air carrier permit<sup>1</sup> authorizing: (a) foreign air transportation of persons, property, and mail over the following routes:

1. Between the coterminous points Trinidad, W.I.; Jamaica, W.I.; the Cayman Islands, W.I.; British Guiana, South America; and British Honduras, Central America; the intermediate points Barbados, W.I.; Grenada, W.I.; St. Lucia, W.I.; Antigua, W.I.; St. Kitts, W.I.; St. Thomas, Virgin Islands; San Juan, Puerto Rico; Ciudad Trujillo, Dominican Republic; Port-au-Prince, Haiti; Jamaica, W.I.; Cuba; Nassau, the Bahama Islands; and Bermuda; and the terminal point Miami, Florida;

2. Between the terminal point Barbados, W.I., and the terminal point New York, N.Y.;

3. Between the terminal point London, England; the intermediate points Shannon, Eire; Iceland; the Azores; Bermuda; Gander and Montreal, Canada; and the terminal point New York, N.Y.; and beyond New York to the terminal point Jamaica, W.I.; and

4. Between the terminal point Antigua, W.I., and the terminal point New York, N.Y.

and (b) charter trips in foreign air transportation pursuant to Part 212 of the Board's Economic Regulations.

On August 9, 1962, BWIA applied for renewal of its authority to continue operations over segment 4 of its permit. This authority was to expire on October 1, 1962, unless extended by further agreement between the United

<sup>1</sup>Order E-23279, approved February 19, 1966.

States and the United Kingdom.<sup>2</sup> Prior to 1962, BWIA's permit authority was contained in the United States-United Kingdom bilateral agreement ("Bermuda I"), and BWIA was a carrier designated by the United Kingdom. In 1962, Trinidad and Tobago gained independence from the United Kingdom and acquired BWIA as its national carrier. By Exchange of Notes dated September 27 and October 8, 1962, between the United States and Trinidad and Tobago, it was agreed that the routes formerly contained in "Bermuda I" would continue to apply to operations in the Caribbean by United States and Trinidadian carriers.

In 1966, the Board amended BWIA's permit to its present form, Order E-23279, approved February 19, 1966. The Board found that BWIA met the fitness standards of the Act, and that BWIA's services would be in the public interest.

By application filed March 23, 1971, in Docket 23229, BWIA applied for an amendment to its permit. The carrier sought authority to engage in the scheduled foreign air transportation of persons, property, and mail between the terminal point St. Lucia, W.I. and the terminal point New York, New York.

By application filed on August 10, 1978 (Docket 33183), and amended on September 21, 1978, BWIA filed for amendment of its foreign air carrier permit to authorize nonstop foreign air transportation of persons, property, and mail between New York, New York and Trinidad and Tobago.<sup>3</sup>

On August 17, 1978, BWIA filed a motion to have its application in Docket 33183 handled by show cause procedures. This motion sets forth BWIA's arguments for the requested permit amendment. The airline's prime contention is that the existing permit, when interpreted properly, implicitly accords the authority now sought. The present application, then, is designed really just to make the grant explicit and resolve all doubts. In support of this argument, BWIA traces the history of its permit, noting that the authorized routes derive from a period when Trinidad and Tobago were still only parts of the British Caribbean Empire. When the Islands gained their independence in 1962, BWIA's route authority gave rise to an

<sup>2</sup>Pursuant to section 9(b) of the Administrative Procedure Act (5 U.S.C. Section 558(c)), BWIA continues to operate over segment 4.

<sup>3</sup>In this application, BWIA states that it is a citizen of the Republic of Trinidad and Tobago; that it is organized under the laws of the Republic; and that it is owned solely by the Government of Trinidad and Tobago.

<sup>4</sup>At present, BWIA's permit allows only one-stop service between New York and Port-of-Spain, via Antigua and Barbados.

anomalous situation. BWIA had non-stop rights in the fifth freedom markets of Antigua/Barbados-Miami, Barbados-New York, and Antigua-New York, but in only one third and fourth freedom market (Miami-Trinidad), even though Trinidad is BWIA's homeland. This anomaly led BWIA to construe its permit as authorizing non-stop service between Trinidad and New York. BWIA began to operate this service in 1974.<sup>4</sup> No agency of the United States Government questioned this service until late June, 1978.

BWIA also makes a reciprocity argument, noting that U.S.-flag carriers possess nonstop authority in both the New York-Trinidad and Miami-Trinidad markets.

The U.S. Department of State, responding to a request of the Government of Trinidad and Tobago, submitted a statement of position on August 30, 1978, recommending the expeditious granting of BWIA's application in Docket 33183. The Department of State argues the BWIA should be allowed to compete nonstop on an equal basis with U.S. airlines, and that such direct service would further the U.S. policy of promoting tourism in the Caribbean to foster economic development in that area.

No other responses to BWIA's application or motion in Docket 33183 have been received. No responses were even received to BWIA's two earlier applications in Dockets 13962 and 23229.

As mentioned previously, in granting BWIA's permit in 1966 (Order E-23279), the Board found that the carrier met the fitness standards of the Act, and that BWIA's services were in the public interest. BWIA's application in Docket 33183 continues to support these findings.

BWIA currently operates five weekly round trips on the New York-Trinidad route, using Boeing 707 equipment. We recognize that a strict reading of the "Bermuda I" Agreement<sup>5</sup> and of BWIA's permit might raise questions as to the validity of the carrier's actions. We accept, however, the BWIA argument (supported by the Government of Trinidad and Tobago) that the unique circumstances of the case call for a less than rigid approach. "Bermuda I" was designed to accommodate a series of West Indian Islands united into one political whole. It did not contemplate an independent Trinidad and Tobago. The change in circumstances engendered by Trinidad's independence warrants flexible interpretation. The Government of Trini-

<sup>5</sup>This service has been operated in addition to the intermediate stop service which had been offered prior to 1974.

<sup>6</sup>An Exchange of Notes dated September 27 and October 8, 1962, between the United States and Trinidad and Tobago makes "Bermuda I" applicable between the two countries.

dad and Tobago chose plausibly to regard the Bermuda treaty as permitting nonstop service between Port-of-Spain and New York. When such service was instituted by BWIA, no American agency questioned it. Our own Department of State feels that it would be in the United States' best interest to let such service continue.

The Board has taken no action on BWIA's application in Dockets 13962 and 23229 primarily because of its concern that the Government of Trinidad and Tobago was not providing total reciprocity to U.S. carriers. The Board now believes there is adequate opportunity for reciprocity to U.S.-flag carriers provided by the Government of Trinidad and Tobago. Thus, we have decided to process all three applications together by show cause procedures with the intent of granting them. To ensure that appropriate controls remain should reciprocity not continue to exist with respect to U.S. air carrier operations, we will limit the permit for Routes 4, 5 and 6 to a period of five years.

In view of the foregoing and all the facts of record, the Board tentatively finds and concludes that:

1. It is in the public interest to amend and renew the foreign air carrier permit issued to British West Indian Airways Limited to authorize the carrier to engage in nonstop foreign air transportation of persons, property, and mail between the terminal points Antigua, W.I., St. Lucia, W.I., and Trinidad and Tobago, W.I., respectively, and the terminal point New York, New York;

2. The public interest requires that the exercise of the privileges granted by the amended permit be subject to the terms, conditions, and limitations contained in the specimen permit attached to this order, and to such other reasonable terms, conditions, and limitations required by the public interest as may be prescribed by the Board;

3. British West Indian Airways Limited is fit, willing and able properly to perform the foreign air transportation described in the specimen permit, and to conform to the provisions of the Federal Aviation Act of 1958, as amended, and the rules, regulations, and requirements of the Board;

4. The public interest does not require an oral evidentiary hearing on the application;

5. The amendment and renewal of British West Indian Airways Limited's foreign air carrier permit will not constitute "a major Federal Action significantly affecting the quality of the human environment" within the

<sup>7</sup>Any interested persons having objections to the issuance of an order making final the board's tentative findings and conclusions, and issuing the attached permit, shall be allowed 21 days in which to respond to the date of service of this order.

meaning of section 102(2)(C) of the National Environmental Policy Act of 1969 and will not constitute a "major regulatory action" under the Energy Policy and Conservation Act of 1975, as defined in §313.4(a)(1) of the Board's Regulations;<sup>8</sup> and

6. Except to the extent granted, the applications of British West Indian Airways Limited in Dockets 13962, 23229, and 33183 are denied.

Accordingly,

1. We direct all interested persons to show cause why the Board should not (1) make final its tentative findings and conclusions stated here, and (2) issue an amended foreign air carrier permit to British West Indian Airways Limited in the specimen form attached, subject to the disapproval by the President;

2. Any interested person having objections to the issuance of an order making final the Board's tentative findings and conclusions and issuing the attached specimen permit shall, no later than January 16, 1979, file with the Board and serve on the persons named in paragraph 5 below, a statement of objections specifying the part or parts of the tentative findings or conclusions objected to, together with a summary of testimony, statistical data, and concrete evidence expected to be relied upon in support of the objections. If an oral evidentiary hearing is requested, the objector should state in detail why such hearing is considered necessary and what relevant and material facts he would expect to establish through such hearing which cannot be established in written pleadings. Any interested person who wishes to answer these objections shall file such answers no later than January 26, 1979;

3. If timely and properly supported objections are filed, we will give further consideration to the matters and issues raised by the objections before we take further action: *Provided*, that we may proceed to enter an order in accordance with our tentative findings and conclusions set forth in this order, if we determine that there are no factual issues presented that warrant the holding of an oral evidentiary hearing;<sup>9</sup>

<sup>8</sup>Our tentative findings are based upon the fact that amendment of BWIA's permit will not result in a significant increase in civil aviation operations at U.S. points, nor will it result in the annual consumption of more than 10 million gallons of fuel. We note in particular that BWIA has been providing nonstop service over the New York-Trinidad and Tobago route since 1974; and that we are merely renewing BWIA's Antigua-New York authority, which it has operated since the early 1960's, and removing the one-stop requirement on its New York-St. Lucia route.

<sup>9</sup>Since provision is made for the filing of objections to this order, petitions for reconsideration will not be entertained.

4. In the event no objections are filed, all further procedural steps will be deemed to have been waived and the Secretary shall enter an order which (1) shall make final our tentative findings and conclusions set forth in this order, and (2) subject to the disapproval of the President pursuant to section 801(a) of the Act, shall issue an amended foreign air carrier permit to the applicant in the specimen form attached; and

5. We are serving this order upon British West Indian Airways Limited, the Ambassador of Trinidad and Tobago in Washington, D.C., and the U.S. Departments of State and Transportation.

We shall publish this order in the FEDERAL REGISTER and transmit a copy to the President of the United States.

By the Civil Aeronautics Board:<sup>10</sup>

PHYLLIS T. KAYLOR,  
Secretary.

(SPECIMEN PERMIT)

United States of America Civil Aeronautics Board, Washington, D.C.

PERMIT TO FOREIGN AIR CARRIER (AS AMENDED)

British West Indian Airways Limited

is authorized, subject to the provisions set forth, the provisions of the Federal Aviation Act of 1958, and the orders, rules, and regulations of the Board, to engage in foreign air transportation of persons, property, and mail, as follows:

1. Between the coterminous points Trinidad and Tobago; Jamaica; the Cayman Islands; and Belize; the intermediate points Barbados; Grenada; St. Lucia; Antigua; St. Kitts; St. Thomas, Virgin Islands; San Juan, Puerto Rico; Santo Domingo, Dominican Republic; Port-au-Prince, Haiti; Jamaica; Cuba; Nassau, Bahamas; and Bermuda; and the terminal point Miami, Florida;

2. Between the terminal point Barbados, and the terminal point New York, New York;

3. Between the terminal point London, England; the intermediate points Shannon, Eire; Iceland; the Azores; Bermuda; Gander and Montreal, Canada; and the terminal point New York, New York; and beyond New York to the terminal point Jamaica;

4. Between the terminal point Antigua, and the terminal point New York, New York;

5. Between the terminal point Trinidad and Tobago, and the terminal point New York, New York; and

6. Between the terminal point St. Lucia, and the terminal point New York, New York.

The holder shall be authorized to engage in charter trips in foreign air transportation, subject to the terms, conditions, and limitations prescribed by Part 212 of the Board's Economic Regulations.

The holder shall conform to the airworthiness and airman competency requirements prescribed by the Government of Trinidad and Tobago for international air service.

The holder shall not operate any aircraft under the authority granted by this permit.

<sup>10</sup>All Members concurred.

unless the holder complies with operational safety requirements at least equivalent to Annex 6 of the Chicago Convention.

This permit shall be subject to all applicable provisions of any treaty, convention, or agreement affecting international air transportation now in effect, or that may become effective during the period this permit remains in effect, to which the United States and Trinidad and Tobago shall be parties.

The holder shall keep on deposit with the Board a signed counterpart of CAB Agreement 18900, an agreement relating to liability limitations of the Warsaw Convention and the Hague Protocol approved by Board Order E-23680, May 13, 1966, and signed counterpart of any amendment or amendments to such agreement which may be approved by the Board and to which the holder becomes a party.

The holder (1) shall not provide foreign air transportation under this permit unless there is in effect third-party liability insurance in the amount of \$1,000,000 or more to meet potential liability claims which may arise in connection with its operations under this permit, and unless there is on file with the Docket Section of the Board a statement showing the name and address of the insurance carrier and the amounts and liability limits of the third-party liability insurance provided, and (2) shall not provide foreign air transportation with respect to persons unless there is in effect liability insurance sufficient to cover the obligations assumed in Agreement CAB 18900, and unless there is on file with the Docket Section of the Board a statement showing the name and address of the insurance carrier and the amounts and liability limits of the passenger liability insurance provided. Upon request, the Board may authorize the holder to supply the name and address of an insurance syndicate in lieu of the names and addresses of the member insurers.

The initial tariff filed by the holder shall not set forth rates, fares and charges lower than those that may be in effect for any U.S. air carrier in the same foreign air transportation; *However*, this limitation shall not apply to a tariff filed after the initial tariff regardless of whether this subsequent tariff is effective before or after the introduction of the authorized service.

By accepting this permit, the holder waives any right it may possess to assert any defense of sovereign immunity from suit in any action or proceeding instituted against the holder in any court or other tribunal in the United States (or its territories or possessions) based upon any claim arising out of operations by the holder under this permit.

The exercise of the privileges granted here shall be subject to such other reasonable terms, conditions, and limitations required by the public interest as may be prescribed by the Board.

This permit shall be effective on—, British West Indian Airways Limited's authority to serve Routes 4, 5 and 6 as described elsewhere in this permit, shall continue in effect for a period of five years. Unless otherwise terminated at an earlier date pursuant to the terms of any applicable treaty, convention, or agreement, this permit shall terminate (1) upon the effective date of any treaty, convention, or agreement or amendment, which shall have the effect of eliminating the route or routes authorized by this permit from the routes which may be operated by airlines designat-

ed by the Government of Trinidad and Tobago (or in the event of the elimination of any part of the authorized route, the authority granted shall terminate to the extent of such elimination); or (2) upon the effective date of any permit granted by the Board to any other carrier designated by the Government of Trinidad and Tobago in lieu of the holder, or (3) upon the termination or expiration of the Air Services Agreement between the Government of the United States of America and the Government of the United Kingdom of Great Britain and Northern Ireland effective February 11, 1945 (Bermuda I) to the extent that Agreement remains in effect pursuant to an Exchange of Notes dated September 27 and October 9, 1962, between the Government of the United States of America and the Government of Trinidad and Tobago. However, clause (3) of this paragraph shall not apply if, prior to the occurrence of the event specified in clause (3), the operation of the foreign air transportation authorized becomes the subject of any treaty, convention, or agreement to which the United States of America and Trinidad and Tobago are or shall become parties.

The Civil Aeronautics Board, through its Secretary, has executed this permit and affixed its seal on—

PHYLLIS T. KAYLOR,  
Secretary.

#### CIVIL SERVICE COMMISSION

##### ALLOWANCES AND DIFFERENTIALS— NONFOREIGN AREAS

Public Comments on Compensation for Certain  
Federal Civilian Employees in the Nonfor-  
eign Areas

AGENCY: Civil Service Commission.

ACTION: Solicitation of comments on compensation programs as they affect certain Federal civilian employees in Alaska, Hawaii and U.S. territories and possessions (nonforeign areas).

SUMMARY: Section 5941 of title 5, United States Code, authorizes the payment of a cost of living allowance (COLA) and post differential to Federal civilian employees whose rates of pay are set by statute and who work in Alaska, Hawaii, the Commonwealth of Puerto Rico, or U.S. territories and possessions (hereafter referred to as the nonforeign areas or COLA areas). In Executive Order 12070 and in a Memorandum to the Chairman of the Commission, the President directed the Commission to conduct a study of problems associated with the implementation of 5 U.S.C. 5941, and to evaluate the practice of paying additional compensation based on living costs and environmental factors in relationship to other compensation programs and benefits. As part of that study, the Commission invites interested parties to submit their comments on pertinent issues.

DATE: Comments by February 12, 1979.

ADDRESS: Comments to Office of Allowances and Special Rates, Pay Policy Division, U.S. Civil Service Commission, Room 3353, 1900 E Street, N.W., Washington, D.C. 20415.

FOR FURTHER INFORMATION CONTACT:

Richard J. Carney, Office of Allowances and Special Rates, Pay Policy Division, U.S. Civil Service Commission, Room 3353, 1900 E Street N.W., Washington, D.C. 20415, 202-632-8742.

#### SUPPLEMENTARY INFORMATION:

##### I. BACKGROUND—THE FEDERAL COMPENSATION SYSTEM AND THE NONFOREIGN AREAS

Since 1962, basic pay rates for most Federal white-collar employees have been based on the principle of pay comparability with private industry employees. Federal rates are adjusted annually based on the findings of a comprehensive survey of salaries paid by private employers in the 48 contiguous United States. The resulting basic rates of pay, however, apply to all employees in the United States and its territories and possessions who are under a statutory pay system, such as the General Schedule which covers the majority of white-collar employees.

Only the actual rates being paid to employees on each employer's payroll are used in adjusting Federal pay rates. This means that other economic and non-economic factors, such as location, climate, or local living costs, are not considered in establishing Federal basic rates of pay. To the extent that local living costs, environmental conditions or other factors influence pay decisions, they are implicitly reflected in the pay rates established by the private employers. Thus, when private industry rates are used in fixing Federal pay, the resulting Federal rates also implicitly include the same factors considered by industry.

Other programs provide for additional compensation, on top of basic pay, under certain conditions. These include, for example, overtime pay for work in excess of the established workweek or workday; and premium pay for night work and for regular duty on Sunday. Provisions are also made for extra compensation for hazardous duty and for commuting to remote posts of duty. Flexibility is available to increase basic pay rates, i.e., setting special salary rates when significant staffing problems exist because of higher non-Federal pay for comparable levels of work. These compensation programs apply generally in

all locations including the nonforeign areas.

A statute enacted in 1948 provides for additional compensation for white-collar employees, including U.S. Postal Service employees, in nonforeign areas based on two factors:

1. The extent to which the local cost of living substantially exceeds living costs in Washington, D.C., or
2. Conditions of environment (climate extremes, remote locations, limited services/facilities, etc.) that differ substantially from those in the mainland United States.

To accommodate the first factor, a cost of living allowance (COLA) is established where warranted based on a comprehensive annual survey of living costs in each allowance area and in Washington, D.C. For factor two, a post differential is paid where warranted based on a survey of environmental conditions at the post of duty. Under the statute the additional compensation may not exceed 25 percent of an employee's basic rate of pay for either program separately or in combination.

This statute was enacted to help Federal agencies staff positions in geographic areas outside the then 48 States. Basically, at the time of enactment local labor markets in the nonforeign areas were often not able to provide adequate numbers of qualified persons to meet Federal staffing needs. Accordingly, it was necessary to recruit from outside those areas, primarily from the mainland United States. Recruiting was difficult because of factors such as isolation from the U.S., relocation expenses, high living costs, remoteness of some posts, and generally difficult environmental and living conditions at many posts. The statute, therefore, provided authority to offer additional compensation which served as a recruiting incentive.

##### II. ADDITIONAL COMPENSATION BASED ON LIVING COSTS

In determining whether an allowance is warranted and, if so, the amount of the allowance rate, annual comprehensive surveys are conducted in each allowance area and in Washington, D.C. An allowance rate is based on the difference in the cost of living for each allowance area compared to Washington, D.C. The allowance rate is affected by price level fluctuations both in the allowance area and in Washington, D.C. Thus, if prices and costs increase at a faster rate in Washington, D.C., than in an allowance area, the living cost difference decreases and the allowance rate is reduced accordingly. Conversely, if prices and costs increase at a faster rate in the allowance area, the living

cost difference increases and the allowance rate is increased.

Allowance rates are adjusted in 2½ percentage point increments, so minor variations in the place to place living cost indexes from year to year will not necessarily result in a change in an allowance rate. The minimum rate paid is five percent and this must be based on a comparative index of at least 105. The allowance is paid as a percentage of an employee's basic rate of pay and is Federal tax free; however, it may be taxed by local governments.

The index computation method involves collecting prices and costs on about 160 items of consumer goods and services divided into 14 major expenditure categories. Price data are obtained from those retail outlets used most frequently by Federal employees. These include, for example, food stores, clothing outlets, drug stores, and auto insurance companies. Where available, prices are also obtained from military commissary and exchange facilities. In total about 700 prices are collected in each survey. The 14 expenditure categories are as follows:

|                       |                         |
|-----------------------|-------------------------|
| Meats, Eggs, Fats     | Medical and Dental Care |
| Groceries             | Recreation              |
| Fruits and Vegetables | Transportation          |
| Tobacco and Alcohol   | Domestic Service        |
| Personal Care         | Food Away from Home     |
| Household Operations  | Auto Purchase           |
| Clothing              | Housing                 |

Within most expenditure categories a number of consumer items have been selected for pricing to represent all items that may be consumed within that category. In the meat group, for example, 17 different cuts are specified, while 12 fresh vegetables are priced in addition to canned and frozen items. Only new automobiles are priced but several makes are included where available. Housing cost data are collected directly from a sample of Federal employees in each allowance area and in Washington, D.C.

The total comparative cost index is a weighted average of the 14 expenditure categories, each of which in turn is a weighted index of the included survey items. The weights are derived from the relative proportion of typical Washington, D.C., family consumer budget expenditures for that item and expenditure category. The weights currently in use were updated in 1972. The same weights, expenditure categories, items surveyed and computational techniques are used in all allowance areas.

Where provided as a condition of Federal civilian employment, Federal housing, commissary, exchange or other special purchasing privileges are considered in fixing the allowance

rates for employees with such privileges.

At the present time, the basic allowance rates<sup>1</sup> and the number of employees covered by the allowance program are as follows:

| Geographic location          | Basic allowance rate <sup>1</sup> | Number of employees |
|------------------------------|-----------------------------------|---------------------|
| ALASKA:                      |                                   |                     |
| Anchorage.....               | 25%                               | 5,000               |
| Fairbanks.....               | 25%                               | 890                 |
| Juneau.....                  | 25%                               | 750                 |
| Rest of State.....           | 25%                               | 2,400               |
| HAWAII:                      |                                   |                     |
| Oahu.....                    | 15%                               | 14,500              |
| Hawaii.....                  | 15%                               | 350                 |
| Molokai.....                 | 15%                               | 20                  |
| Maui and Lanai.....          | 12.5%                             | 200                 |

##### III. ADDITIONAL COMPENSATION BASED ON CONDITIONS OF ENVIRONMENT

The 1948 statute provides for additional compensation up to 25 percent of base pay when environmental conditions at a nonforeign post warrant extra pay as a recruiting incentive. Environmental factors that are considered in setting this compensation (called a post differential) include climate extremes, remoteness, availability of consumer goods and services, recreational activities, quality of housing, medical and dental facilities, sanitation conditions, and related factors. The basic comparison of environmental conditions is with the mainland United States, generally metropolitan areas, because the majority of the Federal work force is located in those areas.

Since 1948, a post differential has been authorized for all the Pacific Ocean islands under U.S. jurisdiction except the State of Hawaii. These locations include American Samoa, Guam, Wake Island, Midway Island, and Johnston Island. The maximum 25 percent is paid on all the islands except Guam, where the rate was reduced to 20 percent several years ago.

A differential has not been authorized for any location within Alaska, even though many locations could qualify. The reason for this is that the statute places a limit of 25 percent on combined COLA and post differential payments at any post of duty, and the maximum 25 percent has already been authorized for COLA.

The differential is paid only to employees hired off-island, because it is specifically designed as an incentive to

<sup>1</sup>The basic allowance rate covers 90 percent or more of all eligible employees in each allowance area.

induce needed categories of employees, who would not otherwise be interested, to relocate to the differential area. Under the statute it would not be appropriate to make such payments to individuals already in the area for other reasons, even though the environmental/hardship conditions which exist at a post generally affect all Federal employees as well as other residents of the area. Once eligible, an employee continues to receive the differential as long as he or she remains at the post of duty. On Guam, 300 to 400 employees are eligible for the differential, while in all other locations combined fewer than 200 employees are eligible.

Labor market conditions on Guam have changed significantly over the years. With the exception of some specialized professional and technical occupations, the local labor market has generally been able to satisfy staffing needs.

##### IV. FEDERAL COMPENSATION RELATIVE TO NON-FEDERAL COMPENSATION IN THE NONFOREIGN AREAS

As part of the review of the statute, the Commission will be exploring other options in an effort to assure the development of a rational compensation plan for the nonforeign areas. This includes, but is not limited to, alternative approaches to providing additional compensation rather than basing the extra pay solely on cost of living or environmental factors. Any compensation plan, regardless of its features, must assure that the Government can attract and retain a staff of well qualified employees while at the same time be fair to employees and the taxpayers.

This part of the study will examine how the Federal employee's compensation, i.e., base pay plus COLA where paid, compares with the compensation of non-Federal employees in the nonforeign areas. The table below shows how Federal pay, with and without the additional pay provided under the COLA program, compares with non-Federal pay in some nonforeign areas.

It should be noted that the pay data shown on the table are based on the results of a limited survey of a number of occupations that are numerically significant in terms of Federal employment in the nonforeign areas shown. Time constraints did not permit conducting more comprehensive surveys in each location. For this reason, adequate data could not be obtained for the Virgin Islands or for those grade level equivalents for which data are not shown. Nevertheless, while there are some limitations in the data, the table does provide a reasonable indicator of the relative levels of non-Federal pay compared to Federal pay.

## NOTICES

Federal data shown reflect the rates in effect for the same relative time periods and do not include the October 1978 general pay increase or any adjustments in COLA rates that may have occurred at a later date.

The rates for Anchorage, Alaska include data obtained from the bureau of Labor Statistics *Area Wage Survey, Alaska, July 1978*; a spring of 1978 survey of clerical rates conducted by a private firm which includes responses from 27 firms; and an August 1978 CSC survey of 50 private firms covering positions primarily in the middle and upper grade level, and State government rates.

For Honolulu, Hawaii, the pay rates were obtained during an August 1978 CSC survey of 62 private industry firms and the State government.

For Puerto Rico, rates were obtained from the Bureau of Labor Statistics *Area Wage Survey, Puerto Rico, December 1977*. And for Guam, from the Bureau of Labor Statistics *Area Wage Survey, Guam, December 1977*.

| GS-6  | 21,212      | 18,324 | 17,222       | 17,352      | 13,830  | 17,117       | -           | -            | -       | -            | -            |
| GS-7  | 24,272      | 23,524 | 20,756       | 17,495      | 18,292  | 21,223       | 11,858      | 21,868       | 24,376  | 12,376       | 22,948       |
| GS-8  | 28,754      | 28,728 | 25,145       | 23,495      | 23,876  | 25,974       | 12,147      | 25,273       | 28,432  | 14,497       | 27,720       |
| GS-9  | 32,121      | 32,078 | 31,252       | 26,395      | 28,715  | 30,841       | -           | -            | -       | -            | -            |
| GS-10 | -           | 38,984 | 37,900       | 27,840      | 32,587  | 36,106       | -           | -            | -       | -            | -            |
| GS-11 | -           | 47,522 | 43,380       | 36,860      | 34,814  | 42,840       | -           | -            | -       | -            | -            |
| GS-12 | -           | -      | -            | -           | -       | -            | -           | -            | -       | -            | -            |
| GS-13 | -           | -      | -            | -           | -       | -            | -           | -            | -       | -            | -            |
| GS-14 | -           | -      | -            | -           | -       | -            | -           | -            | -       | -            | -            |
| GS-15 | -           | -      | -            | -           | -       | -            | -           | -            | -       | -            | -            |

As the table shows, basic Federal pay rates compare very favorably with private rates in Puerto Rico and Guam; with COLA added, Federal compensation is significantly higher. In Honolulu, basic Federal rates lag behind private pay up to about the GS-9 level, while above that level the basic rates are higher than private rates. At all levels, basic rates compare favorably with Hawaii State Government pay. When COLA is added, Federal compensation generally exceeds private pay at the lower grades and is significantly higher at the upper grade levels. For Anchorage, basic Federal pay is substantially below private as well as State pay, and even with COLA added Federal compensation is lower.

#### V. QUESTIONS/ISSUES FOR CONSIDERATION AND COMMENT

The questions/issues outlined in this section are intended to stimulate discussion and comment and are not intended to be all inclusive. Comments are encouraged on these and any other aspects of the statute and its administration as well as on the concept of providing additional compensation based on living costs or environmental conditions.

#### A. ADMINISTRATION OF COST OF LIVING ALLOWANCE PROGRAM

1. Should the geographic coverage of allowance rates be on the broadest possible basis, e.g., survey each island within the State of Hawaii and set a state-wide rate based on the average costs in all locations? Or, should the coverage of the rates be relatively narrow so as to reflect the living costs experienced by employees in a discrete economic community, e.g., Maui Island, Fairbanks area, Ponce area?

2. Military commissary and exchange facilities are available to Federal civilian employees in certain locations and under certain conditions. Prices and costs in these facilities typically are lower than prices and costs in local private retail outlets and, thus, influence living costs. Access to these special facilities may be related to present civilian employment, to prior military service or to the status of an employee's spouse. Federal housing units, both civilian and military, are also available to certain employees and the rental fees may be lower than the cost of comparable private units. To what extent should the prices and costs charged in these special Government facilities be considered in setting the cost of living allowance for employees who have access to them? Should distinctions be made as to the reasons for the access? Should finer distinctions in category be made for affected groups?

3. The statute places a limitation on the amount of COLA or post differen-

tial that may be paid. The limit is 25 percent of an employee's basic rate of pay for the cost of living allowance, for the post differential, or for both combined. Should there be a maximum limitation on payments under either program and/or on combined payments? If so, what should it be?

4. Cost of living allowance rates are paid as a percentage of an employee's basic rate of pay even though some expenditures from base pay are unaffected by inter-area living cost differences. Such expenditures include retirement contributions, health and life insurance premiums, Federal income tax, savings, gifts and contributions. Depending on income level and family status, such expenditures may range from 20 percent of income at lower income levels to 50 percent at higher income levels. Should allowance payments be related only to that portion of income that is affected by inter-area living cost differences? (This is commonly referred to as "spendable income.") Or should payments continue to be related to 100 percent of base pay? Should marital status and number of dependents be a factor in allowance rate payments?

5. The cost of living allowance program methodology is oriented toward consumption budget expenditures of a family unit. If there are two members of a family in the same household working in Federal civilian positions covered by the COLA program, both family members presently receive the same percentage allowance rate of their individual basic rates of pay. Should adjustments be made in allowance rate payments when two (or more) members of the same household are eligible for COLA? If so, how should the adjustments be made?

6. Housing costs data used in the computation process are collected directly from a sample of Federal civilian employees in each allowance area and in Washington, D.C. This sample covers all grade (income) levels and is restricted to married male employees because of the program orientation toward family budget expenditures. Excluded under this approach are data from single employees, both male and female, and unmarried heads of households, both male and female. Should the sample be structured so as to collect data from all employees regardless of marital or personal status? Should housing cost data be obtained by some other method? If so, what approach would you suggest? Should average living costs be calculated for families and households of all sizes?

7. Washington, D.C., is specified in the statute as the base mainland U.S. city to be used in making the living cost comparisons with each allowance area. Should the statute be changed to provide a different base for the com-

parison? What other changes would you suggest be made in the statute?

#### B. FEDERAL COMPENSATION CONCEPTS AND PRINCIPLES IN THE NONFOREIGN AREAS

1. As the comparative pay table shown above illustrates, total Federal compensation, i.e., base pay plus COLA, is higher than non-Federal pay in all locations except Alaska. Regular Federal base rates are somewhat lower than private pay in Hawaii at the lower grade levels; however, this is also true of some locations in the mainland U.S. because the regular rates are based on nationwide average private pay. Should only the nationwide regular pay rates apply to the nonforeign areas, rather than a combination of regular rates plus additional compensation based on living costs? Should Federal basic pay rates in the nonforeign areas be based on local non-Federal pay in each area? Should distinctions be made between lower grade levels and upper grade levels, e.g., local pay for lower grades and nationwide rates for upper grades?

2. Since available data show that non-Federal pay in Alaska is substantially higher than Federal pay, with or without COLA, as well as higher than the pay rates in the 48 contiguous United States, what should be the basis for fixing Federal pay in that State? Should pay distinctions be made between duty posts in the three principal cities (Anchorage, Fairbanks, and Juneau) and the outlying ("bush") areas? What should be the basis for the distinctions, e.g., staffing difficulty only, environmental factors only?

3. To what extent should local living costs be considered in setting Federal pay in the nonforeign areas? What should be the basis for including living costs in determining Federal pay? For example, when local costs exceed some norm, either national or regional; when staffing problems develop; to the extent that a combination of base pay plus COLA does not exceed local non-Federal pay?

4. In consideration of the fact that it is necessary to staff duty posts having widely varying environmental/living conditions, what type of compensation flexibility should be available to provide additional pay to help staff those duty posts? What should be the basis for use of the flexibility, e.g., staffing needs only, or environmental conditions regardless of staffing factors?

#### UNITED STATES CIVIL SERVICE COMMISSION.

JAMES C. SPRY,  
Executive Assistant  
to the Commissioners.

[FR Doc. 78-35956 Filed 12-28-78; 8:45 am]

#### PRIVACY ACT OF 1974

##### Proposed New System of Records

AGENCY: U.S. Civil Service Commission.

ACTION: Proposed new system of records.

SUMMARY: The purpose of this document is to give notice pursuant to 5 U.S.C. 552a(e)(4), of the Civil Service Commission's intent to establish for the Office of Personnel Management a new system of records (OPM/GOVT-4-Ethics in Government Financial Disclosure Records) implementing provisions of the Ethics in Government Act of 1978, Pub. L. 95-521.

DATE: Any interested party may submit written comments regarding the proposal. To be considered, comments must be received on or before January 29, 1979.

ADDRESS: Address comments to the Office of the General Counsel, U.S. Civil Service Commission (Room 5H22), 1900 E Street NW., Washington, D.C. 20415. Comments received will be available for public inspection at the above address between the hours of 9 a.m. and 4 p.m., Monday through Friday.

FOR FURTHER INFORMATION CONTACT:

Joyce L. Evans, Office of the General Counsel (202) 632-5506, and David Reich, Office of the General Counsel (202) 632-5421.

SUPPLEMENTARY INFORMATION: The Ethics in Government Act of 1978, Pub. L. 95-521, dated October 26, 1978, created the Office of Government Ethics (OGE) in the Office of Personnel Management (OPM). This Act is designed to preserve and promote the integrity of public officials and institutions and requires covered individuals to file reports with the Director, OGE, the Federal Election Commission, designated agency ethics officers, and in the case of uniformed personnel with the "Secretary concerned." The Director, OGE, is responsible for: ensuring compliance with the Act by covered individuals of the Executive branch; suggesting procedures designed to ensure successful achievement of the purposes of the Act; and, along with the Attorney General, conducting investigations into possible violations of conflict-of-interest laws.

The expanded character of the data reported to the Director, OGE, and designated agency ethics officers, the larger number of individuals covered by this Act, and the public nature of the information furnished eliminates any possibility for maintenance of these records in an existing system of

records. Further, the designation of the Director, OGE, as system manager for these records, the assurance of full public awareness of the existence of and purposes for maintaining this system of records, and the minimizing of agency action by relieving them of the need to create new or modify existing systems of records are goals that are met by establishing this new Government-wide system of records. The System will cover those records maintained as a result of this Act in the Director's office, the Federal Election Commission, the "Secretary concerned," or by agency designated ethics officers, for all covered individuals in the Executive branch.

Reports describing the new system are being filed, concurrent with this publication, with the Speaker of the House, the President of the Senate, and the Office of Management and Budget. The Commission has requested a waiver of the Office of Management and Budget 60-day advance notice requirement, since to delay implementation of this mandated program would adversely affect the public interest in assuring the access of the program, and impede compliance with the law by those officials required to file financial statements before the 60-day notice period expires. This system will become effective the date that OMB grants the waiver. The complete text of the proposed new system appears below.

United States Civil Service Commission.  
James C. Spry,  
Executive Assistant to  
the Commissioners.

#### OPM/GOVT-4

##### System name:

Ethics in Government Financial Disclosure Records

##### System location:

Director, Office of Government Ethics, Office of Personnel Management, 1900 E Street, NW., Washington, D.C. 20415, and agency designated ethics offices.

##### Categories of individuals covered by the system:

This system contains records on: The President, Vice President and candidates for those offices; Executive branch officers and employees, including special government employees, whose positions are classified at grades GS-16 and above or at an equivalent rate under another pay schedule; officers or employees in a position determined by the Director of the Office of Government Ethics to be of equal classification to GS-16; Administrative Law Judges; employees in the excepted service in positions which are of a

confidential or policy-making nature unless an employee or groups of employees are exempted by the Director of the Office of Government Ethics; each member of a uniformed service whose pay grade is at or in excess of GS-7 under section 201 of title 37, United States Code; the Postmaster General, the Deputy Postmaster General, each Governor of the Board of Governors of the U.S. Postal Service, and each officer or employee of the United States Postal Service whose basic rate of pay is equal to or greater than the minimum rate of basic pay fixed for GS-16; the Director of the Office of Government Ethics and designated agency officials; and nominees for positions requiring confirmation by the Senate or both Houses of Congress. This system includes both former and current employees in these categories.

##### Categories of records in the system:

This system of records contains financial information such as: income from salaries, honoraria, dividends, rent, interest, trusts and capital gains; interest in property held in a trade or business or for investment or the production of income; income from the sale, exchange or purchase of real property or property such as stocks and bonds; gifts; reimbursements; liabilities in excess of \$10,000 owed to any creditor; copies of and documents relating to qualified blind trusts; information on positions held in private organizations and on agreements with private employees; and other documents that may be generated in the course of administering the Act.

##### Authority for maintenance of the system:

Pub. L. 95-521, Ethics in Government Act of 1978.

##### Purpose:

These records are maintained to meet the requirements of the Ethics in Government Act of 1978, Pub. L. 95-521 regarding the filing of financial status reports. Such statements and related records are required to assure compliance with the Act and to preserve and promote the integrity of public officials and institutions.

##### Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

These records and information in these records may be used:

a. To disclose any and all of the information furnished by the reporting official, in accordance with provisions of section 205 of the Ethics in Government Act of 1978, to any requesting person.

b. To disclose pertinent information to the appropriate Federal, State or local agency responsible for investigating, prosecuting, enforcing or imple-

menting a statute, rule, regulation, or order, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation.

c. To provide information to a congressional office from the record of an individual in response to an inquiry from that congressional office made at the request of that individual.

d. To disclose information to another federal agency or to a court when the Government is party to a judicial proceeding before the court.

e. By the Office of Personnel Management in the production of summary descriptive statistics and analytical studies in support of the function for which the records are collected and maintained, or for related work force studies. While published statistics and studies do not contain individual identifiers, in rare instances the selection of elements of data included in the study may be structured in such a way as to make the data individually identifiable by inference.

f. To disclose information to any source where necessary to obtain information relevant to a conflict-of-interest investigation or determination.

g. By the National Archives and Records Service (General Services Administration) in records management inspections conducted under authority of 44 U.S.C. 2904 and 2906.

h. To disclose information to the Office of Management and Budget at any stage in the legislative coordination and clearance process in connection with private relief legislation as set forth in OMB Circular No. A-19.

i. To disclose, in response to a request for discovery or for an appearance of a witness, information that is relevant to the subject matter involved in a pending judicial or administrative proceeding.

j. To disclose information to officials of the Office of the Special Counsel and the Merit Systems Protection Board when requested in performance of their authorized duties.

**Policies and practices for storing, retrieving, accessing, retaining and disposing of records in the system:**

**Storage:**

These records are maintained in file folders.

**Retrievability:**

These records are retrieved by the names of the individuals on whom they are maintained.

**Safeguards:**

These records are located in file cabinets to which only authorized personnel have access.

**Retention and disposal:**

These records are generally maintained for a period of six years after filing, except when filed by a nominee for an appointment requiring confirmation by the Senate where the nominee is not appointed and Presidential and Vice-Presidential candidates who are not elected. In these cases, the record is destroyed one year after the date the individual ceased being under Senate consideration for appointment or is no longer a candidate for office. Destruction is by shredding or burning.

**Systems manager(s) and address(es):**

The system managers are:

1. For records filed directly with the Office of Government Ethics, the systems manager is the Director, Office of Government Ethics, Office of Personnel Management, 1900 E Street, N.W., Washington, D.C. 20415; and

2. For records filed with designated agency ethics officers or the "Secretary concerned," the systems manager is: Agency Designated Ethics Officer, Headquarters, Department or Agency, Washington, D.C. (ZIP code).

3. For records filed with the Federal Election Commission by candidates for President or Vice President, the systems manager is the Staff Director, Federal Election Commission, 1325 K Street, N.W., Washington, D.C. 20463.

**Notification procedure:**

Individuals wishing to inquire whether this system of records contains information about them should contact the appropriate systems manager indicated above. Individuals must furnish the following information for their records to be located and identified:

a. Full name  
b. Department or agency and component with which employed or proposed to be employed.

**Records access procedures:**

Individuals wishing to request access to their records should contact the appropriate systems manager indicated above. Individuals must furnish the following information for their records to be located and identified:

a. Full name  
b. Department or agency and component with which employed or proposed to be employed.

Individuals requesting access to information not generally available to the public under the Act must also comply with OPM's Privacy Act regulations regarding verification of identity and access to records. (5 CFR 297.201 and 297.203).

**Contesting record procedures:**

Since the information in these records is updated on a periodic basis,

most record corrections can be handled through established administrative procedures for updated the records. However, individuals can obtain information on the procedures for contesting the records under the provisions of the Privacy Act by contacting the appropriate systems manager indicated above.

**Record source categories:**

Information in this system of records is provided by:

a. The subject individual or by a designated person such as a trustee, attorney, accountant, or relative;  
b. Federal officials who review the statements to make conflict-of-interest determinations.  
c. Persons alleging conflicts of interest and persons contacted during any investigation of the allegations.

**TRANSFER OF FUNCTION**

AGENCY: Civil Service Commission.

ACTION: Notice of transfer of functions.

**SUMMARY:** Under the President's Reorganization Plans No. 1 and 2 of 1978, designated functions of the Civil Service Commission are transferred to (1) the Equal Employment Opportunity Commission, (2) the Office of Personnel Management, (3) the Office of Special Counsel, and (4) the Federal Labor Relations Authority, effective January 1, 1979. Appellate and other adjudication functions and certain special studies functions will remain with the Civil Service Commission which on January 1, 1979, by redesignation, becomes the Merit Systems Protection Board. Under section 907(a) of title 5, United States Code (Reorganization Act of 1977), all regulations of the Civil Service Commission will remain in effect, except to the extent rescinded, modified, superseded or made inapplicable by the Plans, as regulations of the agencies succeeding to or performing these functions until amended by these agencies. Further, the Civil Service Reform Act provides that all rules and regulations affecting Federal service in effect on January 11, 1979, except as otherwise provided in the Act, shall continue in effect according to their terms, until modified, terminated, superseded, or repealed by the Office of Personnel Management, Merit Systems Protection Board, Equal Employment Opportunity Commission, and Federal Labor Relations Authority with respect to matters within their respective jurisdictions.

EFFECTIVE DATE: January 1, 1979.  
FOR FURTHER INFORMATION CONTACT:

Thomas F. Moyer, 202-632-5524.

Civil Service Commission.

JAMES C. SPRY,  
Executive Assistant  
to the Commissioners.

**DEPARTMENT OF COMMERCE**

Industry and Trade Administration

**COMPUTER PERIPHERALS, COMPONENTS AND RELATED TEST EQUIPMENT TECHNICAL ADVISORY COMMITTEE**

**Partially Closed Meeting**

Pursuant to Section 10(a)(2) of the Federal Advisory Committee Act, as amended, 5 U.S.C. App. (1976), notice is hereby given that a meeting of the Computer Peripherals, Components and Related Test Equipment Technical Advisory Committee will be held on Tuesday, January 23, 1979, at 9:30 a.m. in Room 5230, Main Commerce Building, 14th Street and Constitution Avenue, N.W., Washington, D.C.

The Computer Peripherals, Components and Related Test Equipment Technical Advisory Committee was initially established on January 3, 1973. On December 20, 1974, January 13, 1977 and August 28, 1978, the Assistant Secretary for Administration approved the recharter and extension of the Committee, pursuant to Section 5(c)(1) of the Export Administration Act of 1969, as amended, 50 U.S.C. App. Sec. 2404(c)(1) and the Federal Advisory Committee Act.

The Committee advises the Office of Export Administration with respect to questions involving (A) technical matters, (B) worldwide availability and actual utilization of production technology, (C) licensing procedures which affect the level of export controls applicable to computer peripherals, components and related test equipment, including technical data or other information related thereto, and (D) exports of the aforementioned commodities and technical data subject to multilateral controls in which the United States participates including proposed revisions of any such multilateral controls.

The Committee meeting agenda has four parts:

**GENERAL SESSION**

1. Opening remarks by the Chairman.
2. Presentation of papers or comments by the public.
3. Subcommittee reports:

- A. Foreign Availability;
- B. Memory and Media;
- C. Display and Terminals; and
- D. Export Regulations.

**EXECUTIVE SESSION**

4. Discussion of matters properly classified under Executive Order 11652 or 12065, dealing with the U.S. and COCOM control program and strategic criteria related thereto.

The General Session of the meeting is open to the public, at which a limited number of seats will be available. To the extent time permits members of the public may present oral statements to the Committee. Written statements may be presented at any time before or after the meeting.

With respect to agenda item (4), the Assistant Secretary of Commerce for Administration, with the concurrence of the delegate of the General Counsel, formally determined on September 6, 1978, pursuant to Section 10(d) of the Federal Advisory Committee Act, as amended by Section 5(c) of the Government in the Sunshine Act, Pub. L. 94-409, that the matters to be discussed in the Executive Session should be exempt from the provisions of the Federal Advisory Committee Act relating to open meetings and public participation therein, because the Executive Session will be concerned with matters listed in 5 U.S.C. 552b(c)(1). Such matters are specifically authorized under criteria established by an Executive Order to be kept secret in the interests of the national defense or foreign policy. All materials to be reviewed and discussed by the Committee during the Executive Session of the meeting have been properly classified under Executive Order 11652 or 12065. All Committee members have appropriate security clearances.

Copies of the minutes of the open portion of the meeting will be available upon written request addressed to the Freedom of Information Officer, Room 3012, Industry and Trade Administration, U.S. Department of Commerce, Washington, D.C. 20230.

For further information, contact Mr. Charles C. Swanson, Director, Operations Division, Office of Export Administration, Room 1617M, U.S. Department of Commerce, Washington, D.C. 20230, telephone: A/C 202-377-4196.

The complete Notice of Determination to close meetings or portions thereof of the series of meetings of the Computer Peripherals, Components and Related Test Equipment Technical Advisory Committee and of any subcommittees thereof, was published in the FEDERAL REGISTER on September 14, 1978 (43 FR 41071).

Dated: December 26, 1978.

RAUER H. MEYER,  
Director, Office of Export Administration, Bureau of Trade Regulation, U.S. Department of Commerce.

**TECHNOLOGY TRANSFER SUBCOMMITTEE OF THE COMPUTER SYSTEMS TECHNICAL ADVISORY COMMITTEE**

**Partially Closed Meeting**

Pursuant to Section 10(a)(2) of the Federal Advisory Committee Act, 5 U.S.C. App. (1976), notice is hereby given that a meeting of the Technology Transfer Subcommittee of the Computer Systems Technical Advisory Committee will be held on Wednesday, January 17, 1979, at 1:00 p.m. in Conference Room D, Main Commerce Building, 14th Street and Constitution Avenue, N.W., Washington, D.C.

The Computer Systems Technical Advisory Committee was initially established on January 3, 1973. On December 20, 1974, January 13, 1977, and August 28, 1978, the Assistant Secretary for Administration approved the recharter and extension of the Committee, pursuant to Section 5(c)(1) of the Export Administration Act of 1969, as amended, 50 U.S.C. App. Sec. 2404(c)(1) and the Federal Advisory Committee Act. The Technology Transfer Subcommittee of the Computer Systems Technical Advisory Committee was initially established on April 10, 1974. On July 8, 1975, the Director, Office of Export Administration, approved the reestablishment of this Subcommittee, pursuant to the charter of the Committee. And, on October 16, 1978, the Assistant Secretary for Industry and Trade approved the continuation of the Subcommittee pursuant to the charter of the Committee.

The Committee advises the Office of Export Administration with respect to questions involving (A) technical matters, (B) worldwide availability and actual utilization of production technology, (C) licensing procedures which affect the level of export controls applicable to computer systems, including technical data or other information related thereto, and (D) exports of the aforementioned commodities and technical data subject to multilateral controls in which the United States participates including proposed revisions of any such multilateral controls. The Technology Transfer Subcommittee was formed to examine the impact of transferring Automatic Data Processing technology to Communist destinations.

The Subcommittee meeting agenda has four parts:

#### GENERAL SESSION

- (1) Opening remarks by the Chairman.
- (2) Presentation of papers or comments by the public.
- (3) Review of possible future activities for the Subcommittee for 1979.

#### EXECUTIVE SESSION

- (4) Discussion of matters properly classified under Executive Order 11652 or 12065, dealing with the U.S. and COCOM control program and strategic criteria related thereto.

The General Session of the meeting is open to the public, at which a limited number of seats will be available. To the extent time permits, members of the public may present oral statements to the Subcommittee. Written statements may be submitted at any time before or after the meeting.

With respect to agenda item (4) the Assistant Secretary of Commerce for Administration, with the concurrence of the delegate of the General Counsel, formally determined on September 6, 1978, pursuant to Section 10(d) of the Federal Advisory Committee Act, as amended, by Section 5(c) of the Government in the Sunshine Act, P.L. 94-409, that the matters to be discussed in the Executive Session should be exempt from the provisions of the Federal Advisory Committee Act relating to open meetings and public participation therein, because the Executive Session will be concerned with matters listed in 5 U.S.C. 552b(c)(1). Such matters are specifically authorized under criteria established by an Executive Order to be kept secret in the interests of national defense or foreign policy. All materials to be reviewed and discussed by the Subcommittee during the Executive Session of the meeting have been properly classified under Executive Order 11652 or 12065. All Subcommittee members have appropriate security clearances.

Copies of the minutes of the open portion of the meeting will be available upon written request addressed to the Freedom of Information Officer, Industry and Trade Administration, Room 3012, U.S. Department of Commerce, Washington, D.C. 20230.

For further information, contact Mr. Charles C. Swanson, Director, Operations Division, Office of Export Administration, Industry and Trade Administration, Room 1617M, U.S. Department of Commerce, Washington, D.C. 20230, telephone: A/C 202-377-4198.

The complete Notice of Determination to close meetings or portions thereof of the series of meetings of the Computer Systems Technical Advisory Committee and of any subcom-

mittees thereof, was published in the **FEDERAL REGISTER** on September 14, 1978 (43 FR 41072).

Dated: December 26, 1978.

**RAUER H. MEYER,**  
Director, Office of Export Administration, Bureau of Trade Regulation, U.S. Department of Commerce.

##### National Technical Information Service GOVERNMENT-OWNED INVENTIONS Availability for Licensing

The inventions listed below are owned by the U.S. Government and are available for domestic and possibly foreign licensing in accordance with the licensing policies of the agency-sponsors.

Copies of the patents cited are available from the Commissioner of Patents & Trademarks, Washington, DC 20231, for \$.50 each. Requests for copies of patents must include the patent number.

Copies of the patent applications can be purchased from the National Technical Information Service (NTIS), Springfield, Virginia 22161 for \$4.00 (\$8.00 outside North American Continent). Requests for copies of patent applications must include the PAT-APPL number. Claims are deleted from patent application copies sold to the public to avoid premature disclosure in the event of an interference before the Patent and Trademark Office. Claims and other technical data will usually be made available to serious prospective licensees by the agency which filed the case.

Requests for licensing information on a particular invention should be directed to the address cited for the agency-sponsor.

**DOUGLAS J. CAMPION,**  
Patent Program Coordinator,  
National Technical Information Service.

U.S. Department of the Air Force, AF/Jacp, 1900 Half Street, SW., Washington, D.C. 20324.

Patent application 921,139: High Specific Strength Polycrystalline Titanium-Based Alloys, filed June 30, 1978.

Patent application 922,603: Control Cable Fail Safe Device, filed July 7, 1978.

Patent application 992,604: Magazine for Glass Photographic Plates, filed July 7, 1978.

Patent 4,090,672: Aluminum Base Brazing Alloy, filed December 29, 1976, patented May 23, 1978. Not available NTIS.

##### COMMITTEE FOR PURCHASE FROM THE BLIND AND OTHER SEVERELY HANDICAPPED

#### PROCUREMENT LIST 1979

##### Proposed Additions

AGENCY: Committee for Purchase from the Blind and Other Severely Handicapped.

ACTION: Proposed Additions to Procurement List.

SUMMARY: The Committee has received proposals to add to Procurement List 1979 commodities to be produced by and a service to be provided by workshops for the blind or other severely handicapped.

COMMENTS MUST BE RECEIVED ON OR BEFORE: January 31, 1979.

ADDRESS: Committee for Purchase from the Blind and Other Severely Handicapped, 2009 14th Street North, Suite 610, Arlington, Virginia 22201.

FOR FURTHER INFORMATION CONTACT:

C. W. Fletcher (703) 557-1145.

SUPPLEMENTARY INFORMATION: This notice is published pursuant to 41 U.S.C. 47(a)(2), 85 Stat. 77.

If the Committee approves the proposed additions, all entities of the Federal Government will be required to procure the commodities and the service listed below from workshops for the blind or other severely handicapped.

It is proposed to add the following commodities and service to Procurement List 1979, November 15, 1978 (42 FR 53151):

#### CLASS 7105

##### PROCUREMENT LIST 1979

##### Deletions

AGENCY: Committee for Purchase from the Blind and Other Severely Handicapped.

ACTION: Deletions from Procurement List.

SUMMARY: This action deletes from Procurement List 1979 commodities produced by workshops for the blind or other severely handicapped.

EFFECTIVE DATE: December 29, 1978.

ADDRESS: Committee for Purchase from the Blind and Other Severely Handicapped, 2009 14th Street North, Suite 610, Arlington, Va. 22201.

FOR FURTHER INFORMATION CONTACT:

C. W. Fletcher, 703-557-1145.

SUPPLEMENTARY INFORMATION: On November 3, 1978 the Committee for Purchase from the Blind and Other Severely Handicapped published notices (43 FR 51445) of proposed deletions from Procurement List 1979, November 15, 1978 (43 FR 53151).

After consideration of the relevant matter presented, the Committee has determined that the commodities listed below are no longer suitable for procurement by the Federal Government under 41 U.S.C. 46-48c, 85 Stat. 77.

Accordingly, the following commodities are hereby deleted from Procurement List 1979:

##### CONSUMER PRODUCT SAFETY COMMISSION

##### FINANCIAL COMPENSATION OF PARTICIPANTS IN INFORMAL RULEMAKING PROCEEDINGS

##### Delegation of Authority

AGENCY: Consumer Product Safety Commission.

ACTION: Delegation of authority.

SUMMARY: Under an interim regulation, the Commission will be administering a temporary program of financial compensation for participants in its informal rulemaking proceedings. The Commission has delegated to a special selection committee the authority to decide who will receive such funding. The Commission has retained the authority to decide in which informal proceedings it will solicit applications for funding.

DATES: The delegation of authority became effective on December 11, 1978.

FOR FURTHER INFORMATION CONTACT:

Catherine Bolger, Office of Public Participation, Consumer Product Safety Commission, Washington, D.C. 20207; telephone (202) 254-6241.

SUPPLEMENTARY INFORMATION: On May 31, 1978 the Commission issued an interim regulation concerning the financial compensation of participants in the Commission's informal rulemaking proceedings (16 CFR Part 1050, 43 FR 23560-64). This regulation contains the policies and procedures for the Commission's temporary financial compensation program.

Under the regulation the Commission selects certain proceedings in which to solicit applications for funding. The Commission then authorizes funding for certain participants, all of whom must meet the criteria included in the regulation.

The Commission has recently delegated some of its authority over the financial compensation temporary program. A special Financial Compensation Selection Committee—comprised of the General Counsel, the Executive Director, and the Secretary of the Commission—will select the participants and the amount of funding they will be authorized to receive. The Commission has not delegated its authority for selection of proceedings.

The delegation document, fully reprinted below, details the authority delegated to the special selection committee and the authority retained by the Commission. It will remain in effect until the Commission changes it.

#### DELEGATION OF AUTHORITY FOR FUNDING SELECTED PARTICIPANTS IN INFORMAL RULEMAKING PROCEEDINGS

1. **Purpose.** The purpose of this order is to delegate the Commission's authority to decide which participants in informal rulemaking proceedings will be authorized to receive financial compensation from the Commission.

2. **Scope.** The provisions of this order apply to the Financial Compensation Selection Committee.

3. **References.** Section 27(b)(9) of the Consumer Product Safety Act (15 U.S.C. 2076(b)(9)).

4. **Delegation of authority.** In an interim regulation (16 CFR Part 1050) the Commission has issued its policies and procedures for providing financial compensation to selected participants in its informal rulemaking proceedings. In this order the Commission is delegating some of the authority it has under that regulation to a Financial Compensation Selection Committee. Unless and until superseded by subsequent order, this delegation is delegated as follows:

(a) The General Counsel, the Executive Director, and the Secretary of the Commission will be members of a Financial Compensation Selection Committee ("Committee"). If any or all of these positions are vacant, whoever is filling the position(s) on an acting basis will be a member of the Committee. Whenever a member is unable to function on the Committee, he or she may designate a subordinate to serve temporarily as a member of the Committee.

(b) While serving on the Committee, all members will follow the applicable provisions of the interim regulation and their own judgments. Although the members normally report to the Chairman of the Commission and serve all the Commissioners, they will make all Committee decisions independent of any instructions or recommendations from the chairman or Commissioners.

(c) All actions of the Committee must be supported by at least two members.

(d) The committee will evaluate all applications (including late applications, described in § 1050.6(a)(4), to the extent practicable) for financial compensation in informal rulemaking proceedings and will authorize funding for selected participants who meet the criteria of § 1050.4(b). The Committee will then notify participants whether they have or have not been authorized funding, in accordance with §§ 1050.6(a)(3) and 1050.6(b).

(e) The amounts of funding authorized will be in accordance with § 1050.7(b), (d), and (e).

5. **Retention of authority.** The Commission retains all of the authority under the interim regulation that is not delegated to the Committee by this order. In particular, the Commission will select those proceedings in which to solicit applications for funding; approve the FEDERAL REGISTER document which notifies the public of those proceedings; and set the deadline for receipt of applications (§ 1050.6(a) (1) and (2)). Further, the Commission specifically retains the authority to establish a limit on the total amount of financial compensation to be made to all participants in a particular proceeding and to establish a limit on the total amount of compensation to be made to any one participant in a particular proceeding (§ 1050.7(a)). Such limitations must be established before the Committee authorizes any funding in a particular proceeding.

6. **Redelegation.** The authority delegated to the Financial Compensation Selection Committee in this order may not be redelegated.

7. **Effective date.** This delegation shall become effective on December 11, 1978.

#### DEPARTMENT OF DEFENSE

Department of the Navy

#### CHIEF OF NAVAL OPERATIONS EXECUTIVE PANEL ADVISORY COMMITTEE, COMMAND, CONTROL AND COMMUNICATIONS SUB-PANEL

##### Closed Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (5 U.S.C. App. I), notice is hereby given that the Command, Control and Communications Sub-Panel of the Chief of Naval Operations (CNO) Executive Panel Advisory Committee will meet on January 17-18, 1979, at the Pentagon, Washington, D.C. Sessions of the meeting will commence at 8:30 a.m. and terminate at 5:30 p.m. on both days. All sessions of the meeting will be closed to the public.

The entire agenda will be devoted to discussions of United States and Soviet weapons, sensors, and concepts of operations, and related intelligence. The agenda will consist of classified information that is specifically authorized by Executive order to be kept secret in the interest of national defense and is, in fact, properly classified pursuant to such Executive order. Accordingly, the Secretary of the Navy has determined in writing that the public interest requires that all sessions of the meeting be closed to the public because they will be concerned with matters listed in section 552b (c)(1) of title 5, United States Code.

For further information concerning this meeting, contact Commander Robert B. Vosilus, USN, Executive Secretary of the CNO Executive Panel Advisory Committee, 1401 Wilson Boulevard, Room 405, Arlington, VA 22029, telephone number (202) 694-3191.

Dated: December 21, 1978.

P. B. WALKER,  
*Captain, JAGC, U.S. Navy,*  
*Deputy Assistant Judge Advocate General (Administrative Law).*

#### SECRETARY OF THE NAVY'S ADVISORY BOARD ON EDUCATION AND TRAINING (SABET)

##### Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (5 U.S.C., App. I), notice is hereby given that the Secretary of the Navy's Advisory Board on Education and Training (SABET), will meet on January 31—February 1, 1979, at the headquarters

of the Chief of Naval Education and Training, Pensacola, Florida. Sessions of the meeting will commence at 8:30 a.m. each day and terminate at 5:00 p.m. on January 31, and terminate at 12:00 noon on February 1, 1979.

The Board will receive an update on a number of programs of continuing interest to the Board, including the SABET Subcommittee report on professional military education, the development of executive level management skills, and an overview of civilian personnel reorganization. In addition, the Board will receive a Job Oriented Basic Skills (JOBS) Training Brief. The Board will then consider and discuss SABET's involvement in order to provide recommendations to the Secretary of the Navy.

For further information concerning this meeting, contact: Dr. M. Frances Kelly, Assistant Branch head, professional Education (OP-130T), 800 North Quincy Street, Arlington, VA 22203, telephone number: (202) 694-5643.

Dated: December 21, 1978.

P. B. WALKER,  
*Captain, JAGC, U.S. Navy,*  
*Deputy Assistant Judge Advocate General (Administrative Law).*

#### DEPARTMENT OF ENERGY

Economic Regulatory Administration

#### FUEL OIL MARKETING ADVISORY COMMITTEE

##### Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Public Law 92-463, 86 Stat. 770), notice is hereby given that the Fuel Oil Marketing Advisory Committee and Ad Hoc Subcommittee will meet Monday, January 22, 1979, and Tuesday, January 23, 1979, in the Executive Tower, 1405 Curtis Street, Denver, Colorado.

The Committee was established to provide the Secretary of Energy with expert and technical advice concerning the marketing of fuel oil as it relates to the development and implementation of policies and programs by the Department of Energy.

The tentative agenda for the meetings is as follows:

MONDAY, JANUARY 22, 1979

Ad Hoc Subcommittee—Tower Room—9:00 a.m. to 1:00 p.m. Consideration of programs to alleviate higher costs of energy for low-income persons.

TUESDAY, JANUARY 23, 1979

Full Committee—Gold Room—9:00 a.m. to 5:00 p.m.

- Old Business
- Advisory Committee Guidelines
- Report of the Ad Hoc Subcommittee
- Report Regarding SBA Assistance
- Report from Natural Gas Committee
- Residual Fuel Oil Marketers Committee Report

- New Business
- Remarks from Floor (10 minute rule)

The meetings are open to the public. The Chairperson of the Committee is empowered to conduct the meetings in a fashion that will, in his judgment, facilitate the orderly conduct of business. Any member of the public who wishes to file a written statement with the Committee will be permitted to do so, either before or after the meetings. Members of the public who wish to make oral statements pertaining to agenda items should inform Georgia Hildreth, Director, Advisory Committee Management Office (202) 252-5187, at least 5 days prior to the meetings and reasonable provision will be made to include their presentation on the agenda.

Transcripts of the meetings will be available for public review at the Freedom of Information Public Reading Room, Room GA-152, Forrestal Building, 1000 Independence Avenue, S.W., Washington, D.C. between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays. Any person may purchase a copy of the transcripts from the reporter.

Issued at Washington, D.C. on December 26, 1978.

TINA C. HOBSON,  
*Director, Office of Consumer Affairs.*

[6450-01-M]

[ERA Docket Nos. 56516-6081-01, -02]

Stony Brook Phase I Project; Massachusetts Municipal Wholesale Electric Co.

##### Petition and Public Hearing

AGENCY: Economic Regulatory Administration, Department of Energy.

ACTION: Notice of petition and public hearing.

SUMMARY: On November 27, 1978, the Massachusetts Municipal Wholesale Electric Company (MMWEC) petitioned the Economic Regulatory Administration (ERA) of the Department of Energy (DOE) for a determination, to be made prior to December 15, 1978, (1) whether or not MMWEC's Stony Brook Phase I Project powerplants are "new" or "existing" within the meaning of Section 103(a) of the Powerplant and Industrial Fuel Use Act of 1978, Pub. L. 95-620 (FUA) and (2) if determined by the ERA to be "new", whether pursuant to Section 902 of FUA, such powerplants qualify for any

exemptions from the prohibitions of Title II of FUA applicable to new facilities. The ERA has issued a Tentative Decision and Order in this matter, granting in part and denying in part, MMWEC's petition. The purpose of this Notice is to invite interested persons to submit written comments on this matter prior to the issuance of a Final Decision and Order by ERA. In accordance with the requirements of Section 701 of FUA, any interested party, including the DOE, may request that a public hearing be held on this matter.

DATES: Written comments and/or requests for a public hearing are due on or before February 21, 1979.

ADDRESS: Requests for a public hearing and/or 10 copies of written comments shall be submitted to: Office of Public Hearing Management, ERA Docket Nos. 56516-6081-01, -02, Department of Energy, 2000 M Street, NW., Room 2313, Washington, D.C. 20461.

#### FOR FURTHER INFORMATION CONTACT:

William L. Webb (Office of Public Information), Economic Regulatory Administration, Department of Energy, 2000 M Street, NW., Room B-110, Washington, D.C. 20461, Phone: (202) 634-2170.

Barton House (Fuels Regulation Program Office), Economic Regulatory Administration, Department of Energy, 2000 M Street, NW., Room 6010, Washington, D.C. 20461, Phone: (202) 254-3965.

James H. Heffernan (Office of the General Counsel), Department of Energy, 12th and Pennsylvania Avenue, NW., Room 6144, Washington, D.C. 20461, Phone: (202) 633-9236.

SUPPLEMENTARY INFORMATION: MMWEC is a subdivision of the Commonwealth of Massachusetts formed in 1975 to serve as an agent for participating municipal electric utility systems for the development of a municipal power supply program. The Massachusetts Legislature has authorized MMWEC to issue tax exempt revenue bonds and to participate in the New England Power Pool.

MMWEC plans to build five powerplants on 471 acres of land adjacent to the Westover Air Force Base, in Ludlow, Massachusetts, to be designated as the Stony Brook Energy Center, to supply the peak and intermediate load power needs of 31 municipal electric departments and systems. The powerplants which constitute MMWEC's Phase I Project are to have a total rated generating capacity of approximately 511 MW. The Phase I Project will consist of two oil-fired

simple-cycle combustion turbine peaking units (together equalling 170 MW) and a combined-cycle intermediate unit composed of three oil-fired combustion turbines which will exhaust into three heat recovery steam generators and one steam turbine (together yielding 341 MW net). These units are scheduled to be operated on No. 2 home heating oil and to start commercial operation in 1981. Approximately 4.7 miles of 345-KV transmission line will be installed to connect the Stony Brook Energy Center to the New England Power Pool transmission system.

On November 27, 1978, pursuant to Section 902(a) of FUA, MMWEC requested the ERA to determine, prior to December 15, 1978, (1) whether MMWEC's Phase I/Project powerplants are "new" or "existing" within the meaning of Section 103(a) of FUA, and (2) if determined to be "new" whether these powerplants qualify for any exemption under Title II of FUA.

In accordance with MMWEC's request for an expedited determination, ERA issued a Tentative Decision and Order pursuant to Sections 902 and 103 of FUA on December 14, 1978. ERA's action at that time was described as "tentative" to permit full compliance with Section 102 of the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. 4321 *et seq.* This Tentative Decision and Order may be amended or revised pending completion of the NEPA requirements and the administrative process under Section 701 of FUA.

In the Tentative Decision and Order, ERA determined that MMWEC's Phase I Project powerplants must be classified as "new" facilities under the criteria set forth in Section 103(a) of FUA as implemented by the Interim Rule governing "transitional facilities" published at 43 FR 54912, and that the powerplants are therefore subject to the prohibitions of Section 201 of FUA. ERA also decided that the evidence presented by MMWEC did not warrant a determination that the intermediate load unit planned for the Phase I Project qualifies for any exemption under Title II of FUA. ERA's Tentative Decision and Order denied MMWEC's request for an exemption for this unit without prejudice to future petitions for exemption. Subject to compliance with certain terms and conditions enumerated in the Tentative Decision and Order, and pursuant to Section 902 of FUA, ERA granted MMWEC's two Phase I Project simple-cycle peaking units an exemption under the provisions of Section 212(g) from the prohibitions of Section 201 of FUA, upon certification by officials of MMWEC that neither of the two units will be operated in excess of 1500 hours annually.

ERA hereby invites MMWEC, the people of the Commonwealth of Massachusetts and all other interested parties, in accordance with the requirements of Section 701, to submit written comments on this matter. Pending the completion of the environmental review under the National Environmental Policy Act of 1969, as required by FUA, and prior to the issuance of a Final Decision and Order by ERA, interested parties, including the DOE, may also request a public hearing or an informal conference with the ERA on this matter. A notice of a public hearing, if requested, will be published in the FEDERAL REGISTER.

In accordance with the provisions of Section 701, copies of MMWEC's petition has been transmitted to the Environmental Protection Agency and to the Federal Trade Commission for the purpose of affording those agencies an opportunity for comment and notices have been provided to the appropriate state agencies.

The public file, containing MMWEC's petition materials and ERA's Tentative Decision and Order is available for inspection upon request at the following locations and at the following times:

##### Office of Energy Technology FOSSIL ENERGY ADVISORY COMMITTEE Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Public Law 92-463, 86 Stat. 770), notice is hereby given that the Fossil Energy Advisory Committee will meet Thursday, January 18, 1979, at 9:00 a.m., in the Commonwealth Ballroom at the Marriott Twin Bridges Hotel, Route 1 and Interstate I-95, Arlington, Virginia.

The purpose of the committee is to provide the Department of Energy with advice in developing through research, new and more efficient methods of mining, preparing and utilizing coal.

The following topics will be discussed: Direct Combustion of Coal, Flue Gas Cleanup, Fluidized Bed Combustion, Economic Comparisons, and Environmental Regulations. Copies of the agenda will be available at the meeting.

The meeting is open to the public. The Chairperson of the Committee is empowered to conduct the meeting in a fashion that will, in his judgment, facilitate the orderly conduct of business. Any member of the public who wishes to file a written statement with the Committee will be permitted to do so, either before or after the meeting. Members of the public who wish to make oral statements pertaining to agenda items should inform Georgia Hildreth, Director, Advisory Committee Management Office (202) 252-5187, at least 5 days prior to the meeting and reasonable provision will be made to include their presentation on the agenda.

Transcripts of the meeting will be available for public review at the Freedom of Information Public Reading Room, Room GA-152, Forrestal Building, 1000 Independence Avenue, S.W., Washington, D.C. between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays. Any person may purchase a copy of the transcripts from the reporter.

Issued at Washington, D.C. on December 26, 1978.

TINA C. HOBSON,  
Director,  
Office of Consumer Affairs.

##### Federal Energy Regulatory Commission

(Docket No. CP79-97)

##### COLUMBIA GULF TRANSMISSION CO. AND COLUMBIA GAS TRANSMISSION CORP.

##### Application

DECEMBER 21, 1978.

Take notice that on December 1, 1978, Columbia Gulf Transmission Company (Columbia Gulf), P.O. Box 683, Houston, Texas 77001, and Columbia Gas Transmission Corporation (Columbia Gas), P.O. Box 1273, Charleston, West Virginia 25325, filed in Docket No. CP79-97 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the exchange of natural gas produced offshore Louisiana with Gulf Oil Corporation (Gulf), all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicants state that Gulf has gas available in Blocks 313, 314, and 331, Eugene Island Area, offshore Louisiana, where Columbia Gulf has facilities through which it can accept deliveries for the account of Columbia Gas. Columbia Gas is said to have available gas in Block 497, West Cameron Area, offshore Louisiana, which can be delivered for Gulf's account to Texas Eastern Transmission Corporation (Texas Eastern) in East Cameron Area, offshore Louisiana, or other mutually agreeable point.

The application states that Columbia Gulf would construct facilities from Block 479 West Cameron Area, to Block 480, West Cameron Area, pursuant to budget-type authorization and would deliver Columbia Gas's Block 479 gas to Texas Eastern, Transcontinental Gas Pipe Line Corporation, and Northern Natural Gas Company which would transport the gas for Columbia Gas through existing facilities for delivery to Texas Eastern in Block 245, East Cameron Area, for the account of Gulf.

Applicants propose to engage in an exchange of natural gas with Gulf to enable Columbia Gas and Gulf to receive gas from areas where they do not have facilities. Applicants and Gulf would exchange up to 15,000 Mcf gas per day on a thermal basis.

Any person desiring to be heard or to make any protest with reference to said application should on or before January 12, 1979, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to

intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

[FR Doc. 78-36310 Filed 12-28-78; 8:45 am]

#### [6740-02-M]

[Docket NOs. CS71-702, *et al.*]

##### FIRST CITY NATIONAL BANK OF HOUSTON, ET AL.

##### Applications for "Small Producer" Certificates<sup>1</sup>

DECEMBER 21, 1978.

Take notice that each of the Applicants listed herein has filed an application pursuant to Section 7(c) of the natural Gas Act and Section 157.40 of the regulations thereunder for a "small producer" certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce, all as more fully set forth in the applications which are on file with the Commission and open to public inspection.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 10 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before January 2, 1979, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on all

<sup>1</sup>This notice does not provide for consolidation for hearing of the several matters covered herein.

applications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the commission in its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

## Application

DECEMBER 21, 1978.

Take notice that on November 30, 1978, Michigan Wisconsin Pipe Line Company (Applicant), One Woodward Avenue, Detroit, Michigan 48226, filed in Docket No. CP79-95 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation of natural gas for Southern Natural Gas Company (Southern) to enable Southern to receive gas produced offshore Louisiana, all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant proposes to receive from High Island Offshore System in Block 167, West Cameron Area, offshore Louisiana, up to 20,000 Mcf of natural gas per day for the account of Southern from production in Block 352, West Cameron Area, and to deliver equivalent volumes to Southern at an existing interconnection at Southern's Shadyside compressor station in St. Mary Parish, Louisiana. Applicant would charge monthly \$1.55 cents per Mcf times the contract demand of 20,000 Mcf of gas. The instant service is proposed to enable Southern to receive a supply of gas remote from its system.

Any person desiring to be heard or to make any protest with reference to said application should on or before January 12, 1979 file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter

finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

## [6740-02-M]

[Docket No. CP79-104]

## MIDWESTERN GAS TRANSMISSION CO.

## Application

DECEMBER 21, 1978.

Take notice that on December 7, 1978, Midwestern Gas Transmission Company (Applicant), P.O. box 2571, Houston, Texas 77001, filed an application in Docket No. CP79-104 pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing Applicant to install and operate certain natural gas compressors and related facilities, all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant states that it has filed in Docket No. CP79-22 for authorization to transport natural gas for Tennessee Gas Pipeline Company, a Division of Tenneco Inc. In order to render such service, Applicant states that it must add 3,540 horsepower to three of its existing compressor stations located in Ohio County, Kentucky, Pike County, Indiana, and Edgar County, Illinois, and construct a new compressor station of 9,100 horsepower in Sullivan County, Indiana. The estimated cost for the proposed facilities would be \$12,444,000, which would initially come from Applicant's general fund or bank loans.

Any person desiring to be heard or to make any protest with reference to said application should on or before January 12, 1979, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the

proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

## [6740-02-M]

[Docket No. CP79-108]

## MONTANA-DAKOTA UTILITIES CO.

## Application

DECEMBER 21, 1978.

Take notice that on December 9, 1978, Montana-Dakota Utilities Co. (Applicant), 400 North Fourth Street, Bismarck, North Dakota 58501, filed an application in Docket No. CP79-108 pursuant to section 7(c) of the Natural Gas Act and § 157.7(b) of the Commission's Regulations thereunder (18 CFR 157.7(b)) for a certificate of public convenience and necessity authorizing Applicant to construct, during the 12-month period commencing April 1, 1979, and operate gas-purchase facilities to enable Applicant to take into its system natural gas which would be purchased from producers or other similar sellers, all as more fully set forth in the application on file with the Commission and open to public inspection.

The stated purpose of this budget-type application is to augment Applicant's ability to act with reasonable dispatch in connecting to its pipeline system supplies of natural gas which may become available from various producing areas generally coextensive with its pipeline system or the systems

of other pipeline companies which may be authorized to transport gas for the account of or exchange gas with Applicant.

Applicant states that the total cost of the proposed gas-purchase facilities would not exceed \$3,250,000, with the cost of no single project to exceed \$812,500, which cost Applicant would finance with internally generated funds and/or interim short-term loans.

Any person desiring to be heard or to make any protest with reference to said application should on or before January 12, 1979, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

## [6740-02-M]

[Docket No. CP79-111]

## NORTHERN NATURAL GAS CO.

## Application

DECEMBER 21, 1978.

Take notice that on December 8, 1978, Northern Natural Gas Company (Applicant), 2223 Dodge Street, Omaha, Nebraska 68102, filed an application in Docket No. CP79-111 pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon certain gas measuring facilities, all as more fully set forth in the application on file with the Commission and open to public inspection.

The application states that a gas measuring facility in the village of Pender, Nebraska, is no longer necessary because the sole user of the gas measured by the facility has ceased operations. Consequently, the village of Pender requested Applicant to remove and dismantle the facility. Applicant states that the proposed abandonment would have no effect on its other customers.

Any person desiring to be heard or to make any protest with reference to said application should on or before January 12, 1979, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

[6740-02-M]

[Docket No. CP79-93]

PANHANDLE EASTERN PIPE LINE CO. AND  
TRUNKLINE GAS CO.

Application

DECEMBER 21, 1978.

Take notice that on December 1, 1978 Panhandle Eastern Pipe Line Company (Panhandle) and Trunkline Gas Company (Trunkline), 3000 Bissonnet, Houston, Texas 77001 (Applicants), filed in Docket No. CP79-98 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing Applicants to transport gas for Mississippi River Transmission Company (MRT), all as more fully set forth in the application on file with the Commission and open to public inspection.

The following numbered paragraphs contain statements related in the application:

(1) MRT and ANR Storage Company (ANR), have entered into a 15-year natural gas storage agreement (storage agreement). The storage agreement provides that during each summer period (April 1 through October 31) MRT would cause to be delivered up to 3,053,000 Mcf of natural gas to ANR for storage, and during each winter period (November 1 through April 30) ANR would make thermally equivalent volumes of gas available for redelivery to MRT.

(2) MRT and Applicants, on October 12, 1978, entered into a 15-year transportation agreement (transportation agreement), commencing in April 1980, to provide part of the transportation service MRT would require to transport its gas to and from ANR's storage fields.

(3) The transportation agreement provides that:

(a) During each summer period Trunkline would reduce its existing deliveries to MRT in Clay County, Illinois, by a daily rate of up to 15,265 Mcf of natural gas, plus 2.5 percent for compressor fuel, not to exceed 3,053,000 Mcf in any one summer period, and deliver such volumes to Panhandle at Tuscola, Illinois;

(b) Panhandle would deliver those volumes to Michigan Wisconsin Pipe Line Corporation (M-W) for the account of MRT at an existing point of

interconnection between Panhandle's and M-W's systems in Defiance County, Ohio.

(c) Panhandle would receive from M-W, in each winter period, that daily amount of gas as MRT may request, and Trunkline would make daily deliveries of thermally equivalent volumes to MRT in Clay County, Illinois.

(d) For such transportation service, Applicants would charge a \$40,906 monthly fee for each month during the Summer Period, April through October, at a unit rate of 9.15 cents per Mcf. For gas redelivered to MRT during the Winter Period, November through April, MRT would pay to Panhandle a charge of 2.50 cents per Mcf. Panhandle would reimburse Trunkline 2.50 cents per Mcf for gas delivered during the Summer Period and 2.50 cents per Mcf for gas redelivered during the Winter Period through Trunkline's facilities.

Any person desiring to be heard or to make any protest with reference to said application should on or before January 12, 1979, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to

appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

[6740-02-M]

[Docket No. CP79-105]

PANHANDLE EASTERN PIPE LINE CO.

Application

DECEMBER 21, 1978.

Take notice that on December 7, 1978, Panhandle Eastern Pipe Line Company (Applicant), P.O. Box 1642, Houston, Texas 77001, filed an application in Docket No. CP77-105 pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing Applicant to transport natural gas for Kokomo Gas and Fuel Company (Kokomo), an existing resale customer of Applicant, all as more fully set forth in the application on file with the Commission and open to public inspection.

The application states that Applicant and Kokomo, on September 15, 1978, entered into an agreement pursuant to which Applicant agreed to transport for Kokomo 500 Mcf of gas per day on a firm basis, and up to 300 Mcf per day on a best efforts basis, from an existing point of interconnection between the pipeline systems of Applicant and Northern Natural Gas Company in Kiowa County, Kansas, to an existing point of interconnection between Applicant's and Kokomo's systems in Tipton, Indiana. The gas subject to the agreement would be purchased from Cabot Corporation in Texas County, Oklahoma.

The agreement's proposed monthly rate for such service would be \$3,090, with upward or downward adjustments of 20.33 cents per Mcf if the transported volumes vary from the firm amount of 500 Mcf per day. It is stated that Kokomo would reimburse Applicant 10 percent of the volumes transported to account for fuel use and loss. Further, Applicant states that it has received, as partial consideration for the proposed transportation service, the option to purchase at its Kiowa County receipt point whatever volumes of gas transported under the agreement that Kokomo does not need. The price to be paid for such sales would be the applicable area rate as determined by the Commission, plus any additional charges attributable to transporting the gas to Applicant. It is indicated.

Applicant states that it has sufficient excess capacity within its system to render the proposed service without adversely affecting its other custom-

ers. The application further states that the proposed service is the most efficient and economical way of transporting Kokomo's Texas County gas.

Any person desiring to be heard or to make any protest with reference to said application should on or before January 12, 1979, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

[FR Doc. 78-36316 Filed 12-28-78; 8:45 am]

[6740-02-M]

[Docket No. CP77-625]

RMNG GATHERING CO.

Petition To Amend

DECEMBER 21, 1978.

Take notice that, on December 4, 1978, RMNG Gathering Co. (RMNG), 420 Capitol Life Center, 1600 Sherman Street, Denver, Colorado 80203, filed in Docket No. CP77-625 a petition to amend the order issued December 6, 1977, in the same docket (order), to authorize the expansion of the transportation for and exchange of natural gas with Northwest Pipeline Corporation

(Northwest), all as more fully set forth in the petition which is on file with the Commission and open to public inspection.

The following numbered paragraphs relate statements made in the instant Petition to Amend:

(1) RMNG was authorized in the order to transport for and exchange gas with Northwest pursuant to a gas transportation and exchange agreement dated February 2, 1977 (agreement). RMNG filed its first petition to amend the order on June 22, 1978, to request authorization for the transportation and exchange of natural gas from additional sources, pursuant to amendments to the agreement dated September 12, 1977, and February 20, 1978.

(2) RMNG and Northwest have further amended their agreement to increase the number of gas sources covered in their agreements. Specifically, the additional wells are, by date of the amendment:

- (a) June 21, 1978—Texas Gas Exploration Nos. 43-3, 43-4, and 22-9, Garfield County, Colorado.
- (b) July 18, 1978—Culver Gov't No. 1, Mesa County, Colorado, and Federal 2-3-8-104, Garfield County, Colorado.
- (c) October 3, 1978—Palmer Federal Nos. 6-3, 6-13, and 18-2, Garfield County, Colorado.
- (d) October 5, 1978—Palmer Federal Nos. 5-3 and 29-16, Garfield County, Colorado; Palmer Federal No. 33-13, Grand County, Utah.
- (e) October 6, 1978—Ferguson No. 3-9, Garfield County, Colorado.

(3) RMNG and Northwest, on October 4, 1978, amended their agreement to reflect the addition of certain acreages which would be subject to the agreement; these acreages are located in Grand County, Utah, and Garfield County, Colorado.

(4) The transportation charge of 8.0 cents per Mcf of gas which RMNG is presently authorized to receive from Northwest would remain the same for the additional volumes of gas from the wells listed in paragraph (2) above.

(5) The wells listed in paragraph (2) above are expected to increase the deliveries to Northwest for exchange by RMNG from 950 to 4,380 Mcf of gas per day.

(6) Northwest would construct any necessary jurisdictional facilities pursuant to the budget-type certificate authorization issued to it in Docket No. CP77-507.

RMNG seeks an amendment to the order to authorize the transportation and exchange of natural gas pursuant to the agreement, as amended on June 21, July 18, October 3, 4, 5, and 6, 1978.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before January 12, 1979, file with the Federal Energy Regulatory Commis-

sion, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,  
Secretary.

[FR Doc. 78-36317 Filed 12-28-78; 8:45 am]

[6740-02-M]

[Docket No. CP79-102]

SOUTHERN CALIFORNIA LNG TERMINAL CO.

Application

DECEMBER 21, 1978.

Take notice that on December 4, 1978, Southern California LNG Terminal Company (SoCal), 523 West Sixth Street, Los Angeles, California 90014, filed in Docket No. CP79-102 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction of liquefied natural gas (LNG) terminal facilities at Deer Canyon, Ventura County, California, as more fully set forth in the application on file with the Commission and open for public inspection.

The following numbered paragraphs contain statements related in the application:

(1) SoCal has received assured commitments of LNG delivery from Ecuador in excess of the vaporous equivalent of 5,000,000 Mcf per day and from Saudi Arabia of the vaporous equivalent of 1,500,000 Mcf per day. SoCal anticipates LNG deliveries from Indonesia of the vaporous equivalent of 546,000 Mcf per day, the amount previously committed by that country to the United States. SoCal also anticipates deliveries of Alaska LNG in the volumes to be released for delivery to California, in the event LNG is forthcoming from Alaska.

(2) SoCal proposes to construct and operate at Deer Canyon, Ventura County, California, facilities to receive, unload, store, vaporize and transport imported and/or domestic LNG. These facilities are:

(a) *Terminal facilities*, which would have the capability of receiving, unloading, storing, and vaporizing LNG transported by ship to Deer Canyon.

This facility would have an initial daily capacity of 1,300,000 Mcf of natural gas with a daily peaking capacity of an additional 300,000 Mcf. The design contemplates expansion to a daily capacity of 5,000,000 Mcf, and an additional daily peaking capacity of 1,000,000 Mcf.

(b) *Pipeline facilities*, which would consist of 62.5 miles of 32-inch pipeline to be constructed from Deer Canyon to the existing facilities of other pipeline systems. Although existing pipeline facilities would be utilized to the greatest extent possible, SoCal anticipates that some additional pipeline facilities may be required, for which additional filings would be made.

(3) Western LNG Terminal Associates has now pending in Docket No. CP75-10 an application similar to that requested herein for authorization to construct and operate an LNG terminal at Point Conception, California.

SoCal has not yet stated the estimated cost of the proposed facility.

SoCal proposes to offer its services to all qualified companies having potentially viable LNG projects if those companies desire to avail themselves of such services, subject to obtaining requisite regulatory authorizations and the ability to finance the facilities required.

SoCal states that it seeks conditional approval for its proposals, with the condition being the need for further and future authorization by the Commission of applications which would be filed by the future customers of SoCal for its services. SoCal indicates that as the Commission approves the applications of its customers, SoCal would file additional information with the Commission so that it may evaluate the continuing development of the project.

Any person desiring to be heard or to make any protest with reference to said application should on or before January 12, 1979, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Com-

mission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein. If the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for SoCal to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

[6740-02-M]

(Docket No. CP79-101)

TENNESSEE GAS PIPELINE CO., A DIVISION OF  
TENNECO INC.

Application

DECEMBER 21, 1978.

Take notice that on December 4, 1978, Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (Applicant), P.O. Box 2511, Houston, Texas 77001, filed in Docket No. CP79-101 an application pursuant to section 7(c) of the Natural Gas Act and §157.7(b) of the regulations thereunder (18 CFR 157.7(b)) for a certificate of public convenience and necessity authorizing the construction and acquisition, during the calendar year 1979, and operation of facilities to take natural gas which will be purchased from producers and other similar sellers thereof, all as more fully set forth in the application on file with the Commission and open to public inspection.

The stated purpose of this budget-type application is to augment Applicant's ability to act with reasonable dispatch in contracting for and connecting to its pipeline system and to the systems of other natural gas companies authorized to transport for or exchange with Applicant supplies of natural gas in areas generally coextensive with such systems.

The instant application does not set forth proposed total or single project expenditure limitations. Applicant states that it requests a waiver of §157.7(b)(1)(ii) of the Regulations under the Natural Gas Act (18 CFR 157.7(b)(1)(ii)). In the form of notice included pursuant to §157.6(b) of the regulations under the Natural Gas Act (18 CFR 157.6(b)), Applicant sets forth a proposed total project expenditure limitation of

Any person desiring to be heard or to make any protest with reference to said application should on or before January 12, 1979, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding.

Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein. If the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

TEXACO, INC.

Filing of Petition for Review

DECEMBER 21, 1978.

Take notice that Texaco, Inc. (Texaco) on December 1, 1978, filed a Petition for Review under 42 U.S.C. 7194(b) (1977 Supp.) from an order of Secretary of Energy issued on October 4, 1978, denying in part, Texaco's request for exception relief.

Copies of the petition for review have been served on the Secretary, De-

\$12,000,000 and proposed single onshore and offshore project expenditure limitations of \$1,500,000 and \$2,500,000, respectively.

partment of Energy, and all participants in prior proceedings before the Secretary.

Any person desiring to be heard with reference to such filing should on or before January 5, 1979 file a petition to intervene with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with the Commission's rules of practice and procedure (18 CFR 1.8). Any person wishing to become a party or to participate as a party must file a petition to intervene. Copies of the petition for review are on file with the Commission and are available for public inspection at Room 1000, 825 North Capitol St., NE., Washington, D.C. 20426.

KENNETH F. PLUMB,  
Secretary.

[6740-02-M]

(Docket No. CP74-33)

TRANSCONTINENTAL GAS PIPE LINE CORP.

Petition to Amend Further

DECEMBER 21, 1978.

Take notice that on December 6, 1978, Transcontinental Gas Pipe Line Corporation (Petitioner), Post Office Box 1396, Houston, Texas 77001, filed in Docket No. CP74-33 a petition to amend further the order issued February 26, 1975, as amended, in Docket No. CP74-33 pursuant to section 7(c) of the Natural Gas Act so as to authorize an increase in storage allocation at the Washington Storage Field, St. Landry Parish, Louisiana, for one of its customers, Eastern Shore Natural Gas Company (Eastern Shore), all as more fully set forth in the petition which is on file with the Commission and open to public inspection.

Petitioner states that Eastern Shore desires to increase its allocations of Washington Storage field service by 160,000 dekatherms (dt) equivalent of natural gas in the 1979-80 season and by 70,000 dt in the 1980-81 season in order to transfer some of its summer gas supply to winter operations for projected high priority sales. Petitioner further states that no additional facilities are required to render the additional service, for which Eastern Shore has executed a service agreement under Rate Schedule WSS.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before January 12, 1979, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a peti-

This proceeding was commenced before the FCC. By joint regulation of October 1, 1977 (10 CFR 1000.1) it was transferred to the Commission.

tion to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,  
Secretary.

[6740-02-M]

(Docket No. CP79-96)

UNITED GAS PIPE LINE CO.

Application

DECEMBER 21, 1978.

Take notice that on December 7, 1978, United Gas Pipe Line Company (Applicant), P.O. Box 1478, Houston, Texas 77001, filed an application in Docket No. CP79-96 pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing Applicant to transport gas for Natural Gas Pipeline Company of America (Natural), and to construct the necessary facilities therefor, all as more fully set forth in the application on file with the Commission and open to public inspection.

The application states that Natural and Applicant, on November 1, 1978, executed an agreement which provides for Applicant to transport up to 50,000 Mcf per day, less an allowance for fuel and company-used gas, from delivery points in Cameron Parish and Vermilion Parish, Louisiana, to a proposed point of interconnection between the parties' systems in Panola County, Texas. Applicant proposes to construct the necessary facilities in Panola County at a cost of \$28,105. The proposed transportation service would end upon the completion of the pipeline facilities proposed by Natural in Docket No. CP78-524, or one year from the date of the initial delivery, whichever is earlier. The rate agreed upon by the parties is 23.29 cents per Mcf of gas, or any superseding effective rate.

The proposed transportation service is stated to be necessary until Natural's facilities proposed in Docket No. CP78-524 are completed, to enable Natural to avoid the minimum-day violation and take-or-pay exposure of certain gas purchase contracts, and to

allow more efficient use of its gas supplies.

Any person desiring to be heard or to make any protest with reference to said application should on or before January 12, 1979, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein. If the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary

[6740-02-M]

(Docket No. CP79-103)

UNITED GAS PIPE LINE CO. AND MICHIGAN  
WISCONSIN PIPE LINE CO.

Application

DECEMBER 21, 1978.

Take notice that on December 5, 1978, United Gas Pipe Line Company (United), P.O. Box 1478, Houston, Texas 77001 and Michigan Wisconsin Pipe Line Company (Mich-Wis), One Woodard Avenue, Detroit, Michigan 48226, hereinafter referred to as Applicants, filed in Docket No. CP78-103 an application pursuant to section 7(c) of the Natural Gas Act for a certificate

of public convenience and necessity seeking authorization to construct and operate pipeline and related facilities necessary to connect gas supplies located in High Island Blocks A-279 and A-288, offshore Texas, to the pipeline system of High Island Offshore System (HIOS), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The following numbered paragraphs contain statements related in the application:

(1) Applicants have purchased interests in natural gas supplies in Blocks A-279 and A-288, High Island Area, offshore Texas. Block A-279 interests are equally shared by Applicants; Block A-288 interests are divided as follows: 20% to United, 15% to Mich-Wis, and 50% uncommitted.

(2) To transport these supplies to shore, Applicants propose to construct and own approximately 2.4 miles of 12-inch pipeline and related facilities to connect Block A-279 to a sub-sea tap on HIOS 36-inch pipeline in Block A-280. HIOS has been authorized to transport gas for Applicants and others in Docket Nos. CP75-16, CP75-81, and CP75-104.

(3) United would be the agent of Mich-Wis in the construction of the proposed facilities, but Mich-Wis would operate them once constructed. Applicants have not yet finalized their exact relationship in regard to construction, operation and cost.

(4) The cost of the proposed facilities would be \$2,966,323 and would be financed by Applicants from funds on hand.

Any person desiring to be heard or to make any protest with reference to said application should on or before January 12, 1979, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further

notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMBS,  
Secretary.

### EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

#### FEDERAL EQUAL EMPLOYMENT OPPORTUNITY

Pursuant to Reorganization Plan No. 1 of 1978, effective January 1, 1979, certain functions relating to equal employment opportunity in the Federal Government will be transferred from the Civil Service Commission to the Equal Employment Opportunity Commission. For further details of the transfer and the regulations to remain in effect after January 1, see FR Doc. 78-36273 published elsewhere in today's FEDERAL REGISTER.

Notice is hereby given that effective January 1, 1979, requests, inquiries, and communications of the following nature are to be addressed to the Director, Office of Field Services, Equal Employment Opportunity Commission, 2401 E Street, N.W., Washington, D.C. 20506:

(1) Agency requests for reimbursable investigations pursuant to FPM Letter 713-21.

(2) Agency requests for assignment of a complaints examiner on a reimbursable basis pursuant to 5 CFR 713.218(a) (new 29 CFR 1613.218(a)).

(3) Agency's remittance of class complaints pursuant to 5 CFR 713.604(a) (new 29 CFR 1613.604(a)).

(4) Agency reports concerning pre-complaint counseling and the status and disposition of complaints required by 5 CFR 713.241 (new 29 CFR 1613.241) and monthly agency reports on all pending complaints required by 5 CFR 713.220(c) (new 29 CFR 1613.220(c)).

(5) Agency's remittance of reprisal charges and reports of actions taken thereon required by 5 CFR 713.262(b)(1) (new 29 CFR 1613.262(b)(1)).

(6) Charging party's submission of a written statement on a reprisal charge on which the agency has not completed an inquiry within 15 calendar days of receipt as provided at 5 CFR 713.262(b)(1) (new 29 CFR 1613.262(b)(1)).

(7) Notice of intent to file a civil action under Section 15(d) of the Age Discrimination in Employment Act as described at FPM Letter 713-30.

All requests, inquiries, and communications regarding the Equal Employment Opportunity Plans described at FPM Letter 713-40 are to be addressed to: Director, Office of Government Employment, Equal Employment Opportunity Commission, 2401 E Street, N.W., Washington, D.C. 20506.

All appeals of agency decisions and communications concerning such appeals are to be addressed to: Director, Office of Appeals and Review, Equal Employment Opportunity Commission, 2401 E Street, N.W., Washington, D.C. 20506.

Agency reports under the Minority Group Statistics System as required at 5 CFR 1613.302(e) should continue to be sent to the Civil Service Commission.

Signed this 15th day of December, 1978.

ELEANOR HOLMES NORTON,  
Chair, Equal Employment  
Opportunity Commission.

### FEDERAL COMMUNICATIONS COMMISSION

#### Radio Technical Commission for Marine Services

#### MEETINGS

In accordance with Pub. L. 92-463, "Federal Advisory Committee Act," the schedule of future Radio Technical Commission for Marine Services (RTCM) meetings is as follows:

Special Committee No. 73 "Minimum Performance Standards (MPS) Marine Omega Receiving Equipment"  
Notice of 5th Meeting, Tuesday, January 16, 1979—9:30 a.m.

Conference Room  
Maritime Institute of Technology & Graduate Studies (MITAGS)  
5700 Hammonds Ferry Road  
Linthicum Heights, Maryland 21090

#### AGENDA

1. Call to Order; Chairman's Report.
2. Administrative Matters.
3. Reports of Working Groups.
4. Review of draft MPS.

M. H. Carpenter, Co-Chairman  
CDR T. P. Nolan, Co-Chairman  
Maritime Institute of Technology & Graduate Studies  
Linthicum Heights, Maryland 21090

Phone: (301) 636-5700

#### Executive Committee Meeting

The next Executive Committee Meeting will be on Thursday, January 18, 1979, 9:30 a.m. in Conference Room 7200, Nassif Building, 400 Seventh Street, S.W. (at D Street), Washington, D.C.

#### AGENDA

1. Call to Order.
2. Administrative Matters.
3. Discussion and possible vote on Petition to Amend By Laws, Article IV, Section 1.
4. Discussion and possible vote on Resolution to Amend Constitution, Article VI, Section 8.
5. Acceptance of FY-78 Audit Report.
6. New business.

Special Committee No. 71 "VHF Automated Radiotelephone Systems"  
Notice of 14th Meeting, Tuesday, January 23, 1979—10:00 a.m. (Full day meeting)  
Conference Room A-110  
1229—20th Street, N.W.  
Washington, DC

#### AGENDA

1. Call to Order.
2. Administrative Matters.
3. Presentation and Discussion:
  - (a) Digital Seicall Functions and Formats
  - (b) Implementation and Cost

John J. Renner, Chairman SC-71  
Advanced Technology Systems, Inc.  
3426 N. Washington Blvd.  
Arlington, VA 22201  
Phone: (703) 525-2664

Special Committee No. 74 "Digital Selective Calling"  
Wednesday, January 24, 1978—9:30 a.m. (Full-day meeting)  
Conference Room 7200—Department of Transportation, 400 Seventh Street, S.W., Washington, D.C.  
Notice of 1st Meeting.

#### AGENDA

1. Review of Terms of Reference.
  2. Committee Organization.
  3. Establishment of meeting schedule.
- Captain B. F. Hollingsworth, Chairman, SC-74  
U.S. Coast Guard Headquarters  
Washington, D.C.  
Phone: (202) 426-1345

The RTCM has acted as a coordinator for maritime telecommunications since its establishment in 1947. All RTCM meetings are open to the public. Written statements are preferred, but by previous arrangement, oral presentations will be permitted within time and space limitations.

Those desiring additional information concerning the above meeting(s) may contact either the designated chairman or the RTCM Secretariat (phone: (202) 632-6490).

FEDERAL COMMUNICATIONS  
COMMISSION.

WILLIAM J. TRICARICO,  
Secretary.

### TV BROADCAST APPLICATIONS READY AND AVAILABLE FOR PROCESSING

Adopted: December 18, 1978.

Released: December 20, 1978.

Notice is hereby given, pursuant to Section 1.572(c) of the Commission's Rules, that on January 31, 1979, the TV broadcast applications listed in the attached Appendix will be considered ready and available for processing. Pursuant to Sections 1.227(b)(1) and 1.591(b) of the Commission's Rules, an application, in order to be considered with any application appearing on the attached list or with any other application on file by the close of business on January 30, 1979, which involves a conflict necessitating a hearing with any application on this list, must be substantially complete and tendered for filing at the offices of the Commission in Washington, D.C., by the close of business on January 30, 1979.

Any party in interest desiring to file pleadings concerning any pending TV broadcast application, pursuant to Section 309(d) (1) of the Communications Act of 1934, as amended, is directed to Section 1.580(l) of the rules which specifies the time for filing and other requirements relating to such pleadings.

### FEDERAL HOME LOAN BANK BOARD

[No. 78-739]

#### FEDERAL CHARTERING AUTHORITY FOR MUTUAL SAVINGS BANKS

#### Announcement of Informal Public Hearings and Solicitation of Written Views and Comments

DECEMBER 22, 1978.

AGENCY: Federal Home Loan Bank Board ("Bank Board").

ACTION: Announcement of informal public hearings and solicitation of written views and comments.

SUMMARY: Title XII of the Financial Institutions Regulatory and Interest Rate Control Act of 1978 (Act of November 10, 1978, P.L. No. 95-630, 92 Stat. 3641), goes into effect on March 11, 1979. It authorizes the Bank Board to issue, if not in contravention of State law, Federal charters to existing State-chartered mutual savings banks and to provide for the examination, operation, and regulation, of any mutual savings bank which has converted to Federal charter.

The Bank Board feels that it is in the public interest for it to elicit the views and comments of all interested parties on the manner in which the Bank Board should exercise the authority and responsibility conferred by Title XII.

PROCEDURES: The procedures with respect to the conduct of the public hearings and the solicitation of written views and comments will be:

Each person or representative of a group who wishes to submit written views or comments may do so. Written material will be sent to the Bank Board, Office of the General Counsel (address below) and must be received by 5:30 p.m. EST, January 22, 1979.

Written views and comments may be submitted without participation in the public hearing; submission of views and comments does not bar participation in the public hearing.

Each person or representative of a group who wishes to make a presentation must make a request to do so in writing. A written copy of a statement or a summary of points to be covered must accompany the request. Requests and accompanying material will be sent to the Bank Board, Office of the General Counsel (address below) and must be received by 5:30 p.m. EST, January 22, 1979.

Written views and comments, statements, and summaries of points to be covered will be available for public inspection at the Bank Board, Office of the General Counsel (address below) when received.

Participants will be notified by January 24, 1979, of their order of appearance. A list of participants, and their order of appearance, will be available for public inspection at the Bank Board, Office of the general Counsel (address below) after this date.

The presiding Hearing Officer will have complete charge of the hearings and authority to do all things necessary and proper for the orderly conduct of the hearings. The Hearing Officer may exclude testimony, data and material which is deemed improper, irrelevant or repetitive.

Normally, a maximum of 15 minutes will be allowed for individuals and 30 minutes for group representatives. To the extent possible, groups having substantially similar positions are encouraged to select just one representative.

Hearing participants will not be permitted to examine or cross-examine other participants, although the Hearing Officer may question participants for the purpose of obtaining a fuller exposition of their views.

There shall be no provision for briefs or for oral argument at the conclusion of the hearings.

The foregoing rules may be relaxed by the Hearing Officer, if in his or her judgment such relaxation would aid the Bank Board in reaching a decision on the merits of proposals. If deemed necessary, the Hearing Officer may also extend the hearings or schedule additional hearings.

The hearing proceedings shall be transcribed. All interested parties may, after the close of the hearings and as soon as the transcript of the hearings has been prepared, obtain copies of the transcript through the procedure set out in Part 505 of the General Regulations of the Bank Board (12 C.F.R. Part 505).

**ADDRESSES—TIME AND DATE OF HEARING:** All written communications should be directed to the Bank Board, Office of the General Counsel, 1700 G Street, N.W., Washington, D.C. 20552. Please legend all communications: "Federal Mutual Savings Bank Project".

The public hearings will begin at 9:00 a.m. EST in the Amphitheater on the second floor of the Bank Board building at 1700 G Street, N.W., Washington, D.C., January 26, 1979. Unless the hearing is extended or re-scheduled in accordance with the above procedures, the hearing will end at 5:30 p.m.

#### FOR FURTHER INFORMATION CONTACT:

Loren J. Friesen, Attorney, Bank Board, Office of the General Counsel, Washington, D.C.; phone: (202) 377-6454.

**SUPPLEMENTARY INFORMATION:** The Bank Board specifically invites interested parties to comment on the following issues:

1. Section 1202 of Title XII provides that in issuing charters for Federal savings and loan associations and Federal mutual savings banks that the Bank Board shall give "primary consideration to the best practices of local mutual thrift and home-financing institutions in the United States". How may the Bank Board insure that a Federal mutual savings bank will be committed to home-financing? Should there be, for example, a minimum residential mortgage to total asset ratio that the Bank Board should require of applicants for a Federal mutual savings bank charter?

2. Should the Bank Board adopt the "trustee" or "trustee and corporator" system of management for Federal mutual savings banks, or should savings accountholders, checking accountholders, where permitted, or borrowers be accorded membership voting privileges with the right to elect a governing board of directors or trustees? If the latter, what should be the extent of their voting privileges?

3. Should the governing boards, officers and other employees of Federal mutual savings banks be subject to the same conflict of interest and related rules as pertained to the institution with which they are affiliated when it held a State-charter, if such rules are more restrictive than those currently applicable to Federal insured savings and loan associations?

4. In the event of liquidation of a Federal mutual savings bank, or other situation wherein the priority of accountholders is at issue, should checking accounts have the same priority as savings accounts, and the same right to a pro-rata participation in the distribution of the institution's assets?

5. To what extent should the Bank Board apply its existing Federal and Insurance Regulations (12 C.F.R. Part 541 et seq. and Part 561 et seq.) to Federal mutual savings banks? With respect to what issues may new regulations be required?

6. What criteria should the Bank Board consider in acting upon an application for a Federal mutual savings bank charter?

7. Should the Bank Board in any way restrict, or qualify the grandfathering authority conferred by Title 12? The aforementioned issues should not be considered exclusive, and comments on other related questions to the Bank Board's Title XII authority will be welcomed.

By the Federal Home Loan Bank Board.

J. J. FINN,  
Secretary.

#### FEDERAL MARITIME COMMISSION

##### Agreements Filed

The Federal Maritime Commission hereby gives notice that the following agreements have been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of each of the agreements and the justifications offered therefor at the Washington Office of the Federal Maritime Commission, 1100 L Street, N.W., Room 10218; or may inspect the agreements at the Field Offices located at New York, N.Y.; New Orleans, Louisiana; San Francisco, California; Chicago, Illinois; and San Juan, Puerto Rico. Interested parties may submit comments on each agreement, including requests for hearing, to the Secretary, Federal Maritime Commission, Washington, D.C., 20573, by January 8, 1979. Comments should include facts and arguments concerning the approval, modification, or disapproval of the proposed agreement. Comments shall discuss with particularity allegations that the agreement is unjustly discriminatory or unfair, as between carriers, shippers, exporters, importers, or ports, or between exporters from the United States and their foreign competitors, or operates to the detriment of the commerce of the United States, or is contrary to the public interest, or is in violation of the Act.

A copy of any comments should also be forwarded to the party filing the agreements and the statement should indicate that this has been done:

Agreement No.: T-3752.

Filing Party: Mr. Gary T. Ferrulli, Director, Regulatory Affairs, Sea-Land Service, Inc., 10 Parsonage Road, P.O. Box 900, Edison, N.J. 08817.

Summary: Agreement No. T-3752, between Hanjin Container Lines, Co., Ltd., (Hanjin) and Sea-Land Service, Inc., (Sea-

Land), is a Terminal Service Agreement whereby Sea-Land agrees to perform terminal services for Hanjin's vessels at the port facilities of Kobe and Yokohama, Japan. Sea-Land shall provide berth space, yard space, container gantry cranes, and adequate facilities and rolling stock for the handling of containers. Sea-Land shall perform the following services for Hanjin: arranging for the entry and clearance of vessels, vessel clearance documentation, vessel berthing and related services, arranging for the survey and repair of vessels, stevedoring services, documentation, maintenance and repair of containers/chassis, Container Freight Station services, and assisting Hanjin in contracting with third parties for inland transportation of containers and cargo. As compensation, Hanjin shall pay Sea-Land according to a schedule of rates outlined in the agreement.

By Order of the Federal Maritime Commission.

Dated: December 22, 1978.

FRANCIS C. HURNEY,  
Secretary.

#### GENERAL ACCOUNTING OFFICE

##### REGULATORY REPORTS REVIEW

##### Receipt of Report Proposal

The following request for clearance of a report intended for use in collecting information from the public was received by the Regulatory Reports Review Staff, GAO, on December 21, 1978. Set 44 U.S.C. 3512(c) and (d). The purpose of publishing this notice in the FEDERAL REGISTER is to inform the public of such receipt.

The notice includes the title of the request received; the name of the agency sponsoring the proposed collection of information; the agency form number, if applicable; and the frequency with which the information is proposed to be collected.

Written comments on the proposed ICC request are invited from all interested persons, organizations, public interest groups, and affected businesses. Because of the limited amount of time GAO has to review the proposed request, comments (in triplicate) must be received on or before January 16, 1979, and should be addressed to Mr. John M. Lovelady, Assistant Director, Regulatory Reports Review, United States General Accounting Office, Room 5106, 441 G Street, NW, Washington, DC 20548.

Further information may be obtained from Patsy J. Stuart of the Regulatory Reports Review Staff, 202-275-3532.

#### INTERSTATE COMMERCE COMMISSION

The ICC requests clearance of revised Annual Report, Form R-4, re-

quired to be filed by some 103 railroad lessors, pursuant to Section 20 of the Interstate Commerce Act. Data are used for economic regulatory purposes. Revisions made in this annual report form resulted from the adoption of Docket No. 36367, Revision to the Uniform System of Accounts (49 CFR 1201), decided June 13, 1977. New schedule numbers and account reference changes are the only significant changes. The ICC estimates reporting burden for carriers will average 233 hours per report. Reports are mandatory and available for use by the public.

NORMAN F. HEYL,  
Regulatory Reports,  
Review Officer.

#### GENERAL SERVICES ADMINISTRATION

##### Public Buildings Service

[GSA Order PBS 1095.1D]

#### IMPLEMENTATION OF ENVIRONMENTAL POLICY

##### Preparation Procedures

Pursuant to the provisions of the National Environmental Policy Act of 1969 (42 U.S.C. 4321, et seq.) and Section 1500.3(a) of the Council on Environmental Quality Guidelines for the Preparation of Environmental Impact Statements (38 FR 20550), notice is hereby given that the General Services Administration, Public Buildings Service, has revised internal procedures for preparing environmental impact statements for facility planning programs. These programs include acquisition, leasing, design, construction, management, and alteration of GSA property.

Dated: December 7, 1978.

JAMES B. SHEA, Jr.,  
Commissioner,  
Public Buildings Service.

DECEMBER 7, 1978.

#### GSA ORDER

Subject: Implementation of environmental policy.

##### 1. Purpose.

a. This order implements GSA Order ADM 1095.1B by prescribing procedures for Public Buildings Service (PBS) facility planning programs in acquisition, leasing, design, construction, management, and alterations to General Services Administration (GSA) property.

b. This order shall be further implemented by the publication of a service order for each region of the Public Buildings Service. Each regional service order shall be applicable to PBS facility planning programs in acquisition, leasing, design, construction, management, and alteration to GSA property.

Each regional service order shall be approved by the Assistant Commissioner for Space Management (PR) prior to its implementation.

2. Cancellation. PBS Order 1095.1C is canceled.

##### 3. Background.

a. The laws, Executive Orders, and directives to be implemented include the National Environmental Policy Act of 1969, as amended, (42 U.S.C. 4321, et seq., herein after referred to as NEPA); Executive Order 11514 of March 5, 1970, entitled "Protection and Enhancement of Environmental Quality;" section 106 of the National Historic Preservation Act of 1966 (16 U.S.C. 470f); Executive Order 11593 of May 13, 1971, entitled "Protection and Enhancement of the Cultural Environment;" GSA Order ADM 1095.1B, entitled "Environmental considerations in decisionmaking;" GSA Order PBS 1022.1, entitled "Protection of Historic Properties;" Executive Order 12088 of October 13, 1978, entitled "Federal Compliance with Pollution Control Standards;" and the Guidelines issued by the Council on Environmental Quality (CEQ) for preparing environmental impact statements, (herein after referred to as the Guidelines), published in the FEDERAL REGISTER August 1, 1973, 38 FR 20550, and amended in the FEDERAL REGISTER on August 7, 1973, 38 FR 21265.

b. Section 102 of NEPA directs all Federal agencies to the fullest extent possible: (1) to utilize a systematic, interdisciplinary approach which will ensure the integrated use of the natural and social sciences and the environmental design arts in planning and decisionmaking which may have an impact on man's environment; (2) to identify and develop methods and procedures which will ensure that presently unquantified environmental amenities and values may be given appropriate consideration in decisionmaking along with economic and technical considerations; (3) to include in every recommendation or report on proposal for legislation and other major Federal actions significantly affecting the quality of the human environment, a detailed statement by the responsible official which includes to the fullest extent possible the following:

(a) The environmental impact of the proposed action;

(b) Any adverse environmental effects which cannot be avoided should the proposal be implemented;

(c) Alternatives to the proposed action;

(d) The relationship between local short-term uses of man's environment and the maintenance and enhancement of long-term productivity; and

(e) Any irreversible and irretrievable commitments of resources which would be involved in the proposed action should it be implemented.

c. Executive Order 11514 effectuates the purpose of NEPA, and the revised Guidelines implement NEPA.

4. Nature of revision. This revision reflects GSA organizational changes, the transfer of certain responsibilities from CEQ to EPA, and recently issued directives concerning the change in environmental impact statement filing procedures.

##### 5. Procedures.

a. Environmental assessments, negative declarations, draft and final EIS's prepared under the direction of the Regional Commissioners on planning, acquisition, and alteration programs shall be submitted to the

Assistant Commissioner for Space Management (PR). The Assistant Commissioner for Space Management (PR) shall forward copies to the Office of General Counsel (L), and other appropriate offices. All such review periods shall run concurrently for a period of 10 workdays from the date of receipt for negative declarations and environmental assessments. The review period shall be 15 workdays from the date of receipt for draft and final EIS's. Any requests for additional information or revision shall be directed to the appropriate service or staff office program official. All comments shall be forwarded to the Assistant Commissioner for Space Management. All comments so forwarded shall be prepared in a consolidated response to the region. The Commissioner, PBS (P), shall reconcile any differences concerning the need for additional information or revision that may arise between program officials and other reviewing offices, except that final approval for legal sufficiency shall be the responsibility of the General Counsel or his designee. Environmental assessments shall be attached to negative declarations. Unless otherwise notified within 10 workdays from receipt of the negative declaration-environmental assessment and 15 workdays from receipt of the draft EIS or final EIS, the Assistant Commissioner for Space Management, and/or the regional office shall assume the environmental assessment and negative declaration or draft EIS or final EIS are adequate.

b. The Regional Administrator shall retain the nondelegable authority, subject to the terms and details herein, for final approval of negative declarations and both draft and final EIS's. Further, the Regional Administrator maintains the responsibility for transmitting draft and final EIS's to the Environmental Protection Agency (EPA), heads of other Federal agencies, Governors, Senators, and Congressmen. The preparation of EIS's shall be in cooperation and coordination with all appropriate PBS officials. Distribution of EIS's shall be carried out consistent with the terms and conditions of GSA Order ADM 1095.1B. Regional offices shall also maintain responsibility for responding to substantive comments received on the draft EIS and for the preparation and publication of the final EIS. Additional procedures for the implementation of this order are contained in the attachment of this order.

6. Reports. The reports control symbol PBS-123 has been assigned to the report required by this directive.

JAMES B. SHEA, Jr.,  
Commissioner,  
Public Buildings Service.

#### ATTACHMENT

#### IMPLEMENTATION OF ENVIRONMENTAL POLICY

1. Responsible officials for determining the course of environmental action. The Regional Commissioners, PBS, have the initial responsibility for making the threshold decision for (1) determination whether an action is "a major Federal action significantly affecting the quality of the human environment", and (2) the preparation and documentation of files with environmental impact assessments (EIA), EIA's resulting in negative declaration or draft and final environmental impact statements (EIS). The PBS Assistant Commissioners, may request the preparation of EIA's or draft and final EIS's from the Regional Commissioners. However, when the proposed action has been designated as a project pursuant to GSA Order, Project Management in the Public Buildings Service (ADM 5400.24), such determination shall be made only after consultation with the Project Manager.

a. Assistant Commissioner for Space Management (PR), is responsible for the overall direction of environmental protection within GSA and those policy and procedure programs listed in (par. 1 of the transmittal order PBS 1095.1D) and the following:

(1) Provide professional and technical guidance to the Commissioner, PBS (P), Assistant Commissioners, PBS, and Regional Commissioners, PBS;

(2) Review, coordinate and consolidate the PBS EIA/EIS review comments by the Office of General Counsel (L), and other appropriate service and staff offices and transmit such comments to the appropriate office;

(3) Consult with the Office of General Counsel (L) on matters pertaining to compliance with environmental laws within GSA and on matters relating to environmental protection in PBS;

(4) Develop and coordinate service orders, regulations and guidance on the PBS environmental programs;

(5) Assist the regional offices in scheduling environmental considerations to preclude delays in completing those actions defined in this attachment;

(6) Review new environmental technology, research and development; and

(7) Initiate new environmental programs.

b. Regional Administrators shall have the following responsibilities to:

(1) Approve by signature negative declarations prepared by the Regional Commissioners, PBS; and

(2) Transmit draft and final EIS's to the Environmental Protection Agency (EPA), heads of other Federal agencies, Governors, Senators, and Congressmen by signing appropriate transmittal letters.

c. Regional Commissioners, PBS, shall have the following responsibilities to:

(1) Make the threshold decision of need for an EIA/EIS, and prepare and sign negative declarations that require the subsequent approval of the Regional Administrator;

(2) Maintain a continuing review of activities which have potential significant environmental impact as outlined in this attachment to the order;

(3) Establish the appropriate points in time for the reassessment of developing projects for cases not covered in this attachment to the order;

(4) Prepare and process, through PR, draft and final EIS's and subsequently distribute the EIS's to Federal, State, and local officials, and interested individuals other than those to whom the Regional Administrator transmits the impact statement;

(5) Conduct public meetings, issue press announcements and maintain files for public review; and

(6) Prepare and monitor a schedule for environmental planning considerations to pre-

clude delays in completing those actions defined in this attachment;

(7) Review new environmental technology, research and development;

(8) Initiate new environmental programs;

(9) Develop and publish a regional service order that further implements this order; and

(10) Prepare and submit to PR quarterly reports on regional NEPA actions.

d. The Assistant Commissioners for Buildings Management (PB) and Construction Management (PC), shall be responsible for maintaining program review of EIS's to ensure program activities are compatible with environmental protection and in compliance with GSA Order ADM 1095.1B. They are also responsible for the following:

(1) Review of new environmental technology, research and development;

(2) Initiation of new environmental programs;

(3) Development and revisions to orders, handbook specifications and directives to the field;

(4) Initiation of EIA's and EIS's;

(5) Maintenance of continuing review of developing projects for environmental impact and establish the appropriate points in time for the reassessments not covered in this attachment to the order; and

(6) Establishment of continual liaison with the Office of Space Management on environmental protection programs.

2. Determination of what is a "major Federal action significantly affecting the quality of the human environment." This determination is based on the circumstances of the proposed action. The determination shall be made as part of the decisionmaking process.

a. Types of actions which have the potential of being major Federal actions requiring an assessment of their effect on the environment are:

(1) Recommendations or reports concerning legislation, including requests for appropriations, proposed by GSA or members of Congress resulting in physical action involving, but not limited to, proposals for new Federal construction under the Public Buildings Act of 1959, as amended, (40 U.S.C. 601, et seq.).

(2) Administrative action involving:

(a) Procurement and renewal of space through major lease, lease-construction or construction of buildings for Federal agency use;

(b) Extensions, repair and alterations to public buildings;

(c) Use of GSA property through lease, permit, or license resulting in a significant change in usage of the property;

(d) Proposed exchanges of real property to acquire sites under the Public Buildings Act of 1959, as amended;

(e) Relocation of employees causing significant change in employee transportation patterns, or the travel time to the new location to exceed 45 minutes, or a 20 percent increase in travel time if it presently exceeds an average of 45 minutes;

(f) All project development reports;

(g) Site Investigation and Selection Reports.

(3) Formulation and issuance of regulations, procedures, and policies which may have environmental consequences.

b. Actions significantly affecting the quality of the human environment are those which:

(1) Impact upon the environment even if, on balance, beneficial effects outweigh the detrimental ones;

(2) Curtail the range of possible beneficial uses of the environment including irreversible and irretrievable commitments of resources;

(3) Serve short-term uses rather than long-term environmental goals;

(4) May be localized in their effect, but nevertheless, have a harmful environmental impact; and

(5) Are attributable to many small actions, possibly taken over a period of time, which collectively can be defined as a major action with a significant impact (either adverse or beneficial).

3. Changes having an impact on the quality of the human environment. A significant change is any change which significantly alters, disrupts, destroys, or transforms any aspect of the physical, social or aesthetic environment. Such a change may have either an adverse or beneficial impact on the quality of the environment.

4. Application of standards. All GSA operated and controlled facilities shall be operated in accordance with established Federal and State environmental standards. Where both substantive Federal and State standards exist, the more stringent of these standards shall apply.

5. Criteria. Factors having potential and identified impact which may significantly affect the quality of human environment include but are not limited to the following:

a. The readily recognizable physical factors; (e.g., air and water quality, ambient noise levels, sewage and waste disposal, etc.);

b. Changes in land use or zoning;

c. Socio-economic factors, (i.e., proximity to low and moderate income residential housing on a nondiscriminatory basis, necessity for relocation of residential properties, changes in traffic patterns causing changes in mode of transportation, traffic congestion or increase in distance and commuting costs to the proposed building occupants; known environmentally controversial aspects of the project); and

d. Cultural, architectural, or archeological aspects of a project illustrated by possible infringement on historic properties or disturbances to important archeological artifacts. Environmental impact assessments (EIA) and environmental impact statements (EIS) for projects that may affect historic and cultural properties shall be written to demonstrate agency compliance with section 106 of the National Historic Preservation Act of 1966 and the implementing procedures of the Advisory Council on Historic Preservation (36 C.F.R. part 800). Historic properties are defined as properties listed in the National Register of Historic Places, or determined eligible for listing in the National Register. Contact with the State Historic Preservation Officer (SHPO) shall be documented with a letter from the SHPO and included in the EIA or the appendix of the EIS. (For further clarification on historic preservation procedures and how to determine eligibility for listing in the National Register, refer to PBS 1022.1.)

6. Categorized major PBS actions. To clarify threshold decisions and to categorize typical PBS actions requiring environmental analysis, the following categories have been identified:

a. Category I. Projects which will almost always require an EIS.

(1) Facility planning program (a series of actions related by type or geographic area) such as the following:

(a) Master Plan for federally owned property; and

(b) Leasing actions planned for a given geographical area for a 3- to 5-year period.

(2) Construction Projects.

(a) Federal construction or lease construction projects requiring a prospectus.

(b) Projects undertaken for another Federal agency where the assessment process identifies significant known or potential environmental impact(s). An example of a proposed project that would always require an EIS is development of a Federal correctional center.

(c) Projects recommended under section 11(b) of the Public Buildings Act of 1959, as amended.

(3) All PBS projects where the assessment process identifies known or potential significant environmental impact.

b. Category II. Projects which normally require an environmental assessment to determine if an EIS is necessary.

(1) Federal construction or lease construction projects that do not require a prospectus, including those undertaken for another Federal agency.

(2) Repair and alteration projects.

(a) Those projects which require a prospectus.

(b) Those projects which require a major change in energy requirement or source.

(c) Those projects which affect those characteristics which qualify a property or object as historically or culturally significant.

(d) Acquisition and/or alteration of space for a laboratory which will utilize dangerous or hazardous chemicals, drugs or radioactive materials.

(3) Major leases for new space in existing buildings where a potential environmental controversy has been identified.

(4) Real property acquisition and lease acquisition expected to result in new construction.

(5) A transfer of employees that would cause a significant change in employee transportation mode, patterns, and/or travel time.

(6) Acquisition, leasing, construction, and alteration projects which are a part of a program, such as a master plan, for which an EIS has previously been filed.

(NOTE: Emergencies. Situations that may make it necessary to proceed with an action without full compliance with the provisions of this order: (1) A major action which must be undertaken immediately because of fire, public or safety hazard. The responsible regional official shall notify the Regional Counsel immediately and initiate procedures for consultation with EPA; and (2) A project in which the Commissioner, PBS (P), after consultation with EPA, has determined that a public or governmental exigency is present. This would be restricted to projects where a limited environmental impact has been identified, but where action to acquire or renovate property is neither irreversible nor irretrievable.)

7. Consideration of Cumulative Impacts. Each proposed project or action shall be reviewed and a determination made as to whether it constitutes a "major Federal action." The responsible regional official should consider that the effect of decisions can be individually limited but cumulatively significant. An environmental impact statement should be prepared if it is reasonable to expect a cumulatively significant impact on the environment from the Federal action, as indicated in the following:

a. Over a period of years, decisions by one or a number of different agencies are made concerning certain types of projects or actions that individually are minor but collectively are major;

b. One decision involving a limited amount of money establishes a precedent for action in much larger cases or represents a decision in principle about a future major course of action; and

c. Several Government agencies individually make decisions about partial aspects of a major action.

8. Environmental impact assessments (EIA). a. The environmental impact assessment is one of the most important documents included in the decisionmaking process. The EIA is the basis for judgment by the "responsible official" and can be entered as evidence in hearings and court actions. Therefore, it is of utmost importance that the assessment be a full disclosure document, giving the reader a clear picture of existing and projected environmental conditions, a complete but concise description of the proposed action, and an in-depth evaluation of possible or probable impacts, both primary and secondary, which may be either beneficial or adverse. The EIA must include a list of Federal, State, and local officials who have been contacted and their comments. The assessment will result in the decision to prepare a negative declaration or a draft environmental impact statement.

b. The decision to prepare an EIA shall be made immediately subsequent to the initial identification of project need during the project planning stage. Its preparation shall be undertaken concurrently with the initial technical and economic studies for each project. In lease actions the assessment shall be completed and a determination for the necessity of an EIS shall be made prior to the issuance of a solicitation for offers.

c. For Federal construction projects involving the selection of a site and for lease actions involving the acquisition of an assignable option on a site and when the site is known, the EIA shall be based on the known site. For those projects in which the site is not known, the EIA shall be based on a delineated area. If the delineated area has been determined by applying the Area Delineation Model as provided in the HB, Space Requirements and Project Development (PBS P 7000.6), the EIA shall summarize the data and findings resulting from application of the model. If the delineated area has been determined to be in conformance with FPMR 101-18.100g, the EIA shall summarize the factors considered and the manner in which the delineated area was determined. (See also the HB, Acquisition of Leasehold Interests in Real Property (PBS P 1600.1).)

d. As the project develops all environmental considerations will be reevaluated continually by the appropriate officials. The EIA shall be updated with a reassessment if there has been no significant change in project scope or environmental impact. If the initial assessment was made on a delineated area and resulted in a negative declaration, a reassessment shall be made when a site is selected. For major repair and alteration projects and new Federal construction, a reassessment shall be made when working drawings and specifications are

completed. Other reassessments shall be made as deemed necessary by the responsible officials as defined by par. 1 of this attachment. (See subpar. 9f.)

9. *Negative declaration.* a. A negative declaration is an official administrative declaration stating that an analysis of the environmental impact assessment (EIA) has been made and that the proposed action is not considered a major Federal action having a significant impact on the human environment and, therefore, will not require the preparation of an environmental impact statement.

b. When an EIA is completed by the regional staff, it shall be reviewed by the responsible regional official. If the review of the EIA indicates that the proposed project is not a major Federal action significantly affecting the quality of the human environment, then four copies of the EIA and a copy of the negative declaration signed by the Regional Commissioner, PBS, shall be submitted to the Assistant Commissioner for Space Management (PR). The original EIA and negative declaration shall remain in the regional office.

c. Upon receipt of the EIA, PR will forward copies to the Office of General Counsel (L) and other appropriate offices. All comments shall be reviewed, coordinated and consolidated by PR and transmitted to the submitting regional office within a time period not to exceed 10 full workdays from the date of receipt of the EIA by PR. A copy of the consolidated response will be forwarded to the Office of General Counsel (L). If not otherwise directed by PR within the 10-workday period, the responsible regional official may assume that the EIA is adequate and may proceed with obtaining approval of the negative declaration by the Regional Administrator. No action as defined in par. 14 shall be taken prior to the completion of the above process.

d. If during review of the assessment and negative declaration by the Office of Space Management (PR), it is determined that an environmental impact statement should be filed, the responsible regional official shall be so advised during the 10-workday period.

e. For proposed projects which require prospectus approval by the Public Works Committees of the Congress, two copies of the approved negative declaration with the environmental impact assessments attached shall be forwarded to PR so that the environmental assessment documents may accompany the prospectus to the Public Works Committees of Congress.

f. If an environmental assessment and negative declaration have been prepared on a delineated area, an updated assessment shall be prepared upon site selection. Should the responsible regional official conclude there are no known potential significant environmental impacts following the site selection stage, such official shall prepare and sign a confirmation of the negative declaration. Such confirmation shall have concurrence by the Regional Counsel. The confirmation of the negative declaration need not be forwarded to the Central office in these cases. However, should the updated assessment identify significant environmental impact on the quality of the human environment, the responsible regional official shall proceed with the preparation of the environmental impact statement and notify the Assistant Commissioner for Space Management (PR). In such cases, it may be necessary to reissue the solicitation for offers

or invitations for bid, or cancel further acquisition actions until the full EIS process is complete.

10. *Draft environmental impact statement.* a. After an environmental impact assessment has been prepared and a determination made that the proposed action is a major Federal action significantly affecting the quality of the human environment, a draft environmental impact statement (EIS) shall be prepared. In cases where the site is not known, the draft EIS shall be based on a delineated area (DA). The DA shall be determined in accordance with the Area Delineation Model as provided for in PBS P 7000.6 or determined in accordance with FPMR 101-18.100g as provided for in PBS P 1600.1. The EIS shall summarize the data and findings resulting from use of the Area Delineation Model or describe the factors considered and the manner in which the delineated areas was determined.

b. At the earliest possible stage of draft EIS preparation, the office preparing the EIS shall consult with Federal, State, and local agencies to obtain information and views about potential impacts of a proposed action. The consultation process shall be accomplished in accordance with OMB Circular A-95, CEQ Guidelines, Subpart 101-19.100 of the Federal Property Management Regulations and the following:

(1) Projects resulting in construction shall be reviewed for environmental impact. State clearinghouses shall be consulted at the earliest practicable time in the planning of the project. In the development of a Project Development Report in the region, the Regional Administrator is required to contact the appropriate State, regional and local clearinghouses and other appropriate officials including U.S. Senators and Congressmen in a formal A-95 process.

(2) In addition, a copy of the letter to the state clearinghouse, issued in accordance with the provisions of the A-95 circular shall be forwarded to the Advisory Council on Historic Preservation and the Council on Environmental Quality.

(3) When the A-95 review process of a proposed project or the consultation with the clearinghouses take place prior to the filing of a draft EIS, the comments received represent input to the EIS.

(4) Federal agency comments received prior to filing of a draft EIS shall be attached to copies of the statement being sent to the agency submitting the substantive comment. The statements being sent to the clearinghouses shall include a listing of all agencies from which comments have been received.

c. *Technical content of draft statement.* The EIS includes:

(1) A description of the proposed action including the requisite information and technical data to permit a careful assessment by reviewing agencies of the environmental impact of the proposed action(s). Copies of site plans or topographic maps showing the property and the surrounding area shall be provided;

(2) The probable impact of the proposed action(s) on the environment, including impact on biological systems (e.g., wildlife and vegetation) and on physical systems (e.g., hydrology, air, noise, etc.). Consequences of direct and indirect impacts on the environment shall be included in the analysis. For example, any effect of the action on population distribution or concentration should be estimated and an assess-

ment made of the effect of significant change in population patterns upon the resources of the impacted area (e.g., land use, water supply, public services, and traffic patterns);

(3) Any probable adverse environmental effects that cannot be avoided, such as water, air, or noise pollution, undesirable land use patterns, damage to ecological systems, urban congestion, threats to health or other consequences adverse to the environmental goals set out in section 101(b) of NEPA. Where such unavoidable effects exist, a discussion of mitigating, neutralizing or eliminating measures should be included for each adverse effect;

(4) A rigorous exploration and objective evaluation of all reasonable alternative actions that might avoid some or all of the adverse environmental effects, including those alternatives outside of GSA's implementing authority. Analysis of alternatives, their costs, and impacts on the environment shall accompany the proposed action(s) through the agency review process to avoid premature foreclosure of options with less detrimental effects than the proposed action. If a cost benefit analysis on the proposed action(s) is prepared, it shall include a discussion of reasonable alternatives. The extent to which environmental costs have not been reflected in such analysis should be included in the EIS. However, information furnished by property owners, appraisers, or public officials regarding site pricing information, estimated site costs, appraisal reports on subsequent site selection or negotiations to acquire sites, shall not be included in draft or final EIS;

(5) The relationship between local short-term uses of man's environment and maintenance and enhancement of long-term productivity and a discussion of the extent to which the proposed action forecloses future options. This, in essence, requires assessment of the action(s) from the perspective that each generation is trustee of the environment for succeeding generations;

(6) Any irreversible and irretrievable commitments of resources, (i.e., land, labor, materials, natural and cultural resources), which would be involved in the proposed action(s) should it be implemented. Identify from the survey of unavoidable adverse impacts the extent to which the action(s) curtails the range of beneficial uses of the environment;

(7) A description of the extent and nature of the awareness of the action by public officials, public interest groups, neighborhood groups through newspaper articles, radio and television, meetings, public hearings, correspondence and other forms of contact; and

(8) A list of the agencies, groups, and individuals consulted in accordance with the Intergovernmental Cooperation Act of 1968 (82 Stat. 1098), Executive Order 11512 and Office of Management and Budget Circular A-95.

11. *Submission and distribution of draft environmental impact statements.* Initially, draft EIS's shall be processed as follows:

a. Four copies of the preliminary draft environmental impact statement shall be transmitted to the Assistant Commissioner for Space Management (PR) for a review period of 15 workdays to begin the date of receipt by PR. Space Management will forward copies to the Office of General Counsel (L) and other appropriate offices. All comments will be reviewed, coordinated, and

consolidated by PR and transmitted to the submitting office within the 15-workday time period. A copy of the consolidated response will be forwarded to the Office of General Counsel. Space Management may require additional information or revisions to the statement prior to its publication. If not otherwise directed by PR within the 15-workday review period, the responsible official may assume that the EIS is adequate and may proceed with publication of the EIS. A statement number shall be assigned to the draft EIS by PR prior to publication.

b. For proposed projects that require a prospectus approved by the Public Works Committees of Congress, the draft EIS shall be submitted to PR prior to the submission of the prospectus to Congress. Two copies of the published statement will accompany the prospectus to Congress.

c. The Regional Administrator shall sign the transmittal letters soliciting comments on the draft EIS to EPA, the heads of Federal agencies, the appropriate U.S. Congressmen and Senators, the Governor of the State which is affected by the proposed action and the Public Works Committees of Congress. The statement shall be sent to the Washington, D.C. offices of members of Congress. On the same day, the appropriate Regional or Assistant Commissioner shall sign transmittal letters distributing copies of the statement to appropriate local officials, Federal, State, and local agencies, special interest groups and the public for review and comments. In addition, the comments of appropriate State, regional or metropolitan clearinghouses in accordance with the procedures prescribed by the Office of Management and Budget Circular A-95, Revised, shall be solicited unless the Governor of the State involved has designated some other point for obtaining the review. Six copies of the printed statement shall be sent to PR for Central Office distribution.

d. The Environmental Protection Agency (EPA), will publish in the FEDERAL REGISTER lists of environmental impact statements received during the preceding week which are available for public comment. The date establishing the 45-day minimum review period and advance availability of a draft EIS will be calculated from the FEDERAL REGISTER publication date of the notice of availability. Draft EIS's shall be made available to the public without charge to the extent practicable or at a fee which is not more than the cost of reproduction. The draft EIS will also be made available for public review in PBS Central Office and Regional Commissioner's office during normal working hours.

e. Regional Commissioners shall maintain a list of groups, known to be interested in PBS activities. In addition, a list shall be maintained of individuals and groups requesting an opportunity to comment on a project or action. A copy of the draft EIS shall be distributed to the individual or groups expressing an interest in the project or action covered by the statement.

f. Notice of availability of the draft EIS shall be published in one or more local newspapers.

g. Federal agencies which have jurisdiction by law or special expertise with respect to any environmental impact involved or which are authorized to develop and enforce environmental standards shall be asked to comment on draft EIS's. These agencies are listed in appendix II of the CEQ Guidelines. Appendix III of the Guidelines lists offices

within Federal and Federal-State agencies that have information regarding the agencies' NEPA activities and receive environmental impact statements on which comments are requested. Draft EIS's shall be submitted for comment to the regional contact points of agencies being consulted when such offices have been established pursuant to section 1500.9(a) of the Guidelines.

h. In implementing the provisions of section 309 of the Clean Air Act, as amended, the responsible official shall submit to the appropriate regional office of EPA for review and comment five copies of all draft EIS's.

12. *Preparation of final environmental impact statements.* The final EIS shall not be prepared until after the site investigation report has been completed. The final EIS must reflect all the site data and substantive comments submitted by other Federal agencies, State, and local officials, individuals and groups. Changes and additions to the text of the draft EIS shall be marked by a vertical line in the margin, unless the final EIS differs substantially from the draft EIS. Where opposing professional views and responsible opinions have been overlooked in the draft EIS and are then brought to agency attention the action should be reviewed and a meaningful reference made in the final EIS to opposing views as well as GSA's position on the issues raised. All substantive comments received on the draft EIS (or summaries thereof when comments have been exceptionally voluminous) shall be attached to the final EIS whether or not the comment is considered to merit individual discussion in the text of the statement. Where appropriate, substantive comments on the draft EIS should be correlated to the text of the final EIS by placing a page or section number in the margin of the comment designating where the proper response may be located.

13. *Submission and distribution of final environmental impact statements.* a. The preliminary final EIS shall be submitted to PR for review and comment. The final EIS shall be reviewed in the same manner as the draft EIS (see subpar. 11a).

b. Copies of the final EIS, with comments attached, shall be sent to all Federal, State, and local agencies and private organizations, clearinghouses, and individuals that made substantive comments on the draft statement and to individuals who requested a copy of the final EIS. Copies of the final EIS shall in all cases be sent to the Environmental Protection Agency to assist it in carrying out its responsibilities under section 309 of the Clean Air Act. Where the number of comments on a draft EIS is such that distribution of the final EIS to all commenting entities appears impracticable, the Assistant Commissioner for Space Management (PR) will notify the Office of General Counsel (L) and consult with EPA concerning alternative arrangements for distribution of the statement. Six copies of the printed final EIS shall be sent to PR for Central Office distribution.

14. *Time requirements for review of draft and final environmental impact statements.* a. No administrative action shall be taken sooner than ninety (90) calendar days following publication of notice of availability of the draft EIS in the FEDERAL REGISTER and the date copies have been made available to EPA, public agencies and interested parties. Further, no administrative action shall be taken sooner than 30 calendar days

after the publication of notice of availability of the final EIS in the FEDERAL REGISTER and the date copies of the final EIS have been made available to EPA, commenting agencies, and the public. The term "action," as used in this subparagraph, shall mean issuance of a notice to proceed pursuant to a construction or demolition contract, acceptance of offers to sell, vesting of title, issuance of notice to relocate within 90 days in accordance with section 301(5) and the terms of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, (84 Stat. 1894), and other such activities. Certain procedures are to be excluded from this prohibition (i.e., continuance of design, contracts for appraisal reports, title evidence and surveys, and negotiations for site acquisition). The determination of whether or not another action is an "action" as used in this subparagraph shall be made by the Commissioner of PBS after seeking advice of the Office of General Counsel.

b. A minimum of 45 calendar days shall be provided for comment on the draft EIS. Commenting periods may be extended an additional 15 days at the discretion of the responsible official. Comments not received within allotted commenting period will not receive response in the text of the final EIS.

c. If the final EIS is filed at least 60 calendar days after the notice of availability of the draft EIS is published by EPA in the FEDERAL REGISTER, the 30- and 90-day periods may run concurrently to the extent that they overlap.

d. When emergency circumstances make it necessary to take a major Federal action which may have a significant environmental impact on the human environment without strictly observing the provisions of the CEQ Guidelines and this order concerning minimum periods for agency review, the Assistant Commissioner for Space Management (PR) shall obtain the concurrence of the Commissioner, PBS (P), and consult with EPA concerning alternative arrangements. Similarly, where there are overriding considerations of expense to the Government or impaired program effectiveness, PR will consult with EPA concerning appropriate modifications of the minimum periods when such action is considered appropriate.

15. *Amendment of draft or final environmental impact statement.* Responsible regional PBS officials shall keep abreast of any substantial changes in the proposed action that may develop or significant new information that becomes available concerning its environmental aspects. These circumstances shall be evaluated to determine whether the draft or final EIS should be supplemented or amended. Supplements or amendments to the statement shall be issued, as appropriate. Notice of the development will be given to the Assistant Commissioner for Space Management (PR). The Assistant Commissioner for Space Management (PR) shall consult with EPA regarding possible recirculation of the statement for the appropriate period.

16. *Responsibility for draft and final environmental impact statement preparation in multi-agency actions.* a. Except as provided in subpar. b, below, when GSA and one or more agencies directly sponsor an action, or are directly involved in a group of actions directly related to each other because of functional interdependence and geographical proximity, a "lead agency" shall be designated to assume supervisory responsibility

for preparation of the EIS. Relevant factors in the determination of the appropriate "lead agency" include the time sequence in which the agencies become involved, the magnitude of agency involvement, and agency expertise with respect to the environmental effects of the actions. Where there is a question regarding the primary responsibility for statement preparation, the matter will be referred to the Assistant Commissioner for Space Management (PR), for consultation with EPA for resolution. However, it is possible for a statement to be submitted jointly by all agencies concerned with the comments being returned to a single designated agency official. If GSA is the "lead agency" and one or more agencies have partial responsibility for the action, the other agencies shall be requested to provide to the appropriate responsible PBS official such information as may be necessary to prepare a suitable and complete environmental impact statement. If another agency is designated to be the "lead agency," the criteria for statement preparation for that agency shall apply.

b. The General Services Administration (GSA) will serve as the lead agency in all projects involving construction of buildings by the Public Buildings Service.

17. *Public hearings.* a. Prior to the distribution of a draft EIS for a project, a determination shall be made by the responsible official regarding whether a public hearing should be held. This determination shall be documented and attached to the draft EIS. The following factors shall be considered in determining whether a public hearing is appropriate:

(1) The magnitude of the proposal in terms of economic costs, geographic area involved, and the uniqueness or size of commitment of resources involved;

(2) The degree of interest in the proposal as indicated by requests from the public and Federal, State and local authorities that a hearing be held;

(3) The complexity of the issue and the likelihood that information will be presented at the hearing which will be of assistance to the agency in fulfilling its responsibilities under NEPA; and

(4) The extent to which public involvement already has been achieved with respect to environmental concerns through other means, such as earlier public hearings, meetings with citizen representatives, and/or written comments on proposed action.

b. The draft EIS shall be made available to the public at least 15 calendar days prior to the hearing.

c. The notice of public hearing shall be issued no later than 5 workdays after distribution of the draft EIS and shall be published in a local newspaper of general circulation at least 15 calendar days prior to the date of the hearing. The notice shall contain but is not necessarily limited to the following:

(1) The date, time, place and purpose of the hearing;

(2) A description of program, the proposed project and project area;

(3) A declaration that any person or organization desiring to comment on the draft EIS will be given an opportunity to be heard;

(4) The location and times where the draft EIS will be available for review by the public; and

(5) The Federal agency or agencies sponsoring the project.

d. Verbatim transcript of the hearing shall be kept.

e. Where necessary a reasonable time limit may be established for each speaker.

f. A public hearing shall be held after publication of the draft for all Bureau of Prisons projects.

g. A public informational meeting can be held at anytime that such a meeting is deemed necessary.

18. *Early notice system.* a. It is necessary to provide timely public notice and understanding of PBS projects and actions that may have an environmental impact and to obtain the views of interested parties. Therefore, Regional Commissioners (PBS), shall establish an early notice system for informing the public of the decision to prepare a draft EIS on proposed master plan, new construction, leasing and repair and alteration projects. A list shall be maintained of all projects or actions for which environmental impact statements will be prepared, and shall be updated weekly and available for public inspection. Regional Commissioners (PBS), shall submit early warning lists to the Assistant Commissioner for Space Management (PR) for compilation and publication in the Federal Register. Regional lists are to be submitted to PR normally by c.o.b. March 5, June 5, September 5, and December 5 of each year. The reports control symbol PB-123 has been assigned to this report. (See the HB, Preparation of environmental impact assessments and statements (PBS P 1095.4), for format instructions.)

b. If it is decided that an EIS is not necessary for a proposed action (1) which normally would require and EIS as identified in subpar. 6a of this attachment, (2) which is similar to actions for which a significant number of statements have been prepared, (3) which has previously been announced as the subject of a statement, or (4) for which a negative declaration has been made in response to a request from CEQ pursuant to section 1500.11(f) of the Guidelines, the Regional Commissioner shall prepare a publicly available record briefly setting forth the decision and reasons for the declaration. The list of such negative declarations and any evaluations made to support the declaration or which conclude that preparation of a statement is not yet timely shall be made available to the public on request in the same manner as provided for lists of statements under preparation. (See subpar. 17a, above.)

19. *Format requirements.* a. Type draft and final environmental impact statements on white paper with clear black type;

b. The statement number will be assigned in Central Office by the Assistant Commissioner for Space Management (PR), in accordance with PBS Information System procedures.

c. Prepare a summary sheet in accordance with the format prescribed in appendix I of the CEQ Guidelines and attach to the environmental impact statements as the second page; and

d. Prepare a cover sheet for each environmental statement.

NOTE: Detailed information on preparing an EIA and EIS and a sample format are found in PBS P 1095.4.

# DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Alcohol, Drug Abuse, and Mental Health Administration

EMPLOYEES OF RESEARCH FOUNDATION FOR MENTAL HYGIENE, INC.

Research on Mental Health; Authorization of Confidentiality

Under the authority vested in the Secretary of Health, Education, and Welfare by Section 303(a) of the Public Health Service Act (42 U.S.C. 242a(a)), all persons, who:

1. are employed by Research Foundation for Mental Hygiene, Inc., New York, New York, and Memphis, Tennessee; and

2. have, in the course of their employment, access to information which would identify individuals who are the subjects of the research on mental health which is assisted by the Department of Health, Education, and Welfare grant numbered R01 MH 32841 titled "The Evaluation and Treatment of Sexual Aggressives"; are hereby authorized to protect the privacy of the individuals who are the subjects of that research by withholding their names and other identifying characteristics from all persons not connected with the conduct of that research.

As provided in Section 303(a) of the Public Health Service Act (42 U.S.C. 242a(a)):

Persons so authorized to protect the privacy of such individuals may not be compelled in any Federal, State, or local civil, criminal, administrative, legislative, or other proceedings to identify such individuals.

This authorization does not authorize employees of Research Foundation for Mental Hygiene, Inc. to refuse to reveal to qualified personnel of the Department of Health, Education, and Welfare for the purpose of management or financial audits or program evaluation, the names or other identifying characteristics of individuals who are the subjects of the research conducted pursuant to the Department of Health, Education, and Welfare grant numbered R01 MH 32841. Such personnel will hold any identifying information so obtained strictly confidential in accordance with 45 CFR 5.71.

This authorization is applicable to all information obtained pursuant to Department of Health, Education, and Welfare grant numbered R01 MH 32841 which would identify individuals who are subjects of the research conducted under the grant.

Dated: December 5, 1978.

HERBERT PARDES,  
Director, National Institute of Mental Health.

Dated: December 8, 1978.

KARST BESTEMAN,  
Acting Director, National Institute on Drug Abuse.

Dated: December 14, 1978.

GERALD L. KLIERMAN,  
Administrator, Alcohol, Drug Abuse, and Mental Health Administration.

Center for Disease Control

MINE HEALTH RESEARCH ADVISORY COMMITTEE (FORMERLY COAL MINE HEALTH RESEARCH ADVISORY COMMITTEE)

Rechartering

Pursuant to the Federal Advisory Committee Act, 5 U.S.C. Appendix I, the Center for Disease Control announces the rechartering by the Secretary, HEW, on December 18, 1978, of the Mine Health Research Advisory Committee.

The Federal Mine Safety and Health Amendments Act of 1977 amended the Coal Mine Health and Safety Act of 1969. The new Act established a single law governing worker safety and health in all mining operations, and mandated appointment of an advisory committee on coal or other mine health research. The Coal Mine Health Research Advisory Committee has been renamed, therefore, and the charter has been modified to include all types of mine health research.

Dated: December 20, 1978.

WILLIAM C. WATSON, JR.,  
Director,  
Center for Disease Control.

Food and Drug Administration

A. H. ROBINS CO.

Elanone-V (Loperone Hydrochloride) Injection and Tablets Withdrawal of Approval of New Animal Drug Applications

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: This notice withdraws approval of new animal drug applications (NADA's) 96-508 and 97-901, which provide for use of Elanone-V in-

jection as a tranquilizer in dogs and cats and Elanone-V tablets as a tranquilizer in dogs. A. H. Robins Co., the sponsor, requested this action.

EFFECTIVE DATE: December 29, 1978.

FOR FURTHER INFORMATION CONTACT:

Louis L. Nangeroni, Bureau of Veterinary Medicine (HFV-216), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, MD 20857, 301-443-4093.

SUPPLEMENTARY INFORMATION: A. H. Robins Co., Research Laboratories, 1211 Sherwood Ave., Richmond, VA 23220, is the sponsor of NADA 96-508 that covers Elanone-V injection intended for use intravenously (0.10 to 0.40 milligram (mg) per pound of body weight) and intramuscularly (0.20 to 0.80 mg per pound of body weight) in dogs and cats as a tranquilizer. Each milliliter of the product contains 5 mg of loperone hydrochloride. The firm is also the sponsor of NADA 97-901 covering Elanone-V tablets. Each tablet contains 5 mg of loperone hydrochloride. The tablets are administered orally at 0.25 to 1.0 mg per pound of body weight, every 5 to 8 hours. They are indicated for use on dogs as a tranquilizer. Both NADA's were originally approved on August 20, 1975.

By letter of July 27, 1978, the firm stated that it no longer markets these products and requested withdrawal of approval of the NADA's and waived opportunity for hearing. In a separate document published elsewhere in this issue of the FEDERAL REGISTER, the agency is revoking the regulations for these products.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 512(e), 82 Stat. 345-347 (21 U.S.C. 360b(e))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.1) and redelegated to the Director of the Bureau of Veterinary Medicine (21 CFR 5.84), and in accordance with § 514.115 *withdrawal of approval of applications* (21 CFR 514.115), notice is given that approval of NADA's 96-508 and 97-901 and all supplements thereto for Elanone-V injection and Elanone-V tablets is hereby withdrawn, effective (December 29, 1978.)

Dated December 19, 1978.

LESTER M. CRAWFORD,  
Director, Bureau of Veterinary Medicine.

[FR Doc. 78-35910 Filed 12-28-78; 8:45 am]

[4110-03-M]

[NADA 13-436]

MENLO PARK LABORATORIES, INC.

Skin Antiseptic and Cleanser; Withdrawal of Approval of NADA

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Director of the Bureau of Veterinary Medicine withdraws approval of a new animal drug application (NADA) providing for the use of Vet Spray Skin Antiseptic and Cleanser on cats, dogs, cows, and horses as a surgical disinfectant and as an antiseptic cleanser. The sponsor, Menlo Park Laboratories, requested this action.

EFFECTIVE DATE: December 29, 1978.

FOR FURTHER INFORMATION CONTACT:

Louis L. Nangeroni, Bureau of Veterinary Medicine (HFV-216), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, MD 20857, 301-443-4093.

SUPPLEMENTARY INFORMATION: Menlo Park Laboratories, Inc., Menlo Park Center, P.O. Box 305, Edison, NJ 08817, is the sponsor of NADA 13-436, which provides for use of Vet Spray Skin Antiseptic and Cleanser on cats, dogs, cows, and horses as a surgical disinfectant and as an antiseptic cleanser.

By letter of May 8, 1978, the firm requested that approval of NADA 13-436 be withdrawn because the drug is no longer being marketed, and waived opportunity for a hearing.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 512(e), 82 Stat. 345-347 (21 U.S.C. 360b(e))), under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.1) and redelegated to the Director of the Bureau of Veterinary Medicine (21 CFR 5.84), and in accordance with § 514.115 *Withdrawal of approval of applications* (21 CFR 514.115), notice is hereby given that approval of NADA 13-436 and all supplements thereto is hereby withdrawn, effective December 29, 1978.

Dated: December 19, 1978.

LESTER M. CRAWFORD,  
Director, Bureau of Veterinary Medicine.

## Office of the Secretary

## PRIVACY ACT OF 1974

System of Records and Notice of Proposed  
Routine Uses

AGENCY: Department of Health, Education, and Welfare.

ACTION: Notification of new systems of records, Studies of Possible Influences on Cognitive and Emotional Development of Children, HEW/NIH NICHD, 09-25-0138; International Activities: Scientific Visitors at the National Institutes of Health, HEW/NIH/FIC, 09-25-0140.

SUMMARY: The National Institutes of Health (NIH) is hereby publishing the new systems of records in accordance with the requirements of 5 U.S.C. 552a(e)(4). In accordance with the requirements of 5 U.S.C. 552a(e)(11), the routine uses of these proposed systems are set out for public comment. Interested persons are invited to submit written comments with respect to these routine uses.

DATES: The National Institutes of Health will adopt the routine uses as proposed without further notice January 28, 1979, unless comments are received on or before January 28, 1979, which would result in a contrary determination. NIH has filed a report on proposed new systems of records with the Director, Office of Management and Budget, the Speaker of the House, and President of the Senate on Dec. 22, 1978. Because of the requirements in OMB Circular A-108, however, the systems will not be put into effect until sixty (60) days after this filing date.

ADDRESS: Comments should be addressed to Acting Director, Fair Information Practices Staff, Department of Health, Education, and Welfare, 200 Independence Avenue, SW., Washington, D.C. 20201. Comments received will be available for inspection in Room 526-F, Hubert F. Humphrey Building, at the above address.

FOR FURTHER INFORMATION  
CONTACT:

Robert J. Slevin, NIH Privacy Act Coordinator, Building 31, Room 3B07, 9000 Rockville Pike, Bethesda, Maryland 20014, or call 301-496-2461.

SUPPLEMENTARY INFORMATION: The National Institute of Child Health and Development (NICHD) proposes to study the possible influences on Cognitive and Emotional Development of Children. In order to carry out the appropriate analyses, NICHD must be able to collate data from a wide variety of sources. The only way to do this is to identify the

## NOTICES

data on each individual with a specific identifier so as to assure absolute correlation of data among the various sources.

NICHD will maintain the records in this system in a secure manner compatible with their content and use. Access will be given only to Department employees whose official duties require access for verification, coding and statistical manipulation and evaluation purposes. NICHD will keep records in locked file cabinets or rooms under the direct control of the Principal Investigator.

The Fogarty International Center (FIC) proposes to report an ongoing program for scientific visitors. The system of records is for administrative purposes only.

FIC has collected approximately fifty (50) data items on each applicant which include, among other items, education, work experience, and references.

Because this is an on-going program, FIC performed a risk analysis on the system of records in accordance with Chapter 45-13 of the HEW General Administration Manual.

NIH did not report the system of records earlier because the great majority of individuals involved are aliens and NIH failed to recognize the U.S. citizens involved.

Dated: December 22, 1978.

FREDERICK M. BOHEN,  
Assistant Secretary for  
Management and Budget.

09-25-0138

## System name:

Biomedical Research: Studies of Possible Influence on Cognitive and Emotional Development of Children, HEW/NIH/NICHD

## Security classification:

None.

## System location:

National Institute of Child Health and Human Development Building 31, Room 2B215, 9000 Rockville Pike, Bethesda, Maryland 20014 and NIH Building 12, 9000 Rockville Pike, Bethesda, Maryland 20014.

## Categories of individuals covered by the system:

Parents and their children who have specifically agreed to participate in studies of the Social and Behavioral Sciences Branch.

## Categories of records in the system:

Psychological tests, observations and parental responses to questionnaires and interviews regarding various aspects of the child's development.

Authority for maintenance of the system:  
42 U.S.C. 241, 289d.

Routine uses of records maintained in the system, including category of users and the purposes of such uses:

1. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

2. Certain infectious diseases are reported to state governments as required by law.

3. To the Department of Justice or other appropriate Federal Agencies in defending claims against the U.S. when the claim is based upon an individual's mental or physical condition and is alleged to have arisen because of activities of the Public Health Service in connection with such individual. (See Appendix B, Department Regulations, [45 CFR, Part 5b], item 100).

4. In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his/her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his/her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected.

Policies and practices for storing, retrieving, assessing, retaining, and disposing of records in the system:

## Storage:

File folders, microfiche, computer tapes and discs.

## Retrievability:

Identifier codes and names. HEW uses to determine: (1) prenatal and paratnatal correlates of later development; (2) possible environmental influences on later development; (3) stability of development; and (4) possible early predictors of later cognitive and emotional difficulties.

## Safeguards:

Data will be kept in secured areas and access limited to authorized personnel (system manager and research staff). Access to computerized data is controlled by the use of identification codes known only to authorized personnel. For computerized records the investigator will comply, where appropriate,

with Department standards and National Bureau of Standards Guidelines. For example, access is controlled by use of security codes known only to authorized personnel.

## Retention and disposal:

One year to five years, depending on the study. Hard copy shredded; computer tapes and discs erased.

## System manager(s) and address:

Chief, Social and Behavioral Sciences Branch, National Institute of Child Health and Human Development, Building 31, Room B2B-15, 9000 Rockville Pike, Bethesda, Maryland 20014.

## Notification procedure:

To determine if a file exists, write to system manager and provide the following information:

a. System name: Studies of Possible Influences in Early Cognitive and Emotional Development carried out by the Social and Behavioral Sciences Branch

b. Complete name at time of study

c. Home address at time the study was undertaken

d. Dates(s) at the time information was provided (if known)

e. Birth date

f. An individual who requests notification of or access to a medical record shall at the time the request is made designate in writing a responsible representative who will be willing to review the record and inform the subject individual of its contents at the representative's discretion. (These notification and access procedures are in accordance with Department Regulations (45 CFR, Section 5b.6)).

g. There are special procedures for requests on a minor's behalf. These procedures are described in full in Department Regulations (45 CFR, Section 5b.6(c)).

## Record access procedures:

Same as notification procedures. Requestors should also reasonably specify the record contents being sought.

## Contesting record procedures:

Write to system manager and reasonably identify the record and specify the information to be contested. These procedures are in accordance with Department Regulations (45 CFR, Part 5b.7).

## Record source categories:

Information provided by subjects, family, and clinical investigators.

## Systems exempted from certain provisions of the Act:

None.

09-25-0140

## System name:

International Activities: Scientific Visitors at the National Institutes of Health, HEW/NIH/FIC

Security classification (if none, so state):  
None

## System location:

Fogarty International Center, Building 16A, and Division of Computer Research and Technology, Building 12, National Institutes of Health, 9000 Rockville Pike, Bethesda, Maryland 20014.

Ancillary records are located in laboratories where participants are assigned.

Categories of individuals covered by the system:

Health scientists (mainly foreign but some resident aliens and US citizens) at all levels of their postdoctoral careers who are invited to the National Institutes of Health campus for further training or to conduct research in their biomedical specialties.

## Categories of records in the system:

History of fellowship, employment and/or stay at NIH; education and references. For payroll purposes, social security numbers are requested of all applicants accepted into the program.

Authority for maintenance of the system:  
42 U.S.C. 2421.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

1. Information is made available to authorized employees and agents of the US, including the General Accounting Office, for purposes of investigations, inspections and audits, and in appropriate cases, to the Department of Justice for proper action under civil and criminal laws.

2. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of the individual.

3. In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice.

tice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

## Storage:

They are stored in file folders and on file cards, magnetic tape and microfilm.

## Retrievability:

By name and country of citizenship. HEW Use: The program was established to facilitate the exchange of ideas among scientists at all levels of their postdoctoral research careers who spend from one to three years in the laboratories of NIH. Biographical information and references are submitted by the prospective participants for use by the review staffs of NIH and other Public Health Service agencies (Food and Drug Administration and Alcohol, Drug Abuse, and Mental Health Administration) which maintain laboratories on the NIH campus. Invitations are extended by the Directors of the Institutes and other PHS agencies.

## Safeguards (access controls):

Access limited to authorized personnel (system manager and staff). For computerized records, safeguards established in accordance with Department standards and National Bureau of Standards guidelines (e.g., security codes) are used, limiting access to authorized personnel.

## Retention and disposal:

Records of successful applicants are retained indefinitely.

System manager(s) and address (Include ZIP Code):

Chief, International Visitors Center, Fogarty International Center, Building 16A, Room 101, National Institutes of Health, 9000 Rockville Pike, Bethesda, Maryland 20014.

## Notification Procedure:

Requests for notification of or access to records should be addressed to the system manager as listed above. Verification of identity is required. This procedure is in accordance with Department Regulations 45 CFR Part 5b.5.

## Record access procedures:

Same as notification procedure. Requestors should also reasonably specify the record contents being sought. These access procedures are in accordance with Department Regulations 45 CFR, Section 5b.5.

Contesting record procedures:

Contact the official under notification procedure above, and reasonably identify the record and specify the information to be contested. These procedures are in accordance with Department Regulations 45 CFR, Section 5b.7.

Record source categories:

Applicants and persons supplying references.

Systems exempted from certain provisions of the act (If none, so state):

None.  
[FR Doc. 78-36325 Filed 12-26-78; 2:16 pm]

[4110-35-M]

HOSPITAL INSURANCE MONTHLY PREMIUM  
Premium Rate for the Uninsured Aged.

Under the authority in Section 1818(d)(2) of the Social Security Act (42 U.S.C. 1395i-2(d)(2)), I have determined that the monthly hospital insurance premium for the uninsured aged for the 12 months beginning July 1, 1979, is \$69.

Section 1818 of the Social Security Act provides for voluntary enrollment in the hospital insurance program (Part A of Medicare), subject to payment of a monthly premium, by certain uninsured persons age 65 and older who do not otherwise meet the requirements for entitlement to hospital insurance. (Insured persons need pay no hospital insurance premiums.)

Section 1818(d)(2) of the Act requires the Secretary to determine and publish, during the last quarter of each calendar year, the amount of the monthly Part A premium for voluntary enrollment for the 12-month period beginning with the following July 1. That section also requires that, for the period beginning July 1, 1979, the premium must be \$33 multiplied by the ratio of (1) the 1979 inpatient hospital deductible to (2) the 1973 inpatient hospital deductible, rounded to the nearest multiple of \$1 or, if midway between multiples of \$1, to the next higher multiple of \$1.

Under section 1813(b)(2) of the Act, the 1979 inpatient hospital deductible was determined to be \$160. (See 43 F.R. 44891, September 29, 1978.) The 1973 deductible was actuarially determined to be \$76, although the 1973 deductible was actually promulgated to be only \$72 to comply with a ruling of the Cost of Living Council. (See 37

F.R. 21452, October 11, 1972.) The monthly premium for the 12-month period ending June 30, 1980, has been calculated using the \$76 deductible for 1973, since this appears to satisfy more closely the intent of the law. Thus the monthly hospital insurance premium is  $\$33 \times (160/76) = \$69.47$ , which is rounded to \$69.

Dated: December 21, 1978.  
JOSEPH A. CALIFANO, Jr.,  
Secretary.

[4110-35-M]

SUPPLEMENTARY MEDICAL INSURANCE FOR THE AGED AND DISABLED (PART B OF MEDICARE)

Monthly Actuarial Rates and Monthly Premium Rate

Each December, the Secretary of Health, Education, and Welfare is required by law to promulgate two notices relating to the Medicare Supplementary Medical Insurance (SMI) program.

One notice announces two amounts which, according to actuarial estimates, will equal, respectively, one-half the expected average monthly cost of SMI benefits per aged enrollee (age 65 or over) and one-half the expected average monthly cost of SMI per disabled enrollee (under age 65) during the 12 months beginning the following July. These amounts are called "monthly adequate actuarial rates."

The second notice is the monthly SMI premium rate to be paid by the aged and disabled enrollees for the 12 months beginning the following July. (Although the costs to the program per disabled enrollee are higher than for the aged, the law provides that they pay the same premium amount.) The premium rate must be the lesser of the adequate actuarial rate for aged enrollees, or the current monthly premium rate increased by the same percentage as the most recent general increase in monthly title II social security benefits (effective the preceding June). The difference between the premiums paid by all enrollees and total incurred costs is met from the general revenues of the Federal Government.

The notices of these announcements for the period July 1, 1979, through June 30, 1980, are as follows:

NOTICE OF MONTHLY ADEQUATE ACTUARIAL RATES

As required by sections 1839(c)(1) and (4) of the Social Security Act (42 U.S.C. 1395r(c)(1) and (4)), as amended, I hereby determine that the monthly adequate actuarial rates applicable for the 12-month period beginning July 1, 1979, are \$13.40 for enrollees age 65 and over, and \$25.00 for disabled enrollees under age 65. The accompanying statement gives the actuarial assumptions and bases from which these rates are derived.

NOTICE OF MONTHLY PREMIUM RATE

Under the authority granted by law, I have determined and hereby announce that the basic premium amount required by section 1839(c)(3) of the Social Security Act (42 U.S.C. 1395r(c)(3)), as amended, will be \$8.70 monthly during the period beginning July 1, 1979, and ending June 30, 1980.

STATEMENT OF ACTUARIAL ASSUMPTIONS AND BASES EMPLOYED IN DETERMINING THE MONTHLY ADEQUATE ACTUARIAL RATES AND THE STANDARD MONTHLY PREMIUM RATE FOR THE SUPPLEMENTARY MEDICAL INSURANCE PROGRAM BEGINNING JULY 1979

1. ACTUARIAL STATUS OF THE SUPPLEMENTARY MEDICAL INSURANCE TRUST FUND

The law requires that the Supplementary Medical Insurance (SMI) program be financed on an incurred basis. That is, program income during the 12-month period for which the adequate actuarial rates are effective must be sufficient to pay for services rendered during that period (plus the Government's related administrative costs) even though payment for some of these services will not be made until after the close of the period. The portion of income required to cover benefits not paid until after the close of the 12-month period is added to the trust fund until needed. Thus, the assets in the trust fund at any time should be no less than benefit and administrative costs incurred but not yet paid.

Because the adequate rates are established prospectively, they are subject to projection error. As a result, the income to the program may not equal incurred costs. Therefore, trust fund assets should be maintained at a level which is adequate to cover the impact of a moderate degree of projection error in addition to the amount of incurred but unpaid expenses. Table 1 summarizes the estimated actuarial status of the trust fund as of June 30 for each of the years 1977-79.

TABLE I--ACTUARIAL STATUS OF THE SMI TRUST FUND  
YEARS ENDING JUNE 30 OF 1977-79  
(In Millions)

| Year ending<br>June 30 | Assets  | Liabilities | Assets less<br>liabilities |
|------------------------|---------|-------------|----------------------------|
| 1977                   | \$2,258 | \$1,763     | \$ 495                     |
| 1978                   | 3,824   | 2,237       | 1,587                      |
| 1979                   | 4,782   | 2,565       | 2,217                      |

2. MONTHLY ADEQUATE ACTUARIAL RATE FOR ENROLLEES AGE 65 AND OLDER

The monthly adequate actuarial rate is one-half the monthly projected cost of benefits and administrative expenses for each enrollee age 65 and older, adjusted to allow for the following: interest earnings on assets in the trust fund; contingency margin; and amortization of unfunded liabilities.

The monthly adequate actuarial rate for enrollees age 65 and older for the

year ending June 30, 1980, was determined by projecting per enrollee cost for the 12-month period ending June 30, 1977, by type of service. The projected costs for the years ending June 30 of 1977-80 are shown in Table 2. The values for the 12-month period ending June 30, 1977, were established from program data. Subsequent years were projected using a combination of program data and data from external sources. The projection factors used are shown in Table 3.

TABLE 2--DERIVATION OF PROMULGATED MONTHLY RATE FOR ENROLLEES AGE 65  
AND OVER YEARS ENDING JUNE 30 OF 1977-80

|                                                                      | 1977         | 1978         | 1979         | 1980         |
|----------------------------------------------------------------------|--------------|--------------|--------------|--------------|

| <b>Promulgated monthly rate</b>                                      | <b>10.70</b> | <b>12.30</b> | <b>13.40</b> | <b>13.40</b> |

FEDERAL REGISTER, VOL. 43, NO. 251—FRIDAY, DECEMBER 29, 1978

The projected monthly rate required to pay for one-half of the total of benefits and administrative costs for enrollees age 65 and over for the year ending June 30, 1980, is \$14.63. The monthly adequate actuarial rate of \$13.40 provides an adjustment for interest earnings and a small margin for contingencies.

### 3. MONTHLY ADEQUATE ACTUARIAL RATE FOR DISABLED ENROLLEES

Disabled enrollees are those persons enrolled in SMI because of entitlement to disability benefits for not less than 24 consecutive months or because of entitlement to Medicare under the end-stage renal disease program. Projected monthly costs for disabled enrollees (other than those suffering from end-stage renal disease) are prepared in a fashion exactly parallel to projections for the aged, using the same actuarial assumptions. Costs for the end-stage renal disease program are projected using a computer model because of the complex demographic problems involved. The combined results for all disabled enrollees are shown in Table 4.

The projected monthly rate required to pay for one-half of the total of benefits and administrative costs for disabled enrollees for the year ending June 30, 1980, is \$26.47. The monthly adequate actuarial rate of \$25.00 provides an adjustment for interest earnings and a small margin for contingencies.

|                                                               | 1977    | 1978    | 1979    | 1980    |
|---------------------------------------------------------------|---------|---------|---------|---------|
| Covered services (at level recognized):                       |         |         |         |         |
| Physicians' reasonable charges                                | \$11.16 | \$12.78 | \$14.28 | \$15.80 |
| Radiology and pathology                                       | .53     | .61     | .70     | .81     |
| Outpatient hospital and other institutions                    | 9.73    | 11.38   | 13.18   | 14.75   |
| Home health agencies                                          | .22     | .25     | .29     | .33     |
| Group practice plans                                          | .17     | .21     | .24     | .28     |
| Independent lab                                               | .11     | .12     | .14     | .16     |
| Total services                                                | 21.92   | 25.35   | 28.83   | 32.13   |
| Cost sharing:                                                 |         |         |         |         |
| Deductible                                                    | -1.59   | -1.62   | -1.64   | -1.65   |
| Coinsurance                                                   | -3.92   | -4.58   | -5.23   | -5.85   |
| Total benefits                                                | 16.41   | 19.15   | 21.96   | 24.63   |
| Administrative expenses                                       |         |         |         |         |
|                                                               | 1.41    | 1.38    | 1.73    | 1.84    |
| Incurred expenditures                                         | 17.82   | 20.53   | 23.69   | 26.47   |
| Value of interest on fund <sup>1</sup>                        | -1.61   | -1.96   | -2.11   | -2.21   |
| Margin for contingencies and to amortize unfunded liabilities | 2.79    | 6.43    | 3.42    | .74     |
| Promulgated monthly rate                                      | 19.00   | 25.00   | 25.00   | 25.00   |

<sup>1</sup>/The values for 1977, 1978, and 1979 differ substantially from last year's promulgation notice due to refinements in the methodology for determining interest for disabled enrollees.

## 4. SENSITIVITY TESTING

Several factors contribute to uncertainty about future trends in medical care costs. In view of this, it seems appropriate to test the adequacy under alternate assumption of the rates promulgated here. The most unpredictable factors which contribute significantly to future costs are outpatient hospital costs, physician utilization (measured indirectly and reflecting the use of more visits per enrollee, the use of more expensive services, and other factors not explained by simple

price per service increases), and increases in physician fees as constrained by the program's reasonable charge screens and economic index. Two alternative sets of assumptions and the results of those assumptions are shown in Table 5. All assumptions not shown in Table 5 are the same as in Table 3.

Table 5 indicates that, under the assumptions used in preparing this report, the promulgated monthly rates will result in an excess of assets over liabilities of \$1,737 million by the end of June 1980. This amounts to 14.7

percent of the estimated total incurred expenditures for the following year. Assumptions which are somewhat more pessimistic produce an excess of assets over liabilities of \$206 million by the end of June 1980, which amounts to 1.5 percent of the estimated total incurred expenditures for the following year. Under fairly optimistic assumptions, the promulgated monthly rates will result in an excess of assets over liabilities of \$2,777 million, which amounts to 26.1 percent of the estimated total incurred expenditures for the following year.

TABLE 5--PROJECTION FACTORS AND THE ACTUARIAL STATUS OF THE SMI TRUST FUND UNDER ALTERNATIVE SETS OF ASSUMPTIONS YEARS ENDING JUNE 30 OF 1979-80

|                                                                            | This projection |         | Low assumption |         | High assumption |         |

| Actuarial status (in millions):                                            |                 |         |                |         |                 |         |
| Assets                                                                     | \$4,782         | \$4,655 | \$5,022        | \$5,521 | \$4,444         | \$3,386 |
| Liabilities                                                                | 2,565           | 2,918   | 2,491          | 2,744   | 2,671           | 3,180   |
| Assets less liabilities                                                    | 2,217           | 1,737   | 2,531          | 2,777   | 1,773           | 206     |
| Ratio of assets less liabilities to expenditures (in percent) <sup>4</sup> | 21.6            | 14.7    | 26.4           | 26.1    | 15.7            | 1.5     |

<sup>1</sup>/As recognized for payment under the program.

<sup>2</sup>/Increase in the number of services received per enrollee and greater relative use of more expensive services.

<sup>3</sup>/The values for 1979 differ significantly from those contained in last year's promulgation notice due to an additional year's data which support the current values.

<sup>4</sup>/Ratio of assets less liabilities at the end of the year to total incurred expenditures during the following year, expressed as a percent.

## 5. STANDARD PREMIUM RATE

The law provides that the standard monthly premium rate, promulgated to apply for both aged and disabled enrollees, shall be the lesser of:

1. The adequate actuarial rate for enrollees age 65 and older; or
2. The current standard monthly premium, increased by the same percentage that the level of old-age survivors, and disability insurance (OASDI) benefits has been increased since the May preceding the promulgation (and rounded to the nearer dime).

The standard monthly premium rate for the 12-month period ending with June 30, 1979, is \$8.20. The OASDI benefit table was increased 6.5 percent in June 1978. The \$8.20 rate, increased by 6.5 percent and rounded to the nearer ten cent multiple, is \$8.70. Since this is less than the adequate actuarial rate, the standard premium rate is \$8.70 for the 12 months ending with June 1980.

Dated: December 21, 1978.

## PRESIDENT'S COMMITTEE ON MENTAL RETARDATION

## Meeting

The President's Committee on Mental Retardation was established by Executive Order to provide advice and assistance in the area of mental retardation to the President including evaluation of the adequacy of the national effort to combat mental retardation; coordination of activities of Federal agencies; provision of adequate liaison between foundations and other private organizations; and development of information designed for dissemination to the general public.

The Committee will meet on Wednesday, January 17, 1979, 1:30 p.m. to 5:00 p.m., at the Disabled American Veterans Building, First Floor Conference Room, 807 Main Avenue, S.W., Washington, D.C.; Thursday, January 18, 1979, 9:00 a.m. to 5:00 p.m., Conference Room 425A, Hubert H. Humphrey Building, 200 Independence Avenue, S.W., Washington, D.C.; and on Friday, January 19, 1979, Conference Room 800 of the Hubert H. Humphrey Building. At the meeting the Committee will discuss full citizenship rights, humane service systems, trends in residential facilities, public awareness, and prevention of mental retardation.

These meetings are open to the public. A translator for the Deaf will be available upon advanced request.

Further information on the President's Committee on Mental Retardation may be obtained from Mr. Fred J. Krause, Executive Director, Room 2614, ROB No. 3, 7th and D Streets, S.W., Washington, D.C. 20201, telephone: (202) 245-7634.

Dated: December 15, 1978.

FRED J. KRAUSE,  
Executive Director, President's  
Committee on Mental Retardation.

## [4110-07-M]

## TABLE OF AVERAGE TOTAL WAGES YEAR BY YEAR

Average Total Wages for the Years 1951-1977  
for Adjusting Actual Earnings for Use in  
Computing Social Security Benefits

I hereby determine and announce the average of total wages for each calendar year 1951 through 1977 which will be used for computing social security benefits under sections 215(a) and (b) of the Social Security Act (42 U.S.C. 415(a) and (b)). The average of the total wages for each of those years is as follows:

| Calendar year and average of the total wages |            |
|----------------------------------------------|------------|
| 1951.....                                    | \$2,799.16 |
| 1952.....                                    | 2,973.32   |
| 1953.....                                    | 3,139.44   |
| 1954.....                                    | 3,155.64   |
| 1955.....                                    | 3,301.44   |
| 1956.....                                    | 3,532.36   |
| 1957.....                                    | 3,641.72   |
| 1958.....                                    | 3,673.60   |
| 1959.....                                    | 3,855.80   |
| 1960.....                                    | 4,007.12   |
| 1961.....                                    | 4,086.76   |
| 1962.....                                    | 4,291.40   |
| 1963.....                                    | 4,396.64   |
| 1964.....                                    | 4,576.32   |
| 1965.....                                    | 4,658.72   |
| 1966.....                                    | 4,938.36   |
| 1967.....                                    | 5,213.44   |
| 1968.....                                    | 5,571.76   |
| 1969.....                                    | 5,893.76   |
| 1970.....                                    | 6,186.24   |
| 1971.....                                    | 6,497.08   |
| 1972.....                                    | 7,133.80   |
| 1973.....                                    | 7,580.16   |
| 1974.....                                    | 8,030.76   |
| 1975.....                                    | 8,630.92   |
| 1976.....                                    | 9,226.48   |
| 1977.....                                    | 9,779.44   |

We are publishing these average wages as required by section 215(a)(1)(D) of the Social Security Act as amended by the Social Security Amendments of 1977 (Pub. L. 95-216, enacted December 20, 1977).

## BACKGROUND AND PURPOSE

The Social Security Amendments of 1977 provided a new way to compute social security benefits. We are pub-

lishing a detailed explanation of the new computation method and the reasons for the change in an interim regulation amending Subpart C of Part 404 of Chapter III of Title 20 of the Code of Federal Regulations that appears elsewhere in this issue of the FEDERAL REGISTER.

Briefly, the changes involve the way benefit amounts are computed for workers who reach age 62 after 1978. The new method is intended to stabilize the relationship between benefit levels and earnings before retirement for persons who become eligible for benefits in the future. Under the benefit computation methods in the law before the 1977 amendments, the relationship between future benefit levels and preretirement earnings was unpredictable, depending on future increases in the cost of living and in average wage levels. Based on reasonable assumptions regarding future increases in the cost of living and in average wage levels, benefit levels were projected to increase faster than wage levels under the provisions in the old law. Thus, the new computation method provided in the 1977 amendments substantially improves the long-range financial condition of the Social Security Trust Funds.

The new computation methods include a new way of compensating for inflation's effects on earnings levels that occurred before a person becomes entitled to benefits. The compensation is to adjust or "index" the worker's past earnings in proportion to the changes in the country's average wage levels that have occurred during his working years. To make this adjustment, it was necessary to determine the average wages of all workers ("average of the total wages") in each calendar year from 1951 on. (The new computation method counts only those years. Under the amendments we still use an older method that also counts earnings in earlier years if that gives higher benefits, but none of the earnings will be indexed.) Section 215(a)(1)(D), as amended, directed us to do so and to publish those figures; those are the "average of the total wages" figures listed above.

## HOW WE FIGURED THE AVERAGE TOTAL WAGES

The interim regulation mentioned above explains how we determined the average total wages. Briefly, for years after 1977, they are the total wages earned in each year, divided by the total number of individuals who earned them. These totals will be obtained from data on W-2 forms submitted to the Internal Revenue Service for income tax purposes. Any individual who works for wages in more than one job is counted as only one worker.

For years before 1978, we determined average wages from data on wages earned during the first quarter of the year and reported to SSA for social security tax purposes. We multiplied the average wage for the first quarter by four to obtain the average wage for the year. We did this rather than use the total wages reported for the year because many wage earners reach the ceiling for reported taxable earnings before the end of the year, while relatively few reach it in the first quarter.

For 1973-1977, we determined average wages from data collected on all taxable wages reported to SSA for the first quarter of the year. For years prior to 1973, we used a statistical sample of such data, because data on average taxable wages reported for all employees are not available on a 100-percent basis before 1973. For 1951-1956, the size of the sample was 0.1 percent. For 1957-1972, the sample was 1 percent.

Section 215(a)(1)(D) of the Act requires the publication of the average total wages determined for years 1951-1978 by November 1, 1979. We are publishing the figures for 1951-1977 now because they will be used to compute benefits for a large number of beneficiaries as of January 1979 and because many corporations base benefits payable under their pension programs on benefits payable under social security. These figures are based on the definition of average total wages proposed in the interim regulation referred to earlier.

## DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of Assistant Secretary for Community Planning and Development

[Docket No. N-78-906]

## URBAN DEVELOPMENT ACTION GRANTS

Revised Minimum Standards for Physical and Economic Distress for Metropolitan Cities and Urban Counties

AGENCY: Department of Housing and Urban Development.

ACTION: Notice.

SUMMARY: The Department is providing Notice of the most current minimum standards of physical and economic distress for metropolitan cities, other cities over 50,000 population, and urban counties for the Urban Development Action Grant program. This Notice is required by 24 CFR 570.452(b)(1)(i). We are also providing a listing of those metropolitan cities, other cities over 50,000 population and urban counties which meet the standards of minimum physical and economic distress, following the change in data from the 1976 to the 1977 average yearly rate of unemployment compiled by the Bureau of Labor Statistics.

FOR FURTHER INFORMATION CONTACT:

Sarah Underwood, Office of Action Grants, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410, 202/755-6540.

SUPPLEMENTARY INFORMATION: On October 30, 1978 (43 FR 50668), the Department published interim regulations deleting specific reference to the minimum standards of physical and economic distress for fiscal year 1978. Section 570.452 was amended to require that HUD issue in notice form the minimum threshold for each category of distress from time to time. This notice accommodates that requirement.

Furthermore, the standard for average yearly unemployment has been changed from 7.69 percent or greater to 6.98 or greater. This is a result of a recent national update of average yearly unemployment for 1977 compiled by the Bureau of Labor Statistics. A list of metropolitan cities, other cities over 50,000, and urban counties which meet the minimum standards of distress is provided.

The following notice is published pursuant to Section 570.452(b)(1)(i) (43 FR 50668):

I. The most current minimum standards of physical and economic distress are:

(A) *Age of housing.* 34.15 percent of the applicant's year-round housing units were constructed prior to 1940, based on U.S. Census data;

(B) *Per capita income.* The net increase in per capita income for the period 1969-1974 was \$1,424 or less, based on U.S. Census data;

(C) *Population lag/decline.* For the period 1960-1975 the percentage rate of population growth (based on corporate boundaries in 1960 and corporate boundaries in 1975) was 15.52 or less, based on U.S. Census data;

(D) *Unemployment.* The average yearly rate of unemployment for 1977 was 6.98 percent or greater, based on August, 1978 data compiled by the Bureau of Labor Statistics;

(E) *Job lag/decline.* The rate of growth in retail and manufacturing employment for the period 1967-1972 was 7.08 percent or less, based on U.S. Census data. If data is not available for both retail and manufacturing employment, the threshold will be the median (based on those cities for which both sets of data are available) for either retail employment or manufacturing employment;

(F) *Poverty* 11.24 percent or more of persons within the applicant's jurisdiction are at or below the poverty level, based on 1970 U.S. Census data;

II. The following cities have met the current minimum standards of physical and economic distress:

| ALABAMA           |                |
|-------------------|----------------|
| Anniston          | Mobile         |
| Birmingham        | Montgomery     |
| Florence*         | Tuscaloosa     |
| Gadsden           |                |
| ARKANSAS          |                |
| North Little Rock | Texarkana      |
| Pine Bluff        |                |
| CALIFORNIA        |                |
| Alhambra          | Ontario        |
| Bakersfield       | Pasadena       |
| Berkeley          | Pico Rivera    |
| Burbank           | Pomona         |
| Chula Vista       | Richmond       |
| Compton           | Riverside      |
| El Monte          | Sacramento     |
| Fresno            | San Bernardino |
| Glendale          | San Francisco  |
| Inglewood         | Santa Barbara  |
| Lompoc            | Santa Cruz     |
| Long Beach        | Santa Monica   |
| Los Angeles       | Seaside        |
| Norwalk           | South Gate     |
| Oakland           | Stockton       |
| COLORADO          |                |
| Denver            | Pueblo         |
| CONNECTICUT       |                |
| Bridgeport        | New London     |
| Hartford          | Norwalk        |
| Meriden           | Norwich        |
| New Britain       | Waterbury      |
| New Haven         | West Haven     |

| DELAWARE             |                 | MICHIGAN      |                  | PENNSYLVANIA   |                  |
|----------------------|-----------------|---------------|------------------|----------------|------------------|
| Wilmington           |                 | Battle Creek  | Jackson          | Allentown      | Lancaster        |
|                      |                 | Bay City      | Kalamazoo        | Altoona        | Philadelphia     |
|                      |                 | Dearborn      | Lansing          | Bethlehem      | Pittsburg        |
|                      |                 | Detroit       | Muskegon         | Chester        | Reading          |
|                      |                 | East Lansing  | Muskegon Heights | Easton         | Scranton         |
|                      |                 | Flint         | Pontiac          | Erie           | Upper Darby      |
|                      |                 | Grand Rapids  | Saginaw          | Harrisburg     | Wilkes-Barre     |
|                      |                 |               |                  | Hazleton       | Williamsport     |
|                      |                 |               |                  | Johnstown      | York             |

##### CALIFORNIA

##### Application

DECEMBER 13, 1978.

Notice is hereby given that pursuant to Section 28 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185), the Beacon Oil Company of Hanford, California has filed a right-of-way application, CA 5461, for an existing 6" pipeline for the purpose of transporting crude oil across the following described lands:

##### MOUNT DIABLO MERIDIAN

T. 20 S., R. 15 E.,  
Sec. 2, SW $\frac{1}{4}$ , SW $\frac{1}{4}$ SE $\frac{1}{4}$ ;  
Sec. 12, NE $\frac{1}{4}$ NE $\frac{1}{4}$ .

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved and, if so, under what terms and conditions.

Interested persons desiring to express their views should do so promptly. Persons submitting comments should include their name and address and send them to the undersigned at E-2841 Federal Office Building, 2800 Cottage Way, Sacramento, California 95825.

##### NEW MEXICO

##### Applications

DECEMBER 19, 1978.

Notice is hereby given that, pursuant to section 28 of the Mineral Leasing Act of 1920 (30 U.S.C. 185), as amended by the Act of November 16, 1973 (87 Stat. 576), El Paso Natural Gas Company has applied for two 4½-inch natural gas pipeline rights-of-way across the following lands:

NEW MEXICO PRINCIPAL MERIDIAN, NEW MEXICO

T. 31 N., R. 8 W.,  
Sec. 34, W $\frac{1}{2}$ SW $\frac{1}{4}$ .  
T. 25 N., R. 11 W.,  
Sec. 22, NE $\frac{1}{4}$ NW $\frac{1}{4}$ .

These pipelines will convey natural gas across 0.226 of a mile of public lands in San Juan County, New Mexico.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the applications should be approved, and if so, under what terms and conditions.

Interested persons desiring to express their views should promptly send their name and address to the District Manager, Bureau of Land Management, P.O. Box 6770, Albuquerque, New Mexico 87107.

FRED E. PADILLA,  
Chief, Branch of Lands  
and Minerals Operations.

##### WYOMING

##### Application

DECEMBER 20, 1978.

Notice is hereby given that pursuant to Section 28 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185), the Colorado Interstate Gas Company of Colorado Springs, Colorado filed an application for a right-of-way to construct a 4½ inch O.D. pipeline and related facilities for the purpose of transporting natural gas across the following described public lands:

##### SIXTH PRINCIPAL MERIDIAN, WYOMING

T. 20 N., R. 93 W.,  
Sec. 26, S $\frac{1}{2}$ SW $\frac{1}{4}$  and SW $\frac{1}{4}$ SE $\frac{1}{4}$ ;  
Sec. 36, S $\frac{1}{2}$ NW $\frac{1}{4}$ , NE $\frac{1}{4}$ SW $\frac{1}{4}$ , NW $\frac{1}{4}$ SE $\frac{1}{4}$ ,  
and S $\frac{1}{2}$ SE $\frac{1}{4}$ .

The pipeline with related facilities will transport natural gas produced from the Federal #1-26 gas well, located in the SW $\frac{1}{4}$ SW $\frac{1}{4}$  of sec. 26, to a point of connection with Colorado In-

terstate Gas Company's existing pipeline located in the SE $\frac{1}{4}$ SE $\frac{1}{4}$  sec. 36, T. 20 N., R. 93 W., 6th P.M., in Sweetwater County, Wyoming.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved and, if so, under what terms and conditions.

Interested persons desiring to express their views should do so promptly. Persons submitting comments should include their name and address and send them to the District Manager, Bureau of Land Management, 1300 Third Street, P.O. Box 670, Rawlins, Wyoming 82301.

##### WYOMING

##### Application

DECEMBER 20, 1978.

Notice is hereby given that pursuant to Section 28 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185), the Cities Service Gas Company of Oklahoma City, Oklahoma filed an application for a right-of-way to construct a 4½ inch pipeline and related anode facilities for the purpose of transporting natural gas across the following described public lands:

##### SIXTH PRINCIPAL MERIDIAN, WYOMING

T. 21 N., R. 94 W.,  
Sec. 4, S $\frac{1}{2}$ NW $\frac{1}{4}$ .

The pipeline with appurtenant anode facilities will transport natural gas produced from the Siberia Ridge 7-A Well located in the SE $\frac{1}{4}$ NW $\frac{1}{4}$  of sec. 5, to a point of connection with Cities Service Gas Company's existing pipeline in the SE $\frac{1}{4}$ NW $\frac{1}{4}$  of sec. 4, in T. 21 N., R. 94 W., Sweetwater County, Wyoming.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved and, if so, under what terms and conditions.

Interested persons desiring to express their views should do so promptly. Persons submitting comments should include their name and address and send them to the District Manager, Bureau of Land Management,

1300 Third Street, P.O. Box 670, Rawlins, Wyoming 82301.

(Buffalo 041392 Amendment)

#### WYOMING

##### Application

DECEMBER 20, 1978.

Notice is hereby given that pursuant to Section 28 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185), the Marathon Pipe Line Company of Casper, Wyoming filed an application to amend their existing right-of-way B-041392 to install a rectifier, deep-well ground bed and related facilities for the maintenance of their existing 6 inch pipeline across the following described lands:

SIXTH PRINCIPAL MERIDIAN, WYOMING  
T. 51 N., R. 93 W.,  
Sec. 24, SW $\frac{1}{4}$ SE $\frac{1}{4}$ .

These facilities are required for the operation and maintenance of Marathon Pipe Line Company's existing 6 inch pipeline in T. 51 N., R. 93 W., in Big Horn County, Wyoming.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved and, if so, under what terms and conditions.

Interested persons desiring to express their views should do so promptly. Persons submitting comments should include their name and address and send them to the District Manager, Bureau of Land Management, 1700 Robertson Avenue, P.O. Box 119, Worland, Wyoming 82401.

##### BUTTE DISTRICT GRAZING ADVISORY BOARD

##### Meeting

Notice is hereby given, in accordance with Pub. L. 94-579, that a meeting of the Butte District Grazing Advisory Board will be held on Thursday, February 8, 1979.

The meeting will begin at 9 a.m. in the meeting room of the Capri Motel, 220 North Wyoming Street, Butte, Montana.

The agenda for the meeting will include:

- (1) A discussion of the function and constraints of grazing advisory boards;
- (2) Election of officers;
- (3) A review of the District's allotment management plans (AMP's) as they relate to the expenditure of range betterment funds;
- (4) A review of current progress on the District's range environmental statements;
- (5) Public comments;
- (6) Arrangements for the next meeting.

This is the first meeting of the board, which shall serve to offer advice and make recommendations regarding commercial livestock grazing in the development of allotment management plans and the utilization of range betterment funds within the Butte District.

The meeting is open to the public. Interested persons may make oral statements to the board during the public comment period, or file written statements for the board's consideration. Anyone wishing to make an oral statement must notify the District Manager, Bureau of Land Management, P.O. Box 308, Butte, Montana 59701 by February 6, 1979. Depending on the number of persons wishing to make oral statements, a per person time limit may be established by the District Manager.

Summary minutes of the board meeting will be maintained in the District Office and will be available for public inspection and reproduction, during regular business hours, within 30 days following the meeting.

Dated: December 19, 1978.

GERALD L. QUINN,  
Acting District Manager.

##### ROCK SPRINGS DISTRICT GRAZING ADVISORY BOARD

##### Meeting

Notice is hereby given in accordance with Pub. L. 92-463 that a meeting of the Rock Springs District Grazing Advisory Board will be held on February 1, 1979.

The meeting will begin at 9:00 a.m. in the conference room of the Bureau of Land Management office on Highway 187 North, Rock Springs, Wyoming.

The agenda for the meeting will include:

- (1) Review and discussion of Allotment Management Plans (AMP's) for the Sandy Grazing Environmental Statement Area

(2) A reading of written statements and public comment period.

The meeting is open to the public. Interested persons may make oral statements to the board during the public comment period, or file written statements for the board's consideration. Anyone wishing to make an oral statement must notify the District Manager, Bureau of Land Management, Highway 187 North, P. O. Box 1869, Rock Springs, Wyoming 82901 by January 29, 1979.

Depending on the number of persons wishing to make oral statement, a per person time limit may be established by the District Manager.

Summary minutes of the board meeting will be maintained in the District Office and be available for public inspection and reproductions (during regular business hours) within 30 days following the meeting.

JERRY K. OSTROM,  
Assistant District Manager,  
Rock Springs District.

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: Notice is hereby given in accordance with Pub. L. 92-463 that a meeting of the Vernal District Grazing Advisory Board will be held on February 9, 1979.

The meeting will begin at 10:30 a.m. in the conference room of the Bureau of Land Management office, 170 South 5th East, Vernal, Utah.

The agenda for the meeting will include:

- (1) Organization of the Board
- (2) A discussion of duties and functions of the Board
- (3) The expenditure of range betterment funds for range improvements
- (4) A discussion of the relationships of the Vernal Taylor Grazing Committee with the Board
- (5) A review of current policy and programs relating to allotment management plans including the on-going and future grazing environmental statement effort
- (6) Discussion of the Board's future involvement with the allotment management program
- (7) A discussion of the Public Rangelands Improvement Act of 1978
- (8) The arrangements for the next meeting.

The meeting is open to the public. Interested persons may make oral statements for the Board's consideration. Anyone wishing to make an oral statement must notify the District Manager, Bureau of Land Management,

ment; P.O. Box F; Vernal, Utah, by February 2, 1979. Depending on the number of persons wishing to make oral statements, the District Manager may establish a per person time limit. Summary minutes of the Board meeting will be maintained in the District Office and be available for public inspection and reproductions (during regular business hours) within 30 days following the meeting.

Date Signed: December 20, 1978.

LLOYD H. FERGUSON,  
District Manager.

##### IDAHO WILDERNESS INVENTORY

##### Proposed Decision

Notice is hereby given that the Bureau of Land Management has completed the first phase of wilderness inventories on certain public lands in Idaho. The inventories, following guidelines established by the Bureau, were conducted in advance of the statewide inventory in order to meet time commitments previously established for two proposed pipeline projects, the Northern Tier Pipeline and the Western Leg of the Alaska Natural Gas Transportation System, both crossing Idaho through the Coeur d'Alene District.

The proposed initial decision is that lands in Idaho crossed by the pipeline projects, with the exception of two RARE II areas previously identified by the U. S. Forest Service, clearly and obviously do not meet the criteria for identification as Wilderness Study Areas. The basis for this decision is that the lands do not meet the wilderness size requirements, as stated in the Federal Land Policy and Management Act of 1976 and the Wilderness Act of 1964.

Public comments on this proposed decision are being sought during a 60-day public review period beginning on December 20, 1978. An informal open house will be held January 10 and 11 at the BLM Coeur d'Alene District Office to provide an opportunity for public discussion and review of the proposed decision. Interested persons may contact the District by telephone if they wish to visit after regular working hours. The comment period will conclude on February 19, 1979.

To Submit comments or obtain additional information, contact:

William L. Mathews, State Director, Idaho State Office—BLM, Federal Building, Box 042, 550 W. Fort Street, Boise, Idaho 83724, Telephone: 208-384-1401.

Martin J. Zimmer, District Manager, Coeur d'Alene District Office—BLM, P. O. Box 1889, Coeur d'Alene, Idaho 83814, Telephone: 208-667-2561.

Dated: December 19, 1978.

T. G. BINGHAM  
Acting Idaho State Director,  
Bureau of Land Management.

## Wilderness Aspects; Comment Period

AGENCY: Bureau of Land Management, Interior.

ACTION: Extension of public comment period.

SUMMARY: Notice is hereby given that the public comment period deadline has been extended from December 18, 1978, as published August 23, 1978 (43FR37494) to February 16, 1979. This extension will allow the public more time to comment on the wilderness aspects of roadless areas of 5,000 acres or more that would be crossed by proposed electrical transmission, railroad and pipeline routes for the proposed Intermountain Power Project.

Date Signed: December 22, 1978.

WILLIAM G. LEAVELL,  
Associate State Director.

## Bureau of Land Management

### CAMPBELL AND CONVERSE MANAGEMENT FRAMEWORK PLANS

#### Intent

DECEMBER 22, 1978.

This notice is to advise you that the Casper, Wyoming District Office, Bureau of Land Management, is proceeding to review and supplement portions of the Campbell and Converse Management Framework Plans (MFPs) to make certain that the MFPs reflect, as completely as possible, existing statutory requirements and policies and to begin to carry out the requirements of the Federal Lands Review mandated by Section (522)(C) of the Surface Mining Control and Reclamation Act (SMCRA).

Background, standards and procedures for this MFP review and supplement preparation are contained in FEDERAL REGISTER Notice 43 FR 57662-57670 of December 8, 1978. The standards for this review are also discussed in a draft environmental statement, describing the Secretary of Interior's proposed coal program and alternatives, which was released for review on December 15, 1978 (43 FR 58776-58778).

Comments on revisions in the unsuitability criteria, through the environmental statement process as well as through participation in the MFP review process, are welcome.

For further information on the areas being reviewed, please contact: District Manager, Bureau of Land Management, 951 Union Boulevard, Casper, Wyoming 82601, (307) 265-5550 Ext. 5101.

DANIEL P. BAKER,  
State Director.

### HANNA AND OVERLAND MANAGEMENT FRAMEWORK PLANS

#### Intent

DECEMBER 22, 1978.

This notice is to advise you that the Rawlins, Wyoming District Office, Bureau of Land Management, is proceeding to review and supplement portions of the Hanna and Overland Management Framework Plans (MFPs) to make certain that the MFPs reflect, as completely as possible, existing statutory requirements and policies and to begin to carry out the requirements of the Federal Lands Review mandated by Section (522)(C) of the Surface Mining Control and Reclamation Act (SMCRA).

Background, standards and procedures for this MFP review and supplement preparation are contained in FEDERAL REGISTER Notice 43 FR 57662-57670 of December 8, 1978. The standards for this review are also discussed in a draft environmental statement, describing the Secretary of Interior's proposed coal program and alternatives, which was released for review on December 15, 1978 (43 FR 58776-58778).

Comments on revisions in the unsuitability criteria, through the environmental statement process as well as through participation in the MFP review process, are welcome.

For further information on the areas being reviewed, please contact: District Manager, Bureau of Land Management, 1300 Third Street, P.O. Box 670, Rawlins, Wyoming 82301, (307) 324-7171.

DANIEL P. BAKER,  
State Director.

## IDAHO

### Wilderness Inventory

Notice is hereby given that the Bureau of Land Management is conducting a statewide wilderness inventory of the public lands in Idaho.

The first step in this inventory process is to identify the public lands that clearly and obviously do not meet the criteria for identification as wilderness study areas, and those lands that may possibly meet the criteria and should receive more intensive inventory.

The inventory is being conducted according to the procedures outlined in the Bureau's Wilderness Inventory Handbook. The public is invited to participate in this initial inventory phase. As proposed decisions are developed, they will be announced in a subsequent notice and public meetings/workshops will be held.

Further information or copies of the Wilderness Inventory Handbook are available from the Idaho State and District Offices of the BLM.

Addresses: Bureau of Land Management, Idaho State Office, Box 042, Federal Building, Boise, Idaho 83724; Bureau of Land Management, Boise District, 230 Collins Road, Boise, Idaho 83702; Bureau of Land Management, Burley District, Route 3, Box 1, Burley, Idaho 83318; Bureau of Land Management, Idaho Falls District, 940 Lincoln Road, Idaho Falls, Idaho 83401; Bureau of Land Management, Salmon District, P.O. Box 430, Salmon, Idaho 83467; Bureau of Land Management, Shoshone District, P.O. Box 2-B, Shoshone, Idaho 83352; Bureau of Land Management, Coeur d'Alene District, P.O. Box 1889, Coeur d'Alene, Idaho 83814.

Dated: December 22, 1978.

WILLIAM L. MATHEWS,  
Idaho State Director,  
Bureau of Land Management.

## NEW MEXICO

### Application

DECEMBER 20, 1978.

Notice is hereby given that, pursuant to Section 28 of the Mineral Leasing Act of 1920 (30 U.S.C. 185), as amended by the Act of November 16, 1973 (87 Stat. 576), Northern Natural Gas Company has applied for one 12 1/4-inch natural gas pipeline right-of-way across the following lands:

NEW MEXICO PRINCIPAL MERIDIAN, NEW MEXICO

T. 19 S., R. 21 E.,  
Sec. 13, N 1/4 N 1/4 and SW 1/4 NW 1/4;  
Sec. 14, S 1/4 NE 1/4, N 1/4 SW 1/4 and NW 1/4 SE 1/4;  
Sec. 15, SE 1/4 SW 1/4, E 1/4 SE 1/4 and SW 1/4 SE 1/4;  
Sec. 20, NE 1/4 NE 1/4;  
Sec. 21, N 1/4 N 1/4;  
Sec. 22, N 1/4 NW 1/4.

T. 19 S., R. 23 E.,  
Sec. 1, lots 1, 2, 3 and S 1/4 NW 1/4;  
Sec. 2, SE 1/4 NW 1/4 and N 1/4 SW 1/4;  
Sec. 3, S 1/4 SW 1/4, N 1/4 SE 1/4 and SW 1/4 SE 1/4;  
Sec. 4, S 1/4 SE 1/4;  
Sec. 9, NW 1/4 NE 1/4;  
Sec. 18, lot 1 and NE 1/4 NW 1/4.  
T. 18 S., R. 24 E.,  
Sec. 31, SE 1/4 SW 1/4 and S 1/4 SE 1/4;  
Sec. 33, S 1/4 NW 1/4 and NW 1/4 SW 1/4.  
T. 19 S., R. 24 E.,  
Sec. 6, lots 3 and 4.  
T. 18 S., R. 26 E.,  
Sec. 19, S 1/4 NE 1/4.  
T. 18 S., R. 27 E.,  
Sec. 11, S 1/4 SE 1/4;  
Sec. 17, S 1/4 N 1/4 and NW 1/4 SW 1/4.

This pipeline will convey natural gas across 12.302 miles of public lands in Eddy County, New Mexico.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved, and if so, under what terms and conditions.

Interested persons desiring to express their views should promptly send their name and address to the District Manager, Bureau of Land Management, P.O. Box 1397, Roswell, New Mexico 88201.

FRED E. PADILLA,  
Chief, Branch of Lands  
and Minerals Operations.

### SOCORRO DISTRICT GRAZING ADVISORY BOARD

#### Meeting

Notice is hereby given that the Socorro District Grazing Advisory Board of the Bureau of Land Management will meet on Wednesday February 14, 1979 at 9:00 a.m. in the Hospitality Room of the First State Bank, 103 Manzanares Avenue, N.E., Socorro, New Mexico. The purpose of the meeting will be to organize the Board and discuss its functions and responsibilities, review the Federal grazing regulations, hold discussions on the allotment management plan implementation schedule for the Stallion and Ladron Planning Units, review the status of the district's range programs and make recommendations on the expenditure of range betterment funds.

The meeting is open to the public. Further information concerning this meeting may be obtained from the Socorro District Manager, Bureau of Land Management, 200 Neel Avenue,

N.W., Socorro, New Mexico 87801 or by telephone at (505)-835-0412.

ARLEN P. KENNEDY,  
District Manager.

## Office of the Solicitor

### VALID EXISTING RIGHTS UNDER THE ALASKA NATIVE CLAIMS SETTLEMENT ACT (ANCSA)

#### Retractivity of Secretarial Order No. 3029

SECTION 1. *Purpose.* The purpose of this notice is to announce the procedures under which the question of the retroactive application of Secretarial Order No. 3029 will be considered by this Department.

SEC. 2. *Background.* On November 27, 1978, Secretarial Order No. 3029, amending the Departmental position regarding valid existing rights under the Alaska Native Claims Settlement Act (ANCSA), was published in the FEDERAL REGISTER (43 FR 55287). As noted in the October 24, 1978, memorandum to the Secretary, adopted by the Secretary as the position of the Department on the subject of valid existing rights under ANCSA, the question of the retroactive application of Secretarial Order No. 3016, the Order which Secretarial Order No. 3029 has replaced, was not addressed in the original opinion of November 28, 1977, adopted by the Secretary in Secretarial Order No. 3016, nor was this question adequately presented as an issue for reconsideration. Section 2 of Secretarial Order No. 3029 noted: "The question of retroactive application of this Order shall be addressed by the Solicitor under procedures which shall be announced by him within 30 days of this Order's effective date." Pursuant to this delegation from the Secretary, such procedures are set forth in Section 3 of this notice.

SEC. 3. *Policy.* (a) All parties who have participated in the administrative proceedings which will be affected by the determination of the question of the retroactive application of Secretarial Order No. 3029, and all other interested parties, are given 30 days from the date of this notice to submit any written comments on this question to the Department. Comments should be sent to: Solicitor, United States Department of the Interior, Washington, D.C. 20240.

(b) After review and analysis of the submissions, a separate opinion on this question will be issued. The Secretary has reserved the final authority to determine the question of the retroactive application of Secretarial Order No. 3029, and will do so in an amendment to said Order.

Sec. 4. *Effective Date.* This notice is effective immediately and will continue in effect until the issuance of the amendment to Secretarial Order No. 3029.

Dated: December 26, 1978.

LEO KRULITZ,  
Solicitor.

### INTERNATIONAL BOUNDARY AND WATER COMMISSION, UNITED STATES AND MEXICO

#### United States Section

#### IMPLEMENTATION OF EXECUTIVE ORDERS 11988 (FLOODPLAIN MANAGEMENT) AND 11990 (PROTECTION OF WETLANDS)

AGENCY: United States Section, International Boundary and Water Commission, United States and Mexico.

ACTION: The purpose of this document is to publish the United States Section's Final Procedures to be effective March 29, 1979.

SUMMARY: The procedures prescribe policies and procedures utilized or to be utilized by the United States Section in implementing Executive Orders 11988 (Floodplain Management) and 11990 (Protection of Wetlands) in the planning, design and construction of treaty projects along the United States and Mexican international boundary and to the United States Section's operation and maintenance activities in connection with treaty projects. The final procedures are designed to be coordinated with the environmental review of requirement established in the National Environmental Policy Act (NEPA).

#### FOR FURTHER INFORMATION CONTACT:

Mr. Frank P. Fullerton, Legal Adviser, International Boundary and Water Commission, United States Section, United States and Mexico, 4110 Rio Bravo, 200 IBWC Building, El Paso, Texas 79902, FTS: 572-7893.

PROCEDURES OF THE UNITED STATES SECTION, INTERNATIONAL BOUNDARY AND WATER COMMISSION, TO IMPLEMENT THE OBJECTIVES OF EXECUTIVE ORDERS 11988 (FLOODPLAIN MANAGEMENT) AND 11990 (PROTECTION OF WETLANDS)

Executive Order 11988—Floodplain Management (May 24, 1977)—requires each Federal agency to issue or amend existing regulations and procedures to ensure that the potential effects of any action it may take in a floodplain are evaluated and that its planning programs and budget requests reflect

consideration of flood hazards and floodplain management. Guidance for implementation of the Order is provided in the Water Resources Council "Guidelines for Implementing Executive Order 11988", dated February 10, 1978.

Executive Order 11990—Protection of Wetlands (May 24, 1977)—requires all Federal agencies to issue or amend existing procedures to insure consideration of wetlands protection in decision making.

It is the intent of both Executive Orders that Federal agencies implement the floodplain/wetlands requirement through existing procedures such as those established to implement the National Environmental Policy Act of 1969 (NEPA). In those instances where the impact of actions in floodplain/wetlands are not significant enough to require the preparation of an environmental impact statement (EIS) under Section 102(2)(C) of NEPA, alternative floodplain/wetlands evaluation procedures are to be established.

#### PURPOSE

The United States Section has adopted or reaffirms the following described policy and procedures to assure responsiveness to the objectives, needs and intent of Executive Orders 11988 (Floodplain Management) and 11990 (Protection of Wetlands) to: (1) reduce the risk of flood loss, (2) minimize the impact of floods on human safety, health and welfare, (3) restore and preserve the natural and beneficial values served by floodplains along the limitrophe section of the Rio Grande and the Colorado River, (4) prohibit the destruction or modification of wetlands, (5) prohibit new construction in the floodplains and wetlands within the United States along the limitrophe section of the Rio Grande and the Colorado River, (6) describe the decision-making process to be utilized by the Section, including public notice, (7) provide the opportunity for early public review of any proposed action of the Section by means of meetings and hearings, to assure input of public concerns as well as the consideration of the provisions of any treaty and agreement between the United States and Mexico, (8) describe the evaluations to be made by the Section of practicable alternatives of proposed actions in the floodplains and the wetlands in the limitrophe section of the Rio Grande and the Colorado River, (9) describe the limitations on activities in floodplains and wetlands, (10) provide conspicuous delineation of structures and other places, where appropriate, of past and probable flood heights, (11) provide appropriate restrictions in permits, licenses, and in conveyances and uses of

Federal property under the jurisdiction of the United States Section, and (12) seek the cooperation of the city, county and state officials in preventing construction of work in the floodplains along the limitrophe section of the Rio Grande and Colorado River which may obstruct the normal or flood flows of those rivers.

#### POLICY

The United States Section has a general mandate and broad responsibility to reduce to a minimum the shifting of the channels of the Rio Grande and Colorado River by prohibiting the construction of works in the floodplain/wetlands which may cause deflection or obstruction of the normal flow of the rivers or of their flood flows. In the boundary area (United States and Mexico), the policy of the United States Section is to exercise leadership and take action to avoid the adverse impacts caused by the occupancy and modification of floodplains and wetlands.

The United States Section will integrate floodplain management and wetland protection requirements into its programs and missions and will utilize, to the extent practicable, existing consultation, planning and decision-making processes.

The United States Section shall:

1. Avoid to the extent possible the long- and short-term adverse impacts associated with the destruction of wetlands and the occupancy and modification of floodplains and wetlands, and avoid direct and indirect support of floodplain and wetlands development wherever there is a practicable alternative;
2. Incorporate floodplain management goals and wetlands protection considerations into its planning, regulatory, and decision-making processes, and shall to the extent practicable:
  - a. Reduce the hazard and risk of flood loss;
  - b. Minimize the impact of floods on human safety, health, and welfare;
  - c. Restore and preserve natural and beneficial values served by floodplains;
  - d. Require the construction of United States Section structures and facilities to be in accordance with the standards and criteria, and consistent with the intent, of the regulations promulgated pursuant to the National Flood Insurance program;
  - e. Minimize the destruction, loss, or degradation of wetlands;
  - f. Preserve and enhance the natural and beneficial values of wetlands.
3. Undertake a careful evaluation of the potential effects of any United States Section action taken in a floodplain and any new construction undertaken by United States Section in wetlands not located in floodplain;

4. Identify, evaluate, and implement, as appropriate, alternative actions which may avoid or mitigate adverse floodplain/wetlands impacts;
5. Provide opportunity for public review of actions proposed in floodplains and wetlands; and
6. Prohibit the construction of works in the floodplain/wetlands which may cause deflection or obstruction of the normal flow of the Rio Grande and the Colorado River or of their flood flows.

#### DEFINITIONS

For the purpose of these procedures, the following terms shall have the meaning indicated:

1. "The Commissioner" means the United States Commissioner, United States Section, International Boundary and Water Commission, United States and Mexico.
2. "United States Section" means the United States Section, International Boundary and Water Commission, United States and Mexico.
3. "Executive Order" means Executive Orders 11988 (Floodplain Management) and 11990 (Protection of Wetlands).
4. "Limitrophe parts of the Rio Grande and Colorado River" means those reaches of the rivers that form the international boundary between the United States and Mexico.
5. "Wetlands" means those areas that are inundated by surface or ground water with a frequency sufficient to support, and under normal circumstances does or would support, a prevalence of vegetative or aquatic life that requires saturated or seasonally saturated soil conditions for growth and reproduction. Wetlands generally include swamps, marshes, bogs and similar areas such as sloughs, pot-holes, wet meadows, river overflows, mud flats and natural ponds.
6. "Action" means any United States Section activity, including:
  - a. Acquiring, management, and disposing of Federal lands and facilities;
  - b. Providing federally undertaken, financed, or assisted construction and improvements; and
  - c. Conducting Federal activities and programs affecting land use, including but not limited to water and regulated land resources planning, regulating and licensing activities.
7. "Base Flood" means that flood which has a one percent chance of occurrence in any given year (also known as a 100-year flood). This term is used in the National Flood Insurance Program (NFIP) to indicate the minimum level of flooding to be used by a community in its floodplain management regulations.
8. "Base Floodplain" means the 100-year floodplain (one percent chance

floodplain). Also see definition of floodplain.

9. "Channel" means a natural or artificial watercourse of perceptible extent, with a definite bed and banks to confine and conduct continuously or periodically flowing water.
10. "Critical Action" means any activity for which even a slight chance of flooding would be too great.
11. "Facility" means any man-made or man-placed item other than a structure.
12. "Flood" or "Flooding" means a general and temporary condition of partial or complete inundation of normally dry land areas from the overflow of inland and/or tidal waters, and/or the unusual and rapid accumulation of runoff of surface waters from any source.
13. "Floodplain" means lowlands and relatively flat areas adjoining inland and coastal waters including flood-prone areas of offshore islands, including at a minimum, that area subject to a one percent or greater chance of flooding in any given year. The base floodplain shall be used to designate the 100-year floodplain (one percent chance floodplain). The critical action floodplain is defined as the 500-year floodplain (0.2 percent chance floodplain).
14. "Floodproofing" means the modification of individual structures and facilities, their sites, and their contents to protect against structural failure, to keep water out or to reduce effects of water entry.
15. "Minimize" means to reduce to the smallest possible amount or degree.
16. "One Percent Chance Flood" means the flood having one chance in 100 of being exceeded in any one-year period (a large flood). The likelihood of exceeding this magnitude increases in a time period longer than one year. For example, there are two chances in three of a larger flood exceeding the one percent chance flood in 100-year period.
17. "Ordinary High Water Mark" means the line on the shore established by an analysis of all daily high waters. It is established as that point that is inundated 25 percent of the time and is derived by a flood duration curve for the particular water body that is based on available water stage data. It may also be estimated by erosion or easily recognized characteristics such as shelving, change in the character of the soil, destruction of terrestrial vegetation or its inability to grow, the presence of litter and debris, or other appropriate means that consider the characteristics of the surrounding area.
18. "Practicable" means capable of being done within existing constraints. The test of what is practicable de-

pends upon the situation and includes consideration of the pertinent factors, such as environment, cost, technology, natural, social, economic, legal and implementation time.

- a. Natural—topography, habitat, and hazards, etc.
- b. Social—aesthetics, historic and cultural values, land use patterns, population and its characteristics, etc.
- c. Economic—cost of space, construction, services, relocation, gain or loss of employment.
- d. Legal—international treaties and agreements, congressional acts, leases and deeds.
19. "Preserve" means to prevent modification to the natural floodplain/wetlands environment or to maintain it as closely as possible to its natural state.
20. "Restore" means to re-establish a setting or environment in which the natural functions of the floodplain can again operate.
21. "Structures" means a walled or roofed building, including mobile homes and gas or liquid storage tanks that are primarily above ground (as set by the NFIP).
22. "Environmental Assessment" means a document prepared by the Section pursuant to the National Environmental Policy Act (NEPA) and the Section's procedures for implementing Section 102 of NEPA dated March 5, 1974, which assesses whether a proposed Section action would be "major federal action" and would "significantly affect" the quality of the human environment and which serves as the basis for a determination as to whether an environmental impact statement is required.
23. "Environmental Impact Statement" (EIS) means a document prepared in accordance with the requirements of Section 102(2)(C) of NEPA.
24. "New Construction" for the purpose of compliance with the Executive Orders shall include draining, dredging, channelizing, filling, diking, impounding and related activities and any structures or facilities begun or authorized after May 24, 1977 (date of the Executive Orders), and not granted a specific exemption by the Executive Orders.
25. "Negative Declaration" (ND) means a document prepared pursuant to the Section's procedures for implementing Section 102 of NEPA to certify a decision that an EIS will not be prepared for a proposed Section action.
26. "Public Notification" (PN) means a brief notice published in the FEDERAL REGISTER which describes a proposed floodplain/wetlands action and affords the opportunity for public review.
27. "Statement of Findings" means a statement issued pursuant to Execu-

tive Order 11988 which explains why a Section action is proposed in a floodplain, lists the alternatives considered, indicates whether the action conforms to applicable floodplain protection standards, and describes steps to be taken to minimize harm to or within the floodplain.

#### AUTHORITY

1. Executive Order 11988, which revoked and replaced Executive Order 11296, issued August 10, 1966, was issued in furtherance of the National Flood Disaster Protection Act of 1973, and the National Environmental Policy Act of 1969. Section 2(d) requires issuance of new or amended agency regulations.
2. Executive Order 11990 was issued in furtherance of the National Environmental Policy Act of 1969. Section 6 requires issuance of new or amended procedures.

#### REFERENCES

- The following references are made an integral part of these procedures:

  12. National Flood Insurance Program, Federal Insurance Administration (Department of Housing and Urban Development), 41 FEDERAL REGISTER 46962 and 43 FEDERAL REGISTER 2570.

#### APPLICABILITY

Except as stated hereinafter, these procedures are applicable to all activities under the jurisdiction of the

United States Section to carry out the United States obligations as defined in the boundary and water treaties with Mexico which may involve the construction or development in the floodplains or the modification or destruction of wetlands. Existing and proposed projects and programs, including licensing and permitting are included. Activities to which these provisions will not be applicable are:

1. Actions taken during and immediately following flood or other emergencies to save lives and to protect property and public health and safety;
2. The repair and maintenance of existing facilities and structures;
3. Modification of stream gaging stations;
4. Flood proofing or flood protection of existing structures or facilities within the floodplain; and
5. Actions which may be in conflict with Treaty obligations.

However, where unusual circumstances exist, the Section shall consider the need for a floodplain/wetlands assessment of these types of actions.

#### REPAIR OR IMPROVEMENT OF EXISTING STRUCTURES AND FACILITIES

The following actions relating to repair or improvement of existing structures and facilities will be accomplished in a manner to increase the useful life of the facility, reduce flood hazards, and protect and, where practical, restore natural values.

1. **Improvement and Maintenance of River Channels.** In compliance with the treaties and other agreements between the United States and Mexico and acts of the Congress, the United States Section excavates material from the channels of certain reaches of boundary rivers by use of mechanical equipment to maintain a definite channel for boundary location purposes, to conserve water and make required treaty water deliveries, and to maintain effective control of floods. The need for these actions is specified in the international agreements.

The material removed from the river is deposited in the following locations: within the project floodplain, land side of the project levees, and on other lands—private and government-owned, beyond the project, subject to the approval of the owners or those having jurisdiction. None of the excavated material will be deposited on wetlands. The selection of the particular area of deposition will be based upon available alternatives, ecological considerations, costs, flood hazards, and impact upon the floodplain. The removed material in some cases is made available to the private sector for utilization away from the project and the Section may authorize such removal by the private sector in accordance with its require-

ments, provided it does not dispose of materials on wetlands.

2. **Bank Stabilization, Boundary Preservation and Flood Control.** In carrying out its operational and maintenance activities where necessary to stabilize United States banks of the boundary rivers to preserve the international boundary between the United States and Mexico and to maintain its effective flood channel capacity, the Section may need to grade the banks, and to add riprap or other types of bank protection. Bank protection may also be required for public facilities, such as municipal water intakes, bridge abutments and sewage and irrigation wasteway outfalls.

3. **Clearing Vegetation.** To maintain the water carrying capacity of the river channels and to preserve the international boundary, the clearing operations of the United States Section, at times and in some areas, require the removal of vegetation from certain portions of the banks and main channel of the rivers.

4. **Construction, Operation and Maintenance of Structures.** The United States Section constructs, operates and maintains structures along and across river boundaries and near the mouths of tributaries, including dams, grade control structures, levees, gaging stations and appurtenant works for measuring waters to provide data for effective project operation and to determine the national ownership of water, in accordance with treaties with Mexico.

The construction of these structures at times and in some places, requires construction of temporary works to protect the construction area from river flows. Maintenance of these structures is performed as necessary, and may include the addition of material in the channel or on lands adjacent to the channel.

#### CONSTRUCTION OF NEW WORKS

The actions of this Section involving construction of new works will comply with the procedures described herein.

#### PROCEDURES FOR COMPLIANCE

1. For activity requiring compliance with the Executive Orders, the United States Section staff will use the procedure as described herein, and will concurrently apply its procedures for environmental considerations under the National Environmental Policy Act.

2. Floodplain management principles and procedures will be taken into account when formulating or evaluating any water or land use proposal to insure that land and water resource use will be appropriate to the degree of hazard involved. Review of applications for licenses and permits shall include full consideration of flood haz-

ards to assure appropriate floodplain management.

3. Flood hazards and, to the degree they are quantifiable, floodplain values, will be expressed in terms of:

- a. Potential (or residuals) for monetary loss;
- b. Human safety, health and welfare;
- c. Shifting of costs or damage to others; and
- d. Potential for affecting the natural and beneficial floodplain values.

4. The procedures established herein shall, at a minimum, require the construction of Federal structures and facilities to be in accordance with the standards and criteria and consistent with the intent of those promulgated under the National Flood Insurance Program. Deviations shall be acceptable only to the extent that the standards of the Flood Insurance Program are demonstrably inappropriate for a given type of structure or facility or are in conflict with treaty obligations.

5. The evaluation of whether an alternative is practicable shall include:

- a. Whether it is allowable under existing international treaties and agreements;
- b. In conformance with the Federal Insurance Administration's criteria and methods for minimizing flood damage; and
- c. Environmental, social, economic, and legal considerations.

#### DECISION MAKING PROCESS

STEP 1. Delineate the floodplain and determine if the proposed action is located in or may impact the floodplain.

a. Determine the base flood and delineate on an appropriate map the base floodplain, using the best available information.

b. In the event a critical action is being considered, the critical action floodway will be defined.

c. Define wetland areas and delineate these areas on the map with base floodplain delineation.

If the proposed action is not in the base floodplain (or critical floodplain as applicable), proceed to Step 4.

STEP 2. Issue a public notice as early as possible of possible action which may be in or impact the floodplain. The notice shall include a description of the proposed action, a listing of alternatives being considered, and an invitation to provide comments throughout the decision making process.

STEP 3. Identify and evaluate the practicable alternatives to locating in the floodplain. This evaluation shall include avoidance of the floodplain through alternative siting and alternative actions which would accomplish the intended functions but which would minimize harm to or within the floodplain, including no action.

STEP 4. Identify and evaluate impacts of the alternatives on the applicable floodplain and the direct and indirect effects which may support floodplain development that would have additional impacts. If the proposed action is outside the floodplain and has no identifiable impacts or support of floodplain development, it can be implemented (Step 8), providing it complies with wetland requirements defined later herein.

STEP 5. If the alternatives have adverse impacts in the floodplains or supports floodplain development, means are to be described to minimize the adverse impacts and where practical, restore natural values.

STEP 6. Reevaluate the alternatives, taking into account the flood hazards, identified impacts, opportunities to restore and preserve floodplain values, and environmental, social, economic and legal factors.

STEP 7. If it is determined that the only practicable alternative is locating in the floodplain, a statement of findings and public notice will be prepared, distributed and published. Depending upon the public input, a public hearing may be scheduled.

STEP 8. After a reasonable period to allow for public response, not less than fifteen (15) days, the Commissioner may take steps to implement the alternative.

Following are more detailed discussions of the procedures to implement the decision making process.

#### DELINEATION OF THE FLOODPLAIN

1. The procedure in delineating the base floodplain (base floodplain uses 100-year frequency flood and critical floodplain uses 500-year frequency flood) will be generally in accord with the "Guidance for Floodplain Management" published by the Water Resources Council, 42 Federal Register 52590, September 30, 1977.

2. The floodplain will be based on Flood Insurance Administration (FIA) maps. When FIA maps are not available, USGS quadrangle maps will be used with United States Section hydraulic studies and Flood Insurance Administration criteria for delineation of the extent of the base or critical floodplain.

#### PUBLIC INVOLVEMENT

1. For proposed floodplain/wetlands actions for which an Environmental Assessment or Environmental Impact Statement is required, the opportunity for early public review will be provided through existing NEPA procedures specified in this Section's Operational Procedures for Implementing Section 102 of NEPA. In these cases, either the Notice of Intent to prepare an Environmental Impact Statement or the Negative Declaration shall be used to

satisfy the requirements for early public notification.

2. For proposed floodplain/wetlands actions for which no Environmental Assessment or Environmental Impact Statement is required, the Section shall provide the opportunity for early public review through preparation of a Public Notification, which shall:

a. Describe the proposed action, segment of floodplain involved, and alternative being considered, and include a location map.

b. State the time and place of public hearing if one is to be held.

c. Be published in the FEDERAL REGISTER and one or more newspapers of general circulation in the area.

d. Be distributed to:

- (1) Property owners in immediate vicinity of the proposed action.
- (2) City and county governments in the vicinity of the proposed action.
- (3) Council of Governments and other agencies.
- (4) Conservation associations.
- (5) State and Federal agencies, including U.S. Fish and Wildlife Service and State Fish and Wildlife Agency.
- (6) Other interested agencies and individuals.

For floodplain action subject to the Office of Management and Budget Circular A-95, the Section shall submit a copy of the Public Notice to the State and area wide A-95 clearing houses for the geographic area affected.

The procedure to be followed for obtaining public input will vary with the proposed action to be undertaken. For more significant actions a public hearing will be held. This hearing may be preceded and/or followed by periodic consultation meetings with representatives of appropriate groups and agencies to scope the studies to be made. In contrast, a relatively insignificant action such as location in the floodplain of a new buried pipeline may be handled solely by a mailed and published notice without meetings or hearings.

#### IDENTIFICATION AND EVALUATION OF PRACTICABLE ALTERNATIVES

Alternatives to be evaluated include:

1. Carrying out the proposed action outside the applicable floodplain (alternative sites).
2. Other means which accomplish the same purpose as the proposed action (alternative actions); and
3. No action.

If a practicable site exists outside the applicable floodplain, the proposed action cannot be located in the floodplain. When a floodplain site is the only practicable alternative, the agency's analysis supporting this conclusion should be fully documented. In determining the practicability of a non-floodplain site, the general con-

cepts of site feasibility apply. At a minimum, site practicability shall include consideration of natural, social, economic, legal and environmental factors.

Alternative actions to be considered are those which can be substituted for the proposed action in that they comprise new solutions or approaches which serve the same function or purpose as that proposed, but which have less potential for harm.

For the alternative of no action, an evaluation should be made of the harm to or within the floodplain resulting from not undertaking the proposed action.

#### IDENTIFICATION OF IMPACTS OF THE PROPOSED ACTION

The impacts of the proposed action to be identified are impacts upon:

1. Lives and property.
2. Natural and beneficial floodplain values, including environmental values.

The basic types of impacts to be evaluated are:

1. Positive and negative.
  2. Concentrated and dispersed.
  3. Short-term and long-term.
- Factors to be considered are:
1. The nature of the hazard and risk.
  - a. Historical floods.
  - b. Probability floods.
  2. High hazard areas.
  3. Natural moderation of floods.
  4. Water quality maintenance.
  5. Groundwater recharge.
  6. Living resources—flora and fauna.
  7. Cultural resources.
  8. Agricultural, aquacultural, and forestry resources.

#### REQUIREMENTS TO MINIMIZE, RESTORE AND PRESERVE

The evaluation of a proposed action shall include consideration of means to minimize potential harm to or within the floodplain and shall include:

1. Reduction of potential harm to life and property within the floodplain with a goal of avoiding increased flood loss potential associated with the level of the base flood prior to the proposed action.
2. Minimizing potential harm applies to:
  - a. The investment risk, or the flood loss potential of the action itself;
  - b. The impact the action may have on others; and
  - c. The impact the action may have on floodplain values.
3. In the context of the Orders, "restore" focuses upon conditions existing as a result of prior actions, while "preserve" focuses upon the impacts of proposed action.

When a proposed action will result in harm to the natural floodplain environment, the Section will design or

modify the action to assure that it will be carried out in a manner which preserves as much of the natural and beneficial floodplain values as is possible. Guidance for possible means of preserving the floodplain are given by the Water Resources Council in its "Guidelines for Implementing Executive Order 11988 (Floodplain Management)", 43 Federal Register 6030, February 10, 1978.

#### REEVALUATION OF ALTERNATIVES

1. Determine which, if any, of the alternatives which are located outside or do not impact the base floodplain are implementable. Where such an alternative exists, the proposed action cannot be located in the floodplain.

2. Where an implementable alternative exists outside the floodplain but which has impact on or supports floodplain development, actions will be taken to minimize that impact and support.

3. If no implementable alternative exists outside the floodplain, the impacts of the floodplain alternative shall be thoroughly evaluated and measures to minimize those impacts and restore natural values shall be identified.

#### FINDINGS AND PUBLIC EXPLANATION

If the reevaluation results in the determination that there is no practicable alternative to locating in or impacting the floodplain, a statement of findings and public explanation shall be published in the FEDERAL REGISTER and provided to news media and sent to agencies, groups, and individuals previously contacted. The statement and public explanation shall include:

1. An explanation indicating why the proposed action is to be located in the floodplain;

2. A description of all significant facts considered in making the determination including alternative sites and actions;

3. A statement indicating whether the actions conform to applicable state or local floodplain guidelines;

In addition, and in keeping with the concept of the over all public involvement process discussed in Step 2, the following items should be included in the statement of findings and public explanation:

1. A description of why the National Flood Insurance Program criteria are demonstrably inappropriate for the proposed action;

2. A description of how the activity will be designed or modified to minimize harm to or within the floodplain;

3. A statement indicating how the action affects natural or beneficial floodplain values;

4. A statement listing other involved agencies and individuals;

5. A provision for a brief comment period prior to agency action (15 to 30 days).

#### IMPLEMENTING THE ACTION

The proposed action can be implemented after:

1. Steps 1 through 7 of the decision-making process have been completed.

2. Comments received have been considered and a conclusion reached that the findings are still valid.

3. Environmental procedures have been completed under the National Environmental Policy Act.

4. A determination has been made that the proposed action is in accord with Executive Order 11990 in regard to wetlands.

#### WETLANDS

Wetlands will be delineated on appropriate maps for areas in and adjacent to projects of the United States Section, and in reaches of the Rio Grande, Colorado River, and other streams crossing the international boundary which may be considered for proposed activity. In making the wetlands determination, the Section shall utilize United States Fish and Wildlife Service National Wetlands Inventory Map, where available.

Operation and maintenance activities will be programmed to not adversely impact wetlands.

Evaluations of proposed new activities shall include consideration of an alternative which does not adversely impact wetlands. One or more alternative will be considered which include mitigation features for wetlands impacted in the event that alternative is selected as the proposed action.

#### MANAGING AND DISPOSAL OF FEDERAL LANDS

##### 1. Management:

##### a. Licenses or Permits:

An application for a license must be accompanied by an environmental impact assessment as required under the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4321 *et seq.*), and where major adverse impact will result, the applicant shall furnish a detailed environmental impact statement as required by the National Environmental Policy Act.

Since all of the lands administered by the United States Section are within floodplain areas, no permanent improvements will be licensed except those that are not subject to flood damages or are floodproofed in accordance with the Unified National Program for Flood Plain Management of the Water Resources Council. If, upon examination of the application, it is found that the proposed work or its operation and maintenance will not interfere with the construction, operation and maintenance of any project

works of the United States Section, and is consistent with permissible floodplain uses defined in the National Flood Insurance Program (Federal Insurance Administration), a license will be prepared by the Commission and transmitted to the applicant.

##### b. Leases:

All leases will contain provision to assure that the activities authorized are consistent with permissible floodplain uses defined in the National Flood Insurance Program (Federal Insurance Administration), and comply with the Executive Orders.

##### 2. Disposal:

##### a. By United States Section:

The conveyances from the United States of America will, where applicable, incorporate a prohibition against filling of areas identified as wetlands and will contain a statement defining the potential flood hazards.

##### (1) Typical Provisions are:

**Wetlands:** That portion of the above-described land lying within the old riverbed of the Rio Grande, consisting of approximately—acres, is classed as "wetlands", as defined in Executive Order 11990, May 24, 1977, and is therefore protected and prohibited from destruction or degradation.

**Flood Hazards:** As directed by Executive Order 11988 (Floodplain Management, May 24, 1977), the Grantee is put on notice that all the lands described above are subject to a one percent or greater chance of flooding in any given year.

##### b. By General Services Administration:

The Report of Excess for Real Property (SF118, GSA) submitted by the United States Section, will reflect detailed information regarding known wetlands and any known flood hazards or flooding of the property.

#### PROCEDURES FOR DELINEATION OF PAST AND PROBABLE FLOOD HEIGHTS

The following procedures have been adopted in order to meet the requirements of Executive Order 11988 (Floodplain Management):

1. Issuance of public notices to the general public, all owners, lessees, and users of lands along the Rio Grande each year prior to the beginning of the flood season notifying that lands along the banks of the river are subject to flooding by releases from Commission dams and flood inflows from tributaries to the Rio Grande. The information provides data with respect to highest flood on record and possible river stages for different flood frequencies.

2. Prior to anticipated floods, issue information to the public by use of radio, television, state and local authorities and United States Section flood patrols, to evacuate flood danger areas.

3. At dams, place signs delineating areas restricting access and usage by the general public.

4. Encourage local, county and state agencies to seek legislation restricting the use of flood danger areas by public where the United States Government does not have authority to restrict the use of such areas.

5. Along floodways used during major floods, place signs at intersections with public roads informing the public the area is subject to flooding.

#### PROHIBITION OF CONSTRUCTION

To assure compliance with the Boundary Treaty of 1970, annually, usually in January or February, the Section will seek in writing, the cooperation of the city and county officials and their staffs, along the limitrophe parts of the Rio Grande and Colorado River, as well as state officials, to advise those who may desire to construct works on lands within the floodplain and adjacent to the main channel of the Rio Grande and Colorado River, where it forms the international boundary between the United States and Mexico, that plan for works be approved by the International Boundary and Water Commission before any work is performed. The appropriate officials will be requested to confer with the Section prior to approving plans for works along the limitrophe part of the rivers unless they have the prior approval of the Commission.

#### REFINING PROCEDURES

Refinements will be made to these procedures from time to time as experience is gained in their implementation.

#### DEPARTMENT OF JUSTICE

##### Antitrust Division

#### UNITED STATES v. NU-PHONICS, INC., ET AL.

##### Proposed Final Judgment and Competitive Impact Statement Thereon

Notice is hereby given pursuant to the Antitrust Procedures and Penalties Act, 15 U.S.C. § 16(b) through (h), that a proposed Final Judgment and a Competitive Impact Statement as set out below have been filed with the United States District Court for the Eastern District of Michigan, Southern Division, Civil No. 671378, *United States v. Nu-Phonics, Inc., et al.* The Complaint in this case alleges that four corporations (Nu-Phonics, Inc.; Lucas, Inc.; Ferndale Hearing Aid Center, Inc.; and Eastside Hearing Aid Center, Inc.), one partnership (Downriver Hearing Aid Center), and four in-

dividuals (Daniel F. Bifano, d/b/a Cadillac Hearing Aid & Optical Co.; Murray Davis Peppard, d/b/a Dearborn Hearing Aid Center; Allan M. Kazel, d/b/a Metro Hearing Aid Center; and William T. Lafler, d/b/a Oakland County Hearing Aid Service) combined and conspired to fix, raise, and maintain the prices at which hearing aids were sold in the Detroit area (Wayne, Macomb, and Oakland Counties).

The proposed Judgment enjoins the defendants from engaging in the alleged conspiracy and prohibits them from communicating certain pricing information to other hearing aid dealers in the Detroit area.

Public comment is invited within the statutory 60 day time period. Such comments and responses thereto will be published in the FEDERAL REGISTER and filed with the Court. Comments should be directed to John A. Weedon, Chief, Cleveland Field Office, Antitrust Division, Department of Justice, 995 Celebrezze Federal Building, Cleveland, Ohio 44199 (telephone: 216-522-4070).

Dated: December 19, 1978.

CHARLES F. B. McALEER,  
Special Assistant for  
Judgment Negotiations.

#### U.S. DISTRICT COURT FOR THE EASTERN DISTRICT OF MICHIGAN, SOUTHERN DIVISION

*United States of America, Plaintiff, v. Nu-Phonics, Inc.; Lucas, Inc.; Ferndale Hearing Aid Center, Inc.; Eastside Hearing Aid Center, Inc.; Downriver Hearing Aid Center; Daniel F. Bifano, d/b/a Cadillac Hearing Aid & Optical Co.; Murray Davis Peppard, d/b/a Dearborn Hearing Aid Center; Allan M. Kazel, d/b/a Metro Hearing Aid Center; and William T. Lafler, d/b/a Oakland County Hearing Aid Service, Defendants.*

Civil No. 671378.  
Judge Charles W. Joiner.  
Filed: December 19, 1978.

#### STIPULATION

It is stipulated by and between the undersigned parties, by their respective attorneys, that:

1. A Final Judgment in the form attached hereto may be filed and entered by the Court, upon the motion of any party or upon the Court's own motion, at any time after compliance with the requirements of the Antitrust Procedures and Penalties Act (15 U.S.C. § 16), and without further notice to any party or other proceedings provided that plaintiff has not withdrawn its consent, which it may do at any time before the entry of the proposed Final Judgment by serving notice thereof on defendants and by filing that notice with the Court.

2. In the event plaintiff withdraws its consent or if the proposed Final Judgment is not entered pursuant to this Stipulation, this Stipulation shall be of no effect whatever and the making of this Stipulation shall not in any manner prejudice any consenting party in any subsequent proceeding.

Dated: December 19, 1978.

#### FINAL JUDGMENT

Plaintiff, United States of America, having filed its Complaint herein on June 30, 1976 and plaintiff and defendants, by their respective attorneys, having consented to the making and entry of this Final Judgment without further trial or adjudication of any issue of fact or law herein and without this Final Judgment constituting evidence or admission by any party with respect to any issue of fact or law herein;

NOW, THEREFORE, before any other testimony or evidence has been taken herein and upon said consent of the parties hereto, it is hereby

ORDERED, ADJUDGED AND DECREED as follows:

#### I

This Court has jurisdiction of the subject matter hereof and of the parties hereto. The Complaint states a claim against the defendants upon which relief may be granted under Section 1 of the Act of Congress of July 2, 1890, entitled "An Act to protect trade and commerce against unlawful restraints and monopolies." (15 U.S.C. § 1), commonly known as the Sherman Act, as amended.

#### II

As used in this Final Judgment:

(A) "person" means any individual, corporation, partnership, firm, association or other business or legal entity;

(B) "hearing aid" means an electrical device which is usually worn by an individual and which assists the individual's ability to hear;

(C) "hearing aid dealer" means a person who sells hearing aids to the public or to the State of Michigan;

(D) "Detroit area" means the counties of Wayne, Macomb, and Oakland in the State of Michigan.

#### III

The provisions of this Final Judgment applicable to each of the defendants shall also

apply to each of its officers, directors, partners, agents, employees, subsidiaries, and to all other persons in active concert or participation with any of them who shall have received actual notice of this Final Judgment by personal service or otherwise.

## IV

Each defendant is enjoined and restrained from entering into, adhering to, maintaining, furthering, or renewing any contract, agreement, understanding, plan, program or concert of action with any other hearing aid dealer in the Detroit area, directly or indirectly, to:

- (A) refrain from giving price quotations for hearing aids over the telephone;
- (B) refrain from advertising prices for hearing aids;
- (C) fix, determine, establish, maintain, stabilize, increase or adhere to prices, markups, discounts or other terms or conditions, for the sale or service of hearing aids.

## V

Each defendant is enjoined and restrained from, directly or indirectly:

(A) communicating to any other hearing aid dealer in the Detroit area information concerning:

- (1) future prices, markups, or discounts at which, or terms or conditions upon which, any hearing aid or any service will be sold or offered for sale by said defendant;
- (2) the fact that such defendant is considering making changes or revisions in the prices, markups, or discounts at which, or the terms or conditions upon which, such defendant sells or offers to sell any hearing aid or any service;
- (B) requesting from another hearing aid dealer in the Detroit area any information which said defendant could not communicate without violating subparagraph (A) of this Section V.

## VI

Nothing in Section V hereof shall prohibit the communication of applicable information, including prices and quotations, by a defendant to another hearing aid dealer in the course of, and solely related to, negotiating for, entering into, or carrying out a *bona fide* purchase or sales transaction between such defendant and such other hearing aid dealer.

## VII

Each defendant is ordered and directed: (A) within thirty (30) days after the date of entry of this Final Judgment, to furnish a copy thereof to each of its employees who has pricing responsibility in connection with the sale of hearing aids;

(B) after the date of entry of this Final Judgment, to furnish a copy of this Final Judgment to each new employee who has pricing responsibility in connection with the sale of hearing aids, within thirty (30) days after employment;

(C) to attach to each copy of this Final Judgment furnished pursuant to subsections (A) and (B) of this section VII a statement, in substantially the form set forth in Appendix A attached hereto, advising each person of his obligations and defendants' obligations under this Final Judgment, and of the penalties which may be imposed upon him and/or upon the defendants for violation of this Final Judgment.

For the purpose of determining or securing compliance with this Final Judgment and subject to any legally recognized privilege, from time to time:

(A) duly authorized representatives of the Department of Justice shall, upon written request of the Attorney General or of the Assistant Attorney General in charge of the Antitrust Division, and on reasonable notice to a defendant made to its principal office, be permitted:

(1) access during office hours of such defendant to inspect and copy all books, ledgers, accounts, correspondence, memoranda and other records and documents in the possession or under the control of the defendant, who may have counsel present, relating to any of the matters contained in this Final Judgment; and

(2) subject to the reasonable convenience of such defendant and without restraint or interference from it, to interview officers, directors, agents, partners or employees of such defendant, who may have counsel present, regarding any such matters;

(B) upon written request of the Attorney General or the Assistant Attorney General in charge of the Antitrust Division made to a defendant's principal office, such defendant shall submit such written reports, under oath if requested, with respect to any of the matters contained in this Final Judgment as may be requested.

No information or documents obtained by the means provided in this Section VIII shall be divulged by any representative of the Department of Justice to any person other than a duly authorized representative of the Executive Branch of the United States, except in the course of legal proceedings in which the United States is a party, or for the purpose of securing compliance with this Final Judgment, or as otherwise required by law.

If at any time information or documents are furnished by a defendant to plaintiff, such defendant represents and identifies in writing the material in any such information or documents which is of a type described in Rule 26(c)(7) of the Federal Rules of Civil Procedure, and said defendant marks each pertinent page of such material, "Subject to claim of protection under the Federal Rules of Civil Procedure," then 10 days notice shall be given by plaintiff to such defendant prior to divulging such material in any legal proceeding (other than a Grand Jury proceeding) to which the defendant is not a party.

## IX

Jurisdiction is retained for the purpose of enabling any of the parties to this Final Judgment to apply to this Court at any time for such further orders and directions as may be necessary or appropriate for the construction or carrying out of this Final Judgment or for the modification of any of the provisions thereof, and for the enforcement of compliance therewith and punishment of violations thereof.

## X

Entry of this Final Judgment is in the public interest.

Dated:

United States District Judge.

## APPENDIX A

The Final Judgment entered in 1978 in this case applies to each of the defendants named therein, to defendants' officers, directors, agents, employees, and subsidiaries. It is the obligation of each defendant and of its officers, directors, partners, agents and employees to abide by the terms of the Final Judgment. Violation of any of the provisions of the said Final Judgment may subject each defendant and its officers, directors, partners, agents and employees to fines and/or imprisonment.

fendants.

## COMPETITIVE IMPACT STATEMENT

Pursuant to Section 2(b) of the Antitrust procedures and penalties Act, 15 U.S.C. §§ 16(b)-(h), the United States files this Competitive Impact Statement relating to the proposed Final Judgment submitted for entry in this civil antitrust proceeding.

## I

## NATURE AND PURPOSE OF THE PROCEEDING

On June 30, 1976, the United States filed a civil antitrust Complaint alleging that four corporations, one partnership, and four individuals, doing business as hearing aid dealers, conspired to fix prices in violation of Section 1 of the Sherman Act (15 U.S.C. § 1).

The Complaint alleges that beginning at least as early as November 1974 and continuing thereafter at least until February 5, 1975, the defendants engaged in a combination and conspiracy to fix, raise, and maintain the prices at which hearing aids were sold in the Detroit area (Wayne, Macomb, and Oakland Counties).

The Complaint seeks a judgment by the Court declaring that defendants had engaged in an unlawful combination and conspiracy in unreasonable restraint of trade in violation of the Sherman Act. It also seeks an Order by the Court to enjoin and restrain the defendants from such activities in the future.

The corporate defendants named in the Complaint are: Nu-Phonics, Inc.; Lucas, Inc.; Ferndale Hearing Aid Center, Inc.; and Eastside Hearing Aid Center, Inc. The partnership named in the Complaint is Downriver Hearing Aid Center. The individual defendants named in the Complaint are Daniel F. Bifano, d.b.a. Cadillac Hearing Aid & Optical Co.; Murray Davis Peppard, d.b.a. Dearborn hearing Aid Center; Allan M. Kazel, d.b.a. Metro Hearing Aid Center; and William T. Lafle, d.b.a. Oakland County Hearing Aid Service.

Defendants' activities which gave rise to this civil action were also the subject of a criminal felony indictment returned by a grand jury on June 30, 1976. The trial of the criminal case commenced on June 6, 1977. Before the United States completely presented its evidence, the trial was discontinued because the case was resolved in other ways. As to three of the defendants, the United States voluntarily dismissed the criminal charge because of the health of the principals. The remaining defendants pleaded *nolo contendere* to misdemeanor Informations which were filed by the United States. The felony indictment was dismissed and the Court sentenced these remaining defendants. This civil action had been held in abeyance until the criminal charge was resolved.

## II

## DESCRIPTION OF THE PRACTICES GIVING RISE TO THE ALLEGED VIOLATIONS OF THE ANTITRUST LAWS

Hearing aids are electrical devices worn by persons with hearing problems to assist them to hear better. Hearing aid dealers sell hearing aids and usually provide associated products and services. Hearing aid dealers are paid either by the patient or, if the patient is covered by a form of public assistance, by a State or local public agency.

During the period specified in the Complaint, the defendants were hearing aid dealers in the Detroit area. During 1974, defendants had revenues of approximately \$800,000 from the sale of hearing aids in the Detroit area.

The Complaint alleges that the defendants engaged in a combination and conspiracy beginning as early as November 1974 and continuing at least until February 5, 1975, the substantial terms of which were:

- (a) to refrain from giving price quotations for hearing aids over the telephone;
- (b) to refrain from advertising prices for hearing aids; and
- (c) to charge \$180 over cost for all State business (hearing aids sold to the public and paid for, in whole or in part, by a governmental entity or agency, including the State of Michigan and local public agencies).

The Complaint further alleges that the combination and conspiracy had the following effects, among others:

- (a) prices for hearing aids in the Detroit area have been fixed, raised and maintained at artificial and noncompetitive levels;
- (b) price competition between the defendants and co-conspirators in the sale of hearing aids in the Detroit area has been restrained and eliminated; and
- (c) purchasers of hearing aids in the Detroit area have been deprived of the benefits of purchasing hearing aids in an open and competitive market.

## III

## EXPLANATION OF THE PROPOSED FINAL JUDGMENT

The United States and the defendants have stipulated that the proposed Final Judgment may be entered by the Court at any time after compliance with the Antitrust Procedures and Penalties Act. The proposed Judgment states that it constitutes no admission by any party with respect to any issue of fact or law. Under the provisions of Section 2(e) of the Antitrust Procedures and Penalties Act, entry of the

proposed Judgment is conditioned upon a determination by the Court that the proposed Judgment is in the public interest (Section X of the Final Judgment).

The proposed Final Judgment enjoins any direct or indirect renewal of the type of conspiracy alleged in the Complaint. Specifically, Section IV provides that the defendants are enjoined and restrained from entering into, adhering to, maintaining, furthering, or renewing, directly or indirectly, any contract, agreement, understanding, plan, program, or concert of action with any other hearing aid dealer in the Detroit area, to:

- (a) refrain from giving price quotations for hearing aids over the telephone;
- (b) refrain from advertising prices for hearing aids;
- (c) fix, determine, establish, maintain, stabilize, increase or adhere to prices, markups, discounts or other terms or conditions, for the sale or service of hearing aids.

Section V further enjoins each defendant from, directly or indirectly:

- (A) communicating to any other hearing aid dealer in the Detroit area information concerning:
  - (1) future prices, markups, or discounts at which, or terms or conditions upon which, any hearing aid or any service will be sold or offered for sale by said defendant;
  - (2) the fact that such defendant is considering making changes or revisions in the prices, markups or discounts at which, or the terms or conditions upon which, such defendant sells or offers to sell any hearing aid or any service;
- (B) requesting from another hearing aid dealer in the Detroit area any information which said defendant could not communicate without violating subparagraph (A) of Section V.

Section VII of the proposed Judgment orders and directs each defendant to:

- (A) furnish a copy of the Judgment to each of its employees who has pricing responsibility in connection with the sale of hearing aids within thirty (30) days after the date of entry of the Judgment;
- (B) furnish a copy of the Judgment to each new employee who has pricing responsibility in connection with the sale of hearing aids, within thirty (30) days after the new employee is employed; and
- (C) attach to each copy of the Judgment furnished pursuant to subsections (A) and (B) of Section VII a statement advising each person of his obligations and of the defendants' obligations under the Judgment, and of the penalties which may be imposed upon him and/or upon the defendant for violation of the Judgment.

There is one limited exception to the prohibition against the exchange of information set forth in Section V of the proposed Judgment. This exception, contained in Section VI of the proposed Judgment, provides that nothing in Section V of the Judgment shall prohibit the communication of applicable information, including prices and quotations, by a defendant to another hearing aid dealer in the course of, and solely related to, negotiating for, entering into, or carrying out a *bona fide* purchase or sales transaction between such defendant and such other hearing aid dealer.

The proposed Judgment is applicable to each of the defendants and to the officers, directors, partners, agents, employees, and subsidiaries of each defendant, and to all other persons in active concert or participation with any of them who shall have received actual notice of the Judgment by personal service or otherwise (Section III).

Standard provisions similar to those found in other antitrust consent judgments are contained in Section I, concerning jurisdiction of the Court, Section VIII, concerning investigation and reporting requirements, and Section IX, concerning retention of jurisdiction by the Court over the parties to this final Judgment.

## IV

## REMEDIES AVAILABLE TO POTENTIAL PRIVATE PLAINTIFFS

After entry of the proposed final Judgment, any potential private plaintiffs who might have been damaged by the alleged violations will retain the same right to sue for monetary damages and any other legal and equitable remedies which they may have had if the Judgment had not been entered. The Judgment may not be used, however, as *prima facie* evidence in private litigation pursuant to Section V(a) of the Clayton Act, as amended, 15 U.S.C. § 16(a).

## V

## PROCEDURES AVAILABLE FOR MODIFICATION OF THE PROPOSED FINAL JUDGMENT

As provided by the Antitrust Procedures and Penalties Act, any person believing that the proposed Judgment should be modified may submit written comments to John A. Weedon, Chief, Cleveland Field Office, Antitrust Division, United States Department of Justice, 995 Celebrezze Federal Building, Cleveland, Ohio 44199 (telephone: 216-522-4070), within the 60-day period provided by the Act. These comments and the Department's responses to them will be filed with the Court and published in the FEDERAL REGISTER. All comments will be given due consideration by the Department of Justice, which remains free to withdraw its consent to the proposed Judgment at any time prior to its entry if it should determine that some modification of it is necessary. Section IX of the proposed Judgment provides that the Court retains jurisdiction over this action, and the parties may apply to the Court for such order as may be necessary or appropriate for its modification, interpretation or enforcement.

## VI

## ALTERNATIVES TO THE PROPOSED FINAL JUDGMENT

The alternative to the proposed Judgment considered by the Antitrust Division was a full trial of the issues on the merits and on relief. The Division considers the substantive language of the proposed Judgment to be of sufficient scope and effectiveness to make litigation on the issues unnecessary, as the proposed Judgment provides appropriate relief against the violations charged in the Complaint.

## VII

## DETERMINATIVE MATERIALS AND DOCUMENTS

No other material or document of the type described in Section 2(b) of the Antitrust Procedures and Penalties Act (15

U.S.C. § 16) was considered in formulating this proposed Judgment. Consequently, none is submitted pursuant to that Section.

JOHN A. WEEDON,  
Attorney, Department of Justice.

DAVID F. HILS,  
SUSAN B. CYPHERT,  
DAN AARON POLSTER,  
Attorneys, Department of Justice,  
Antitrust Division, 995 Celebrezze  
Federal Building, Cleveland, Ohio  
44199, (Telephone: 216-522-4074).

KENNETH J. HABER,  
Assistant U.S. Attorney.

Dated: December 19, 1978.

National Institute of Corrections

# ADVISORY BOARD OF THE NATIONAL INSTITUTE OF CORRECTIONS

## Bylaws

Notice is hereby given that the National Institute of Corrections (NIC) has amended the Bylaws which govern its affairs and operations as authorized under 18 U.S.C. Sections 4351-4353 (1974). The Bylaws (which were published in the FEDERAL REGISTER Vol. 41, No. 174—Tuesday, September 7, 1976 at pp. 37612-14) as amended follow.

ALLEN F. BREED,  
Director,  
National Institute of Corrections.

National Institute of Corrections

## Bylaws

### ARTICLE I—TITLE AND OBJECTS

The name of this organization shall be the Advisory Board of the National Institute of Corrections (NIC) hereinafter referred to as the Board of NIC or the Board.

Under the authority of 18 U.S.C. Sections 4351-4353 (1974) as provided for by Public Law 93-415, Title V, Part B hereinafter referred to as 18 U.S.C. Sections 4351-4353 (1974), NIC's overall goal is to aid in the development of more effective and humane federal, state and local correctional systems which will contribute to the safety of offenders, staff and the community by:

1. Providing the stimulus for cooperative and consolidated action by all groups impacting on corrections.
2. Establishing close working relationships with national, state and local correctional agencies.

3. Developing a larger sense of professionalism in corrections at all levels.

4. Drawing other professional groups into a closer relationship with correctional planning and practice.

In order to implement these objectives, 18 U.S.C. Sections 4351-4353 (1974) outlines five primary assistance areas that form the core of NIC's activities: training, research and evaluation, policy formulation and implementation, clearinghouse and publication, and technical assistance.

18 U.S.C. Sections 4351-4353 (1974) expressly charges the Board of NIC with both the authority and responsibility to develop and supervise the overall policy of NIC. The

primary responsibility of the Board in this regard shall be to review and approve the Annual Program Plan presented by the Director of NIC.

## ARTICLE II—ORGANIZATION

Section 1. *Membership and terms of office*—as required under 18 U.S.C. Sections 4351-4353 (1974), the Board of NIC shall consist of sixteen members:

Six individuals or their respective designees shall serve as ex officio members, these include: The Director of the Federal Bureau of Prisons, the Administrator of the Law Enforcement Assistance Administration, Chairman of the U.S. Parole Commission, the Director of the Federal Judicial Center, the Administrator of the Office of Juvenile Justice and Delinquency Prevention of the Law Enforcement Assistance Administration and the Assistant Secretary for Human Development of the Department of Health, Education and Welfare. Any ex officio member of the Board who selects a designee to serve in his position shall notify the Board's chairman in writing of such action. This written notification must include the name and position of the designee. Any change in a respective designee must follow the same notification procedure.

Five members of the Board of NIC must qualify as practitioners at the federal, state or local level in the area of corrections. These individuals shall be appointed by the Attorney General for staggered terms, initially: one member shall serve for one year, one member for two years and three members for three years.

The five remaining members of the Board of NIC shall be selected from the private sector such as business, labor and education and shall have demonstrated an active interest in corrections. These five members shall be appointed by the Attorney General for staggered terms, initially: one member shall serve for one year, three members for two years and one member for three years.

Upon completion of the term of each of the ten members not serving ex officio, the Attorney General shall appoint successors who will each serve for a term of three years. Terms of appointment of each of the ten members not serving ex officio shall bear effective date of January 1.

Section 2. *Officers of the Board*—The Board shall elect annually a chairman and three vice-chairmen. These officers shall be elected by a simple majority vote of the Board. The term of the office for the chairman and vice-chairman shall be one year commencing upon completion of the Board's fall/winter meeting. No chairman or vice chairman shall serve more than two consecutive one year terms.

No ex officio member of the Board may serve as chairman of the Board. No designee may serve as an officer of the Board.

A. The Chairman shall:

1. Preside over all meetings of the Board.
2. Consult with Board members and the Director of NIC and develop an agenda for each meeting. The agenda shall include but not be limited to: a report from each standing committee or task force, a report from the Director of NIC, and any proposed amendment to these bylaws.

3. Appoint as many ad hoc committees or task forces as are necessary to assist NIC in the accomplishment of its objectives.

4. Appoint each vice-chairman elected by the Board to chair a specific standing com-

mittees established under these bylaws and appoint members of those committees.

5. Perform such other functions and duties as the Board may authorize or request within the parameters of NIC's legislation (18 U.S.C. Sections 4351-4353 (1974)).

The Chairman of the Board is entitled to vote only in the event of a tie. The Chairman of the Board is a member of all committees and task forces of the Board but shall not be entitled to a vote on any committee or task force of the Board. Nor shall the Chairman of the Board be counted in the quorum of any committee or task force.

In event of his absence the chairman shall designate in writing a vice-chairman who will serve in his place. In event of the long term incapacitation or demise of the chairman the following rule of succession shall be applied. If eligible, succession shall occur in descending order:

1. Chairman, Policy Review Committee.
2. Chairman, Fiscal Review Committee.
3. Chairman, Grant Review Committee.

B. Each vice-chairman shall:

1. Serve as a chairman of one of the three standing committees established under these bylaws. In the event of his absence the chairman of any committee of the Board must designate a replacement for the interim.

### Section 3. *Committee Structure*

A. *Standing Committees*—there shall be three standing Committees as follows: (1) Policy Review, (2) Fiscal Review, (3) Grant Review. Each of the standing committees will be composed of no more than five and not less than three members of the Board. Each standing committee shall be balanced as equally as possible with members from each of the three categories of Board members, i.e., ex officio, practitioners and private sector representatives. At no time shall more than two members from any one category serve on any one standing committee. No individual Board member shall serve on more than two standing committees at any one time. No designee may serve as chairman of a standing committee.

1. *Policy Review Committee*—this committee's responsibilities shall include:

- (a) reviewing all proposals and suggestions relating to policy and/or procedure governing the Board's operations.

- (b) reviewing all proposals or suggestion relating to general program areas within which NIC will commit its resources.

- (c) reviewing all proposed amendments to these bylaws.

- (d) reviewing all legislation impacting upon NIC. The committee shall report its recommendations to the Board.

2. *Fiscal Review Committee*—this committee's responsibilities shall include:

- (a) participating with the Director of NIC in the development of a long-range fiscal plan.

- (b) reviewing the fiscal allocations within the proceeding year's Annual Program Plan and making recommendations regarding funding adequacy and future funding. The committee shall report its recommendations to the Board.

3. *Grant Review Committee*—this committee's responsibilities shall include:

- (a) developing policy for grant review,
- (b) reviewing all documents and guidelines dealing with grant and contract funding.

- (c) making recommendations to the director of NIC on concept papers or applications that are within NIC's approved thrust areas

but whose requested funding exceeds \$300,000.

(d) serving in accordance with NIC's grant review policy as an appellate review board making recommendations to the Director of NIC in cases of appeal.

B. *Ad Hoc Committees and Task Forces*—the chairman is empowered to appoint as many ad hoc committees and task forces from the Board's membership as deemed appropriate to conduct the business of the Board. As with standing committees, representation on ad hoc committees should reflect, if possible, all three categories of Board membership as outlined in Article II, Section 1 of these bylaws. The nominating committee will be an ad hoc committee appointed annually by the chairman. This committee shall nominate a slate of candidates to replace each elected officer. Upon submission to the Board of its recommendations the committee shall be discharged.

## ARTICLE III—DIRECTOR OF NIC

As provided for by 18 U.S.C. Section 4351 (h) (1974), the Director of NIC shall be appointed by the Attorney General after consultation with the Board of NIC.

Under 18 U.S.C. Section 4351(h) (1974), the Director shall have authority to supervise the organization, employees, enrollees, financial affairs, and all other operations of NIC and may employ such staff, faculty and administrative personnel, subject to the Civil Service and classification laws, as are necessary to the functioning of NIC. The Director shall have the power to acquire and hold real and personal property for NIC and may receive gifts, donations, and trusts on its behalf. The Director shall also have the power to appoint such technical or other advisory councils comprised of consultants to guide and advise the Board.

In accordance with the policies of the Board of NIC and applicable law, the Board of NIC delegates to the Director the authority to issue procedures, regulations and guidelines to implement these policies.

It shall be the primary duty of the Director of NIC to present NIC's Annual Program Plan to the Board, and to execute the Annual Program Plan upon Board approval.

The Director of NIC shall also have the following duties: (1) to provide appropriate staff support to the Board and its committees as may be necessary for the fulfillment of their duties, (2) to present a report to the Board of NIC at each meeting of the activities of NIC to date, (3) to maintain an up-to-date file of any written authorization which ex officio members of the Board of NIC must file when designating an individual to serve in their place as provided for under 18 U.S.C. Sections 4351-4353 (1974), (4) to provide for the keeping and recording of the minutes of any meeting of the Board of NIC and upon request for any of the Board's committees, (5) to provide all Board members with notice of the upcoming meetings, the agenda for the meeting, the minutes of the last meeting and any other appropriate materials, (6) to provide the Board through its Grant Review Committee a quarterly report of grant and contract awards.

## ARTICLE IV—MEETINGS

The Board shall meet three times annually. However, when deemed necessary, extra meeting may be called by the chairman or by at least five members of the Board.

Written notice of each meeting of the Board of NIC stating the place, date and

hour of the meeting, shall be given to each member at least three weeks prior to the date of the meeting.

Notice of any special or extra meeting of the Board of NIC called by the chairman or five or more members of the Board shall indicate that it is being issued by or at the direction of the persons calling the meeting and shall state the purpose or purposes for which the meeting is being called. Special or extra meetings may be called at any time with consent of two-thirds of the Board. Notice of a special or extra meeting may be given by telephone and/or by mail and ratified by two-thirds of the Board at the special or extra meeting.

Notice of all meetings of the Board shall be given to the public. Such notice shall be published in the FEDERAL REGISTER at least 15 days prior to the meeting, provided that in emergencies, such requirements may be waived. This notice shall contain a statement of the purpose of the meeting, a summary of the agenda, and the time, place, and location of such meeting.

Except for executive sessions, meeting of the Board shall be open to the public for observation. The chairman may invite more active participation from the public when such action is appropriate and does not interfere with the orderly transaction of the Board's business.

Executive sessions may be called by a majority vote of a quorum of the Board in public. No final action shall be taken at such meetings except upon votes in open session. These sessions shall not be used to obstruct the fullest possible public accessibility to meetings.

## ARTICLE V—VOTING

All members of, as well as all officers who are members of the Board of NIC shall each be entitled to a vote on any issue before the Board. Proxy voting will be allowed at any meeting of the Board of NIC or at any meeting of its committees or task forces. The proxy must be written and filed with the chairman prior to the voting on the issue in question. Proxies may not be used to form a quorum.

Under 18 U.S.C. section 4351, a member serving ex officio may designate an individual to serve and vote in his position at any meeting of the Board or its committees and task forces. Selection of a designee does not preclude an ex officio member from attending and voting at any meeting of the Board, its committees or task forces in place of his respective designee.

No action of the Board of NIC shall be valid and binding without a vote by a quorum of its members. A quorum of the Board shall consist of one-half or more of its members or designees.

## ARTICLE VI—COMPENSATION OF BOARD MEMBERS

Under 18 U.S.C. sections 4351-4353 (1974), the members of the Board shall not, by reason of such membership, be deemed officers or employees of the United States. Members of the Board who are full-time officers or employees of the United States shall serve without additional compensation, but may be reimbursed for travel, subsistence, and other necessary expenses incurred in the performance of the duties vested in the Board. Other members of the Board shall, while attending meetings of the Board or while engaged in duties related to such meetings or in other activities of the

Board pursuant to 18 U.S.C. sections 4351-4353 (1974), be entitled to receive compensation at the rate not to exceed the daily equivalent of the rate authorized for GS-18 by section 5332 of Title 5, United States Code, including travel-time, and while away from their homes or regular places of business may be allowed travel expenses, including per diem in lieu of subsistence equal to that authorized by section 5703 of Title 5, United States Code for persons in the Government service employed intermittently. Compensation and reimbursement as provided for by this Article shall be made only upon written request.

## ARTICLE VII—PARLIAMENTARY AUTHORITY

Meetings of the Board and its committees shall be conducted in accordance with the rules contained in "Robert's Rules of Order Revised." These rules shall govern the Board in all cases where applicable and in which they are not inconsistent with these bylaws. Special rules of order preempting those contained in "Robert's Rules of Order Revised" may be adopted by the Board. Any special rules of order are to be incorporated in these bylaws as a separate section under this Article.

## ARTICLE VIII—AMENDMENT OF THE BYLAWS

These bylaws may be amended at any meeting of the Board by a majority vote of a quorum of the Board. Amendments to the bylaws may be proposed by the Policy Review Committee or by any five members of the Board of NIC. Any proposed amendments must be written; signed and sent to Board members at least 15 days in advance of the meeting at which they will be discussed.

## ARTICLE IX—NOTICE OF THE BYLAWS

Notice of these bylaws shall be published in the FEDERAL REGISTER.

[FR Doc. 78-36279 Filed 12-28-78; 8:45 am]

[4410-05-M]

## GRANT AND CONTRACT REVIEW PROCESS

### Procedures

Notice is hereby given that the National Institute of Corrections (NIC) has amended its procedures—which were published in the FEDERAL REGISTER Vol. 41, No. 216—Monday, November 8, 1976 at pp. 49200-49201—for the internal processing of concept papers, grant applications and/or contracts. These procedures cover concept papers, grant applications and/or contracts submitted by appropriate individuals, organizations or agencies with NIC's enabling legislation, (18 U.S.C. Sections 4351-4353 (1974)).

ALLEN F. BREED,  
Director,  
National Institute of Corrections.

1. *Purpose.* To formalize the responsibilities of the Advisory Board, Grant Review Committee of the Advisory Board, and the Director of the National Institute of Corrections with regard to grant and contract review and

award. To detail the steps involved in the review and award process.

2. *Directives affected.* Supercedes procedures contained in June 23-24, 1975, National Institute of Corrections Board Minutes. Supplements all official Government regulations.

3. *Definition of terms.* For purposes of this statement, the term "Director" means the Director of the National Institute of Corrections; the term "Advisory Board" means the Advisory Board of the National Institute of Corrections; and the term "Grant Review Committee" means the Grant Review Committee of the Advisory Board, National Institute of Corrections.

An "application" is a duly executed Standard Form 424—Federal Assistance, properly completed in compliance with application instructions and submitted from eligible parties in accordance with Federal Management Circular FMC 74-7 and FMC 73-7.

A "concept paper" is any submission of materials other than the Standard Form 424 which outlines in brief the submitter's programmatic and budgetary intent.

Concept papers and applications for grants originate from three primary sources: Those received in response to announced initiative efforts; those solicited by National Institute of Corrections staff; and those forwarded to the National Institute of Corrections unsolicited.

"Conflict of Interest"—The Department of Justice Standards of Conduct, 28 CFR Part 45.734-4, defining "Conflicts of Interest," apply to "employees" and "special government employees" as defined in this section.

The term "Contract" means establishment of a binding legal relationship basically obligating the seller to furnish personal property or nonpersonal services (i.e., unsupervised delivery of services or a product) and the buyer to pay therefor. It includes all types of commitments which obligate the Government to an expenditure of funds which, except as otherwise authorized, are in writing. In addition to a two-signature document, it includes all transactions resulting from acceptance of offers by awards or notices of awards; agreements and job orders or task letters issued thereunder; letter contracts; letters of intent; and order, such as purchase orders, under which the contract becomes effective by written acceptance or performance. It also includes contract modifications.

"Employee" means an officer or employee of the Department of Justice and includes a special Government employee who is an individual retained, designated, appointed, or employed by the Department of Justice to perform, with or without compensation, for not more than 130 days during any period of 365 consecutive

days, temporary duties either on a full-time or intermittent basis.

"Field readers" are those individuals who review NIC selected concept papers and application statements from their professional perspective with the view of assessing the relative merits and feasibility of contemplated actions or activities of the submitter. These individuals appear on the Advisory Board's approved list of readers.

The term "Grant" means an agreement between the Federal Government and another party whereby the Federal Government provides funds or aid in kind to carry out specified programs, services or activities.

4. *Annual Program Plan.* Each year the Director of the National Institute of Corrections shall prepare for the approval of the Advisory Board an Annual Program Plan. This Plan shall outline the program priorities or thrust areas of the Institute, the types of grants and contracts to be undertaken in the next year and their estimated funding levels. The Annual Program Plan may be modified at any duly authorized meeting of the Advisory Board.

The Annual Program Plan shall serve as the framework and guidelines by which concept papers or applications will be reviewed.

5. *Action.* A. Each organization or person submitting a formal application for a grant will be asked to complete a statement of relationship to, association or affiliation with any National Institute of Corrections Advisory Board member and/or staff, past or present.

B. Each concept paper or application will receive a fiscal and programmatic review by the National Institute of Corrections staff. When submissions are deemed nonfundable by staff, a rejection letter stating briefly, the reason for rejection will be forwarded to the organization or person submitting the concept paper or application.

C. Where the concept paper or application is deemed potentially fundable and there is no known conflict of interest the following will apply:

(1) If the grant is within the approved National Institute of Corrections thrust areas, and funding level is: (a) less than \$100,000; or (b) the grant is for the performance of any internal administrative functions of the National Institute of Corrections; or (c) an interagency agreement where another Federal agency is the recipient, the Director will review staff recommendations and make the award decision.

(2) When a concept paper or application is within the approved National Institute of Corrections thrust areas but requested funding level is greater than \$100,000, the Director will obtain at least three field reviews from the

Board approved list of reviewers, as to the concept paper's or application's suitability, feasibility, and contribution to the field of corrections.

The Director will then review staff recommendations and field reviews and make an award decision.

(3) Where a concept paper or application is within the approved National Institute of Corrections thrust areas, but requested funding exceeds \$300,000, the process will proceed as in C-2 above with the exception that the Director will seek the advice of the Grant Review Committee as to the appropriateness of the grant to the Annual Program Plan.

D. Where the concept paper or application is deemed potentially fundable but the statement referred to in 5-A above indicated potential conflict of interest, the considerations outlined in Section C above will apply but in addition there will be:

(1) Fiscal and programmatic review by staff and review by three field readers from the Board approved list of reviewers, as to the concept paper's or application's suitability, feasibility, and contribution to the field of corrections;

(2) Where such reviews are positive, then the Director will seek the advice of the Grant Review Committee regarding the appropriateness of an award and then make an award decision.

E. Each organization or person submitting a concept paper or application will have the right to appeal nonfavorable considerations:

(1) Where concept papers or applications meet guidelines presented in C-1 or C-2 above, the Grant Review Committee will serve as the appellate review board and make recommendations to the Director for appropriate action.

(2) When concept papers or applications meet guidelines contained in C-3 above, the Chairman of the Advisory Board will appoint from the Board an appeals committee to make recommendations to the Director for appropriate action.

F. *Continuation grants.* Any initially approved grant for which a renewal or continuation is requested will be reviewed by NIC program staff. This review will include consideration of any evaluations and reports completed during the term of the grant, NIC's Annual Program Plan, as well as the need for a continued effort in the particular area covered by that particular grant. The reviewing staff will submit a recommendation to the Director. The Director will then make a decision on the continuation of the grant in question.

Appeals to decisions on continuation grants may be made in accordance

with the specifications outlined by Section E above.

6. *Reporting.* The Grant Review Committee will receive quarterly a listing of NIC grant awards. In addition, the Grant Review Committee will be advised quarterly of programmatic contracts entered into by NIC.

## DEPARTMENT OF LABOR

Employment and Training Administration

### FEDERAL COMMITTEE ON APPRENTICESHIP

#### Public Meetings

Pursuant to Section 10(a) of the Federal Advisory Committee Act (Pub. L. 92-463; 5 U.S.C. 1), of October 6, 1972, notice is hereby given that the Federal Committee on Apprenticeship will conduct the following open meetings:

(a) Joint Meeting:

FCA Subcommittees on Goals and Equal Apprenticeship Opportunity

Date: January 17, 1979.

Time: 9 a.m. to 11 a.m.

Place: N-4437 (A-B), Department of Labor Building, 200 Constitution Avenue, N.W., Washington, D.C.

Agenda: 1. Followup on Recommendations of the Toledo Bend Meeting.

2. Rewording of Section I, 3 (b) concerning 1-year exemption from application of 29 CFR 30 to stimulate development of new apprenticeship programs.

(b) FCA Subcommittee on Research:

Date: January 17, 1979.

Time: 11 a.m. to 12 noon.

Place: N-4437 (A-B), Department of Labor Building, 200 Constitution Avenue, N.W., Washington, D.C.

Agenda: Discussion of the ETA Research and Evaluation Process.

(c) FCA Subcommittee on Goals:

Date: January 17, 1979.

Time: 1:30 p.m. to 2:30 p.m.

Place: N-4437 (A-B), Department of Labor Building, 200 Constitution Avenue, N.W., Washington, D.C.

Agenda: Recommendations of the Toledo Bend Meeting.

(d) FCA Subcommittee on Equal Apprenticeship Opportunity:

Date: January 17, 1979.

Time: 2:30 p.m. to 3:30 p.m.

Place: N-4437 (A-B), Department of Labor Building, 200 Constitution Avenue, N.W., Washington, D.C.

Agenda: (a) Hotline for Telephone Exchange of Apprenticeship Information.

(b) Women's Issues.

(e) FCA Subcommittee on Federal-State Relations:

Date: January 17, 1979.

Time: 4 p.m. to 6 p.m.

Place: N-4437 (A-B), Department of Labor Building, 200 Constitution Avenue, N.W., Washington, D.C.

Agenda: Discussion of the University of Texas Study of Federal-State Rules and Responsibilities.

The Federal Committee on Apprenticeship will hold a full open meeting on Thursday, January 18, from 9 a.m. to 4:30 p.m.; Friday, January 19, 1979, from 9 a.m. to 12 noon in the Congressional Room, Quality Inn-Capitol Hill, 415 New Jersey Avenue, N.W., Washington, D.C.

The agenda for the meeting on January 18 will include:

1. Department of Labor Task Force to Study Foreign Apprenticeship Programs

2. American Vocational Association

3. Performance Evaluated Training System (United Brotherhood of Carpenters and Joiners)

4. Slide Presentation—"Women in Apprenticeship"

5. Report on Implementation of 29 CFR 30: Equal Employment Opportunity in Apprenticeship and Training

6. Goodyear Performance Based Training

7. William F. Patterson Memorial Fund

8. Status Report on New Initiatives and Other BAT Activities

9. Status Report on Apprenticeship Information Centers Program

10. Report of FCA Subcommittee on Research

The agenda for the meeting on January 19 will cover:

1. Slide Presentation on "BAT Apprenticeship"

2. Tennessee-Tombigbee Rural Employment Outreach E&D Project

3. Report of FCA Subcommittee on Federal-State Relations

4. Report of FCA Subcommittee on Goals of the FCA

Agenda is subject to change due to time constraints and priority items which may come before the Committee between the time of this publication and the scheduled date of the FCA meeting.

Members of the public are invited to attend the proceedings. Any member of the public who wishes to file written data, views or arguments pertaining to the agenda may do so by furnishing it to the Executive Secretary before January 15, 1979. Thirty copies are needed for the members and for the inclusion of the minutes of the meeting.

Any member of the public who wishes to speak at this meeting should so indicate in a written statement, also the nature of the intended presentation and amount of time needed. The Chairperson will announce at the beginning of the meeting the extent to which time will permit the granting of such requests.

Communications to the Executive Secretary should be addressed as follows: Mrs. Marion M. Winters, Bureau of Apprenticeship and Training, ETA, U.S. Department of Labor, 601 D Street, N.W., (room 5434), Washington, D.C. 20213.

Signed at Washington, D.C. this 26th day of December 1978.

ERNEST G. GREEN,  
Assistant Secretary for Employment and Training Administration.

### Mine Safety and Health Administration

[Docket No. M-78-122-C]

#### AMERICAN COAL CO.

#### Petition for Modification of Application of Mandatory Safety Standard

American Coal Company, Box 310, Huntington, Utah 84528, has filed a petition to modify the application of 30 CFR 77.410 (automatic warning devices) to its Deseret, Bee-Hive and Little Dove Mines located in Emery County, Utah. The petition is filed under Section 101(c) of the Federal Mine Safety and Health Act of 1977, Pub. L. 95-194.

The substance of the petition follows:

(1) The petition pertains to Kubotas and Ford 1600 diesel utility tractors used in the mines for underground travel does not pertain to equipment used for hauling material or pulling man-trip cages.

(2) Maintenance of automatic warning devices that indicate movement in reverse has proven difficult because of the adverse conditions underground where the tractors are used most of the time.

(3) These tractors travel a maximum of four miles per hour in reverse.

(4) Because an operator can look over either shoulder with unobstructed view, the petitioner believes that the tractors do not need warning devices for movement in reverse.

#### REQUEST FOR COMMENTS

Persons interested in this petition may furnish written comments on or before January 29, 1979. Comments must be filed with the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

Dated: December 12, 1978.

ROBERT B. LAGATHER,  
Assistant Secretary  
for Mine Safety and Health.

Mine Safety and Health Administration

[Docket No. M-78-301]

MORATA COAL CO.

Final Action Granting a Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that the Mine Safety and Health Administration (MSHA) has granted in part the petition (43 FR 8192) of Morata Coal Company to modify the application of 30 CFR 75.301 to its No. 4 Vein Slope Mine in Northumberland County, Pa., in accordance with section 101(c) of the Federal Mine Safety and Health Act of 1977, Public Law 95-164. It has been determined that an alternative method of achieving the result of such standard exists which will at all times guarantee no less than the same measure of protection afforded the miners of such mine by such standard.

This determination was based on the following findings made by MSHA:

1. The quantity of air in the working faces and in the last open crosscut was found to be in excess of the minimum requirements of 30 CFR 75.301.

2. Ventilation violation records revealed that the mine was not always in compliance with respect to the air quantity requirement in the face area. However, a hazardous condition due to methane, carbon dioxide, and other noxious or poisonous gases was not detected in the mine during the period of non-compliance.

3. Air sample analyses records and frequent onsite sampling confirm that harmful quantities of methane have not been detected in this mine.

4. The operator's records, as well as MSHA's, confirm that there were no ignitions, explosions, or mine fires in this mine since activation of the mine.

5. Air sample analyses records and frequent onsite sampling indicate that harmful quantities of carbon dioxide and other noxious or poisonous gases are not present in this mine.

6. Respirable dust was not found to be in excess of the maximum standards as verified by dust sample records, which revealed an average concentration of 0.13 mg/m<sup>3</sup>, which was well below the present maximum limit standard of 2.0 mg/m<sup>3</sup>. A high of 1.9 milligrams was recorded on an operator cycle of ten samples collected when the maximum was 20 milligrams. As regards dust concentrations in anthracite mines, we point out that re-

spirable dust data collected when a representative mine was regulated to simulate conditions with air quantities requested for this mine, revealed that there was no appreciable increase in dust concentrations with these smaller air quantities.

7. The operator contends that extremely high air velocities in restricted airways and manways present a very dangerous flying object hazard to the miners. Investigation has revealed that these conditions do not exist in this mine, consequently, we do not agree that this is a problem in the mine.

8. The operator argues that high velocities and large air quantities cause extremely uncomfortable damp and cold conditions in the already uncomfortable cold mine. This investigation tends to substantiate this claim even though the investigation was conducted during the warmer months. The mine is wet, consequently, a damp atmosphere is ever present. This dampness coupled with the cold air induced into the mine during the winter months creates an unbearable damp, cold working environment. The induced cold surface air does not have a chance to adjust substantially upwards due to the fact that the mine is shallow and small, and air travel distance and time required to deliver the air to the working area is short.

9. Interview with the miners also substantiated petitioner's claim that the mine conditions caused in part by compliance with 30 CFR 75.301 contribute to difficulty in attracting and retaining mine employees.

10. MSHA investigators also found there was no electric face equipment or other electrically operated mechanical mining equipment used in this mine, thus further minimizing any need for the quantities of air required by 30 CFR 75.301.

Because of these findings, the Administrator for Coal Mine Safety and Health, under authority delegated by the Secretary of Labor, ordered that the petition be granted, conditioned upon compliance with the following:

That Section 75.301 of the implementing regulations, 30 CFR 75, be modified for the Morata Coal Company, No. 4 Vein Slope Mine, to require in part, the minimum quantity of air reaching each working face shall be 1,500 cubic feet a minute, the minimum quantity of air reaching the last open crosscut in any pair or set of developing entries and the last open crosscut in any pair or set of rooms shall be 5,000 cubic feet a minute, and/or whatever additional quantity of air that may be required in any of these areas to maintain a safe and healthful atmosphere.

A copy of the decision is available for inspection by the public at the

Office of Standards, Regulations and Variances, Mine Safety and Health Administration, 4015 Wilson Boulevard, Arlington, Virginia 22203.

Dated: December 14, 1978.

ROBERT B. LAGATHER,  
Assistant Secretary  
for Mine Safety and Health.

[Docket No. M-78-124-C]

MULLINS AND SONS COAL CO.

Petition for Modification of Application of Mandatory Safety Standard

Mullins and Sons Coal Co, Kimper, Kentucky 41539 has filed a petition to modify the application of 30 CFR 75.1710-1 (canopies) to its No. 1 Mine, in Pike County, Kentucky. The petition is filed under Section 101(c) of the Federal Mine Safety and Health Act of 1977, Public Law 95-164.

The substance of the petition follows:

1. The petition pertains to the following equipment: 1 Joy 16 RB cutting machine, 2 Galis roof bolters, 1 Wilcox roof bolter, 5 Elkhorn battery scoops and 1 Long Airdox face drill.

2. This equipment ranges in height from 24 to 36 inches and was not designed to have canopies installed.

3. The petitioner is mining at face heights of 45 to 48 inches, but to reach the face the petitioner's equipment must pass under roof heights of less than 42 inches.

4. Because the floor of the mine is uneven, canopies on the petitioner's equipment would hit and loosen roof bolts, causing a hazard.

5. Canopies would limit the equipment operator's field of vision, creating a potential hazard.

6. For these reasons, the petitioner states that the application of the standard to the mine will result in a diminution of safety to the miners of the mine.

**REQUEST FOR COMMENTS**

Persons interested in this petition may furnish written comments on or before January 29, 1979. Comments must be filed with the office of Standards, Regulations and Variances, Mine Safety and Health Administration, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

Dated: December 18, 1978.

[Docket No. M-77-259]

QUARTO MINING CO.

Final Action Granting a Petition for Modification of Application of Mandatory Safety Standard

The Mine Safety and Health Administration (MSHA) has granted the petition (42 FR 54885) of Quarto Mining Company to modify the application of 30 CFR 75.1700 to its Powhatan No. 4 Mine located in Monroe County, Ohio, in accordance with Section 101(c) of the Federal Mine Safety and Health Act of 1977, Pub. L. 95-164. MSHA has determined that an alternative method exists that will guarantee at all times no less than the same measure of protection afforded miners of the mine by the standard.

MSHA based its determination on the following findings:

Extensive research conducted by the U.S. Bureau of Mines and U.S. Energy Research and Development Administration (ERDA) has developed feasible and safe methods to plug abandoned oil/gas wells and eliminate the need for coal barriers around such wells. MESA Informational Report 1052 has concluded that certain plugging methods can effectively prevent well gases from entering the mine during regular mining operations and allow additional safety and operational benefits that are not possible under 75.1700.

MSHA's investigators and Chief, Safety Division recommended that the Petition for Modification of the application of Section 75.1700, Docket No. M-77-259 be approved as providing no less than the same degree of safety that Section 75.1700 does, if the following stipulations are adopted in the petition:

1. The procedures for plugging the wells and the safety precautions included in their Petition for Modification (30 CFR, subsection 75.1700) and this report shall be complied with.

2. Prior to plugging operations, the Petitioner shall file mining projections for the well to be plugged with MSHA so that a determination can be made as to whether the mining through of that well is necessary.

3. The Quarto Mining Company shall consult and cooperate with MSHA in plugging and mining in the 300-foot area around the well so that the technical expertise of the project will be available to MSHA.

4. The following procedures shall apply for longwall mining through a plugged well:

(a) Fire-fighting facilities to include fire extinguishers, rock-dust, and enough fire hose to reach the working place, shall be available.

(b) Equipment shall be checked for permissibility and serviced on the shift prior to mining through the well.

(c) The methane monitor on the longwall shall be calibrated and tested on the shift prior to mining through the well.

(d) Tests for methane will be made with a hand-held methane detector at least every ten (10) minutes from the time that mining is within 30 feet from the well until the well is intersected.

(e) The area shall be free from accumulations of coal dust and coal spillages, and rockdust shall be placed on the roof, ribs, and floor before the last shear cuts into the well.

5. The following procedures shall apply for the mining through of plugged wells with a continuous miner:

(a) Drivage sights shall be installed at the last breakthrough to assure intersection of the well and again if necessary to insure that the last sight line is no further than fifty feet from the well.

(b) Sufficient supplies of roof support and ventilation materials shall be available near the working place.

(c) Fire-fighting facilities to include fire extinguishers, rockdust, and enough fire hose to reach the working place shall be available.

(d) A minimum of 9,000 cubic feet of air per minute shall be used to ventilate the working face during the mining through.

(e) Equipment shall be checked for permissibility and serviced on the shift prior to the mining-through.

(f) The area shall be free from accumulations of coal dust and coal spillages and rockdust shall be maintained on the roof, rib and floor to within twenty feet of the face.

6. When the well bore is intersected, all equipment shall be idled, deenergized and the place thoroughly examined and determined safe before mining is resumed. Any well casing shall be removed, and no open flame shall be permitted in the area until adequate ventilation has been established around the well bore.

7. Air samples shall be collected by MSHA personnel at the well bore following the mining-through and at other intervals as determined by MSHA.

8. After the well has been intersected and the working place determined safe, mining will continue in by the well a sufficient distance to permit adequate ventilation around the area of the well bore.

9. The mining-through operation shall be under the direct supervision of a certified official. Orders concerning the mining through operation shall be issued by the certified official in charge.

10. MSHA personnel may interrupt or halt the mining-through operation when it is necessary to insure the safety of the miners.

11. No person shall be permitted in the area of the mining through operation except those actually engaged in the operation, company personnel, representatives of the United Mine Workers of America, personnel from MSHA, and personnel from the Ohio Department of Mines.

12. A copy of the petition shall be maintained at the mine and be available to the miners.

13. Petitioner will notify MSHA prior to mining within 300 feet of the well.

14. The District Manager or Subdistrict Manager, MSHA, will conduct a conference just prior to, or within a reasonable time prior to, the mining-through of any plugged well, to review the specific plan for mining-through such well, and determine whether or not such plan is appropriate. Representatives of the operator, UMWA, and the State Department of Mines will be informed, within a reasonable time prior to the conference, and will be given an opportunity to attend and participate.

15. Krypton 85 can be used as an alternative tracer in plugging of oil or gas wells.

16. The MSHA District or Subdistrict Manager and representatives of the United Mine Workers of America (including the Chairman of the Mine Safety and Health Committee and the International Safety Inspector) shall be notified in sufficient time prior to the mining-through to have representatives present during the actual mining-through operation. Employees at the mine will be notified by mine management as to what is scheduled to take place.

Because of these findings, the Administrator for Coal Mine Safety and Health, under authority delegated by the Secretary of Labor, ordered that the petition be granted, conditioned upon compliance with the terms and conditions of the findings.

A copy of the decision is available for inspection by the public at the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, 4015 Wilson Boulevard, Arlington, Virginia 22203.

Dated: December 15, 1978.

ROBERT B. LAGATHER,  
Assistant Secretary  
for Mine Safety and Health.

## Office of the Secretary

## BOLTS, NUTS, AND LARGE SCREWS OF IRON OR STEEL

## Notice of Report Findings and Availability

On November 3, 1978, the U.S. International Trade Commission (ITC) determined that increased imports of "Bolts, Nuts, and Large Screws of Iron or Steel" are a substantial cause of serious injury, or the threat thereof, to the domestic industry for purposes of the import relief provisions of the Trade Act of 1974 (43 FR 52294).

Section 224 of the Trade Act directs the Secretary of Labor to initiate an industry study whenever the ITC begins an investigation under the import relief provisions of the Act. The purpose of the study is to determine the number of workers in the domestic industry petitioning for relief who have been or are likely to be certified as eligible for adjustment assistance, and the extent to which existing programs can facilitate the adjustment of such workers to import competition. The Secretary is required to make a report of this study to the President and also make the report public (with the exception of information which the Secretary determines to be confidential).

The U.S. Department of Labor has concluded its report on "Bolts, Nuts, and Large Screws of Iron or Steel". The report found as follows:

1. Since April 3, 1975, the effective date of the adjustment assistance program, the U.S. Department of Labor has received 40 petitions for certification of eligibility to apply for adjustment assistance from workers engaged in the production of bolts, nuts, and large screws of iron or steel. The Department certified 20 of these cases and 17 were denied. One petition was withdrawn by the petitioner prior to an investigation, and two investigations are in progress. As of August 31, 1978 the Department had paid \$6,998,017 in the form of trade readjustment allowances to 4,702 workers.

2. Employment of workers producing bolts, nuts, and large screws of iron or steel was slightly higher in the first half of 1978 than in 1976, but remained substantially below the levels reached in 1973 and 1974. Employ-

ment, man-hours, and hours worked per week have been essentially constant over the last two years. However, demand for labor in the industry is very unlikely to increase, and some erosion of employment is possible during 1979, depending on economic conditions and potential import increases. Most separated workers should be eligible for trade adjustment assistance.

3. Unemployment rates in eleven of the 25 areas with plants producing bolts, nuts, and large screws of iron or steel were above the national unemployment rate of 5.8 percent (unadjusted) for August 1978. Unfavorable local labor market conditions, especially for those areas having several plants, indicate that reemployment prospects for many of the separated workers in impacted areas are generally unfavorable.

4. The age distribution of workers in the bolts, nuts, and large screws of iron or steel industry indicate that these workers are substantially older than clients targeted by CETA sponsors for impacted areas. The Comprehensive Employment and Training Act (CETA) sponsors appear to have sufficient funding, positions, or both for those displaced workers who qualify. For displaced trade impacted workers not covered by CETA programs, the U.S. Department of Labor has the authority, within funding limitations, to purchase specific training.

Copies of the Department report containing nonconfidential information developed in the course of the 3-month investigation may be purchased by contacting the Office of Trade Adjustment Assistance, U.S. Department of Labor, 200 Constitution Avenue, N.W., Washington, D.C. 20210 (phone 202-523-7665).

Signed at Washington, D.C. this 19th day of December 1978.

HOWARD D. SAMUEL,  
Deputy Under Secretary,  
International Affairs.

[FR Doc. 78-36146 Filed 12-28-78; 8:45 am]

[4510-28-M]

## INVESTIGATIONS REGARDING CERTIFICATIONS OF ELIGIBILITY TO APPLY FOR WORKER ADJUSTMENT ASSISTANCE

Petitions have been filed with the Secretary of Labor under Section

221(a) of the Trade Act of 1974 ("the Act") and are identified in the Appendix to this notice. Upon receipt of these petitions, the Director of the Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted investigations pursuant to Section 221(a) of the Act and 29 CFR 90.12.

The purpose of each of the investigations is to determine whether absolute or relative increases of imports of articles like or directly competitive with articles produced by the workers' firm or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision.

Petitioners meeting these eligibility requirements will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90. The investigations will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved.

Pursuant to 29 CFR 90.13, the petitioners or any other persons showing a substantial interest in the subject matter of the investigations may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than January 8, 1979.

Interested persons are invited to submit written comments regarding the subject matter of the investigations to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than January 8, 1979.

The petitions filed in this case are available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 200 Constitution Avenue NW., Washington, D.C. 20210.

Signed at Washington, D.C. this 15th day of December 1978.

MARVIN M. FOOKS,  
Director, Office of  
Trade Adjustment Assistance.

## INVESTIGATIONS REGARDING CERTIFICATIONS OF ELIGIBILITY TO APPLY FOR WORKER ADJUSTMENT ASSISTANCE

Petitions have been filed with the Secretary of Labor under Section 221(a) of the Trade Act of 1974 ("the Act") and are identified in the Appendix to this notice. Upon receipt of these petitions, the Director of the Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted investigations pursuant to Section 221(a) of the Act and 29 CFR 90.12.

The purpose of each of the investigations is to determine whether absolute or relative increases of imports of articles like or directly competitive with articles produced by the workers' firm or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or pro-

duction, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number of proportion of the workers of such firm or subdivision.

Petitioners meeting these eligibility requirements will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90. The investigations will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved.

Pursuant to 29 CFR 90.13, the petitioners or any other persons showing a substantial interest in the subject matter of the investigations may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment As-

sistance, at the address shown below, not later than January 8, 1979.

Interested persons are invited to submit written comments regarding the subject matter of the investigations to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than January 8, 1979.

The petitions filed in this case are available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 200 Constitution Avenue, N.W., Washington, D.C. 20210.

Signed at Washington, D.C. this 19th day of December 1978.

MARVIN M. FOOKS,  
Director, Office of  
Trade Adjustment Assistance.

(TA-W-4084)

AVONDALE MILLS EVA JANE PLANT,  
SYLACAUGA, ALA.

**Notice of Negative Determination Regarding  
Eligibility to Apply for Worker Adjustment  
Assistance**

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4084: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on August 22, 1978 in response to a worker petition received on August 18, 1978 which was filed on behalf of workers and former workers producing polyester/cotton blend fabrics at the Eva Jane Plant of Avondale Mills in Sylacauga, Alabama.

The Notice of Investigation was published in the FEDERAL REGISTER on September 5, 1978 (43 FR 39458). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Avondale Mills, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

that increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

The Department of Labor conducted a survey of some of the customers of Avondale Mills, Eva Jane Plant. None of the customers responding purchased imported polyester/cotton blend fabric between 1976 and July 1978.

**Conclusion**

After careful review, I determine that all workers of the Eva Jane Plant of Avondale Mills in Sylacauga, Alabama, are denied eligibility to apply for adjustment assistance under Title

II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 11th day of December 1978.

JAMES F. TAYLOR,  
Director, Office of Management,  
Administration, and Planning.

(TA-W-4057)

BELROSE KNITTING MILLS, HOBOKEN, N.J.

**Notice of Negative Determination Regarding  
Eligibility To Apply for Worker Adjustment  
Assistance**

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4057: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on August 15, 1978 in response to a worker petition received on August 14, 1978 which was filed on behalf of workers and former workers producing men's, women's and children's sweaters at Belrose Knitting Mills, Hoboken, New Jersey.

The Notice of Investigation was published in the FEDERAL REGISTER on August 29, 1978 (43 FR 38635-36). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Belrose Knitting Mills, its customers (manufacturers), the National Cotton Council of America, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

that increases of imports of articles like or directly competitive with articles produced by the firm or subdivision have contributed importantly to the total or partial separation, or threat thereof, and to the absolute decline in sales or production.

The Department conducted a survey of the customers of Belrose Knitting Mills representing a majority of sales.

The survey revealed that respondents did not purchase imported sweaters or use foreign contractors.

**Conclusion**

After careful review, I determine that all workers of Belrose Knitting Mills, Hoboken, New Jersey are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 18th day of December 1978.

HARRY J. GILMAN,  
Acting Director, Office of  
Foreign Economic Research.

(TA-W-4164)

BENDIX CORP. ABRASIVES DIVISION,  
JACKSON, MICH. PLANT

**Notice of Negative Determination Regarding  
Eligibility to Apply for Worker Adjustment  
Assistance**

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4164: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on September 19, 1978 in response to a worker petition received on September 15, 1978 which was filed by the United Automobile, Aerospace & Agricultural Implement Workers of America on behalf of workers and former workers producing abrasive grinding wheels at the Jackson, Michigan plant of the Bendix Corporation, Abrasives Division.

The Notice of Investigation was published in the FEDERAL REGISTER on October 27, 1978 (43 FR 50270). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of the Bendix Corporation, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. Without regard to whether any of the other criteria have

been met, the following criterion has not been met:

that increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

The Bendix Corporation Abrasives Division intends to close the Jackson, Michigan plant in January 1979. Production facilities at the Jackson plant will be moved to North Manchester, Indiana. Employment at the Jackson plant is on the decline, while divisional employment and divisional sales of grinding wheels are currently increasing.

**Conclusion**

After careful review, I determine that all workers of the Jackson, Michigan plant of the Bendix Corporation Abrasives Division are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 19th day of December 1978.

(TA-W-4276)

SAUCON MILLS, BETHLEHEM STEEL CORP.,  
BETHLEHEM, PA.

**Notice of Negative Determination Regarding  
Eligibility to Apply for Worker Adjustment  
Assistance**

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4276: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on October 20, 1978 in response to a worker petition received on October 10, 1978 which was filed on behalf of workers and former workers involved with scheduling production operations at the Saucun Mills of Bethlehem Steel Corporation, Bethlehem, Pennsylvania. The investigation revealed that the plant primarily produces carbon steel structural shapes. Pursuant to an earlier investigation (TA-W-1496), workers were certified as eligible to apply for adjustment assistance. A termination date of January 1, 1977 was imposed. A subsequent investigation was conducted (TA-W-3729, 3730, and 3731) to determine if the January 1, 1977 termination date could be extended. A negative determination was issued on October 16, 1978.

The Notice of Investigation was published in the FEDERAL REGISTER on October 31, 1978 (43 FR 50758-9). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Bethlehem Steel Corporation, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

... that sales or production, or both, of the firm or subdivision have decreased absolutely ...

Sales and production at the Saucun Mills increased in 1977 compared with 1976 and continued to increase in the first ten months of 1978 compared with the like period in 1977.

**Conclusion**

After careful review, I determine that all workers of the Saucun Mills of the Bethlehem Steel Corporation, Bethlehem, Pennsylvania are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 19th day of December, 1978.

(TA-W-4237)

BOAT ANTHONY AND JOSEPHINE, INC.,  
GLOUCESTER, MASS.

**Notice of Negative Determination Regarding  
Eligibility To Apply for Worker Adjustment  
Assistance**

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4237: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on October 4, 1978 in response to a worker petition received on October 3, 1978 which was filed on behalf of workers and former workers catching and selling fish for Anthony and Josephine, Gloucester, Massachusetts. The investigation revealed that the compa-

ny name is Boat Anthony and Josephine, Inc.

The Notice of Investigation was published in the FEDERAL REGISTER on October 20, 1978 (43 FR 49060-61). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Boat Anthony and Josephine, Inc., the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

U.S imports of groundfish decreased in quantity from 755,538 thousand pounds in 1976 to 736,302 thousand pounds in 1977 and decreased from 349,115 thousand pounds in the first six months of 1977 to 346,559 thousand pounds in the first six months of 1978. The ratio of imports to domestic production decreased from 191.0 percent in 1976 to 167.8 percent in 1977 and decreased from 159.1 percent in the first half of 1977 to 146.3 percent in the first half of 1978.

Commercial landings of groundfish at Gloucester, Massachusetts increased from 46,672 thousand pounds in 1976 to 70,453 thousand pounds in 1977 and from 36,483 thousand pounds in the first six months of 1977 to 44,075 thousand pounds in the first six months of 1978.

On March 30, 1977, the Fisheries Conservation Zone (FCZ), which limits domestic and foreign catches within 200 miles of the boundaries was established. Domestic landings of cod, haddock and yellowtail flounder were restricted and no foreign fishing of these species is permitted. Since the institution of FCZ, total imports of groundfish have declined.

**Conclusion**

After careful review, I determine that all workers of Boat Anthony and Josephine, Inc., Gloucester, Massachusetts are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 19th day of December 1978.

[TA-W-4308]

CAROL LEE FASHIONS, SANTA MONICA,  
CALIF.

**Notice of Negative Determination Regarding  
Eligibility to Apply for Worker Adjustment  
Assistance**

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4308: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on October 30, 1978 in response to a worker petition received on October 26, 1978 which was filed by the International Ladies' Garment Worker's Union on behalf of workers and former workers producing women's coats, suits and jackets at Carol Lee Fashions, Santa Monica, California. The investigation revealed that suits are not produced.

The Notice of Investigation was published in the FEDERAL REGISTER on November 7, 1978 (43 FR 51866). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Carol Lee Fashions, the U.S. Department of Commerce, The National Cotton Council of America, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

that sales or production, or both, of the firm or subdivision have decreased absolutely.

As a contractor Carol Lee Fashions sales equal its production. Sales at Carol Lee Fashions remained unchanged from 1976 to 1977 and increased in the first ten months of 1978 compared to 1977. Sales increased in four consecutive quarters from the fourth quarter of 1977 through the third quarter of 1978 when compared to the same quarter of the previous year.

**Conclusion**

After careful review, I determine that all workers of Carol Lee Fashions, Santa Monica, California are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 19th day of December 1978.

[TA-W-4221]

COLUMBIA BELT AND NOVELTIES, INC.,  
BOSTON, MASS.

**Notice of Negative Determination Regarding  
Eligibility to Apply for Worker Adjustment  
Assistance**

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4221: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on September 29, 1978 in response to a worker petition received on September 27, 1978 which was filed on behalf of workers and former workers producing belts at Columbia Belt and Novelities, Incorporated, Boston, Massachusetts.

The Notice of Investigation was published in the FEDERAL REGISTER on October 17, 1978 (43 FR 44795). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Columbia Belt and Novelities, Incorporated, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

that increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

Columbia Belt and Novelities sells its belts to garment manufacturers who then market them as a part of the garment. A Department survey of the major garment manufacturers to

whom Columbia Belt sold its product revealed that none of these manufacturers purchased any imported belts in 1976, 1977 or in the first three quarters of 1978.

**Conclusion**

After careful review, I determine that all workers of Columbia Belt and Novelities, Incorporated, Boston, Massachusetts are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 19th day of December 1978.

[TA-W-4365]

CONTINENTAL GROUP, INC. PATERSON, N.J.

**Notice of Negative Determination Regarding  
Eligibility to Apply for Worker Adjustment  
Assistance**

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4365: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on November 13, 1978 in response to a worker petition received on November 8, 1978 which was filed by the United Steelworkers of America on behalf of workers and former workers producing articles needed for packaging: steel cans, boxes, drums, etc. at the Continental Group, Paterson, New Jersey. The investigation revealed that the plant primarily produces steel cans.

A previous petition (TA-W-2389) was filed on behalf of workers producing articles needed for packaging: steel cans, boxes, drums, etc. at the Continental Group, Paterson, New Jersey on September 19, 1977. The Department of Labor on December 29, 1977 issued a Notice of Negative Determination to those workers.

The Notice of Investigation was published in the FEDERAL REGISTER on November 24, 1978 (43 FR 55012-13). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Continental Group, Incorporated, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment as-

sistance each of the group eligibility requirements of Section 222 of the Act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

that increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

Imports of all metal cans have been negligible. Imports of metal cans have been less than .04 percent of U.S. production annually from 1973 through 1977. In 1976 and 1977 imports were .01 percent of U.S. production.

The petitioners allege that increased imports of steel have contributed importantly to separations at Continental Group, Paterson, New Jersey. Imports of steel cannot be considered to be like or directly competitive with steel cans.

**Conclusion**

After careful review, I determine that all workers of the Continental Group, Incorporated, Paterson, New Jersey are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 19th day of December, 1978.

HARRY J. GILMAN,  
Acting Director, Office of  
Foreign Economic Research.  
[FR Doc. 78-36156 Filed 12-28-78; 8:45 am]

[4510-28-M]

[TA-W-3887]

CROWN ZELLERBACH CORP., BOGALUSA, LA.

**Notice of Negative Determination Regarding  
Eligibility to Apply for Worker Adjustment  
Assistance**

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3887: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on June 22, 1978 in response to a worker petition received on June 21, 1978 which was filed by the United Paper Workers' International Union on behalf of workers and former workers producing corrugated boxes, multi-wall bags and grocery bags at the Bogalusa, Louisiana plant of Crown Zellerbach Corporation.

The Notice of Investigation was published in the FEDERAL REGISTER on July 7, 1978 (43 FR 29365-6). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Crown Zellerbach Corporation, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

that increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

The petitioners allege injury due to imports of boxes, bags and converting machinery which is used to produce boxes and bags. Converting machinery can not be considered like and directly competitive with boxes and bags, which are the products produced and sold by the subject plant. Imports of boxes and bags must be considered in determining import injury to workers producing boxes and bags.

The department's investigation revealed that U.S. imports or corrugated boxes, multi-wall bags and grocery bags are negligible. The ratio of imports to domestic production from 1973 through 1977 was less than .10 percent for corrugated boxes, .20 percent or less for multi-wall bags and .24 percent or less for grocery bags.

**Conclusion**

After careful review, I determine that all workers engaged in employment related to the production of boxes, multi-wall bags, and grocery bags at the Bogalusa, Louisiana plant of Crown Zellerbach Corporation are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 18th day of December 1978.

HARRY J. GILMAN,

[TA-W-4185]

E&W OF MANILA, INC., MANILA, ARK.

**Certification Regarding Eligibility to Apply for  
Worker Adjustment Assistance**

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4185: investigation regarding

certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on September 20, 1978 in response to a worker petition received on September 15, 1978 which was filed on behalf of workers and former workers producing blue jeans, fatigues, painters jeans and different types of work pants at E&W of Manila, Inc., Manila, Arkansas. The investigation revealed that the plant primarily produces blue jeans.

The Notice of Investigation was published in the FEDERAL REGISTER on October 31, 1978 (43 FR 50758). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of E&W of Manila, its customers, (manufacturers), The National Cotton Council of America, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. The Department's investigation revealed that all of the requirements have been met.

The Department conducted a survey of the manufacturer who purchased jeans from E&W of Manila. The survey showed that the manufacturer who accounted for all of E&W of Manila's sales increased imports from 1977 to 1978. It was learned that the manufacturer (parent company) of E&W, in order to maintain their place in the market, had to increase imports as it was no longer profitable to produce at E&W of Manila. This plant was closed permanently in April 1978.

U.S. imports of jeans and dungarees increased both absolutely and relative to domestic shipments in 1977 compared to 1976 and declined in the first half of 1978 compared to the first half of 1977.

**Conclusion**

After careful review of the facts obtained in the investigation, I conclude that increased imports of articles like or directly competitive with the blue jeans, fatigues, painters jeans and different types of work pants produced at E&W of Manila, Inc., Manila, Arkansas contributed importantly to the decline in sales and to the separation of workers at that plant. In accordance with the provisions of the Act, I make the following certification: "All workers of E&W of Manila, Inc., Manila, Arkansas engaged in employment related to the production of blue jeans, fatigues, painters jeans and different type of work pants who became totally or partially separated from employ-

ment on or after September 6, 1977 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974."

Signed at Washington, D.C. this 19th day of December 1978.

HARRY J. GILMAN,

Acting Director, Office of  
Foreign Economic Research.

TA-W-4330-4347)

#### GENESCO, INC., FOOTWEAR SECTOR, NASHVILLE, TENN.

#### Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4166 through 4168, 4171 through 4181, 4330 through 4347: investigations regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigations for TA-W-4166 through 4168 and 4171 through 4181 were initiated on September 19, 1978 in response to worker petitions received on September 13, 1978, which were filed on behalf of workers and former workers engaged in employment related to the production of men's, women's and children's shoes of the General Shoe Company Division of Genesco, Incorporated. The name of the Division has been changed to Footwear Sector.

The Notice of Investigation was published in the FEDERAL REGISTER on October 27, 1978 (43 FR 50270). No public hearing was requested and none was held.

The investigations for TA-W-4330 through 4347 were initiated on November 6, 1978 in response to worker petitions received on November 2, 1978 which were filed on behalf of workers and former workers engaged in employment related to the production of men's, women's and children's shoes of the General Shoe Company Division of Genesco, Incorporated. The name of the Division has since been changed to Footwear Sector.

The Notice of Investigation was published in the FEDERAL REGISTER on November 17, 1978 (43 FR 53851-52). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of the Footwear Sector of Genesco, Incorporated, its customers, the American Footwear Industries Association, the U.S. Department of Commerce, the U.S. International

Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. It is concluded that all of the requirements have been met.

U.S. imports of men's, youths', and boys' dress and casual footwear, except athletic, decreased from 1976 to 1977. However, the ratio of imports to domestic production increased from 1976 to 1977. Imports decreased in the first six months of 1978 compared to the first six months of 1977. The ratio of imports to domestic production decreased in the first six months of 1978 compared to the first six months of 1977.

U.S. imports of women's and misses' nonrubber footwear, except athletic, decreased from 1976 to 1977. However, the ratio of imports to domestic production increased from 1976 to 1977. Imports increased in the first six months of 1978 compared to the first six months of 1977.

U.S. imports of athletic footwear increased from 1976 to 1977. The ratio of imports to domestic production increased from 1976 to 1977. Imports decreased in the first six months of 1978 compared to the first six months of 1977.

Company imports of footwear decreased in 1977 compared to 1976 and then increased in the first nine

months of 1978 compared to the first nine months of 1977.

A Department survey of Genesco's customers indicated an increasing reliance on imported footwear by respondents. Some respondents indicated that they had increased their purchases of imported footwear while decreasing their purchases from Genesco.

These findings are consistent with industry trends, which show that imports have gained an increased share of the nonrubber footwear market in recent years. The ratio of imports to domestic production for nonrubber footwear has increased each year from 58.6 percent in 1974 to 94.4 percent in 1977.

#### Conclusion

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with men's, women's and children's footwear produced at the Footwear Sector of Genesco, Incorporated contributed importantly to the decline in sales of production and to the total or partial separation of workers of each of the petitioning plants. In accordance with the provisions of the Act, I make the following certification: "All workers of the plants listed below who became totally or partially separated from employment on or after the corresponding date listed below are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974."

#### GRAMERCY MILLS, INC., PASSAIC, N.J.

#### Certification Regarding Eligibility to Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4204: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on September 21, 1978 in response to a worker petition received on September 18, 1978 which was filed by the International Ladies' Garment Workers' Union on behalf of workers and former workers producing girls' bathing suits. The investigation revealed that Gramercy Mills also produces girls' sundresses.

The Notice of Investigation was published in the FEDERAL REGISTER on October 10, 1978 (43 FR 46591). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Gramercy Mills, Incorporated, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Act must be met. It is concluded that all of the requirements have been met.

U.S. imports of women's, girls' and infants swimsuits increased from 486 thousand dozen in 1975 to 780 thousand dozen in 1976 and to 823 thousand dozen in 1977. Imports increased from 585 thousand dozen in the first three quarters of 1977 to 708 thousand dozen in the same period of 1978. The ratio of imports to domestic production of swimsuits increased from 20.7 percent in 1975 to 30.1 percent in 1976 and to 35.3 percent in 1977.

U.S. imports of children's dresses increased from 552 thousand dozen in the first three quarters of 1977 to 708 thousand dozen in the same period of 1978.

Gramercy Mills, Incorporated increased its company imports of girls' bathing suits by 111.2 percent in quantity and by 129.5 percent in value from the seasonal year August 1975/July

1976 to the seasonal year August 1976/July 1977. From August 1976/July 1977 to August 1977/July 1978, company imports increased by 147.9 percent in quantity and by 171.5 percent in value. Company imports as a percentage of sales increased from August 1976/July 1977 to August 1977/July 1978.

#### Conclusion

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with girls' bathing suits and sundresses produced at Gramercy Mills, Incorporated contributed importantly to the decline in sales or production and to the total or partial separation of workers of that firm. In accordance with the provisions of the Act, I make the following certification: "All workers of Gramercy Mills, Incorporated, Passaic, New Jersey who became totally or partially separated from employment on or after April 7, 1978 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974."

Signed at Washington, D.C. this 19th day of December 1978.

HARRY J. GILMAN,  
Acting Director, Office of  
Foreign Economic Research.

#### [4510-28-M]

(TA-W-4309)

#### HARRIS FISHING CORP., F/V MARISSA ANN, MATTAPOSETT, MASS.

#### Notice of Negative Determination Regarding Eligibility to Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4309: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on October 30, 1978 in response to a worker petition received on October 25, 1978 which was filed on behalf of workers and former workers catching and selling fish for F/V Marissa Ann, Mattaposeett, Massachusetts.

The investigation revealed that the name of the company that owns the Marissa Ann is Harris Fishing Corporation.

The Notice of Investigation was published in the FEDERAL REGISTER on November 11, 1978 (43 FR 51866). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Harris Fishing Corporation, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

that increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

U.S. imports of groundfish decreased in quantity from 755,538 thousand pounds in 1976 to 736,302 thousand pounds in 1977 and decreased from 349,115 thousand pounds in the first six months of 1977 to 346,559 thousand pounds in the first six months of 1978. The ratio of imports to domestic production decreased from 191.0 percent in 1976 to 167.8 percent in 1977 and decreased from 159.1 percent in the first half of 1977 to 146.3 percent in the first half of 1978.

Commercial landings of groundfish at Gloucester, Massachusetts increased from 46,672 thousand pounds in 1976 to 70,453 thousand pounds in 1977 and from 36,483 thousand pounds in the first six months of 1977 to 44,075 thousand pounds in the first six months of 1978.

On March 30, 1977, the Fisheries Conservation Zone (FCZ) which limits domestic and foreign catches within 200 miles of its boundaries was established. Domestic landings of cod, haddock and yellowtail flounder were restricted and no foreign fishing of these species is permitted. Since the institution of FCZ, total imports of groundfish have declined.

#### Conclusion

After careful review, I determine that all workers of Harris Fishing Corporation, F/V Marissa Ann, Mattaposeett, Massachusetts are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 18th day of December 1978.

HARRY J. GILMAN,  
Acting Director, Office of  
Foreign Economic Research.

[TA-W-4186]

HASPEL BROTHERS INC., NEW ORLEANS, LA.

Certification Regarding Eligibility To Apply for  
Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4186: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on September 20, 1978 in response to a worker petition received on September 18, 1978 which was filed by the Amalgamated Clothing and Textile Workers Union on behalf of workers and former workers producing men's suits at Haspel Brothers Inc., New Orleans, Louisiana. The investigation revealed that Haspel Brothers made sportcoats and suitcoats, but no pants or vests.

Workers at Haspel Brothers Inc. were previously certified as eligible to apply for trade adjustment assistance on April 2, 1976 (TA-W-574). That certification remained in effect until April 2, 1978.

The Notice of Investigation was published in the FEDERAL REGISTER on October 31, 1978 (43 FR 50758). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Haspel Brothers, Inc., its customers, (manufacturers), the National Cotton Council of America, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. The Department's investigation revealed that all of the requirements have been met.

U.S. imports of men's and boy's tailored sportcoats decreased from 30,161 thousand in 1976 to 29,921 thousand in 1977. Imports increased from 4,401 thousand in the first three quarters of 1977 to 4,920 thousand during the same period in 1978. The ratio of imports to domestic production decreased from 30.0 percent in 1976 to 28.5 percent in 1977.

U.S. imports of men's and boy's tailored suits increased from 22,246 thou-

sand in 1976, to 24,587 thousand in 1977. Imports decreased from 3,134 thousand in the first three quarters of 1977 to 2,943 thousand during the same period of time in 1978. The ratio of imports to domestic production increased from 19 percent in 1976 to 20 percent in 1977. Since Haspel Inc. sells its total production to Haspel Brothers Inc., a survey of the customers of Haspel Brothers Inc. was conducted. The survey revealed that customers representing a significant amount of business with Haspel Brothers Inc. decreased purchases from Haspel Brothers Inc. and increased purchases of imports in 1977 compared to 1976 and in the first quarter of 1978 compared to the same period of 1977.

#### Conclusion

After careful review of the facts obtained in the investigation, I conclude that increased imports of articles like or directly competitive with the men's sportcoats and suit jackets produced at Haspel Brothers Inc., New Orleans, Louisiana contributed importantly to the decline in sales and to the separation of workers at that plant. In accordance with the provisions of the Act, I make the following certification: "All workers of Haspel Brothers Inc., New Orleans, Louisiana who became totally or partially separated from employment on or after April 2, 1978 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974."

Signed at Washington, D.C. this 19th day of December 1978.

HARRY J. GILMAN,  
Acting Director, Office of  
Foreign Economic Research.

[TA-W-3723]

INDUSTRIAL DIVISION, AEROQUIP CORP.,  
YOUNGSTOWN, OHIO

Notice of Negative Determination Regarding  
Eligibility To Apply for Worker Adjustment  
Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3723: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on May 18, 1978 in response to a worker petition received on May 11, 1978 which was filed by the United Rubber, Cork, Linoleum and Plastic Workers of America on behalf of workers and former workers producing wire braided hydraulic hose, freon hose, spiral hose, fuel and oil hose, loom hose and

flex mandrel hose at the Youngstown, Ohio plant of Aeroquip Corporation, Industrial Division. The investigation revealed that the plant primarily produces reinforced rubber hose.

The Notice of Investigation was published in the FEDERAL REGISTER on June 13, 1978 (43 FR 25498). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Aeroquip Corporation, its customers, the Rubber Manufacturing Association, the National Fluid Power Association, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

that increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

A Department survey conducted with customers of Aeroquip revealed that most customers did not purchase imported reinforced rubber hose in 1977 or 1978. The customers that did import reinforced rubber hose had not decreased their purchases from Aeroquip during this same time frame.

#### Conclusion

After careful review, I determine that all workers of the Youngstown, Ohio plant of Aeroquip Corporation, Industrial Division are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 18th day of December 1978.

HARRY J. GILMAN,  
Acting Director, Office of  
Foreign Economic Research.

[TA-W-3313]

JULES L. SIMON, INC., FRANKFORT, IND.

Notice of Determinations Regarding Eligibility  
to Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3313: investigation regarding certification of eligibility to apply for

worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on March 7, 1978 in response to a worker petition received on February 27, 1978 which was filed on behalf of workers and former workers producing men's sport and suit coats at Jules L. Simon, Incorporated, Frankfort, Indiana.

The Notice of Investigations was published in the FEDERAL REGISTER on March 17, 1978 (43 FR 11277). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Jules L. Simon, Incorporated, its manufacturers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. With respect to workers producing sport coats and without regard to whether any of the other criteria have been met, the following criterion has not been met:

that increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

U.S. imports of men's and boy's tailored dress coats and sportcoats decreased absolutely and relatively from 1976 to 1977. In the first quarter of 1978 imports increased absolutely compared to the same period of 1977.

With respect to workers producing suit coats, evidence developed in the course of the investigation revealed that all of the criteria have been met.

U.S. imports of men's and boys' tailored suits increased from 1976 to 1977 and decreased in the first quarter of 1978 compared to the same quarter of 1977.

The manufacturer which provided all of the contract work produced at Jules L. Simon, Incorporated is now out of business. Customers of the manufacturer increased their purchases of imported suits in 1977 and increased purchases of imported suits in the first six months of 1978 compared to the same period in 1977. The parent company of Jules L. Simon, Inc. started a new division in 1978 which is an importer of men's clothing.

#### Conclusion

After careful review, I determine that all workers of men's suit coats produced at Jules L. Simon, Incorporated, Frankfort, Indiana contributed importantly to the decline in sales or production and to the total or partial separation of workers of that firm. In

accordance with the provisions of the Act, I make the following certification:

"All workers of Jules L. Simon, Incorporated, Frankfort, Indiana engaged in employment related to the production of men's suit coats who became totally or partially separated from employment on or after August 28, 1977 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974."

I further conclude that all workers of Jules L. Simon, Incorporated engaged in employment related to the production of men's sportcoats are denied eligibility to apply for adjustment assistance.

Signed at Washington, D.C. this 11th day of December 1978.

JAMES F. TAYLOR,  
Director, Office of Management  
Administration and Planning.

[TA-W-3983]

MONTICO MANUFACTURING CO.,  
AMSTERDAM, N.Y.

Notice of Negative Determination Regarding  
Eligibility To Apply for Worker Adjustment  
Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3983: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on July 19, 1978 in response to a worker petition received on July 17, 1978 which was filed by the Amalgamated Clothing and Textile Workers Union on behalf of workers and former workers producing women's knitted sportswear at Montico Manufacturing Company, Amsterdam, New York. The investigation revealed that Montico produced women's knit tops and slacks.

The Notice of Investigation was published in the FEDERAL REGISTER on July 28, 1978 (43 FR 32885). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Montico Manufacturing Company, its manufacturers and their customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. Without regard to whether any of the other criteria have

been met, the following criterion has not been met:

that increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

Some of the manufacturers which contracted with Montico Manufacturing were surveyed by the Department. Those manufacturers which had decreased contract work with Montico indicated that they did not purchase imported women's slacks or tops or use foreign contractors to produce these items in 1977 or during the first half of 1978.

Some customers of Montico's manufacturers which reported decreased sales were also surveyed by the Department. Respondents, in general, indicated that they did not decrease purchases from the manufacturer while increasing purchases of imported women's slacks and tops.

#### Conclusion

After careful review of the facts obtained in the investigation, I determine that all workers of Montico Manufacturing Company, Amsterdam, New York are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 19th day of December 1978.

JAMES F. TAYLOR,  
Director, Office of Management,  
Administration, and Planning.

[TA-W-3875]

THE MOORE CO., INC., SPRINGFIELD, MASS.

Notice of Negative Determination Regarding  
Eligibility To Apply for Worker Adjustment  
Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3875: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on June 20, 1978 in response to a worker petition received on June 19, 1978 which was filed by the General Teamsters, Chauffeurs, Warehousemen and Helpers, Building Materials, Heavy and Highway Construction Employees, Local No. 404 on behalf of workers and former workers producing hand tools at the Springfield, Massachusetts plant of the Moore Company, Inc.

The Notice of Investigation was published in the FEDERAL REGISTER on June 30, 1978 (43 FR 28580). No public

hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the Moore Company, Inc., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

that sales or production, or both, of the firm or subdivision have decreased absolutely.

Sales and production at the Springfield, Massachusetts plant of the Moore Company, Inc., increased from 1975 to 1976 and from 1976 to 1977. Estimated total sales for 1978 were greater than sales in 1977. Actual sales and actual production increased in the first two quarters of 1978 compared with the same period in 1977.

#### Conclusion

After careful review, I determine that all workers of the Springfield, Massachusetts plant of the Moore Company, Inc. are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 19th day of December 1978.

(TA-W-4353)

NORTHAMPTON STEEL CORP., EASTON, PA.

Notice of Negative Determination Regarding  
Eligibility to Apply for Worker Adjustment  
Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4353: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on November 7, 1978 in response to a worker petition received on November 3, 1978 which was filed on behalf of workers and former workers fabricating structural steel at Northampton Steel Corporation, Easton, Pennsylvania. The investigation revealed that the plant is a wholly owned subsidiary of White Plains Iron Works, Pleasantville, New York.

The Notice of Investigation was published in the FEDERAL REGISTER on November 17, 1978 (43 FR 53852-3). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of White Plains Iron Works, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

that increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

U.S. imports of Fabricated Structural Steel increased from 94.4 thousand tons in 1976 to 142.1 thousand tons in 1977, and decreased from 117.9 thousand tons in January-September 1977 to 101.4 thousand tons in January-September 1978.

The investigation revealed that none of the White Plains Iron Works unsuccessful contract bids in the second half of 1977 and in the first half of 1978

were awarded to foreign suppliers of fabricated structural steel.

#### Conclusion

After careful review, I determine that all workers of Northampton Steel Corporation, Easton, Pennsylvania are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 19th day of December 1978.

JAMES F. TAYLOR,  
Director, Office of Management,  
Administration, and Planning.

(TA-W-4262)

PITTSBURGH HAT AND CAP CO., INC.,  
PITTSBURGH, PA.

Certification Regarding Eligibility To Apply for  
Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4262: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on October 16, 1978 in response to a worker petition received on October 12, 1978 which was filed on behalf of workers and former workers producing baseball caps at Pittsburgh Hat and Cap Co., Inc., Pittsburgh, Pa.

The Notice of Investigation was published in the FEDERAL REGISTER on October 27, 1978 (43 FR 50269-50270). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Pittsburgh Hat and Cap Co., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. It is concluded that all of the requirements have been met.

Imports of men's, boy's, women's, misses', and junior's knit headwear and cloth hats and caps increased absolutely in 1977 compared to 1976 and in the first nine months of 1978 compared to the first nine months of 1977.

Several customers who were surveyed indicated they increased purchases of imports while decreasing purchases from Pittsburgh Hat and Cap Co.

#### Conclusion

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with knit and cloth caps produced at the Pittsburgh Hat and Cap Co. contributed importantly to the decline in sales or production and to the total or partial separation of workers of that firm. In accordance with the provisions of the Act, I make the following certification: "All workers of Pittsburgh Hat and Cap Co., Pittsburgh, Pa., who became totally or partially separated from employment on or after September 19, 1977, are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974."

Signed at Washington, D.C. this 19th day of December 1978.

[4510-28-M]

(TA-W-4280)

SLATER PAPER BOX CO., FALL RIVER, MASS.

Notice of Negative Determination Regarding  
Eligibility To Apply for Worker Adjustment  
Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4280: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on October 20, 1978 in response to a worker petition received on October 16, 1978 which was filed on behalf of workers and former workers producing corrugated and plain boxes at Slater Paper Box Company, Fall River, Mass.

The investigation revealed that the plant primarily produces paper folding boxes.

The Notice of Investigation was published in the FEDERAL REGISTER on October 31, 1978 (43 FR 50758-59). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Slater Paper Box Co., Inc.; SPB Liquidating Co., Great Neck, N.Y.; APL Corp., New York, N.Y.; the American Paper and Pulp Association, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. Without regard to

whether any of the other criteria have been met, the following criterion has not been met:

that increases of imports of articles like or directly competitive with articles produced by the firm or subdivision have contributed importantly to the total or partial separations, or threat thereof, and to the absolute decline in sales or production.

The folding paper boxes produced by Slater Paper Box Co. are included in the import and production category "folding paperboard boxes". Imports of folding paperboard boxes have had a negligible impact on the domestic industry. Imports have increased absolutely from 900 tons in 1976 to 1,100 tons in 1977 and from 400 tons in the first half of 1977 to 700 tons in the first half of 1978; however, the ratio of imports to domestic production has been less than .1 percent during the period 1973 through the first half of 1978. The Department's investigation revealed that Slater Paper Box ceased operations in September 1978, due to internal financial difficulties.

#### Conclusion

After careful review, I determine that all workers of Slater Paper Box Company, Fall River, Massachusetts are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 19th day of December 1978.

(TA-W-4282)

TIARA FOOTWEAR, INC., DOVER, N.H.

Certification Regarding Eligibility To Apply for  
Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4282: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on October 20, 1978 in response to a worker petition received on October 17, 1978 which was filed on behalf of workers and former workers producing women's casual footwear (including clogs) and boots at Tiara Footwear, Inc., Dover, N.H.

The Notice of Investigation was published in the FEDERAL REGISTER on October 31, 1978 (43 FR 50758-59). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Tiara Footwear, Inc., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of section 222 of the act must be met. It is concluded that all of the requirements have been met.

U.S. imports of women's and misses' nonrubber footwear (excluding athletic footwear) decreased from 218.9 million pairs in 1976 to 204.4 million pairs in 1977 and increased from 107.6 million pairs during the first half of 1977 to 111.4 million pairs during the first half of 1978. The ratio of imports to domestic production increased from 127.6 percent in 1976 to 134.6 percent in 1977.

A Department survey was conducted with major customers of Tiara Footwear, Inc. The survey revealed that two customers, representing the preponderance of Tiara's sales, increased purchases of women's and misses' non-rubber footwear from foreign sources, and decreased purchases from Tiara Footwear, from 1976 to 1977 and during the first three quarters of 1978 compared to the same period in 1977.

Tiara Footwear, Inc., was certified by the U.S. Department of Commerce as eligible to apply for trade adjustment assistance on December 14, 1977 (F-184).

#### Conclusion

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with women's and misses' nonrubber footwear (excluding athletic footwear) produced at Tiara Footwear, Inc., Dover, N.H., contributed importantly to the decline in sales or production and to the total or partial separation of workers of that firm. In accordance with the provisions of the act, I make the following certification:

"All workers at Tiara Footwear, Inc., Dover, N.H. who became totally or partially separated from employment on or after November 26, 1977 are eligible to apply for adjustment assistance under title II, chapter 2 of the Trade Act of 1974."

Signed at Washington, D.C., this 19th day of December 1978.

HARRY J. GILMAN,  
Acting Director, Office of  
Foreign Economic Research.

[TA-W-4271]

**UNITED STATES STOVE CO. FOUNDRY, SOUTH PITTSBURG, TENN.****Certification Regarding Eligibility To Apply for Worker Adjustment Assistance**

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4271: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on October 17, 1978 in response to a worker petition received on October 17, 1978 which was filed by the International Molders and Allied Workers Union on behalf of workers and former workers producing castings for coal and wood stoves at the South Pittsburg, Tenn. foundry of the U.S. Stove Co.

The Notice of Investigation was published in the *FEDERAL REGISTER* on October 27, 1978 (43 FR 50271). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of the U.S. Stove Co., the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of section 222 of the Act must be met. It is concluded that all of the requirements have been met.

Imports of gray, white and ductile iron castings increased 29.8 percent from 1976 to 1977, from 104.2 thousand short tons in 1976 to 135.2 thousand short tons in 1977. These imports increased 5.7 percent the first three quarters of 1978 (114.9 thousand short tons) compared to the same period of 1977 (108.7 thousand short tons). The ratio of imports to U.S. production of gray, white and ductile iron castings increased from 1.5 percent in 1976 to 1.9 percent in 1977, and remained 2.0 percent during the first three quarters of 1978, compared to the same period of 1977.

The U.S. Stove Co. began importing castings for coal and wood stoves in September of 1978. The company plans to import all their castings in the future and close down the foundry permanently by December 31, 1978.

**Conclusion**

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with castings for coal and wood stoves produced at the South Pittsburg, Tenn. foundry

of the U.S. Stove Co. contributed importantly to the decline in sales or production and to the total or partial separation of workers of that firm. In accordance with the provisions of the Act, I make the following certification: "All workers of the U.S. Stove Co. Foundry, South Pittsburg, Tenn. engaged in employment related to the production of castings for coal and wood stoves who became totally or partially separated from employment on or after October 14, 1978 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974."

Signed at Washington, D.C., this 19th day of December 1978.

[TA-W-4257]

**VOLCO BRASS AND COPPER CO., KENILWORTH, N.J.****Notice of Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance**

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4257: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on October 10, 1978 in response to a worker petition received on October 6, 1978 which was filed by the United Steelworkers of America Union on behalf of workers and former workers producing brass and copper products.

The Notice of Investigation was published in the *FEDERAL REGISTER* on October 20, 1978 (43 FR 49061). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Volco Brass and Copper Co., the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

that sales or production, or both, of the firm or subdivision have decreased absolutely.

Total sales and production of brass and copper products increased in 1977

compared with 1976 and continued to increase in the first three quarters of 1978 compared with the like period in 1977.

**Conclusion**

After careful review, I determine that all workers of Volco Brass and Copper Co., Kenilworth, N.J., are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 19th day of December 1978.

HARRY J. GILMAN,  
*Acting Director, Office of  
Foreign Economic Research.*

[TA-W-4109]

**WESTINGHOUSE ELECTRIC CORP., LIGHTING DIVISION, CLEVELAND, OHIO****Certification Regarding Eligibility To Apply for Worker Adjustment Assistance**

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4109: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on August 22, 1978 in response to a worker petition received on August 18, 1978 which was filed by the International Union of Electrical, Radio and Machine Workers on behalf of workers and former workers producing outdoor lighting fixtures at Westinghouse Electric Corp., Lighting Division, Cleveland, Ohio.

The Notice of Investigation was published in the *FEDERAL REGISTER* on September 5, 1978 (43 FR 39458-39459). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Westinghouse Electric Corp., the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. It is concluded that all of the requirements have been met.

Imports of outdoor lighting fixtures and components increased in 1977 compared to 1976 and in the first nine months of 1978 compared to the first nine months of 1977.

In mid-1976, Westinghouse began transferring final assembly of outdoor lighting fixtures to a Westinghouse plant in Vicksburg, Miss. A significant

portion of the production of components for the fixtures was transferred to a Westinghouse plant located offshore.

**Conclusion**

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with outdoor lighting fixtures produced at Westinghouse Electric Corp., Lighting Division, Cleveland, Ohio contributed importantly to the decline in sales or production and to the total or partial separation of workers of that plant. In accordance with the provisions of the Act, I make the following certification: "All workers of Westinghouse Electric Corp., Lighting Division, Cleveland, Ohio who became totally or partially separated from employment on or after August 1, 1977 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974."

Signed at Washington, D.C., this 19th day of December 1978.

JAMES F. TAYLOR,  
*Director, Office of Management,  
Administration, and Planning.*

[TA-W-4325]

**WILLIS AND PAUL CORP., WIND GAP, PA.****Notice of Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance**

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4325: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on October 31, 1978 in response to a worker petition received on October 31, 1978 which was filed by Local 666 of the International Association of Bridge, Structural and Ornamental Workers on behalf of workers and former workers producing fabricated structural steel at the Willis and Paul Corp., Wind Gap, Pa. The investigation revealed that the plant primarily fabricates trestles and channels for conveyor systems.

The Notice of Investigation was published in the *FEDERAL REGISTER* on November 7, 1978 (43 FR 51865). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of the Willis and Paul Corp., the U.S. Department of Commerce, the U.S. International Trade Commis-

sion, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

that increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

Evidence developed during the course of investigation indicated the U.S. imports of fabricated trestles and channels for conveyor systems are insignificant.

Any imports of fabricated trestles and channels would be classified in the import category fabricated structural steel. Information developed by the Department of Labor indicates that most imports in this category are fabricated structural steel for buildings, roads, bridges and transmission towers. The Department of Labor has not been able to develop any evidence of imports of fabricated trestles and channels for conveyor systems.

**Conclusion**

After careful review, I determine that all workers of the Willis and Paul Corporation, Wind Gap, Pennsylvania are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 18th day of December 1978.

HARRY J. GILMAN,  
*Acting Director, Office of  
Foreign Economic Research.*

[TA-W-3995]

**YOUTHFUL FOUNDATIONS, INC., NEW YORK, N.Y.****Notice of Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance**

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3995: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on July 25, 1978 in response to a worker petition received on July 10, 1978 which was filed by the International Ladies' Garment Workers Union on

behalf of workers and former workers producing brassiere parts at Youthful Foundations, Inc., New York, New York. The investigation revealed that the company produces bust cups.

The Notice of Investigation was published in the *FEDERAL REGISTER* on August 1, 1978 (43 FR 33840-41). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Youthful Foundations, Inc., the U.S. Department of Commerce, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

that increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

The loss in export sales accounted for all of the decline in production at the subject firm from 1976 through the first six months of 1978. Industry sources indicate that imports of bust cups are negligible.

**Conclusion**

After careful review, I determine that all workers of Youthful Foundations, Incorporated, New York, New York are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 18th day of December 1978.

HARRY J. GILMAN,  
*Acting Director, Office of  
Foreign Economic Research.*

**NATIONAL FOUNDATION ON THE ARTS AND HUMANITIES****HUMANITIES PANEL ADVISORY COMMITTEE****Meeting**

DECEMBER 20, 1978.

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-463, as amended), notice is hereby given that a meeting of the Humanities Panel will be held at 806 15th Street NW., Washington, D.C. 20506, in the first floor conference room, from 9 a.m. to 5:30 p.m. on January 15, 1979.

The purpose of the meeting is to review NEH Special Projects applications submitted to the National Endowment for the Arts and Humanities for projects beginning after February 1979.

Because the proposed meeting will consider financial information and disclose information of a personal nature the disclosure of which would constitute a clearly unwarranted invasion of personal privacy, pursuant to authority granted me by the Chairman's Delegation of Authority to Close Advisory Committee Meetings, dated January 15, 1978, I have determined that the meeting would fall within exemptions (4) and (6) of 5 U.S.C. 552(b) and that it is essential to close the meeting to protect the free exchange of internal views and to avoid interference with operation of the Committee.

It is suggested that those desiring more specific information contact the Advisory Committee Management Officer, Mr. Stephen J. McCleary, 806 15th Street NW., Washington, D.C. 20506, or call 202-724-0367.

STEPHEN MCCLEARY,  
Advisory Committee  
Management Officer.

##### MUSIC ADVISORY PANEL (COMPOSER/ LIBRETTIST SECTION)

###### Meeting

Pursuant to Section 10 (a) (2) of the Federal Advisory Committee Act (Pub. L. 92-463), as amended, notice is hereby given that a meeting of the Music Advisory Panel (Composer/Librettist Section) to the National Council on the Arts will be held on January 25, 1979, from 9:30 a.m.—5:30 p.m.; January 26, 1979, from 9:30 a.m.—5:30 p.m.; January 27, 1979, from 9:30 a.m.—5:30 p.m.; January 28, 1979, from 9:30 a.m.—5:30 p.m.

A portion of this meeting will be open to the public on January 26, 1979, from 1:30 p.m.—5:30 p.m. for a discussion on Guidelines.

The remaining sessions of this meeting on January 25, 1979, from 9:30 a.m.—5:30 p.m.; January 26, 1979, from 9:30 a.m.—1:30 p.m.; January 27, 1979, from 9:30 a.m.—5:30 p.m.; January 28, 1979, from 9:30 a.m.—5:30 p.m. are for the purpose of Panel review, discussion, evaluation, and recommendation on applications for financial assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended, including discussion of information given in confidence to the agency by grant applicants. In accordance with the determination of the Chairman published in the *FEDERAL REGISTER* March 17, 1977, these ses-

sions will be closed to the public pursuant to subsections (c) (4), (6) and 9 (b) of section 552b of Title 5, United States Code.

Further information with reference to this meeting can be obtained from Mr. John H. Clark, Advisory Committee Management Officer, National Endowment for the Arts, Washington, D.C. 20506, or call (202) 634-6070.

JOHN H. CLARK,  
Director, Office of Council and  
Panel Operations, National  
Endowment for the Arts.

DECEMBER 20, 1978.

##### NUCLEAR REGULATORY COMMISSION

(Docket No. 50-254)

##### COMMONWEALTH EDISON CO. AND IOWA- ILLINOIS GAS & ELECTRIC CO.

##### Proposed Issuance of Amendment to Facility Operating License

The United States Nuclear Regulatory Commission (the Commission) is considering issuance of an amendment to Facility Operating License No. DPR-29, issued to Commonwealth Edison Company and Iowa-Illinois Gas and Electric Company (the licensee), for operation of the Quad Cities Nuclear Power Station, Unit No. 1, located in Rock Island County, Illinois.

The amendment would allow the operation of Quad Cities Unit No. 1 during operating Cycle 5 with a fuel type not previously used in that facility in accordance with the licensee's application for amendment dated November 20, 1978. The fuel type has been reviewed and approved by the NRC staff for use in BWR 3 reactors.

Prior to issuance of the proposed license amendment, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended (the Act) and the Commission's regulations.

By January 29, 1979, the licensee may file a request for a hearing with respect to issuance of the amendment to the subject facility operating license and any person whose interest may be affected by this proceeding and who wishes to participate as a party in the proceeding must file a written petition for leave to intervene. Requests for a hearing and petitions for leave to intervene shall be filed in accordance with the Commission's "Rules of Practice for Domestic Licensing Proceedings" in 10 CFR Part 2. If a request for a hearing or petition for leave to intervene is filed by the above date, the Commission or an Atomic Safety and Licensing Board,

designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel, will rule on the request and/or petition and the Secretary or the designated Atomic Safety and Licensing Board will issue a notice of hearing or an appropriate order.

As required by 10 CFR § 2.714, a petition for leave to intervene shall set forth with particularity the interest of the petitioner in the proceeding, and how that interest may be affected by the results of the proceeding. The petition should specifically explain the reasons why intervention should be permitted with particular reference to the following factors: (1) the nature of the petitioner's right under the Act to be made a party to the proceeding; (2) the nature and extent of the petitioner's property, financial, or other interest in the proceeding; and (3) the possible effect of any order which may be entered in the proceeding on the petitioner's interest. The petition should also identify the specific aspect(s) of the subject matter of the proceeding as to which petitioner wishes to intervene. Any person who has filed a petition for leave to intervene or who has been admitted as a party may amend his petition, but such an amended petition must satisfy the specificity requirements described above.

Not later than fifteen (15) days prior to the first prehearing conference scheduled in the proceeding, the petitioner shall file a supplement to the petition to intervene which must include a list of the contentions which are sought to be litigated in the matter, and the bases for each contention set forth with reasonable specificity. A petitioner who fails to file such a supplement which satisfies these requirements with respect to at least one contention will not be permitted to participate as a party.

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene, and have the opportunity to participate fully in the conduct of the hearing, including the opportunity to present evidence and cross-examine witnesses.

A request for a hearing or a petition for leave to intervene shall be filed with the Secretary of the Commission, United States Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section, or may be delivered to the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. by the above date. Where petitions are filed during the last ten (10) days of the notice period, it is requested that the petitioner or representative for the petitioner promptly so inform the Commission by a toll-free telephone call to Western Union at (800) 325-

6000 (in Missouri (800) 342-6700). The Western Union operator should be given Datagram Identification Number 3737 and the following message addressed to Thomas Ippolito: (petitioner's name and telephone number); (date petition was mailed); (plant name); and (publication date and page number of this *FEDERAL REGISTER* notice). A copy of the petition should also be sent to the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, and to Mr. John W. Rowe, Isham, Lincoln, Beale, Counselors at Law, One First National Plaza, 42nd Floor, Chicago, Illinois 60603.

Nontimely filings of petitions for leave to intervene, amended petitions, supplemental petitions and/or requests for hearing will not be entertained absent a determination by the Commission, the presiding officer or the Atomic Safety and Licensing Board designated to rule on the petition and/or request, that the petitioner has made a substantial showing of good cause for the granting of a late petition and/or request. That determination will be based upon a balancing of the factors specified in 10 CFR § 2.712(a)(i)-(v) and § 2.714(d).

For further details with respect to this action, see the application for amendment dated November 20, 1978, which is available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C., and at the Moline Public Library, 504-17th Street, Moline, Illinois 61265.

Dated at Bethesda, Maryland this 20th day of December 1978.

For the Nuclear Regulatory Commission.

THOMAS A. IPPOLITO,  
Chief, Operating Reactors  
Branch No. 3, Division of Op-  
erating Reactors.

(FR Doc. 78-35944 Filed 12-28-78; 8:45 am)

#### [7590-01-M]

##### ADVISORY COMMITTEE ON REACTOR SAFETY GUARDS SUBCOMMITTEE ON EMERGENCY CORE COOLING SYSTEMS (ECCS)

###### Meeting

The ACRS Subcommittee on Emergency Core Cooling will hold an open meeting on January 16, 1979 in Room 1046, 1717 H Street, N.W., Washington, D.C. 20555 to review NRC licensing activities related to the proposed revision of Appendix K, 10, CFR 50, the NRC audit of Code Quality Assurance Programs, the Standard Problem Program, a semiscale small break test,

and other items of current interest. Notice of this meeting was announced December 20, 1978 (43 FR 59447).

In accordance with the procedures outlined in the *FEDERAL REGISTER* on October 4, 1978 (43 FR 45926), oral or written statements may be presented by members of the public, recordings will be permitted only during those portions of the meeting when a transcript is being kept, and questions may be asked only by members of the Subcommittee, its consultants, and Staff. Persons desiring to make oral statements should notify the Designated Federal Employee as far in advance as practicable so that appropriate arrangements can be made to allow the necessary time during the meeting for such statements.

The agenda for subject meeting shall be as follows:

Tuesday, January 16, 1979, 8:30 a.m. until the conclusion of business.

The Subcommittee may meet in Executive Session, with any of its consultants who may be present, to explore and exchange their preliminary opinions regarding matters which should be considered during the meeting and to formulate a report and recommendations to the full committee.

At the conclusion of the Executive Session, the Subcommittee will hear presentations by and hold discussions with representatives of the NRC Staff, and their consultants, pertinent to the above topics.

Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call to the Designated Federal Employee for this meeting, Dr. Andrew L. Bates (telephone 202/634-3267) between 8:15 a.m. and 5:00 p.m., EST.

Dated: December 22, 1978.

JOHN C. HOYLE,  
Advisory Committee  
Management Officer.

(FR Doc. 78-36288 Filed 12-28-78; 8:45 am)

#### [7590-01-M]

##### AGREEMENTS FOR COOPERATION BETWEEN THE STATE OF INDIANA AND THE UNITED STATES NUCLEAR REGULATORY COMMISSION

The Commission, in mid-January 1976 adopted a policy of entering into agreements with States that have been delegated responsibility by EPA for issuance of National Pollutant Discharge Elimination System (NPDES) permits under section 402 of the Federal Water Pollution Control Act.

Although considerable latitude is provided, generally such agreements embody the principles of the Second Nuclear Regulatory Commission/Environmental Protection Agency Memorandum of Understanding (NRC/EPA) (F.R. Vol. 40, No. 251, p 60115 ff, December 31, 1975) for cooperation in the licensing of nuclear power plants.

To date, five such agreements have been consummated. Three of these agreements, those with the Virginia State Water Control Board, the New York State Board on Electric Generation Siting and the Environment and the Departments of Environmental Conservation and Public Service, and the State of South Carolina were published in the *FEDERAL REGISTER*, Vol. 43, No. 88, p 19485 ff, on May 5, 1978.

The fourth, a very broad agreement entitled "Memorandum of Agreement Between the State of Washington and the U.S. Nuclear Regulatory Commission," became effective on September 6, 1978. This agreement applies to all nuclear facilities subject to licensing by NRC or certification by the State; it applies to matters beyond water quality. The text of this Agreement was published in the *FEDERAL REGISTER*, Vol. 43, No. 188, p 43774 ff, on September 27, 1978.

The fifth is also a very broad agreement similar to that between the State of Washington and is entitled "Memorandum of Agreement Between the State of Indiana and the U.S. Nuclear Regulatory Commission." This agreement is intended to provide the basis for subsequent detailed subagreements between the parties in areas of mutual concern. The first such subagreement has also been consummated; it is entitled "Agreement Between the Indiana Environmental Management Board and the U.S. Nuclear Regulatory Commission Pursuant to the Federal Water Pollution Control Act, as amended (FWPCA)." Both the Agreement and the Subagreement became effective when signed in Indianapolis on December 14, 1978; the text of both is published below.

# For the Nuclear Regulatory Commission.

ROBERT G. RYAN,  
Director,  
Office of State Programs.

## MEMORANDUM OF AGREEMENT BETWEEN THE STATE OF INDIANA AND THE U.S. NUCLEAR COMMISSION

This Memorandum of Agreement between the State of Indiana (hereafter "State") and the U.S. Nuclear Regulatory Commission (hereafter "NRC") expresses the desire of the parties to cooperate in the regulation of nuclear activities; it sets forth mutually agreeable principles of cooperation between the State and NRC in areas subject to the jurisdiction of the State or the NRC or both. This agreement is intended to provide the basis of subsequent detailed subagreements between the parties.

Close cooperation between the signatories will help assure that the goals and policies of State and Federal law will be carried out efficiently and expeditiously.

With the execution of this Memorandum, the State and NRC agree to consult regularly and cooperate in exploring and devising appropriate procedures to minimize, to the extent possible, duplication of effort and to avoid delays in decisionmaking so that effective use will be made of the resources of the State and NRC.

### PRINCIPLES OF COOPERATION

1. The State and NRC agree to explore together the development of detailed subagreements in areas of mutual concern, including environmental reviews (or portions thereof) of nuclear facilities' subject to licensing; confirmatory radiological environmental monitoring around operating nuclear facilities; decommissioning of nuclear facilities; emergency preparedness planning; response to radiological incidents; and radioactive material transporting monitoring.

2. Subparagraphs under this Memorandum may provide for activities to be performed by either party under mutually acceptable guidelines and criteria which assure that the needs of both are met.

3. For activities performed by one party at the request of the other party under specific subagreements to this Memorandum, the party making the request will explore means by which compensation may be made available to the other party or by which the costs may be shared by the parties.

4. NRC agrees to explore with the State the possibility of sharing of proprietary information in NRC's possession with the State.

5. Each party will explore means by which its training programs may be made available to the other party.

6. Nothing in this Memorandum is intended to restrict or extend the statutory authority of either NRC or the State.

7. The principal NRC contact under this Memorandum shall be the Director of the

\*For the purpose of this Memorandum of Agreement, the term nuclear facilities is defined to include the following plants or facilities within Indiana: a. nuclear power and test facilities; b. nuclear fuel reprocessing facilities; c. uranium isotope enrichment facilities; d. nuclear fuel fabrication plants; e. nuclear waste treatment and storage plants; f. uranium milling plants; and g. uranium hexafluoride conversion plants.

Office of State Programs. The principal State contact shall be the Technical Secretary of the Environmental Management Board. Subagreements will name appropriate individuals, agencies or offices as contacts.

8. This Memorandum shall take effect immediately upon signing by the Governor of the State and the Chairman of the Nuclear Regulatory Commission, and may be terminated upon 30 days written notice by either party.

Dated at Indianapolis, Indiana, this 14th day of December 1978.

For the State of Indiana.

OTIS R. BOWEN,  
Governor.

Dated at Washington, D.C., this 21st day of November 1978.

For the United States Nuclear Regulatory Commission.

JOSEPH M. HENDRIE,  
Chairman.

## AGREEMENT BETWEEN THE INDIANA ENVIRONMENTAL MANAGEMENT BOARD AND THE U.S. NUCLEAR REGULATORY COMMISSION PURSUANT TO THE FEDERAL WATER POLLUTION CONTROL ACT, AS AMENDED (FWPCA)

The State of Indiana, hereinafter referred to as the State, is a permit issuing State under Section 402 of the Federal Water Pollution Control Act, as amended (FWPCA). As such the State is not directly affected by the "Second Memorandum of Understanding Regarding Implementation of Certain Nuclear Regulatory Commission and Environmental Protection Agency Responsibilities Under the Federal Water Pollution Control Act, as amended (FWPCA) and the national Environmental Policy Act of 1969." However, the State agrees with the principles embodied in the Second Nuclear Regulatory Commission (NRC)/Environmental Protection Agency (EPA) Memorandum and wishes to cooperate with NRC in implementing these principles.

Specifically, these cooperative efforts will extend to requirements for the control and consideration of impacts on water quality and biota associated with the licensing and regulation, including early site approval\* of the following plants or facilities within Indiana:

- Nuclear power and test facilities,
- Nuclear fuel reprocessing facilities,
- Uranium isotope enrichment facilities,
- Nuclear fuel fabrication plants,
- Nuclear waste treatment and storage plants,
- Uranium milling plants, and
- Uranium hexafluoride conversion plants.

1. The State and NRC will work together to identify and consolidate the environmental information needed for early evaluations related to impacts on water quality and biota under the FWPCA with the objective that the scope, form and timeliness of the information to be submitted by the applicant satisfy the requirements of both the State and NRC. This will include information needed for issuance of State water quality certifications pursuant to Section

\*See 10 CFR Part 2, Subpart F and Appendix A, Paragraph I(c).

401 and NPDES permits pursuant to Section 402 (including where applicable Section 316(b) considerations regarding best technology available as applied to cooling water intake structures and Section 316(a) determinations regarding the granting of alternative effluent limitations for the thermal component of discharges) and information needed to evaluate the environmental impact of the facility based on compliance with FWPCA requirements.

2. The State and NRC will meet, as appropriate, at an early time prior to and/or during the environmental review process for each facility or plant subject to this Agreement to discuss potential impacts on water quality and biota.

3. The State will exercise its best efforts to evaluate the levels of discharges and impacts on water quality and biota pursuant to Section 402 and 316(a), as appropriate, and complete cooling water intake structure evaluations pursuant to Section 316(b) as far as possible in advance of the planned date of issuance by NRC of the final environmental impact statement for the construction permit for each nuclear power reactor. The State also will exercise its best efforts to make such evaluations as far as possible in advance of the planned date of issuance of the final environmental impact statement for any other plant or facility subject to this Agreement or issuance of early site approvals associated with nuclear power and other facilities.

Further, where possible, the State's comments on NRC's draft environmental impact statement for each such facility or plant will reflect such evaluations. The State will undertake to issue a complete Section 402 permit as soon as possible prior to the planned date of authorization by the NRC of any commencement of construction\* or issuance by NRC of any license, or early site approval, whichever is applicable.

Such permits will contain appropriate terms and conditions for all discharges of pollutants expected during the life of the permit (5 years maximum) and terms and conditions with regard to cooling water intake structures and Section 316(a) determinations concerning thermal discharges. Additional permit terms and conditions for discharges not contemplated during the life of the permit (such as certain chemical and other releases not expected until operation startup) may be derived from applicable State water quality standards and applicable new source performance standards contained in 40 CFR, Chapter I, Subchapter N. Permits may be reissued, or modified as appropriate, and any reissued or modified permit, to be effective at the commencement of actual discharge as provided above may require additional limitations and controls based on data gathered during the initial permit or may require additional Section 316(a) and (b) studies for the purpose of confirming conclusions reached from previous predictive studies. Applications for permit reissuance as provided above will be evaluated by the State in light of the policy to assure to the maximum extent possible that subsequent considerations regarding impacts on water quality and biota will not result in the need for significant changes in plant design or in cost and benefits of the operation of the facility subsequent to the

\*The term "commencement of construction" means commencement of construction as defined to 10 CFR 50.10(c), 30.4(w), 40.4(n) and 70.4(a), as applicable.

completion of NRC's environmental review."

4. The State will work closely with NRC to assure that water quality certifications pursuant to Section 401 for the facilities subject to this Agreement that require such certification are issued in advance of the planned date of issuance of NRC staff's final environmental impact statement for the facility.

5. The State and NRC will maintain close contact on water quality and related matters during the entire environmental review, including:

- Open interagency communications, and mutual cooperation and coordination on all relevant water quality matters;
- A status meeting, where appropriate, after completion of the environmental review or subsequent thereto, on any significant new considerations that develop, e.g., a major change in plant design or the identification of significant considerations regarding impacts on water quality or biota that were not previously evaluated as may result from a major change in plant design.

6. The State and NRC will consider the feasibility of holding combined or concurrent hearings on the State's Section 402 permits and NRC's construction permits, or other actions, on a case-by-case basis. If there are areas involving impact on water quality or biota where there are significant differences of opinion between the State and NRC, every reasonable attempt will be made to identify and resolve these differences prior to the planned date of issuance of NRC's final environmental statement.

7. The principal NRC contact under this Agreement shall be the Assistant Director for Environmental Projects. The principal State contact under this Agreement shall be the Technical Secretary of the Environmental Management Board or his designee.

8. Nothing in this Agreement is intended to restrict the statutory authority of either NRC or the State. Nothing in this Agreement affects any authority of the State under the Clean Air Act, as amended.

9. This Agreement shall take effect immediately upon signing by the State and the Nuclear Regulatory Commission. The Agreement shall apply to all pending and future applications for licenses or permits subject to this Agreement except that, with respect to applications for licenses or permits for facilities and plants docketed prior to the effective date of the Agreement, it shall only be applied to the maximum extent practicable.

Dated at Washington, D.C. this 21st day of November, 1978.

For the United States Nuclear Regulatory Commission.

LEE V. GOSSICK,  
Executive Director for Operations.

Dated at Indianapolis, Indiana, this 1st day of December, 1978.

For the Indiana Environmental Management Board.

\*A facility which has been given §316(a) alternative effluent limitations is not entitled to the 10-year grace period (or applicable amortization period) provided for in §306(d) for new sources or in 316(c) for modified sources.

RALPH C. PICKARD,  
Technical Secretary of the  
Environmental Management Board.

## [7590-01-M]

[Docket Nos. 50-237 and 50-249]

### COMMONWEALTH EDISON CO.

#### Granting of Relief from ASME Section XI Inservice Inspection (Testing) Requirements

The U.S. Nuclear Regulatory Commission (the Commission) has granted relief from certain requirements of the ASME Code, Section XI, "Rules for Inservice Inspection of Nuclear Power Plant Components" to Commonwealth Edison Company. The relief relates to the inservice inspection (testing) program for the Dresden Nuclear Power Station, Unit Nos. 2 and 3 (the facilities) located in Grundy County, Illinois. The ASME Code requirements are incorporated by reference into the Commission's rules and regulations in 10 CFR Part 50. The relief is effective as of its date of issuance.

The relief is granted, on an interim basis, pending completion of our detailed review, from those inservice inspection and testing requirements of the ASME Code that the licensee has determined to be impractical within the limitations of design, geometry, and materials of construction of components, because compliance would

\*Commissioner Gilinsky did not participate in the Commission's vote on this order, and he will not participate in any future Commission reviews in this proceeding. Commissioner Gilinsky intends to participate as a member of the Licensing Board through that Board's initial decision.

result in hardships and unusual difficulties without a compensating increase in the level of quality or safety.

The request for relief complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the letter granting relief. Prior public notice of this action was not required since the granting of this relief from ASME Code requirements does not involve a significant hazards consideration.

The Commission has determined that the granting of this relief will not result in any significant environmental impact and that pursuant to 10 CFR §51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with this action.

For further details with respect to this action; see (1) the request for relief dated July 31, 1978, and (2) the Commission's letter to the licensee dated December 20, 1978.

These items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. and at the Morris Public Library, 604 Liberty Street, Morris, Illinois 60451. A copy of item (2) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Maryland, this 20th day of December, 1978.

For the Nuclear Regulatory Commission.

DENNIS L. ZIEMANN,  
Chief, Operating Reactors  
Branch No. 2, Division of Operating Reactors.

[Dockets Nos. 50-269, 50-270 and 50-287]

### DUKE POWER CO.

#### Issuance of Amendments to Facility Operating Licenses

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendments Nos. 66, 66 and 63 to Facility Operating Licenses Nos. DPR-38, DPR-47 and DPR-55, respectively, issued to Duke Power Company, which revised Technical Specifications for operation of the Oconee Nuclear Station, Units Nos. 1, 2 and 3 located in Oconee County, South Carolina. The

amendments are effective as of the date of issuance.

The amendments revise the Station's common Technical Specifications to support the operation of Oconee Unit No. 2 at full rated power during Cycle 4 after core reload and removal of the orifice rod assemblies from the core. These amendments also revise the Technical Specifications for Units 1, 2 and 3 in regard to control rod operability.

The application for the amendments complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendments. Prior public notice of these amendments was not required since the amendments do not involve a significant hazards consideration.

The Commission has determined that the issuance of these amendments will not result in any significant environmental impact and that pursuant to 10 CFR §51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with these amendments.

For further details with respect to this action, see (1) the application for amendments dated September 18, 1978, as supplemented September 25, and November 1, 1978, (2) Amendments Nos. 66, 66 and 63 to Licenses Nos. DPR-38, DPR-47 and DPR-55, respectively, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C., and at the Oconee County Library, 201 South Spring Street, Walhalla, South Carolina. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Maryland, this 15th day of December 1978.

For the Nuclear Regulatory Commission.

GERALD B. ZWETZIG,  
Acting Chief, Operating Reactors Branch No. 4, Division of Operating Reactors.

(FR Doc. 78-36293 Filed 12-28-78; 8:45 am)

[7590-01-M]

(Docket No. 50-270)

**DUKE POWER CO. (OCONEE NUCLEAR STATION UNIT NO. 2)**

**Exemption**

**I.**

Duke Power Company (the licensee) is the holder of Facility Operating License No. DPR-47 which authorizes the operation of the nuclear power reactor known as Oconee Nuclear Station, Unit No. 2 (the facility), at steady reactor power levels not in excess of 2568 megawatts thermal (rated power). The facility consists of a Babcock & Wilcox (B&W) designed pressurized water reactor (PWR) located at the licensee's site in Oconee County, South Carolina.

**II.**

In accordance with the requirements of the Commission's Emergency Core Cooling System (ECCS) Acceptance Criteria, 10 CFR 50.46, the licensee submitted on July 9, 1975 an ECCS evaluation for the facility. The ECCS performance submitted by the licensee was based upon an ECCS Evaluation Model developed by B&W, the designer of the Nuclear Steam Supply System for this facility. The B&W ECCS Evaluation Model had been previously found to conform to the requirements of the Commission's ECCS Acceptance Criteria, 10 CFR Part 50.46, and Appendix K. The evaluation indicated that with the limits set forth in the facility's Technical Specifications, the ECCS cooling performance for the facility would conform with the criteria contained in 10 CFR 50.46(b) which govern calculated peak clad temperature, maximum cladding oxidation, maximum hydrogen generation, coolable geometry and long-term cooling.

On April 12, 1978, B&W informed the NRC that it had determined that in the event of a small break Loss of Coolant Accident (LOCA) on the discharge side of a reactor coolant pump, high pressure injection (HPI) flow to the core could be reduced somewhat. Subsequent calculations indicated that in such a case the calculated peak clad temperature might exceed 2200°F.

Previous small break analyses for B&W 177 fuel assembly (FA) lowered loop plants had identified the limiting small break to be in the suction line of the reactor coolant pump. Recent analyses have shown that the discharge line break is more limiting than the suction line break.

The Oconee Nuclear Station Unit No. 2 has an ECCS configuration which consists of two HPI trains which are supplied by three HPI pumps. Each train injects into two of

the four reactor coolant system (RCS) cold legs on the discharge side of the RCS pump. The two parallel HPI trains are connected but are kept isolated by manual valves (known as the cross-over valves) that are normally closed.

Duke Power has proposed by letter dated April 21, 1978, to maintain all three pumps in an operable status. The Oconee emergency power system is designed with sufficient capacity for this mode of operation. Upon receiving a safety injection signal the HPI pumps are started and valves in the injection lines are opened. Assuming loss of off-site power and the worst single failure (the HPI pump C or the HPI valve HP26), two HPI pumps would still be available and only one of the two injection valves would fail to open.

If a small break is postulated to occur in the RCS piping between the RCS pump discharge and the reactor vessel, the high pressure injection flow injected into this line (about 50% of the output of two high pressure pumps) could flow out the break. Therefore, for the worst combination of break location and single failure, 50% of the flow rate of two high pressure ECCS pumps would contribute to maintaining the coolant inventory in the reactor vessel. This situation had not been previously analyzed and B&W had indicated that the limits specified in 10 CFR 50.46 may be exceeded.

B&W has stated that they have analyzed a spectrum of small breaks in the pump discharge line and have determined that to meet the limits of 10 CFR 50.46(b), operator action is required to open the two manual operated crossover valves and to manually align the motor driven isolation valve which had failed to open. This would allow the flow from the two HPI pumps to feed all four reactor coolant legs. B&W has assumed that 30% of the flow would be lost through the break and 70% would enter the core. The licensee has committed to provide for the necessary operator actions within the required time frame. That is, in the event of a small break and a limiting single failure, manual action will be taken to begin opening these valves within five minutes and have them fully opened and an adequate flow split obtained within the following 10 minutes. The analyses performed by B&W assumed that the flow split was established at 650 seconds by operator action. We conclude that the analyses are a reasonable approximation of the operator action that actually will be taken, provided specific procedures are prepared and followed to assure such action.

B&W has prepared a summary entitled "Analysis of Small Breaks in the Reactor Coolant Pump Discharge

Piping for the B&W Lowered Loop 177 FA Plants," April 24, 1978 (the B&W Summary), which describes the methods used and the results obtained in the above analysis. The analysis models operator action by assuming a step increase in flow to the reactor vessel (with balanced flow in the three intact loops) ten minutes after the LOCA reactor protection system trip signal occurs.

On April 26, 1978, the Commission issued an Order for Modification of License which amended the license for Oconee Unit 2 requiring (1) submission of a reevaluation of the emergency core cooling system calculated in accordance with the B&W Evaluation Model for operation with operating procedures described in the licensee's letter of April 21, 1978 and (2) operation in accordance with the procedures described in the licensee's letter of April 21, 1978.

By letter dated May 16, 1978, the licensee submitted a copy of the B&W Summary for our review. In their submittal the licensee stated that the analysis indicates that the ECCS cooling performance calculated in accordance with the B&W Evaluation Model for operation of Oconee units at the rated core thermal power of 2568 Mwt with operating procedures described in their letter of April 21, 1978, is wholly in conformance with the provisions of 10 CFR 50.46. We have reviewed the B&W Summary and find that the methods of analysis meet the requirements of 10 CFR Part 50.46.

By letter dated April 20, 1978 and as supplemented on April 27, 1978, the licensee submitted proposed Technical Specifications to implement the operating procedures and maintenance of all three HPI pumps in an operable status as described in the licensee's April 21, 1978 letter. We have issued these Technical Specifications in a license amendment dated October 23, 1978.

In the licensee's submittal of June 8, 1978, it was stated that to meet the limits of 10 CFR 50.46, operator action at the valve locations is required to open High Pressure Injection (HPI) Pump B-C discharge header cross over valves (HP-116 and HP-117) and the HPI injection line A engineering safeguards valve (HP-26) within 10 minutes.

Reliance on local operation of valves this soon after the onset of a loss-of-coolant accident is not desirable on a permanent basis. The licensee has requested an exemption from the requirements of 10 CFR 50.46 by letter dated September 18, 1978, for operation at Oconee 2 during Cycle 4 until such time as a permanent solution to this problem can be implemented.

The original concern derived from an unexpected but nevertheless inad-

equately assessment of a spectrum of breaks. This deviation from 10 CFR 50.46 has been ameliorated on a temporary basis by the actions discussed herein. However, combined reliance on prompt operator action to perform the required steps to assure plant safety over a period of years into the future is undesirable and will be replaced as promptly as possible by returning the system to simple control room actuation. To this extent, the original defect still remains until the modifications are made to eliminate the reliance on prompt operator actions.

We have reviewed the effects of changes made to the facility during the current refueling outage and have concluded that operation of Oconee Unit 2 at power levels of up to 2568 Mwt and in accordance with the Technical Specifications will assure that the ECCS system will conform to the performance criteria of 10 CFR 50.46. Accordingly, until modifications are completed to achieve full compliance with 10 CFR 50.46, operation of the facility at power levels up to 2568 Mwt with appropriate operating procedures will not endanger life or property or the common defense and security.

By letter dated July 14, 1978, the licensee submitted a proposed modification to the HPI system to eliminate the need for operator action outside the control room. Based on our review and Safety Evaluation, dated December 13, 1978, of the licensee's July 14 submittal we concluded that upon installation of the modification and upon completion of testing to verify the required flow split, the emergency core cooling system will fully conform to the requirements of 10 CFR 50.46. The Evaluation provides a description of the modification. While Oconee Unit No. 2 does not comply with our requirements for ECCS, appropriate actions, as previously described, have been taken to mitigate the consequences of any accidents at this plant. The Technical Specifications will provide protection against the subject small break LOCA and will bring plant operation wholly in conformance with 10 CFR 50.46. These Technical Specifications will be in force only for the brief interval of time until the proposed modifications of the ECCS are completed. The public interest is served in that by issuing this exemption for Unit No. 2 a significant power reduction with no concomitant increase in safety is avoided. Such a power reduction could affect system reliability, cause unemployment and increase consumer power costs in the area.

**III.**

Copies of the following documents are available for inspection at the Commission's Public Document Room

at 1717 H Street, Washington, D.C. 20555, and are being placed in the Commission's local public document room at the Oconee County Library, 201 South Spring, Walhalla, South Carolina.

(1) The application for exemption dated September 18, 1978, and

(2) This Exemption in the matter of Duke Power Company, Oconee Nuclear Station, Unit No. 2.

**IV.**

Wherefore, in accordance with the Commission's regulations as set forth in 10 CFR 50.12, the licensee is hereby granted an exemption from the provisions of 10 CFR Part 50, Paragraph 50.46(a). With respect to Oconee Unit 2 this exemption supersedes the conditions of the Commission's Order for Modification of License dated April 26, 1978, and is conditioned as follows:

(1) The licensee has submitted the plans and schedules to modify the facility to eliminate reliance on prompt operator action described herein. Additional guidance in these areas has been provided by the NRC letter of September 26, 1978 to Duke Power Company. The staff approved the modification by letter dated December 13, 1978.

(2) The licensee shall complete such modifications prior to startup after the next scheduled refueling outage or during any scheduled outage of sufficient duration and occurring after six months from December 13, 1978 whichever occurs first.

(3) This exemption shall be terminated upon completion of the modifications in accordance with the conditions above.

Dated at Bethesda, Maryland this 15th day of December 1978.

For the Nuclear Regulatory Commission.

VICTOR STELLO, JR.,  
Director, Division of Operating Reactors, Office of Nuclear Regulation.

[7590-01-M]

(Docket No. 70-2623)

**DUKE POWER CO.**

**Negative Declaration Regarding Proposed Amendment to Materials License SNM-1773**

The U.S. Nuclear Regulatory Commission (the Commission) is considering the issuance of an amendment to Materials License No. SNM-1773 issued to Duke Power Company. The proposed amendment would authorize the receipt and storage of Oconee Nuclear Station spent fuel at the McGuire facility located in Mecklen-

burg County, North Carolina, in accordance with the licensee's application for amendment dated March 9, 1978. Notice of proposed issuance of this amendment to Materials License SNM-1773 offering an opportunity for public participation in connection with this action was published in the FEDERAL REGISTER on July 28, 1978 (43 FR 32905). In response to Petitions filed for Leave to Intervene, hearings will be held pursuant to 10 CFR Part 2. This will be the subject of a separate notice and will be published in the FEDERAL REGISTER at a later date.

The U.S. Nuclear Regulatory Commission, Office of Nuclear Material Safety and Safeguards, has prepared an environmental impact appraisal in accordance with 10 CFR Part 51 for the proposed amendment and has concluded that an environmental impact statement for this particular action is not warranted because there will be no environmental impact significantly affecting the quality of the human environment attributable to the proposed action. A negative declaration to this effect is appropriate.

The Environmental Impact Appraisal dated December 1978, and the application for amendment dated March 9, 1978, are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C., and at the local Public Document Rooms at the Public Library of Charlotte and Mecklenburg County, 310 North Tryon Street, Charlotte, N.C. 28202; and at the Oconee County Library, 201 South Spring Street, Walhalla, S.C. 29691. The Safety Evaluation Report (when available) will also be open for public inspection at the above locations. Copies of the Environmental Impact Appraisal and the Safety Evaluation Report may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Fuel Cycle and Material Safety.

Dated at Silver Spring, Maryland, this 22nd day of December 1978.

For the Nuclear Regulatory Commission.

L. C. ROUSE,  
Acting Chief, Fuel Reprocessing  
and Recycle Branch, Division  
of Fuel Cycle and Material  
Safety.

(Docket No. 50-335)

## FLORIDA POWER AND LIGHT CO.

### Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 28 to Facility Operating License No. DPR-67 issued to Florida Power & Light Company (the licensee), which revised Technical Specifications for operation of St. Lucie Plant, Unit No. 1 (the facility), located in St. Lucie County, Fla. The amendment is effective as of its date of issuance.

This amendment revises the Technical Specifications to increase the minimum required volume of water in the Refueling Water Tank and to allow an increase in the coolant temperature at which shutdown cooling is initiated.

The applications for the amendment comply with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with the issuance of this amendment.

For further details with respect to this action, see (1) the applications for amendment dated February 24 and 27, 1978, (2) Amendment No. 28 to License No. DPR-67, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW, Washington, D.C., and at the Indian River Junior College Library, 3209 Virginia Avenue, Ft. Pierce, Fla. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Md., this 14th day of December 1978.

For the Nuclear Regulatory Commission.

GERALD B. ZWETZIG,  
Acting Chief, Operating Reactors  
Branch No. 4, Division of  
Operating Reactors.

## Atomic Safety and Licensing Appeal Board

(Docket Nos. STN 50-556 and STN 50-557)

### PUBLIC SERVICE CO., ET AL.

#### Order

DECEMBER 22, 1978.

In the matter of Public Service Company of Oklahoma, Associated Electric Cooperative, Inc. and Western Farmers Electric Cooperative, Inc. (Black Fox Station, Units 1 and 2).

The Board will hear argument in this case at 10 a.m. Wednesday, January 31, 1979, in the Commission's Public Hearing Room, 5th floor, 4350 East-West Highway, Bethesda, Maryland. The time allotted for presentation of argument and notice of matters which the Board particularly wishes addressed will be announced subsequently. Each party shall write the Board Secretary by January 17, 1979, giving the name, address and telephone number of counsel who will present oral argument on its behalf.

It is so ordered.

For the Appeal Board.

ELEANOR E. HAGINS,  
Secretary to the  
Appeal Board.

(FR Doc. 78-36297 Filed 12-28-78; 8:45 am)

# [7590-01-M]

(Docket Nos. 50-522 and 50-523)

## PUGET SOUND POWER AND LIGHT CO., ET AL. (SKAGIT NUCLEAR POWER PROJECT, UNITS 1 AND 2)

### Order for Conference

The board is hereby calling a conference of counsel for all of the parties, including intervenors, for Tuesday and Wednesday, January 16 and 17, 1979, beginning each day at 9:30 a.m. The conference will be held at Room 3086, New Federal Building, 915 Second Avenue, Seattle, Washington 98174.

The purpose of the conference is to take stock of the status of the proceeding, to facilitate planning for the next steps in the proceeding by the parties and the board, and to provide orientation to the board's new chairman. The board is conscious of the lapsed time since the beginning of the proceeding and the extensive evidentiary hearings which have already

taken place and is determined to move ahead to a conclusion of the proceeding with all deliberate speed.

So that the conference may be of maximum benefit, counsel for each party is requested to submit to the board, in specific terms, a list of the principal issues, together with major subordinate issues thereunder, which require board decision. The list of principal issues should be divided into three categories according to submitting counsel's opinion, namely, (1) issues presently ripe for board decision with no need for further evidentiary hearing; (2) issues on which further evidentiary hearing is required before board decision is appropriate; and (3) issues on which no evidentiary hearings have been held. Citations to the record of evidence on each principal or major subordinate issue about which there has been evidence of record should be included in the listing of issues.

Counsel for the new intervenors, namely, the Upper Skagit Indian Tribe, the Sauk-Suiattle Indian Tribe, and the Swinomish Tribal Community are requested to define with reasonable specificity the contentions within the scope of the present proceeding which they wish to be adjudicated by the board. The enumeration of such contentions should include citations of evidence pertinent thereto which may already be in the record of the proceeding.

The foregoing requested material should be forwarded to the members of the board so that it may be in the hands of the board members on or before Wednesday, January 11, 1979.

On Thursday, January 18, 1979, the board members anticipate a visit to the proposed plant site with the applicant as their host. Representatives of parties may join the visit but there is no requirement for doing so. Arrangements for the visit will be discussed at the scheduled conference.

The mailing addresses and telecopy communication terminals of the board members are:

Mr. Gustave A. Linenberger, Atomic Safety and Licensing Board Panel, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, FTS-8-634-3319 or (202) 634-3319. For verification of receipt of telecopied messages, either of above numbers with last four numerals changed to 3317.

Dr. Frank F. Hooper, School of Natural Resources, University of Michigan, Ann Arbor, Michigan 48109. Telex or TWX 810-223-6066. For verification of receipt of telecopied messages, (313) 764-7235.

Valentine B. Deale, Esq., Suite 504, 1001 Connecticut Avenue NW., Washington, D.C. 20036, (202) 331-1243. For verification of receipt of telecopied messages, (202) 296-6100 and ask for Miss Martha Moody.

Dated this 22nd day of December 1978 at Washington, D.C.

ATOMIC SAFETY AND  
LICENSING BOARD.  
VALENTINE B. DEALE,  
Chairman.

(FR Doc. 78-36298 Filed 12-28-78; 8:45 am)

# [7590-01-M]

(Docket No. 50-397 OL)

## WASHINGTON PUBLIC POWER SUPPLY SYSTEM (WPPSS NUCLEAR PROJECT NO. 2)

### Order Relative to a Prehearing Conference

Take notice, because of scheduling problems, the date of the prehearing conference to consider petitions filed in this proceeding has been changed from January 11, 1979 to January 25, 1979. The place of the hearing is as follows: Federal Building, Auditorium, 825 Jadwin Avenue, Richland, Washington.

The proceeding will commence at 9 a.m. (local time). The public is invited to attend. No limited appearance statements will be heard at this particular conference.

It is so ordered.

Dated at Bethesda, Maryland, this 20th day of December, 1978.

For the Atomic Safety and Licensing Board for the Review of Petitions.

RICHARD F. COLE,  
Member.

(FR Doc. 78-36299 Filed 12-28-78; 8:45 am)

## REGULATORY GUIDE

### Issuance and Availability

The Nuclear Regulatory Commission has issued a new guide in its Regulatory Guide Series. This series has been developed to describe and make available to the public methods acceptable to the NRC staff of implementing specific parts of the Commission's regulations and, in some cases, to delineate techniques used by the staff in evaluating specific problems or postulated accidents and to provide guidance to applicants concerning certain of the information needed by the staff in its review of applications for permits and licenses.

The new guide is Regulatory Guide 3.44, "Standard Format and Content for the Safety Analysis Report To Be Included in a License Application for The Storage of Spent Fuel in an Independent Spent Fuel Storage Installation (Water-Basin Type)." It identifies for the applicant the information needed in a Safety Analysis Report to evaluate the safety aspects of the proposed independent spent fuel storage installation (ISFSI) and the plans for its use. Review of this information in applications for licenses for the stor-

age of spent fuel in an ISFSI in accordance with proposed 10 CFR Part 72, "Licensing Requirements for the Storage of Spent Fuel in an Independent Spent Fuel Storage Installation," should enable the NRC staff to provide reasonable assurance that the installation will not adversely affect the health and safety of the public and its operating personnel. The proposed regulation was published in the FEDERAL REGISTER on October 6, 1978 (43 FR 46309).

Comments and suggestions in connection with (1) items for inclusion in guides currently being developed or (2) improvements in all published guides are encouraged at any time. Public comments on Regulatory Guide 3.44 will, however, be particularly useful in evaluating the need for an early revision if received by February 28, 1979.

Comments should be sent to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Branch.

Regulatory guides are available for inspection at the Commission's Public Document Room, 1717 H Street NW, Washington, D.C. Requests for single copies of the latest revision of issued guides (which may be reproduced) or for placement on an automatic distribution list for single copies of future guides in specific divisions should be made in writing to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Technical Information and Document Control. Telephone requests cannot be accommodated. Regulatory guides are not copyrighted, and Commission approval is not required to reproduce them.

(5 U.S.C. 552(a))

Dated at Rockville, Maryland this 21st day of December 1978.

For the Nuclear Regulatory Commission.

RAY G. SMITH,  
Acting Director

Office of Standards Development.

## OFFICE OF MANAGEMENT AND BUDGET

### CLEARANCE OF REPORTS

#### List of Requests

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on December 20, 1978 (44 U.S.C. 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes:  
The title of each request received;  
The name of the agency sponsoring the proposed collection of information;  
The agency form number(s), if applicable;

The frequency with which the information is proposed to be collected;

An indication of who will be the respondents to the proposed collection;

The estimated number of responses;  
The estimated burden in reporting hours; and

The name of the reviewer or reviewing division or office.

Requests for extension which appear to raise no significant issues are to be approved after brief notice through this release.

Further information about the items on this daily list may be obtained from the Clearance Office, Office of Management and Budget, Washington, D.C. 20503, (202-395-4529), or from the reviewer listed.

##### SHIPPING COORDINATING COMMITTEE, SUBCOMMITTEE ON SAFETY OF LIFE AT SEA

##### Meeting

The working group on ship design and equipment of the Subcommittee on Safety of Life at Sea, a subcommittee of the Shipping Coordinating Committee, will hold an open meeting at 9:30 a.m. on Tuesday, January 16, 1979 in Room 8236/38, of the Department of Transportation, 400 Seventh Street, S.W., Washington, D.C.

The purpose of this meeting will be to review the Nineteenth and prepare for the twentieth Session of the Ship Design and Equipment Subcommittee of the Intergovernmental Maritime Consultative Organization (IMCO) which is scheduled for March 12-16, 1979 in London. The agenda includes consideration of the Delegation and Subcommittee reports for the Nineteenth Session and discussion of the following for the Twentieth Session: revision of IMCO Resolution A.325; special purpose ships/offshore supply vessels; noise level on board ships; maneuverability of ships; diving system; completion of the Code for Mobile Offshore Drilling Units; and nuclear merchant ships.

Requests for further information should be directed to Captain R. L. Brown, United States Coast Guard, 400 Seventh Street, S.W., Washington, D.C. 20590, telephone number (202) 426-2167.

The Chairman will entertain comments from the public as time permits.

Dated: December 18, 1978.

##### SHIPPING COORDINATING COMMITTEE, SUBCOMMITTEE ON SAFETY OF LIFE AT SEA

##### Meeting

The working group on bulk chemicals of the Subcommittee of Safety of Life at Sea, a subcommittee of the Shipping Coordinating Committee, will hold an open meeting at 9:30 a.m. on January 18, 1979 in Room 8238 of the Department of Transportation, 400 Seventh Street, S.W., Washington, D.C. 20590.

The purpose of this meeting will be to discuss the agenda for the fifth session of the IMCO Subcommittee on Bulk Chemicals. Agenda items of particular importance include:

Extension of the Bulk Chemical Code to cover pollution aspects.

Provision of reception facilities for noxious liquid substances.

Procedures and arrangements for the discharge of noxious liquid substances.

Ships used for carrying substances under Annex I and Annex II of the 1973 MARPOL Convention.

Evaluation of the hazards of mixed or diluted substances in relation to the Bulk Chemical Code and the 1973 MARPOL Convention.

Carriage of bulk chemicals in deep tanks of dry tanks of dry cargo ships. Review and updating of the Gas Carrier Code.

Requests for further information on the meeting should be directed to Mr. F. Wybenga, United States Coast Guard, telephone (202) 426-1217.

The Chairman will entertain comments from the public as time permits.

Dated: December 20, 1978.

[Application No. D-1007]

##### EMPLOYEE BENEFIT PLANS

Proposed Exemption Relating to a Transaction Involving the Everybods Inc. Employee Profit Sharing Plan and Trust

AGENCIES: Department of the Treasury/Internal Revenue Service. Department of Labor.

ACTION: Notice of proposed exemption.

SUMMARY: This document contains a notice of pendency before the Internal Revenue Service and the Department of Labor (the Agencies) of a proposed exemption from certain taxes imposed by the Internal Revenue Code of 1954 (the Code) and from the prohibited transactions restrictions of the Employee Retirement Income Security Act of 1974 (the Act). The proposed exemption would exempt the loan of \$40,000 from the Everybods Inc. Employee Profit Sharing Plan (the Plan) to Everybods Inc. (the Employer). The proposed exemption, if granted, would affect participants and beneficiaries of the Plan, the Employer, and other persons participating in the proposed transaction.

DATES: Written comments and requests for a public hearing must be received by the Internal Revenue Service on or before January 29, 1979.

ADDRESS: All written comments and requests for a hearing (at least six

copies) should be sent to: Internal Revenue Service, 1111 Constitution Avenue, NW, Washington, DC 20224, Attention: EEP:PT-1, Application No. D-1007. The application for exemption and the comments received will be available for public inspection at the Internal Revenue Service National Office Reading Room, 1111 Constitution Avenue, NW, Washington, DC 20224, and at the public Documents Room of Pension and Welfare Benefit Programs, U.S. Department of Labor, Room N-4677, 200 Constitution Avenue, NW, Washington, DC 20216.

#### FOR FURTHER INFORMATION CONTACT:

Pete Knox of the Internal Revenue Service, 202-566-8761. (This is not a toll free number.)

**SUPPLEMENTARY INFORMATION:** Notice is hereby given of the pendency before the Agencies of a proposed exemption from the taxes imposed by section 4975 (a) and (b) of the Code, by reason of section 4975(c)(1) (B) through (E) of the Code, and from the restrictions of section 406(a)(1)(B) through (D) and section 406(b)(1) and 406(b)(2) of the Act. The proposed exemption was requested in an application filed by the Employer and the trustees of the Plan pursuant to section 4975(c)(2) of the Code and section 408(a) of the Act and in accordance with the procedures set forth in Rev. Proc. 75-26, 1975-1 C.B. 722 and ERISA Procedure 75-1 (40 FR 18471, April 28, 1975).

#### SUMMARY OF FACTS AND REPRESENTATIONS

The application contains facts and representations with regard to the proposed exemption which are summarized below. Interested persons are referred to the application on file with the Agencies for the complete representations of the applicants.

1. The Employer owns and operates a pizza restaurant and another restaurant in Atlanta, Georgia. Andrew S. Kurlansky is the secretary-treasurer of the Employer, owns 50 percent of its outstanding common stock and is a trustee of the Plan's Trust (the Trust). Philip G. Paymer is the president of the Employer, owns 50 percent of its outstanding stock and is the other trustee of the Trust. The Employer has assets of \$186,338, no long term liabilities and its retained earnings exceed \$121,000.

2. The Plan had 37 participants as of June 30, 1978. The Trust had assets of \$102,134 as of June 30, 1978, the end of the Plan's year. The Plan expects to receive further annual contributions of \$12,000 to \$15,000. Payments of Plan benefits during the period of the loan are expected to be negligible.

3. Andrew S. Kurlansky and Philip G. Paymer are responsible for all Trust investment decisions. The overall consideration in past investment decisions has been to find the highest yielding, most secure investments. Consequently, almost all of the Trust assets have been invested in United States government obligations and in certificates of deposit yielding between 7 1/4 and 7 3/4 percent per year.

4. The Employer proposes to borrow \$40,000 from the Trust, to be repaid in 20 quarterly installments of \$2,814.44, reflecting an annual interest rate of 14 percent. The loan will be on the same terms that would be offered by a major local bank (and will utilize standard local bank forms), except that the interest to be charged is approximately one to two percent more than a bank would require and, in addition, the loan will be personally guaranteed by Andrew S. Kurlansky (whose net worth as of December 31, 1977 is represented to be in excess of \$162,000) and by Philip G. Paymer (whose net worth as of December 31, 1977 is represented to be in excess of \$99,000). The loan will be evidenced by a negotiable promissory note and will be secured by new pizza restaurant equipment and fixtures worth approximately \$91,820. The security interest will be perfected by filing a Uniform Commercial Code security agreement with the county clerk of the county where the fixtures will be situated. The collateral will be kept fully insured against fire, theft or other casualty, such insurance to inure to the benefit of the Trust. The Employer represents that the market value of the collateral is not expected to drop below approximately twice the outstanding loan balance due at any time. The Employer further represents that the collateral is easily resalable.

5. The Employer will appoint a local banker to be a separate loan trustee for the Trust assets involved in the proposed loan. The independent loan trustee will have the responsibility and power to enforce and collect the loan in the event of any default.

#### NOTICE TO INTERESTED PERSONS

Written notice shall be given to all interested persons. The interested persons include the Plan participants. The manner of the notice shall be by posting, on the employee's bulletin board that is regularly used to inform employees of important events, a copy of this notice of pendency as published in the FEDERAL REGISTER with explanatory notes attached summarizing the exemption requested, informing the interested persons of their right to comment on such exemption, and informing the interested persons of the period for comments to be received.

The notice shall be posted within 10 days after the notice of pendency of such exemption is published in the FEDERAL REGISTER.

#### GENERAL INFORMATION

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption under section 4975(c)(2) of the Code and section 408(a) of the Act does not relieve a fiduciary or other party in the interest or disqualified person from certain other provisions of the Code and the Act, including any prohibited transactions provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act which require, among other things, that a fiduciary discharge his duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does it affect the requirement of section 401(a) of the Code that the plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries;

(2) The proposal exemption, if granted, will not extend to transactions prohibited under section 4975(c)(1)(F) of the Code and section 406(b)(3) of the Act;

(3) Before an exemption may be granted under section 4975(c)(2) of the Code and section 408(a) of the Act, the Agencies must find that the exemption is administratively feasible, in the interests of the plan and of its participants and beneficiaries, and protective of the rights of participants and beneficiaries of the plan;

(4) The proposed exemption, if granted, will be supplemental to, and not in derogation of, any other provisions of the Code and the Act, including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption is not dispositive of whether the transaction is in fact a prohibited transaction; and

(5) This document does not meet the criteria for significant regulations set forth in paragraph 8 of the proposed Treasury directive appearing in the FEDERAL REGISTER for Wednesday, May 24, 1978 (43 FR 22319).

#### WRITTEN COMMENTS AND HEARING REQUESTS

All interested persons are invited to submit written comments or requests for a hearing on the proposed exemption to the address and within the time period set forth above. All comments will be made a part of the record. Comments and requests for a

hearing should state the reasons for the writer's interest in the proposed exemption. Comments received will be available for public inspection with the application for exemption at the addresses set forth above.

#### PROPOSED EXEMPTION

Based on the facts and representations set forth in the application, the Agencies are considering granting the requested exemption under the authority of section 4975(c)(2) of the Code and section 408(a) of the Act and in accordance with the procedures set forth in Rev. Proc. 75-26 and ERISA Procedure 75-1. If the exemption is granted, the taxes imposed by section 4975(a) and (b) of the Code, by reason of section 4975(c)(1)(B) through (E) of the Code, and the restrictions of section 406(a)(1)(B) through (D) and 406(b)(1) and 406(b)(2) of the Act, shall not apply to the loan of \$40,000 from the Trust to the Employer. The proposed exemption, if granted, will be subject to the express conditions that the material facts and representations are true and complete, and that the application accurately describes all material terms of the transaction to be consummated pursuant to the exemption.

Signed at Washington, DC, this 20th day of December, 1978.

FRED J. OCHS, Director,  
Employee Plans Division,  
Internal Revenue Service.

IAN D. LANOFF,  
Administration of Pension and  
Welfare Benefit Programs,

#### EMPLOYEE BENEFIT PLANS

Proposed Exemption to Certain Transactions  
Involving the Howell Instruments, Inc. Employee Profit Sharing and Retirement Plan

AGENCIES: Department of Labor, Department of Treasury/Internal Revenue Service.

ACTION: Notice of proposed exemption.

SUMMARY: This document contains a notice of pendency before the Department of Labor and the Internal Revenue Service (the Agencies) of a proposed exemption from the prohibited transaction restrictions of the Employee Retirement Income Security Act of 1974 (the Act) and the Internal Revenue Code of 1954 (the

Code). The proposed exemption, if granted, would exempt the sale of shares of stock of Commerce Financial Corporation (CFC) from the Howell Instruments, Inc. Employee Profit Sharing and Retirement Plan (the Plan) to CFC. The proposed exemption, if granted, would affect participants and beneficiaries of the Plan, CFC and other persons participating in the proposed transaction.

DATE: Written comments and requests for a public hearing must be received by the Department of Labor by January 29, 1979. The effective date of the proposed exemption will be the date on which the exemption is granted.

ADDRESS: All written comments and requests for a hearing (at least six copies) should be sent to: Office of Fiduciary Standards, Pension and Welfare Benefit Programs, Room C-4526, U.S. Department of Labor, 200 Constitution Avenue NW., Washington, D.C. 20216, Attention: Application No. D-654. The application for exemption, all comments relating to the proposed exemption, and any requests for a hearing will be available for public inspection in the Public Documents Room of Pension and Welfare Benefit Programs, U.S. Department of Labor, Room N-4677, 200 Constitution Avenue NW., Washington, D.C. 20216, and at the Internal Revenue Service National Office Reading Room, 1111 Constitution Avenue NW., Washington, D.C. 20224.

#### FOR FURTHER INFORMATION CONTACT:

Ronald D. Allen of the Department of Labor, (202) 523-8883. (This is not a toll-free number.)

**SUPPLEMENTARY INFORMATION:** Notice is hereby given of the pendency before the Agencies of a proposed exemption from the restrictions of sections 406(a), 406(b)(1), and 406(b)(2) of the Act and from the taxes imposed by section 4975(a) and (b) of the Code by reason of section 4975(c)(1)(A) through (E) of the Code. The proposed exemption was requested in an application filed by the Bank of Commerce of Fort Worth, Texas (the Bank), the trustee of the Plan, pursuant to section 408(a) of the Act and section 4975(c)(2) of the Code, and in accordance with the procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975) and Rev. Proc. 75-26, 1975-1 C.B. 722.

#### SUMMARY OF FACTS AND REPRESENTATIONS

The application contains facts and representations with regard to the proposed exemption which are summarized below. Interested persons are referred to the application on file with

the Agencies for the complete representations of the applicant.

The Plan is a profit sharing plan which holds 4,810 shares of CFC common stock. CFC is a bank holding company of which the trustee Bank is a wholly-owned subsidiary. The Bank as trustee requests an exemption in order to sell all shares of CFC stock held by the Plan to CFC. The proposed sale would be for a cash consideration of \$59.00 per share. CFC would purchase the stock as treasury shares, without intention of any subsequent offering of the shares to the public.

The Plan originally purchased 4,810 shares of stock of the trustee Bank on May 9, 1972, which shares subsequently were exchanged for the 4,810 shares of CFC stock. The CFC stock represents 8.24 percent of the assets of the Plan, the largest single stock or bond holding in the Plan portfolio. CFC stock has a present yield of 2.69 percent annually, based on a dividend of \$1.40 per share.

Sale of the CFC stock is sought since the trustee has determined that it is not desirable for the Plan to retain 8.24 percent of its investment portfolio invested in basically non-marketable assets with a low rate of return. In addition, the Plan's investment in the CFC stock violates the diversification guidelines set by the Bank with respect to its management of trust accounts. Furthermore, the Plan trustee believes that continued holding of CFC stock precludes alternative investment of Plan assets.

CFC stock is considered non-marketable since all issued and outstanding shares of such stock are held by only 183 shareholders. A majority of the stock is held by officers and directors of CFC. Because of this thin market for CFC shares, there are few potential purchasers for the stock held by the Plan. The CFC stock was acquired by the Plan from CFC without registration under the Securities Act of 1933 under an exemption therefrom. Therefore, the shares are restricted and cannot be sold without compliance with the registration requirements of the Securities Act of 1933, or in reliance upon an exemption therefrom. Any such registration would not be feasible because of costs which would be incurred, the limited number of shares involved, and the burden of developing all the necessary information required by the registration statement. If the Plan attempted to sell the CFC stock pursuant to a "private offering" exemption from registration, it is uncertain whether sufficient interest could be generated for the 4,810 CFC shares. Moreover, even if the stock could be sold in a private placement, the sale of CFC stock to individuals who are likely buyers probably would result in prohibited transactions

under the Act and the Code, because many of such individuals would be parties in interest and disqualified persons with respect to the Plan.

Shares of CFC stock are not actively traded. During 1977 there were seven trades involving a total of 1,756 shares. All seven trades were made by CFC at \$49 per share. CFC has been the primary purchaser of CFC stock, doing so in order to create a reserve of treasury shares with which to fund a stock option program.

The proposed purchase price of \$59.00 per share is represented to be the current fair market value of the stock. The price is based upon an independent appraisal made by Stephen's Inc., an investment banking firm which is completely independent of CFC. Stephen's Inc. was retained by CFC in September, 1976 to make such an appraisal, and updated its initial appraisal in April 1978.

#### NOTICE TO INTERESTED PERSONS

Notice of the proposed exemption will be posted conspicuously in the administrative office of the Plan for at least thirty days, beginning within fifteen days after publication of the notice of pendency of exemption in the FEDERAL REGISTER. Additionally, copies of the FEDERAL REGISTER notice will be provided to all Plan participants by first class mail within fifteen days of such publication in the FEDERAL REGISTER.

#### GENERAL INFORMATION

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption under section 408(a) of the Act and section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person from certain other provisions of the Act and the Code, including any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act which require, among other things, that a fiduciary discharge his duties respecting the plan solely in the interests of the plan's participants and beneficiaries and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does it affect the requirement of section 401(a) of the Code that the plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries;

(2) The pending exemption, if granted, will not extend to transactions prohibited under section 406(b)(3) of the Act and section 4975(c)(1)(F) of the Code;

(3) Before an exemption may be granted under section 408(a) of the

Act and section 4975(c)(2) of the Code, the Agencies must find that the exemption is administratively feasible, in the interests of the plan and its participants and beneficiaries, and protective of the rights of participants and beneficiaries of the plan;

(4) The proposed exemption, if granted, will be supplemental to, and not in derogation of, any other provisions of the Act and the Code, including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption is not dispositive of whether the transaction is in fact a prohibited transaction; and

(5) This document does not meet the criteria for significant regulations set forth in paragraph 8 of the proposed Treasury directive appearing in the FEDERAL REGISTER for Wednesday, May 24, 1978 (43 FR 22319).

#### WRITTEN COMMENTS AND HEARING REQUESTS

All interested persons are invited to submit written comments or requests for a hearing on the pending exemption to the address above, within the time period set forth. All comments will be made a part of the record. Comments and requests for a hearing should state the reasons for the writer's interest in the pending exemption. Comments received will be available with the application for exemption at the address set forth above.

#### PROPOSED EXEMPTION

Based on the facts and representations set forth in the application, the Agencies are considering granting the requested exemption under the authority of section 408(a) of the Act and section 4975(c)(2) of the Code and in accordance with the procedures set forth in ERISA Procedure 75-1 and Rev. Proc. 75-26. If the exemption is granted, the restrictions of sections 406(a) and 406(b)(1) and (2) of the Act and the taxes imposed by section 4975(a) and (b) of the Code, by reason of section 4975(c)(1)(A) through (E) of the Code, shall not apply to the sale by the Plan of 4,810 shares of Commerce Financial Corporation stock to Commerce Financial Corporation for \$59.00 per share, provided that this amount is not less than fair market value of the stock at the time of the sale. The proposed exemption, if granted, will be subject to the express conditions that the material facts and representations are true and complete, and that the application accurately describes all material terms of the transaction to be consummated pursuant to the exemption.

Signed at Washington, D.C., this 20th day of December 1978.

#### EMPLOYEE BENEFIT PLANS

Proposed Exemption for Certain Transactions  
Involving Rasmussen Equipment Company  
Profit Sharing Plan

AGENCIES: Department of Labor,  
Department of the Treasury/Internal  
Revenue Service.

ACTION: Notice of proposed exemption.

SUMMARY: This document contains a notice of pendency before the Department of Labor and the Internal Revenue Service (the Agencies) of a proposed exemption from the prohibited transaction restrictions of the Employee Retirement Income Security Act of 1974 (the Act) and from certain taxes imposed by the Internal Revenue Code of 1954 (the Code). The proposed exemption would exempt the sale by the Rasmussen Equipment Company Profit Sharing Plan (the Plan) of real property to Rasmussen Investment, Ltd. (the Partnership), a party in interest. The proposed exemption, if granted, would affect participants and beneficiaries of the Plan, the Rasmussen Equipment Company (the Employer), the Partnership and other persons participating in the proposed transaction.

DATES: Written comments and request for a public hearing must be received by the Department of Labor on or before January 29, 1979. The exemption will be effective on the date of the final grant.

ADDRESS: All written comments and requests for a hearing (at least six copies) should be sent to: Office of Fiduciary Standards, Pension and Welfare Benefit Programs, Room C-4526, U.S. Department of Labor, 200 Constitution Avenue, N.W., Washington, D.C. 20216, Attention: Application No. D-672. The application for exemption and the comments received will be available for public inspection in the Public Documents Room of Pension and Welfare Benefit Programs, U.S.

Department of Labor, Room N-4677, 200 Constitution Avenue, N.W., Washington, D.C. 20216, and at the Internal Revenue Service National Office Reading Room, 1111 Constitution Avenue, N.W., Washington, D.C. 20224.

#### FOR FURTHER INFORMATION CONTACT:

Ronald D. Allen of the Department of Labor, 202-523-8883. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: Notice is hereby given of the pendency before the Agencies of an application for exemption from the restrictions of section 406(a)(1) and 406(b)(1) and (b)(2) of the Act and from the taxes imposed by section 4975(a) and (b) of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code. The proposed exemption was requested in an application filed by the trustees of the Plan, pursuant to section 408(a) of the Act and section 4975(c)(2) of the Code, and in accordance with the procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975) and Rev. Proc. 75-26, 1975-1 C.B. 722.

#### SUMMARY OF FACTS AND REPRESENTATIONS

The application and related documents contain facts and representations with regard to the proposed exemption which are summarized below. Interested persons are referred to these documents on file with the Agencies for the complete representations of the applicants.

Richard and Robert Rasmussen each own a 50% interest in the Employer, which is the Plan sponsor. Richard is the administrator of the Plan and the person responsible for making investment decisions for the Plan. Richard and Robert Rasmussen are participants in the Plan and each owns a 50% interest in the Partnership, which was formed for the purpose of buying and developing real property.

The Plan owns to parcels of undeveloped real property in the Salt Lake Industrial Park (Industrial Park) which it purchased on September 1, 1973 for \$105,863. All payments on the land were paid by the Employer with company checks, and the amounts were deducted by the Employer as contributions to the Plan. It was understood at the time the property was purchased that the Plan would construct a building on the property and that the land and the building would be leased to the Employer for its operations. As of June 30, 1977, the real property in the Industrial Park represented 52% of Plan assets. According to an independent appraisal dated

March 7, 1977, the property was valued at \$190,000.

The contract between the Plan and the Industrial Park contained a restrictive covenant requiring the Plan (as owner of the property) to commence construction of a building on the property within three years from September 1, 1973. The Plan may not sell the property prior to the construction of a building. If construction had not begun within that time period, the owners of the Industrial Park have an option to refund the purchase price plus interest and enter into possession of the property. This covenant is designed to remove the land from speculative sales without improvements and to assure development within a reasonable period of time.

When the Act became effective, the Plan was prohibited by the restrictions of the Act and the Code from leasing the property or the proposed building to the Employer. Because the property could not be sold to a third party prior to the construction of a building thereon because it could not be determined what type of building could be built and sold without incurring difficulties in the disposition it was decided that the Partnership should purchase the property from the Plan and lease the developed property to the Employer. The owners of the Industrial Park have agreed to allow the Plan to sell the land to the Partnership and have extended the deadline leaving the date open to begin construction on the property.

The sale of the property by the Plan to the Partnership is proposed to be for \$190,000 cash. The Plan will not pay a sales commission in connection with the sale.

#### NOTICE TO INTERESTED PERSONS

Notice of the proposed exemption will be posted conspicuously in the administrative office of the Plan for at least 30 days, beginning within 15 days of publication of the notice of pendency in the FEDERAL REGISTER. In addition, copies of the notice of pendency as published in the FEDERAL REGISTER will be provided to all Plan participants by first class mail within 15 days of publication in the FEDERAL REGISTER.

#### GENERAL INFORMATION

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption under section

The price of \$190,000 is based upon the independent appraisal referred to above. However, in view of the length of time which has passed since that appraisal was made, the proposed exemption provides that the Partnership must pay the greater of either \$190,000 or the fair market value at the time of the sale.

408(a) of the Act and section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person from certain other provisions of the Act and the Code, including any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act which require, among other things, that a fiduciary discharge his duties respecting the plan solely in the interests of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does it affect the requirement of section 401(a) of the Code that the plan must operate for exclusive benefit of the employees of the employer maintaining the plan and of their beneficiaries;

(2) The proposed exemption, if granted, will not extend to transactions prohibited under section 406(b)(3) of the Act or section 4975(c)(1)(F) of the Code;

(3) Before an exemption may be granted under section 408(a) of the Act and section 4975(c)(2) of the Code, the Agencies must find that the exemption is administratively feasible, in the interests of the plan and of its participants and beneficiaries, and protective of the rights of participants and beneficiaries of the plan; and

(4) The proposed exemption, if granted, will be supplemental to, and not in derogation of, any other provisions of the Act and the Code, including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption is not dispositive of whether the transaction is in fact a prohibited transaction.

(5) This document does not meet the criteria for significant regulations set forth in paragraph 8 of the proposed Treasury directive appearing in the FEDERAL REGISTER for Wednesday, May 24, 1978 (43 FR 22319).

#### WRITTEN COMMENTS AND HEARING REQUEST

All interested persons are invited to submit written comments or requests for a hearing on the proposed exemption to the address and within the time period set forth above. All comments will be made a part of the record. Comments and requests for a hearing should state the reasons for the writer's interest in the proposed exemption. Comments received will be available for public inspection with the application for exemption at the addresses set forth above.

#### PROPOSED EXEMPTION

Based on the facts and representations set forth in the application, the

Agencies are considering granting the requested exemption under the authority of section 408(a) of the Act and section 4975(c)(2) of the Code and in accordance with the procedures set forth in ERISA Procedure 75-1 and Rev. Proc. 75-26. If the exemption is granted, the restrictions of section 408(a)(1) and 408(b)(1) and (b)(2) of the Act and the taxes imposed by section 4975(a) and (b) of the Code, by reason of section 4975(c)(1)(A) through (E) of the Code, shall not apply to the sale by the Plan to the Partnership of the real property located in the Industrial Park for \$190,000, provided that this amount is not less than the fair market value of the property. The proposed exemption, if granted, will be subject to the express conditions that the material facts and representations are true and complete, and that the application accurately describes all material terms of the transaction to be consummated pursuant to the exemption.

Signed at Washington, D.C., this 20th day of December 1978.

IAN D. LANOFF,  
Administrator of Pension and  
Welfare Benefit Programs,  
Labor-Management Services  
Administration, U.S. Department  
of Labor.

FRED J. OCHS, Director,  
Employee Plans Division,  
Internal Revenue Service.

Office of the Secretary

#### BICYCLE TIRES AND TUBES FROM THE REPUBLIC OF CHINA

Determination of Sales at not Less Than Fair  
Value and Discontinuance of Antidumping  
Investigation

AGENCY: U.S. Treasury Department.

ACTION: Determination of Sales at Not Less Than Fair Value and Discontinuance of Antidumping Investigation.

SUMMARY: This notice is to advise the public that an antidumping investigation has resulted in a determination that, with the exception of the merchandise produced by two companies, bicycle tires and tubes from the Republic of China, are not being sold to the United States at less than fair value within the meaning of the Antidumping Act, 1921. In the case of two producers the investigation is being discontinued based on minimal margins and assurances of no future sales at less than fair value.

EFFECTIVE DATE: December 29, 1978.

#### FOR FURTHER INFORMATION CONTACT:

Leon McNeill, Operations Officer,  
U.S. Customs Service, Office of Operations,  
Duty Assessment Division,  
Technical Branch, 1301 Constitution  
Avenue, N.W., Washington, D.C.  
20229, telephone (202-566-5492).

SUPPLEMENTARY INFORMATION: On January 13, 1978, information was received in proper form pursuant to sections 153.26 and 153.27, Customs Regulations (19 CFR 153.26 and 153.27), from counsel acting on behalf of the Carlisle Tire and Rubber Co., of Carlisle, Pennsylvania, indicating that bicycle tires and tubes from the Republic of China are being, or are likely to be, sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.) (referred to in this notice as "the Act"). On the basis of this information and subsequent preliminary investigation by the Customs Service, an "Antidumping Proceeding Notice" was published in the FEDERAL REGISTER of February 23, 1978 (43 FR 7496).

A "Withholding of Appraisalment Notice, Tentative Exclusion From and Tentative Discontinuance of Antidumping Investigation" was published in the FEDERAL REGISTER of September 18, 1978 (43 FR 41451).

For purposes of this notice the term "bicycle tires and tubes" means pneumatic bicycle tires, and tubes therefor, of rubber or plastics, whether such tires and tubes are sold together as units or separately.

#### DETERMINATION OF SALES AT NOT LESS THAN FAIR VALUE

On the basis of information developed in the Customs investigation and for the reasons noted below, pursuant to section 201(b) of the Act (19 U.S.C. 160(b)) I hereby determine that bicycle tires and tubes from the Republic of China, other than that merchandise produced by Cheng Shin Industrial Co., Ltd. and Kenda Rubber Tire Corp., are not being sold at less than fair value. In the case of both Cheng Shin Industrial Co., Ltd., and Kenda Rubber Tire Corp., the margins were found to be minimal and assurances of no future sales at less than fair value have been received. Therefore, with respect to these two firms, I hereby discontinue the antidumping investigation.

#### STATEMENT OF REASONS ON WHICH THIS DETERMINATION IS BASED:

The reasons and bases for the above determination are as follows:

a. *Scope of the Investigation.* It appears that approximately 86 percent of the imports of the subject merchandise

from the Republic of China during the period of the investigation were manufactured by the following firms:

1. Hwa Fong Rubber Industrial Co., Ltd.
2. Cheng Shin Rubber Industrial Co., Ltd.
3. Kenda Rubber Tire Corp., Ltd.
4. Nan Kang Rubber & Industrial Corp., Ltd.

The investigation was therefore limited to sales by these four firms.

b. *Basis of Comparison.* For purposes of considering whether the merchandise in question is being, or is likely to be, sold at less than fair value within the meaning of the Act, the proper basis of comparison, except for Nan Kang, is between purchase price and the adjusted home market price of such or similar merchandise. With respect to Nan Kang, the proper basis of comparison is between purchase price and third country price of such or similar merchandise. Purchase price, as defined in § 203 of the Act (19 U.S.C. 162), was used since all export sales to the United States by the four firms were made to unrelated customers. Home market price, as defined in § 153.2, Customs Regulations (19 CFR 153.2), was used for fair value purposes when such or similar merchandise was sold in the home market in sufficient quantities to provide an adequate basis of comparison.

Sales for exportation to countries other than the United States, as defined in § 153.3, Customs Regulations (19 CFR 153.3), were used for Nan Kang since such or similar merchandise was not sold in the home market. In accordance with § 153.31(b), Customs Regulations (19 CFR 153.31(b)), pricing information was obtained concerning sales to the United States, home market sales, and third country sales during the period September 1, 1977, through February 28, 1978.

c. *Purchase Price.* For purposes of this determination, purchase price has been calculated on the basis of sales prices to unrelated United States purchasers, and to trading companies in the Republic of China which export the merchandise to the United States, with deductions made, where applicable, for c.i.f. charges, inland freight charges, commissions, brokerage charges, bank charges and contributions to the Taiwan Rubber Association. An addition was made, where applicable, for duty drawback of Republic of China customs duty paid on imported material used to manufacture the tires and tubes exported to the U.S. during the investigatory period. Additions were also made for the amount of commodity, stamp and education taxes imposed on sales of this merchandise domestically, which taxes were either rebated or not collected upon exportation. With regard to Cheng Shin it was discovered that inadvertently the adjustment for the commodity tax, discussed above, had been omitted from the fair value calculations used in the Withholding of Appraisalment Notice. This adjustment has been included for purposes of this determination.

d. *Home Market Price.* For the purpose of this determination, the home market price has been calculated on the basis of the selling prices to unrelated purchasers in the Republic of China. Deductions were made, where applicable, for inland freight. Adjustments were made, where applicable, for differences in credit, packing and merchandise and for advertising expenses and rejected merchandise.

The adjustments for differences in credit related to the differences in interest costs incurred by the sellers due to differences in the time within which payment was received on sales in the home market as compared with export sales. The adjustment for differences in packing related to difference costs associated with packing the merchandise for export and for home consumption. Those adjustments were made in accordance with § 153.10 of the Customs Regulations (19 CFR 153.10).

The adjustments for differences in merchandise concerned sales by Cheng Shin. Those differences involved standard variances in tread and in color of sidewall on certain tires and in material on certain tubes sold both in the United States and in the home market. The adjustment factor was based upon the differences in the negotiated prices for the identical, differentiated tires and tubes sold in the home market. This adjustment was made in accordance with § 153.11 of the Customs Regulations (19 CFR 153.11).

The adjustment for advertising expenses was made in the case of Cheng Shin for certain advertising costs assumed by that manufacturer on behalf of its distributors. The adjustment for rejected merchandise concerned a deduction for merchandise returned by home market customers in the case of sales by two manufacturers, Cheng Shin and Hwa Fong. These manufacturers did not incur similar claims for rejected merchandise on sales to the United States. Accordingly, adjustments for the foregoing expenses were made in accordance with § 153.10 of the Customs Regulations (19 CFR 153.10).

Claims were made for adjustments under § 153.10, Customs Regulations (19 CFR 153.10), for entertainment expenses and bad debt expenses incurred in the home market.

A claim for an adjustment based upon differences in the quantity sold

in the two markets was made by Hwa Fong. However, the company did not provide any documentation to justify making the adjustment. Moreover, its prices did not appear to vary in direct relationship to quantities, as required under § 153.9(b) of the Customs Regulations (19 CFR 153.9(b)).

e. *Sales for Exportation to Countries Other Than the United States.* Since Nan Kang had no home market sales of such or similar merchandise to use as a basis of comparison with its exports to the United States, fair value was calculated on the basis of Nan Kang's export sales to the third country (Canada) in which the greatest number of Nan Kang's export sales to countries other than the United States were made. These sales were made from the same price list used for sales to the United States and in both cases actual sales prices appear to adhere to the price list.

f. *Results of Fair Value Comparisons.* Using the above criteria, the purchase price in certain instances was found to be lower than the home market price of such or similar merchandise. Comparisons were made on approximately 97 percent of the sales of the subject merchandise sold for export to the United States by the four investigated manufacturers during the period of investigation. Margins were found on approximately 7 percent of the sales compared, ranging from 0.05 percent to 21.4 percent and resulting in a weighted-average margin of 0.48 percent. Weighted-average margins over the total sales compared for each firm are as follows: Cheng Shin 0.79 percent, Kenda 0.5 percent and Hwa Fong 0.23 percent. No margins found on sales made by Nan Kang. The margins found on sales by Hwa Fong are determined to be *de minimis*. The margins found on sales by Kenda and Cheng Shin are considered to be *minimal* in relation to total volume of exports and formal assurances have been received from those manufacturers indicating that all future sales to the United States will be at prices which are not less than fair value.

The Secretary has provided an opportunity to known interested persons to present written and oral views pursuant to section 153.40, Customs Regulations (19 CFR 153.40).

The order to withhold appraisalment on the subject merchandise from the Republic of China, cited above and published in the FEDERAL REGISTER on September 18, 1978 (43 FR 41451), is hereby terminated, effective December 29, 1978.

This determination and discontinuance is being published pursuant to §§ 153.33(d) and 153.34(d) of the Customs Regulations (19 CFR 153.33(d), 153.34(d)).

ROBERT H. MUNDHEIM,  
General Counsel  
of the Treasury.

DECEMBER 20, 1978.

#### BICYCLE TIRES AND TUBES FROM THE REPUBLIC OF KOREA

Antidumping; Determination of Sales at Not Less Than Fair Value

AGENCY: United States Treasury Department.

ACTION: Determination of Sales at Not Less Than Fair Value.

SUMMARY: This notice is to advise the public that an antidumping investigation has resulted in a determination that bicycle tires and tubes from the Republic of Korea are being sold at less than fair value within the meaning of the Antidumping Act, 1921. Sales at less than fair value generally occur when the price of such or similar merchandise for exportation to the United States is less than the price of such or similar merchandise sold in the home market. This proceeding is being referred to the United States International Trade Commission for a determination concerning injury to an industry in the United States.

EFFECTIVE DATE: December 29, 1978.

#### FOR FURTHER INFORMATION CONTACT:

Holly Kuga, Operations Officer,  
Duty Assessment Division, U.S. Customs Service, 1301 Constitution  
Avenue, N.W., Washington, D.C.  
20229, telephone 202-566-5492.

SUPPLEMENTARY INFORMATION: On January 13, 1978, information was received in proper form pursuant to §§ 153.26 and 153.27, Customs Regulations (19 CFR 153.26, 153.27), from counsel acting on behalf of the Carlisle Tire & Rubber Co. of Carlisle, Pa. indicating a possibility that bicycle tires and tubes from the Republic of Korea are being, or are likely to be, sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.) (referred to in this notice as "the Act"). On the basis of this information and subsequent preliminary investigation by the Customs Service, an "Antidumping Proceeding Notice" was published in the FEDERAL REGISTER of February 23, 1978 (43 FR 7496). A "Withholding of Appraisalment Notice" was published in the FEDERAL REGISTER of September 18, 1978 (43 FR 41449).

For purposes of this notice the term "bicycle tires and tubes" means pneumatic bicycle tires, and tubes therefor, of rubber or plastics, whether such tires and tubes are sold together as units or separately.

**FINAL DETERMINATION OF SALES AT LESS THAN FAIR VALUE.** On the basis of information developed in Customs' investigation and for the reasons noted below I hereby determine that bicycle tires and tubes from the Republic of Korea are being sold at less than fair value within the meaning of section 201(a) of the Act (19 U.S.C. 160(a)).

**STATEMENT OF REASONS ON WHICH THIS DETERMINATION IS BASED**

**A. SCOPE OF THE INVESTIGATION**

It appears that 100 percent of all imports of bicycle tires and tubes from the Republic of Korea were produced by Dae Yung Commercial Co., Ltd., Hung A Industrial Co., Ltd., and Korea Inoue Kasei Co., Ltd. The investigation was therefore limited to sales by these three producers.

**B. BASIS OF COMPARISON**

For the purposes of considering whether the merchandise in question is being, or is likely to be, sold at less than fair value within the meaning of the Act, the proper basis of comparison is between the purchase price and the home market price of such or similar merchandise on all investigated sales by Hung A and Dae Yung.

Home market price, as defined in § 153.2, Customs Regulations (19 CFR 153.2), was used for fair value purposes on these two manufacturers, since they sold in the home market sufficient quantities of such or similar merchandise to provide an adequate basis for comparison.

In the case of Korea Inoue Kasei, the proper basis of comparison is between purchase price and sales for exportation to countries other than the United States. Sales for exportation to countries other than the United States (Canada) were used in accordance with § 153.3 Customs Regulations (19 CFR 153.3) since no sales of such or similar merchandise were made in the home market.

Purchase price, as defined in section 203 of the Act (19 U.S.C. 162), was used for all three producers since the sales to the United States on which this determination is based were made to nonrelated customers.

In accordance with § 153.31(b), Customs Regulations (19 CFR 153.31(b)), pricing information was obtained concerning sales to the United States, in the home market, and to Canada during the period September 1, 1977, through February 28, 1978.

**C. PURCHASE PRICE**

For purposes of this determination, purchase price has been calculated on the basis of the f.o.b. price to unrelated U.S. importers. Sales were made to bicycle manufacturers and to replacement distributors in the United States.

Deductions were made, where applicable, on sales to both levels of trade for inland freight, wharfage costs, and customs brokerage. In accordance with section 203 of the Act (19 U.S.C. 162), an addition was made to purchase price for the rebate upon the exportation of the merchandise to the United States of customs duties, a defense tax and value-added taxes incurred on raw materials used in producing the goods.

**D. HOME MARKET PRICE**

For the purpose of this determination, the home market prices have been calculated on the basis of delivered prices to unrelated purchasers in the home market. With respect to both Hung A and Dae Yung, comparisons were made at the same commercial level of trade found in sales of the merchandise to the United States. In the "Withholding of Appraisement Notice," cited above, it was indicated that Dae Yung did not make sales to bicycle manufacturers in the home market. Therefore, because, at that time, a suitable basis could not be found for making a level-of-trade adjustment, sales to both bicycle manufacturers and replacement distributors in the United States were compared to sales to replacement distributors in the home market. However, it has now been determined that sales to bicycle manufacturers in the home market had been made during the period of investigation.

Adjustments were made, where applicable, to home market sales to replacement distributors for inland freight, rebates, bonuses, advertising, differences in credit, and defective merchandise. Sales to bicycle manufacturers in the home market were adjusted, where appropriate, for inland freight and defective merchandise.

Adjustments were made for rebates on home market sales by Dae Yung and Hung A because the rebates were properly linked to the volume of merchandise purchased by customers over a specified period of time and appear to have been consistently offered by both manufacturers. The adjustment made for bonuses in home market sales by Hung A related to the manufacturer's promotion of sales by distributors during a given period of time. The concept of bonuses is directly analogous to the basis on which rebates are given and was therefore allowed as a deduction from the home market price.

The adjustment for advertising expenses was made in the case of Dae

Yung for certain advertising costs assumed by that manufacturer on behalf of its replacement distributors. The adjustments for differences in credit related to the differences in interest costs incurred by Dae Yung due to differences in the time of receipt of payment on sales in the home market from replacement distributors as compared with payment on export sales. These adjustments were made in accordance with § 153.10 of the Customs Regulations (19 CFR 153.10).

The adjustment for rejected merchandise concerned a deduction for merchandise returned by home market customers in the case of sales by Hung A. This manufacturer did not incur similar claims for rejected merchandise on sales to the United States. Accordingly, adjustments for the foregoing expense were made in accordance with § 153.10 of the Customs Regulations (19 CFR 153.10).

Hung A claimed adjustments for differences in interest costs due to differences in credit terms and for advertising expenses incurred only in the home market on behalf of its replacement distributors under § 153.10, Customs Regulations (19 CFR 153.10). Insufficient information was presented to justify making an adjustment for differences in interest costs. Advertising claims were not supported with sufficient documentation to show a relationship to the specific sales under consideration and were disallowed.

Claims were made for adjustments under § 153.10, Customs Regulations (19 CFR 153.10), by Dae Yung and Hung A for entertainment expenses and bad debt expenses incurred in the home market. These claims have been denied because Treasury has held consistently that such expenses are overhead expenses and are therefore not directly related to the sales under consideration. In any event, sufficient documentation was not provided to allow these claims.

**E. SALES FOR EXPORTATION TO COUNTRIES OTHER THAN THE UNITED STATES**

Since Korea Inoue Kasei does not sell such or similar merchandise in the home market, fair value was calculated by comparing exports to the United States with Korea Inoue Kasei's sales to third countries (Canada) in accordance with § 153.3 Customs Regulations (19 CFR 153.3). Sales to Canada represented 61 percent of Korea Inoue Kasei's sales to third countries other than the United States. Adjustments were made for differences in packing costs and differences in commissions paid between the sales to Canada and the United States, where appropriate.

**F. RESULTS OF FAIR VALUE COMPARISONS**

Using the above criteria, purchase price in certain instances was found to

be lower than the home market price or sales price to countries other than the United States of such or similar merchandise.

Comparisons were made on 40 percent, 92 percent, and 82 percent of the sales made by Dae Yung, Hung A, and Korea Inoue Kasei, respectively. Together this represents 54 percent of the sales made to the United States during the period under consideration.

Margins were found ranging from 0.2 to 36.6 percent on sales by Dae Yung, from 1.2 to 65.2 percent on sales by Hung A, and from 0.3 to 15.9 percent on sales by Korea Inoue Kasei. Weighted-average margins over the total sales compared for each firm were approximately 3.4 percent for Dae Yung, 5.3 percent for Hung A and 7.2 percent for Korea Inoue Kasei.

The Secretary has provided an opportunity to known interested persons to present written or oral views pursuant to § 153.40, Customs Regulations (19 CFR 153.40).

The U.S. International Trade Commission is being advised of this determination.

This determination is being published pursuant to section 201(d) of the Act (19 U.S.C. 160(d)).

ROBERT H. MUNDHEIM,  
General Counsel  
of the Treasury.

**INTERSTATE COMMERCE COMMISSION**

[Notice No. 236]

**MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS**

DECEMBER 19, 1978.

The following are notices of filing of applications for temporary authority under Section 210a(a) of the Interstate Commerce Act provided for under the provisions of 49 CFR 1131.3. These rules provide that an original and six (6) copies of protests to an application may be filed with the field official named in the FEDERAL REGISTER publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the FEDERAL REGISTER. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protes-

tant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the ICC Field Office to which protests are to be transmitted.

NOTE.—All applications seek authority to operate as a common carrier over irregular routes except as otherwise noted.

**MOTOR CARRIERS OF PROPERTY**

MC 1395 (Sub-11TA), filed November 8, 1978. Applicant: ALVAN MOTOR FREIGHT, INC., 3600 Alvan Road, Kalamazoo, MI 49001. Representative: Martin J. Leavitt, P.O. Box 400, Northville, MI 48167. Authority sought to operate as a common carrier, by motor vehicle, over regular routes, transporting: *General commodities*, (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between Grand Rapids and Clare, MI.: From Grand Rapids over U.S. 131 to junction with Michigan Highway 57, then over Michigan Highway 57 to its junction with U.S. Highway 27, then north on U.S. 27 to Clare and return over the same route, serving all intermediate points, except Greenville, and serving the off-route points of Alma, St. Louis, Winn, Weidman, Beal City, Vandercar, Delwin, Vernon Center, Rosebush and Leaton, restricted to traffic interlines at Grand Rapids, Kalamazoo or Detroit, MI., with other carriers, for 180 days. An underlying ETA seeks up to 90 days operating authority. SUPPORTING SHIPPER(S): There are approximately (7) statements of support attached to this application which may be examined at the Interstate Commerce Commission in Washington, D.C., or copies thereof which may be examined at the field office named below. SEND PROTESTS TO: C. R. Flemming DS, ICC, 225 Federal Bldg., Lansing, MI. 48933.

MC 2202 (Sub-569TA), filed September 12, 1978, and published in the FEDERAL REGISTER issue of December 11, 1978, and republished as corrected this issue. Applicant: ROADWAY EXPRESS, INC., P.O. Box 471, 1077

Gorge Boulevard, Akron, OH 44309. Representative: William O. Turney, Suite 1010, 7101 Wisconsin Avenue, Washington, DC 20014.

Authority sought to operate as a common carrier, by motor vehicle, over regular routes, transporting (1) *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment) serving all intermediate points and all points located in Hardin, Orange, Jefferson, Chambers, Liberty, Harris, Galveston, Fort Bend, Brazoria, Colorado, Wharton, Guadalupe, Bexar, Wilson, Karnes, Goliad, Refugio, Aransas, Atascosa, Frio, La Salle, McMullen, Live Oak, Bee, San Patricio, Nueces, Kleberg, Jim Wells, Duval, Webb, Zapata, Jim Hogg, Brooks, Kenedy, Willacy, Cameron, Hidalgo, Starr, Dewitt, Calhoun, Matagorda, Jackson, Lavaca, Gonzales, Victoria, Waller, Austin, Fayette, and Caldwell Counties, TX, as off-route points, (a)

between Beaumont, TX and Las Cruces, NM: From Beaumont over U.S. Hwy 90 to Houston, TX, then over U.S. Hwy 290 to junction U.S. Hwy 80, then over U.S. Hwy 80 to Las Cruces, and return over the same route; (b) between McAllen, TX and Kingman, AZ: From McAllen over U.S. Hwy 281 to San Antonio, TX, then over U.S. Hwy 87 to Amarillo, TX, then over U.S. Hwy 66 to Kingman, and return over the same route; (c) between Houston, TX and Brownsville, TX: (1) From Houston over U.S. Hwy 90 to San Antonio, TX, then over U.S. Hwy 81 to junction U.S. Hwy 83, then over U.S. Hwy 83 to Brownsville, and return over the same route; (2) From Houston over U.S. Hwy 59 to junction U.S. Hwy 77, then over U.S. Hwy 77 to Brownsville, and return over the same route; (d) between Victoria, TX and Laredo, TX: From Victoria over U.S. Hwy 59 to Laredo, and return over the same route; (e) between junction TX Hwy 9 and U.S. Hwy 281, at or near Three Rivers, TX, and Corpus Christi, TX: From junction TX Hwy 9 and U.S. Hwy 281, over TX Hwy 9 to Corpus Christi, and return over the same route; (f) between junction U.S. Hwys 60 and 87 and Las Cruces, NM: From junction U.S. Hwys 87 and 60 over U.S. Hwy 60 to Clovis, NM, then over U.S. Hwy 70 to Las Cruces, and return over the same route; (g) between junction U.S. Hwys 87 and 283 and Brady, TX: From junction U.S. Hwys 87 and 283, over U.S. Hwy 283 to junction U.S. Hwy 84, then over U.S. Hwy 84 to junction U.S. Hwy 80, then over U.S. Hwy 80 to junction U.S. Hwy 183, then over U.S. Hwy 183 to junction U.S. Hwy 377, then over U.S. Hwy 377 to Brady and return over the same route; (h) between Victoria, TX and San Ant-

onio, TX: From Victoria over U.S. Hwy 87 to San Antonio and return over the same route; (i) between San Antonio, TX and Del Rio, TX: From San Antonio over U.S. Hwy 90 to Del Rio and return over the same route; (j) between Del Rio, TX and Laredo, TX: From Del Rio over U.S. Hwy 277 to junction U.S. Hwy 83, then over U.S. Hwy 83 to Laredo and return over the same route; (k) between Eagle Pass, TX and junction TX Hwy 57 and U.S. Hwy 81 at or near Moore, TX: From Eagle Pass over TX Hwy 57 to junction U.S. Hwy 81 and return over the same route; (l) between Lamesa, TX and Midland, TX: From Lamesa over TX Hwy 349 to Midland and return over the same route; (m) between Fort Worth, TX and Lubbock, TX: (1) From Fort Worth over U.S. Hwy 180 to junction U.S. Hwy 84, then over U.S. Hwy 84 to Lubbock and return over the same route and (2) From Fort Worth over U.S. Hwy 80 to junction U.S. Hwy 84, then over U.S. Hwy 84 to Lubbock and return over the same route; (n) between Abilene, TX and Anson, TX: From Abilene over U.S. Hwy 83 to Anson and return over the same route; (o) between Comfort, TX and junction TX Hwy 27 and U.S. Hwy 290: From Comfort over TX Hwy 27 to junction U.S. Hwy 290, and return over the same route; and (2) *General Commodities (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment)*, between Shreveport, LA and Beaumont, TX serving no intermediate points and serving Shreveport for purposes of joinder only: From Shreveport over U.S. Hwy 171 to junction LA Hwy 5, then over LA Hwy 5 to junction U.S. Hwy 84, then over U.S. Hwy 84 to junction TX Hwy 7, then over TX Hwy 7 to junction U.S. Hwy 96, then over U.S. Hwy 96 to Beaumont and return over the same route, for 180 days. Applicant intends to tack with MC 2202 and subs thereto and to interline.

**SUPPORTING SHIPPER(S):** There are approximately 1,492 statements of support attached to the application which may be examined at the Interstate Commerce Commission in Washington, DC, or copies thereof which may be examined at the field office named below. **SEND PROTESTS TO:** ICC, 731 Federal Building, 1240 East 9th Street, Cleveland, OH 44199. #### MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

[Notice No. 237]

DECEMBER 20, 1978

The following are notices of filing of applications for temporary authority under Section 210(a) of the Interstate Commerce Act provided for under the provisions of 49 CFR 1131.3. These rules provide that an original and six (6) copies of protests to an application may be filed with the field official named in the FEDERAL REGISTER publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the FEDERAL REGISTER. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify

the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the ICC Field Office to which protests are to be transmitted.

NOTE—All applications seek authority to operate as a common carrier over irregular routes except as otherwise noted.

#### MOTOR CARRIERS OF PROPERTY

[7035-01-M]

[Finance Docket No. 28909F]

BURLINGTON NORTHERN, INC.

Trackage Rights Over Duluth, Missabe and Iron Range Railway Co. and Duluth, Winnipeg and Pacific Railway Co. near Virginia, Minn.

Burlington Northern, Inc. (BN), 176 East Fifth Street, St. Paul, Minn. 55101 represented by Robert L. Bartholic, Shirley A. Brantingham, and Leah M. Stetzner, 176 East Fifth Street, St. Paul, Minn. 55101, hereby give notice that on the 24th day of November, 1978, it filed with the Interstate Commerce Commission at Washington, D.C., an application under Section 5(2) of the Interstate Commerce Act for a decision approving and authorizing BN to acquire trackage rights over line owned by the Duluth, Missabe and Iron Range Railway Company (DM&IR) and line owned by the Duluth, Winnipeg and Pacific Railway Company (DWP). BN also seeks amendment pursuant to Section 5(10) of the Act to amend the operating authority granted it in Finance docket

No. 20892, *Great Northern Railway Company—Trackage Rights—Duluth, Missabe and Iron Range Railway Company*.

BN seeks authority to obtain trackage rights over lines owned by the DM&IR and DWP which would allow direct access by BN to the recently constructed Minorca Mine and taconite pellet plant facilities of Inland Steel, near Virginia, Minn. Such rights to BN are bridge rights limited to traffic to and from the Minorca facility.

There are two separate segments of track involved for which ICC authority is needed plus a mine spur track for which no authority is needed. The first segment (Connecting tract) is a 0.9 mile portion of the DM&IR line between Virginia, Minn., and Emmert, Minn. BN was granted authority in Finance Docket No. 20892, *Great Northern Railway Company—Trackage Rights—Duluth, Missabe and Iron Range Railway Company* to operate over these DM&IR tracks as a bridge. BN requests the Commission to amend this authority to allow an entrance and exit at Shelton, Minn., for operation over DWP tracks as a bridge to the Minorca Mine and facilities.

The second segment (DWP track) is the DWP trackage which connects the DM&IR line between Virginia and Emmert, Minn., to the mine spur owned by DM&IR leading to the Minorca facilities. The mine spur owned by the DM&IR leads from the DWP track to the Minorca Mine and plant.

In the opinion of BN, the granting of the authority sought will not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969. In accordance with the Commission's regulations (49 C.F.R. 1108.8) in Ex Parte No. 55 (Sub-No. 4), *Implementation—National Environmental Policy Act, 1969*, 352 I.C.C. 451 (1976), any protests may include a statement indicating the presence or absence of any effect of the requested Commission action on the quality of the human environment. If any such effect is alleged to be present, the statement shall indicate with specific data the exact nature and degree of the anticipated impact. See *Implementation—National Environmental Policy Act, 1969, supra*, at p. 487.

Interested persons may participate formally in a proceeding by submitting written comments regarding the application. Such submissions shall indicate the proceeding designation Finance Docket No. 28909F and the original and two copies thereof shall be filed with the Secretary, Interstate Commerce Commission, Washington, D.C. 20423, not later than February 12, 1979. Such written comments shall in-

clude the following: the person's position, e.g., party protestant or party in support, regarding the proposed transaction; specific reasons why approval would or would not be in the public interest; and a request for oral hearing if one is desired. Additionally, interested persons who do not intend to formally participate in a proceeding but who desire to comment thereon, may file such statements and information as they may desire, subject to the filing and service requirements specified herein. Persons submitting written comments to the Commission shall, at the same time, serve copies of such written comments upon the applicant, the Secretary of Transportation and the Attorney General.

H. G. HOMME, Jr.,  
Acting Secretary.

#### [7035-01-M]

[Docket No. 37039; Ex Parte No. 349]

#### IDAHO INTRASTATE FREIGHT RATES AND CHARGES—1978

Decided: December 20, 1978.

The Idaho railroads (petitioners) have requested this Commission to in-

stitute an investigation of their Idaho intrastate freight rates and charges under sections 13 (3), (4), and (5) and 15(a)(4) of the Interstate Commerce Act, now 49 U.S.C. sections 10704, 11501, 11502, and 11701. They seek an order authorizing them to increase these rates and charges in the same amount as the Commission approved for interstate rates and charges in Ex Parte No. 349, served June 7, 1978.

On May 4, 1978 petitioners requested the Idaho Public Utilities Commission (IPUC) to authorize the same increases as they sought in Ex Parte No. 349. On August 15, 1978, they amended their request, to seek only the increases ultimately authorized in Ex Parte No. 349. On September 6, 1978, IPUC denied the request, for the reason that the petitioners did not break down their intrastate expenses or investments.

Petitioners have presented grounds which justify an investigation.

#### It is ordered:

The petition is granted. An investigation is instituted. The Commission shall determine whether to prescribe Idaho intrastate rail freight rates or charges to remove unlawful discrimination.

All common carriers by railroad operating in Idaho subject to the juris-

cago, Milwaukee, St. Paul & Pacific Railroad Company, The Spokane International Railroad Company, and Washington, Idaho and Montana Railway.

diction of this Commission are made respondents.

All persons who wish to participate in this proceeding and file and receive copies of pleadings shall notify the Office of Proceedings, room 5342, Interstate Commerce Commission, Washington, D.C. 20423, on or before January 15, 1979. Persons having common interests should consolidate their presentations to the greatest extent possible.

The Commission will serve a list of names and addresses of all persons upon whom service of pleadings must be made. Thereafter, this proceeding will be assigned for oral hearing or modified procedure.

A copy of this order shall be served on respondents, and copies shall be sent by certified mail to IPUC and the Governor of Idaho. Copies shall also be deposited in the Office of the Secretary of the Commission at Washington, D.C. and filed with the Director, Office of the Federal Register for publication in the FEDERAL REGISTER.

This is not a major action significantly affecting the quality of the human environment.

By the Commission, Alan M. Fitzwater, Director, Office of Proceedings.

NANCY L. WILSON,  
Acting Secretary.

[M-186]

#### CIVIL AERONAUTICS BOARD.

TIME AND DATE: 9:30 a.m., December 18, 1978.

PLACE: Room 1011, 1825 Connecticut Avenue NW., Washington, D.C. 20428.

SUBJECT: Negotiations with the Dutch.

STATUS: Closed.

#### PERSON TO CONTACT:

Phyllis T. Kaylor, the Secretary,  
202-673-5068.

**SUPPLEMENTARY INFORMATION:** Negotiations with the Dutch are being held in Washington, D.C. on Friday, December 15, 1978, the Dutch made a proposal which will be taken up again this week. The Department of State has requested the immediate view of the Board. Accordingly, the following Members have voted that agency business requires that the Board meet on less than seven days' notice and that no earlier announcement of the meeting was possible:

Chairman Marvin S. Cohen  
Member Richard J. O'Melia  
Member Elizabeth E. Bailey

This meeting will concern the ongoing negotiations with the Dutch and the Board's views of the appropriate United States position. Premature public disclosure of the options, plans and opinions of the Board could seriously compromise the United States ability to successfully resolve this issue in the best interests of the United States. Accordingly, the following Members have voted that public observation of this meeting would involve matters the premature disclosure of which would be likely to significantly frustrate implementation of proposed agency action within the meaning of the exemption provided

under 5 U.S.C. 552b(c)(9)(B) and 14 CFR Section 310b.5(9)(B) and that the meeting will be closed:

Chairman Marvin S. Cohen  
Member Richard J. O'Melia  
Member Elizabeth E. Bailey

#### PERSONS EXPECTED TO ATTEND

##### Board members

Chairman Marvin S. Cohen  
Member Richard J. O'Melia  
Member Elizabeth E. Bailey

##### Assistants to board members

Mr. Sanford Rederer  
Mr. David M. Kirstein  
Mr. Elias Rodriguez  
Mr. Stephen H. Lachter

##### Office of the Managing Director

Mr. John R. Hancock

##### Bureau of International Aviation

Mr. Donald A. Farmer, Jr.  
Mr. Donald L. Litton  
Mr. Anthony M. Largay  
Mr. Evans E. Wiley

##### Bureau of Pricing and Domestic Aviation

Ms. Barbara A. Clark  
Mr. Doug Leister

##### Office of the Secretary

Mrs. Phyllis T. Kaylor  
Ms. Deborah Lee  
Ms. Louise Patrick

#### GENERAL COUNSEL CERTIFICATION

I certify that this meeting may be closed to the public under 5 U.S.C. 552b(c)(9)(B) and 14 CFR Section 310b.5(9)(B) and that the meeting be closed to public observation.

GARY J. EDLER,  
Acting General Counsel.

## Title 29—Labor

## SUBTITLE A—OFFICE OF THE SECRETARY OF LABOR, DEPARTMENT OF LABOR

## PART 93—TRANSITIONAL REGULATIONS FOR PROGRAMS UNDER THE COMPREHENSIVE EMPLOYMENT AND TRAINING ACT (CETA)

## Final Regulations

AGENCY: Department of Labor.

ACTION: Final regulations.

**SUMMARY:** This part promulgates transitional regulations concerning maximum and supplemented wage rates, eligibility, and fraud and abuse provisions applicable to all programs under the Comprehensive Employment and Training Act (CETA), as amended. The purpose of this notice is to advise all interested parties of the changes made in the above areas by the 1978 amendments to the CETA.

EFFECTIVE DATE: January 26, 1979.

FOR FURTHER INFORMATION CONTACT: Q04

Roberts T. Jones, Director, Office of Community Employment Programs, Room 5402, 601 D Street N.W., Washington, D.C. 20213, Telephone: (202) 376-6366.

**SUPPLEMENTARY INFORMATION:** The CETA Amendments of 1978 (Pub. L. 95-524) was signed by the President on October 27, 1978. Under Section 4(d) of Pub. L. 95-524, the Department may waive the requirements as to rule-making in implementing the fraud and abuse provisions and the provisions in Section 4(c)(1) (i.e., supplemented and maximum wage rates and eligibility) which become effective after the end of the 90-day period beginning on October 27, 1978. Accordingly, these provisions are being implemented in final form. Where these new regulations implementing the new CETA amendments conflict with the existing CETA regulations, these new regulations issued under the amended law shall control.

While these regulations are being promulgated in final form, the entire set of CETA regulations is currently being drafted and will appear in the *FEDERAL REGISTER* for public comment. This proposal when drafted will provide for complete recodification in Title 20 of the current regulations in Parts 93-99 of Title 29 of the CFR.

Accordingly, Title 29 of the CFR is amended by adding a new Part 93 to read as follows:

## RULES AND REGULATIONS

Sec.

93.1 Maximum wage rates allowable to be paid with CETA funds: Fringe benefits—Sections 122(i) (1) and (3).

93.2 Supplementation provisions.

93.3 Participant eligibility—Sections 213, 221 (a) and (b), 236, 122(j), and 607.

93.4 Fraud and abuse provisions.

AUTHORITY: Sec. 4(d), Pub. L. 95-524, 92 Stat. 2018 (29 U.S.C. 801 note).

§ 93.1 Maximum wage rates allowable to be paid with CETA funds: Fringe benefits—Sections 122(i) (1) and (3).

(a) The Secretary shall issue and publish annually an area wage adjustment index, which shall include the maximum wage rates for each prime sponsor's area. The wage adjustment index shall be based on the ratio that the annual average wages in regular public and private employment in an area served by a prime sponsor bears to the average of all such areas—

(1) Data on average annual wages shall be derived from information provided by employers to State Employment Security Agencies which are responsible for administering State and Federal unemployment insurance (UI) laws. Each quarter of the year, employers in both the private and public sectors of the economy covered by UI laws are required to submit reports containing data on a complete count of workers during the payroll period including the 12th of each month and the total wages paid to all employees for the calendar quarter. Each covered employer is requested to report employment and wages in the county where workers are employed.

(2) The average annual wage for each county shall be computed as the ratio of total wages paid during the calendar year to average monthly employment for the year in the respective counties. In cases where CETA areas represent county combinations and portions of counties, the average annual wage is computed as a weighted average of the wages in component counties based on relative employment in each. In those instances where more than one CETA area is contained entirely within a county, the average annual wage for each prime sponsor is that for the county as a whole, as the basic payroll data are not produced below the county level.

(b) Wages, including money received for overtime work and time on leave, paid to any public service employment participant from funds under the Act is limited to a full-time rate of \$10,000 per year (or the hourly, weekly, or monthly rate which, if annualized, would equal a full-time rate of \$10,000 per year), except where this maximum is adjusted upward by the Secretary to the amount set forth in the area wage adjustment index described above in paragraph (a). This \$10,000 shall not be adjusted upward by more than 20

percent, except for Alaska. In Alaska, the amount in the area wage adjustment index shall be computed by adjusting the \$10,000 upward by the exact percentage that the area wage index exceeds the national average wage index.

(c) Fringe benefits to any PSE participants may not exceed those regularly afforded to similarly employed non-CETA workers, but shall never exceed those afforded to non-CETA workers earning an amount equal to the maximum wage.

## § 93.2 Supplementation provisions.

(a) *Supplementation Under Title II D—Programs—Section 122(i)(4).* (1) Except as provided in paragraphs (a) (2) and (3) of this section no public service employed participant may be paid wages for any public service employment job from sources other than the Act when such an additional amount would result in a wage in excess of the maximum allowable under § 93.1. This applies even if a participant is entitled to a promotion, a general salary increase or overtime pay. In such cases, such participants must be transferred to other positions or be terminated.

(2) Any person in a public service employment position on September 30, 1978, receiving wages from non-CETA sources may continue to receive such wages, so long as such person remains in the same position. However, where such person was receiving such wages on September 30, 1978, and the amount of the CETA portion of the wages was \$10,000, the non-CETA portion shall not be reduced if the maximum wage has been adjusted upward above \$10,000 after September 30, 1978.

(3) Any person in a public service employment position on September 30, 1978, who was receiving wages on September 30, 1978, less than \$10,000 may have such wages supplemented above \$10,000 from non-CETA sources after September 30, 1978, if such increase is a bona-fide cost of living increase or a scheduled raise, and the person remains in the same position.

(b) *Supplementation Under Title VI Programs—Section 609.* Wages paid to public service employees may be supplemented above the maximum wage for the area by additional wages from non-CETA sources only if:

(1) The total amount of funds used in any fiscal year to provide such supplemental wages does not exceed an amount equal to 10 percent of the prime sponsor's Title VI allocation for such fiscal year; and

(2) Such wage supplementation to any public service employee does not exceed:

(i) Ten percent of the maximum wage applicable for the prime sponsor's area; or

(ii) Twenty percent of the maximum wage applicable for the prime sponsor's area in any area where the average wage (during the calendar year preceding the beginning of the applicable fiscal year) in employment covered under Federal or State unemployment compensation laws (without regard to any limitation on the amount of such wages subject to contribution under such law) exceeds 125 percent, but does not exceed 150 percent, of the national average wage in such employment.

(3) Any person in a public service employment position on September 30, 1978, receiving wages from non-CETA sources may continue to receive such wages, so long as such person remains in the same position. These wages are not subject to the limitations of paragraphs (b)(1) and (2) of this section. However, where such person was receiving such wages on September 30, 1978, and the amount of the CETA portion of the wage was \$10,000, the non-CETA portion shall not be reduced if the maximum wage has been adjusted above \$10,000 after September 30, 1978.

(4) Any person in a public service employment position on September 30, 1978, who was receiving wages on September 30, 1978, less than \$10,000 may have such wages supplemented above the \$10,000 from non-CETA sources after September 30, 1978, if such increase is the result of a bona-fide cost of living increase or a scheduled raise, and the person remains in the same position. These wages are not subject to the limitations of paragraphs (b)(1) and (2) of this section.

(5) When a public service employment participant, hired after September 30, 1978, is eligible for a promotion, a general salary increase or overtime pay, the employer shall pay from non-CETA funding sources that amount in excess of the maximum amount payable from CETA funds as well as a pro-rata share of the increased fringe benefits, unless such payment would be in violation of the limitations on public service wage supplementation contained in paragraph (b)(1) of this section. If such payment would be in violation, then the participants affected must be transferred to other positions or be terminated.

## § 93.3 Participant Eligibility—Sections 213, 221(a) and (b), 236, 122(j), and 607.

(a) *Title II B Programs.* A person shall be eligible to participate in a program funded under Title II B only if such person is: (1) Economically disadvantaged; and (2) either unemployed, underemployed, or in school.

(b) *Title II D PSE Programs.* An eligible individual must be a person:

(1) Who is economically disadvantaged; who is unemployed at the time of application, and who except for AFDC recipients, has been unemployed during 15 of the 20 weeks immediately prior to application; and

(2) Who resides within the prime sponsor's jurisdiction.

(i) Except as authorized under paragraph (b)(2)(ii) of this section, a program agent or a unit of general local government of 100,000 or more which is not a prime sponsor may not hire persons outside of its jurisdiction nor may their prime sponsors hire persons from their jurisdictions. This does not require the layoff of participants eligible under the residency requirements that were applicable at the time of their selection.

(ii) A prime sponsor or program agent may receive additional funds as a subgrantee of another prime sponsor or program agent to enroll residents of the other prime sponsor or program agent's jurisdiction.

(3) No individual shall be eligible to be employed in a public service employment position if such individual has, within six months prior to the termination, voluntarily terminated, without good cause, his or her last previous full-time employment at a wage rate not less than the Federal minimum wage as prescribed under Section 6(a)(1) of the Fair Labor Standards Act.

(4) Notwithstanding any eligibility limitation on public service employment, a person who on September 30, 1978, held a public service employment position under the Act may continue in such position subject to the length of participation limitations in Section 122(h) of the Act.

(C) *Title VI PSE Programs.*

An eligible individual must be a person:

(1)(i) Who, except for AFDC recipients, has been unemployed for at least 10 out of the 12 weeks immediately prior to application for participation, and

(ii) Who is unemployed at the time of application; and

(iii) Whose family income does not exceed 100 percent of the lower living standard income level, annualized based on the three-month period prior to the individual's application for participation, and

(iv) Who resides within the prime sponsor's jurisdiction.

(A) Except as authorized under paragraph (B) below, a program agent or a unit of general local government of 100,000 or more which is not a prime sponsor may not hire persons outside of its jurisdiction nor may their prime sponsors hire persons from their jurisdictions. This does not require the

layoff of participants eligible under the residency requirements that were applicable at the time of their selection.

(B) A prime sponsor or program agent may receive additional funds as a subgrantee of another prime sponsor or program agent to enroll residents of the other prime sponsor or program agent's jurisdiction.

(2) No individual shall be eligible to be employed in a public service employment position if such individual has, within 6 months prior to the termination, voluntarily terminated, without good cause, his or her last previous full-time employment at a wage rate not less than the Federal minimum wage as prescribed under Section 6(a)(1) of the Fair Labor Standards Act.

(3) Notwithstanding any eligibility limitation on public service employment, a person who on September 30, 1978, held a public service employment position under the Act may continue in such position subject to the length of participation limitations in Section 122(h) of the Act.

(4) In filling teaching positions in elementary and secondary schools, each prime sponsor shall give special consideration to persons with previous teaching experience who are certified in the prime sponsor's State.

(d) *Indian and Native American, and Migrant and Seasonal Farmworkers PSE Programs.* (1) The current regulations apply for PSE funded under Sections 302 and 303; and

(2) These requirements apply for PSE funded under Titles II D and VI.

(e) *Definitions for Participant Eligibility Determinations.*

The following are the definitions necessary for the determination of participant eligibility:

(1) *Economically Disadvantaged—* means a person who is either:

(i) A member of a family which receives public assistance;

(ii) A member of a family whose income during the previous 6 months, on an annualized basis, was such that—

(A) The family would have qualified for public assistance, if it had applied for such assistance, or

(B) It does not exceed the poverty level, or

(C) It does not exceed 70 percent of the lower living standard income level;

(iii) A foster child on whose behalf State or local government payments are made;

(iv) A client of a sheltered workshop;

(v) A handicapped individual who is living at home and who is unemployed;

(vi) Institutionalized in a prison, hospital, or similar institution; or

(vii) A regular outpatient of a mental hospital, rehabilitation facility, or similar institution.

(2) *Family*—means, except as provided in paragraph (e)(2)(ii) or (iii),

(i) One or more persons living in a single residence who are related to each other by blood, marriage, or adoption. A step-child or a step-parent shall be considered to be related by marriage.

(ii) Except for any person who would be eligible for assistance under Title V of the Older Americans Act of 1965 or a handicapped individual who is 16 years of age or older, anyone claimed as a dependent on another person's Federal Income Tax return for the previous year shall be presumed to be a part of that person's family for the current year.

(iii) An individual 18 or older, who receives less than 50 percent of his/her maintenance from the family, and who is not the head nor the spouse of the head of the household, shall not be considered a member of the family. Such an individual shall be considered a family of one.

(3) *Family Income*—means all income received from all sources by all members of the family.

(i) Family income shall include:

(A) Gross wages and salary (before deductions), except wages paid for work experience under the Act, but including wages and salary received by individuals in public service employment or on-the-job training;

(B) Net self employment income (gross receipts minus operating expenses);

(C) Other money income received from sources such as net rents, OASI social security benefits, pensions, alimony, child support, and periodic income from insurance policy annuities, and other sources of income.

(ii) Family income shall exclude:

(A) Non-cash income such as food stamps, or compensation received in the form of food or housing;

(B) Imputed value of owner-occupied property i.e., rental value;

(C) Public assistance payments;

(D) Cash payments received pursuant to a State plan approved under Titles I, IV, X, or XVI of the Social Security Act, or Disability Insurance payments received under Title II of the Social Security Act;

(E) Federal, State or local unemployment benefits;

(F) Payments made to participants in employment and training programs, except wages paid for PSE and OJT;

(G) Capital gains and losses;

(H) One time, unearned income, such as but not limited to:

(i) Payments received for a limited, fixed term under income maintenance programs and supplemental (private) unemployment benefit plans;

(2) (One-time) or fixed-term scholarship and fellowship grants;

(3) Accident, health, and casualty insurance proceeds;

(4) Disability and death payments, including fixed term (but not lifetime) life insurance annuities and death benefits;

(5) One-time awards and gifts;

(6) Inheritances, including fixed term annuities;

(7) Fixed term workers' compensation awards;

(8) Terminal leave pay;

(9) Soil bank payments;

(10) Agriculture crop stabilization payments;

(i) Allowances or pay received by any person while serving on active duty in the Armed Forces; and

(j) Educational assistance and compensation payments to veterans and other eligible persons under Chapters 11, 13, 31, 34, 35, and 36 of Title 38, United States Code.

(K) Payments received under the Trade Readjustment Act and the Redwood Forest Act.

(4) *Lower Living Standard Income Level*—means that income level (adjusted for selected Standard Metropolitan Statistical Areas and regional metropolitan and nonmetropolitan differences and family use) determined annually by the Secretary based upon the most recent lower living family budget level issued by the Bureau of Labor Statistics.

(5) *Low income level*—means \$7,000 with respect to income in 1969, and for any later year means that amount which bears the same relationship of \$7,000 as the Consumer Price Index for that year bears to the Consumer Price Index for 1969, rounded to the nearest \$1,000.

(6) *Public assistance*—means Federal, State, or local government cash payments for which eligibility is determined by a need or income test.

(7) *Underemployed persons*—means (i) Persons who are working part time but seeking full time work; and (ii) Persons who are working full time but receiving wages, not in excess of, the higher of either:

(A) The poverty level; or

(B) Seventy percent of the lower living standard income level.

(8) *Unemployed persons*—means for purposes of determining eligibility

(i) A person who is without a job for at least seven consecutive days prior to application for participation. A person shall be considered as being without a job if, for any calendar week, such person;

(A) Worked no more than 10 hours, and

(B) Earned no more than \$30, and

(C) Was seeking and available for work; or

(ii) A person who is

(A) A client of a sheltered workshop;

(B) A prisoner eligible for, or in, a work release program, or

(C) Institutionalized in a hospital or similar institution; or

(iii) A person who is 18 years of age or older whose family receives public assistance, or whose family would be eligible to receive public assistance if both parents were not present in the home; or

(iv) A person who is a veteran who has not obtained permanent unsubsidized employment since being released from active duty.

#### § 93.4 Fraud and abuse provisions.

Section 4(b) of the CETA Amendments of 1978 provides for the implementation of provisions relating to the prohibition of fraud and other abuses. Currently, the October 18, 1977, regulations and the appropriate OMB circulars referenced in those regulations contain the majority of the fraud and abuse provisions found in the new CETA Amendments. Since the October 18, 1977, regulations remain in effect, regional offices should instruct prime sponsors of the necessity for their continued compliance with the current requirements.

In addition, the following provisions implement sections in the CETA Amendments of 1978 that prescribe either more specific requirements than in the previous legislation or new fraud and abuse provisions:

(a) *Maintenance of Effort—121(e).*

(1) Although the following provisions are substantially the same as those which currently appear in the October 18, 1977, regulations it should be noted that under this new legislation they now apply to all programs under CETA, not just PSE programs.

(2) To ensure maintenance of effort under all programs under the Act—

(i) The recipient shall ensure that such programs—

(A) Result in an increase in employment and training opportunities over those which would otherwise be available;

(B) Not result in the displacement of currently employed workers, including partial displacement, such as reduction in hours of nonovertime work, wages, or employment benefits; and

(C) Not impair existing contracts for services or result in the substitution of Federal funds for other funds in connection with work that would otherwise be performed.

(ii) No participant shall be used to provide services normally provided by temporary, part-time or seasonal workers or through contracting such services out, or to fill full-time vacancies, unless documentation is maintained that clearly demonstrates that such action does not constitute the use of funds under the Act for purposes

that otherwise would be supported by other funds.

(iii) Funds under the Act shall supplement, and not supplant, the level of funds that would otherwise be made available from non-Federal sources for the planning and administration of programs.

(b) *Unionization and Anti-unionization Activities—Sections 121(n) and 123(g).* (1) No funds under the Act shall be used in any way to either promote or oppose unionization.

(2) No individual shall be required to join a union as a condition for enrollment in a program in which only institutional training is provided, unless such institutional training involves individuals employed under a collective bargaining agreement which contains union security provisions.

(c) *Independent Monitoring Unit—Section 121(g).* (1) Prime sponsors shall establish a monitoring unit which shall be independent of, and not accountable to, those units in a prime sponsor's organization being monitored. Such a unit shall be functionally discrete from program operations and shall be responsible for monitoring program compliance. Prime sponsors shall immediately initiate organizational adjustments necessary to provide for this unit to be in place and fully functioning by April 1, 1979.

(2) The prime sponsor shall ensure that this monitoring unit is adequately staffed and trained.

(3) The prime sponsor shall further require each subgrantee, which has the administrative capability as determined by the prime sponsor, to establish and maintain an independent monitoring unit which shall monitor the subgrantee's program through review of program data, observation of program operations and examination of program records to ensure compliance with

(i) The Act and the regulations;

(ii) The provisions of its subgrant;

(iii) The provision of subgrants awarded by it.

(d) *Charging of Fees—Section 123(g).*

(1) No funds shall be used to pay a fee for the placement of any person in a program under this Act.

(2) No person or organization, including private placement agencies, may charge a fee for the placement or referral of any person in or to such program.

(3) Any contract for payment of such fees shall be void in law and no participant shall be liable for such fees.

(4) Nothing in this section shall prohibit the recipient from entering into a subgrant or contract for the purpose of obtaining outreach, recruitment and/or intake services as part of its approved intake system.

(e) *Conflicts of Interest—Section 123(g).* (1) No member of any advisory council under the Act shall cast a vote on any matter which has a direct bearing on services to be provided by that member (or any organization which such member directly represents) or on any matter which would financially benefit such member or any organization such member represents.

(2) Each recipient and its employees shall avoid financial conflict of interest in the conduct of procurement activities, including the procurement activities of its subgrantees and contractors by complying with the recipient code of conduct requirements set forth in Office of Management and Budget (OMB) Circulars A-102, Attachment 0 and A-110, Attachment 0.

No nongovernmental individual, institution or organization shall be paid funds provided under the Act to conduct an evaluation of any program under the Act if such individual, institution or organization is associated with that program as a consultant or technical advisor.

(f) *Kickbacks—Section 123(g).* No officer, employee or agent of any recipient shall solicit or accept gratuities, favors or anything of monetary value from any person in return for preferential treatment.

(g) *Commingleing of funds—Section 123(g).* Recipients shall comply with the applicable requirements of OMB Circular A-102, Attachment A and A-110, Attachment A, regarding separate bank accounts.

(h) *Political Patronage—Section 123(g).* (1) No recipient may select, reject, or promote a participant based on that individual's political affiliation

or beliefs. The selection or advancement of employees as a reward for political services, or as a form of political patronage, whether partisan or not, is prohibited.

(2) There shall be no referrals for CETA jobs or training, nor selection of subgrantees or contractors based on political affiliation.

(i) *Political Activities—Section 123(g).* No program may involve partisan or nonpartisan political activities.

(1) No participant may engage in partisan or nonpartisan political activities during working hours.

(2) No participant may at any time engage in partisan or nonpartisan political activities in which such participant represents himself/herself as a spokesperson for the CETA program.

(3) No participant may be employed or outstationed in the office of a member of Congress or a State or local legislator. No person shall be employed in a legislative capacity on any legislative committee or staff.

(4) No participant may be employed or outstationed in positions involving political activities in the offices of other elected or appointed officials, such as Mayors, County Executives, or Governors, or as staff of Executive Committees. Placement of participants in such nonpolitical positions is permissible.

(j) *Lobbying Activities—Section 123(g).* No funds may be used—

(1) To attempt to influence in any manner a member of Congress to favor or oppose any legislation or appropriation by Congress (18 U.S.C. 1913); or

(2) For lobbying State or local legislators.

(k) *Religious and Anti-religious Activities—Section 123(g).* (1) No funds may be used in support of any religious activity. Funds may not be used to support anti-religious activities.

(2) No participant may be employed in the construction, operation, or maintenance of any part of any facility that is used or will be used for sectarian instruction or as a place of religious worship.

Signed this 19th day of December 1978 at Washington, D.C.

F. RAY MARSHALL,  
Secretary of Labor.

DEPARTMENT OF LABOR

Employment and Training Administration

COMPREHENSIVE EMPLOYMENT AND  
TRAINING ACT (CETA) PRIME SPONSORS

Promulgation of the Annual Area Wage  
Adjustment Index

AGENCY: Employment and Training  
Administration, Labor.

ACTION: Notice.

SUMMARY: This notice promulgates  
the annual area wage adjustment  
index for Fiscal Year 1979 as required  
under Section 122(i)(3) of the Compre-  
hensive Employment and Training Act  
Amendments of 1978.

EFFECTIVE DATE: January 26, 1979.

CONTACT:

Roberts T. Jones, Director, Office of  
Community Employment Programs,  
Room 5402, 601 D Street, N.W.,  
Washington, D.C. 20213, Telephone:  
(202) 376-6366.

U.S. DEPARTMENT OF LABOR,  
EMPLOYMENT AND TRAINING  
ADMINISTRATION,  
Washington, D.C. 20213.

Directive: Field Memorandum No. 75-79.  
To: All Regional Administrators.

From: Barbara Farmer for Don A. Balcer,  
Acting Administrator, Field Operations.  
Subject: Maximum CETA PSE Wages and  
Annual Average Wages for Prime Spon-  
sors.

1. Purpose. To transmit the annual area  
wage adjustment index for FY '79.

2. Background. Section 122(i) of the  
CETA Amendments of 1978 provides that  
CETA funds shall not be used to pay wages  
to any individual employed in a public serv-  
ice job at a rate in excess of \$10,000 per  
year, but such maximum shall be adjusted  
upward for particular areas served by prime  
sponsors as determined by the Secretary on  
the basis of a wage adjustment index. This  
maximum annual wage provision becomes  
effective on January 26, 1979. Section 122(i)  
also provides that the annual federally sup-  
ported wage rate for public service employ-  
ment participants shall not exceed \$7,200,  
adjusted on an area basis in accordance with  
the area wage adjustment index. The  
annual average wage provision is effective  
on April 1, 1979.

3. Methodology used to compute the  
annual area wage adjustment index.

a. Data on average annual wages are de-  
rived from information provided by employ-  
ers to State Employment Security Agencies  
which are responsible for administering  
State and Federal unemployment insurance  
(UI) laws. Each quarter of the year, employ-  
ers in both the private and public sectors of  
the economy covered by UI laws are re-  
quired to submit reports containing data on  
a complete count of workers during the pay-  
roll period including the 12th of each  
month and the total wages paid to all em-  
ployees for the calendar quarter. Each cov-  
ered employer is requested to report em-  
ployment and wages in the county where  
workers are employed.

b. The average annual wage for each  
county is computed as the ratio of total  
wages paid during the calendar year to aver-  
age monthly employment for the year in  
the respective counties. In cases where  
CETA areas represent county combinations  
and portions of counties, the average annual  
wage is computed as a weighted average of  
the wages in component counties based on  
relative employment in each. In those in-  
stances where more than one CETA area is  
contained entirely within a county, the  
average annual wage for each prime sponsor  
is that for the county as a whole, as the  
basic payroll data are not produced below  
the county level.

4. Application of the area wage adjust-  
ment index. a. Specific instructions for ap-  
plication of maximum wage provisions  
which are effective on January 26, 1979,  
shall be included in the transition provi-  
sions which will be transmitted by FM and  
also published in the FEDERAL REGISTER.

b. Instructions regarding the application  
of the annual average wage provisions  
which are effective on April 1, 1979, will be  
included in the proposed and final CETA  
Regulations to be published in the FEDERAL  
REGISTER.

5. Action required. Regional offices are to  
immediately transmit the attached index to  
prime sponsors for use in the planning of  
programs under title IID and title VI and in  
the preparation of modifications due in the  
regional offices on December 31, 1978.

6. Inquiries. Any questions regarding this  
issuance may be directed to Hugh Davies or  
Joan Shelly on 8-376-7006.

7. Attachment. (RAs only) 1977 Average  
Annual Wages and Index for Prime Spon-  
sors.

## PART III

**DEPARTMENT OF  
HOUSING AND  
URBAN  
DEVELOPMENT**

**Office of the Assistant  
Secretary for Community  
Planning and  
Development**

**URBAN HOMESTEADING  
PROGRAM**

[4210-01-M]

# Title 24—Housing and Urban Development

## CHAPTER V—OFFICE OF THE ASSISTANT SECRETARY FOR COMMUNITY PLANNING AND DEVELOPMENT

(Docket No. R-78-538)

### PART 590—URBAN HOMESTEADING PROGRAM

#### Final Rule

AGENCY: Office of the Assistant Secretary for Community Planning and Development and Office of the Assistant Secretary for Housing—Federal Housing Commissioner, (HUD).

ACTION: Final rule.

SUMMARY: This rule sets forth Urban Homestead program requirements for HUD, local grants, and local government agencies with regard to applications, transfers of Secretary-owned properties, property disposition assistance, HUD program evaluation, performance review and other applicable laws and regulations.

EFFECTIVE DATE: January 29, 1979.  
FOR FURTHER INFORMATION CONTACT:

Hugh Allen, Community Planning and Development, Department of Housing and Urban Development, 451 7th Street, S.W., Washington, D.C. 20410, Tel. (202) 755-6330.

SUPPLEMENTARY INFORMATION: On May 31, 1978, (43 FR 23692) proposed regulations were published in the FEDERAL REGISTER for public comment. Interested parties were given until July 1, 1978, to submit written comments. All comments received with respect to the proposed rules were given consideration. As a result, of comments, the following clarifications were made:

#### LOCAL URBAN HOMESTEADING AGENCY

There were a number of comments stating that the definition of "Local Urban Homesteading Agency" in paragraph 590.5(e) should be expanded to include private non-profit organizations as eligible administering agencies if designated by a unit of general local government or State.

Section 810 of the Housing and Community Development Act of 1974, as amended, clearly states that only a State, a unit of general local government or the designated public agency of a State or unit of general local government may receive title, to HUD's unoccupied single-family houses and carry out a HUD approved urban homesteading program. A local urban

homesteading agency, however, may enter into agreements with private non-profit organizations, neighborhood-based nonprofit organizations, small business investment companies and/or local development corporations to provide program related services (e.g., counseling services to homesteaders, neighborhood improvements, financial assistance, repair work). A new paragraph is added at 590.3(h) which defines "private non-profit entity, neighborhood-based nonprofit organization, Small Business Investment Company and local development corporation."

#### URBAN HOMESTEADING NEIGHBORHOOD

A number of comments stated that paragraph 590.7(a) was unclear as to whether a CDBG entitlement recipient could designate an urban homesteading neighborhood outside of a Neighborhood Strategy Area (NSA).

The Department encourages communities to make urban homesteading an integral part of local Community Development Programs. Use of Neighborhood Strategy Areas (NSA's) as defined by CDBG regulations published March 1, 1978,

Paragraph 570.301(c), to qualify areas as Homesteading areas is intended to facilitate that result. Selection of Homesteading areas is not limited to pre-existing NSA's. The Department encourages selecting an area appropriate to homesteading and then simultaneously applying to designate the area as an NSA if it needs the kind of treatment appropriate to an NSA. HUD does permit, however, the designation of areas which are not NSA's in Paragraph 590.7 (a)(2)(i)-(iii) if:

- (1) the applicant is not a recipient of Community Development Block Grant (CDBG) entitlement funds; or
- (2) the required public improvements and services will be provided from sources other than CDBG funds; or
- (3) the neighborhood selected does not require the concentrated treatment appropriate to an NSA.

Localities in their selection of urban homesteading neighborhoods should, however, take into consideration the availability and suitability of housing stock.

#### LOCALLY OWNED PROPERTIES

The policy of the Department is to encourage the use of locally-owned property in HUD approved urban homesteading programs. We have added language in paragraph 590.7(a) regarding the designation of urban homesteading neighborhoods to emphasize this policy. Urban Homesteading neighborhoods must have Secretary-owned property or Secretary-owned property and locally-owned property. A locality's program may be

approved with only locally-owned property if the designated urban homesteading neighborhood is an area where eligible community development block grant activities are being carried out.

#### SCATTERED SITE HOMESTEADING

A number of comments recommended that the regulations should permit scattered-site or city-wide homesteading. Section 810 of the Housing and Community Development Act of 1974, states that an urban homesteading program approved by HUD must provide for a coordinated approach toward neighborhood improvement. Paragraph 590.7(b)(6) of the regulations reflects this legislative requirement for a neighborhood focus and consequent prohibits scattered site homesteading.

#### PRIORITY FOR CERTAIN INCOME GROUPS

There were several comments that suggested that the Urban Homesteading Program should give priority to low- or moderate-income individuals or families. The Section 810 legislation and the program regulations require that the applicant have an equitable procedure for selecting homesteaders and set two basic criteria to consider in the selection of homesteaders:

- (1) the recipient's need for housing, and;
- (2) the recipient's capacity to make or cause to be made the repairs and improvements required.

We interpret the legislation to direct a balanced consideration of both need and financial capacity to improve homestead property. HUD has, therefore, chosen not to provide guidelines on determining "need" and not to set an income maximum. Determination of need and the setting of income limits are matters that will be left to the localities since they are the most familiar with their housing markets and the needs in their neighborhoods. HUD does require in Section 590.11(b)(3)(ii) that an applicant certify that it has equitable procedures for the selection of homesteaders.

Early results from the evaluation of the Urban Homesteading Demonstration Program indicate that low- to moderate-income families are being served. The average income for homesteading families in the Demonstration is just over \$12,500.

#### TRANSFER WITHOUT SUBSTANTIAL CONSIDERATION

There were some comments which stated that the regulations should not prohibit a substantial payment for non-Secretary-owned properties transferred to homesteaders. It was pointed out that local statutes or regulations may require payment of nominal fees

or a negotiated price for locally-owned properties under a local program.

Upon consideration of these comments, the regulations have been revised and the transfer of properties without substantial consideration now applies only to those properties that are Secretary-owned and conveyed to localities under the provisions of Section 810. We expect, however, that whenever possible, localities will apply similar procedures to homesteading locally acquired properties and properties acquired from HUD.

#### FEE SIMPLE TITLE

Concern was expressed by some comments that conveyance of fee simple title to homestead property after the three-year occupancy period could allow the homesteaders to sell the property and make a windfall profit. The Section 810 legislation clearly states that once the homesteader has complied with the terms of the homesteading agreement, he is to receive fee simple title to the property. Paragraph 590.7(b)(5) of the regulation contains this requirement. The homesteader takes a risk when he agrees to live in and repair a vacant unrepaid property and some possibility of capital gain is a reasonable incentive to attract people to the program.

#### REVOCATION PROCEDURES

Some comments were received which indicated that the regulations should be more detailed in the requirement of revocation in paragraph 590.7(b)(4). The proposed regulations provide for revocation of the conditional conveyance upon "any material breach" of the homesteader agreement. This requirement is directly from the Section 810 legislation. States and units, of general local government can, however, be more specific in defining procedures for revocation so long as such procedures are consistent with the statute and regulations.

Some comments recommended that the regulations provide that hearings be held to settle disputes between the local urban homesteading agency and homesteaders or potential homesteaders. The applicant can include procedures for holding hearings as a matter of local discretion.

Some comments suggested that the regulations provide for compensation to a homesteader who due to circumstances beyond his control must give up his homesteading property before the 3-year occupancy period for repairs that he has made. The State or unit of general local government may in its discretion provide compensation for homesteading under such circumstances.

#### INSPECTIONS OF HOMESTEAD PROPERTIES

A comment was received which requested that Section 590.7(b)(3)(iv), local urban homesteading agency, that this section should be revised to permit "designated agents" of the local urban homesteading agency as well as employees of the agency to conduct inspections.

Section 590.7(b)(3)(iv) has been revised to reflect this change.

#### OCCUPANCY PERIOD

There was some question about the period of occupancy required of the homesteader as stated in the proposed regulations.

We have revised the language in Section 590.7(b)(3)(iii) so that the occupancy requirement is clear and that the three-year period begins with the first day of occupancy.

#### CONVEYANCE OF UNREPAIRED PROPERTY

There were some comments expressing concern that only "unrepaired" properties could be eligible for homesteading.

The Section 810 legislation clearly intends that properties eligible for urban homesteading be in need of repairs. HUD, however, could transfer under Section 810 partially repaired properties or properties that have been repaired and later vandalized and require further repairs. On the other hand, properties for which repair contracts are outstanding may not be transferred.

#### REHABILITATION REQUIREMENTS

Some comments requested specific criteria regarding repair standards for homestead properties.

The Section 810 legislation states that the homesteader must agree to:

- (1) make repairs required to meet minimum health and safety standards for occupancy prior to occupying the property and then;
- (2) makes such repairs and improvements to the property as may be necessary to meet applicable local standards for decent, safe, and sanitary housing within eighteen months after occupying the property.

Localities have different local code standards. However, it is expected that urban homesteading programs will be in compliance with all local and State laws. It would not be reasonable or possible for HUD to define in the regulations specific requirements for occupancy and for local code standards.

Another comment received stated that the 18-month period for completing repair work is too short and that the regulations leave no leeway for an extension of the 18-month period due to circumstances beyond the control of the homesteader.

The statute is clear and requires that all repairs bringing the property up to local code standards of decent, safe and sanitary housing be completed within 18 months after initially occupying the property.

#### COUNSELING

Some comments stated that a counseling program should be required for all participants in the urban homesteading program.

States or units of general local government are encouraged to have counseling programs, but HUD will not require such programs by regulation.

#### LISTING OF SECRETARY-OWNED PROPERTIES

Some comments received expressed concern that the list of HUD properties that the HUD Area Office is to provide might be out of date. We have included the word "current" before list in Section 590.9(b).

Another comment expressed concern that there was nothing in the regulations for the provision of an accurate and up-to-date property listing on a periodic basis for an urban homesteading program. In Section 590.17(a)(2) (i) and (ii), the regulations provide for the HUD Area Office to notify the local urban homesteading agency of new single-family acquisitions by HUD in the urban homesteading neighborhood.

#### APPLICATION REQUIREMENTS

Some comments suggested that the regulations should permit the application to be submitted as a part of their CDBG application.

HUD has chosen to have a separate application for homesteading that can be submitted at any time. Part of the requirements for submitting a homesteading application, however, can be satisfied by cross referencing the CDBG application as stated in Paragraph 590.11(a)(2).

#### STATE AND AREAWIDE CLEARINGHOUSE REVIEW (A-95)

Several comments stated that the proposed 60-day advance for the A-95 review would cause an unnecessary and excessive delay in the application review. Paragraphs 590.11(c)(1)-(2) have been revised to permit communities to submit completed applications to appropriate State and areawide clearinghouses prior to or concurrently with the submission of the application to HUD. A new paragraph 590.11(c)(2) states that clearinghouses will have thirty (30) days to review the completed application and transmit to the applicant and to the appropriate HUD Area Office any comments or recommendations. An additional paragraph 590.11(c)(5) prohibits HUD

from approving an application until all comments have been received and considered from the clearinghouses or until the end of the 30-day review period, whichever comes first.

#### TRANSFER OF SECRETARY-OWNED PROPERTIES IDENTIFIED IN APPLICATION

Some comments expressed objection to 590.13 which states that application approval does not obligate HUD to transfer a specific number or particular properties identified in the application. This language is being retained because the Secretary-owned properties that are available at the time an application is prepared and submitted to HUD may be disposed of before the application is approved. Furthermore, any Secretary-owned properties identified in an application must be determined suitable for transfer in accordance with Section 590.17(b) after the proposed local urban homesteading program is approved by HUD.

#### TIME LIMIT ON NOTIFYING HUD ABOUT USE OF AVAILABLE PROPERTY

Several comments requested more time in which to inform HUD about the use of property because of requirements of local laws. Paragraph 590.17(a)(2)(ii) is revised to permit the HUD Area Office Manager to extend the 30-day limitation for notifying HUD about the use of potentially available property if this time limitation is unworkable for a community's selection process. The Area Office Manager may also extend the 30-day limit in 590.17(c)(1) for transferring property title to a homesteading agency if the Area Manager determines that the requirement is impractical for the local urban homesteading agency.

#### FAIR MARKET VALUE LIMIT

Several comments indicated that the "as is condition" fair market value limit of \$15,000 set forth in Paragraph 590.17(b)(5)(i) for eligible Secretary-owned property suitable for transfer is too low in some market areas. This paragraph has been retained because an Area Office Manager is given the authority in paragraph 590.17(b)(5)(iii)(A) to waive this limitation if the benefits to the community will be sufficient to justify the waiver.

#### PROPERTY TRANSFER TO NEIGHBORHOOD NONPROFIT ORGANIZATIONS

Numerous comments expressed objections to the proposed language in paragraph 590.17(c)(3) that would permit an Area Office to transfer a Secretary-owned property that is eligible for use in a local homesteading program to a non-profit organization without receiving concurrence from the local government or urban home-

steading agency. This paragraph is revised to require that a HUD Area Office obtain local concurrence before such a property is made available for acquisition by non-profit organizations.

#### IMPLEMENTING FUNDS

There were comments that asked for clarification of Section 590.19 regarding the reservation of Section 810 funds for acquiring Secretary-owned property and Section 312 rehabilitation loan funds. HUD will administratively earmark Section 810 and Section 312 funds to implement approved local urban homesteading programs.

#### RELOCATION ASSISTANCE

Some comments expressed confusion regarding the application of relocation assistance to the Urban Homesteading Program in paragraph 590.29(e). If a local urban homesteading agency acquires occupied real property for use in an approved urban homesteading program, the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 applies. When a local homesteading agency obtains title as a result of a default foreclosure or breach of the Urban Homesteading Agreement stated in paragraph 590.7(b)(3), the transfer of title back to the agency is not considered to be an "acquisition" as defined by the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970. The occupant is, therefore, not eligible for relocation assistance.

#### OTHER INFORMATION

A Finding of Inapplicability with respect to Environmental Impact has been prepared in accordance with HUD Handbook 1390.1.

Copies of the Finding are available for inspection and copying during business hours in the Office of the Rules Docket Clerk, Room 5216, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Accordingly, an amendment to 24 CFR is promulgated by adding a new Part 590. The Table of Contents to Part 590 is renumbered to read as follows:

#### PART 590—URBAN HOMESTEADING

- Sec. 590.1 Scope of regulation.
- 590.3 Purpose of program.
- 590.5 Definitions.
- 590.7 Program requirements.
- 590.9 Listing of Secretary-Owned Properties.
- 590.11 Applications.
- 590.13 HUD Review and Approval of Application.
- 590.15 Urban Homesteading Agreement.
- 590.17 Transfer of Secretary-Owned Properties.
- 590.19 Implementing Funds.

- Sec. 590.21 Reduction of Funds.
- 590.23 Program Close Out. (Reserved)
- 590.25 Retention of Records.
- 590.27 Audit.
- 590.29 Applicable Federal Laws and Regulations.
- 590.31 HUD Review of Local Urban Homesteading Agency's Performance.
- 590.33 Corrective and Remedial Action.
- 590.35 Evaluation by HUD.

AUTHORITY: Sec. 810, Pub. L. 93-383 as amended, 88 Stat. 734 (12 U.S.C. 1706e).

#### § 590.1 Scope of regulation.

(a) The policies and procedures in this regulation are applicable to the approval of urban homesteading programs authorized by Section 810 of the Housing and Community Development Act of 1974, as amended.

(b) This part includes the functions and responsibilities of HUD and units of general local government and States or a designated public agency of a State or unit of general local government with regard to program requirements; application requirements; submission of applications; review and approval of applications; transfer of Secretary-owned properties; property disposition assistance; HUD program evaluation; performance review, and other applicable Federal laws and regulations.

#### § 590.3 Purpose of program.

The purpose of the urban homesteading program is to utilize existing housing stock to provide homeownership, thereby encouraging public and private investment in selected neighborhoods and assisting in their preservation and revitalization. The program will provide for the transfer without payment to States or units of general local government or their designated public agencies Secretary-owned, unoccupied one- to four-family residences requested by such unit, State or agency for use in an approved urban homesteading program. Reservations under the Section 312 Rehabilitation Loan Program are available to finance rehabilitation of single family or multifamily homestead properties, as well as other properties, within the urban homesteading neighborhoods.

#### § 590.5 Definitions.

- (a) "Act" means Title VIII, Section 810 of the Housing and Community Development Act of 1974, as amended.
- (b) "Applicant" means any State or unit of general local government that applies to carry out an urban homesteading program under these regulations.
- (c) "Homesteader" means an individual or family who participates in a local urban homesteading program by accepting a property pursuant to the requirements of § 590.7. For locally owned property, it may also mean co-

operatives and condominium associations.

(d) "Locally-owned property" means any real property which is improved with a one- to four-family residence or a multifamily residence not obtained from the Department of Housing and Urban Development and to which the local urban homesteading agency holds title.

(e) "Local Urban Homesteading Agency" means a State, a unit of general local government, or a public agency designated by a unit of general local government or a State, which must have the authority to accept the transfer, without payment, of Secretary-owned property.

(f) "Local Urban Homesteading Program" means the operating procedures, and requirements developed by a local urban homesteading agency in accordance with the provisions of § 590.7.

(g) "Neighborhood Strategy Area (NSA)" means an area selected by a recipient of Community Development Block Grant (CDBG) entitlement funds and designated in its Community Development and Housing Plan for a program of concentrated community development activities which is defined by the Community Development Block Grant Regulations, Title 24, Chapter V, Part 570, Subpart D, Section 570.301(c).

(h) Private non-profit entity, neighborhood-based nonprofit organization, Small Business Investment Company and local development corporation mean:

(i) A private nonprofit entity which is any organization, corporation, or association, duly organized to promote and undertake community development activities on a not-for-profit basis;

(ii) A neighborhood-based nonprofit organization which is an association or corporation, duly organized to promote and undertake community development activities on a not-for-profit basis within a neighborhood as defined pursuant to this Part. An organization is considered to be neighborhood-based if the majority of either its membership, clientele, or governing body are residents of the neighborhood where activities assisted under this Part are to be carried out;

(iii) A Small Business Investment Company (SBIC) which is an entity organized pursuant to section 301(d) of the Small Business Investment Act of 1958 (15 U.S.C. 681(d)), including those which are profit making; and

(iv) A local development corporation which is an entity organized pursuant to Title VII of the Headstart, Economic Opportunity, and Community Partnership Act of 1974 (42 U.S.C. 2981); an entity eligible for assistance under section 502 of the Small Business In-

vestment Act of 1958 (15 U.S.C. 696), a State development entity eligible for assistance under section 501 of the Small Business Investment Act of 1958 (15 U.S.C. 695), or other similar entity incorporated pursuant to Federal State, or local law.

(i) "Secretary" means the Secretary of Housing and Urban Development or any person to whom the Secretary has delegated authority for the urban homesteading program.

(j) "Secretary-owned property" means any real property:

(1) Which is improved with a one- to four-family residence;

(2) To which the Secretary holds Title;

(3) Which is not occupied.

(k) "Section 312 Rehabilitation Loan Funds" means loan funds authorized by Section 312 of the Housing Act of 1964, as amended to finance the rehabilitation of urban homesteaded property, as well as other property within the designated urban homesteading neighborhood.

(l) "Section 810 Funds" means the funds authorized under Title VIII, Section 810 of the Housing and Community Development Act of 1974, as amended to reimburse the Department of Housing and Urban Development's housing loan and mortgage insurance funds for the fair market value of Secretary-owned properties transferred to local urban homesteading agencies.

(m) "State" means any State of the United States, or any instrumentality thereof approved by the Governor; and the Commonwealth of Puerto Rico.

(n) "Unit of general local government" means any city, county, town, township, parish, village, or other general purpose political subdivision of a State; Guam, the Virgin Islands, and American Samoa, or in a general purpose political subdivision thereof: The District of Columbia; the Trust Territories of the Pacific Islands; and Indian tribes, bands, groups, and nations of the United States, including Alaska Indians, Aleuts, and Eskimos.

(o) "Unoccupied residential property" means either a Secretary-owned property or a locally-owned property that is vacant.

(p) "Urban homesteading neighborhood" means a geographic area(s) approved by HUD for conducting a local urban homesteading program that meets the requirements of § 590.7.

#### § 590.7 Program requirements.

An applicant shall meet the following requirements to qualify for assistance under this Part:

(a) *Designation of Urban Homesteading Neighborhood.* It shall designate neighborhood(s) for carrying out urban homesteading. An urban home-

steading neighborhood shall have 1) available Secretary-owned properties; 2) Secretary-owned plus locally-owned properties; or 3) pursuant to Section 312(a)(1)(D) of the Housing Act of 1964, as amended, and Title I of the Housing Community Development Act of 1974, a amended, locally-owned properties within designated areas where eligible community development block grant activities are being carried out. An urban homesteading neighborhood shall be in the following areas:

(1) The same as or contained within Neighborhood Strategy Areas designated pursuant to the Community Development Block Grant regulations published March 1, 1978, in the Code of Federal Regulations, Title 24, Chapter V, Part 570, Subpart D—Entitlement Grants, § 570.301(c); or

(2) Another area designated by the applicant, if:

(i) The applicant is not a recipient of community development block grant entitlement funds authorized by Title I of the Housing and Community Development Act of 1974;

(ii) The required public improvements and services will be provided from sources other than community development block grants; or

(iii) The neighborhood selected for urban homesteading requires some improvements but not the concentrated treatment required for a Neighborhood Strategy Area.

(b) *Development of Local Urban Homesteading Program.* It shall develop a program to convey unoccupied residential properties to qualified individuals or families. The program shall provide for the following:

(1) *Homesteader Selection.* It shall provide equitable procedures for homesteader selection giving special consideration to the homesteader's:

(i) Need for housing; and

(ii) Capacity to make or cause to be made necessary repairs and improvements.

(2) *Conditional conveyance.* It shall provide for the conditional conveyance of unoccupied, unrepaid residential property to homesteaders. Property received from the Secretary-owned inventory shall be conditionally conveyed without substantial consideration.

(3) *Homesteader Agreement.* It shall provide for execution of a Homesteader Agreement between the local urban homesteading agency and the homesteader which shall require the homesteader:

(i) To make or cause to be made any repairs required to meet minimum local health and safety housing standards prior to occupying the property;

(ii) To make or cause to be made additional repairs and improvements necessary to meet the applicable local

standards for decent, safe, and sanitary housing within 18 months after occupying the property and to comply with any energy conservation measures designated by the local urban homesteading agency as part of the repairs;

(iii) To occupy the property as principal residence for not less than three consecutive years from the initial date of occupancy;

(iv) To permit reasonable inspections at reasonable times by employees or designated agents of the local urban homesteading agency; and

(4) *Revocation Upon Breach of Agreement.* It shall provide for the revocation of the conditional conveyance upon any material breach of the agreement by the homesteader.

(5) *Fee Simple Title.* It shall provide for the conveyance of the property from the local urban homesteading agency to the homesteader in fee simple title upon full compliance with the terms of the agreement between the local urban homesteading agency and the homesteader.

(6) *Coordinated Approach Toward Neighborhood Improvements.* It shall provide a plan for needed public improvements and services, and community facilities in the Urban Homesteading Neighborhoods.

(i) If the Urban Homesteading Neighborhood is a Neighborhood Strategy Area, then the coordinated approach toward neighborhood improvement for the area described in the applicant's Community Development Block Grant entitlement application, pursuant to 24 CFR 570.304(b)(1)(i) (Community Development and Housing Plan) will satisfy this requirement. Such an applicant will cite the appropriate cross reference in its applications.

(ii) For designated urban homesteading neighborhoods that are outside or mostly outside of Community Development Block Grant Neighborhood Strategy Areas of entitlement recipients, the coordinated approach toward neighborhood improvement plan shall include:

(A) A brief description of the area's need for revitalization, community facilities, public services and improvements and housing problems;

(B) A description of the plan that will be implemented to meet the identified needs for upgrading and improving the area; and

(C) A description of the actions to mitigate any adverse effects on low- and moderate-income persons that may result from implementing an urban homesteading program in the designated neighborhood.

#### § 590.9 Listing of Secretary-owned properties.

(a) To facilitate the local planning and program development in accordance with the program requirements of § 590.7 a potential applicant may submit a written request to the Manager of the appropriate HUD field office for a listing of all Secretary-owned properties defined in § 590.5(j) within the applicant's jurisdiction.

(b) After receipt of such request HUD shall provide to the potential applicant a current list of those Secretary-owned properties for which repair or sale contracts have not been executed.

#### § 590.11 Applications.

(a) *Submission Requirements.* Applications shall be submitted to the HUD Area Office which has jurisdiction over the applicant and shall consist of the following:

(1) Standard Form 424, prescribed by OMB Circular No. A-102;

(2) A description of the coordinated approach toward neighborhood improvement as required by § 590.7(b)(6). An applicant that is applying for Community Development Block Grant (CDBG) entitlement funds may cite the appropriate cross-reference in its community development plan pursuant to 24 CFR 570.304(b)(1)(i) (Community Development and Housing Plan) to meet this requirement.

(3) A map of each proposed urban homesteading neighborhood with geographic boundaries indicated and census tracts shown. The map shall include:

(i) An estimate of the number and the location of any locally-owned properties to be conveyed to homesteaders during the program's first year;

(ii) An estimate of the number and the location of any Secretary-owned properties requested for use in the proposed urban homesteading program during the program's first year;

(4) A description of the rehabilitation financing plan to be used in the urban homesteading neighborhood(s) which shall include:

(i) An estimate and brief description of terms and conditions of the Federal, State and/or local public funds and any private funding sources that are to be made available for interim and permanent financing of rehabilitation;

(ii) The total number of residential properties for rehabilitation (both homestead properties and other properties);

(iii) An outline of the applicant's proposed schedule(s) and time periods for committing rehabilitation loan funds in its urban homesteading program.

(5) An implementation plan which includes:

(i) The description of the public entity that will carry out the program, including any agreements with private non-profit organizations, neighborhood-based nonprofit organizations, small business investment companies and/or local development corporations, as defined in Section 590.5(h) to provide program related services (e.g. "counseling" services to homesteaders, marketing activities, neighborhood improvements, financial assistance, rehabilitation).

(ii) A timetable and methods to accomplish the program which includes:

(A) Transferring properties from HUD to the local urban homesteading agency;

(B) Advertising residential properties for homesteading purposes;

(C) Conveying unoccupied, unrepaid residential property to homesteaders; and

(D) A summary of the plan for implementing neighborhood improvements in accordance with § 590.7(b)(6)(i)-(ii).

(b) *Certifications.* The applicant shall submit certifications in such form as HUD may prescribe, providing assurances that:

(1) Its governing body has duly adopted or passed as an official act, resolution, motion, or similar action authorizing the filing of the application including all understandings and assurances contained in the application;

(2) It possesses the legal authority to:

(i) Accept the transfer without payment of Secretary-owned property;

(ii) Convey residential property received from HUD to homesteaders without any substantial consideration, and

(iii) Assist in or undertake the financing of the rehabilitation for residential property conveyed to homesteaders.

(3) It has:

(i) A form for conditional conveyance as required by § 590.7(b)(2);

(ii) Equitable procedures for selecting homesteaders as required by § 590.7(b)(1); and

(iii) An urban homesteader agreement required by § 590.7(b)(3).

(4) It will convey the residential property received from HUD in fee simple title without consideration to the homesteader upon full compliance with the terms of the agreement required in § 590.7(b)(3).

(5) It has, prior to submission of its application:

(i) Provided citizens an adequate opportunity to express preferences about the proposed location of urban homesteading neighborhoods; and

(ii) Provided citizens with adequate information regarding the amount of rehabilitation loan funds, and the

number of any Secretary-owned properties and/or locally-owned properties to be homesteaded and the coordinated approach toward neighborhood improvement required by § 590.7(b)(6).

(6) It will submit any environmental information that may be requested by HUD in meeting the Department's environmental responsibilities under the National Environmental Policy Act of 1969.

(7) It will: (i) Not discriminate upon the basis of race, creed, color, handicap, sex, or national origin in the sale, lease, or rental or in the use or occupancy of the property conveyed in accordance with this Part;

(ii) Comply with the requirements of Title VI of the Civil Rights Act of 1964, Title VIII of the Civil Rights Act of 1968; and

(iii) Comply with Section 504 of the Rehabilitation Act of 1973 which prohibits discrimination against the handicapped in any program or activity receiving Federal financial assistance.

(8) It will comply with the lead based paint procedures set forth in 24 CFR Part 35 agreeing to:

(i) Assure the elimination of the lead based paint hazards for which HUD will not expend funds in residential structures transferred under this Part; and

(ii) Make notification to potential homesteaders of the hazards of lead-based paint poisoning in residential units constructed prior to 1950.

(9) It will submit any information that may be requested by HUD meeting the Department's Responsibilities under the National Historic Preservation Act of 1966 (Pub. L. 89-665) and the Preservation of Historic and Archaeological Data Act of 1974 (Pub. L. 93-291), including the procedures prescribed by the Advisory Council on Historic Preservation in 36 CFR Part 800, and Executive Order 11593 on Protection and Enhancement of the Cultural Environment.

(10) It will, upon conveyance of title from HUD assume liability for injury and damage to persons or property by reason of a defect in the dwelling, its equipment, its appurtenances, or any other reason.

(11) It will give HUD and the Comptroller General through any authorized representatives access to and the right to examine all records, books, papers, or documents related to the urban homesteading program.

(12) It will maintain in writing and on file a description of its approved local urban homesteading program for the purposes of public information and review.

(c) OMB Circular A-95, Part II.

(1) The applicant shall submit the completed application to all appropriate State and areawide clearinghouses

prior to, or concurrently with, the submission of the application to HUD.

(2) The clearinghouses shall have thirty (30) days to review the completed application and transmit to the applicant and to the appropriate HUD Area Office any comments or recommendations.

(3) Clearinghouses will be of assistance to the applicant and to HUD if their reviews address the impact of the proposal in revitalizing the designated urban homesteading neighborhood, the relationships of the proposal to community and areawide planning and any other considerations not reflected in the application which would bear on the viability of the proposal as well as the "subject matter of comments and recommendations" in Part I, Attachment A of OMB Circular No. A-95, Item 5, with emphasis on consistency among State, areawide, and local plans and compliance with environmental and civil rights laws.

(4) If the A-95 review comments contain any findings of inconsistency with State, areawide, or local plans or non-compliance with environmental or civil rights laws, the applicant must state how it proposes to resolve the finding or state its justification for proposing to proceed with the project despite the findings developed through the A-95 review process.

(5) HUD will not approve an application until all comments have been received and considered from the clearinghouses or until the end of the thirty-day review period, whichever occurs first.

(6) HUD shall notify the clearinghouses of actions taken on all applications reviewed within seven working days by use of Standard Form 424. When HUD makes approval following clearinghouse recommendations against approval or approval only with specific and major substantive changes, the clearinghouse will be provided an explanation for such approval with the HUD submittal of SF 424.

(d) *Application Submission.* Applications shall be submitted, at anytime, to the HUD Area Office which has jurisdiction over the applicant.

#### § 590.13 HUD review and approval of application.

The appropriate HUD Area Office will review the application and will approve the proposed local urban homesteading program, unless the HUD Area Office determines that it does not comply with the requirements of this Part and other applicable laws and regulations. Approval of the application does not, however, obligate HUD to transfer a specific number of properties or particular properties identified in the application. If the application is disapproved, the applicant

shall be informed in writing of the specific reasons for the disapproval.

#### § 590.15 Urban homesteading agreement.

(a) Upon approval of the proposed local urban homesteading program, the appropriate HUD Area Office will sign an Urban Homesteading Agreement with the local urban homesteading agency. The regulations of this part become a part of the agreement.

(b) The agreement is renewable on an annual basis: *Provided, That:*

(1) The local urban homesteading agency has carried out its program substantially as proposed and approved; and

(2) The local urban homesteading agency has a continuing capacity to carry out the approved program in a timely manner including the selection of homesteaders, the conveyance of residential property to homesteaders, the implementation of its interim and permanent financing plan(s), the completion and quality of the housing rehabilitation and the implementation of its coordinated approach toward neighborhood improvements.

#### § 590.17 Transfer of Secretary-owned property.

(a) *Property Disposition Assistance.* HUD's property disposition activity shall support the Urban Homesteading Program as follows:

(1) Upon the signing of the Urban Homesteading Agreement as required in § 590.15 but prior to the initial selection of any Secretary-owned property, a local urban homesteading agency may request HUD to suspend its routine property disposition activity for up to 45 days in the designated urban homesteading neighborhood(s). Based upon this request, HUD shall state in writing the starting and closing dates of the suspension of property disposition activity for all Secretary-owned properties except those for which there are repair or sales contracts.

(2) The HUD Area Offices shall develop and implement a property disposition plan for Secretary-owned properties in the designated urban homesteading neighborhood which is consistent with the local urban homesteading program. This plan shall include the following procedure:

(i) As soon as feasible, but in any event not later than ten days, after receipt of notice of property transfer and application for insurance benefits to HUD for an unoccupied, one- to four-family residence in an approved urban homesteading neighborhood, the HUD Area Office shall notify the local urban homesteading agency of the potential availability of the property for homesteading. The notification shall be in writing and shall include the street address and zip code and shall inform the local urban

homesteading agency that it has thirty days from the date of the notice to inform the Area Office if it wishes to use the property for homesteading.

(ii) The Area Office shall not approve a property disposition program for that property until the local urban homesteading agency has informed that Area Office, in writing, whether or not it intends to use the property in the urban homesteading program or until 30 days have expired from the date of HUD's notice to such agency, whichever comes first. The Area Office Manager may extend the thirty (30) day deadline, if the Area Office Manager makes a determination that notification by the local urban homesteading agency within thirty (30) days is impractical. The title for any property requested in accordance with this procedure shall be transferred to a local urban homesteading agency if such property meets the conditions for transferring Secretary-owned properties listed in § 590.17(b).

(b) *Conditions for Transferring Secretary-Owned Properties.* Except as provided in § 590.17(c) below, HUD shall transfer the title of Secretary-owned properties to a local urban homesteading agency, without receiving payment from such agency, if the following conditions are met:

- (1) The local urban homesteading program has been approved by HUD;
- (2) The properties requested by the local urban homesteading agency are in a designated urban homesteading neighborhood(s);
- (3) The HUD Area Office has reserved the necessary Section 810 funds to reimburse HUD's housing loan and mortgage insurance accounts for the residential property to be transferred;
- (4) The requested property is unoccupied, unrepaid and a repair or sale contract has not been signed;
- (5) The requested property is determined to be suitable for the approved local urban homesteading program by the Area Office. In making this determination the Area Office will take into account the following factors:

(i) The value of the property. The value of the property shall not exceed \$15,000 for a one unit single family residence or an additional \$5,000 for each unit of two- to four-family residences. To compute this value, HUD shall estimate and deduct from the appraised as is fair market value of the property the cost of continued care and handling for the average length of time for that area that such property might remain in HUD's inventory if it were not transferred to a local urban homesteading agency;

(ii) The estimated cost of housing repairs required. The cost of required repairs shall not exceed \$27,000 per unit;

(iii) The Area Office Manager may authorize on a property by property or

program by program basis the transfer of Secretary-owned property;

(A) Whose value exceeds the limitations, cited in paragraph (b)(5)(i) of this section, if the benefit to the community, expected from the expedited occupancy of the property and the reduction of difficulties and delays (such as vandalism to property) that HUD typically encounters in the disposition and sale of property, warrant the additional cost to the Federal Government;

(B) For which the value of housing repairs exceeds the limitation, cited in paragraph (b)(5)(ii) of this section, when the value of such repairs in excess of \$27,000 per unit will be provided by the homesteader or through other local resources other than Section 312 rehabilitation loan funds.

(c) *Exceptions.* (1) If a local urban homesteading agency fails to accept title within thirty (30) days of the agency's selection of a Secretary-owned property made available in accordance with § 590.17(b)(1)-(5), the Area Office may approve an alternative disposition plan for the property. The Area Office Manager may extend, for a reasonable period of time, this thirty (30) day deadline if the Area Office Manager makes a determination that acceptance of title by the local urban homesteading agency within thirty (30) days of property selection is impractical.

(2) A property otherwise eligible for transfer to a local urban homesteading agency may be used to meet higher priority needs if the Area Office Manager makes a determination in writing that such property is essential to meet an existing legal obligation such as the following:

- (i) Settlement of Sales Warranty claims;
- (ii) Settlement of section 518 claims for critical structural defects in one- to four-family dwellings with certain mortgages insured by HUD;
- (iii) Emergency housing needs: (disaster housing and urgent public housing needs);
- (iv) Reconveyance for noncompliance with regulation 24 CFR Sec. 203.363;
- (v) Reconveyance pursuant to Civil Frauds Act settlement; and
- (vi) Reconveyance where the mortgage was never insured.

(3) A property otherwise eligible for transfer to a local urban homesteading agency for use in its HUD approved homesteading program, may instead be made available to private non-profit organization, a local development corporation or a neighborhood nonprofit organization as defined in Section 590.5(h) if the Area Office Manager determines in writing that such transfer will serve the community's best interest and is consistent with the goals

of the local urban homesteading program. Such transfer does require concurrence of the local urban homesteading agency or the local government.

#### § 590.19 Implementing Funds.

HUD will reserve or otherwise provide available Section 810 funds and Section 312 rehabilitation loan funds necessary to assist in implementing an approved local urban homesteading program. The Section 810 funds may not be used to reimburse local homesteading agencies for administrative costs nor may they be used to acquire property other than Secretary-owned property.

#### § 590.21 Reduction of Funds.

The Secretary reserves the right to reduce any Section 810 Secretary-owned property acquisition allocation or Section 312 rehabilitation loan funds earmarked, reserved or targeted for a local urban homesteading agency should such agency not meet the schedules for use of such funds required in §§ 590.11(a)(4)(iii) and 590.11(a)(5)(ii) (A) and (C), and does not comply with the statutory and regulatory requirements of this part or fails to carry out its program as approved.

#### § 590.23 Program Close Out (Reserved)

#### § 590.25 Retention of Records.

Financial records, property disposition documents, supporting documents, statistical records, and all other records pertinent to the urban homesteading program shall be retained by the local urban homesteading agency for a period of three years from the date of the program closeout.

#### § 590.27 Audit.

The Secretary, the Comptroller General of the United States, or any of their duly authorized representatives, shall have access to all books, accounts, records, reports, files, and other papers or property of local urban homesteading agencies pertaining to funding assistance related to this part and Secretary-owned property transferred under this part for the purpose of making surveys, audits, examinations, excerpts, and transcripts.

#### § 590.29 Applicable Federal Laws and Regulations.

(a) *Nondiscrimination.* Every phase of an approved local urban homesteading program is to be implemented in accordance with the requirements of title VI of the Civil Rights Act of 1964 and Title VIII of the Civil Rights Act of 1968. Approved local urban homesteading programs shall also comply with Section 504 of the Rehabilitation

Act of 1973 which prohibits discrimination against the handicapped.

(b) *National Environmental Policy Act.* In implementing and administering the Urban Homesteading Program, HUD shall comply with the National Environmental Policy Act of 1969 and all rules, regulations, and requirements issued pursuant thereto.

(c) *National Historic Preservation Act.* In implementing and administering the Urban Homesteading Program, HUD shall comply with the National Historic Preservation Act (Pub. L. 89-665), the Preservation of Historic and Archeological Data Act of 1974 (Pub. L. 93-291), including the procedures prescribed by the Advisory Council on Historic Preservation in 36 CFR Part 800, and Executive Order 11593 on Protection and Enhancement of the Cultural Environment.

(d) *Lead-Based Paint Poisoning Prevention Act.* Local urban homesteading agencies shall comply with the Department's Lead-Based Paint Regulations (24 CFR Part 35) issued pursuant to the Lead-Based Paint Poisoning Prevention Act (42 U.S.C. 4831 et seq.) requiring prohibition of the use of lead-based paint; elimination of immediate lead-based paint hazards in any residential structure transferred under this part; and notification of the hazards of lead-based paint poisoning to potential homesteaders in residential units constructed prior to 1950 and assisted under this part.

(e) *Acquisition and Relocation.* If a local urban homesteading agency acquires real property for an urban homesteading program approved under the regulations in this part, it shall comply with HUD relocation and acquisition regulations at 24 CFR Part 42.

#### § 590.31 HUD Review of Local Urban Homesteading Agency's Performance.

(a) HUD will review each local urban homesteading agency's performance at least annually to determine whether:

(1) The program complied with the requirements of Title VIII, Section 810, of the 1974 Act, as amended, the implementing regulations, and other applicable laws and regulations;

(2) The local urban homesteading agency has carried out its program substantially as proposed and approved; and

(3) The local urban homesteading agency has a continuing capacity to carry out the approved program in a timely manner.

(b) In reviewing a local urban homesteading agency's performance, HUD will consider all available evidence which may include, but need not be limited to the following:

(1) Records maintained by the local urban homesteading agency;

(2) Results of HUD's monitoring of local urban homesteading agency's performance;

(3) Audit reports whether conducted by the local urban homesteading agency or by HUD auditors; and

(4) Records of comments and complaints by citizens and organizations, or litigation.

#### § 590.33 Corrective and Remedial Action.

(a) When HUD determines on the basis of its review that there is a deficiency in the local urban homesteading agency's performance, the HUD Area office shall take one or more of the following corrective or remedial actions that are appropriate for the circumstances:

(1) Issue a letter of warning that advises the local urban homesteading

agency of the deficiency and puts it on notice that more serious corrective and remedial actions will be taken if the deficiency is not corrected or is repeated;

(2) Advise the local urban homesteading agency to suspend, discontinue or not incur costs for the defective aspect(s) of the local program;

(3) Condition the renewal of the Urban Homesteading Agreement if there is substantial evidence of a lack of progress, noncompliance, or a lack of a continuing capacity. In such cases, the reasons for the conditional renewal and the actions necessary to remove the condition shall be specified; or

(4) Cancel the Urban Homesteading Agreement and explain the reasons for such action.

#### § 590.35 Evaluation by HUD.

Local urban homesteading agencies shall supply data or make available such records as are necessary for the completion of HUD's annual evaluation of the Urban Homesteading Program.

In accordance with Section 7(o)(4) of the Department of HUD Act, Section 324 of the Housing and Community Amendments of 1978, P.L. 95-557, 92 Stat. 2080, this rule has been granted waiver of Congressional review requirements in order to permit it to take effect on the date indicated.

Issued at Washington, D.C., October 31, 1978.

ROBERT C. EMORY,  
Assistant Secretary for Community Planning and Development.

LAWRENCE B. SIMONS,  
Assistant Secretary for Housing—Federal Housing Commissioner.

## HEALTH MANPOWER SHORTAGE AREAS DESIGNATED UNDER SECTION 332 OF THE PUBLIC HEALTH SERVICE ACT

## List of Dental Manpower Shortage Areas

1. *Purpose.* This notice provides an updated list of those dental health manpower shortage areas designated by the Secretary of Health, Education, and Welfare through October 31, 1978, under the authority of section 332 of the Public Health Service Act.

2. *Background.* Section 332 of the Public Health Service Act, as amended by Pub. L. 94-484 (the Health Professions Educational Assistance Act of 1976), provides that the Secretary of Health, Education, and Welfare shall designate health manpower shortage areas in accordance with criteria established under section 332(b). Health manpower shortage areas are defined in section 332(a) to include (1) urban and rural geographic areas, (2) population groups, and (3) facilities with shortages of health manpower. Section 332(d) requires that the Secretary publish a list of the designated geographic areas, population groups, and facilities; and regulations implementing this authority (42 CFR Part 5) provide that periodic updates of the list be published. The Health Resources Administration's Bureau of Health Manpower has been assigned the responsibility for designating these areas.

This is the third list of health manpower shortage areas designated under section 332. The first list was published July 17, 1978, and included six different types of health manpower shortage areas (primary medical care, dental, vision care, podiatry, pharmacy, and veterinary manpower). The second list, published September 28, 1978, represented an update of designated primary medical manpower shortage areas only. The list below represents an update of designated dental manpower shortage areas only, and includes all such areas which had been designated by October 31, 1978.

Public or non-profit entities in (or with a demonstrated interest in) these areas are eligible to apply for assignment of National Health Service Corps personnel to provide health services in or to the areas. These areas are also eligible service areas for Public Health Service loan repayment and scholarship programs, and entities located in the areas are eligible to apply for (or receive preference for) certain grant programs under the Public Health Service Act.

3. *Development of list.* Criteria for the designation of health manpower shortage areas in accordance with section 332(b) were published by the Department of Health, Education, and Welfare as Interim-Final Regulations in the FEDERAL REGISTER of January 10, 1978 (43 FR 1586). Data available to the Bureau of Health Manpower on counties and small areas throughout the country were then compared with these criteria, and preliminary listings were developed of those areas which tentatively appeared to meet the criteria. These preliminary listings were submitted to the appropriate Health Systems Agencies (HSAs), State Health Planning and Development Agencies (SHPDAs) and Governors for their review and recommendations. In addition, the many requests received for designation of particular areas, population groups, or facilities were also submitted to the appropriate HSAs, SHPDAs, and Governors for review and recommendations.

Each request for designation was reviewed by the Bureau of Health Manpower together with any recommendations received concerning these designations, and a determination was made as to whether or not the areas involved met the shortage criteria. The results of these determinations were then provided by letter to the requesting agency or individual, with copies to other appropriate agencies and to interested organizations and persons. Where a review resulted in designation of one or more areas, this letter constituted the official notice of designation. The same procedure was applied in reviewing agencies' responses to the listings sent to them for review.

The list below represents, for dental health manpower, a compilation of those areas, population groups and facilities already formally designated by letter by the Bureau of Health Manpower between January 10 (the date of the publication of the Interim-Final Regulations in the FEDERAL REGISTER) and October 31, 1978.

4. *Format of list.* The list of areas is arranged by State. Within each State, the list is first presented by county. In those cases where a portion (or portions) of a county has been designated, the service area(s) involved are listed under the county name. Following the county listing, a list of these service areas is presented showing their component parts in terms of census tracts (C.T.), towns, townships, minor civil divisions (M.C.D.) or census county divisions (C.C.D.).

Where population groups or facilities have been designated, these are listed under the county name(s) in which the population resides or the facility is located.

Beside each designated area, the appropriate "degree of shortage" group is indicated, corresponding to the criteria for these groupings contained in the Interim-Final Regulations. (Group I represents areas with the highest degree of shortage, Group II with the next highest degree of shortage, etc.)

In addition to the specific listings shown here, all members of Indian tribes within the meaning of the definition in section 4(d) of Pub. L. 94-437, the Indian Health Care Improvement Act of 1976, are considered designated as population groups with a health manpower shortage.

5. *Supplemental list of NHSC-staffed sites previously designated under section 329(b).* Under section 407(c) of Pub. L. 94-484, areas which had been designated under section 329(b) of the Public Health Service Act as of September 30, 1977, and in which National Health Service Corps (NHSC) personnel were providing health services on that date, are automatically designated as health manpower shortage areas under section 332, until the end of the assignment period of those personnel. A supplementary list of dental areas in this category follows the list of dental manpower shortage areas designated using the new criteria.

The designation of any area listed on this supplemental list will lapse at the end of the current NHSC assignment period unless, prior to that time, it is determined that the area satisfies the new criteria and notification of redesignation under section 332 is made.

The format for this list of areas is also by State. Within each State, the name of the previously designated area is given, followed by the name of the clinic or other facility staffed, and the community and county in which the facility is located. Any facility for which the previous designation could not be identified was not included in this list.

6. *Future updates of list of designated areas.* The list below consists of those dental manpower shortage areas designated by October 31, 1978. Updates of the lists of other types of shortage areas will be published at a later date. Additions to and deletions from these lists are made continuously, by letter to affected agencies and persons; further updates of all the lists will be published periodically in the FEDERAL REGISTER. It should be noted that some additional dental manpower shortage areas may have been designated between October 31 and the date of this notice, and the appropriate agencies and persons notified of the designation. Although officially designated, these areas are not included in the list below.

Any designated area listed below is subject to withdrawal from designation if new information is presented to

and confirmed by the Bureau of Health Manpower indicating that the situation in the area has changed, or that erroneous or incomplete data were used in making the original designation.

For further information on these designations, to request additional designations, or to request withdrawal of any designation, please contact: Division of Manpower Analysis, Bureau of Health Manpower, Health Resources Administration, Attn: Shortage Area Designation Staff, Center Building, Room 4-41, 3700 East-West Highway, Hyattsville, Md. 20782.

All requests for designation or withdrawal should be based on the criteria as published in the Interim-Final Regulations, which appeared in the FEDERAL REGISTER on January 10, 1978.

Dated: November 28, 1978.

## LABORERS

Group 1: Building Laborers; Carpenters Tenders; Material Handlers, and Hook Tenders; Form Strippers; Signalmen; Riggers; Sandblast Pot Tender; Saw Tenders; General Labor; Pump Men; Pit Men; Brush Cutters; Digging Diggers; Monolithic Workers; Dryer Men; Window Cleaner; Utilidork and Utilidork

Group 2: Base and Floor Machine Man

Group 3: Chafe Builders

Group 4: Concrete Labor including Vibratorman; Power Butty and Concrete Power Man; Curb and Gutterman; General Crew (including Plant Crew) Asphalt

Group 5: Pneumatic or Hammer Tools

Group 6: Stake Hopper; Graderman; Steampoint or Water Jet Operator

Group 7: Tank Cleaner

Group 8: Jackhammer Operator and Pavement Breaker; Chuck Tender (Wagon and Air Track Drills)

Group 9: Mason Tender and Mud Mixers

Group 10: Gunnite Operator; Pipelayers; Culvert and Multiplier; High Scales; Sloper (over 20 feet); Chain and Power Saws; Sack or bulk; Sewer Pipelayer; Sewer Caulkers; Timberman; All Monolithic Crews; Pipe Builders; Sandblasters

Group 11: Asphalt Rakers

Group 12: Tenders; Plasterers; Bricklayers; Cement Finisher; Burning and Cutting Torch (except intermittent torch work)

Group 13: Wagon Driller

Group 14: Timber Feller; Air Track Wagon Driller

Group 15: Chain Saw Filer

Group 16: High Riggers and Tree Topper; Powderman

Group 17: TUNNEL OR SHAFT

Class A: Topman and Bull Gang; Brakeman

Class B: Muckers; Laborers; Nippers

Class C: Chuck Tender

Class D: Wetberman

Class E: Miners; Shafts and Raises

Class F: Powderman

POWER EQUIPMENT OPERATORS

Group 1: "A" Frame Trucks, Helicopters, Transporters, Deck Winches; double power drum; Back Filler; Batch Plant operators; batch and mixer over 200 yards per hour; Belcrete with power pack and similar conveyors; Bending Machines; Bulldozer, quad or HD 41 or similar; Cableways and Highlines, 3 yds. and under; Cleaning Machine; Coating Machine; Cranes; Shovels, Backhoes, Dragline, Cableways (Crawler, truck type, rubber-tired, crawler, floating (locomotive, wheeled, either 3 yds. or under or 150' boom, including jibs and under, or 45 tons and under - Hydraulic or transporters, all track or truck type - Hyster cat cranes and attachments, sidebooms under 45 tons); Derricks; Ditching or Trenching Machine (16" or over); Drilling Machines, core, cable, rotary and exploration; Hydraulic Ax and similar; Loaders (Forklifts with power boom and swing attachment); Mechanics, Welders, bodyman; Mixers (mobile type with height combination); Motor Patrol Grader (over Model 14 or similar types); Mucking Machines (mole, tunnel drill and/or shield); Operator on Dredges; Pile-driver Engineer, L. B. Foster, Puller or similar, paving breaker; Power plant, turbine operator, 300 k.w. and over (power plants or combination of power units over 300 k.w. on highway or airfield construction or quarry operations); Saurman-Bagley; Scrapers, Tournapulls, Caterpillar, Euclid and similar type equipment over 25 yds. through 40 yds.; Shot Blast Machine; Sub Grader (Gurries, C.M.I. and C.M.I. Roto mills and similar types); Tack Tractor; Truck mounted concrete pump; Waco Roto Machine; Hover Craft, flex craft, loadmaster, air cushion, terrain vehicle, helicopter transporter, cableways, rollington, dredge barge-cable, highline or cable car, camp maintenance engine, boat coxswains

POWER EQUIPMENT OPERATORS (Cont'd)

Group 1-A: Cableways and Highlines, over 3 yds.; Cranes; shovels, backhoes, draglines, clamshells (crawler, truck type, floating locomotive, wheeled, either over 3 yds. or over 150' boom, including jibs or over 45 tons; Tower cranes, Pecco, Lorain, Bucyrus and similar types); Hyster cat cranes and attachments, sidebooms 45 tons and over; Loaders over 4 yds.; Motor Patrol Grader (finish; when finishing to final grade, red, blue or similar hubs); Power Plants (1000 k.w. and over); Slip form paver, C.M.I. and similar types; Tournapulls, caterpillar, euclid scrapers and similar type equipment over 40 yds.

Group 1-B: Asphalt Roller; Bulldozers; Crushers; Finishing Machine Operator, concrete paving, sidewalk, curb and gutter machine; Loader, elevating belt type, euclid and similar types; Motor Patrol grader 14 and under; Scrapers 25 yds. and under; Spreaders; Blaw Knox, Cedarapids, Barber Greene, Sceded, Slurry Machine; McDowell Sno Cat

Group 2: Batch Plant Operators; batch and mixer 200 yds. per hour and under; Cement Hogs and concrete pump operators; Compressors; steel erection, including sand blasting, painting of same, piledriving; Conveyors (except as listed in group 1); Hoists on steel erection, Towermobiles and air tuggers; Loaders, elevating grader, dumper and similar; Locomotives; Rod and geared engines; Mixers Screening, washing plant; Sideboom (cradling rock drill); Skidder; Trenching Machine under 16"

Group 2-A: Service Oiler, Journeyman; Boiler-Fireman

Group 3: "A" Frame Trucks, Deck Winches; Single power drum; Bombardier (tack or tow rig); Boring Machine; Brooms, Power Wayne, Saginaw and similar types; Bump Cutter (Concut, Christenson or similar types; Compressors; excavating; Farm Tractor; Forklift, industrial type; Gin truck or winch truck with poles when used for hoisting; Hoists, air tuggers, elevators; Loaders (Elevating-Athey, Barber Greene and similar types); Forklifts of lumber carrier (on construction job sites); Forklifts with tower; Overhead and front end, under 24 yds.; Locomotives; Dinky (air, steam, gas and electric) spreaders; Mechanics, light duty; Mixers; concrete mixers and batch, 200 yds. per hour and under; Oil, Blower Distributors; Pipeline Dredge; Posthole diggers, mechanical; Pot Fireman (power agitated); Power plant, turbine operator, under 300 k.w.; Pumps; Puller kanyon, Water; Rollers, Tampers, Vibrators, all except asphalt Saws, concrete; Straightening Machine; Tow Tractor;

Group 3-A: Grade Checker, Stake Ropper; Rig Oiler, over 45 ton, over 3 yards, or over 150' boom; Drill Helper

Group 4: Rig Oiler (Advances to Group 3-A if over 45 tons or 3 yards or 150' boom); Parts and Equipment Coordinator; Swamper (on trenching machines or shovel type equipment); Spotter; Steam Cleaner

FEDERAL REGISTER, VOL. 43, NO. 251—FRIDAY, DECEMBER 29, 1978

TRUCK DRIVERS

Group 1: Buggymobile; Hyster Operators (handling bulk aggregate), Lumber Carrier

Group 2: Semi or truck and trailer; Dumpsters; Batch Trucks over 5 yards; Dump Trucks, over 5 yards up to and including 10 yards; Fuel Truck; Greasers of Grease Trucks; Flat Beds, dual rear axle; Ready Mix; Over 3 yards up to and including 5 yards; Water Wagon, semi; Water wagon, dual axle Winch Trucks; Flat bed including "A" Frame manufactures rating over 5 tons; Bull Lifts and Fork lifts over 5 tons; Front End Loader with Forks; Partman and outside expeditor; Bus Operator, over 30-passengers, Trail Truck Equipment; (All Terrain Vehicles, Form Distributor Truck, double axle; Loadmaster (air and water operations); Air cushion or similar type vehicle; Fire Trucks - double axle; Vacuum Truck; Vacuum Truck Sweepers - Dual axle; Higgers; Combination Truck - fuel and grease; Greasers; Hydro Seeders-Dual Axle

Group 3: Batch Truck up to and including 5 yards; Dump Truck (including Rockbuggy and Trucks with pumps) up to and including 5 yards; Flat beds, single rear axle; Water wagon, single axle; Winch Truck, Flat bed including "A" Frame manufactured rating 5 tons and under; Bull Lifts and Fork lifts up to and including 5 tons; Bus Operator, up to 30 passengers; Form Distributor Truck, single axle, Hydro seeder, single axle, team drivers (horses, mules and similar equipment); Vacuum trucks and Truck Sweepers - single axle; Fire Trucks - single axle; Ambulance

Group 4: Dump Trucks over 10 yards up to and including 20 yards; Tire service Many Lowbed heavy-duty Trailer; Oiler distributor drivers; Ready Mix; Compactor (when pulled by rubber-tired equipment); Lowboys including attached trailers and jeeps

Group 5: Dump Trucks over 20 yards up to and including 30 yards

Group 6: Dump Trucks over 30 yards up to and including 40 yards

Group 7: Dump Trucks over 40 yards up to and including 50 yards

Group 8: Dump trucks over 50 yards up to and including 60 yards

Group 9: Dump trucks over 60 yards up to and including 70 yards

Group 10: Dump Trucks over 70 yards up to and including 80 yards

Group 11: Dump Trucks over 80 yards up to and including 90 yards

TRUCK DRIVERS (Cont'd)

- Group 12: Dump Trucks over 90 yards up to and including 100 yards
- Group 13: Dump Trucks over 100 yards (above scales to be paid on actual water level measurements)
- Group 14: Turn-O-Wayner DM-10 when not self-loading
- Group 15: Gravel Spreader Box Operator on Truck; Pickup (pilot Cats all light-duty vehicles); Warehouseman Class 2; Farm type rubber-tired tractor (material hauling or pulling wagons); Sweepers
- Group 16: Ready Mix: Up to and including 3 yards
- Group 17: Ready Mix: Over 3 yards up to and including 7 yards
- Group 18: Ready Mix: Over 7 yards up to and including 9 yards
- Group 19: Ready Mix: Over 9 yards up to and including 12 yards
- Group 20: Ready Mix: 13 yards and over
- Group 21: Ready Mix, semi with double bowl mixer
- Group 22: Water Wagon, when pulled by Euclid or similar type equipment
- Group 23: Warehouse - Class 1

GROUP A - A-frames; rotary mills used on caisson work for foundations and sub-structure work; boiler or compressor operator mounted on crane (piggyback operation); boom truck (all types); cableways; cherry pickers; combination concrete mixer and tower; concrete pumps; cranes (all types); derricks (all types); draglines; dredge (dipper, clam or suction) 3 man crew; elevating grader or euclid loader; floating equipment; gradalls, helicopter operator and helicopter winch operator when hoisting building materials; hoos (all types); hoisting engines (two or more drums); lift slab or panel jack operator; locomotives (all types); maintenance engineer (mechanic or welder); mixers paving (multiple drum); mobile concrete pumps with boom; panelboard (all types on site); pile driver; power shovels; side booms; slip form pavers; straddle carriers (building construction on site); hammerhead tower cranes; trench machines (over 24" wide); tug boat.

GROUP B - Asphalt paver; bulldozer; C.M.I type equipment; mndloaders; Kohlman type loaders (dirt loading); lead greaseman; mucking machines; power grader; power scoops; power scrapers; push cat.

GROUP C - Air compressor (pressurizing shafts or tunnels); asphalt rollers; fork lifts; hoist (one drum); house elevators; man lift; power boilers (over 15 lbs. pressure); pump operators installing well points or other type of dewatering system; pumps (4" and over discharge); submersible pumps (4" and over discharge); trenchers 24" and under.

GROUP D - Compressors on building construction; conveyors (building material) generators; gunnite machines; mixers (capacity more than one bag); mixers (one bag capacity, side loader); post driver; post hole digger; pavement breaker (hydraulic or cable); road widening trencher; rollers; welder operator.

GROUP E - Backfillers & tampers; batch plant; bar and joint installing machines; bullfloats; burlap and curing machines; clefplanes; concrete spreading mach.; crushers; deck hands; drum firemen (asphalt); farm type tractors pulling attachments; finishing machines; form trenchers; high pressure pumps over 1/2 discharge; hydro seeders; self-propelled power spreader; self-propelled sub-grader; tire repairmen; tractors pulling sheeps foot roller or grader;

GROUP F - Giller; helper; signalman; inboard & outboard motor boat launch; light vibratory compactors (with integral power)

GROUP P - Giller; helper; signalman; inboard & outboard motor boat launch; light plant operator; power driven heaters (oil fired); power boilers (less than 15 lbs. pressure); pumps under 4" discharge; submersible pumps under 4" discharge.

## SUPERSEDES DECISION

STATE: ONTIO COUNTY: FULTON  
 DECISION NO.: 0178-2169 DATE: Date of Publication  
 Supersedes Decision No. 0178-2147, dated November 13, 1978 in 43 FR 52656  
 DESCRIPTION OF WORK: Building Construction (Does not include family homes & garden type apartments up to and including 4 stories)

LABORERS (AREA 3)

Clark, Cowlick, Klickitat, Skamania, Wankarem and the Southern portion of Pacific, Counties

Group 1: General Laborer; Asphalt Plant Laborers; Asphalt Spreaders; Batch Weighman; Broomers; Brush Burners and Cutters; Car and Truck Loaders; Carpenter Tender; Changehouse Man or Dry Shack Man; Choke Setter; Clean-up Laborers; Concrete Laborers; Culvert, hand labor; Curing, concrete; Demolition, wrecking and moving laborers; Drillers Helpers; Dumpers, road oiling crew; Dumpman (for grading crew); Elevator Feeders; Fence Builder (including guard rail, median rail, reference post, guide post, right-of-way marker); Fine Graders; Form Strippers (not swinging stages); Landscaping or Planting Laborers; Leverman or Aggregate Spreader (Flaherty and similar types); Loading Spotters; Material Yard Man (including electrical); Powderman Helper; Pittsburgh Chipper Operator or similar types Railroad Track Laborers; Ribbon Setters (including steel forms); Rip Rap Man (hand placed); Road Pump Tender; Sewer Labor; Signalman; Skipmen; Slopers Sprayman; Stake Chaser; Stockpiler; Timber Faller and Bucker (hand labor); Toolroom Man (at job site); Tunnel Bull Gang (above ground); Weight Man - Crusher (aggregate when used)

Group 2: Applicator (including pot tender for same) Applying protective Material by hand or nozzle on utility lines or storage tanks on projects; Brush Cutters (power saw); Burner; Choker Splicer; Clay, Power Spreader and similar types; Clean-up Nozzlemans-Greencutter (concrete, rock, etc.); Concrete Power Buggyman; Crusher Feeder; Demolition and Wrecking charred materials; Grade Checker; Gunite Nozzlemans Tender; Gunite and Sand Blasting Post Tender; Handlers or Mixers of all materials of an irritating nature (including cement and lime); Power Tool Operators, includes but not limited to: Dry Pack Machine, Jackhammer, Chipping Guns, Paving Breakers, Vibrators (less than 4" in diameter); Post Hole Digger, air, gas or electric; Vibrating Screed; Tampers, Ribbon Setter, head, rip Rap Man (head hand place, Sand Blasting (wet), Stake Setter, Tunnel-Muckers, Brakemen, Concrete Crew, Bull Gang (underground)

Group 3: Asphalt Bakers; Bit Grinder; Drill Doctor; Drill Operators, Air Tracks, Cat Drills, Wagon Drills, Rubber-mounted Drills, and other similar types; Concrete Saw Operator; Gunite Nozzlemans; High Scaliers, Strippers and Drillers (covers work in swinging stages, chairs or belts, under extreme conditions unusual to normal drilling, blasting, barring-down or sloping and stripping); Laser Beam (pipe laying) - Applicable when employee assigned to move, set up, align Laser Beam; Manhole Builder; Powderman; Power Saw Operators (buckling and falling); Pumpcrete Nozzlemans; Sandblasting (dry); Sewer Pipe Layers; Sewer Timberman; Track Liners; Anchor Machines, Ballast Regulators, Multiple Tampers, Power Jacks; Tugger Operator; Tunnel Chuck Tenders; Nippers and Timbermen; Vibrators (4" and larger); Water Blaster; Welder

Group 4: Laser Beam (tunnel) - Tunnel Miners; Tunnel Powderman

POWER EQUIPMENT OPERATORS (AREA 1)  
All Counties and portions of Counties East of the 120th Meridian

LABORERS (Area 4)  
Those portions of Chelan, Douglas, Kittitas, Okanogan and Yakima Counties lying West of the 120th Meridian

Group 1: Asphalt Laborer; Batch Weighman; Broomers; Brush Cutter; Brush Hog Feeder; Burner; Car and Truck Loader; Carpenter Helper; Cement Handler; Changehouse or Dry Shack; Choker Setter; Clean-up Laborer; Concrete Form Stripper; Concrete and Monolithic Laborer; Crush Feeder; Curling Laborer; Demolition, wrecking and moving; Ditch Digger; Drierman; Dumpman; Elevator Operator; Excavator; Grout Machine Header Tender; Header Laborer; Feeders; Epoxy Technician; Faller and Bucket, hand; Fence Laborer; Fine Graders; Flagman; Form Setter; Grout Machine Header Tender; Material Yard and Guardrail Erector; House Wrecker; Landscaping or Planting; Material Yard Man (including electrical); Nipper-Swamper; Pilot Car; Pitman; Pot Tender; Rip Rap Man; Scaleman; Signman; Skipman; Sloper; Sprayman; Stockpiler; Toolroom Man (at job site); Track Laborer; Truck Spotter; Window Cleaner

Group 2: Air, gas or electric Vibrating Soreed; Anchor Machine; Ballast Regulator Machine; Chippers; Choker Splice; Chuck Tender; Clay Power Spreader and similar types; Concrete Saw; Gabian Basket Builder; Grinders; Groutman, pressure, including Post Tension Beams; Jackhammer; Multiple Tamper; Pavement Breaker; Pipe Pot Tender; Pipe Wrapper; Powderman Helper; Power Jacks; Power wheelbarrow or Buggy; Railroad Spike Puller; Ribbon Setter; head; Rip Rap Man, head; Rodder; Sloper, over 20 ft.; Stake Hopper; Swing Scaffold or Boatwain Chain rover water or 25 ft. in height; Tamper, multiple and self-propelled; Tamper and similar electric and air operated tools; Topman-tailman; Track Liners; Vibrator; Wagon Driller and Air Trac Helper; Well Point Laborer

Group 3: Bit Grinder and Drill Doctor; Cement Dumper, paving; Cement Finisher Helper; Faller and Bucker Chain Saw; Grade Checker and Transit Man; High Scaler; Laser Beam Operator; Manhole Builder; Mortarman and Rod Carrier; Nozzelman (concrete pump, green cutter when using combination of high pressure air and water on concrete and rock, sandblast, gunnite, shotcrete) water blaster; Pipelayer and Caulker; Powderman; Raker, asphalt; Spreader (carries grade with rodder); Timberman, sewer; Tugger Operator; Vibrator, 4" and over; Wagon Driller and Air Trac Operator

Group 4: Calson Worker; Laser Beam Operator (tunnel); Powderman; No-timber Man

FRINGE BENEFITS:  
Health and Welfare \$ .90  
Pension 1.40  
Apprenticeship Training .03

Group 1: Bit Grinders; Bolt Threading Machine; Compressor, under 2,000 cu. ft. per minute gas, diesel or electric power; Crusher Feeder (mechanical); Deckhand; Driller's Helper; Fireman and Master Tender; Grade Checker; Helper (mechanic or welder, H.B.); Oilier; Oiler and Cable Tender; Mucking Machine; Pumpman; Rollers, all types on subgrade (farm type, case, John Deere and similar - or compacting or vibrator) except when pulled by dozer with operable blade; Steam Cleaner; Welding Machine

Group 2: A-Frame Truck (single-drum); Assistant Refrigeration Plant (under 1,000 tons); Assistant Plant Operator, Fireman or Pumper Operator, single unit (concrete); Belt Finishing Machine; Bending Machine (pipeline); Blower Operator (cement); Cement Hog; Compressor (2,000 cu. ft. or over, 2 or more gas, diesel or electric power); Concrete Saw (multiple cut); Distributor Leveler; Elevator Hoisting Materials; Dope Pots (power agitated); Fork Lift or Lumber Stacker; Hydra-lift and similar; Oil Trucks (pipeline); Holst, single drum; Loader (bucket, elevator and conveyor); Longitudinal Floater; Mixer Operator; Post Hole Auger or Punch; Power Broom; Railroad Ballast Regulation Operator (self-propelled); Railroad Power Tamper Operator (self-propelled); Railroad Power Tamper Jack Operator (self-propelled); Spray Curling Machine (concrete); Spreader Jack Operator (self-propelled); Straddle Buggy (Boss and similar on construction job site); Tractor (farm type R/T with attachments except backhoe); Tugger Operator; Ditch Witch or similar

FEDERAL REGISTER, VOL. 43, NO. 251—FRIDAY, DECEMBER 29, 1978

POWER EQUIPMENT OPERATORS (AREA 1) (Cont'd)  
All Counties and portions of Counties East of the 120th Meridian

Group 3: A-Frame Truck (2 or more drums); Assistant Refrigeration Plant and Chiller Operator (over 1,000 tons); Backfillers (Cleveland 6 similar); Belt-crete Conveyors with power pack or similar; Belt Loader (Kocal or similar); Blade Operator (motor patrol and attachments); Boac Operators; Boom Cats (side); Boring Machine (rock under 8" bit) (Quarry Master, Joy or similar); Bump Cutter (Wayne, Saginaw or similar); Canal Lining Machine (concrete); Chipper (without-ofane); Cleaning and Doping Machine (pipeline); Concrete Pumps (Squeeze-crete, Flow-crete, Pumpcrete, Whitman and similar); Drills (Churn, Core, Calyx, or Diamond); Elevating Belt-type Loader (Euclid, Barber (Green or similar); Elevating Grader-type Loader (Dumort, Adams or similar); Equipment Serviceman, greaser and oiler; Generator Plant Engineers (diesel, electric); Gunite Combination Mixer and Compressor; Hoist (2 or more drums or tower hoist); Loader (Overhead and front-end under 4 yds., R/T); Locomotive Engineer; Mixermobile; Mucking Machines; Paver or Cub Extruder (concrete and asphalt); Pump (grout or jet); Roller (finishing pavement); Rubber-tired Scraper (one motor with one scraper, under 40 yds.); Soreed Operator, Soil Stabilizer (P&H or similar); Spreader Machine; Tractor (Crawler, including Dozer, Scraper, Drills, Boom, rollers, etc.); Traverse Finishing Machine; Trenching Machines (under 7 ft. depth capacity); Turnhead Operator; Vacuum Drill (reverse circulation drill, under 8"); Chain Person

Group 4: H.D. Mechanic; H.D. Welder; Refrigeration Plant Engineer (under 1,000 tons); Rubber-tired Scraper, multi-engine power, with one scraper (Euclid, TS-24 and similar); Rubber-tired Scrapers, one motor with one scraper (40 yds. and over); Surface Heater and Planer Machines; Turnhead (with re-screening)

Group 5: Asphalt Plant Operator; Automatic Subgrader (ditches and trimmers) (Auto-grade, ABC, R.R. Hansen and similar on grade wire); Backhoes (under 3 yds.); Batch and Wet Mix Operator - multiple units (2 and including 4); Blade (under 3 yds.); Concrete Slip Form Paver; Cranes (under 65 tons, sideboom over 24 ft., butt pin to CTR Sheave); Crusher, Grizzle and Screening Plant Operators; Drilling Equipment (8' bit and over) (Robbins' reverse circulation and similar); Loader Operator (front end and overhead 4 yds. to 8 yds.); Pile Driving Engineers; Paver (dual drum); Quad-track or similar equipment; Railroad Track Liner Operator (self-propelled); Rubber-tired Scrapers, Multi-engine, power with one scraper (Euclid, TS-24 and similar); Push Pull or Help Mate in use; Rubber-tired Scrapers, multiple engines with 2 scrapers; Shovels (under 3 yds.); Refrigeration Plant Engineer (1,000 tons and over); Signalmen (Whirleys, Highline Hammerheads or similar); Trenching Machines (7 ft. depth and over); Multiple Dozer units with single blade; Instrument Man

Group 6: Backhoes (3 yds. and over); Batch Plant (over 4 units); Cableway Controller-dispatcher; Cableway Operator; Clamshell Operator (3 yds. and over); Cranes, all-65 tons and over; Derricks and Stifflegs (65 tons and over); Drag-line (3 yds. and over); Elevating Belt (Holland type); Loader 360 degrees revolving Koehring Scooper or similar; Loaders (overhead and front-end over 8 to 12 yds.); Rubber-tired Scrapers (multiple engine with 3 or more scrapers); Shovels (3 yds. and over); Tower Crane; Whirleys and Hammerheads (all)

Group 7: Helicopter Pilot; Loaders (overhead and front-end - over 12 yds.); Party Chief

## POWER EQUIPMENT OPERATORS (Area 3)

Clark, Cowlitz, Skamania, Wahkiakum and the Southern portion of Pacific, Counties

Group 1: Oiler, including Plant, Crane, Crusher, Guardrail equipment, and Trenching Machine; Assistant Conveyor Operator; Crusher Feederman; Deck-Hand; Self-propelled Scaffolding Operator; Guardrail Punch Oiler; Pump Operator, under 4"; Brakearm; Switchman; Parts Man (tool room)

Group 2: Blade Operator, pulled type; Truck Crane Oiler-driver, 25 ton capacity or over; Crane Fireman, (all equipment except floating); A-frame Truck Operator, single drum; Tugger or Coffin type Hoist Operator; Driller Helper; Auger; Oiler; Boatman; Fork Lift or Lumber Stacker Operator (on job site); Oiler, combination Guardrail Machines; Temporary Heating Plant Operator; Grade Oiler, required to check grade; Grade Checker; Tar Pot Fireman; Tar Pot Fireman (power agitated); H.D. Repairman Helper; Welder's Helper; Helicopter Radioman (ground); Roller Operator, grading of base rock (not asphalt)

Group 3: Asphalt Plant Fireman; Pugmill Operator (any type); Truck mounted Asphalt Spreader, with Screed; Compressor Operator; Mixer Box Operator (C.T.B., Dry cu. ft. total capacity); Conveyor Operator; Concrete Curing Machine (riding Batch, etc.); Cement Hog; Concrete Saw; Concrete Curing Machine (on job site); Wire Mat or Brooming Machine; Ross Carrier Operator (on job site); Hydraulic Pipe Bucket Elevator Loader, Barber Greene and similar types; Hydraulic Pipe Press; Pump Operator (any power), 4" and over; Hydrostatic Pump; Motorman; Ballast Jack Tamping; Bell Boy phones, etc.; Tamping Machine, mechanical self-propelled; Hydrographic Seeder Machine, straw, pulp or seed; Broom Operator, self-propelled (on job site); Air Filtration Equipment; Welding Machine Operator

Group 4: Screed Operator; Compactor, including Vibratory; Compressor (any power) over 1,250 cu. ft. total capacity; Combination Mixer and Compressor, Gunnite work; Concrete Mixer Operator, single drum, under five bag capacity; Helicopter Hoist Operator; Floating Equipment Fireman; Lull Hi-lift Operator or similar type; Fork Lift, over 5 ton; Service Oiler (greaser); Hydra Hammer or similar types; Pavement Breaker; Pump Operator, more than 5 (any size); Locomotive, under 40 tons; Roller Operator, Oiling, C.T.B.

Group 5: Extrusion Machine; Wagner Pactor or similar type (without blade); Concrete Batch Plant Quality Control Operator; Power Jumbo, Setting Slip Forms, etc. in tunnels; Slip Form Pumps, Power Driven Hydraulic Lifting Device for concrete forms; Hoist, single drum; Elevator Operator; Pulverizer or similar types; Chip Spreading Machine Operator; Lime Spreading (on job site); Sweeper (Wayne type) Self-propelled (on job site); Tractor, rubber-tired 50 H.P. Flywheel and under; Trenching Machine, Maximum digging capacity 3 ft. depth

## POWER EQUIPMENT OPERATORS (Area 3) (Cont'd)

Clark, Cowlitz, Skamania, Wahkiakum and the Southern portion of Pacific, Counties

Group 6: Asphalt Burner and Reconditioner; Pavement Grinder and/or Grooving Machine (riding type); Cast-in-place Pipe Laying Machine; Maginix Internal Full Slab Vibrator; Concrete Finishing Machine, Clary, Johnson, Bidwell, Burgess Bridge Deck or similar type; Curb Machine, Mechanical Beza, Curb and/or Curb and Gutter; Concrete Joint Machine; Concrete Planer; Concrete Paving Machine; Concrete Spreader; Loaders, rubber-tired type, 24 cu. yds. and under; Rock Spreaders, self-propelled

Group 7: Roller (any asphalt mix); Belterrete; Pumpcrete Operator (any type); Fuller-Kenyon and similar; Concrete Pump; Grouting Machine; Concrete Mixer, single drum, five bag capacity and over; Tower Mobile Operator; A-Frame Truck double drum; Boom Truck; Churn Drill and Earth Boring Machine; Hydraulic Backhoe, wheel type 3/8 cu. yds. and under with or without front end attachments 24 cu. yds. and under (Ford, John Deere, Case type); Elevating Grader, Tractor towed requiring operator or grader; Pot Rammer; Ballast Regulator; Ballast Tamping, Multiple-purpose; Track Liner; Tie Spacer; Shuttle Car; Locomotive, 40 tons and over

Group 8: Diesel-Electric Engineer, Plant, Crusher, Generator, Floating; Batch Plant and/or wet mix, one and two drum, Generator Operator; Belt Loader, Kolman and Ko Cal types; Asphalt Paver Operator

Group 9: Bulldozer; Drill Cat Operator; Side-boom Cat; Compactor, with blade; Concrete Cooling Machine; Chicago Boom and similar types; Lift Slab Machine; Boom type lifting device, 5 ton capacity or less; Cherry Picker or similar type Crane-hoist, 5 ton capacity or less; Grizzly Crusher; Crusher Plant; Drill Doctor; Boring Machine; Guardrail Punch and Auger (all types); Surface Heater and Planer; Hydraulic Backhoe, track type 3/8 cu. yd.; Loader, front end and overboard, 24 cu. yds. and under 4 cu. yds.; Hammer operator; Pipe Cleaning, Doping, Bending and Wrapping Machines; Bolt-threading Machine; Drill Doctor (bit grinder); H.D. Mechanic and Welder; Machine Tool Operator; Stationary Drag Scraper; Tractor, rubber-tired over 50 H.P. fly-wheel; Tractor with boom attachment; Trench Machine, maximum digging capacity over 3 ft. depth; Asphalt Plant Operator

Group 10: Bulldozer, twin engine (TC 12 and similar); Cable PLOW (any type); Compactor, multi-engine; Jack Operator, Elevating Barges; Barge Operator, self-unloading; Combination H.D. Mechanic-Welder, with dispatched and/or when required to do both; Rubber-tired Dokers and Pushers (Michigan, Cat, Hough type); Driller-Perforation, Diamond, Core, Cable, Rotary and similar type

Group 11: Mixer Mobile; Concrete Breaker; Crane Operator, 25 tons and under; Combination Guardrail Machines, i.e., Punch, Auger, etc.; Shovel, Dragline; Clanshell, Hoe, etc., under 1 cu. yd.; Grade-alls, under 1 cu. yd.; Mucking Machine (tunnel)

## FEDERAL REGISTER, VOL. 43, NO. 251—FRIDAY, DECEMBER 29, 1978

## POWER EQUIPMENT OPERATORS (Area 3) (Cont'd)

Clark, Cowlitz, Klickitat, Skamania, Wahkiakum and the portion of Pacific, Counties

Group 12: Blade Operator; Batch Plant and/or Wet Mix, 3 units or more; Reinforced Tank Bending Machine (K-17 or similar); Hoist, two or more drums; Elevating Loader, Athey and similar; Piledriver (not crane type); Rubber-tired Scraper, single and twin engine, Single Scraper, with push-pull attachments, self-loader, Paddle Wheel, Auger type; Blade mounted Spreaders, Ulrich and similar types; Shield Operator

Group 13: Blade Operator, finish; Blade, externally controlled by electric, mechanical hydraulic means; Blade, multi-engine; Concrete Paving Road Mixer; Derrick, under 100 tons; Hoist, Stiff Leg, Guy Derrick or similar, 50 tons and over; Cableway Operator 25 ton and over; Crane, over 25 ton and including 50 tons; Piledriver Operator; Floating Crane-shall, etc. under 3 cu. yds.; Floating Crane (derrick barge), less than 30 ton; Elevating Grader, operated by tractor operator, Sierra, Euclid, or similar; Back Filling Machine; Shovel, etc. 1 cu. yd. and less than 3 cu. yds.; Grade-all, 1 cu. yd. and over; Bridge Crane Operator, Locomotive Crane, Gantry and Overhead

Group 14: Tower Crane Operator; Rubber-tired Scraper, with Tandem Scrapers, self-loading, Paddle Wheel, Auger type, Finish and/or 2 or more units

Group 15: Rock Hound Operator; Loader, 4 cu. yds., but less than 6 cu. yds.

Group 16: Autograder or "Trimmer"; Tandem Bulldozer, Quad-nine and similar; Automatic Concrete Slip Form Paver; Concrete Canal Line; Cableway, 25 ton and over; Crane, over 40 ton and including 100 ton; Whirley, 80 ton and under; Floating Clamshell, etc., 3 cu. yds. and over; Floating Crane (derrick barge) 30 ton but less than 80 ton; Loader, 6 cu. yds., but less than 12 cu. yds.; Rubber-tired Scraper, with Tandem Scrapers, Multi-engine; Shovel, etc., 3 cu. yds. but less than 5 cu. yds.; Wheel Excavator, under 750 cu. yds. per hour

Group 17: Crane over 100 ton and including 200 ton; Whirley over 80 ton and including 150 ton; Floating Crane (derrick barge) 80 ton less than 150 ton; Loader, 12 cu. yds. and over; Shovel, etc., 5 cu. yds. and over; Canal Trimmer

Group 18: Crane, over 200 ton; Whirley, 150 ton and over; Floating Crane 150 ton but less than 250 ton; Wheel Excavator, over 750 cu. yds. per hour; Band Wagons, in conjunction with Wheel Excavator

Group 19: Helicopter, when used in erecting work; Floating Crane 250 ton and over; Remote Controlled Earth Moving Equipment; Underwater equipment, remote or otherwise

PRIME BENEFITS:  
Health & Welfare  
Pensions  
No. 1: See ZONE DEFINITIONS following TRUCK DRIVERS Classifications

Group 1: Flat Bed Truck, single rear axle; Backst Driver;  
Fork Lift, 3,600 pounds and under; Fuel Truck Driver (Steam Cleaner  
and Washer); Helper and Swamper; Leverperson loading Trucks at Bunkers;  
Pick-up hauling material; Seeder and Mulcher; Stationary Fuel Operator;  
Team Driver; Tractor (small rubber tired pulling trailer or similar  
equipment); Water Tank Truck 1,800 gallons.

Group 2: Bus Driver or Employeehaul Driver; Flat Bed Truck, dual  
rear axle; Power Boat hauling employees or material; Tireperson  
No. 1; Warehouseperson

Group 3: Buggy Mobile and similar; Bulk Cement Tanker; Oil Tank  
Driver; Power operated Sweeper; Semi-trailer, Low Bed, Truck and  
Trailer; Straddle Carrier (Ross Hyster and similar); Transit Mixers  
and Trucks hauling concrete (3 yards and under); Trucks, side, end,  
and bottom dump (under 6 yards); Water Tank Truck (1,801 - 4,000  
gallons)

Group 4: Auto Crane - 2,000 pounds capacity; Bulk Ement Spreader;  
Dumpton (56 yards and under); Flaherty Spreader, Box Driver; Flat  
Bed Truck (using power take off); Fork Lift (over 3,000 pounds);  
Oil Distributor Driver (road, bootperson, leverperson helper); Rubber-  
tired tunnel jumbo; Scissor Truck; Slurry Truck Driver; Transit  
Mixers and Trucks hauling concrete (over 3 yards to 6 yards); Water  
Tank Truck (4,001 - 6,000 gallons); Wrecker and Tow Trucks

FEDERAL REGISTER, VOL. 43, NO. 251—FRIDAY, DECEMBER 29, 1978

## TRUCK DRIVERS (AREA 1) (Cont'd)

All Counties and portions of Counties East of the 120th Meridian

- Group 5: Low Boy (under 50 tons); Service Grusser; Tireperson No.  
2; Truck, side, end, and bottom dump (over 8 yards to 12 yards)
- Group 6: A-Frame (Swedish Crane, Iowa 3,000, Hydrolift); Water Tank  
Truck (6,001 - 8,000 gallons)
- Group 7: Dumpton (over 6 yards); Transit Mixers and Trucks hauling  
concrete (6 yards to 10 yards); Trucks, side, end, and bottom dump  
(over 11 yards including 20 yards)
- Group 8: Low Boy (over 50 tons); Water Tank Truck (8,001 - 10,000  
gallons); Tractor with Steer Trailer
- Group 9: Transit Mixers and Trucks hauling concrete (10 yards to  
15 yards); Trucks, side, end and bottom dump (over 20 yards including  
30 yards); Water Tank Truck (10,001 - 12,000 gallons)
- Group 10: Mechanic, Field
- Group 11: Tournarocker, D.M.'s and similar, with 2 or 4 wheel power  
tractor with trailer, gallonage or yardage scale, which is greater;  
Transit Mixers and Trucks hauling concrete (15 yards to 20 yards);  
Trucks, side, end and bottom dump (over 30 yards to 40 yards); Water  
Tank Truck (12,001 - 14,000 gallons)
- Group 12: Transit Mixers and Trucks hauling concrete (over 30 yards);  
Trucks, side, end and bottom dump (over 40 yards to 50 yards)
- Group 13: Truck, side, end and bottom dumps (over 50 yards to 100  
yards)
- Group 14: Helicopter Pilot hauling employees or material; Trucks,  
side, end and bottom dump (over 100 yards)
